(2) The product name and net quantity of each commercial feed and each other ingredient used in the customer-formula feed must be on file at the plant producing the product. These records do not have to be delivered with the customer-formula feed, but they must be:

- (a) Kept on file for at least one year after the date of the last distribution;
- (b) Available to the purchaser, the dealer making the distribution, and the department on request; and
- (c) Meet the ingredient statement requirements of WAC 16-250-090.

(3) In addition to the requirements of this chapter, if the term "organic" is used on labels or shipping documents of any customer-formula feed, the feed must be produced under conditions that comply with the 2001 National Organic Program final rule standards for the production and handling of organic crops, livestock and processed food products. The

(2007 Ed.)

2001 National Organic Program final rule may be obtained from the department, or on the internet at <http://www.ams.usda.gov/nop/NOP/standards.html>.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-020, filed 11/19/03, effective 7/1/04.]

WAC 16-250-028 Commercial feed labeling required except customer-formula feed. Except for customer-formula feed, a label complying with the requirements in WAC 16-250-030 and 16-250-035 must accompany all commercial feed offered for distribution. This includes both packaged and bulk commercial feeds. (Customer-formula feed must comply with the requirements in WAC 16-250-020.)

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-028, filed 11/19/03, effective 7/1/04.]

WAC 16-250-030 Recordkeeping requirements and label information required on all commercial feed labels except customer-formula feed. All commercial feed labels, except for customer-formula feed, must contain the information described in this section. The information in subsections (1) through (8) of this section must appear on the label of the product in the following order. The information in subsection (9)(a) of this section must be on the label, container, or package, but may be in a different location than the information in subsections (1) through (8) of this section.

(1) Product name and brand name, if any, consistent with requirements in WAC 16-250-040.

(2) Drugs used in the feed, if any, consistent with requirements in WAC 16-250-042.

(3) Purpose of feed statement consistent with requirements in WAC 16-250-045.

(4) Guarantees consistent with requirements in WAC 16-250-050 through 16-250-076.

(5) Feed ingredient statement consistent with requirements in WAC 16-250-090.

(6) Directions for use and precautionary statements or a reference to their location, if any, required detailed feeding directions and precautionary statements appear elsewhere on the label consistent with requirements in WAC 16-250-100 and 16-250-075(3).

(7) Name and principal mailing address of the manufacturer or person responsible for distributing the feed. The principal mailing address must include the street address, city, state, and zip code. Except that the street address may be omitted if it is shown in the current city directory or telephone directory where the manufacturer or person responsible for distributing the feed is located.

(8) Quantity statement.

(9)(a) Lot identifier that is sufficient to allow the manufacturer to accurately trace the complete manufacturing and distribution history of the product.

(b) Records relating the lot identifier to the manufacture, processing, packing, distribution, receipt, or holding of the product must be kept for one year after the last date of distribution.

(10) In addition to the requirements of this chapter, if the term "organic" is used on labels of any commercial feed, the feed must be produced under conditions that comply with the 2001 National Organic Program final rule standards for the production and handling of organic crops, livestock and pro-

cessed food products. The 2001 National Organic Program final rule may be obtained from the department, or on the internet at <http://www.ams.usda.gov/nop/NOP/standards.html>.

(11) All required label information must be stated in English. In addition, label information may be translated into other languages. However, if the label is translated into another language, then the translation must give the same information as the English version of the label.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-030, filed 11/19/03, effective 7/1/04.]

WAC 16-250-035 Format required for all commercial feed labels except customer-formula feed. (1)(a) The following label information must appear in its entirety, in the following order, on one side of the label or container of all commercial feed except customer-formula feed:

- (i) Product name and brand name, if any;
- (ii) Drug used, if any drug is used;
- (iii) Purpose of feed statement;
- (iv) Guaranteed analysis;
- (v) Feed ingredients;
- (vi) Directions for use and precautionary statements or reference to their location if they appear elsewhere on the label;
- (vii) Name and principal mailing address of the manufacturer or person responsible for distributing the feed; and
- (viii) Quantity statement.

(b) A lot identifier must appear on the label of all commercial feed, but may be in a different location than the information required by (a) of this subsection.

(2)(a) If a reference to the location of the directions for use and precautionary statements is made on the principal label, the directions for use and precautionary statements must be displayed in a prominent place on the label or container but not necessarily on the same side as the information required in subsection (1)(a) of this section.

(b) When directions for use or precautionary statements are placed on a different side of the label or container than the information required in subsection (1)(a) of this section, there must be a statement on the same side of the label or container that the information required in subsection (1)(a) of this section is printed such as "see back of label for directions for use."

(3) When the Bovine Spongiform Encephalopathy precautionary statement "do not feed to cattle or other ruminants" is required by 21 CFR, Part 589.2000, it must appear in a prominent place on the label.

Note: A copy of 21 CFR, Part 589.2000 is available from the department. It is also available on the internet at <http://www.gpoaccess.gov/cfr/retrieve.html>.

(4) The information required in WAC 16-250-030 must not be subordinated or obscured by other statements or designs.

(5) Printed or written material or design (for example, pictures of animals or birds) of any kind must not be attached to, appear on, or distributed with commercial feed if the material or design is misleading, incorrect, or at variance in any respect with the information required on the label.

(6)(a) Statements referring to a competitive product or comparing the properties of a packaged feed to those of a

competitive product must not appear on a label unless the competitive product is specifically identified.

(b) Negative statements regarding a competitive product must not appear on a label unless the director determines that the information provided by the statements is beneficial to the product's purchaser.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-035, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-035, filed 11/19/03, effective 7/1/04.]

WAC 16-250-040 Product or brand name label information required for all commercial feeds except customer-formula feed. The following label requirements apply to any commercial feed, except customer-formula feed, distributed under a product or brand name:

(1) The brand or product name must be appropriate for the intended use of the feed and must not be misleading. If the name indicates the feed is made for a specific use, the character of the feed must conform to that use. For example, a mixture labeled "dairy feed" must be suitable for dairy animals.

(2) When reviewing product names for single ingredient feeds, the department will be guided by the definitions of feed ingredients and feed terms established by the Association of American Feed Control Officials' official publication unless those definitions and terms are specifically defined in chapter 15.53 RCW or WAC 16-250-010 and 16-250-015.

(3) Except for the circumstances described in subsection (4) of this section, the name of a commercial feed must not be derived from:

(a) One or more ingredients of a mixture to the exclusion of the other ingredients; or

(b) One component of a mixture unless all components are included in the name.

(4) When a commercial feed contains any ingredient or combination of ingredients for the purpose of imparting a distinct characteristic to the product that is significant to the purchaser, the name of that ingredient or combination of ingredients may be used as part of the brand name or product name if the department determines that the:

(a) Ingredient or combination of ingredients is present in sufficient quantity to impart a distinctive characteristic to the product;

(b) Product name does not constitute a representation that the ingredient or combination of ingredients is present to the exclusion of other ingredients; and

(c) Product name is not otherwise false or misleading.

(5) The word "vitamin" or a contraction of it, or any word suggesting vitamin, can only be used in the name of a feed that is:

(a) Represented to be a vitamin supplement; and

(b) Labeled with the minimum content, as specified in WAC 16-250-073, of each vitamin declared.

(6) The term "mineralized" may only be used in a feed name for "trace mineralized salt" and must not be used in the name of any other feed. "Trace mineralized salt" must contain significant amounts of trace minerals that are recognized as essential for animal nutrition.

(7)(a) If a brand name includes a single percentage value without explanation, the percentage value must signify the feed's crude protein content. For example, "BLUE BIRD FEEDS

18% Dairy Feed" means that the feed contains eighteen percent crude protein.

(b) If a brand name includes a single percentage value and the percentage does not represent crude protein content, the brand name must indicate what the percentage represents. For example, "BLUE BIRD FEEDS 2.0% Selenium Concentrate Premix."

(c) If a brand name includes more than one percentage value, the percentage must be followed by a corresponding description. For example, "BLUE BIRD FEEDS 20% Crude Protein/20% Fat Calf Milk Replacer."

(d) If the brand name contains either a percentage value that signifies crude protein or the word "protein," then the feed must contain no more than one and one-quarter percent nonprotein nitrogen.

(8) Commercial feed must be considered a distinct brand if it differs in guaranteed analysis, trademark name, or any other characteristic method of marking. However, this requirement does not prevent a brand from being distributed in various physical forms.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-040, filed 11/19/03, effective 7/1/04.]

WAC 16-250-042 Label information required when a drug is used in commercial feed. If a drug is used in commercial feed, the label must contain:

(1) The word "medicated" appearing directly after and below the product name in a type size that is at least one-half the type size of the product name.

(2) A purpose of feed statement as required in WAC 16-250-045.

(3) Information stating the purpose of the medication.

(4) An active ingredient statement listing the:

(a) Active drug ingredients by established name; and

(b) Amount of active drug ingredient per unit (for example mg/lb, g/ton) consistent with requirements in WAC 16-250-074.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-042, filed 11/19/03, effective 7/1/04.]

WAC 16-250-045 Purpose of feed statement requirements for commercial feed, except grain mixture feeds.

Note: This section applies to:

- (1) Medicated customer-formula feed; and
- (2) All commercial feeds, except feed distributed under WAC 16-250-065, whether medicated or not.

(1) A purpose statement is not required for grain mixture feeds.

(2) The purpose of feed statement must contain the species and animal class or classes for which the feed is intended.

(3) Animal classes for many species are listed in WAC 16-250-052 through 16-250-060. The manufacturer has the flexibility to use more specific and common language to describe these animal classes, species, and purpose of feed, especially when describing such things as the weight range, sex, or age of the animal for which the feed is manufactured.

(4) The purpose of feed statement may contain multiple species and classes, as long as the feed is nutritionally suitable for all of the species and classes of animals listed, and

(2007 Ed.)

the guaranteed analysis includes all of the nutrients that must be guaranteed for each species.

(5) The purpose of feed statement may be excluded from the label if the product name includes a description of the species and animal class or classes for which the product is intended.

(6) If enzymatic activity related to the product is represented in any manner, the purpose of feed statement must include a statement explaining the purpose of that enzymatic activity.

(7) The purpose of feed statement for a commercial feed intended to provide a specialized nutritional source for use in the manufacture of other feeds such as a premix (see WAC 16-250-068) may replace animal class and species information with the words "for further manufacture of feed" if:

(a) The nutrients contained in the premix are guaranteed and sufficient for formulation into various animal species feeds; and

(b) The final user of the premix provides premix specifications.

(8) The purpose of feed statement of a single purpose ingredient blend, such as a blend of animal protein products, milk products, fat products, roughage products or molasses products may exclude the animal class and species information and state instead "for further manufacture of feed" if the label guarantees of the nutrients contained in the single purpose nutrient blend are sufficient for formulation into various animal species feed. See WAC 16-250-068 for regulations pertaining to single purpose ingredient blends.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-045, filed 11/19/03, effective 7/1/04.]

WAC 16-250-050 Guarantee requirements that apply to WAC 16-250-052 through 16-250-065.

Note: "Guarantee" means a listing of specified nutrients or non-nutritive substances contained in a commercial feed that the manufacturer or distributor named on the feed label warrants as specified in these rules. See WAC 16-250-010(16).

The requirements in subsections (1) through (4) of this section apply to WAC 16-250-052 through 16-250-065.

(1) Complete feeds and feeds intended to be mixed with grain to produce complete feed for the following animal classes and/or species always require a mineral guarantee:

- (a) Swine;
- (b) Poultry;
- (c) Fish; and
- (d) Veal and herd milk replacers.

(2) When stated on a commercial feed label, nutritional guarantees must be listed in the following order:

- (a) Crude protein;
- (b) Crude protein from nonprotein nitrogen;
- (c) Amino acids;
- (d) Crude fat;
- (e) Crude fiber;
- (f) Acid detergent fiber;
- (g) Calcium;
- (h) Phosphorus;
- (i) Salt;
- (j) Sodium.

(3) Other required and/or voluntary guarantees should follow those listed in subsection (2) of this section grouped

by the unit (percentage, parts per million, International Units, etc.) of measure used to express the guarantees. For example, all guarantees measured by parts per million should be grouped together.

(4) The use of commercial, copyrighted brand, or trade names in the guarantees statement is prohibited.

(5) The following requirements apply to WAC 16-250-052 through 16-250-063:

(a) Commercial feed must be labeled for the animal class or classes for which it is intended.

(b) Commercial feed must also be nutritionally suitable for each and every class for which it is labeled.

(c) WAC 16-250-052 through 16-250-063 contains a series of animal class tables. When a manufacturer uses the class terms in the tables, the feed must be suitable for the class as defined in the table.

(d) Instead of the class terms used in the tables, a manufacturer may use more specific and common language to describe animal classes, especially when describing attributes such as the weight range, sex, or age of the animal for which the feed is manufactured.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-050, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-050, filed 11/19/03, effective 7/1/04.]

WAC 16-250-051 Exemptions from the guarantees required in WAC 16-250-052 through 16-250-063. The following exemptions apply to WAC 16-250-052 through 16-250-063:

(1) Guarantees for crude protein, crude fat, and crude fiber are not required when:

(a) The commercial feed is intended for purposes other than to furnish these substances; or

(b) These substances are insignificant to the primary purpose of the product, such as drug premixes, mineral or vitamin supplements, and molasses.

(2) A mineral guarantee is not required when the feed or feed ingredient is not intended, represented, or does not serve as a principal source of that mineral to the animal.

(3) Guarantees for vitamins are not required when the commercial feed is neither formulated for nor represented in any manner as a vitamin supplement.

(4) Guarantees for microorganisms are not required when:

(a) The commercial feed is intended for a purpose other than to furnish these substances; or

(b) These substances are insignificant to the primary purpose of the product, and no specific label claims are made.

(5) The information on animal class or classes and species is not required on single ingredient products if the ingredient is not intended, represented, or defined for a specific animal class or species.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-051, filed 11/19/03, effective 7/1/04.]

[Title 16 WAC—p. 318]

WAC 16-250-052 Guarantees for all swine commercial feed except customer-formula feed.

(1)

Swine	
Classes	Approximate Size
Prestarter	2 to 11 pounds
Starter	11 to 44 pounds
Grower	44 to 110 pounds
Finisher (market)	110 to 242 pounds
Gilts, sows and adult boars	None specified
Lactating gilts and sows	None specified

(2) Guaranteed analysis for all animal classes of swine commercial feed must include the following nutrients on the label in the order listed below:

(a) Minimum percentage of crude protein;

(b) Minimum percentage of lysine;

(c) Minimum percentage of crude fat;

(d) Maximum percentage of crude fiber;

(e) Minimum and maximum percentage of calcium;

(f) Minimum percentage of phosphorus;

(g) Minimum and maximum percentage of salt (if added);

(h) Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;

(i) Minimum selenium in parts per million (ppm);

(j) Minimum zinc in parts per million (ppm).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-052, filed 11/19/03, effective 7/1/04.]

WAC 16-250-053 Guarantees for all poultry commercial feed (broilers, layers and turkeys) except customer-formula feed.

(1)

Layer - Chickens grown to produce eggs for food, for example, table eggs	
Classes	Approximate Age
Starting/growing	From day hatched to 10 weeks
Finisher	From 10 weeks to the time the first egg is produced (20 weeks)
Laying	From the time the first egg is laid to the end of the chicken's egg production
Breeder (chickens that produce fertile eggs for hatch replacement layers that lay eggs for food such as table eggs)	From the time the first egg is laid to the end of the chicken's productive cycle

Broiler - Chickens grown for human food	
Classes	Approximate Age
Starting/growing	From day hatched to 5 weeks
Finisher	From 5 weeks to market, 42 to 52 days

(2007 Ed.)

Broiler - Chickens grown for human food	
Classes	Approximate Age
Breeders - Hybrid strains of chickens, any age and either sex, whose offspring are grown for human food (broilers)	Any age

Broiler-Breeder - Chickens whose offspring are grown for human food	
Classes	Approximate Age
Starting/growing	From day hatched to 10 weeks
Finishing	From 10 weeks to the time the first egg is produced (20 weeks)
Laying (fertile egg producing chickens-broilers/roasters)	From day of first egg to the end of fertile egg production

Turkey		
Classes	Purpose	Approximate Age
Start-ing/growing	Turkeys grown for human food	Females - From day hatched to 13 weeks Males - From day hatched to 16 weeks
Finisher	Turkeys grown for human food	Females - From 13 weeks to 17 weeks Males - From 16 weeks to 20 weeks or the desired market weight
Laying	Female turkeys producing eggs	From the time the first egg is produced to the end of egg production
Breeder	Turkeys grown to produce fertile eggs (both sexes)	From day hatched to time first egg is produced (30 weeks)

(2) Guaranteed analysis for all animal classes of poultry commercial feed must include the following nutrients on the label in the order listed below:

- Minimum percentage of crude protein;
- Minimum percentage of lysine;
- Minimum percentage of methionine;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Minimum and maximum percentage of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-053, filed 11/19/03, effective 7/1/04.]

WAC 16-250-054 Guarantees for all beef cattle commercial feed except customer-formula feed.

(1)

(2007 Ed.)

Beef Cattle	
Classes	Production Stage
Calves	Birth to weaning
Cattle on pasture	May be stated in terms of specific production stage, for example, stocker, feeder, replacement heifers, brood cows, bulls, etc.
Feedlot cattle	None specified

(2) Guaranteed analysis for all animal classes of beef cattle commercial feed must include the following nutrients on the label in the order listed below:

- Minimum percentage of crude protein;
- Maximum percentage of crude protein from nonprotein nitrogen (NPN) when added;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Minimum and maximum percentage of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- Minimum percentage of potassium;
- Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(3) Guaranteed analysis for all beef cattle commercial mineral feeds must include the following nutrients (if added) on the label in the order listed below:

- Minimum and maximum percentage of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt;
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- Minimum percentage of magnesium;
- Minimum percentage of potassium;
- Minimum copper in parts per million (ppm);
- Minimum selenium in parts per million (ppm);
- Minimum zinc in parts per million (ppm);
- Minimum vitamin A, other than precursors of vitamin A, in International Units per pound.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-054, filed 11/19/03, effective 7/1/04.]

WAC 16-250-055 Guarantees for all dairy cattle commercial feed except customer-formula feed.

(1)

Dairy Cattle	
Classes	Production Stage
Veal milk replacer	Milk replacer fed for veal production
Herd milk replacer	Milk replacer fed for herd replacement calves
Starter	From 3 days to 3 months
Growing heifers, bulls and dairy beef	Grower 1 - 3 months to 12 months
	Grower 2 - More than 12 months
Lactating	Cows in milk

[Title 16 WAC—p. 319]

Dairy Cattle	
Classes	Production Stage
Nonlactating	Dry cows

(2) Guaranteed analysis for veal and herd replacement milk replacer commercial feed must include the following nutrients on the label in the order listed below:

- (a) Minimum percentage of crude protein;
- (b) Minimum percentage of crude fat;
- (c) Maximum percentage of crude fiber;
- (d) Minimum and maximum percentage of calcium;
- (e) Minimum percentage of phosphorus;
- (f) Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(3) Guaranteed analysis for all animal classes of dairy cattle commercial feed must include the following nutrients on the label in the order listed below:

- (a) Minimum percentage of crude protein;
- (b) Maximum percentage of crude protein from nonprotein nitrogen (NPN) when added;
- (c) Minimum percentage of crude fat;
- (d) Maximum percentage of crude fiber;
- (e) Maximum percentage of acid detergent fiber (ADF);
- (f) Minimum and maximum percentage of calcium;
- (g) Minimum percentage of phosphorus;
- (h) Minimum selenium in parts per million (ppm);
- (i) Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(4) Guaranteed analysis for all dairy cattle mixing and pasture mineral commercial feeds must include the following nutrients (if added) on the label in the order listed below:

- (a) Minimum and maximum percentage of calcium;
- (b) Minimum percentage of phosphorus;
- (c) Minimum and maximum percentage of salt;
- (d) Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- (e) Minimum percentage of magnesium;
- (f) Minimum percentage of potassium;
- (g) Minimum selenium in parts per million (ppm);
- (h) Minimum vitamin A, other than the precursors of vitamin A, in International Units per pound.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-055, filed 11/19/03, effective 7/1/04.]

WAC 16-250-056 Guarantees for all equine commercial feed except customer-formula feed.

(1)

Equine	
Classes	Approximate Age
Foal	Age ranges are not specified
Mare	
Breeding	
Maintenance	

(2) Guaranteed analysis for all animal classes of equine commercial feed must include the following nutrients on the label in the order listed below:

- (a) Minimum percentage of crude protein;
- (b) Minimum percentage of crude fat;
- (c) Maximum percentage of crude fiber;

- (d) Minimum and maximum percentage of calcium;
 - (e) Minimum percentage of phosphorus;
 - (f) Minimum copper in parts per million (ppm);
 - (g) Minimum selenium in parts per million (ppm);
 - (h) Minimum zinc in parts per million (ppm);
 - (i) Minimum vitamin A, other than the precursors of vitamin A, in International Units per pound (if added).
- (3) Guaranteed analysis for all equine commercial mineral feeds must include the following nutrients (if added) on the label in the order listed below:
- (a) Minimum and maximum percentage of calcium;
 - (b) Minimum percentage of phosphorus;
 - (c) Minimum and maximum percentage of salt (if added);
 - (d) Minimum and maximum percentage of sodium must be guaranteed only when the total sodium exceeds that furnished by the maximum salt guarantee;
 - (e) Minimum copper in parts per million (ppm);
 - (f) Minimum selenium in parts per million (ppm);
 - (g) Minimum zinc in parts per million (ppm);
 - (h) Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-056, filed 11/19/03, effective 7/1/04.]

WAC 16-250-057 Guarantees for all goat and sheep commercial feed except customer-formula feed.

(1)

Goat and Sheep	
Classes	Approximate Age
Starter	Age ranges are not specified
Grower	
Finisher	
Breeder	
Lactating	

(2) Guaranteed analysis for all animal classes of goat and sheep commercial feed must include the following nutrients on the label in the order listed below:

- (a) Minimum percentage of crude protein;
- (b) Maximum percentage of crude protein from nonprotein nitrogen (NPN) when added;
- (c) Minimum percentage of crude fat;
- (d) Maximum percentage of crude fiber;
- (e) Minimum and maximum percentage of calcium;
- (f) Minimum percentage of phosphorus;
- (g) Minimum and maximum percentage of salt (if added);
- (h) Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- (i) Minimum and maximum copper in parts per million (ppm) (if added, or if total copper exceeds 20 ppm);
- (j) Minimum selenium in parts per million (ppm);
- (k) Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-057, filed 11/19/03, effective 7/1/04.]

WAC 16-250-058 Guarantees for all duck and goose commercial feed except customer-formula feed.

(1)

Ducks	
Classes	Approximate Age
Starter	0 to 3 weeks
Grower	3 to 6 weeks
Finisher	6 weeks to market
Breeder developer	8 to 19 weeks
Breeder	22 weeks to end of lay

Geese	
Classes	Approximate Age
Starter	0 to 4 weeks
Grower	4 to 8 weeks
Finisher	8 weeks to market
Breeder developer	10 to 22 weeks
Breeder	22 weeks to end of lay

(2) Guaranteed analysis for all animal classes of duck and goose commercial feed must include the following nutrients on the label in the order listed below:

- Minimum percentage of crude protein;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Minimum and maximum percentage of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-058, filed 11/19/03, effective 7/1/04.]

WAC 16-250-059 Guarantees for all fish commercial feed except customer-formula feed and specialty pet food.

(1)

Fish	
Class (Species)	Approximate Age
Trout	Age ranges are not specified
Catfish	
Species other than trout or catfish	

(2) Guaranteed analysis for animal species for fish commercial feed must include the following nutrients on the label in the order listed below:

- Minimum percentage of crude protein;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Minimum percentage of phosphorus.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-059, filed 11/19/03, effective 7/1/04.]

WAC 16-250-060 Guarantees for all rabbit commercial feed except customer-formula feed.

(1)

(2007 Ed.)

Rabbit	
Classes	Approximate Age
Grower	4 to 12 weeks
Breeder	12 weeks of age and over

(2) Guaranteed analysis for all animal classes of rabbit commercial feed must include the following nutrients on the label in the order listed below:

- Minimum percentage of crude protein;
- Minimum percentage of crude fat;
- Minimum and maximum percentage of crude fiber (the maximum crude fiber must not exceed the minimum by more than 5.0 units);
- Minimum and maximum percentage of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-060, filed 11/19/03, effective 7/1/04.]

WAC 16-250-063 Guarantees for commercial feeds for animal species not specified in WAC 16-250-052 through 16-250-060 or in chapter 16-252 WAC, except customer-formula feed. Except for the following commercial feeds:

- Customer-formula feed; and
- Feeds exempted by WAC 16-250-051; and
- Feeds for animals covered in WAC 16-250-052 through 16-250-060; and
- Feeds for animals covered in chapter 16-252 WAC.

The guaranteed analysis for all commercial feed must include the following nutrients listed in this section on the label in the order below:

- Minimum percentage of crude protein;
- Maximum or minimum percentage of crude protein from nonprotein nitrogen consistent with requirements in WAC 16-250-075;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Minimum and maximum percentages of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);
- Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;
- Other minerals.

Note:

WAC	Animal
16-250-052	Swine
16-250-053	Poultry (broiler, layers, and turkeys)
16-250-054	Beef cattle
16-250-055	Dairy cattle
16-250-056	Equine

WAC	Animal
16-250-057	Goats and sheep
16-250-058	Ducks and geese
16-250-059	Fish
16-250-060	Rabbits
Chapter 16-252 WAC	Pets and specialty pets

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-063, filed 11/19/03, effective 7/1/04.]

WAC 16-250-065 Guarantees for grain mixture commercial feeds, except customer-formula feed. Guaranteed analysis for all commercial grain mixture feeds must include the following nutrients on the label in the order listed below:

- (1) Minimum percentage of crude protein;
- (2) Minimum percentage of crude fat; and
- (3) Maximum percentage of crude fiber.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-065, filed 11/19/03, effective 7/1/04.]

WAC 16-250-067 Guarantees for commercial feed sold primarily for sugar content. Dried molasses products and other products being distributed primarily for their sugar content must be guaranteed for total sugars as invert (a unit of measurement expressed as a percentage).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-067, filed 11/19/03, effective 7/1/04.]

WAC 16-250-068 Guarantees for vitamin/mineral premix and base mix commercial feed. (1) Commercial feeds such as vitamin/mineral premix and base mix that are intended as a specialized nutritional source for use in the manufacture of other feeds, must state their intended purpose and guarantee those nutrients relevant to that purpose.

(2) When approved by the department, guarantees may be made for these special feeds even if there are no approved Association of Official Analytical Chemists (AOAC) methods for determining specific nutritional content of these specialized feeds.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-068, filed 11/19/03, effective 7/1/04.]

WAC 16-250-069 Expression of guarantees—Expressed as is. All guarantees must be expressed on an "as is" basis rather than on a "one hundred percent moisture free" basis.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-069, filed 11/19/03, effective 7/1/04.]

WAC 16-250-070 Expression of guarantees—Sliding-scale method prohibited. The sliding-scale method of expressing guarantees (for example, "protein fifteen to eighteen percent") is prohibited.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-070, filed 11/19/03, effective 7/1/04.]

WAC 16-250-071 Expression of guarantees—Protein, amino acids, fat, and fiber. The guarantees for crude protein, crude protein from nonprotein nitrogen, lysine, methionine, other amino acids, crude fat, crude fiber, and acid detergent fiber must be expressed in percentages.

[Title 16 WAC—p. 322]

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-071, filed 11/19/03, effective 7/1/04.]

WAC 16-250-072 Expression of guarantees—Minerals. (1) Mineral guarantees:

(a) When the calcium, salt, and sodium guarantees are given in the guaranteed analysis, they must be stated and conform to the following:

(i) When the minimum is below 2.5%, the maximum must not exceed the minimum by more than 0.5 percentage points.

(ii) When the minimum is 2.5% but less than 5.0%, the maximum must not exceed the minimum by more than one percentage point.

(iii) When the minimum is 5.0% or greater, the maximum must not exceed the minimum by more than 20% of the minimum and in no case may the maximum exceed the minimum by more than five percentage points.

(b) When stated, certain mineral guarantees must be expressed as follows:

Sodium, Salt, Potassium, Magnesium, Sulfur, Phosphorus, Fluorine, Other	
Mineral Guarantee:	Expresses As:
Minimum and maximum total sodium	Percentage (%)
Minimum and maximum salt	Percentage (%)
Minimum potassium	Percentage (%)
Minimum magnesium	Percentage (%)
Minimum sulfur	Percentage (%)
Minimum phosphorus	Percentage (%)
Maximum fluorine	Percentage (%)
Other minimum mineral guarantees	Parts per million (ppm) when the concentration is less than 10,000 ppm
Other minimum mineral guarantees	Percentage when the concentration is 10,000 ppm (1%) or greater

(c) Minerals, except salt, when quantitatively guaranteed, must be stated in terms of percentage of the element.

(d) Products labeled with a quantity statement (for example, tablets, capsules, granules, or liquid) may state mineral guarantees in milligrams (mg) per unit (for example, milligrams per tablet or milligrams per capsule) consistent with the quantity statement and the directions for use.

(2) All mineral phosphatic materials used for feeding purposes must be labeled with the guarantee for:

(a) Minimum and maximum percentage of calcium (when present);

(b) Minimum percentage of phosphorus; and

(c) Maximum percentage of fluorine.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-072, filed 11/19/03, effective 7/1/04.]

WAC 16-250-073 Expression of guarantees—Minimum vitamin content. Guarantees of minimum vitamin content for commercial feeds must be listed in the order shown in the following table. The guarantees must be stated in:

- (1) Milligrams per pound; or

(2) Per unit consistent with the units on the quantity statement; or

(3) For the vitamins listed in the following table, the units must be consistent with those in the table:

Vitamins	
Type of Vitamin and Listing Order:	Stated in:
Vitamin A, other than precursors of vitamin A	International Units per pound (IU/lb)
Vitamin D-3 in products offered for poultry feeding	International Chick Units per pound (ICU/lb)
Vitamin D, for other uses	International Units per pound (IU/lb)
Vitamin E	International Units per pound (IU/lb)
Concentrated oils and feed additive premixes containing vitamins A, D, and/or E	May, at the option of the distributor, be stated in units per gram (g) instead of units per pound (lb)
Vitamin B-12	Milligrams (mg) or micrograms (µg) per pound (lb)
Menadione, riboflavin, d-pantothenic acid, thiamine, niacin, vitamin B-6, folic acid, choline, biotin, inositol, p-amino benzoic acid, ascorbic acid, and carotene	Milligrams per pound (mg/lb)

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-073, filed 11/19/03, effective 7/1/04.]

WAC 16-250-074 Expression of guarantees—Drugs. Guarantees for drugs must be stated in terms of percent by weight **except for the following:**

Drugs	
Antibiotics, present at less than 2,000 grams per ton (total) of commercial feed	Grams per ton of commercial feed (g/ton)
Antibiotics, present at 2,000 or more grams per ton (total) of commercial feed	Grams per pound of commercial feed (g/lb)
Note: The term "milligrams per pound" (mg/lb) may be used for drugs or antibiotics in those cases where a dosage is given in "milligrams" in the feeding directions.	

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-074, filed 11/19/03, effective 7/1/04.]

WAC 16-250-075 Expression of guarantees and special requirements—Commercial feeds containing any added nonprotein nitrogen. (1) Commercial feeds containing any added nonprotein nitrogen must be labeled as follows:

(a) For ruminants:

(i) Complete feeds, supplements, and concentrates containing added nonprotein nitrogen and containing more than five percent protein from natural sources must be guaranteed as follows:

Crude protein, minimum, %

(This includes not more than. . . . % equivalent crude protein from nonprotein nitrogen.)

(2007 Ed.)

(ii) Mixed feed concentrates and supplements containing less than five percent protein from natural sources may be guaranteed as follows:

Equivalent crude protein from nonprotein nitrogen, minimum, %

(iii) Ingredient sources of nonprotein nitrogen such as urea, diammonium phosphate, ammonium polyphosphate solution, ammoniated rice hulls, or other basic nonprotein nitrogen ingredients as defined by the Association of American Feed Control Officials official publication must be guaranteed as follows:

Nitrogen, minimum, %

Equivalent crude protein from nonprotein nitrogen, minimum, %

(b) For nonruminants:

(i) Complete feeds, supplements and concentrates containing crude protein from all forms of added nonprotein nitrogen must be labeled as follows:

Crude protein, minimum, %

This includes not more than % equivalent crude protein, which is not nutritionally available to (species of animal for which feed is intended).

(ii) Premixes, concentrates or supplements intended for nonruminants containing more than one and one-quarter percent crude protein from all forms of added nonprotein nitrogen must contain adequate directions for use and a prominent statement such as the following:

WARNING: This feed must be used only in accordance with directions furnished on the label.

(2) Urea and other nonprotein nitrogen products, as defined in the Association of American Feed Control Officials official publication, are accepted sources of crude protein only in commercial feeds for ruminant animals.

(3)(a) Commercial feed must be labeled with adequate directions for the feed's safe use and a precautionary statement that reads, "CAUTION: USE AS DIRECTED" in the location specified in WAC 16-250-020 or 16-250-035 if it contains more than:

(i) Eight and three-quarters percent crude protein from all forms of added nonprotein nitrogen; or

(ii) One-third of the total crude protein content as added nonprotein nitrogen.

(b) The directions for use and caution statements must be printed in a type size and placed on the label in the location specified in WAC 16-250-020 or 16-250-035 so they can be read and understood by an ordinary person purchasing and using the feed in a customary way.

(4) Commercial feed products containing added nonprotein nitrogen do not require duplicate feeding directions or warning or caution statements on medicated feed labels as long as those directions and/or statements include sufficient information to ensure the safe and effective use of the product.

(5) In commercial feeds distributed to nonruminant animals, nonprotein nitrogen sources defined in the Association of American Feed Control Officials official publication, are acceptable sources of nutrients other than crude protein, as long as the maximum crude protein from all nonprotein nitrogen sources does not exceed one and one-quarter percent of the nonruminant's total daily ration.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-075, filed 11/19/03, effective 7/1/04.]

WAC 16-250-076 Expression of guarantees—Microorganisms and enzymes. Any commercial feed being distributed as a source of microorganisms or enzymes, including silage additives, must be guaranteed as follows:

(1)(a) Guarantees for microorganisms must be stated in colony forming units (CFU) per unit weight or volume, consistent with label directions.

(b) A parenthetical statement following the guarantee must list each species in order of predominance.

(2)(a) Guarantees for enzymes must be stated in units of enzymatic activity per unit weight or volume, consistent with label directions.

(b) The source organism for each type of enzymatic activity must be specified, for example: Protease (*Bacillus subtilis*) 5.5 mg amino acids liberated/minute/milligram.

(c) If two or more sources have the same type of activity, they must be listed in order of predominance based on the amount of enzymatic activity provided.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-076, filed 11/19/03, effective 7/1/04.]

WAC 16-250-080 Substantiating nutritional suitability of commercial feed except for customer-formula feed.

(1) All commercial feeds, except for customer-formula feeds, must be nutritionally suitable for the purpose represented by their labeling.

(2) If the department has reasonable cause to believe a commercial feed is not nutritionally suitable, the department may require that the feed manufacturer either submit an "affidavit of suitability" or a department approved alternative procedure, certifying that the feed is nutritionally adequate for its intended purpose. The affidavit of suitability or alternate procedure substantiates the feed's suitability but does not preclude the department from requiring additional evidence of nutritional suitability.

(3) If an affidavit of suitability, or department approved alternative procedure, is not submitted by the feed manufacturer within thirty days of written notification, the department may declare that the feed's composition or quality is less than or differs from what is represented by its labeling (see RCW 15.53.902(8)) and order the feed removed from the marketplace.

(4) An affidavit of suitability must contain the following information:

(a) The feed licensee's name;

(b) The feed's product name;

(c) The name and title of the affiant submitting the document;

(d) A statement from the affiant that they know the nutritional content of the feed and that the feed, based on valid scientific evidence, is nutritionally adequate for its intended purpose;

(e) The date the affidavit of suitability is submitted to the department; and

(f) The signature of the affiant notarized by a certified notary public.

(5) Example of affidavit:

[Title 16 WAC—p. 324]

Affidavit of Suitability

(Company Name)

(Product Name & Code Number)

1. Affiant is the _____ of _____
(Title) (Name of Company)

and is duly authorized to make and execute this Affidavit for and on behalf of said company.

2. Affiant has knowledge of the nutritional content of the above listed feed product and is familiar with the nutritional requirements for the animal species and animal class(es) for which the feed product is intended.

3. Affiant has knowledge of valid scientific evidence that supports the suitability of the product for the intended animal species and animal class for which this feed is intended. A copy of the product label is attached to this affidavit.

(Name of Company) By _____
(Name and Title)

Subscribed and sworn to before me
this _____ day of _____, 20__

(Notary Public)

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-080, filed 11/19/03, effective 7/1/04.]

WAC 16-250-090 Feed ingredient statement terms and recordkeeping requirements. Feed ingredients listed on the label or on file at the plant producing the product must comply with the following:

(1) The name of each ingredient must conform to one of the following:

(a) Ingredients must have an official definition in the AAFCO official publication;

(b) If there is no official definition for an ingredient in the AAFCO official publication, then an ingredient with an AAFCO tentative definition may be used;

(c) The ingredient is defined in WAC 16-250-015; or

(d) The ingredient has a commonly accepted name that requires no definition, for example, sugar.

(2) Collective terms for the grouping of feed ingredients must be those defined in the Association of American Feed Control Officials official publication. However, when a collective term for a group of ingredients is used on a label:

(a) Individual ingredients within that group must not be listed on the label; and

(b) When requested the manufacturer must give the department a list of individual ingredients, within a defined group, that are or have been used at manufacturing facilities distributing the commercial feed in Washington state. These records must be available to the department for inspection and copying for at least one year after the last date of distribution of the commercial feed.

(3) Ingredients on labels must be listed in descending order by weight.

(4) The specific amount of each ingredient does not need to be listed on the label.

(2007 Ed.)

(5) A single ingredient product, as defined by the Association of American Feed Control Officials official publication, does not need an ingredient statement.

(6) The names of all listed ingredients must be shown in the same size of letters and type.

(7) Commercial, copyrighted, brand, or trade names must not be used in the ingredient statement.

(8) No reference to quality or grade of an ingredient may appear in the ingredient statement.

(9) The term "dehydrated" may precede the name of any product that has been artificially dried.

(10) When the word "iodized" is used in connection with a feed ingredient, the ingredient must contain at least 0.007% iodine, uniformly distributed.

(11) The term "degermed" must precede the name of any product from which germs were wholly or partially removed.

(12) If a drug is used, the drug does not have to be listed in the ingredient statement. However, the drug name is required to be listed on the label (see WAC 16-250-030 and 16-250-035).

(13) Unless meat and meat by-products are made from cattle, swine, sheep or goats, the terms "meat" and "meat by-products" must specifically identify the animal from which they are derived.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-090, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-090, filed 11/19/03, effective 7/1/04.]

WAC 16-250-095 Drug and feed additive requirements. Before the department approves a label for commercial feed that contains additives (including drugs, other special purpose additives, or nonnutritive additives), the distributor may be required to submit evidence satisfactory to the department proving the safety and effectiveness of the commercial feed when used according to the directions on the label.

Satisfactory evidence of the safety and effectiveness of a commercial feed that contains additives (including drugs, other special purpose additives, or nonnutritive additives) is established if one or more of the following apply:

(1) When the use of a commercial feed containing such additives either:

(a) Conforms to the requirements of the applicable regulation in 21 CFR; or

(b) Are "prior sanctioned"; or

(c) Are "informal review sanctioned"; or

(d) "Generally recognized as safe" (GRAS) for such use.

(2) When the commercial feed is itself a drug, and

(a) Is generally recognized as safe (GRAS) and effective for the labeled use; or

(b) Is marketed subject to an application approved by the Food and Drug Administration under 21 U.S.C. 360b as amended effective on the date these rules were adopted.

(3) When one purpose for feeding a commercial feed is to immunize through some immunological process and the immunizing drugs or additives have been approved for the purpose through the Federal Virus, Serum and Toxins Act of 1913, as amended in 1985 (21 U.S.C. 151 et seq.).

(4) When the commercial feed is a directly fed microbial product and the:

(a) Product meets the particular fermentation product definition as defined in the Association of American Feed Control Officials official publication; and

(b) Required microbial content statement in the label is limited to the following: "Contains a source of live (viable) naturally occurring microorganisms"; and

(c) Source is stated with a corresponding guarantee expressed according to WAC 16-250-076 requirements.

(5) When the commercial feed is an enzyme product and the:

(a) Product meets the particular enzyme definition in the Association of American Feed Control Officials official publication; and

(b) Enzyme is stated with a corresponding guarantee expressed according to WAC 16-250-076 requirements.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-095, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-095, filed 11/19/03, effective 7/1/04.]

WAC 16-250-100 Directions for use and precautionary statement requirements. (1) Directions for use and precautionary statements on the required labeling of all commercial feeds containing additives, (including, but not limited to, prohibited mammalian protein, drugs, nonprotein nitrogen, special purpose additives, or nonnutritive additives) must:

(a) Be adequate to enable users with no special knowledge of the purpose and use of the feed to use it safely and effectively for its intended purposes; and

(b) Include all information described by all applicable regulations of 21 CFR, Parts 500-599 under the Federal Food, Drug and Cosmetic Act.

Note: The Food and Drug Administration's regulations are published in the Code of Federal Regulations, and are available in book format from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. They are also available on the internet at <http://www.gpoaccess.gov/cfr/retrieve.html>. A copy of 21 CFR Parts 500-599 is also on file with the department.

(2) Feeds containing nonprotein nitrogen must have adequate directions for use and precautionary statements as specified in WAC 16-250-075.

(3) Adequate directions for use and precautionary statements identified in subsection (1) of this section are required for commercial feeds that are distributed to:

(a) Supply particular dietary needs; or

(b) For supplementing or fortifying the usual diet or ration with any vitamin, mineral, or other dietary nutrient or compound.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-100, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-100, filed 11/19/03, effective 7/1/04.]

WAC 16-250-110 Screenings. (1) When screenings are added to unmixed by-product feed, the label must include the term "screenings":

(a) In the same size of type as the brand name; and

(b) Either as part of or immediately below the brand name.

(2) Screenings must:

(a) Not contain any seed, pesticide, or other product that renders it adulterated within the meaning of RCW 15.53.902; and

(b) Be ground fine enough or otherwise treated to destroy the viability of the noxious weed seeds contained in the screening so that the finished product contains no more than one viable prohibited noxious weed seed per pound and not more than twenty-five viable restricted noxious weed seeds per pound.

(3) For purposes of this commercial feed rule, prohibited noxious weed seeds are those listed in WAC 16-301-045 (Prohibited noxious weed seeds) and restricted noxious weed seeds are those listed in WAC 16-301-050 (Restricted noxious weed seeds).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-110, filed 11/19/03, effective 7/1/04.]

WAC 16-250-120 Adulteration of feed. (1) The terms "poisonous or deleterious substances" as used in RCW 15.53.902 include, but are not limited to, the following:

(a) A commercial feed or feed ingredient that contains more than twenty parts per billion aflatoxin B1, B2, G1, G2, individually or in total.

(b) Fluorine and any mineral or mineral mixture that is used directly to feed domestic animals and in which the fluorine exceeds:

Maximum Allowed Percentage of Fluorine in Minerals	Type of Animal
0.20%	Breeding and dairy cattle
0.30%	Slaughter cattle
0.30%	Sheep
0.35%	Lambs
0.45%	Swine
0.60%	Poultry

(c) Fluorine bearing ingredients when used in such amounts that they raise the fluorine content of the total ration (exclusive of roughage) above the following amounts:

Maximum Allowed Percentage of Fluorine in Ration Excluding Roughage	Type of Animal
0.004%	Breeding and dairy cattle
0.009%	Slaughter cattle
0.006%	Sheep
0.01%	Lambs
0.015%	Swine
0.03%	Poultry

(d) Fluorine bearing ingredients incorporated in any feed that is fed directly to cattle, sheep or goats consuming roughage (with or without) limited amounts of grain, that result in a daily fluorine intake in excess of 50 milligrams of fluorine per 100 pounds of body weight.

(e) Soybean meal, flakes or pellets or other vegetable meals, flakes or pellets that have been extracted with trichloroethylene or other chlorinated solvents.

(f) Sulfur dioxide, sulfurous acid, and salts of sulfurous acid when used in or on feeds or feed ingredients that are considered or reported to be a significant source of vitamin B1 (thiamine).

[Title 16 WAC—p. 326]

(g) Any substance that is prohibited by 21 CFR, Part 589.

(2) When screenings are used in a commercial feed, the labeling and screenings must comply with the requirements in WAC 16-250-110 or the commercial feed will be considered adulterated.

(3) Feed containing raw or unprocessed animal waste will be considered adulterated.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-120, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-120, filed 11/19/03, effective 7/1/04.]

WAC 16-250-140 Use of artificial coloring. (1) Artificial coloring may be used in feeds if it is harmless to animals.

(2) Feed or feed ingredients must not contain materials that enhance the natural color of a feed if it conceals inferiorities.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-140, filed 11/19/03, effective 7/1/04.]

WAC 16-250-150 Reusing bags, totes, and containers. Bags, totes, or nonporous containers of similar capacity used for commercial feeds (including customer-formula feed) must not be reused unless appropriately cleaned. A firm that intends to reuse bags, totes, or containers must document their clean-out procedures.

Note: "Appropriate cleaning procedures" are procedures that prevent cross contamination of products that would create a safety concern. Examples of safety concerns include:

- (a) Medicated products contaminating nonmedicated products;
- (b) Prohibited mammalian protein contaminating ruminant feed; and
- (c) Feed containing minerals, or other additives, intended for one species contaminating feed intended for another species that is more sensitive to a mineral or other additive.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-150, filed 11/19/03, effective 7/1/04.]

WAC 16-250-155 Tonnage fee requirements. Each initial distributor of commercial feed in or into Washington state must pay the department an inspection fee of twelve cents per ton on all commercial feed they sold during the year. The minimum inspection fee, the late fee, and exceptions to payment of the fee are as authorized in RCW 15.53.9018.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-155, filed 9/7/05, effective 10/8/05. Statutory Authority: Chapter 15.53 RCW, 2003 1st sp.s. c 25, and chapter 34.05 RCW. 04-14-076, § 16-250-155, filed 7/6/04, effective 1/1/05. Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-155, filed 11/19/03, effective 7/1/04.]

WAC 16-250-160 Commercial feed license application requirements. (1) The commercial feed license application form, to be completed by applicants and licensees, must include:

(a) The company name and mailing address of the applicant;

(b) The physical address of the facility;

(c) The name, contact information, and signature of the applicant;

(d) Information regarding the types of business the firm is engaged in (feed manufacturer, dealer, broker); and

(2007 Ed.)

(e) The type of commercial feed distributed (medicated feed, complete feed, feed supplement, or animal by-products).

(2) A commercial feed license is not required for facilities that only:

(a) Sell food processing by-products from fruit, vegetable, or potato processing plants, freezing or dehydrating facilities, or juice or jelly preserving plants;

(b) Sell bona fide experimental feed on which accurate records and experimental programs are maintained;

(c) Makes retail sales of bagged, or packaged commercial feed bearing labeling or other approved indicators showing that the commercial feed is from a licensed manufacturer, guarantor, or distributor who has assumed full responsibility for the required tonnage inspection fees.

Note: The commercial feed license application form is available from the department. This form may also be downloaded from the internet at <http://agr.wa.gov/FoodAnimal/Animal-Feed/Forms.htm>.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-160, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-160, filed 11/19/03, effective 7/1/04.]

WAC 16-250-170 Commercial feed label submission requirements. License applicants and licensees must submit copies of their commercial feed labels and labeling to the department when requested for reasonable cause.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-128, § 16-250-170, filed 11/19/03, effective 7/1/04.]

WAC 16-250-180 Good manufacturing practices adopted. The following good manufacturing practices are adopted:

(1) Regulations prescribing current good manufacturing practices for Type B and Type C medicated feeds as published in 21 CFR, Part 225, Sections 225.1 - 225.202.

(2) Regulations prescribing good manufacturing practices for Type A Medicated Articles as published in 21 CFR, Part 226, Sections 226.1 - 226.115.

(3) Regulations pertaining to animal proteins prohibited in ruminant feed as published in 21 CFR, Part 589.2000, even if interstate commerce is not involved.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-094, § 16-250-180, filed 9/7/05, effective 10/8/05; 03-23-128, § 16-250-180, filed 11/19/03, effective 7/1/04.]

Chapter 16-252 WAC

COMMERCIAL FEED RULES—PET FOOD AND SPECIALTY PET FOOD

WAC

16-252-005	Commercial feed regulated by this chapter.
16-252-007	The Code of Federal Regulation.
16-252-010	Commercial feed terms and definitions.
16-252-015	Feed ingredient names and definitions.
16-252-025	Label information and recordkeeping requirements.
16-252-040	Product or brand name label information required.
16-252-042	Additional label information required when a drug is used.
16-252-051	Exemptions from the guarantees required in WAC 16-252-061 and 16-252-062.
16-252-061	Guarantees for pet food.
16-252-062	Guarantees for specialty pet food.
16-252-065	Guarantees for grain mixture specialty pet food, with or without molasses.
16-252-069	Expression of guarantees—Expressed as is.

(2007 Ed.)

16-252-070	Expression of guarantees—Sliding-scale method prohibited.
16-252-071	Expression of guarantees—Protein, amino acids, fat, and fiber in specialty pet food.
16-252-072	Expression of guarantees—Minerals in specialty pet food.
16-252-073	Expression of guarantees—Minimum vitamin content in specialty pet food.
16-252-074	Expression of guarantees—Pet food and specialty pet food containing drugs.
16-252-075	Expression of guarantees and special requirements—Pet food and specialty pet food containing any added nonprotein nitrogen.
16-252-076	Expression of guarantees—Microorganisms and enzymes.
16-252-080	Substantiating nutritional suitability.
16-252-090	Ingredient statement terms.
16-252-095	Drug and feed additive requirements.
16-252-100	"Directions for use" and "precautionary statement" requirements.
16-252-110	Screenings.
16-252-120	Adulteration of pet food and specialty pet food.
16-252-140	Use of artificial coloring.
16-252-150	Reusing bags, totes, and containers.
16-252-155	Tonnage fee required.
16-252-165	Registration requirements.
16-252-170	Label submission requirements.
16-252-180	Good manufacturing practices adopted.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-252-001	Effective date. [Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-001, filed 11/19/03, effective 7/1/04.] Repealed by 05-18-093, filed 9/7/05, effective 10/8/05. Statutory Authority: Chapters 15.53 and 34.05 RCW.
------------	--

WAC 16-252-005 Commercial feed regulated by this chapter. This chapter regulates pet food and specialty pet food except for customer-formula food.

(1) Where a conflict occurs between the provisions of this chapter and those of chapter 16-250 WAC (commercial feed rules), the regulations in this chapter take precedence.

(2) Where a commercial pet food and/or specialty pet food issue arises on which this chapter is silent and a provision in chapter 16-250 WAC addresses the issue, then chapter 16-250 WAC must be followed. The department expects such situations will be rare.

Note:

- Pet food is food for dogs and cats.
- Specialty pet food is food for specialty pets such as, but not limited to, gerbils, hamsters, canaries, psittacine birds, mynahs, finches, tropical fish, goldfish, snakes, and turtles.
- Commercial feed for beef cattle, dairy cattle, equine, goats and sheep, ducks and geese, fish, rabbits, swine, chickens, turkeys, and other animals not specifically regulated under this chapter is regulated under chapter 16-250 WAC.
- Customer-formula feed (food) for all species is regulated under chapter 16-250 WAC.
- Ingredients meeting the definition of commercial feed, that are used to make a pet food or specialty pet food, are regulated under chapter 16-250 WAC, unless the ingredient meets the definition of pet food or specialty pet food in which case the ingredient is regulated under this chapter.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-005, filed 11/19/03, effective 7/1/04.]

WAC 16-252-007 The Code of Federal Regulation. Throughout these rules where the Code of Federal Regulation is referred to, the reference is to the 2002 edition.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-007, filed 9/7/05, effective 10/8/05.]

WAC 16-252-010 Commercial feed terms and definitions. Except for the specific terms and definitions contained in this section or in RCW 15.53.901, the terms and definitions used in reference to commercial feeds, in this chapter, are the official feed terms adopted by the Association of American Feed Control Officials (AAFCO) and published in the association's official publication. Throughout these rules where the Association of American Feed Control Officials (AAFCO) official publication is referred to, the reference is to the 2003 Official Publication.

Note: A copy of the official publication is on file with the department. Copies may be purchased from AAFCO Assistant Secretary-Treasurer; P.O. Box 478 Oxford, IN 47971.

(1) **"Animal wastes"** means a material composed of excreta, with or without bedding materials and/or animal drugs, collected from poultry, ruminants or other animals except humans.

(2) **"All life stages"** means gestation/lactation, growth, and adult maintenance life stages of a domesticated dog or cat.

(3) **"Canned"** means feed that has been processed, packaged, sealed, and sterilized for preservation in cans, pouches, or similar containers.

(4) **"Commercial feed"** means all materials or combination of materials that are distributed or intended for distribution for use as feed or for mixing in feed, unless such materials are specifically exempted.

The following commodities are exempted and are not considered "commercial feed" if they are not adulterated (see RCW 15.53.902 for a list of conditions that cause commercial feeds to be adulterated):

- Unmixed whole seeds and physically altered entire unmixed seeds when such seeds are not chemically changed.
- Raw meat, hay, loose salt, straw, stover, silage, cobs, husks, and hulls when such commodities are not ground, mixed or intermixed with other materials.

(5) **"Customer-formula feed"** means commercial feed that is a mixture of commercial feeds or feed ingredients, or both, each batch of which is manufactured according to the instructions of the final purchaser.

(6) **"Department"** means the Washington state department of agriculture (WSDA).

(7) **"Director"** means the director of the Washington state department of agriculture or the director's designee.

(8) **"Distressed pet food"** means pet food (dog and cat) in distribution that is no longer available for retail sale. Examples of distressed pet food include, but are not limited to, dented cans, torn bags, or pet food past its sell-by date.

(9) **"Distressed specialty pet food"** means specialty pet food in distribution that is no longer available for retail sale. Examples of distressed specialty pet food include, but are not limited to, dented cans, torn bags, or specialty pet food past its sell-by date.

(10) **"Distribute"** means to:

- (a) Offer for sale, sell, exchange or barter, commercial feed; or
- (b) Supply, furnish, or otherwise provide commercial feed to a contract feeder.

(11) **"Distributor"** means a person who distributes.

(12) **"Drug"** means:

(a) Any article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in animals other than man; and

(b) Articles other than feed intended to affect the structure or any function of the animal body.

(13) **"Enzyme"** means a protein made up of amino acids or their derivatives, which catalyses a defined chemical reaction. Required cofactors should be considered an integral part of the enzyme.

(14) **"Facility"** means any place where a commercial feed is manufactured, repackaged, sold, transloaded, or stored for later distribution.

(15) **"Family"** means a group of pet food products, which are nutritionally adequate for any or all life stages based on their nutritional similarity to a lead product, which has been successfully test-fed according to an AAFCO feeding protocol(s).

(16) **"Feed ingredient"** means each of the constituent materials making up a commercial feed.

(17) **"Grain mixture specialty pet food"** means mixed or intermixed whole or physically altered grains, that:

- (a) Are not chemically altered;
- (b) May or may not contain molasses; and
- (c) Except for molasses, contain no other additives.

(18) **"Guarantee"** means a listing of specified nutrients or nonnutritive substances contained in a commercial feed that the manufacturer or distributor named on the feed label warrants as specified in these rules.

(19) **"Guaranteed analysis"** means a listing of the minimum, maximum or both minimum and maximum concentrations of specified nutrients contained in a commercial feed that the manufacturer or distributor named on the feed label warrants. Both minimum and maximum concentrations of specified nutrients contained in a commercial feed are stated on an "as is" basis rather than on a "one hundred percent moisture free" basis in units specified by these rules.

(20) **"Initial distributor"** means a person who first distributes a commercial feed in or into Washington state.

(21) **"Ingredient statement"** means a contiguous listing on the label of all ingredients of which the commercial feed is composed.

(22) **"Label"** means a display of written, printed, or graphic matter upon or affixed to the container in which a commercial feed is distributed, or on the invoice or delivery slip with which a bulk commercial feed is distributed.

(23) **"Labeling"** means all labels and other written, printed, or graphic matter:

- (a) Upon a commercial feed or any of its containers or wrappers; or
- (b) Accompanying such commercial feed.

(24) **"Lot identifier"** means a unique identifier for each lot, batch or production run that enables the manufacturer to accurately trace the complete manufacturing and distribution history of the product. A lot identifier is an individual lot, batch or production run number, code, date, or other suitable identification applied to the label, container, or package. In the case of bulk feed, the lot identifier is on a label, invoice, or shipping document accompanying the feed.

(25) **"Net weight"** means the weight of a commodity excluding any materials, substances, or items not considered to be part of the commodity. Examples of materials, sub-

stances, or items not considered to be part of a commodity include, but are not limited to, containers, conveyances, bags, wrappers, packaging materials, labels, individual piece coverings, decorative accompaniments, and coupons. (See RCW 19.94.010 (1)(i).)

(26) **"Nutritionally adequate"** means the feed, when fed according to directions on the label, will meet the nutritional requirements of the class of animals for which the feed was manufactured.

(27) **"Nutritionally suitable"** means nutritionally adequate.

(28) **"Person"** means an individual, firm, partnership, corporation, or association.

(29) **"Pet food"** means a commercial feed prepared and distributed for consumption by domesticated dogs or cats.

(30) **"Principal display panel"** means the part of a label that is most likely to be displayed, presented, shown or examined under normal and customary conditions of display for retail sale.

(31) **"Prohibited mammalian protein"** means any protein-containing portion of mammalian animals, excluding:

- Blood and blood products;
- Gelatin;
- Inspected meat products that have been cooked and offered for human food and further heat processed for feed (such as plate waste and used cellulose food casings);
- Milk products (milk and milk proteins); and
- Products whose only mammalian protein is porcine or equine protein.

(32) **"Processed,"** as applied to animal waste, means thermally dehydrated, dry-stacked, ensiled, oxidized, chemically treated, microbiologically digested, chemically or physically fractionated, or treated by other processes that enable an animal waste product to comply with the standards established in this chapter.

(33) **"Quantity statement"** means the part of the label expressing net weight (mass), net volume (liquid or dry) or count.

(34) **"Repackage"** means taking commercial feed from packages (no larger than one hundred pounds for dry feed or fifty-five gallons for liquid feed) and placing it into smaller packages for resale.

(35) **"Salvage pet food"** means pet food (dog and cat food) still under control of the original manufacturer and will not be offered for sale at retail. Examples include, but are not limited to, start-up and over-run product, unpelletted pet food, pet food fines, and other products not suitable for packaging for retail sale.

(36) **"Salvage specialty pet food"** means specialty pet food still under control of the original manufacturer and will not be offered for sale at retail. Examples include, but are not limited to, start-up and over-run product, unpelletted specialty pet food, specialty pet food fines, and other products not suitable for packaging for retail sale.

(37) **"Sell" or "sale"** includes exchange.

(38) **"Specialty pet"** means a domesticated animal pet normally maintained in a cage or tank, such as, but not limited to, gerbils, hamsters, canaries, psittacine birds, mynahs, finches, tropical fish, goldfish, snakes, and turtles.

(39) **"Specialty pet food"** means a commercial feed prepared and distributed for consumption by specialty pets.

(40) **"Transload"** means to transfer commercial feed from one carrier to another carrier without processing or blending the ingredients. For example, transferred from rail cars to trucks or shipping containers.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-010, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-010, filed 11/19/03, effective 7/1/04.]

WAC 16-252-015 Feed ingredient names and definitions. Except for the specific names and definitions contained in this section, the names and definitions used in reference to pet food and specialty pet food ingredients, in this chapter, are the official names and definitions of feed ingredients established by the Association of American Feed Control Officials (AAFCO) and published in the association's official publication.

"Dehydrated grass meal" means the aerial portion of a grass plant that is:

- Cut before the formation of seed;
- Reasonably free of other crop plants, weeds, and mold;
- Finely ground; and
- Dried by artificial thermal means.

Note: If a dehydrated grass meal product is identified by a species name, the product must be made from that species.

"Grass seed by-products meal or pellets" means a ground product consisting of light and broken seeds, hulls, chaff, straw, and some weed seeds but excluding sand, dirt, and heavy weed seeds.

"Grass seed screenings meal or pellets" means a product comprised chiefly of hulls obtained from the cleaning of various grass seeds.

"Pea bran" means a product consisting primarily of the various components from a pea splitting operation. Pea bran must contain at least ten percent crude protein and not more than thirty-eight percent crude fiber.

"Pea by-products meal" means a product containing light and broken peas, and offal from pea cleaning, which includes chips, pea powder, pea hulls, and screenings. Pea by-products meal must contain at least fifteen percent crude protein and not more than thirty percent crude fiber.

"Pea meal" means a pea product resulting from the grinding of whole peas that are reasonably free of other crop seeds, weeds, and mold. Pea meal must contain at least twenty percent crude protein and not more than eight percent crude fiber.

"Pea screenings meal" means a product consisting primarily of the various components from the screening and cleaning of peas. Pea screenings meal must contain at least ten percent crude protein and not more than thirty-eight percent crude fiber.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-015, filed 11/19/03, effective 7/1/04.]

WAC 16-252-025 Label information and record-keeping requirements. (1) Labels for pet food must contain the information in subsections (2) through (12) of this section. Labels for specialty pet food must contain the information in subsections (2) through (11) of this section. Information in subsections (2) through (6) of this section must be on the principal display panel for both pet food and specialty pet food.

Note: Subsections (12) through (15) of this section apply to pet food only. All other sections apply to both pet food and specialty pet food.

(2) Product name and brand name, if any, on the principal display panel consistent with requirements in WAC 16-252-040.

(3) Information required by WAC 16-252-042 if the product contains a drug.

(4) The species of pet (dog or cat), or specialty pet, for which the food is intended conspicuously stated in words on the principal display panel.

(5) A quantity statement on the principal display panel.

(6) If enzymatic activity related to the product is represented in any manner, the principal display panel must include a statement explaining the purpose of that enzymatic activity.

(7)(a) Guaranteed analysis consistent with requirements in WAC 16-252-061 for pet food; or

(b) Guaranteed analysis consistent with requirements in WAC 16-252-062 or 16-252-065 for specialty pet food.

(8) An ingredient statement that is consistent with the requirements in WAC 16-252-090.

(9) Feeding directions and precautionary statements if required under WAC 16-252-100.

(10)(a) The label of a pet food or specialty pet food must specify the name and address of the manufacturer or person responsible for distributing the feed. The statement of the place of business must include the street address, city, state, and zip code. However, the street address may be omitted if the street address is shown in a current city directory or telephone directory for the city listed on the label.

(b) When a person manufactures or distributes a pet food or specialty pet food in a place other than the principal place of business, the label may state the principal place of business in lieu of the actual place where each package was manufactured, packaged or distributed.

(11)(a) Lot identifier that is sufficient to allow the manufacturer to accurately trace the complete manufacturing and distribution history of the product.

(b) Records relating the lot identifier to the manufacture, processing, packing, distribution, receipt, or holding of the product must be kept for one year after the last date of distribution.

Note: Subsections (12) through (15) of this section apply to pet food only. All other subsections apply to both pet food and specialty pet food.

(12)(a) Except when a pet food is clearly and conspicuously identified on the principal display panel as a "snack" or "treat," pet food labels must include a statement of nutritional adequacy or purpose of the product.

(b) The nutritional adequacy statement must read as shown in (b)(i), (ii), or (iii) of this subsection with the blanks filled in with the stage or stages of the pet's life, such as, "gestation/lactation," "growth," "maintenance," or "all life stages."

(i) "(Name of product) is formulated to meet the nutritional levels established by the AAFCO dog (or cat) food nutrient profiles for. . . ."; or

(ii) "Animal feeding tests using AAFCO procedures substantiate that (name of product) provides complete and balanced nutrition for. . . ."; or

(iii) "(Name of product) provides complete and balanced nutrition for. . . . and is comparable in nutritional adequacy to a product that has been substantiated using AAFCO feeding tests."

(13) The use of the word "proven" in connection with a label claim for a pet food is not permitted unless the claim is substantiated by scientific or other empirical evidence.

(14) The label of a pet food intended for all life stages may include an unqualified claim, directly or indirectly, such as "complete and balanced," "perfect," "scientific" or "one hundred percent nutritious" if at least one of the following apply:

(a) The product meets the nutrient requirements for all life stages established by an AAFCO-recognized nutrient profile published in the Association of American Feed Control Officials official publication; or

(b) The product meets the criteria for all life stages as substantiated by completion of the appropriate AAFCO-recognized animal feeding protocols published in the Association of American Feed Control Officials official publication; or

(c) The product is a member of a product family, which is nutritionally similar to a lead product containing a combination of ingredients that has been fed, as the sole source of nourishment, to a normal animal according to testing procedures published in the Association of American Feed Control Officials official publication.

(i) The nutritional similarity of the family product can be substantiated according to the Procedures for Establishing Pet Food Product Families developed by AAFCO; and

(ii) The family product meets the criteria for all life stages; and

(iii) Under circumstances of reasonable doubt, the department may require the manufacturer to perform additional testing of the family product in order to substantiate the claim of nutritional adequacy.

(15) A pet food, intended for a limited purpose or specific life stage (but **not all** life stages), may include a direct or indirect qualified claim such as "complete and balanced," "perfect," "scientific" or "one hundred percent nutritious" when the product and claim comply with all of the following:

(a) A statement qualifying the claim must clearly identify the limited purpose or life stage for which the product is intended or suitable. For example, when the label reads "complete and balanced for puppies (or kittens)."

(b) The claim and the qualification must be next to each other, on the same label panel and in the same size, style, and color print; and

(c) The product must comply with at least one of the following:

(i) The nutrient requirements, established by an AAFCO-recognized nutrient profile, for the limited purpose or specific life stage; or

(ii) The criteria for a limited purpose or a specific life stage that are substantiated by completion of an appropriate AAFCO-recognized animal feeding protocol(s); or

(iii) The requirement of a product family that is nutritionally similar to a lead product and contains a combination of ingredients, which by adequate testing has demonstrated they satisfy the nutrient requirements for such a limited purpose.

(A) The nutritional similarity of the family product must be substantiated according to the Procedures for Establishing Pet Food Product Families developed by AAFCO; and

(B) The family product meets the criteria for such limited purpose; and

(C) If it has reasonable doubt, the department may require the manufacturer perform additional testing on the family product to substantiate the claim of nutritional adequacy.

(16) When pet food or specialty pet food enclosed in an outer container or wrapper is intended for retail sale, all required label information must appear on the outer container or wrapper.

(17) Graphic or pictorial representation or design (for example, pictures of animals or birds) of any kind must not be attached to, appear on, or distributed with pet food or specialty pet food if the material or design is misleading, incorrect, or at variance in any respect with the information required on the label.

(18)(a) Statements referring to a competitive product or comparing the properties of a packaged food to those of a competitive product must not appear on a label unless the competitive product is specifically identified.

(b) Negative statements regarding a competitive product must not appear on a label unless the director determines that the information provided by the statements is beneficial to the product's purchaser.

(c) False or misleading comparisons with other products must not appear on the label or labeling of any pet food product.

(d) A statement on a pet food or specialty pet food label stating preference or comparative attribute claims must be substantiated and limited to one year production, after which the claim must be removed or resubstantiated.

(19) A personal or commercial endorsement is permitted on a pet food or specialty pet food label, provided the endorsement is not false or misleading.

(20) A statement on a pet food or specialty pet food label stating "improved," "new," or similar designation must be substantiated and limited to six months production.

(21) When a flavor designation is included as part of the product name, or elsewhere on the label of a pet food or specialty pet food, it must meet the requirements in (a), (b), and (c) of this subsection.

(a) The flavor designation must:

(i) Conform to the name of the ingredient as listed in the ingredient statement; or

(ii) Be identified by the source of the flavor in the ingredient statement.

(b) The word "flavor" must be printed in the same size type and with an equal degree of conspicuousness as the name of the flavor designation.

(c) Substantiation of the flavor designation, the flavor claim, or the ingredient source must be provided to the department upon request.

(22) Distressed or salvage pet food or specialty pet food that contains, or may contain, prohibited mammalian protein must be labeled with the Bovine Spongiform Encephalopathy precautionary statement "do not feed to cattle or other ruminants."

(23) In addition to the requirements of this chapter, if the term "organic" is used on labels of any pet food or specialty pet food, it must be produced under conditions that comply with the 2001 National Organic Program final rule standards for the production and handling of organic crops, livestock and processed food products. The 2001 National Organic Program final rule may be obtained from the department, or on the internet at <http://www.ams.usda.gov/nop/NOP/standards.html>.

(24) All required label information must be stated in English. In addition, label information may be translated into other languages. However, if the label is translated into another language, then the translation must give the same information as the English version of the label.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-025, filed 11/19/03, effective 7/1/04.]

WAC 16-252-040 Product or brand name label information required. Label requirements in subsections (1) through (10) of this section apply to all pet food distributed under a product or brand name. Label requirements in subsections (1) through (6) and (8) through (10) of this section apply to all specialty pet food distributed under a product or brand name.

(1) The brand or product name must be appropriate for the intended use of the pet food or specialty pet food, and must not be misleading. If the name indicates the pet food or specialty pet food is made for a specific use, the character of the pet food or specialty pet food must conform to that use. For example, a mixture labeled "dog food" must be suitable for dogs.

(2) When reviewing product names for single ingredient pet foods or specialty pet foods, the department will be guided by the definitions of feed ingredients and feed terms established by the Association of American Feed Control Officials official publication unless those definitions and terms are specifically defined in chapter 15.53 RCW, WAC 16-252-010, or 16-252-015.

(3) Except for the circumstances described in subsection (4) of this section, the name of a pet food or specialty pet food must not be derived from:

(a) One or more ingredients of a mixture to the exclusion of the other ingredients; or

(b) One component of a mixture unless all components are included in the name.

(4) When a pet food or specialty pet food contains any ingredient or combination of ingredients for the purpose of imparting a distinct characteristic to the product that is significant to the purchaser, the name of that ingredient or combination of ingredients may be used as part of the brand name or product name if the department determines that the:

(a) Ingredient or combination of ingredients is present in sufficient quantity to impart a distinctive characteristic to the product;

(b) Product name does not constitute a representation that the ingredient or combination of ingredients is present to the exclusion of other ingredients; and

(c) Product name is not otherwise false or misleading.

(5) The words "one hundred percent" or "all," or words of similar meaning, must not be used in the brand or product

name of a pet food or specialty pet food if the product contains more than one ingredient other than:

- (a) Water sufficient for processing;
- (b) Decharacterizing agents;
- (c) A trace amount of preservatives; or
- (d) A trace amount of condiments.

(6) An ingredient or a combination of ingredients may form a part of the product name of a pet food or specialty pet food when the product conforms with one of the following options:

(a) The ingredient(s) derived from animals, poultry, or fish constitutes at least ninety-five percent of the total product weight, including water sufficient for processing. If processing water is excluded, then the ingredient(s) derived from animals, poultry, or fish must constitute at least seventy percent of the total product weight.

Note: Example 1: A product may be called "beef dog food" if beef makes up at least ninety-five percent of the total product weight, including water sufficient for processing. If processing water has been excluded from the calculation, then beef must make up at least seventy percent of the total product weight.
Example 2: A product may be called "beef and chicken dog food" if the combination of beef and chicken makes up at least ninety-five percent of the total product weight, including water sufficient for processing. If processing water has been excluded from the calculation, then beef and chicken must make up at least seventy percent of the total product weight.

(b) Any ingredient(s) that constitutes at least twenty-five percent of the total product weight, including water for processing and complies with (i) and (ii). If water for processing has been excluded, then any ingredient(s) that constitutes at least ten percent of the product weight and complies with (i) and (ii).

(i) A descriptor is used with the ingredient name(s). This descriptor must imply other ingredients are included in the product formula. Examples of descriptors include "dinner," "platter," "entree," "formula," and "recipe"; and

(ii) The descriptor must be in the same size, style and color print as the ingredient name(s).

Note: Example 1: A product may be called "beef dinner dog food" if beef makes up at least twenty-five percent of the total product weight, including water for processing and meets the conditions stated in (i) and (ii).
Example 2: If water for processing is excluded from the calculation, then a product may be called "beef dinner dog food" if beef makes up at least ten percent of the total product weight, and meets conditions stated in subsections (i) and (ii).

(c) A combination of ingredients, which are included in the product name in accordance with (a) and (b) of this subsection meets all of the following:

(i) Each ingredient constitutes at least three percent of the product weight, excluding water sufficient for processing;

(ii) The names of the ingredients listed in the product name appear in the order of their respective predominance by weight in the product; and

(iii) The names of the ingredients listed in the product name appear on the label in the same size, style, and color print.

Note: Example 1: A product may be called "beef and chicken dog food" if:
(a) Including water for processing, the combination of beef and chicken total at least ninety-five percent of the product weight; and
(b) Excluding water for processing, at least three percent of the product weight is chicken.

Example 2: A product may be called "beef and chicken dog food" if, excluding processing water, the combination of beef and chicken total at least seventy percent of the product weight and at least three percent of the product weight is chicken.

Example 3: A product may be called "beef and chicken dinner" if:

(a) Including water for processing, the combination of beef and chicken total at least twenty-five percent of the product weight; and

(b) Excluding water for processing, at least three percent of the product weight is chicken.

Example 4: A product may be called "beef and chicken dinner" if the combination of beef and chicken, excluding water for processing total at least ten percent of the product weight and at least three percent of the product weight is chicken.

(7)(a) When the name of any ingredient appears in the product name of a pet food, or elsewhere on the product label, and includes a descriptor such as "with" or similar designation, the named ingredient(s) must each constitute at least three percent of the product weight exclusive of water for processing.

(b) The three percent minimum level does not apply to claims for condiments or nutrients. Condiments include, but are not limited to, flavorings and spices. Nutrients include, but are not limited to, vitamins, minerals, and fatty acids.

(c) If the names of more than one ingredient are shown, they must appear in their respective order of predominance by weight in the product.

(d) The word "with" (or similar designation) and all named ingredients must appear in the same size, style, color and case print and be of no greater size than:

Panel Size	Maximum "with claim" Type Size
< 5 sq. in.	1/8"
5-25 sq. in.	1/4"
25-100 sq. in.	3/8"
100-400 sq. in.	1/2"
400 sq. in. +	1"

Note: Example 1: A product may be called "beef with rice dog food" if:

(a) Including water for processing, the product contains at least ninety-five percent beef; and

(b) Excluding water for processing, at least three percent of the product weight is rice.

Example 2: A product may be called "beef and chicken dinner with rice dog food" if:

(a) Including water for processing, the product contains enough beef and chicken so that these two ingredients total at least twenty-five percent of the product weight; and

(b) Excluding water for processing, at least three percent of the product weight is rice.

(8) The term "mineralized" may only be used in a feed name for "trace mineralized salt" and must not be used in the name of any other feed. "Trace mineralized salt" must contain significant amounts of trace minerals that are recognized as essential for animal nutrition.

(9)(a) If a brand name includes a single percentage value without explanation, the percentage value must signify the feed's crude protein content. For example, "BLUE BIRD PET FOOD eighteen percent cat food" means that the feed contains eighteen percent crude protein.

(b) If a brand name includes a single percentage value and the percentage does not represent crude protein content, the brand name must indicate what the percentage represents. For example, "BLUE BIRD PET FOOD twenty-two percent calcium concentrate premix."

(c) If a brand name includes more than one percentage value, the percentage must be followed by a corresponding description. For example, "BLUE BIRD PET FOOD forty-two percent crude protein - twenty-five percent fat cat milk replacer."

(d) If the brand name contains either a percentage value that signifies crude protein or the word "protein," then the pet food or specialty pet food must contain no more than one and one-quarter percent nonprotein nitrogen.

(10) Pet food and/or specialty pet food must be considered a distinct brand if it differs in guaranteed analysis, trademark name, or any other characteristic method of marking. However, this requirement does not prevent a brand from being distributed in various physical forms.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-040, filed 11/19/03, effective 7/1/04.]

WAC 16-252-042 Additional label information required when a drug is used. In addition to the information specified in WAC 16-252-025, if a drug is used in pet food or specialty pet food, the label must contain the following directly after and below the product name:

(1) The word "medicated" in a type size that is at least one-half the type size of the product name.

(2) Information stating the purpose of the medication.

(3) An active ingredient statement listing the:

(a) Active drug ingredients by established name; and

(b) Amount of active drug ingredient per unit (for example mg/lb, g/ton) consistent with requirements in WAC 16-252-074.

(4) Directions for use and precautionary statements, or a statement of where on the label the directions for use and precautionary statements can be found.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-042, filed 11/19/03, effective 7/1/04.]

WAC 16-252-051 Exemptions from the guarantees required in WAC 16-252-061 and 16-252-062. The following exemptions apply to guarantees listed in WAC 16-252-061 and 16-252-062:

(1) Guarantees for crude protein, crude fat, and crude fiber are not required when:

(a) The pet food or specialty pet food is intended for purposes other than to furnish these substances; or

(b) These substances are insignificant to the primary purpose of the product, such as drug premixes, mineral or vitamin supplements, and molasses.

(2) A mineral guarantee is not required when the food or food ingredient is:

(a) Not intended or represented or does not serve as a principal source of that mineral to the animal; or

(b) Contains less than six and one-half percent total minerals.

(3) Guarantees for vitamins are not required when the pet food or specialty pet food is neither formulated for nor represented in any manner as a vitamin supplement.

(4) Guarantees for microorganisms are not required when:

(a) The pet food or specialty pet food is intended for a purpose other than to furnish microorganisms; or

(2007 Ed.)

(b) The microorganisms are insignificant to the primary purpose of the product, and no specific label claims are made.

(5) Information on animal species is not required on single ingredient products if the ingredient is not intended, represented, or defined for a specific animal species.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-051, filed 11/19/03, effective 7/1/04.]

WAC 16-252-061 Guarantees for pet food. (1) The guarantees for pet food in subsections (2) through (5) of this section must appear on the label.

(2)(a) Guaranteed analysis for all pet food must include the following nutrients on the label in the order listed below unless exempted under WAC 16-252-051:

(i) Minimum percentage of crude protein;

(ii) Minimum percentage of crude fat;

(iii) Maximum percentage of crude fat when required by subsection (8) of this section;

(iv) Maximum percentage of crude fiber;

(v) Maximum percentage of moisture;

(vi) Maximum percentage of ash if listed;

(vii) Additional guarantees as required in this section and any voluntary guarantees.

(b) Additional required or voluntary guarantees must be listed in the same order and units as the nutrients in the AAFCO dog (or cat) food nutrient profiles.

(i) Guarantees for nutrients not listed in the AAFCO dog (or cat) food nutrient profiles, or otherwise provided for in this section, must:

(A) Be listed immediately following the entire list of nutrients found in the AAFCO dog (or cat) food nutrient profiles; and

(B) All nutrients of a similar class must be listed together. For example, amino acids not found in the AAFCO dog (or cat) food nutrient profile must be grouped together;

(ii) The concentration of nutrients and/or substances not found in an AAFCO dog (or cat) nutrient profile must be in the units that the nutrient or substance is normally associated with;

(iii) Guarantees for microorganisms and enzymes must be stated as required in WAC 16-252-076;

(iv) Any nutrients or substances that are guaranteed and are not listed in an AAFCO dog (or cat) food nutrient profile, must be immediately followed by an asterisk that refers to the appropriate disclaimer:

(A) **"*Not recognized as an essential nutrient by the AAFCO dog food nutrient profiles";** or

(B) **"*Not recognized as an essential nutrient by the AAFCO cat food nutrient profiles."**

(3) The maximum moisture allowed is seventy-eight percent or the natural moisture content of the ingredients, whichever is higher. However, the moisture in products labeled as, and consisting principally of, items like stew, gravy, sauce, broth, aspic, juice, or a milk replacer may exceed these maximum moisture allowances.

(4) The use of commercial, copyrighted brand, or trade names in the guarantee statement is prohibited.

(5)(a) If a pet food is represented as a mineral supplement, then all minerals from sources listed in the ingredient statement that are also found in an AAFCO-recognized pet food nutrient profile must be guaranteed.

Note: AAFCO pet food nutrient profiles can be found in the Association of American Feed Control Officials official publication.

(b) When minerals are listed, they must be:

(i) Listed in the order they appear in the AAFCO-recognized pet food nutrient profile; and

(ii) As the element in units specified in the AAFCO-recognized nutrient pet food profile.

(c) Mineral guarantees may be stated in milligrams (mg) per unit (for example, tablets, capsules, granules, or liquids) consistent with the units stated in the quantity statement and directions for use.

(d) All liquid mineral pet food must have a weight equivalent on the label following the guarantees for the minerals. For example, 1 fl. oz = 28 grams.

(6)(a) If a pet food is represented as a vitamin supplement, then all vitamins from sources listed in the ingredient statement that are also found in an AAFCO-recognized dog food or cat food nutrient profile must be guaranteed.

(b) When vitamins are listed, they must be:

(i) Listed in the order they appear in the AAFCO-recognized pet food nutrient profile; and

(ii) In units specified in the AAFCO-recognized pet food nutrient profile.

(c) Vitamin guarantees may be stated in approved units (for example, IU, mg, g) per unit (for example, tablets, capsules, granules, or liquids) consistent with those employed in the quantity statement and directions for use.

(d) All liquid vitamin pet food must have a weight equivalent on the label following the guarantees for the vitamins. For example, 1 fl. oz = 28 grams.

(7) If a pet food is not represented as a supplement for any mineral or vitamin, but the label does list guarantees for any mineral or vitamin, these are "voluntary" guarantees. These voluntary guarantees must meet the order and unit requirements for those pet foods that are represented as a mineral or vitamin supplement.

(8)(a) A dog food label, which contains the terms "lean," "low fat," or words of similar meaning, must:

(i) List the maximum crude fat percentage immediately following the minimum crude fat percentage in the guaranteed analysis; and

(ii) Contain no more crude fat than allowed at the different moisture levels stated in the table below.

Maximum Allowed Percentage of Crude Fat at Different Moisture Ranges in Dog Food	
Maximum Allowed Percentage of Crude Fat	Moisture Range
9%	Less than 20%
7%	20% or more but less than 65%
4%	65% or more

(b) A cat food label, which contains the terms "lean," "low fat," or words of similar meaning, must:

(i) List the maximum crude fat percentage immediately following the minimum crude fat percentage in the guaranteed analysis; and

(ii) Contain no more crude fat than allowed at the different moisture levels stated in the table below.

Maximum Allowed Percentage of Crude Fat at Different Moisture Ranges in Cat Food	
Maximum Allowed Percentage of Crude Fat	Moisture Range
10%	Less than 20%
8%	20% or more but less than 65%
5%	65% or more

(c) A pet food, which contains a claim of "less fat," "reduced fat," or words of similar meaning must:

(i) List the maximum crude fat percentage immediately following the minimum crude fat percentage in the guaranteed analysis;

(ii) Be compared to another product in the same moisture range (for example, "less than twenty percent," "twenty percent or more but less than sixty-five percent," "sixty-five percent or more"); and

(iii) Name the product of comparison and explicitly state the percentage of fat reduction expressed on an equal weight basis.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-061, filed 11/19/03, effective 7/1/04.]

WAC 16-252-062 Guarantees for specialty pet food.

(1) All specialty pet food, except for grain mixture specialty pet food, must be guaranteed as stated in subsections (2) through (4) of this section. The guarantees must appear on the label in the order in which they are listed below unless exempted under WAC 16-252-051.

Note: Guarantee requirements for grain mixture specialty pet food are stated in WAC 16-252-065.

(2) Guaranteed analysis for all specialty pet food, except for grain mixture specialty pet food, must include the following nutrients on the label in the order listed:

- Minimum percentage of crude protein;
- Minimum percentage of crude fat;
- Maximum percentage of crude fiber;
- Maximum percentage of moisture;
- Maximum percentage of ash if listed;
- Minimum and maximum percentages of calcium;
- Minimum percentage of phosphorus;
- Minimum and maximum percentage of salt (if added);

(i) Minimum and maximum percentage of total sodium must be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;

(j) Other minerals.

(3) Minerals must be identified and listed consistent with requirements in WAC 16-252-072.

(4) Vitamins must be identified and listed consistent with requirements in WAC 16-252-073.

(5) The maximum moisture allowed is seventy-eight percent or the natural moisture content of the ingredients, whichever is higher. However, the moisture in products labeled as, and consisting principally of, items like stew, gravy, sauce, broth, aspic, juice, or a milk replacer may exceed these maximum moisture allowances.

(6) The use of commercial, copyrighted brand, or trade names in the guarantee statement is prohibited.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-062, filed 11/19/03, effective 7/1/04.]

WAC 16-252-065 Guarantees for grain mixture specialty pet food, with or without molasses. (1) Guaranteed analysis for all grain mixture specialty pet food must include the following nutrients on the label in the order listed:

- (a) Minimum percentage of crude protein;
- (b) Minimum percentage of crude fat; and
- (c) Maximum percentage of crude fiber.

(2) The use of commercial, copyrighted brand, or trade names in the guarantee statement is prohibited.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-065, filed 11/19/03, effective 7/1/04.]

WAC 16-252-069 Expression of guarantees—Expressed as is. All guarantees must be expressed on an "as is" basis rather than on a "one hundred percent moisture free" basis.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-069, filed 11/19/03, effective 7/1/04.]

WAC 16-252-070 Expression of guarantees—Sliding-scale method prohibited. The sliding-scale method of expressing guarantees (for example, "protein fifteen to eighteen percent") is prohibited.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-070, filed 11/19/03, effective 7/1/04.]

WAC 16-252-071 Expression of guarantees—Protein, amino acids, fat, and fiber in specialty pet food. Specialty pet food guarantees for crude protein, crude protein from nonprotein nitrogen, lysine, methionine, other amino acids, crude fat, crude fiber, and acid detergent fiber must be expressed in percentages.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-071, filed 11/19/03, effective 7/1/04.]

WAC 16-252-072 Expression of guarantees—Minerals in specialty pet food. (1) Mineral guarantees in specialty pet food:

(a) When the calcium, salt, and sodium guarantees are given in the guaranteed analysis, they must be stated and conform to the following:

(i) When the minimum is below two and one-half percent, the maximum must not exceed the minimum by more than one-half percentage point.

(ii) When the minimum is two and one-half percent but less than five percent, the maximum must not exceed the minimum by more than one percentage point.

(iii) When the minimum is five percent or greater, the maximum must not exceed the minimum by more than twenty percent of the minimum and in no case may the maximum exceed the minimum by more than five percentage points.

(b) When stated, certain mineral guarantees must be expressed as follows:

(2007 Ed.)

Sodium, Salt, Potassium, Magnesium, Sulfur, Phosphorus, Fluorine, Other	
Mineral Guarantee:	Expressed as:
Minimum and maximum total sodium	Percentage (%)
Minimum and maximum salt	Percentage (%)
Minimum potassium	Percentage (%)
Minimum magnesium	Percentage (%)
Minimum sulfur	Percentage (%)
Minimum phosphorus	Percentage (%)
Maximum fluorine	Percentage (%)
Other minimum mineral guarantees	Parts per million (ppm) when the concentration is less than 10,000 ppm
Other minimum mineral guarantees	Percentage when the concentration is 10,000 ppm (1%) or greater

(c) Minerals, except salt, when quantitatively guaranteed, must be stated in terms of percentage of the element.

(d) Products labeled with a quantity statement (for example, tablets, capsules, granules, or liquid) may state mineral guarantees in milligrams (mg) per unit (for example, milligrams per tablet or milligrams per capsule) consistent with the quantity statement and the directions for use.

(2) All mineral phosphatic materials used for specialty pet food must be labeled with the guarantee for:

(a) Minimum and maximum percentage of calcium (when present);

(b) Minimum percentage of phosphorus; and

(c) Maximum percentage of fluorine.

(3) Specialty pet food that is a single mineral product that is defined in the "mineral products" section of the Association of American Feed Control Officials official publication must guarantee the minerals included in the mineral products definition. For example, bone charcoal must guarantee calcium and phosphorous; calcium iodate must guarantee calcium and iodine.

(4) All liquid mineral guarantees for specialty pet foods must have a weight equivalent on the label following the guarantees for the minerals. For example, 1 fl. oz = 28 grams.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-072, filed 11/19/03, effective 7/1/04.]

WAC 16-252-073 Expression of guarantees—Minimum vitamin content in specialty pet food. (1) Guarantees of minimum vitamin content for specialty pet food must be listed in the order shown in the following table. The guarantees must be stated in:

(a) Milligrams per pound; or

(b) Per unit consistent with the units on the quantity statement; or

(c) For the vitamins listed in the following table, the units must be consistent with those in the table:

Vitamins	
Type of Vitamin and Listing Order:	Stated in:
Vitamin A, other than precursors of Vitamin A	International Units per pound (IU/lb)

[Title 16 WAC—p. 335]

Vitamins	
Type of Vitamin and Listing Order:	Stated in:
Vitamin D, for other uses	International Units per pound (IU/lb)
Vitamin E	International Units per pound (IU/lb)
Concentrated oils and feed additive premixes containing vitamins A, D, and/or E	May, at the option of the distributor, be stated in units per gram (g) instead of units per pound (lb)
Vitamin B-12	Milligrams (mg) or micrograms (µg) per pound (lb)
Menadione, riboflavin, d-pantothenic acid, thiamine, niacin, vitamin B-6, folic acid, choline, biotin, inositol, p-amino benzoic acid, ascorbic acid, and carotene	Milligrams per pound (mg/lb)

(2) All liquid vitamin specialty pet foods must have a weight equivalent on the label following the guarantees for the vitamins (for example, 1 fl. oz = 28 grams).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-073, filed 11/19/03, effective 7/1/04.]

WAC 16-252-074 Expression of guarantees—Pet food and specialty pet food containing drugs. Guarantees for drugs in pet food and specialty pet food must be stated in terms of percent by weight **except for the following:**

Drugs	
Antibiotics, present at less than 2,000 grams per ton (total) of commercial feed	Grams per ton of commercial feed (g/ton)
Antibiotics, present at 2,000 or more grams per ton (total) of commercial feed	Grams per pound of commercial feed (g/lb)

Note: The term "milligrams per pound" (mg/lb) may be used for drugs or antibiotics in those cases where a dosage is given in "milligrams" in the feeding directions.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-074, filed 11/19/03, effective 7/1/04.]

WAC 16-252-075 Expression of guarantees and special requirements—Pet food and specialty pet food containing any added nonprotein nitrogen. (1) Pet food or specialty pet food and pet food or specialty pet food supplements and concentrates containing crude protein from any form of added nonprotein nitrogen must be labeled as follows:

Crude protein, minimum %

This includes not more than % equivalent crude protein, which is not nutritionally available as protein to (species of animal for which feed is intended).

(2) Pet food or specialty pet food, premixes, concentrates or supplements containing more than one and one-quarter percent crude protein from any form of added nonprotein nitrogen must contain adequate directions for use and a prominent statement on the principal display panel, such as the following:

[Title 16 WAC—p. 336]

WARNING: This food must be used only in accordance with directions furnished on the label.

(3) In pet food and specialty pet food, nonprotein nitrogen sources defined in the Association of American Feed Control Officials official publication are acceptable sources of nutrients other than crude protein, as long as the maximum crude protein from all nonprotein nitrogen sources does not exceed one and one-quarter percent of the pet's or specialty pet's total daily ration.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-075, filed 11/19/03, effective 7/1/04.]

WAC 16-252-076 Expression of guarantees—Microorganisms and enzymes. (1)(a) Guarantees for microorganisms must be stated in colony forming units (CFU) per unit weight or volume, consistent with label directions.

(b) A parenthetical statement following the guarantee must list each species in order of predominance.

(2)(a) Guarantees for enzymes must be stated in units of enzymatic activity per unit weight or volume, consistent with label directions.

(b) The source organism for each type of enzymatic activity must be specified, for example: Protease (*Bacillus subtilis*) 5.5 mg amino acids liberated/minute/milligram.

(c) If two or more sources have the same type of activity, they must be listed in order of predominance based on the amount of enzymatic activity provided.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-076, filed 11/19/03, effective 7/1/04.]

WAC 16-252-080 Substantiating nutritional suitability. (1) All pet food and specialty pet food must be nutritionally suitable for the purpose represented by their labeling.

(2) If the department has reasonable cause to believe a pet food or specialty pet food is not nutritionally suitable, the department may require that the manufacturer either submit an "affidavit of suitability" or a department approved alternative procedure, certifying that the food is nutritionally adequate for its intended purpose. The affidavit of suitability or alternate procedure substantiates the food's suitability but does not preclude the department from requiring additional evidence of nutritional suitability.

(3) If an affidavit of suitability, or department approved alternative procedure, is not submitted by the pet food or specialty pet food manufacturer within thirty days of written notification, the department may declare that the pet food or specialty pet food composition or quality is less than or differs from what is represented by its labeling (see RCW 15.53.902(8)) and order the pet food or specialty pet food removed from the marketplace.

(4) An affidavit of suitability must contain the following information:

- (a) The pet food or specialty pet food registrant's name;
- (b) The product name;
- (c) The name and title of the affiant submitting the document;

(d) A statement from the affiant that they know the nutritional content of the pet food or specialty pet food and that the pet food or specialty pet food, based on valid scientific evidence, is nutritionally adequate for its intended purpose;

(2007 Ed.)

(e) The date the affidavit of suitability is submitted to the department; and

(f) The signature of the affiant notarized by a certified notary public.

(5) For dog food, a claim of nutritional adequacy must be based on one of the following:

- (a) The AAFCO dog food nutrient profiles;
- (b) One of the AAFCO dog food feeding protocols; or
- (c) Other scientific substantiation acceptable to the department.

(6) For cat food, a claim of nutritional adequacy must be based on one of the following:

- (a) The AAFCO cat food nutrient profiles; or
- (b) One of the AAFCO cat food feeding protocols;
- (c) Other scientific substantiation acceptable to the department.

(7) A specialty pet food nutritional adequacy claim must be based on:

(a) The corresponding species nutrient requirements as published in the *1995 National Research Council Nutrient Requirements of Laboratory Animals*, by the National Academy of Sciences; or

(b) Other scientific substantiation acceptable to the department.

Note:

- The only species included in the *1995 National Research Council Nutrient Requirements of Laboratory Animals* are gerbils, guinea pigs, hamsters, mice, and rats. All other specialty pet species will require other methods of scientific substantiation for claims of nutritional adequacy.
- A copy of *Nutrient Requirements of Laboratory Animals* is on file with the department. Copies may be purchased from Office of Publications, National Academy of Sciences, 2101 Constitution Avenue, N.W., Washington, D.C. 20418.

(8) Example of affidavit:

Affidavit of Suitability

(Company Name)

(Product Name & Code Number)

1. Affiant is the _____ of _____
(Title) (Name of Company)
and is duly authorized to make and execute this Affidavit for and on behalf of said company.
2. Affiant has knowledge of the nutritional content of the above listed feed product and is familiar with the nutritional requirements for the animal species and animal class(es) for which the feed product is intended.
3. Affiant has knowledge of valid scientific evidence that supports the suitability of the product for the intended animal species and animal class for which this feed is intended. A copy of the product label is attached to this affidavit.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-080, filed 11/19/03, effective 7/1/04.]

WAC 16-252-090 Ingredient statement terms. Pet food and specialty pet food ingredients listed on the label or on file at the plant producing the product must comply with the following:

(1) The name of each ingredient must conform to one of the following:

(a) Ingredients must have an official definition in the AAFCO official publication;

(b) If there is no official definition for an ingredient in the AAFCO official publication, then an ingredient with an AAFCO tentative definition may be used;

(c) The ingredient is defined in WAC 16-252-015; or

(d) The ingredient has a commonly accepted name that requires no definition, for example, sugar.

(2) Each ingredient of a pet food or specialty pet food must be listed separately. Collective terms may not be used on pet food or specialty pet food labeling.

(3) Ingredients in the ingredient statement must not list specific ingredient weights or concentrations, but must be listed in descending order by weight.

(4) A single ingredient product, as defined by the Association of American Feed Control Officials official publication, does not need an ingredient statement.

(5) The names of all listed ingredients must be shown in the same size of letters and type.

(6) Commercial, copyrighted, brand, or trade names must not be used in the ingredient statement.

(7) No reference to quality or grade of an ingredient may appear in the ingredient statement.

(8) The term "dehydrated" may precede the name of any product that has been artificially dried.

(9) When the word "iodized" is used in connection with a feed ingredient, the ingredient must contain at least 0.007% iodine, uniformly distributed.

(10) The term "degermed" must precede the name of any product from which germs were wholly or partially removed.

(11) If a drug is used, it does not have to be listed in the ingredient statement. However, the drug name is required to be listed on the label (see WAC 16-252-025 and 16-252-042).

(12) Unless meat and meat by-products are made from cattle, swine, sheep or goats, the terms "meat" and "meat by-products" must specifically identify the animal from which they are derived.

(13) When water is added in the preparation of canned pet food or specialty pet food, the water must be listed as an ingredient.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-090, filed 11/19/03, effective 7/1/04.]

WAC 16-252-095 Drug and feed additive requirements. (1) Before the department approves a registration application and/or a label for pet food or specialty pet food that contains additives (including drugs, other special purpose additives, or nonnutritive additives), the distributor may be required to submit, to the department, satisfactory evidence proving the safety and effectiveness of the pet food or

specialty pet food when used according to the directions on the label.

(2) Satisfactory evidence of the safety and effectiveness of a pet food or specialty pet food that contains additives (including drugs, other special purpose additives, or nonnutritive additives) is established if one or more of the following apply:

(a) When the use of a pet food or specialty pet food containing such additives either:

(i) Conforms to the requirements of the applicable regulation in 21 CFR; or

(ii) Are "prior sanctioned"; or

(iii) Are "informal review sanctioned"; or

(iv) "Generally recognized as safe" (GRAS) for such use.

(b) When the pet food or specialty pet food is itself a drug, and is:

(i) Generally recognized as safe (GRAS) and effective for the labeled use; or

(ii) Marketed subject to an application approved by the Food and Drug Administration under 21 U.S.C. 360b as amended effective on the date these rules were adopted.

(c) When one purpose for feeding a pet food or specialty pet food is to immunize through some immunological process and the immunizing drugs or additives have been approved for the purpose through the Federal Virus, Serum and Toxins Act of 1913, as amended in 1985 (21 U.S.C. 151 et seq.).

(d) When the pet food or specialty pet food is a directly fed microbial product and the:

(i) Product meets the particular fermentation product definition as listed in the Association of American Feed Control Officials official publication; and

(ii) Required microbial content statement on the label is limited to the following: "Contains a source of live (viable) naturally occurring microorganisms"; and

(iii) Source is stated with a corresponding guarantee expressed according to WAC 16-252-076 requirements.

(e) When the pet food or specialty pet food is an enzyme product and the:

(i) Product meets the particular enzyme definition listed in the Association of American Feed Control Officials official publication; and

(ii) Enzyme is stated with a corresponding guarantee expressed according to WAC 16-252-076 requirements.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-095, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-095, filed 11/19/03, effective 7/1/04.]

WAC 16-252-100 "Directions for use" and "precautionary statement" requirements. (1) Directions for use and precautionary statements on required labeling of all pet food and specialty pet foods containing additives (including, but not limited to, drugs, nonprotein nitrogen, special purpose additives, or nonnutritive additives) must:

(a) Be adequate to enable users with no special knowledge of the purpose and use of the feed to use it safely and effectively for its intended purposes; and

(b) Include all information described by all applicable regulations of 21 CFR, Parts 500-599 under the Federal Food, Drug and Cosmetic Act.

[Title 16 WAC—p. 338]

Note: The Food and Drug Administration's regulations are published in the Code of Federal Regulations, and are available in book format from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. They are also available on the internet at <http://www.gpoaccess.gov/cfr/retrieve.html>. A copy of 21 CFR Parts 500-599 are also on file with the department.

(2) Adequate directions for use and precautionary statements identified in subsection (1) of this section are required for pet food and specialty pet food that is distributed to:

(a) Supply particular dietary needs; or

(b) Supplement or fortify the usual diet or ration with any vitamin, mineral, or other dietary nutrient or compound.

(3)(a) When a pet food or specialty pet food is intended for use by or under the supervision of a veterinarian, the statement "use only as directed by your veterinarian" must be on the label. When such a statement is on a pet food label, feeding instructions are not required, but may appear on the label. This regulation takes precedence over other regulations in this subsection.

(b) Pet food, including snacks or treats, labeled as "complete and balanced" for any or all life stages, must list feeding directions on the label. Any pet food labeled as "snacks" or "treats" that contains a drug, must list feeding directions on the label. These directions must:

(i) Be expressed in common terms;

(ii) Appear prominently on the label;

(iii) State the frequency of feeding; and

(iv) At a minimum state, "feed (weight or other measure of product) per (weight only) of dog (or cat)."

(c) Directions must be consistent with the intended use(s) indicated in the nutritional adequacy statement, unless a limited use or more limited life stage designation is declared elsewhere (for example, "adult formula").

(d) Directions must be given for each life stage stated on the label.

(4)(a) Pet food and specialty pet food snacks and treats do not require feeding directions on the label except when they:

(i) Are labeled as "complete and balanced"; or

(ii) Contain a drug.

(b) Feeding directions may be on the label for snacks and treats even when not required.

(5) Pet food and specialty pet food labels must contain the statement "This product is intended for intermittent or supplemental feeding only," if the product does not meet the nutrient requirements of the appropriate AAFCO recognized nutrient profile, feeding protocol, or any other special nutritional or dietary need, thus making it suitable only for limited, intermittent, or supplementary feeding.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-100, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-100, filed 11/19/03, effective 7/1/04.]

WAC 16-252-110 Screenings. (1) If screenings are used in a pet food or specialty pet food, they must:

(a) Not contain any seed, pesticide, or other product that renders it adulterated within the meaning of RCW 15.53.902; and

(b) Be ground fine enough or otherwise treated to destroy the viability of the noxious weed seeds contained in the screening so that the finished product contains no more

(2007 Ed.)

than one viable prohibited noxious weed seed per pound and not more than twenty-five viable restricted noxious weed seeds per pound.

(2) For purposes of this pet food and specialty pet food, commercial feed rule, prohibited noxious weed seeds are those listed in WAC 16-301-045 (Prohibited noxious weed seeds) and restricted noxious weed seeds are those listed in WAC 16-301-050 (Restricted noxious weed seeds).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-110, filed 11/19/03, effective 7/1/04.]

WAC 16-252-120 Adulteration of pet food and specialty pet food. (1) The terms "poisonous or deleterious substances" as used in RCW 15.53.902 include, but are not limited to, the following:

(a) Any ingredient, pet food or specialty pet food that contains more than twenty parts per billion aflatoxin B1, B2, G1, G2, individually or in total.

(b) Soybean meal, flakes or pellets or other vegetable meals, flakes or pellets that have been extracted with trichloroethylene or other chlorinated solvents.

(c) Sulfur dioxide, sulfurous acid, and salts of sulfurous acid when used in or on pet food or pet food ingredients that are considered or reported to be a significant source of vitamin B1 (thiamine).

(d) Any substance that is prohibited by 21 CFR, Part 589.

(2) When screenings are used in a pet food or specialty pet food, the screenings and the finished product must comply with the requirements in WAC 16-252-110 or the pet food will be considered adulterated.

(3) Pet food or specialty pet food containing raw or unprocessed animal waste will be considered adulterated.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-120, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-120, filed 11/19/03, effective 7/1/04.]

WAC 16-252-140 Use of artificial coloring. (1) Artificial coloring may be used in pet food if it is harmless to animals.

(2) Any pet food or specialty pet food ingredient or pet food or specialty pet food product must not contain materials that enhance the natural color of a food if it conceals inferiorities.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-140, filed 11/19/03, effective 7/1/04.]

WAC 16-252-150 Reusing bags, totes, and containers. Bags, totes, or nonporous containers of similar capacity used for pet food or specialty pet food must not be reused unless appropriately cleaned. A firm that intends to reuse bags, totes, or containers must document their clean-out procedures.

Note: "Appropriate cleaning procedures" are procedures that prevent cross contamination of products that would create a safety concern. Examples of safety concerns include:
(1) Medicated products contaminating nonmedicated products;
(2) Prohibited mammalian protein contaminating ruminant feed; and
(3) Feed containing minerals, or other additives, intended for one species contaminating feed intended for another species that is more sensitive to a mineral or other additive.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-150, filed 11/19/03, effective 7/1/04.]

WAC 16-252-155 Tonnage fee required. Each initial distributor of a pet food or specialty pet food in or into Washington state must pay the department an inspection fee of twelve cents per ton on all pet food or specialty pet food they sold, for distribution within Washington state, during the year. The minimum inspection fee, the late fee, and exceptions to payment of the fee are as authorized in RCW 15.53.9018.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-155, filed 9/7/05, effective 10/8/05. Statutory Authority: Chapter 15.53 RCW, 2003 1st sp.s. c 25, and chapter 34.05 RCW. 04-14-076, § 16-252-155, filed 7/6/04, effective 1/1/05. Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-155, filed 11/19/03, effective 7/1/04.]

WAC 16-252-165 Registration requirements. (1) All registration applications for pet food and specialty pet food must be on forms available from the department.

(2) The application for pet food and specialty pet food registration, to be completed by applicants and registrants, must include:

- (a) The company name (registrant);
- (b) Complete business mailing address;
- (c) Complete physical address of the business, if different than the mailing address;
- (d) Telephone number;
- (e) Company name on label if different than the registrant;
- (f) Number of products sold in small packages of less than ten pounds;
- (g) Number of products sold in large packages of ten pounds or more;
- (h) Company registrar's name;
- (i) Company registrar's title;
- (j) Registrar's signature; and
- (k) Date signed.

Note: The application for registration of pet food and specialty pet food products may be downloaded from the internet at <http://agr.wa.gov/FoodAnimal/AnimalFeed/Forms.htm>.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-165, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-165, filed 11/19/03, effective 7/1/04.]

WAC 16-252-170 Label submission requirements. Pet food and specialty pet food registrants must submit copies of their labels and labeling to the department when:

- (1) Applying for a registration; or
- (2) The label is revised by the registrant; or
- (3) When requested by the department for reasonable cause.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-129, § 16-252-170, filed 11/19/03, effective 7/1/04.]

WAC 16-252-180 Good manufacturing practices adopted. The following good manufacturing practices are adopted:

- (1) Regulations prescribing current good manufacturing practices for Type B and Type C medicated feeds as published in 21 CFR, Part 225, Sections 225.1-225.202.

(2) Regulations prescribing good manufacturing practices for Type A Medicated Articles as published in 21 CFR, Part 226, Sections 226.1-226.115.

(3) Regulations pertaining to animal proteins prohibited in ruminant feed as published in 21 CFR, Part 589.2000.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 05-18-093, § 16-252-180, filed 9/7/05, effective 10/8/05; 03-23-129, § 16-252-180, filed 11/19/03, effective 7/1/04.]

Chapter 16-256 WAC COMMERCIAL FEED RULES—PROCESSED ANIMAL WASTE

WAC

16-256-001	Effective date.
16-256-010	"Animal waste" and "processed" defined.
16-256-020	Processed animal waste products identified.
16-256-030	Labeling requirements for processed animal waste products.
16-256-040	Testing requirements for processed animal waste products.
16-256-050	Processed animal waste products—Commercial feed license required.
16-256-060	Procedures for denying or revoking a commercial feed license for a processed animal waste product facility.
16-256-070	Quality standards for processed animal waste products.
16-256-080	Records required for processed animal waste products.

WAC 16-256-001 Effective date. Chapter 16-256 WAC, Commercial feed rules—Processed animal waste, becomes effective on July 1, 2004.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-001, filed 11/19/03, effective 7/1/04.]

WAC 16-256-010 "Animal waste" and "processed" defined. "Animal wastes" means a material composed of excreta, with or without bedding materials and/or animal drugs, collected from poultry, ruminants or other animals except humans.

"Lot identifier" means a unique identifier for each lot, batch or production run that enables the manufacturer to accurately trace the complete manufacturing and distribution history of the product. A lot identifier is an individual lot, batch or production run number, code, date, or other suitable identification applied to the label, container, or package. In the case of bulk feed the lot identifier is on a label, invoice, or shipping document accompanying the feed.

"Processed," as applied to animal waste, means thermally dehydrated, dry-stacked, ensiled, oxidized, chemically treated, microbiologically digested, chemically or physically fractionated, or treated by other processes that enable an animal waste product to comply with the standards established in this chapter.

Note: Commercial feed containing raw or unprocessed animal waste is considered adulterated under WAC 16-250-120(3).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-010, filed 11/19/03, effective 7/1/04.]

WAC 16-256-020 Processed animal waste products identified. A product is considered a processed animal waste product only if it meets one of the definitions in the following table.

[Title 16 WAC—p. 340]

Processed Animal Waste Products		
Product Type	Description	Thermal Dehydration Limit
Dried poultry waste (DPW)	A processed animal waste product composed of the feces from commercial poultry	Thermally dehydrated to a moisture content not in excess of 12.00 percent
Dried poultry waste-NPN extracted	A processed animal waste product composed of the feces from commercial poultry which has been processed to remove part or all of the crude protein derived from nonprotein nitrogen (NPN) as urea and/or uric acid	Thermally dehydrated to a moisture content not in excess of 12.00 percent
Dried poultry litter-(DPL)	A processed animal waste product composed of a combination of feces from commercial poultry together with litter that was present in the floor production of poultry	Thermally dehydrated to a moisture content not in excess of 12.00 percent
Dried ruminant waste-(DRW)	A processed animal waste product composed of ruminant excreta	Thermally dehydrated to a moisture content not in excess of 12.00 percent
Undried processed animal waste product	A processed animal waste product composed of excreta, with or without litter, from poultry, ruminants or any other animal except humans	Contains in excess of 12.00 percent moisture

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-020, filed 11/19/03, effective 7/1/04.]

WAC 16-256-030 Labeling requirements for processed animal waste products. The label, tag, or label invoice accompanying shipments of animal waste products must contain the information required in RCW 15.53.9016, this chapter and the following information:

(1) If the product contains drugs or drug residues, then the label must contain the following statement in boldface type at least one-half as large as the largest type appearing on the label:

"WARNING: THIS PRODUCT CONTAINS DRUG RESIDUES. DO NOT USE WITHIN THIRTY DAYS OF SLAUGHTER AND DO

(2007 Ed.)

NOT USE THIRTY DAYS PRIOR TO OR DURING THE FOOD PRODUCTION PERIOD OF DAIRY ANIMALS AND/OR HENS."

(2) If the product contains high levels (15 ppm or greater) of copper, then the label must contain the following statement in boldface type at least one-half as large as the largest type appearing on the label:

"WARNING: CONTAINS HIGH LEVELS OF COPPER: DO NOT FEED TO SHEEP."

(3) If the product derives one-third or more of the guaranteed total crude protein from nonprotein nitrogen sources, the label shall provide adequate directions for safe use of the product and the precautionary statement:

"CAUTION: USE ONLY AS DIRECTED."

(4) Animal waste product labels, tags, or labeling must contain the following guarantees in percentages by weight in the following order and form:

- (a) Minimum crude protein;
- (b) Maximum crude protein from nonprotein nitrogen (NPN);
- (c) Minimum crude fat;
- (d) Maximum crude fiber;
- (e) Maximum moisture;
- (f) Maximum ash;
- (g) Minimum and maximum calcium (Ca);
- (h) Minimum phosphorus (P);
- (i) Maximum sodium (Na);
- (j) Maximum lignin (if the processed animal waste product is dried poultry litter and if the product contains wood-based bedding materials);
- (k) Maximum copper (Cu) (if the processed animal waste product is dried poultry waste or dried poultry litter and **does not** contain the warning "DO NOT FEED TO SHEEP").

(5)(a) Lot identifier that is sufficient to allow the manufacturer to accurately trace the complete manufacturing and distribution history of the product.

(b) Records relating the lot identifier to the manufacture, processing, packing, distribution, receipt, or holding of the product must be kept for one year after the last date of distribution.

(6) Mixed feeds containing processed animal waste products must:

(a) State on the label the maximum percentage and type of processed animal waste product used in the mixed feed; and

(b) Comply with additional labeling requirements under chapters 16-250 or 16-252 WAC for the species for which the product is mixed.

(7) Processed animal waste product labeling must contain, as part of the product name, the animal source and product type.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-030, filed 11/19/03, effective 7/1/04.]

WAC 16-256-040 Testing requirements for processed animal waste products. (1) The purpose of the sampling and testing requirements in this section is to determine the presence of harmful materials or biological contaminants specified in WAC 16-256-070 and to assure compliance with the quality standards in that section.

(2007 Ed.)

(2) Any person seeking or maintaining a commercial feed license for any processed animal waste product facility must:

- (a) Test those products, by representative sampling;
- (b) Analyze those samples; and
- (c) Keep accurate records of the test results for two years.

(3) The sample used must be of sufficient size to provide meaningful data that is statistically reliable.

(4) Before a processed animal waste product is distributed, the licensee must comply with the following sample and analyses requirements:

(a) Sufficient testing and analyses must be conducted to ensure that the last three consecutive production runs are consistent with the required quality standards in WAC 16-256-070.

(b) After the initial testing is completed, periodic analyses (at least one analysis each calendar quarter) must be conducted on subsequent production runs. Less frequent testing may be allowed when the analytical results show continued uniformity and a consistent margin of compliance. More frequent tests must be conducted when the analytical results show either a wide range of levels or levels close to established quality standard limits.

(5) Analysis of the samples used to determine if the processed animal waste meets the quality standards in WAC 16-256-070 must also include the following:

- (a) Drugs used (or suspected of use) in feed or as a therapeutic treatment of the animals;
- (b) Pesticides used on the animal, facilities, and wastes for pest control;
- (c) Pathogenic organisms, at least to include *Salmonella* and *E. coli*;

(d) Heavy metals, including, but not limited to, arsenic, cadmium, copper, lead, mercury and selenium;

(e) Parasitic larva or ova; and

(f) Mycotoxins, such as aflatoxins.

(6) Sequential testing is required when the periodic analyses required by WAC 16-256-040(4) or other information available to the manufacturer of the ingredient indicates that:

(a) The ingredients are not within the limitations established in these regulations;

(b) Changes are made in the manufacturing process;

(c) New or expanded sources of the raw ingredients are used; or

(d) Changes occur in the drugs or pesticides used by the supplier(s) of the raw ingredient(s).

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-040, filed 11/19/03, effective 7/1/04.]

WAC 16-256-050 Processed animal waste products—Commercial feed license required. (1) A commercial feed license is required for each facility that manufactures or distributes processed animal waste product intended, promoted, represented, advertised or distributed for use as a commercial feed or feed ingredient.

(2) The commercial feed license application form, to be completed by applicants and licensees, must include the:

(a) Name and business address of the applicant;

(b) Type of business the firm is engaged in (feed manufacturer, dealer, broker, etc.);

(c) Type of commercial feed distributed (processed animal waste product, medicated feed, complete feed, feed supplement, animal products, etc.);

(d) The statutory registration fee of fifty dollars;

(e) A copy of the processed animal waste label that the applicant proposes to use;

(f) A detailed description of sampling procedures used to sample the processed animal waste product for analysis;

(g) A sampling schedule;

(h) A full description of all tests made; and

(i) Test results showing that the processed animal waste product meets the standards in WAC 16-256-070.

(3) The department may take an official sample of the processed animal waste product for examination and analysis before issuing a commercial feed license for a facility that manufactures or distributes processed animal waste products.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-050, filed 11/19/03, effective 7/1/04.]

WAC 16-256-060 Procedures for denying or revoking a commercial feed license for a processed animal waste product facility. (1) A commercial feed license for a processed animal waste product facility will be denied or revoked if the:

(a) Applicant or the processed animal waste product is determined to be in violation of any Washington state statute or Washington state agency rule or regulation affecting or relating to the distribution of commercial feeds in this state.

(b) Processed animal waste product does not meet the quality standards in WAC 16-256-070.

(c) Processed animal waste product label does not comply with the requirements of chapter 15.53 RCW and WAC 16-256-030.

(d) Processed waste product is not labeled in compliance with law and agency rules and regulations, including WAC 16-256-030 of these rules.

(e) Applicant or licensee fails to perform the testing as specified in WAC 16-256-256 or to accurately maintain and make available to the director or his designee for inspection and copying, upon demand, the records required in WAC 16-256-080.

(2)(a) When an animal waste product or labeling, or other material required to be submitted with an application fails to comply with the requirements of these rules, the director must notify the applicant why the application does not comply so the applicant can make the necessary corrections.

(b) If, upon receipt of such a notice, the applicant does not make the necessary corrections, the director must deny the license application for the processed animal waste product facility. The applicant may then request a hearing under chapter 34.05 RCW.

(3) After determining that an animal waste product or its labeling does not comply with the provisions of chapter 15.53 RCW or WAC 16-256-030, the department may revoke the facility's license. If aggrieved by the decision, the licensee may request a hearing as authorized under chapter 34.05 RCW.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-060, filed 11/19/03, effective 7/1/04.]

WAC 16-256-070 Quality standards for processed animal waste products. (1) Dried animal waste products must comply with the requirements in the following table:

Dried Animal Waste Products					
	Required Minimum/Maximum Content	Dried Poultry Waste	Dried Poultry Waste-NPN Extracted	Dried Poultry Litter	Dried Ruminant Waste
Crude protein	At least	18.00%	11.00%	18.00%	12.00%
Crude fiber	No more than	15.00%	15.00%	25.00%	40.00%
Moisture	No more than	12.00%	12.00%	12.00%	12.00%
Ash	No more than	30.00%	30.00%	20.00%	30.00%
Feathers	No more than	1.00%	1.00%	4.00%	N/A
Combined straw, wood, wood shavings, litter, dirt, sand, rocks, and other similar extraneous materials	No more than	N/A	N/A	N/A	40.00%

(2) Processed animal waste products must not contain:

(a) Any extraneous materials such as, but not limited to, metal, glass, wire or nails (except for undried processed animal waste products in subsection (4) of this section and dried ruminant waste products in subsection (6) of this section); or

(b) Any harmful pathogenic organisms, pesticide residues, harmful parasites, or drug residues except as allowed in WAC 16-256-030(1); or

(c) Other toxic or deleterious substances above levels permitted by department statute or regulation or which could

be harmful to the animals or could result in residue in tissues of food products; or

(d) By-products of animals at levels in excess of those allowed by statute or regulation.

(3) Processed animal waste products must not contain:

(a) Aflatoxin in excess of 20 parts per billion (ppb); and

(b) More than a total of 500 parts per million (ppm) of heavy metals such as mercury, lead, bismuth, copper, cadmium, arsenic, antimony, and tin.

(4) Undried processed animal waste products must contain no more than forty percent combined straw, wood, wood shavings, litter, dirt, sand, rocks and other extraneous materials.

(5) To aid in maintaining a stable microbiological quality, any product labeled as, or containing dried animal waste products, must be maintained at no more than twelve percent moisture.

(6) Any processed animal waste product that does not meet the applicable quality standards must be:

(a) Further processed until the quality standards are met; or

(b) Diverted to nonfeed or nonfood uses; or

(c) Destroyed.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-070, filed 11/19/03, effective 7/1/04.]

WAC 16-256-080 Records required for processed animal waste products. Any licensed processed animal waste product facility must keep accurate records for two years containing the following information:

(1) All sources of the raw materials used in the production of processed animal waste products and the date those raw materials were acquired including information on drug and pesticide use.

(2) All production batches of processed animal waste products including the code or other method used to identify the batch or date of production.

(3) All distribution of processed animal waste products including the:

(a) Name and address of the purchaser or to whom the product was distributed;

(b) Date the product was distributed;

(c) Quantity of the product distributed; and

(d) Production code for the product distributed.

(4) Test sampling and analysis records required by WAC 16-256-040.

[Statutory Authority: Chapters 15.53 and 34.05 RCW. 03-23-131, § 16-256-080, filed 11/19/03, effective 7/1/04.]

Labeling—Requirements for seed mixtures for lawn and/or turf purposes.

Prohibited noxious weed seeds.

Restricted noxious weed seeds.

Tolerances for seed law enforcement.

Treated Seed Labeling Requirements

Treated seed labeling requirements.

Labeling requirements for seed treated with mercurials and similarly toxic pesticides.

Labeling requirements for seed treated with other pesticides.

Treated seed color requirement.

Labeling requirements for seed treated with inoculates.

Examples of minimum label formats for treated seed.

Germination Standards

Germination standards for vegetable seeds.

Sampling—Administration of the Washington State Seed Act.

PART 2 - SEED ARBITRATION

Matters subject to mandatory arbitration.

Filing of a complaint for arbitration.

Requirement to respond to complaint.

Acceptance of filing by telefax.

Arbitration committee.

Referral to arbitration committee.

Scheduling of hearing.

Representation by counsel.

Waiver of oral hearing.

Record of the hearing.

Attendance at hearings.

Committee investigation.

Evidence.

Evidence by affidavit.

Discovery.

Arbitration in the absence of a party.

Order of proceedings.

Expert evidence and performance tests.

Conservation of property.

Reopening of a hearing.

Expenses.

Arbitration committee report.

Award upon settlement.

PART 3 - PHYTO-SANITARY FIELD INSPECTIONS

Definition of a phyto-sanitary certificate.

Apply for a phyto-sanitary field inspection.

Land and production requirements for a seed phyto-sanitary field inspection.

Phyto-sanitary field inspection requirements for peas.

Phyto-sanitary field inspection requirements for beans.

Phyto-sanitary field inspection requirements for other seed crops and diseases.

PART 4 - QUARANTINES

Annual Bluegrass Quarantine

Annual bluegrass quarantine—Establishing quarantine.

Annual bluegrass quarantine—Definitions.

Annual bluegrass quarantine—Regulated area.

Annual bluegrass quarantine—Quarantine area.

Annual bluegrass quarantine—Regulated articles.

Annual bluegrass quarantine—Conditions governing movement of regulated articles.

Violations and penalty.

Annual bluegrass quarantine—Procedure for clearing.

Annual bluegrass quarantine—Seed stock containing annual bluegrass.

Annual bluegrass quarantine—Application for nursery inspection—Sampling and analysis.

Annual bluegrass quarantine—Violation procedures.

Rough Bluegrass Quarantine

Rough bluegrass quarantine—Establishing quarantine.

Rough bluegrass quarantine—Definitions.

Rough bluegrass quarantine—Regulated area.

Rough bluegrass quarantine—Quarantine area.

Rough bluegrass quarantine—Regulated articles.

Rough bluegrass quarantine—Conditions governing movement of regulated articles.

16-301-335	Rough bluegrass quarantine—Procedure for clearing seed stocks.	16-301-455	Bean seed-borne viral disease quarantine—Regulated articles. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-455, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-340	Rough bluegrass quarantine—Seed stock containing rough bluegrass.	16-301-460	Bean seed-borne viral disease quarantine—Regulated disease. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-460, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-345	Rough bluegrass quarantine—Application for nursery inspection.	16-301-465	Bean seed-borne viral disease quarantine—Quarantined area. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-465, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-350	Rough bluegrass quarantine—Fees.	16-301-470	Bean seed-borne viral disease quarantine—Regulated area. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-470, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-355	Rough bluegrass quarantine—Violation and procedures.	16-301-475	Bean seed-borne viral disease quarantine—Requirements for planting bean seed in the regulated area. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-475, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
	Bean Seed Quarantine	16-301-480	Bean seed-borne viral disease quarantine—Identification and disposition of diseased bean seed. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-480, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-365	Bean seed quarantine—Establishing quarantine.	16-301-485	Bean seed-borne viral disease quarantine—Penalties. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-485, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
16-301-370	Definitions.		
16-301-375	Regulated articles.		
16-301-380	Regulated diseases.		
16-301-385	Bean seed—Quarantined area.		
16-301-390	Bean seed—Regulated area.		
16-301-395	General requirements for planting bean seed in the regulated area.		
16-301-396	Additional requirements for planting bean seed in the regulated area relating to seed-borne viral diseases.		
16-301-400	Additional requirements for planting bean seed grown in the regulated area.		
16-301-410	Additional requirements for planting bean seed originating in quarantine Area I; areas west of the continental divide.		
16-301-415	Additional requirements for planting bean seed originating in quarantine Area II; areas east of the continental divide and foreign countries.		
16-301-420	Quarantine—Exceptions and exemptions.		
16-301-425	Inspection procedures for trial grounds.		
16-301-430	Identification and disposition of diseased bean seed and infected bean fields.		
16-301-435	Notice of destruction.		
16-301-440	Penalties.		
	Crucifer Seed Quarantine		
16-301-490	Why is the department establishing a crucifer seed quarantine?		
16-301-495	What definitions are important to understanding this chapter?		
16-301-500	What crucifer articles are regulated by this chapter?		
16-301-505	What diseases are regulated by this chapter?		
16-301-510	What seed must undergo dormancy testing?		
16-301-515	What is the quarantined area for this crucifer seed quarantine?		
16-301-520	What is the regulated area for this crucifer seed quarantine?		
16-301-525	What are the exemptions to the crucifer seed quarantine that apply within the regulated area?		
16-301-530	What requirements apply to planting crucifer seed in the regulated area?		
16-301-535	What requirements apply to boxes and racks used to ship crucifer seedlings?		
16-301-540	What requirements apply to crucifer transplants grown in greenhouses in the regulated area?		
16-301-545	What requirements apply to crucifer seed lots that test positive for any regulated disease?		
16-301-550	If documentation verifying that crucifer seed is free from regulated diseases is not available, what protocols must be followed before the seed is planted in a regulated area?		
16-301-555	How are approved trial grounds established and what rules apply to them?		
16-301-560	What are the inspection requirements for trial grounds?		
16-301-565	What are the testing requirements for seed harvested from an approved trial ground?		
16-301-570	What are the penalties for violating the crucifer seed quarantine?		
16-301-575	How are diseased crucifer seeds and infected fields identified?		
16-301-580	What regulations apply to diseased crucifer seeds and infected fields?		

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-301-450	Bean seed-borne viral disease quarantine—Establishing the quarantine. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-450, filed 12/4/00, effective 1/4/01.] Repealed by 04-08-043, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW.
------------	---

WAC 16-301-005 General seed standards—Definitions. Definitions for terms used in this chapter and in chapters 16-302 and 16-303 WAC may be found in chapter 15.49 RCW, seed. For the purposes of these chapters, the following definitions shall apply unless otherwise provided for in law or rule:

"Agricultural seed" as defined in RCW 15.49.011(2) includes grass, forage, cereal, oil, fiber, and other kinds of crop seeds commonly recognized within this state as agricultural seeds, lawn seeds, and combination of such seeds, and may include common and restricted noxious weed seeds but not prohibited noxious weed seeds.

"AOSA" means the Association of Official Seed Analysts.

"AOSCA" means the Association of Official Seed Certifying Agencies.

"Approved trial grounds" means a specific parcel of land approved by the director for experimental or limited production or increase of bean seed.

"Arbitration committee" means the committee established by the director under RCW 15.49.101 to hear and make determinations in mandatory, nonbinding, arbitration cases.

"Bean" means common beans and adzuki beans.

"Blend" as defined in RCW 15.49.011(3) means seed consisting of more than one variety of a species, each in excess of five percent by weight of the whole.

"Blending" as related to this chapter shall be the process of commingling two or more lots of seed to form one lot of uniform quality.

"Buyer" means a person who purchases seeds.

"Chairperson" means the person selected by the arbitration committee from among their numbers to preside.

"Certifying agency" as defined in RCW 15.49.011(5) means:

(a) An agency authorized under the laws of any state, territory, or possession to certify seed officially and which has standards and procedures approved by the United States secretary of agriculture to assure the genetic purity and identity of the seed certified; or

(b) An agency of a foreign country determined by the United States Secretary of Agriculture to adhere to procedures and standards for seed certification comparable to those adhered to generally by seed-certifying agencies under (a) of this subsection.

"Common bean" means *Phaseolus vulgaris* L.

"Complete record" means information which relates to the origin, treatment, germination and purity (including variety) of each lot of seed. Records include seed samples and records of declaration, labels, purchases, sales, cleaning, bulking, treatment, handling, storage, analyses, tests and examinations.

"Dealer" as defined in RCW 15.49.011(7) means any person who distributes seeds.

"Department" as defined in RCW 15.49.011(8) means the Washington state department of agriculture or its duly authorized representative.

"Director" as defined in RCW 15.49.011(9) means the director of the department of agriculture.

"Field standards" means the tolerances permitted as determined by established field inspection procedures.

"Fiscal year" means the twelve-month period July 1 through June 30.

"Flower seeds" as defined in RCW 15.49.011(11) include seeds of herbaceous plants grown for their blooms, ornamental foliage, or other ornamental parts, and commonly known and sold as flower seeds in this state.

"Germination" as defined in RCW 15.49.011(13) means the emergence and development from the seed embryo of those essential structures which, for the kind of seed in question, are indicative of the ability to produce a normal plant under favorable conditions.

"Interagency certification" means the participation of two or more official certifying agencies in performing the services required to certify the same lot or lots of seed.

"Isolation standards" means the distance in feet from any contaminating source (i.e., distance from other fields of same species).

"Label" as defined in RCW 15.49.011(18) includes a tag or other device attached to or written, stamped, or printed on any container or accompanying any lot of bulk seeds purporting to set forth the information required on the seed label by chapter 15.49 RCW, and may include other information including the requirement for arbitration.

"Land standards" means the number of years that must elapse between the destruction of a stand of a kind, and establishment of a stand of a specified class of a variety of the same kind (i.e., number of years out of production of same crop kind).

"Mixture, mixed or mix" as defined in RCW 15.49.011(22) means seed consisting of more than one species, each in excess of five percent by weight of the whole.

"Nursery" means an area of two acres or less in which grass for seed production is seeded in rows with twenty-four inch minimum spacing to facilitate roguing.

"O.E.C.D." means the Organization for Economic Cooperation and Development certification scheme.

"Off-type" means a plant or seed which deviates in one or more characteristics from that which has been described as being usual for the strain or variety.

"Official certificate" means a document issued by an official testing agency including but not limited to seed certification tags, bulk seed certification certificates, phyto-sanitary certificates, laboratory sanitary certificates, and other letters, tags, stamps, or similar documents certifying seed quality or condition.

"Official sample" as defined in RCW 15.49.011(23) means any sample taken and designated as official by the department.

"Official seed laboratory" means a seed testing laboratory approved by the director, such as, but not limited to, Washington State Seed Laboratory, 21 N 1st Avenue, Yakima, Washington; and Oregon State Seed Laboratory, Oregon State University, Corvallis, Oregon. This definition is to include any laboratory that has an accreditation process in place.

"Origin" means the county within the state of Washington, or the state, territory, or country where a specific seed lot was grown.

"Person" as defined in RCW 15.49.011(26) means an individual, partnership, corporation, company, association, receiver, trustee or agent.

"Proprietary variety" means that crop variety for which a person has exclusive production and/or marketing rights.

"Representative sample" means a sample drawn in accordance with sampling procedures adopted in WAC 16-301-095.

"Seeds" as defined in RCW 15.49.011(33) means agricultural or vegetable seeds, or other seeds as determined by rules adopted by the department.

"Seed labeling permit" means a permit issued by the department pursuant to RCW 15.49.400 to a person labeling seed for distribution in this state.

"Seed program advisory committee" means a committee of representatives from the small grains, pea, lentil, bean, vegetable, small seeded legumes, and grass seed industries selected by the program manager in consultation with the industry.

"Seed standards" means the tolerances permitted as determined by established seed inspection procedures.

"Serology" means precipitation, agglutination, immunodiffusion, or labeled antibody test methods (such as ELISA) that use the specificity of antigen-antibody reactions to detect

and identify antigenic substances and the organisms such as viruses and bacteria that carry viruses.

"**Stock seed**" means breeders, prebasic, or like initial generation of seed.

"**Sudangrass**" means *Sorghum bicolor x drummondii*.

"**University**" means the Washington State University.

"**USDA**" means the United States Department of Agriculture.

"**Vegetable seeds**" as defined in RCW 15.49.011(38) include the seeds of all crops that are grown in gardens and on truck farms and are generally known and sold under the name of vegetable or herb seeds in this state.

"**WSCIA**" means the Washington State Crop Improvement Association.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 06-17-041, § 16-301-005, filed 8/8/06, effective 9/8/06; 03-18-072, § 16-301-005, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-005, filed 12/4/00, effective 1/4/01.]

WAC 16-301-010 What publications are adopted in chapters 16-301, 16-302, and 16-303 WAC and where can they be obtained? (1) The AOSCA rules and procedures for certification adopted in the year 2003. A copy may be obtained by writing; AOSCA, 600 Watertower Lane, Suite D, Meridian, Idaho 83642-6286.

(2) The AOSA rules for testing seed adopted in the year 2003. A copy may be obtained by contacting the administrative office for AOSA at McBride and Associates, Inc., P.O. Box 80705, Lincoln, NB 68501-0705.

(3) The Federal Seed Act and Code of Federal Regulations (CFR) Part 201 as revised January 1, 1998. A copy may be obtained by writing to the USDA, AMS, Washington, D.C. 20250.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-301-010, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-010, filed 12/4/00, effective 1/4/01.]

WAC 16-301-011 What are the functions of the seed program advisory committee? The seed program advisory committee shall meet at least annually and make recommendations to the department regarding the objectives of the seed program. The review should include a review of the regulatory activities and program expenditures.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-011, filed 12/4/00, effective 1/4/01.]

PART 1 - SEED LABELING

WAC 16-301-015 Seed labeling requirements for agricultural, vegetable, and flower seeds. (1) Each container of agricultural, vegetable or flower seeds, that is sold, offered or exposed for sale, or transported within this state for sowing purposes, must bear or have attached to the container a plainly written or printed label or tag in the English language; and

(a) The label provides information required in WAC 16-301-060 through 16-301-085 on treated seeds in addition to the information required in subsection (2) of this section; and

(b) The label is placed in a conspicuous manner on the seed container; and

(c) The printed label or tag is not modified or denied in the labeling or on any label attached to the seed container.

(2) Each container of agricultural, vegetable or flower seeds, that is sold, offered or exposed for sale, or transported within this state for sowing purposes must bear "*Requirement for arbitration - The Washington State Seed Act, chapter 15.49 RCW, requires mandatory arbitration of disputes involving allegedly defective seed. See chapter 16-301 WAC or contact the Washington State Department of Agriculture, Seed Program, (509) 225-2630,*" on:

(a) The analysis tag; or

(b) A separate tag or label attached securely to each container; or

(c) Printed in a conspicuous manner on the side of each container; or

(d) Alternate wording may be approved in writing by the department to meet the needs of the industry.

(3) Except for grass seed mixtures, and hybrids that contain less than ninety-five percent hybrid seed, the label for agricultural seeds must contain the following information:

(a) The name of the kind and variety of each agricultural seed present in excess of five percent of the whole and the percentage by weight of each or if the variety is not listed with the certifying agency, the name of the kind and the words, "*variety not stated.*" Hybrids must be labeled as hybrids; and

(b) The lot number or other lot identification; and

(c) The origin state or foreign country, if known. If the origin is not known, that fact shall be stated on the label; and

(d) The percentage, by weight, of all weed seeds present. The maximum weed seed content may not exceed two percent by weight; and

(e) The name and rate of occurrence in seeds per pound of each kind of restricted noxious weed seed present; and

(f) The percentage by weight of agricultural seeds, which may be designated as "crop seeds," other than those required to be named on the label; and

(g) The percentage by weight of inert matter; and

(h) The percentage of seed germination, exclusive of hard seed, and the percentage of hard seed, if present, or "total germination and hard seed" as a single percentage; and

(i) The calendar month and year the seed germination test was completed to determine such percentages; and

(j) The name and address of the person who labels, sells, offers, or exposes for sale seed within this state.

(4) For seed that is coated the label must also contain the following:

(a) The percentage of pure seed with coating material removed;

(b) The percentage of coating material shown as a separate item in close association with the percentage of inert material;

(c) The percentage of germination as determined on four hundred coated seed pellets, with or without seeds.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-015, filed 12/4/00, effective 1/4/01.]

WAC 16-301-020 Other labeling requirements for small grain, field pea, lentil, and/or soybean seed. In addition to the information required on the label in WAC 16-301-015, the following requirements also apply:

(1) Small grain seed - labels for small grain seed must include the following information:

(a) Each variety (e.g., Nugaines), whether the variety is typically a winter or spring sown variety, and kind (e.g., wheat); or may not be shown if the label conspicuously shows the words "typical sowing season not stated";

(b) A tetrazolium test may be used in lieu of germination if the label states "Tetrazolium...%," and that a germination test of the lot is in process and shall be made available to the purchaser when completed. The label shall also show the calendar month and year the tetrazolium test was completed.

(2) Small grain, field pea, lentil, and/or soybean seed - the following shall apply for labeling of small grain, field pea, lentil, and/or soybean seed:

(a) When seed is distributed in bulk the required label information must be on the invoice or other document accompanying the distribution of the seed;

(b) The seed labeling registrant may provide the required label information as a guaranteed analysis at the time of distribution if the label, invoice, or other document accompanying the seed states "guaranteed analysis," and the results of a purity and germination test of a representative sample are made available to the purchaser no later than thirty days following the initial distribution of the lot;

(c) Seed held in storage for bulk distribution or invoice labeling, shall be plainly identified on the storage unit(s) with the required label information;

(d) Small grain, field pea, lentil, and/or soybean seed is deemed mislabeled if the seed contains restricted noxious weed singly or collectively in excess of 100 per pound.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-020, filed 12/4/00, effective 1/4/01.]

WAC 16-301-025 Special requirements for labeling of vegetable and flower seed as prepared for use in the home. In addition to the information required on the label in WAC 16-301-015, the following requirements also apply to vegetable and flower seed as prepared for use in home:

(1) **Vegetable seeds in packets or preplanted devices** - labeling for vegetable seeds in packets as prepared for use in home gardens or household plantings or vegetable seeds in preplanted containers, mats, tapes, or other planting devices must include the following information:

(a) The year in which the seed was packed for sale as "packed for planting in..." or the percentage germination and the calendar month and the year the test was completed to determine that percentage;

(b) Label for seeds which germinate less than the standard established in WAC 16-301-090 must include the following:

(i) Percentage of germination, exclusive of hard seed;

(ii) Percentage of hard seed, if present;

(iii) The words "below standard" in not less than eight-point type;

(c) For seeds placed in a germination medium, mat, tape, or other device in such a way as to make it difficult to deter-

mine the quality of seed without removing the seed from the medium, mat, tape or device, a statement to indicate the minimum number of seeds in the container.

(2) **Vegetable seeds in containers** - the labeling requirements for vegetable seeds in containers, other than packets prepared for use in home gardens or household plantings and other than preplanted containers, mats, tapes, or other planting devices, is considered met if the seed is weighed from a properly labeled container of more than one pound in the presence of the purchaser.

(3) **Flower seeds in packets or preplanted devices** - labeling for flower seeds in packets prepared for use in home gardens or household plantings or flower seeds in preplanted containers, mats, tapes, or other planting devices must include the following information:

(a) For all kinds of flower seeds:

(i) The name of the kind and variety or a statement of the kind and performance characteristics as prescribed in chapter 15.49 RCW and rules adopted thereunder;

(ii) The calendar month and year the seed was tested or the year for which the seed was packaged;

(b) Labels for seeds of those kinds for which standard testing procedures are prescribed and which germinate less than the germination standard established under the provisions of chapter 15.49 RCW must include the following:

(i) The percentage of germination exclusive of hard seeds;

(ii) The words "below standard" in not less than eight-point type.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-301-025, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-025, filed 12/4/00, effective 1/4/01.]

WAC 16-301-030 Exemptions for small grain, field pea, lentil and/or soybean seed. (1) Small grain, field pea, lentil, and/or soybean seed distributed in packaged form to a wholesaler or a commercial grower for the grower's own use and accompanied by an invoice or other document containing the labeling information required in this chapter may attach labels containing information required in treated seed label requirements listed in WAC 16-301-060 through 16-301-085; and the net weight of the seed if the purchaser has knowledge of, and consents to, the invoice labeling. Small grain seed labels must also contain information in WAC 16-301-020 (1)(a).

(2) When small grain, field pea, lentil, and/or soybean seed is needed for immediate planting, a purchaser may waive the seed analysis information requirement for the purchase by completion of the following waiver:

CUSTOMER WAIVER AFFIDAVIT

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-030, filed 12/4/00, effective 1/4/01.]

WAC 16-301-035 Labeling requirements for agricultural and vegetable hybrid seed that contains less than ninety-five percent hybrid seed. The labeling for agricultural and vegetable hybrid seed that contains less than ninety-five percent hybrid seed must include the following:

- (1) The lot number or other lot identification.
- (2) The origin state or foreign country, if known. If the origin is not known, that fact must be stated.
- (3) The kind or variety labeled as "hybrid" except that varieties in which pure seed contain less than seventy-five percent hybrid seed may not be labeled as hybrids.
- (4) The percent which is hybrid labeled parenthetically in direct association following named variety; i.e., Comet (eighty-five percent hybrid).
- (5) The calendar month and year of a germination test of pure live seed or the year in which the seed was packaged.
- (6) The percentage by weight of inert matter.
- (7) The percentage, by weight, of all weed seeds present. The maximum weed seed content may not exceed two percent by weight.
- (8) The name and address of the person who labels seed, or sells, offers, or exposes the seed for sale within this state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-035, filed 12/4/00, effective 1/4/01.]

WAC 16-301-040 Labeling—Requirements for seed mixtures for lawn and/or turf purposes. The labeling of seed mixtures for lawn or turf purposes must include the following:

- (1) The lot number or other lot identification.
- (2) The origin state or foreign country, if known. If the origin is not known, that fact shall be stated on the label.
- (3) The word "mixed" or "mixture" stated with the name of the mixture.
- (4) The heading "pure seed" and "germination" or "germ" used in the proper places.
- (5) The commonly accepted name of kind or kind and variety of each agricultural seed component in excess of five percent of the whole, and the percentage by weight, in columnar form, of pure seed in order of its predominance.
- (6) The percentage by weight of agricultural seed other than those required to be named on the label which shall be designated as "crop seed." If the mixture contains no crop seed, the statement, "contains no other crop seed," may be used and may be flagged.
- (7) The percentage by weight of inert matter.

[Title 16 WAC—p. 348]

(8) The percentage, by weight, of all weed seeds present. The maximum weed seed content may not exceed two percent by weight.

(9) For each agricultural seed named under subsection (3) of this section:

(a) The percentage of germination, exclusive of hard seed.

(b) The percentage of hard seed, if present.

(c) The calendar month and year of the most recent test completed to determine such percentages.

(10) The name and address of the person who labels, or sells, offers, or exposes the seed for sale within this state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-040, filed 12/4/00, effective 1/4/01.]

WAC 16-301-045 Prohibited noxious weed seeds.

Prohibited noxious weed seeds are the seeds of weeds which when established are highly destructive, competitive and/or difficult to control by cultural or chemical practices. Seed is deemed mislabeled if the seed consists of or contains any of the prohibited noxious weed seeds listed below. For the purpose of seed certification, see WAC 16-302-100 for the list of prohibited noxious weeds.

ENGLISH OR COMMON NAME	BOTANICAL OR SCIENTIFIC NAME
Austrian fieldcress	<i>Rorippa austriaca</i> (Crantz) Bess.
Field bindweed	<i>Convolvulus arvensis</i> L.
Hedge bindweed	<i>Convolvulus sepium</i> L.
Bladder campion (only in timothy- <i>Phleum pratense</i>)	<i>Silene cucubalus</i>
Camelthorn	<i>Alhagi camelorum</i> Fisch.
Canada thistle	<i>Cirsium arvense</i> (L.) Scop.
Hairy whitetop	<i>Cardaria pubescens</i> (C.A. Mey.)
Hoary cress	<i>Cardaria draba</i> (L.) Desv.
Jointed goatgrass (only in small grain)	<i>Aegilops cylindrica</i>
Knapweed complex (including bighead, Vochin, black, brown, diffuse, meadow, Russian, spotted knapweeds Purple starthistle)	<i>Centaurea macrocephala</i> , <i>Centaurea nigrescens</i> , <i>Centaurea nigra</i> , <i>Centaurea jacea</i> , <i>Centaurea diffusa</i> , <i>Centaurea jacea x nigra</i> , <i>Centaurea repens</i> , <i>Centaurea maculosa</i> , <i>Centaurea calcitrapa</i>
Leafy spurge	<i>Euphorbia esula</i> L.
Lepyrödiclis	<i>Lepyrödiclis holosteoides</i>
Perennial pepperweed	<i>Lepidium latifolium</i> L.
Perennial sowthistle	<i>Sonchus arvensis</i> L.
Quackgrass	<i>Elytrigia repens</i>
Serrated tussock	<i>Nassella trichotoma</i>
Silverleaf nightshade	<i>Solanum elaeagnifolium</i>
Sorghum perennial such as, but not limited to, johnsongrass, sorghum alnum, and	<i>Sorghum spp.</i>

(2007 Ed.)

White cockle (only in timothy- <i>Phleum pratense</i>)	<i>Silene latifolia</i>
Yellow-flowering skeleton weed	<i>Chondrilla juncea L.</i>
Yellow starthistle	<i>Centaurea solstitialis L.</i>

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-301-045, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-045, filed 12/4/00, effective 1/4/01.]

WAC 16-301-050 Restricted noxious weed seeds.

Restricted (secondary) noxious weed seeds are the seeds of weeds which are objectionable in fields, lawns, and gardens of this state, but which can be controlled by cultural or chemical practices. Seed is deemed mislabeled if it consists of or contains any of the restricted noxious weed seeds listed below in excess of the number declared on the label. For the purpose of seed certification, see WAC 16-302-105 for the list of objectionable weeds.

ENGLISH OR COMMON NAME	BOTANICAL OR SCIENTIFIC NAME
Blackgrass	<i>Alopecurus myosuroides</i>
Black mustard	<i>Brassica nigra</i>
Blue lettuce	<i>Lactuca tatarica subsp. pulchella</i>
Docks and Sorrel	<i>Rumex spp.</i>
Dodder	<i>Cuscuta spp.</i>
Dyers woad	<i>Isatis tinctoria</i>
Field pennycress (fanweed)	<i>Thlaspi arvense</i>
Field sandbur	<i>Cenchrus incertus</i>
Gromwell (only in small grain)	<i>Buglossoides arvensis</i>
Halogeton	<i>Halogeton glomeratus C.A. Mey.</i>
Medusahead	<i>Taeniatherum caput-medusae</i>
Plantains	<i>Plantago spp.</i>
Poverty weed	<i>Iva axillaris Pursh.</i>
Puncturevine	<i>Tribulus terrestris L.</i>
St. Johnswort	<i>Hypericum perforatum L.</i>
Dalmation toadflax	<i>Linaria dalmatica (L.) Mill.</i>
Yellow toadflax	<i>Linaria vulgaris Hill.</i>
Western ragweed	<i>Ambrosia psilostachya DC.</i>
Wild mustard	<i>Sinapis arvensis subsp. arvensis</i>
Wild oat	<i>Avena fatua L.</i>
Wild radish	<i>Raphanus raphanistrum</i>

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-050, filed 12/21/05, effective 1/21/06. Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-301-050, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-050, filed 12/4/00, effective 1/4/01.]

(2007 Ed.)

WAC 16-301-055 Tolerances for seed law enforcement. Tolerances for seed law enforcement shall be in accord with the code of federal regulations, C.F.R. Title 7, Section 201 as revised January 1, 1998 and/or those adopted by the Association of Official Seed Analysts, as amended on October 1, 2003, except for the tolerances for prohibited noxious and restricted noxious weed seed which shall be as the Washington state seed law specifies for labeling.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-301-055, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-055, filed 12/4/00, effective 1/4/01.]

Treated Seed Labeling Requirements

WAC 16-301-060 Treated seed labeling requirements. For all seed that meets the definition of treated seed contained in RCW 15.49.011, the Washington State Seed Act, there shall be conspicuously shown on the analysis tag or label, or on a separate tag or label, attached to each container, or printed in a conspicuous manner on the side or top of each container the following:

- (1) A word or statement indicating that the seed has been treated.
- (2) The commonly accepted coined, chemical, or abbreviated chemical (generic) name of the applied substance or description of the process used.
- (3) The information required in WAC 16-301-065 through 16-301-085.

For bulk seed shipment, the information shall appear on the invoice or other document accompanying and pertaining to each shipment.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-060, filed 12/4/00, effective 1/4/01.]

WAC 16-301-065 Labeling requirements for seed treated with mercurials and similarly toxic pesticides. Seeds treated with a mercurial or similarly toxic pesticide, if any amount remains on or in the seed, shall be labeled with the skull and crossbones and a statement such as: "This seed has been treated with POISON," "treated with POISON," "POISON treated," or "POISON" with the word "POISON" in red on a contrasting background. The word "POISON" shall appear in not less than 8 point type, and the skull and crossbones shall not be less than twice the size of the type used for information required to be on the label. In making this determination, the department shall be guided by the labeling registered by the Environmental Protection Agency and/or Washington state department of agriculture on the pesticide being used and by the requirements of the Federal Seed Act, as revised January 1, 1998.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-065, filed 12/4/00, effective 1/4/01.]

WAC 16-301-070 Labeling requirements for seed treated with other pesticides. Seed treated with pesticides, other than those referred to in WAC 16-301-065, shall be labeled with an appropriate caution statement in not less than eight point type, such as: "Treated seed - do not use for food, feed, or oil purposes" and shall contain other appropriate cau-

tion statements as required on the Environmental Protection Agency and/or Washington state department of agriculture registered pesticide label of the seed treatment being used.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-070, filed 12/4/00, effective 1/4/01.]

WAC 16-301-075 Treated seed color requirement.

Seeds of small grains and other products such as peas and beans normally used for feed or for human consumption must, when treated with a pesticide, be colored so as to be readily discernible as having been so treated.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-075, filed 12/4/00, effective 1/4/01.]

WAC 16-301-080 Labeling requirements for seed treated with inoculates. If seed is treated with an inoculant, the date beyond which the inoculant is not to be considered effective (date of expiration) shall be shown on the label.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-080, filed 12/4/00, effective 1/4/01.]

WAC 16-301-085 Examples of minimum label formats for treated seed. Examples of minimum label formats for treated seed are as follows:

(1) Mercurial or similarly toxic pesticides:

Treated with
Endrin
POISON (in red) (illus.)

(2) Other pesticides:

Treated with
Captan
Caution: Treated seed - do not use for food,
feed, or oil.

(3) Additional information may be shown, such as rate of application, antidote, specific purpose of treatment, etc., provided such information is not false or misleading.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-085, filed 12/4/00, effective 1/4/01.]

Germination Standards

WAC 16-301-090 Germination standards for vegetable seeds. The germination standards for vegetable seeds are as follows:

Percent*		Percent*	
Artichoke	60	Leek	60
Asparagus	70	Lettuce	80
Beans (except Lima)	75	Muskmelon	75
Beans (Lima)	70	Mustard	75
Beets	65	Okra	50
Broccoli	75	Onion	70
Brussels Sprouts	70	Parsley	60
Cabbage	75	Parsnip	60

Percent*		Percent*	
Carrot	55	Pea	80
Cauliflower	75	Pepper	55
Celery and Celeraic	55	Pumpkin	75
Chicory	65	Radish	75
Citron	65	Rhubarb	60
Collards	80	Rutabaga	75
Corn	75	Salsify	75
Cornsalad	70	Sorrel	60
Cress, garden	40	Spinach	(except New Zealand)
Cress, water	25	Spinach (New Zealand)	40
Cucumber	80	Squash	75
Dandelion	45	Swiss Chard	65
Eggplant	60	Tomato	75
Endive	70	Tomato, husk	50
Kale	75	Turnip	80
Kohlrabi	75	Watermelon	70

*Including hard seeds when present.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-090, filed 12/4/00, effective 1/4/01.]

WAC 16-301-095 Sampling—Administration of the Washington State Seed Act. (1) The official sampling procedure for sampling all seed is as follows:

(a) In order to secure a representative sample, equal portions must be taken from evenly distributed parts of the quantity of seed to be sampled. Access must be allowed to all parts of that quantity.

(b) For free-flowing seed in bags or bulk, a probe or trier is used. For small free-flowing seed in bags, a probe or trier long enough to sample all portions of the bag or container must be used.

(c) Nonfree-flowing seed, such as certain grass seed, uncleaned seed, or screenings, difficult to sample with a probe or trier, are sampled by thrusting the hand into the bulk and withdrawing representative portions.

(d) Composite samples must be obtained to determine the quality of a lot of seed, such as the percentages of pure seed, other crop seed, weed seed, inert matter, noxious weed seed, germination, varietal purity, freedom from disease, and effectiveness of seed treatment. Individual bag samples may be obtained to determine whether the seed is of uniform quality.

(2) Sampling equipment. The trier must be designed so that it will remove an equal volume of seed from each part of the bag through which the trier travels. Unless the trier has partitions in the seed chamber, it must be inserted into the bags horizontally.

(3) Obtaining representative samples.

(a) For lots of one to six bags, sample each bag and take a total of at least five cores or handfull.

(b) For lots of more than six bags, sample five bags plus at least ten percent of the number of bags in the lot. (Round numbers with decimals to the nearest whole number.)

Regardless of the lot size, it is not necessary to sample more than thirty bags.

	Examples:							
No. bags in lots	7	10	23	50	100	200	300	400
No. bags to sample	6	6	7	10	15	25	30	30

(c) For sampling bulk seed to obtain a composite sample, take at least as many cores or handfuls as if the same quantity of seed were in bags of an ordinary size. Take the cores or handfuls from well-distributed points throughout the bulk.

(d) Seed in small containers must be sampled by taking entire unopened container in sufficient numbers to supply a minimum size sample as required in subsection (4) of this section. The contents of a single container or the combined contents of multiple containers of the same lot must be considered representative of the entire lot of seed sampled.

(4) Minimum weights of seed samples are defined in chapter 16-303 WAC, Schedule of testing, certification and other fees.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-095, filed 12/4/00, effective 1/4/01.]

PART 2 - SEED ARBITRATION

WAC 16-301-100 Matters subject to mandatory arbitration. A civil dispute is subject to arbitration under these rules if it involves a claim of damage caused by the failure of any seed covered by the provisions of chapter 15.49 RCW, seeds, to perform as represented on the required label, by warranty, or as a result of negligence. This arbitration is a prerequisite to maintaining a legal action against the dealer of the seed. All the following conditions must be met:

(1) The parties have not agreed to submit the dispute to arbitration and to be bound by the arbitration award.

(2) The claim or counterclaim where relief is sought is, or includes, a monetary amount in excess of two thousand dollars.

(3) Any statutory period of limitations with respect to such claim had not expired.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-100, filed 12/4/00, effective 1/4/01.]

WAC 16-301-105 Filing of a complaint for arbitration. To submit a demand for mandatory arbitration, a buyer shall make and file with the director of the department a sworn complaint against the seed dealer.

(1) Such complaint shall contain:

(a) A statement setting forth the nature of the claim and damages.

(b) The dollar amount involved in the claim.

(c) The remedy sought.

(2) The complaint must be accompanied by a filing fee of one hundred dollars to cover the costs of processing the complaint.

(3) The buyer shall send the dealer that is the subject of the complaint a copy of the complaint by registered mail.

(2007 Ed.)

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-105, filed 12/4/00, effective 1/4/01.]

WAC 16-301-110 Requirement to respond to complaint. Within twenty days within receipt of the sworn complaint, the seed dealer shall file an answer to the complaint with the director by United States registered mail.

(1) If no answer is filed within the stated time:

(a) It will be deemed that the claim is denied.

(b) The failure to file a timely response will be recorded and made a part of the official record.

(2) Failure to file a timely response shall not operate to delay the arbitration process.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-110, filed 12/4/00, effective 1/4/01.]

WAC 16-301-115 Acceptance of filing by telefax. Complaints, responses to complaints, counterclaims and other communications from parties to the dispute to the committee may be transmitted electronically by telefax except where this chapter specifically requires transmission by registered mail. Such transmissions shall be regarded with the same validity as if sent by United States mail.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-115, filed 12/4/00, effective 1/4/01.]

WAC 16-301-120 Arbitration committee. The director shall create a seed arbitration committee composed of five members, including the director, or a department of agriculture employee as his or her designee, and four members. Four alternates shall also be appointed by the director according to the requirements of RCW 15.49.111.

(1) Each alternate member shall serve only in the absence of the member for whom the person is an alternate.

(2) The arbitration committee shall elect a chairperson and a secretary from among its members.

(a) The chairperson shall conduct meetings and deliberations of the committee and direct its other activities.

(b) The secretary shall keep accurate records of all meetings and deliberations and perform other duties as assigned by the chairperson.

(3) The committee shall be called into session at the direction of the director or the chairperson.

(4) The members of the committee shall receive no compensation for their duties but shall be reimbursed for travel expenses according to established state travel and per diem rates. Expense reimbursement shall be borne equally by the parties to the arbitration.

(5) A committee member, delegated with investigative responsibilities outside of the hearing under WAC 16-318-395, may not participate in making the final decision and award.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-120, filed 12/4/00, effective 1/4/01.]

WAC 16-301-125 Referral to arbitration committee. Within fifteen days of the receipt of the answer or forty-five days of the receipt of a complaint, the director shall refer the

claim to the seed arbitration committee established by RCW 15.49.101 for investigation, finding and recommendation. The buyer and seller shall be notified by certified mail:

(1) That the claim has been submitted to the arbitration committee.

(2) The names of the members of the arbitration committee and the alternates. Within ten days after receipt of notification from the director, either buyer or seller may petition the director that a member of the arbitration committee be disqualified for cause and replaced by an available alternate member: Provided, That either buyer or seller may petition the director at any time during the process upon discovering facts that establish grounds for disqualification. Such decision shall be solely at the discretion of the director.

(3) No person may serve on the committee in any arbitration where he or she has a financial or personal interest in the result of the arbitration unless the parties, in writing, waive such disqualification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-125, filed 12/4/00, effective 1/4/01.]

WAC 16-301-130 Scheduling of hearing. The chairperson of the arbitration committee shall fix the time and place for each hearing and shall notify each party in writing of the scheduled hearing at least seven days in advance of the hearing date.

(1) Such notice shall include:

(a) The names and addresses of the parties to whom notice has been given.

(b) The address and telephone number of the chairperson of the arbitration committee.

(c) The names and addresses of the members of the arbitration committee.

(d) The date, time, place, and subject of the hearing.

(e) A statement of the legal authority under which the hearing is being held including the sections of statute and rules involved.

(2) To the extent possible, the chairperson of the arbitration committee shall attempt to schedule the hearing at a time and place mutually agreeable to the parties: Provided, That if a mutually agreeable time and place cannot be found, the chairperson may set the time and place.

(3) The chairperson of the committee may allow all or a part of the hearing to be conducted by telephone, or other electronic means when the rights of the parties will not be prejudiced thereby and each party has an opportunity to participate.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-130, filed 12/4/00, effective 1/4/01.]

WAC 16-301-135 Representation by counsel. Any party in the arbitration may be represented by counsel. A party intending to be so represented shall notify the other party and the committee chairperson of the name and address of the counsel at least three days in advance of the hearing at which the counsel is first scheduled to appear. When arbitration is initiated on behalf of a buyer by counsel or when a dealer replies through a counsel, such notice shall be deemed to have been given. The director shall make provision for

legal support through the office of the attorney general, as requested by the arbitration committee.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-135, filed 12/4/00, effective 1/4/01.]

WAC 16-301-140 Waiver of oral hearing. The parties may provide, by written agreement submitted to the chairperson, that the hearing shall be conducted on the pleadings submitted without oral argument or testimony.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-140, filed 12/4/00, effective 1/4/01.]

WAC 16-301-145 Record of the hearing. The secretary of the arbitration committee shall maintain summary minutes of the hearing and shall provide for a recording of all oral proceedings. Any party may request copies of all recordings or transcription of testimony. The costs of duplication, transcription and mailing shall be entirely borne by the requesting party.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-145, filed 12/4/00, effective 1/4/01.]

WAC 16-301-150 Attendance at hearings. The hearing shall be open to the parties to the dispute and other persons having a financial interest. The committee chairperson shall have the authority to require that any witness or witnesses retire from the hearing during the testimony of other witnesses. The admission of other persons to the arbitration hearing shall be at the discretion of the chairperson of the arbitration committee.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-150, filed 12/4/00, effective 1/4/01.]

WAC 16-301-155 Committee investigation. Upon referral of a complaint for investigation to the committee, the arbitration committee shall make a prompt and full investigation by the proceedings specified in this chapter of the matters in the complaint, and report its award to the director within sixty days of such referral, unless the parties in the dispute agree in writing to the chairperson to a later date: Provided, That if the committee decides to grow a representative sample of the seed that sixty-day period shall be extended an additional thirty days.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-155, filed 12/4/00, effective 1/4/01.]

WAC 16-301-160 Evidence. The parties may produce such evidence as they desire and such additional evidence as the arbitration committee may deem necessary to understand the dispute and determine an award. The committee shall be the judge of the admissibility and relevance of all evidence offered. Conformity to strict legal rules of evidence shall not be required. All evidence shall be taken in the presence of the parties concerned, except where a party has waived that right or is absent after receiving proper notice.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-160, filed 12/4/00, effective 1/4/01.]

WAC 16-301-165 Evidence by affidavit. Evidence may be submitted for consideration of the arbitration committee in the form of witness by affidavit. The committee shall consider such evidence and give to it only such weight as the committee deems appropriate after consideration of any objections made to its admission. All parties shall be entitled to examine such documents and shall be entitled to a copy upon request and payment of duplication and mailing costs.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-165, filed 12/4/00, effective 1/4/01.]

WAC 16-301-170 Discovery. Use of discovery is limited in mandatory arbitration cases.

(1) The following types of discovery may be requested of the arbitration committee:

- (a) Deposition.
- (b) Written interrogatories.
- (c) Request for production of documents.

(2) The arbitration committee may allow and condition use of discovery on a showing of necessity and an unavailability by other means.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-170, filed 12/4/00, effective 1/4/01.]

WAC 16-301-175 Arbitration in the absence of a party. The arbitration may proceed in the absence of any party who, after due notice, fails to be present or fails to request an adjournment or postponement. An award may not be made solely on the failure to appear. The arbitration committee, in these cases, shall require the party who is present to present such evidence or information as the committee deems necessary to determine an award.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-175, filed 12/4/00, effective 1/4/01.]

WAC 16-301-180 Order of proceedings. When an oral hearing is held, the order of procedure for conducting arbitration hearings shall be as follows:

(1) The chairperson shall open the hearing on behalf of the committee stating the place, time and date of the hearing; the members of the arbitration committee and the parties to the arbitration and their counsel, if any; and recital of the buyer's claim, any counterclaim, and the dealer's response, if any.

(2) The parties shall have the opportunity to present an opening statement.

(3) The complaining party shall have the opportunity to present the claim for damages, the proof and witnesses and shall submit to questions and other examination by the arbitration committee.

(4) The defending party shall present the defense and his or her proof including witnesses and shall submit to questions or other examination by the arbitration committee.

(5) Each party shall have the right of cross-examination.

(2007 Ed.)

(6) The arbitration committee may vary this procedure: Provided, That both parties are provided a full and equal opportunity to present their evidence and proofs.

(7) The names and addresses of all witnesses shall be recorded and made a part of the record.

(8) Both parties shall have an opportunity to present a summary statement.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-180, filed 12/4/00, effective 1/4/01.]

WAC 16-301-185 Expert evidence and performance tests. The committee may delegate one of its members to seek advice from experts in the seed industry and/or the seed inspection service of the department of agriculture or the Washington State Crop Improvement Association; may cause to be obtained and grow out a representative sample of the seed; may delegate a portion of the investigation to one of its members who reports back to the committee as a whole at the hearing; or may cause to be performed such other tests of seed quality as may be deemed necessary to render a decision. The results of any such investigation or tests shall be entered into the record at the arbitration hearing. The costs of any such tests necessary to determine an award shall be considered in the award.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-185, filed 12/4/00, effective 1/4/01.]

WAC 16-301-190 Conservation of property. The chairperson, on behalf of the arbitration committee, may issue such orders as may be deemed necessary to safeguard the seed and/or the crop in the field that is the subject of the dispute without prejudice to the rights of the parties or to the final determination of the dispute.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-190, filed 12/4/00, effective 1/4/01.]

WAC 16-301-195 Reopening of a hearing. An arbitration hearing may be reopened by the following:

(1) The chairperson of the arbitration committee with the assent of a majority of the committee members may reopen a hearing.

(2) A hearing may be reopened by the chairperson with assent of a majority of the committee upon petition of either party prior to the final committee report.

(3) A hearing may not be reopened if such action would cause the sixty-day time limit as defined in WAC 16-301-155 (ninety days with a grow out test) to be exceeded without the written consent of both parties.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-195, filed 12/4/00, effective 1/4/01.]

WAC 16-301-200 Expenses. The expenses for witnesses for either side shall be borne entirely by the party producing such witnesses. The expenses of expert witnesses deemed necessary by the committee shall be borne by the department according to established state travel and per diem rates. The costs of grow out tests or other tests that may be

required that exceed the amount of the filing fee may be allocated by the committee in making the award.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-200, filed 12/4/00, effective 1/4/01.]

WAC 16-301-205 Arbitration committee report. The arbitration committee shall prepare a written report of its findings within the established time frames. The report shall include findings of fact and conclusions, the award and allocations as to costs, if any.

(1) If a quorum is present, a simple majority of the arbitration committee shall be sufficient to make a decision.

(2) Any member disagreeing with an award may prepare a dissenting opinion and that opinion shall be included in the committee report.

(3) The report shall be sent to the director.

The director shall promptly send copies of the report to the parties by registered mail.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-205, filed 12/4/00, effective 1/4/01.]

WAC 16-301-210 Award upon settlement. If the parties to a dispute settle that dispute during the course of an arbitration, the committee, at the request of the parties, may set forth the terms of the agreed settlement in the award.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-210, filed 12/4/00, effective 1/4/01.]

PART 3 - PHYTO-SANITARY FIELD INSPECTIONS

WAC 16-301-215 Definition of a phyto-sanitary certificate. A phyto-sanitary certificate is a certificate stating that a specific crop was inspected a predetermined number of times and a specified disease was not found; or a certificate is based on area surveillance stating that a specific disease, as far as known, does not occur in the area of production.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-215, filed 12/4/00, effective 1/4/01.]

WAC 16-301-220 Apply for a phyto-sanitary field inspection. (1) On an application provided by the department seed program, a person requesting a phyto-sanitary field inspection must provide a list of the disease or diseases for which inspection is requested. Only one kind of crop is permitted on each application. Applications must be submitted to the department seed program before the due date along with the required fees. Refer to chapter 16-303 WAC for the appropriate fees.

(2) Due dates for phyto-sanitary applications for field inspections are as follows:

(a) Western Washington		
(i)	Fall plantings	April 15
(ii)	Spring plantings	June 1
(b) Eastern Washington		
	Fall plantings	April 15
(i)	Peas in Columbia Basin	May 15
(ii)	Peas East Highway 395 (Palouse)	June 15

(iii)	Beans	July 1
(iv)	All other crops	June 1

(3) Phyto sanitary applications for crops requiring a fall inspection are due 30 days prior to inspection time and not later than September 15.

(4) To be eligible for *Pseudomonas pisi*, phyto-sanitary field inspection for peas or other diseases based on area surveillance, the applicant must file a report with the department seed program listing acreage and general location (such as block and unit if possible) prior to May 1.

(5) Applications received after the due date are assessed a late fee. Acceptance of a late application is at the discretion of the certifying agency.

(6) Each applicant must submit applications and/or required reports stating diseases for which inspection is to be made and the number of inspections required and/or requested.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-220, filed 12/4/00, effective 1/4/01.]

WAC 16-301-225 Land and production requirements for a seed phyto-sanitary field inspection. (1) For a seed field to be eligible for a phyto-sanitary field inspection, the field must:

(a) Prior to planting a bean field the seed used must be in compliance with the quarantine requirements found in chapter 16-301 WAC in order to be accepted for phytosanitary certification. Any phytosanitary field application submitted without proof of quarantine compliance will not be accepted into the program. Any field planted in violation of chapter 16-301 WAC will be subject to the procedures in WAC 16-301-435, 16-301-440, and 16-301-485.

(b) Not be planted to the same crop within the past three years if that crop was known to be contaminated with the specific disease or diseases listed in the application for phyto-sanitary field inspection;

(c) Have clean, cultivated boundaries.

(2) Excessive weeds, poor stands, lack of vigor, or any other condition which is likely to make inspection inaccurate may be cause for rejection.

(3) Additional land and/or production requirements for a phyto-sanitary field inspection may be adopted after consultation with industry representative and area specialist for the specific disease and/or crops listed in the phyto-sanitary field inspection application.

(4) The department may require a laboratory (serology) test and/or a greenhouse test or other testing methods.

(5) The combined results of a field inspection and laboratory (serology), greenhouse tests and/or other testing methods, when required or available, may be used to determine final eligibility for a phyto-sanitary certificate.

(6) An official five pound sample is required from each ten thousand pounds of seed or portion thereof for serology testing.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-225, filed 12/4/00, effective 1/4/01.]

WAC 16-301-230 Phyto-sanitary field inspection requirements for peas. (1) Specific diseases of peas for which a phyto-sanitary certificate will be issued are:

- (a) *Pseudomonas pisi* (Sackett);
- (b) Pea seed-borne mosaic virus - based on two field inspections.

(2) For pea seed to be eligible for a phyto-sanitary certificate stating freedom from *Pseudomonas pisi* (Sackett) the following applies:

(a) The seed field must be free of the disease as determined by the department with an area inspection of at least ten percent of the acreage. The department shall conduct a survey of county extension agents, extension pathologists, and plant pathologists at experiment stations and Washington State University.

(b) The applicant of a phyto-sanitary field inspection desiring production eligible seed must make inspections of the fields throughout the growing season. If symptoms of the disease are found, the finding must be immediately reported to the department seed program.

(c) At the end of the growing season, but not later than September 1, each applicant must file a report with the department seed program. The report must contain information on the field inspections made by the applicant during the growing season and whether the disease was observed.

(d) The field must be free of the disease as determined by the department with one field inspection made during the growing stage most optimum for detecting of the disease.

(3) For pea seed to be eligible for a phyto-sanitary certificate stating freedom from pea seed-borne mosaic virus, the field must be free of the disease as determined by the department with one inspection at two to four weeks after seedling emergence, and a second inspection one to two weeks before dry pod stage.

(4) The department recommends that breeding nurseries, isolation nurseries, and/or small seed-increase plots be entered for inspection for freedom from *Pseudomonas pisi* (Sackett).

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-230, filed 12/4/00, effective 1/4/01.]

WAC 16-301-235 Phyto-sanitary field inspection requirements for beans. (1) Specific bacterial diseases of beans for which phyto-sanitary certificates may be issued are:

- (a) Halo blight - *Pseudomonas phaseolicola* (Burk.) Dows.
- (b) Common bean blight - *Xanthomonas phaseoli* (E.F. Sm.) Dows.
- (c) Fuscous blight - *Xanthomonas phaseoli* var. *fuscans* (Burk.)
- (d) Bean bacterial wilt - *Corynebacterium flaccumfaciens* (Hedges) Dows.
- (e) Or any varieties or new strains of these diseases.
- (f) Brown spot disease - *Pseudomonas syringae*.
- (g) Bean anthracnose - *Colletotrichum lindemuthianum*.
- (h) Seed-borne viral diseases.

(2) For beans to be eligible for a phyto-sanitary certificate covering the bacterial diseases listed in subsection (1) of this section the following provisions apply:

(2007 Ed.)

(a) Common bean must be free of the diseases as determined by the department with a field inspection during the growing season and by a windrow inspection. A serology test and greenhouse test may be accepted in lieu of a windrow inspection at the discretion of the department.

(b) Pintos, red mexicans, pinks, great northerns, small whites, navy beans, and black turtle beans may be grown for an unlimited number of generations under rill or sprinkler irrigation.

(c) Kidney beans, cranberry types, Taylor horticultural, and Borlotto types may be grown for an unlimited number of generations under rill irrigation or for one generation under rill irrigation and, subsequently, for two generations under sprinkler irrigation. The fourth and unlimited subsequent generations may be grown and inspected with the same alternation of irrigation types.

(d) A field planted must be free of halo blight the previous two years of planting.

(e) Seed fields must be 1,320 feet from an incident of disease. The department recommends that equipment be disinfected between fields.

(3) At least two field inspections of beans are required for bacterial diseases listed in subsection (1) of this section:

(a) The first inspection is conducted by the department when factors effecting diseases are most evident.

(b) The second inspection is conducted by the department when the plants are in the windrow.

(4) All bean seed entered into the phyto-sanitary inspection program must comply with the bean seed quarantine rules. See chapter 16-301 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-235, filed 12/4/00, effective 1/4/01.]

WAC 16-301-240 Phyto-sanitary field inspection requirements for other seed crops and diseases. (1) Phyto-sanitary certificates may be issued covering other seed crops and other diseases not listed in sections WAC 16-301-215 through 16-301-235 depending upon occurrence, symptoms, and hosts. Inspection procedures and requirements for issuing phyto-sanitary certificates are determined after consultation with area specialists.

(a) To be eligible for phyto-sanitary field inspection, a person must submit an application to allow adequate time to develop procedures and requirements.

(b) Only one field inspection will be provided unless it is determined that it is necessary to make inspections at different times during the growing season to detect symptoms of the disease in question.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-240, filed 12/4/00, effective 1/4/01.]

PART 4 - QUARANTINES

Annual Bluegrass Quarantine

WAC 16-301-245 Annual bluegrass quarantine—Establishing quarantine. The seeds of the weed known as annual bluegrass, *Poa annua* and its known strains, hereinafter referred to as annual bluegrass, are objectionable in grass

[Title 16 WAC—p. 355]

seed; therefore, an annual bluegrass quarantine is established to prevent the introduction of annual bluegrass into grass seed production areas, to control seed stocks to be planted for further seed increase, and to assure grass seed growers of a source of seed stock for planting purposes which is tested for presence of annual bluegrass.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-245, filed 12/4/00, effective 1/4/01.]

WAC 16-301-250 Annual bluegrass quarantine—Definitions. Definitions for terms in this chapter may be found in chapter 15.49 RCW and WAC 16-301-005, except for the purposes of WAC 16-301-255 through 16-301-295, the following definitions shall apply:

(1) "Annual bluegrass" means *Poa annua* and all related subspecies and hybrids.

(2) "Seed stock" means those seeds of turf type grasses which are to be planted for seed increase or with intent of seed increase.

(3) "Annual bluegrass analysis certificate" means a test report from an official seed laboratory showing freedom from annual bluegrass based on a ten gram sample for bentgrass or redtop; and a twenty-five gram sample for other turf type grasses.

(4) "Quarantine tag" means a tag issued by Washington state department of agriculture to be sealed to each bag showing said seed has met quarantine requirements.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-250, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-250, filed 12/4/00, effective 1/4/01.]

WAC 16-301-255 Annual bluegrass quarantine—Regulated area. Areas regulated under the annual bluegrass quarantine include all areas of the state of Washington lying east of the Cascade Crest.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-255, filed 12/4/00, effective 1/4/01.]

WAC 16-301-260 Annual bluegrass quarantine—Quarantine area. Areas quarantined under the annual bluegrass quarantine include all areas of the state of Washington lying west of the Cascade Crest and all areas outside of the state of Washington.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-260, filed 12/4/00, effective 1/4/01.]

WAC 16-301-265 Annual bluegrass quarantine—Regulated articles. Articles regulated under the requirements of the annual bluegrass quarantine include seed stocks of all turf type grass species, such as, but not limited to, Kentucky bluegrass, ryegrass and red and chewings fescue.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-265, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-265, filed 12/4/00, effective 1/4/01.]

WAC 16-301-270 Annual bluegrass quarantine—Conditions governing movement of regulated articles. (1)

[Title 16 WAC—p. 356]

No seed stock may be shipped, transported, moved within, or into the annual bluegrass quarantine regulated area unless such seed stock is accompanied by a test report from an official laboratory showing said seed stock is free of annual bluegrass on the basis of a minimum ten gram analysis for bentgrass and a minimum of twenty-five gram analysis for other grasses except that seed stock found to contain annual bluegrass may be planted in the regulated area if planted in a nursery under an inspection program as established by the state department of agriculture.

(2) This quarantine shall not apply to seed sown for forage or turf. This quarantine shall not apply to range, reclamation, or forage type seed production fields.

(3) This quarantine shall not apply to:

(a) Experiments or trial grounds of the United States Department of Agriculture;

(b) Experiments or trial grounds of Washington State University experiment station; or

(c) Trial grounds of any person, firm, or corporation; provided said trial ground plantings are approved by the director and under supervision of technically trained personnel familiar with annual bluegrass control.

(4) Any person shipping, moving or transporting any seed stock for planting purposes in or into the regulated area that is not tagged with official "annual bluegrass quarantine" tags or a test report showing freedom of annual bluegrass as allowed in subsection (1) of this section must:

(a) State where and when seed stock can be sampled for the required annual bluegrass test; or

(b) Attach a copy of the official laboratory analysis showing freedom from annual bluegrass; or

(c) Submit a representative sample for testing.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-270, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-270, filed 12/4/00, effective 1/4/01.]

WAC 16-301-275 Violations and penalty. Any person who violates the terms of the annual bluegrass quarantine rules may be subject to the criminal and/or civil penalties provided in chapters 15.49 and/or 17.24 RCW.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-275, filed 12/4/00, effective 1/4/01.]

WAC 16-301-280 Annual bluegrass quarantine—Procedure for clearing. (1) Each person moving, shipping or transporting seed stock within or into the annual bluegrass quarantine regulated area must:

(a) Submit an official laboratory analysis of a representative sample showing freedom from annual bluegrass; or

(b) Submit a representative sample for testing.

(2) Upon receipt of an official laboratory analysis showing freedom from annual bluegrass, the department of agriculture shall tag each bag of those lots found free of annual bluegrass by the required test with "annual bluegrass quarantine" tag, stating said seed is eligible for planting in Eastern Washington.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-280, filed 12/4/00, effective 1/4/01.]

WAC 16-301-285 Annual bluegrass quarantine—

Seed stock containing annual bluegrass. Each lot of seed stock found to contain annual bluegrass must be placed under "stop sale" to be released only for shipment out of the quarantine area or for planting in nurseries of two acres or less under the supervision of, and approved by, an agent of the department of agriculture. The nursery must be seeded in rows. It is the duty of the person receiving seed stock containing annual bluegrass to rogue this increase area or chemically treat to eradicate the annual bluegrass thus assuring production of seed that is free of annual bluegrass. Seed increase areas are inspected by the department at least three times during the seedling year. Any areas not passing inspection must not be harvested, but instead destroyed by the person who planted the increase area upon order of the director of the Washington state department of agriculture or his agent. If not destroyed as directed, the department of agriculture may have the plot destroyed and the grower is liable for all expenses.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-285, filed 12/4/00, effective 1/4/01.]

WAC 16-301-290 Annual bluegrass quarantine—

Application for nursery inspection—Sampling and analysis. (1) A person must make application for nursery inspection for annual bluegrass to the department of agriculture not later than fourteen days prior to planting.

(2) Fees for sampling, analysis and nursery inspection for the presence of annual bluegrass is that fee established by the department. Refer to chapter 16-303 WAC for fees.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-290, filed 12/4/00, effective 1/4/01.]

WAC 16-301-295 Annual bluegrass quarantine—

Violation procedures. (1) A person who is alleged to have violated the annual bluegrass quarantine must meet with a representative of the department to determine:

- (a) If a violation actually occurred;
 - (b) How it did occur, and what corrective measures can be taken to avoid reoccurrence;
 - (c) How much acreage is involved and location of all plantings.
- (2) Corrective procedures may be agreed upon, such as roguing, chemical treatment, etc., and the time frame for such work, or agreement for voluntary destruction of all acreage involved.

(3) Treated and rogued acreage is inspected by department of agriculture three times during the seedling stages to assure freedom from annual bluegrass. The violator is assessed an hourly inspection fee and a mileage fee where additional mileage is involved.

(4) Failure to mutually agree, or failure to comply with these procedures, or if it is determined the violation was willful, may be subject to the criminal and/or civil penalties provided in chapters 15.49 and/or 17.24 RCW.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-295, filed 12/4/00, effective 1/4/01.]

(2007 Ed.)

Rough Bluegrass Quarantine**WAC 16-301-305 Rough bluegrass quarantine—**

Establishing quarantine. The seeds of the crop known as rough bluegrass, *Poa trivialis* and its known strains, hereinafter referred to as rough bluegrass, is a threat to grass seed production; therefore, a rough bluegrass quarantine is established to prevent the introduction of rough bluegrass into major grass seed production areas, to control seed stocks to be planted for further seed increase, and to assure grass seed growers of a source of seed stock for planting purposes which is tested for presence of rough bluegrass. If grass seed becomes contaminated with rough bluegrass grass seed, there would be a significant economic loss to grass growers in the state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-305, filed 12/4/00, effective 1/4/01.]

WAC 16-301-310 Rough bluegrass quarantine—

Definitions. Definitions for terms in this chapter may be found in chapter 15.49 RCW and WAC 16-301-005, except for the purposes of WAC 16-301-305 through 16-301-355, the following definitions shall apply:

(1) "Rough bluegrass" means *Poa trivialis* and all related subspecies.

(2) "Seed stock" means those seeds of turf type grasses which are to be planted for seed increase or with intent of seed increase.

(3) "Rough bluegrass analysis certificate" means a test report from an official seed laboratory showing freedom from rough bluegrass based on a twenty-five gram sample.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-310, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-310, filed 12/4/00, effective 1/4/01.]

WAC 16-301-315 Rough bluegrass quarantine—

Regulated area. Areas regulated under the rough bluegrass quarantine include all counties in the state of Washington lying east of the Cascade Crest.

(1) This quarantine shall not apply to:

- (a) Experiments or trial grounds of the United States Department of Agriculture;
- (b) Experiments or trial grounds of Washington State University experiment station; or
- (c) Trial grounds of any person, firm, or corporation except that the trial ground plantings are approved by the director and under supervision of trained personnel familiar with rough bluegrass control.

(2) This quarantine shall not apply to seed production fields of rough bluegrass grown in Yakima County and that part of Benton County that lies within the Yakima River drainage.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-315, filed 12/4/00, effective 1/4/01.]

WAC 16-301-320 Rough bluegrass quarantine—

Quarantine area. Areas quarantined under the rough bluegrass quarantine include all counties in the state of Washing-

[Title 16 WAC—p. 357]

ton lying west of the Cascade Crest and all areas outside of the state of Washington.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-320, filed 12/4/00, effective 1/4/01.]

WAC 16-301-325 Rough bluegrass quarantine—Regulated articles. Articles regulated under the requirements of the rough bluegrass quarantine include:

- (1) Seed stocks of all varieties of all turf type grasses.
- (2) Seed production fields of rough bluegrass.
- (3) Rough bluegrass sown for forage or turf.
- (4) Regulated articles are not to include seed stock of species that are commonly used for range, reclamation or forage purposes.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-325, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-325, filed 12/4/00, effective 1/4/01.]

WAC 16-301-330 Rough bluegrass quarantine—Conditions governing movement of regulated articles. No seed stock of turf type grasses may be shipped, transported, moved within, or into the rough bluegrass quarantine regulated area unless such seed stock is accompanied by a test report from an official laboratory showing said seed stock is free of rough bluegrass on the basis of a minimum twenty-five gram analysis, except that seed stock found to contain rough bluegrass may be planted in the regulated area if planted in a nursery under an inspection program as established by the Washington state department of agriculture.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-330, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-330, filed 12/4/00, effective 1/4/01.]

WAC 16-301-335 Rough bluegrass quarantine—Procedure for clearing seed stocks. Each person moving, shipping or transporting seed stock of turf type grasses in or into the rough bluegrass quarantine regulated area must:

- (1) Submit an official laboratory analysis of a representative sample showing freedom from rough bluegrass; or
- (2) Submit a representative sample for testing.

[Statutory Authority: RCW 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-06-019, § 16-301-335, filed 2/23/04, effective 3/26/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-335, filed 12/4/00, effective 1/4/01.]

WAC 16-301-340 Rough bluegrass quarantine—Seed stock containing rough bluegrass. Each lot of seed stock found to contain rough bluegrass must be placed under "stop sale" to be released only for shipment out of the quarantine area or for planting in nurseries of two acres or less under supervision of, and approved by, an agent of the department of agriculture. The nursery must be seeded in rows. It is the duty of the person receiving such seed to rogue this increase area or chemically treat to eradicate the rough bluegrass thus assuring production of seed that is free of rough bluegrass. Seed increase areas are inspected by the department at least three times during the seedling year. Any areas not passing inspection must not be harvested, but instead must be destroyed by the person who planted the increase area upon

[Title 16 WAC—p. 358]

order of the director of the Washington state department of agriculture or his/her agent. If not destroyed as directed, the department of agriculture may have the plot destroyed and the grower shall be liable for all expenses.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-340, filed 12/4/00, effective 1/4/01.]

WAC 16-301-345 Rough bluegrass quarantine—Application for nursery inspection. A person must make application for nursery inspection for rough bluegrass to the department of agriculture not later than fourteen days prior to planting.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-345, filed 12/4/00, effective 1/4/01.]

WAC 16-301-350 Rough bluegrass quarantine—Fees. Fees for sampling, analysis and nursery inspection for the presence of rough bluegrass is that fee established by the director in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-350, filed 12/4/00, effective 1/4/01.]

WAC 16-301-355 Rough bluegrass quarantine—Violation and procedures. (1) A person who is alleged to have violated the rough bluegrass quarantine must meet with a representative of the department to discuss the allegation and determine:

- (a) How it occurred;
 - (b) How much acreage is involved and location of all plantings;
 - (c) Corrective procedures, such as roguing, chemical treatment, etc., and the time frame for such work, or agreement for voluntary destruction of all acreage involved to avoid recurrence and minimize economic loss.
- (2) Treated and rogued acreage is inspected by the department of agriculture three times during the seedling stages to assure freedom from rough bluegrass. The violator is assessed an hourly inspection fee and a mileage fee where additional mileage is involved.

(3) Any person who violates the terms of this quarantine may be subject to the criminal and civil penalties provided in chapters 15.49 and/or 17.24 RCW.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-355, filed 12/4/00, effective 1/4/01.]

Bean Seed Quarantine

WAC 16-301-365 Bean seed quarantine—Establishing quarantine. The production of edible beans and bean seed is an important industry in the state of Washington. The economic well-being of that industry is threatened by the introduction of bean seed contaminated with bean, bacterial, fungal and seed-borne viral pathogens. The director has determined that a quarantine is needed to protect the Washington dry bean industry and to provide the bean growers of this state a source of bean seed for planting purposes that is tested for the presence of these diseases.

(2007 Ed.)

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-365, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-365, filed 12/4/00, effective 1/4/01.]

WAC 16-301-370 Definitions. Definitions for terms in this chapter may be found in chapter 15.49 RCW and chapter 16-301 WAC, the general seed certification rules except for the purposes of WAC 16-301-365 through 16-301-440, the following definitions shall apply:

(1) "Approved trial grounds" means a specific parcel of land approved by the director for experimental or limited production or increase of bean seed.

(2) "Dominant I-gene cultivar" means a cultivar which has resistance to all known strains of bean common mosaic virus (B.C.M.V.) due to the presence of the dominant I-gene. Dominant I-gene cultivars will not show mosaic mottle symptoms or transmit the virus through seed when inoculated with any strain of B.C.M.V.

(3) "Recessive I-gene cultivar" means a cultivar which may be susceptible to some strains of bean common mosaic virus and may show mosaic mottle symptoms.

(4) "Diseases" means those viral, fungal and bacterial diseases of beans enumerated in WAC 16-301-380 and any new variations or strains of these identified in the future.

(5) "Quarantine Area I" means all areas west of the Continental Divide except those counties within the state of Washington subject to internal quarantine and the states of Alaska and Hawaii.

(6) "Quarantine Area II" means areas east of the Continental Divide, the counties in the state of Washington subject to internal quarantine, the states of Alaska and Hawaii and foreign countries.

(7) "Seed-borne viral diseases" includes bean common mosaic virus, adzuki mosaic virus, and other similar viral diseases causing mosaic mottle and other symptoms similar to those of bean common mosaic virus.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-370, filed 12/4/00, effective 1/4/01.]

WAC 16-301-375 Regulated articles. Seeds of common beans, *Phaseolus* sp., intended for planting purposes, bean plants and parts of plants, and crop residue from the harvest of infected beans are regulated under the provisions of this chapter.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-375, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-375, filed 12/4/00, effective 1/4/01.]

WAC 16-301-380 Regulated diseases. The following viral, bacterial and fungal diseases of beans, and any new strains or variations of these identified in the future, of beans are regulated under the provisions of this chapter:

Halo blight (*Pseudomonas syringae* pv. *phaseolicola* (Young et. al.))

Common bean blight (*Xanthomonas campestris* pv. *phaseoli* (Smith) Dye)

(2007 Ed.)

Fuscos blight (*Xanthomonas phaseoli* var. *fuscans* (Burk.))

Bean anthracnose disease (*Colletotrichum lindemuthianum* (Sacc. & Magn.) Scrib.)

Brown spot disease (*Pseudomonas syringae* pv. *syringae* (Van Hall)) strains virulently pathogenic to *Phaseolus*

Bean bacterial wilt (*Corynebacterium flaccumfaciens* ssp. *flaccumfaciens* (Hedges) Dows.)

Seed-borne viral diseases of beans, such as, but not limited to, bean common mosaic virus and its strains are regulated under the terms of this quarantine.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-380, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-380, filed 12/4/00, effective 1/4/01.]

WAC 16-301-385 Bean seed—Quarantined area. The entire counties of Clallam, Clark, Cowlitz, Grays Harbor, Island, Jefferson, King, Kitsap, Lewis, Mason, Pacific, Pierce, San Juan, Skagit, Skamania, Snohomish, Thurston, Wahkiakum, and Whatcom in the state of Washington, and all areas outside the state of Washington are established as a quarantine area. The quarantine area is further divided into two portions defined in WAC 16-301-370 (5) and (6) for the purposes of regulation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-385, filed 12/4/00, effective 1/4/01.]

WAC 16-301-390 Bean seed—Regulated area. The entire counties of Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman, and Yakima in the state of Washington are established as a protected area within the state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-390, filed 12/4/00, effective 1/4/01.]

WAC 16-301-395 General requirements for planting bean seed in the regulated area. (1) No beans may be planted, sold, shipped, transported for seed purposes, or knowingly received in the regulated area which are found to be or are known to be contaminated with any disease listed in WAC 16-301-380 and must also comply with the requirements as listed in WAC 16-301-396.

(2) The department shall be notified in writing, prior to shipping, of any person's intent to ship, move, or transport any bean seed into the regulated area. All bean seed to be planted in the regulated area must have a Notice of Intent/Quarantine Compliance form filed with the WSDA seed program. A copy of the field inspection report or other proof of freedom from specified diseases based on one field inspection and one windrow inspection or negative results from an approved laboratory test must accompany this form. In addition, a copy of the laboratory analysis (ELISA) showing freedom from regulated viral diseases issued for that bean seed must accompany this Notice of Intent/Quarantine Compliance form. Proof of I-gene resistance may be provided in lieu of laboratory analysis (ELISA).

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-395, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-395, filed 12/4/00, effective 1/4/01.]

WAC 16-301-396 Additional requirements for planting bean seed in the regulated area relating to seed-borne viral diseases. Bean seed may be received for planting purposes, planted, sold, shipped, or transported if that seed meets one of the following criteria:

(1) The bean variety (cultivar) is known to be uniform for the dominant I-gene. Documentation of evidence of uniformity must accompany the seed shipment. Undocumented cultivars are subject to serology and/or grow out testing to determine freedom from bean seed-borne viral diseases.

(2) The bean seed has been tested by the serology method (ELISA) and is found to be free from bean seed-borne viral diseases.

(3) The bean seed is tested by the serology method and is found to be positive for seed-borne viral diseases and on a subsequent grow out test, the sample is found free from bean seed-borne viral diseases.

(4) All serology tests are based on an official five-pound sample of untreated bean seed for each fifty thousand pounds of bean seed or fraction thereof.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-396, filed 3/31/04, effective 5/1/04.]

WAC 16-301-400 Additional requirements for planting bean seed grown in the regulated area. (1) Bean seed must be entered into the Washington state bean phyto-sanitary certificate inspection program or the Washington state seed certification inspection program as provided in WAC 16-302-045 and 16-301-235.

(2) When the director determines that an emergency condition exists because of a shortage of seed for planting purposes, beans grown for processing as edible beans may be accepted for planting purposes if the lot has been tested by means recommended by the university and approved by the director and found to be apparently free of regulated diseases.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-400, filed 12/4/00, effective 1/4/01.]

WAC 16-301-410 Additional requirements for planting bean seed originating in quarantine Area I; areas west of the continental divide. (1) Bean seed from quarantine Area I must not be shipped, transported, or moved into the regulated area for planting unless the beans are accompanied by an official certificate showing that the beans are apparently free from the regulated diseases. Such certification shall be on the basis of at least one growing season field inspection and one windrow inspection and an approved laboratory/greenhouse test, which may include ELISA or other diagnostic screening for bacterial or fungal diseases.

(2) Bean seed planted for seed increase or with intention of seed increase must be planted in fields entered into either the Washington state bean seed phyto-sanitary certificate inspection program or the Washington state seed certification inspection program as provided in WAC 16-302-045 and 16-301-235.

[Title 16 WAC—p. 360]

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-410, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-410, filed 12/4/00, effective 1/4/01.]

WAC 16-301-415 Additional requirements for planting bean seed originating in quarantine Area II; areas east of the continental divide and foreign countries. (1) Bean seed must first be planted into an approved trial ground that meets the requirements of the department.

(2) Bean seed, up to a maximum of one pound per variety, may be planted in an approved trial ground intended for research purposes, with notification to the department, seed program, of intent to plant and adherence to the inspection procedures in WAC 16-301-425 and such isolation and other requirements as the director may prescribe.

(3) Bean seed over one pound, intended for introduction or seed increase, must first be planted in an approved trial ground not to exceed fifteen acres for each variety. The trial ground must be isolated from other beans by 1/4 mile. In addition, prior to planting, this bean seed must pass a laboratory/greenhouse test as recommended by the university; notification must be given to the department, seed program, of intent to plant; and inspection procedures in WAC 16-301-425 must be complied with for trial grounds.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-415, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-415, filed 12/4/00, effective 1/4/01.]

WAC 16-301-420 Quarantine—Exceptions and exemptions. (1) Bean seed planted for harvest as green beans for cannery or freezing, otherwise in compliance with this quarantine, is not required to be entered into an inspection program except that the department reserves the right to request complete listing and location of all the plantings and other information the department may deem necessary. Further, if at any time prior to harvest, the grower decides that the plantings are not to be harvested as green beans, the department must be notified and the plantings placed under an inspection program. In order for the plantings to be accepted into the inspection program, the plantings must be at a state of maturity that allows for the proper identification of regulated diseases.

(2) This quarantine does not apply to the shipment, movement, or transportation of beans prepackaged in packages of eight ounces or less for home garden use in the regulated area if the beans are free of diseases.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-420, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-420, filed 12/4/00, effective 1/4/01.]

WAC 16-301-425 Inspection procedures for trial grounds. (1) Applications for planting in a trial ground must be submitted to the department prior to May 15 of the growing year, and must include a detailed varietal planting plan, a description of the exact location of the trial ground and the manner of isolation.

(2007 Ed.)

(2) A minimum of three field inspections is made during the growing season and one windrow inspection.

(3) A disinfectant must be applied to machinery used in the production of bean seed and to footwear of personnel performing inspections prior to movement to other bean fields.

(4) If any regulated diseases are detected by field inspections or subsequent laboratory/greenhouse tests, no seed may be released for general planting but must again be planted in an approved trial ground for one additional year and undergo inspection procedures by the department.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-425, filed 12/4/00, effective 1/4/01.]

WAC 16-301-430 Identification and disposition of diseased bean seed and infected bean fields. (1) Any bean field planted with seed in violation of the requirements of this quarantine is subject to destruction, in full or in part, or quarantined, as determined necessary by the director, to prevent the spread of regulated diseases. Any expenses of such actions will be solely that of the grower or their responsible agents.

(a) Fields that are placed under a quarantine order must be entered into the Washington state bean seed phyto-sanitary inspection program as provided in WAC 16-301-235 with all costs of inspection to be borne by the grower or the grower's agent.

(b) Fields that are placed under a quarantine order may be subject to additional requirements for inspection, control or isolation, as deemed necessary by the director, to prevent the spread of regulated diseases.

(2) Any bean field determined to be infected with a regulated disease must be reported within seventy-two hours after discovery to the department, seed program.

(3) The department encourages the aid of all interested parties, including growers and seed company representatives, in the prompt reporting of suspected infected bean fields in order that timely investigation may be made.

(4) Any bean fields within the boundaries of the regulated area which show contamination by a regulated disease, as provided in subsection (5) of this section, must be destroyed in part or in total as may be required to eliminate the disease, by or at the expense of the grower or their responsible agents. The director may authorize any other method of control at the director's discretion. The director must notify the grower, seed company representatives and/or the grower's landlord of the method and extent of the destruction and safeguards against disease spread in order for the parties to comply.

(5) The identity of a regulated disease on growing plants or plants in windrow is based on the observance of the visual symptoms of the disease. If the department deems it necessary to establish true identity or pathogenically, a laboratory and/or greenhouse test may be conducted by the department in cooperation with the university. Testing is subject to provisions provided in WAC 16-301-396 (3) and (4), the results of which will be used to determine final disposition.

(a) In cases of disagreement concerning the presence of a regulated disease between the department plant pathologist and a qualified plant pathologist representing the commercial company or grower, the definitive verification of identity or

pathogenically must be determined by isolation of the suspected pathogen and inoculation of seedlings of a known susceptible host using accepted scientific and professional techniques.

(b) Until verification of the suspected pathogen as specified in this section is completed, the involved planting must be placed under quarantine for a period of thirty days subject to conditions and review or extension as determined by the director. Entry into the quarantined area is to be restricted to the grower or grower's agents, department employees, and/or persons authorized in writing by the director. Persons granted entry into the quarantined area will be required to take all necessary sanitary precautions as prescribed by the director to safeguard against the possible spread of the suspected regulated disease.

(6) The true identity of the regulated disease when found in or on seed is based on testing methods recommended by the university results of which, when positive, is evidence to identify the disease as being subject to the department's requirements. The owner of the seed, at owner's expense, may request verification of pathogenicity. Such verification must be made using accepted scientific and professional techniques.

(7) When the director determines that it is probable, based on visual symptoms and serological analysis, that a seed field may be infected with bean seed-borne viral diseases and determines that a threat of infection of other fields exists, the director may prescribe aphid control or other requirements, through a notice of destruction as provided in WAC 16-301-435, deemed necessary to prevent infection of adjacent properties.

(8) All bean seed that is determined to be contaminated by bean seed-borne viral diseases and which does not meet the requirements of WAC 16-301-395(2) must be destroyed or diverted to dry edible or other nonseed purposes. For seed that is diverted to dry edible or other nonseed purposes, documentation of disposition of the seed must be provided to the department of agriculture upon request.

(9) Exemptions and special situations:

(a) Any field of beans first found infected during windrow inspection, is exempt from total destruction if the diseased portion and an area (not less than a fifty-foot radius) surrounding the infected site is promptly destroyed or harvested with the beans from the infected area directed, under department supervision, to processing. Seed from the remainder of the field must be tested by a serology test. Only seed apparently free from regulated diseases may be used for seed purposes in the regulated area.

(b) Any field of beans to be used only for dry edible purposes is exempt from destruction if the diseased portion of the field is destroyed and the entire crop residue is promptly and completely destroyed after harvest.

(c) Beans for processing or fresh consumption are exempt from destruction if the diseased portion of the field is destroyed or harvested within ten days after first detection and/or verification as provided in subsection (4) of this section and the crop residue is promptly and completely destroyed after harvest.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-430, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and

chapter 17.24 RCW. 00-24-077, § 16-301-430, filed 12/4/00, effective 1/4/01.]

WAC 16-301-435 Notice of destruction. When the director finds personal property planted in violation of the terms of this quarantine or infected as described in WAC 16-301-430, the director may issue a written notice of quarantine or destruction to the owners and occupants thereof. The notice must identify the property under quarantine, order the destruction of infested plants or prescribe the terms of entry, inspection, partial destruction and/or treatment of regulated articles. Any expenses of such actions will be solely that of the grower or their responsible agents.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-435, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-435, filed 12/4/00, effective 1/4/01.]

WAC 16-301-440 Penalties. (1) Any bean field planted with seed in violation of the requirements of this quarantine is subject to destruction, in full or in part, or quarantined, as determined necessary by the director, to prevent the spread or establishment of bean diseases.

(2) In addition to actions specified in WAC 16-301-430, any grower violating the terms of this quarantine, is subject to civil and/or criminal penalties provided in chapters 15.49 and/or 17.24 RCW.

[Statutory Authority: RCW 15.49.310, 17.24.011, 17.24.041 and chapter 34.05 RCW. 04-08-043, § 16-301-440, filed 3/31/04, effective 5/1/04. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-301-440, filed 12/4/00, effective 1/4/01.]

Crucifer Seed Quarantine

WAC 16-301-490 Why is the department establishing a crucifer seed quarantine? The production of crucifer vegetable seed is an important industry in Washington state. The economic well-being of that industry is threatened by the introduction of crucifer seed infected with certain bacterial and fungal pathogens. In addition, certain crucifer species produce dormant seed that, if present in a seed lot will persist into subsequent cropping years. The resulting "volunteer" plants have the potential to become established as weeds in Washington state.

The director has determined that a quarantine is needed to protect the Washington crucifer vegetable seed industry from the introduction of seed infected with certain pathogens and from the introduction of crucifer seed containing dormant seed. The quarantine will provide the seed growers in this state with sources of crucifer seed that have been tested and proven to be free from harmful pathogens and, when appropriate, dormant seed.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-490, filed 12/21/05, effective 1/21/06.]

WAC 16-301-495 What definitions are important to understanding this chapter? Definitions for some terms in this chapter can be found in chapter 15.49 RCW and chapter 16-301 WAC. In addition, the following definitions apply to this chapter:

[Title 16 WAC—p. 362]

"Approved treatment methods" include hot water, hot chlorine or any other methods that can eliminate the presence of regulated pathogens.

"Crucifer" means all plants in the family Brassicaceae (also known as Cruciferae) and specifically includes all *Brassica* species, *Raphanus sativus* - Radish, *Sinapis alba* and other mustards.

"Crucifer production" means any planting of crucifer seed or seedlings for the purpose of producing seed, oil, commercial vegetables or cover crops.

"Crucifer seed" includes any part of a plant capable of propagation including, but not necessarily limited to, seeds, roots, and transplants.

"Department" means the Washington state department of agriculture (WSDA).

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Dormant seed" means viable true seed that displays a delay in or lack of germination when provided favorable germination conditions for the type of seed in question.

"Owner" means the person having legal ownership, possession or control over a regulated article covered by this chapter including, but not limited to, the owner, shipper, consignee, grower, seed dealer, landowner or their agent.

"Person" means any individual, partnership, association, corporation, or organized group of persons whether or not incorporated.

"Regulated area" means those geographic areas that are protected from the introduction of specified plant pests by the provisions of this quarantine.

"Seed lot" means a designated quantity of seed that is uniquely identified by a lot number.

"Seed program" means the Washington state department of agriculture seed program.

"Trial ground" means a specific parcel of land approved by the director for experimental or limited production or increase of crucifer seed and for planting seed lots whose quantity of seed is insufficient to allow for pathological testing.

"True seed" means a mature fertilized ovule consisting of an embryo, with or without an external food reserve enclosed by a seed coat.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-495, filed 12/21/05, effective 1/21/06.]

WAC 16-301-500 What crucifer articles are regulated by this chapter? (1) With the exception of the exemptions listed in WAC 16-301-525(4), all crucifer seed, seedlings, roots, or transplants intended for seed production, oil production, commercial vegetable production or cover crop use are regulated under the provisions of this chapter.

(2) This chapter also regulates crop residue remaining from the harvest of infected crucifer plants.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-500, filed 12/21/05, effective 1/21/06.]

WAC 16-301-505 What diseases are regulated by this chapter? (1) **"Regulated diseases"** means those bacterial and fungal diseases of crucifers listed in this section and any new variations or strains of these diseases.

(2) **"Regulated pathogens"** means those bacterial and fungal organisms identified as the casual agents for the diseases listed in this section.

(3) The following bacterial and fungal diseases of crucifers, and any new strains or variations of these diseases are regulated by this chapter:

Common Name	Scientific Name
Black leg of Crucifers	<i>Phoma lingam</i>
Black rot	<i>Xanthomonas campestris</i> <i>pv. campestris</i>

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-505, filed 12/21/05, effective 1/21/06.]

WAC 16-301-510 What seed must undergo dormancy testing? Any seed of a *Brassica* or *Sinapis* species whose primary uses for any nonvegetable use must be tested for the presence of dormant seed.

This testing must be done by either a single or paired germination test that demonstrates freedom of dormant seed.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-510, filed 12/21/05, effective 1/21/06.]

WAC 16-301-515 What is the quarantined area for this crucifer seed quarantine? (1) The quarantine area for the crucifer seed quarantine includes all Washington state counties except Clallam, Island, Lewis, Skagit, Snohomish, and Whatcom counties.

(2) Regulated articles imported into Washington state must comply with the regulations of this chapter before transport into the regulated area. No additional requirements apply within the quarantine area but all regulated articles transported into the regulated area must comply with the regulations of this chapter.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-515, filed 12/21/05, effective 1/21/06.]

WAC 16-301-520 What is the regulated area for this crucifer seed quarantine? The regulated area for this crucifer seed quarantine includes Clallam, Island, Lewis, Skagit, Snohomish, and Whatcom counties.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-520, filed 12/21/05, effective 1/21/06.]

WAC 16-301-525 What are the exemptions to the crucifer seed quarantine that apply within the regulated area? This crucifer quarantine does not apply to:

(1) Experiments or trial grounds of the United States Department of Agriculture;

(2) Experiments or trial grounds of a university such as but not limited to the University of Idaho or Washington State University research stations; or

(3) Trial grounds of any person, firm or corporation that are approved by the director and established in accordance with WAC 16-301-550.

(4) Shipments, movements, or transportation of:

(a) Prepackaged crucifer seed in packages of 1/2 ounce or less if the seeds are free of diseases; or

(b) Vegetable seedlings offered for sale for home garden use in the regulated area if the seedlings are free of diseases.

(2007 Ed.)

(5) Research, variety development, variety maintenance or other crucifer production where the entire crop cycle is confined within a building or greenhouse.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-525, filed 12/21/05, effective 1/21/06.]

WAC 16-301-530 What requirements apply to planting crucifer seed in the regulated area? (1)(a) It is a violation of this chapter to plant or establish crucifer seed that is infected with any regulated disease in the regulated area.

(b) Any seed of a *Brassica* or *Sinapis* species planted or established in the regulated area whose primary use is for any nonvegetable use must be tested for the presence of dormant seed as required by WAC 16-301-510.

(2) Any person who plans to ship, move, or transport any crucifer seed intended for planting purposes into or within the regulated area must file a Notice of Intent/Quarantine Compliance form with the seed program before planting or offering the seed for sale.

(3) The Notice of Intent/Quarantine Compliance form filed with the seed program must be accompanied by a copy of the:

(a) Laboratory analysis or some other proof (such as a phytosanitary certificate based upon laboratory testing issued from the state or country of production) demonstrating that the lot is free of regulated diseases; and

(b) Seed analysis certificate(s) showing that the lot is free from dormant seed, if required under WAC 16-301-510.

(4) It is a violation of this chapter for any crucifer seed intended for seed production, oil production, commercial vegetable production or cover crop use to be offered for sale within or into the regulated area unless each seed container bears a label issued by the seed program indicating that the seed is in compliance with the requirements of this chapter.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-530, filed 12/21/05, effective 1/21/06.]

WAC 16-301-535 What requirements apply to boxes and racks used to ship crucifer seedlings? (1) Only boxes that have not previously contained crucifer seedlings may be used for shipping transplants into or within a regulated area.

(2) Racks used to ship transplanted crucifer seedlings must be thoroughly disinfected with an appropriate sanitizer before the seedlings are shipped.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-535, filed 12/21/05, effective 1/21/06.]

WAC 16-301-540 What requirements apply to crucifer transplants grown in greenhouses in the regulated area? (1) All crucifer transplants produced in greenhouses in the regulated area must be subjected to pest control procedures that reduce the presence of diseases or insects that may inhibit identifying regulated diseases.

(2) The interiors of greenhouses in the regulated area used to produce crucifer transplants must be free of crucifer weeds.

(3) One hundred meter buffers, free of crucifer weeds, must surround all greenhouses in the regulated area used to produce crucifer transplants.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-540, filed 12/21/05, effective 1/21/06.]

WAC 16-301-545 What requirements apply to crucifer seed lots that test positive for any regulated disease?

(1) If a crucifer seed lot tests positive for any regulated disease, the infected seed lot may be treated with an approved seed treatment.

(2) After treatment, the seed lot must be tested for the presence of regulated diseases using appropriate pathological testing methods.

(3) If the pathological testing yields negative test results, the seed lot will be considered in compliance with this chapter.

(4) It is a violation of this chapter to plant seed in the regulated area that tests positive for any regulated disease subsequent to any approved treatment method.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-545, filed 12/21/05, effective 1/21/06.]

WAC 16-301-550 If documentation verifying that crucifer seed is free from regulated diseases is not available, what protocols must be followed before the seed is planted in a regulated area? When no documentation exists verifying that a crucifer seed lot is free from regulated diseases, the following protocols must be followed before the seed is planted in the regulated area:

(1) A crucifer seed lot will be classified as a suspect seed lot if the seed lot lacks the documentation verifying that the lot complies with the crucifer seed quarantine requirements of this chapter.

(2) Suspect seed lots must:

(a) Not be offered for sale in the regulated area.

(b) Be treated by an approved treatment method.

(c) Be sown in a greenhouse and the seedlings must pass inspection by seed program inspectors before transplanting to the field.

(3) Any greenhouse operation used to grow crucifer seedlings for transplant must:

(a) Physically separate suspect seed lots from other crucifer production within that greenhouse.

(b) Monitor and document the location and identity of each suspect seed lot during production.

(4) It is a violation of this chapter for seedlings from a suspect seed lot to be topped, clipped, chopped or undergo any other treatment to toughen them or reduce their size.

(5) All seedlings from a suspect seed lot that exhibit symptoms of regulated diseases must be physically separated from asymptomatic transplants in that lot.

(6) Before shipping seedlings from a suspect seed lot, the seedlings must be inspected by seed program inspectors for the presence of regulated diseases.

(a) If no symptoms of regulated diseases are detected during this inspection, the suspect seed lot is considered in compliance with this chapter and may be sold and planted within the regulated area.

(b) If seedlings display symptoms of regulated diseases, laboratory testing for the diseases is mandatory.

(c) If seedlings from a suspect seed lot test negative for regulated pathogens after appropriate pathological testing, the suspect seed lot is considered in compliance with this chapter and may be sold and planted within the regulated area.

[Title 16 WAC—p. 364]

(d) If the presence of a regulated disease is confirmed by laboratory testing, all seedlings from a suspect seed lot may be subject to a quarantine order or destruction order under WAC 16-301-570.

(7) Any crucifer seed production fields, plant beds, or greenhouse production that will be planted with or receives production from suspect seed lots that are determined to be free from regulated diseases under subsection (6) of this section must be entered into the Washington state phytosanitary inspection program as required under WAC 16-301-235.

(8)(a) It is a violation of this chapter to plant seedlings from a suspect seed lot that tests positive for any regulated disease in the regulated area.

(b) Any suspect seed lot testing positive for any regulated disease may be subject to a quarantine order or a destruction order under WAC 16-301-570.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-550, filed 12/21/05, effective 1/21/06.]

WAC 16-301-555 How are approved trial grounds established and what rules apply to them?

(1) If a crucifer seed lot has not been tested to determine if it is disease free, and the quantity of seed in the lot is too small for testing to be practical, it must be planted in an approved trial ground that meets the requirements of the seed program.

(2) Trial grounds may be established for the purposes of, but not limited to, variety maintenance, variety development or other related research.

(3)(a) The seed program must approve a trial ground before it is established.

(b) Failure to obtain approval of a trial ground before it is established is a violation of this chapter and may subject the trial ground to a destruction order under WAC 16-301-570.

(4)(a) Trial grounds must be isolated from crucifer production crops according to the standards set in "*Seed Field Minimum Isolation Distances*" published by the Washington State University (WSU) cooperative extension.

(b) Copies of this publication can be obtained by contacting a WSU extension office.

(5) A person may plant crucifer seed in an approved trial ground after notifying the seed program, in writing, of their intent to plant for research purposes only. The notification will include an assurance that the person planting crucifer seed in an approved trial ground will comply with the inspection procedures in WAC 16-301-560, the isolation requirements prescribed by the WSU extension publication "*Seed Field Minimum Isolation Distances*," and any other requirements established by the director.

(6) The maximum planting in a trial ground is:

(a) One pound per variety for crucifer seed; and

(b) One-half acre for crucifer transplants.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-555, filed 12/21/05, effective 1/21/06.]

WAC 16-301-560 What are the inspection requirements for trial grounds?

(1) Applications for the phytosanitary field inspection of a trial ground must be submitted to the department before September 1 of the year the trial ground is established.

(2007 Ed.)

(2) A minimum of two phytosanitary field inspections of a trial ground must be conducted. These inspections must take place:

- (a) During the seedling stage; and
- (b) At the bloom stage.

(3) The phytosanitary field inspection application must include:

- (a) A detailed varietal planting plan;
- (b) A description of the exact location of the trial ground;
- (c) The manner in which the trial ground will be isolated from other known crucifer production; and
- (d) The distance by which the trial ground is isolated from other known crucifer production.

(4) If the field inspections detect any regulated pathogens, the trial ground is subject to destruction upon the order of the director.

(5) A disinfectant must be applied to the:

- (a) Machinery used in the production of the crucifer crop;
- (b) Footwear of all persons entering the trial grounds; and
- (c) Footwear of all persons before traveling from a trial ground to other crucifer fields.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-560, filed 12/21/05, effective 1/21/06.]

WAC 16-301-565 What are the testing requirements for seed harvested from an approved trial ground? (1) Seed harvested from an approved trial ground must be tested in an approved laboratory for the presence of regulated pathogens before it is planted in a regulated area.

(2) If the seed harvested from a trial ground tests positive for any regulated pathogens, it may not be released for general planting within a regulated area.

(3)(a) Seed harvested from a trial ground infected with a regulated pathogen must either be destroyed or shipped out of the regulated area.

(b) Written documentation of either the seed's destruction or shipment out of the regulated area must be submitted to the seed program within thirty days of the positive test for the regulated pathogen.

(c) Seed from a trial ground infected with a regulated pathogen that remains in a regulated area beyond thirty days may be subject to destruction upon the order of the director.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-565, filed 12/21/05, effective 1/21/06.]

WAC 16-301-570 What are the penalties for violating the crucifer seed quarantine? (1) When the director determines that crucifer seed or production is infected with a regulated disease, the director may issue a quarantine order or notice of destruction. A violation of this chapter may also result in either a quarantine order or notice of destruction as determined by the director and the rules regulating the crucifer quarantine. Any costs associated with complying with a notice of destruction or quarantine order is the sole responsibility of the owner and not the responsibility of the department.

(2) The director may issue a notice of destruction:

- (a) The notice of destruction will identify the property or seed lot affected.

(2007 Ed.)

(b) The notice of destruction will order the destruction of regulated articles or prescribe the terms of entry, inspection, partial destruction and/or treatment of regulated articles.

(c) The notice of destruction may prescribe control measures or other requirements needed to prevent the infection of adjacent properties with a regulated disease.

(d) To ensure that the affected parties comply with the measures required to eliminate a disease caused by regulated pathogens, the director will notify the owner and seed company representatives, if known, regarding the methods of destruction to be used, the extent of the destruction and the safeguards being implemented to prevent the spread of the disease.

(3) The director may order the quarantine of any regulated article or planting area. The director will:

- (a) Determine the quarantine conditions;
- (b) Determine if a quarantine extension is warranted; and
- (c) Prescribe sanitary precautions that will prevent the spread of the suspected regulated disease.

(4) To prevent the spread of the suspected regulated disease, persons entering the quarantined area must follow the sanitary precautions in WAC 16-301-560(5). Entry into the quarantined area is restricted to:

- (a) The owner;
- (b) Department employees;
- (c) University personnel or other plant pathology specialists; and/or
- (d) Persons authorized in writing by the director.

(5) Fields placed under a quarantine order:

(a) Must enter the Washington state phytosanitary inspection program as required under WAC 16-301-235 with all inspection costs borne by the owner.

(b) May be subject to additional inspection, control, isolation, or destruction requirements if the director determines they are needed to prevent the spread of regulated pathogens.

(6) Any owner violating the requirements of this crucifer quarantine is subject to the civil and/or criminal penalties as established in chapters 15.49 and/or 17.24 RCW.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-570, filed 12/21/05, effective 1/21/06.]

WAC 16-301-575 How are diseased crucifer seeds and infected fields identified? (1) So that timely investigations may be made, all interested parties, including owners, seed company representatives, and university extension personnel are encouraged to promptly report any suspected infected crucifer fields to the seed program.

(2) Any crucifer crop infected with a regulated pathogen must be reported to the seed program within seventy-two hours after the regulated pathogen is discovered.

(3)(a) The seed program may conduct inspections and tests to determine infection of any crucifer seed or production with a regulated disease.

(b) If a WSDA plant services program plant pathologist and a qualified plant pathologist representing a commercial company or owner disagree over the presence of a regulated disease, the company or owner may request a verification test for a regulated pathogen. A university plant pathologist may recommend the verification test. The verification test must use accepted scientific and professional techniques and will be at the owner's expense.

(c) The affected planting area will be placed under quarantine for at least thirty days or until verification testing is completed.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-575, filed 12/21/05, effective 1/21/06.]

WAC 16-301-580 What regulations apply to diseased crucifer seeds and infected fields? (1) When the director determines that a field is infected with a regulated pathogen and threatens to infect other fields, the director may issue a notice of destruction prescribing control measures or other requirements needed to prevent the infection of adjacent properties.

(2) Unless the crop is within two weeks of harvest, any crucifer crop within the regulated area that is infected with a regulated pathogen may be subject to immediate destruction, in part or in total. The owner is responsible for the expenses incurred to destroy a diseased crucifer crop.

(3) The following requirements apply to crops that are within two weeks of harvest:

(a) Residues must be destroyed or incorporated into the ground immediately after harvest;

(b) Harvested seed must be isolated from other seed lots until it is treated with hot water and/or chlorine seed treatments;

(c) Harvest equipment must be steam cleaned before entering any other fields; and

(d) WSDA personnel in consultation with WSU extension personnel must monitor these post-harvest activities.

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-301-580, filed 12/21/05, effective 1/21/06.]

Chapter 16-302 WAC

GENERAL RULES FOR SEED CERTIFICATION

(Formerly chapters 16-300, 16-304, 16-313, 16-316, 16-317, 16-318, 16-493, 16-494 and 16-495)

WAC

PART 1 - GENERAL SEED CERTIFICATION STANDARDS

16-302-005	Seed certification—Purpose.
16-302-010	Agencies that certify seed in Washington state.
16-302-015	Seed classes recognized for seed certification.
16-302-020	Seed standards for proprietary variety certification—Application for proprietary certification.
16-302-025	Seed standards for genetic purity certification.
16-302-030	Standards for production of foundation seed.
16-302-035	Limitation of generations for seed certification.
16-302-040	Varieties eligible for seed certification in Washington state.
16-302-045	How may a person apply for seed certification in Washington state?
16-302-050	When is an application for seed certification submitted?
16-302-055	What are the responsibilities of a grower when participating in the seed certification program?
16-302-060	What are the certification requirements for seed?
16-302-065	Land history—Seed certification.
16-302-070	When is a seed field inspected by the certifying agency?
16-302-075	Tolerances stated as "none found."
16-302-080	What will cause a seed field to be ineligible for seed certification?
16-302-085	When may an applicant withdraw a field from inspection for seed certification?
16-302-086	Agency power to reject certification.
16-302-090	Sampling—Methods used in the sampling, inspecting, testing, analyzing and examining seed for certification.
16-302-091	What is the program for early sampling of ryegrass?

16-302-095	Identification of seed containers with field or lot numbers.
16-302-100	Seed certification—Prohibited noxious weed seed.
16-302-105	Seed certification—Objectionable weeds.
16-302-110	Completion of seed certification—When may seed be labeled with a seed certification tag, label or seal?
16-302-115	Limitation of liability—Certification.
16-302-120	Labeling, advertising or other representation of seed—Prohibitions.
16-302-125	Who may condition seed in Washington state?
16-302-130	What are the responsibilities of a seed conditioner?

PART 2 - BLENDING OF CERTIFIED SEED

16-302-135	What considerations are there for blending seed?
16-302-140	When are seed blends eligible for tagging prior to analysis?
16-302-142	Standards for verification of turf seed ingredients.

PART 3 - INTERAGENCY SEED CERTIFICATION REQUIREMENTS

16-302-145	Interagency seed certification standards.
16-302-150	Eligibility for interagency certification.
16-302-155	Interagency seed certification procedure.
16-302-160	Interagency seed certification standards—Seed produced out-of-state.
16-302-165	Interagency certification requirements—Blends.
16-302-170	Other considerations in applying the standards for certification.

PART 4 - PROCEDURES FOR ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT SCHEME FOR VARIETY CERTIFICATION (OECD)

16-302-210	What is the organization for economic cooperation and development?
16-302-215	Crop standards for OECD variety certification.

PART 5 - SPECIFIC SEED CERTIFICATION STANDARDS

Alfalfa Seed Certification Standards	
16-302-220	What are the standards for alfalfa seed certification.
16-302-225	Land requirements for alfalfa seed certification.
16-302-230	Isolation requirements for alfalfa seed certification.
16-302-235	Field tolerances for alfalfa seed certification.
16-302-240	Seed standards for alfalfa seed certification.
Bean Seed Certification Standards	
16-302-245	What are the standards for bean seed certification.
16-302-250	Definitions.
16-302-255	Land requirements for bean seed certification.
16-302-260	Field tolerances and requirements for bean seed certification.
16-302-265	Seed field inspection requirements for bean seed certification.
16-302-270	Seed standards for bean seed certification.
Corn Seed Certification Standards	
16-302-275	What are the standards for corn seed certification?
16-302-280	Eligibility for corn seed certification.
16-302-285	Field inspection for corn seed certification.
16-302-290	Field standards for corn seed certification.
16-302-295	Field standards for hybrid corn seed certification.
16-302-300	Seed inspection for foundation corn single crosses and inbred lines certification.
16-302-310	Seed inspection and standards for hybrid corn seed certification.
16-302-315	Ear inspection and winter growouts for certification of foundation corn single crosses and inbred lines.
Grass Seed Certification Standards	
16-302-320	What are the standards for grass seed certification?
16-302-325	Land requirements for grass seed certification.
16-302-330	Field isolation requirements for grass seed certification.
16-302-335	Field inspection tolerances for grass seed certification.
16-302-385	Grass seed standards for certification.
16-302-390	Inspection and final grass seed certification fees—Options.
Sod Quality Certification	
16-302-395	What are the standards for sod quality seed certification?
16-302-400	Varieties eligible, certification fees, land and isolation requirements and field tolerances.
16-302-410	Standards for sod quality seed.

Sudangrass Certification Standards

- 16-302-415 What are the standards for sudangrass certification?
- 16-302-420 Land requirements for sudangrass seed certification.
- 16-302-425 Isolation requirements for sudangrass seed certification.
- 16-302-430 Field tolerances for sudangrass certification.
- 16-302-435 Sudangrass lot standards for certification.

Flax Certification Standards

- 16-302-445 What are the standards for flax certification?
- 16-302-450 Field standards for flax certification.
- 16-302-455 Seed standards for flax certification.

Woody Plants and Forbes Certification Standards

- 16-302-460 What are the standards for woody plants and Forbes certification?
- 16-302-465 Land requirements and field standards for woody plants and Forbes.
- 16-302-470 Seed standards for woody plants and Forbes.

Rapeseed Certification Standards

- 16-302-475 What are the standards for rapeseed certification?
- 16-302-480 Field standards for rapeseed certification.
- 16-302-485 Land requirements for rapeseed certification.
- 16-302-490 Seed standards for rapeseed certification.

Red Clover Seed Certification Standards

- 16-302-495 What are the standards for red clover seed certification?
- 16-302-500 Land requirements for red clover seed certification.
- 16-302-510 Isolation requirements for red clover seed certification.
- 16-302-515 Field tolerances for red clover seed certification.
- 16-302-520 Seed standards for red clover seed certification.

White Clover and Trefoil Seed Certification Standards

- 16-302-525 What are the standards for white clover and trefoil seed certification?
- 16-302-530 Land requirements for white clover and trefoil seed certification.
- 16-302-535 Isolation requirements for white clover and trefoil seed certification.
- 16-302-540 Field tolerances for white clover or trefoil seed certification.
- 16-302-545 Seed standards for white clover and trefoil seed certification.

SEED CROPS CERTIFIED BY WSCIA

Buckwheat, Chickpea, Field Pea, Lentil, Millet, Soybean, Sorghum and Small Grains Seed Certification

- 16-302-550 Standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum and small grains seed certification.
- 16-302-555 Labeling and sealing of certified seed of small grains by a grower.
- 16-302-560 Miscellaneous field and seed inspection standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum, small grain seed certification.
- 16-302-660 Field pea standards for seed certification.
- 16-302-665 Lentil standards for seed certification.
- 16-302-670 Soybean standards for seed certification.
- 16-302-675 Hybrid sorghum standards for seed certification.
- 16-302-680 Open pollinated sorghum standards for seed certification.
- 16-302-685 Small grains standards for seed certification.
- 16-302-690 Chickpea standards for seed certification.
- 16-302-695 Open pollinated millet standards for seed certification.
- 16-302-700 Buckwheat standards for seed certification.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

- 16-302-440 Standards for verification of turf seed ingredients. [Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-440, filed 12/4/00, effective 1/4/01.] Repealed by 02-12-060, filed 5/30/02, effective 6/30/02. Statutory Authority: Chapters 15.49 and 34.05 RCW.

PART 1 - GENERAL SEED CERTIFICATION STANDARDS

WAC 16-302-005 Seed certification—Purpose. Under the authority of chapter 15.49 RCW, the department adopts rules to establish standards for seed certification in Washington state in order to maintain and make available sources of high quality seeds and propagating material of plant varieties so grown and distributed as to ensure genetic identity and genetic purity.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-005, filed 12/4/00, effective 1/4/01.]

WAC 16-302-010 Agencies that certify seed in Washington state. (1) Seed certification in Washington state is conducted under the authority of chapter 15.49 RCW. The department conducts seed certification in cooperation with the WSCIA, Washington State University and AOSCA.

(2) The WSCIA is designated to assist the department in the certification of certain agricultural seeds. A memorandum of understanding between the department and the WSCIA designates WSCIA to act as the director's duly authorized agent for the purpose of certifying seed of buckwheat, chickpeas, field peas, lentils, millet, soybeans, small grain, sorghum and forest trees. The address and phone number for the WSCIA office is 414 S. 46th Avenue, Yakima, WA 98908, (509) 966-2234.

(3) The department's seed program certifies seed other than buckwheat, chickpeas, field peas, lentils, millet, soybeans, small grain, sorghum and forest trees. The address and phone number for the department seed program office is 21 N. 1st Avenue, Yakima, WA 98902, (509) 225-2630.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-010, filed 12/4/00, effective 1/4/01.]

WAC 16-302-015 Seed classes recognized for seed certification. For the eligibility of varieties of seed refer to WAC 16-302-040. Four seed classes are recognized in seed certification, namely: Breeder, foundation, registered, and certified.

(1) Breeder seed is seed or vegetative propagating material directly controlled by the originating, or in certain cases the sponsoring plant breeder, institution, or firm. Breeder seed supplies the source for the initial and recurring increase of foundation seed.

(2) Foundation seed (identified by white tags) is first-generation seed increased from breeder seed or its equivalent. Production must be carefully supervised and approved by the certifying agency and/or the agricultural experiment station. Foundation seed is eligible to produce registered or certified seed.

(3) Registered seed (identified by purple tags) is the progeny of foundation seed that is handled as to maintain satisfactory genetic identity and purity and is approved and certified by the certifying agency. Registered seed is eligible to produce certified seed.

(4) Certified seed (identified by blue tags) is the progeny of foundation, registered or certified seed which is handled as to maintain satisfactory genetic identity and purity and is

approved and certified by the certifying agency. Certified seed is not eligible for recertification for the crops certified by WSCIA, listed in WAC 16-302-550, except as provided for in WAC 16-302-035.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-015, filed 12/4/00, effective 1/4/01.]

WAC 16-302-020 Seed standards for proprietary variety certification—Application for proprietary certification. The general seed certification standards provided for in this chapter together with the varieties eligible for seed certification constitutes the basic requirements for proprietary variety certification.

(1) The owner or designee with production or marketing rights of a proprietary variety must submit to the certifying agency a list of growers who will submit applications for certification showing the variety, acreage authorized, processor authorized, and also advising whether the variety is under genetic purity certification or under complete certification. The list of growers must be submitted prior to the application due dates for seed certification as specified in WAC 16-302-050.

(2) Each application for seed certification received by the certifying agency is subject to approval from the list submitted by the owner with production or marketing rights of a proprietary variety.

(3) The certifying agency shall refuse certification of any seed that appears in a processing or conditioning plant not authorized by the owner with production or marketing rights of a proprietary variety.

(4) An application for seed certification may be withdrawn at any time prior to tagging. The applicant is responsible for fees due and owing when an application for seed certification is withdrawn.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-020, filed 12/4/00, effective 1/4/01.]

WAC 16-302-025 Seed standards for genetic purity certification. All certified seed must conform to the standards of purity and identity or variety in compliance with chapter 15.49 RCW and rules adopted thereunder. The general certification standards together with the specific crop certification standards established in this chapter are the basic requirements for genetic purity seed certification:

(1) Only proprietary varieties and OECD varieties not of United States origin to be tagged under the OECD scheme are eligible for genetic purity certification.

(2) Only the specific crop certification standards established in rule which pertain to genetic purity such as land requirements and isolation, shall apply for genetic purity certification. Fields must not contain other varieties or off-type plants in excess of established standards. The grower is responsible for controlling noxious weeds to prevent seed formation.

(3) Excessive prohibited and/or objectionable weeds, poor stands, lack of vigor, or other conditions, which make inspection by the certifying agency inaccurate, may be cause for rejection of a field.

[Title 16 WAC—p. 368]

(4) Field inspection. A field inspection is made by the certifying agency each year at the time the seed crop is in bloom, or at other times as may be most advantageous to determine genetic purity. A complete record must be maintained on the condition of the field (weeds, crop mixtures, etc.) and all information reported to the authorized agent and/or grower. Upon completion of all requirements for field inspection, a final field inspection report is issued by the certifying agency that the seed produced passed genetic purity requirements.

(5) Seed standards. The certifying agency shall test all lots to determine the purity and germination quality. Seed to be certified must not contain seeds of other varieties or off-types in excess of standards established in rule. The quality of each lot of seed represented to be certified must be that which is normally acceptable in the marketing of high quality seed. Failure to maintain acceptable quality shall be considered cause for revoking permission to participate in seed certification by genetic purity.

(6) Processing or conditioning requirements. Only those conditioning plants approved by the department Seed Program are permitted to process seed for certification. Complete records must be kept of all processing or conditioning. Blending of seed lots of the same variety from fields passing field inspections may be permitted with prior approval and if in accordance with requirements for blending. Sampling and all other operations involving certified seed must be under supervision of the certifying agency. The sample must be obtained in accordance with official sampling procedures. The entire lot must be cleaned and in condition for sale at the time of sampling. This sample must be submitted to the seed laboratory for testing to evaluate quality. Lots of questionable quality may be rejected and not eligible for certification.

(7) Certification tags for seed meeting the genetic purity standards must be clearly marked, "genetic purity certified."

(8) Fees for genetic purity certification are as established for each seed crop in chapter 16-303 WAC and the authorized agent or grower is responsible for all fees.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-025, filed 12/4/00, effective 1/4/01.]

WAC 16-302-030 Standards for production of foundation seed. The general seed certification standards together with specific crop standards established in this chapter constitute the basic standards for production of foundation seed. Seed to be eligible for foundation certification tags, or OECD basic tags, must be approved by the originating plant breeder or his designated agent, and in compliance with the following standards:

(1) Preplanting report. A preplanting inspection, an industry responsibility, must be made of fields to be planted with breeder seed. A written report of the preplant inspection, performed by either a representative of the person issuing the contract or by the grower must be maintained by the variety owner or designee for a minimum of three years. The report shall show the grower's name, number of acres, location, crop history for the past three years, crops to be planted, origin of breeder seed, isolation status, and weed and crop present.

(2) Planting requirement. To distinguish between any possible volunteer and the crop seeded, all fields must be

(2007 Ed.)

planted in distinct rows. Plants outside defined rows may be construed as volunteers.

(3) Combine inspection. The combine used for seed harvesting must be cleaned and inspected prior to harvesting foundation or OECD basic seed. The combine must be free of all contaminating material. If an official combine inspection is requested, the certifying agency must be notified of the following: The date, time, and location where the combine inspection may be made.

(4) Processing plant inspection. The processing or conditioning plant must be inspected before processing foundation or OECD basic seed and periodic inspections will be made during processing by the processor.

(5) Recleaning, rebagging, preinoculation, treating, or other processes must be approved by the certifying agency. An original tag must be submitted with the request for recertification and the seed must be retagged and resealed on completion.

(6) For a proprietary variety the above combine inspection (subsection (3) of this section), and processing plant inspection (subsection (4) of this section), responsibility may be assigned to the proprietor or his designee upon their request. The variety owner or designee must maintain a report covering required inspections.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-030, filed 12/4/00, effective 1/4/01.]

WAC 16-302-035 Limitation of generations for seed certification. The number of generations through which a seed variety may be multiplied is limited to the number specified by the originating breeder or owner of a variety except that:

(1) Unlimited recertification of the certified seed class may be permitted for crop varieties where foundation seed is not being maintained.

(2) The production of an additional generation of the certified class may be permitted on a one-year basis when:

(a) Prior to the planting season, the certifying agency states that foundation and registered seed supplies in the United States are not adequate to plant the needed acreage of the variety.

(b) Permission of the originating breeder and/or owner of the variety is obtained (if applicable).

(c) The additional generation of certified seed produced is declared to be ineligible for recertification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-035, filed 12/4/00, effective 1/4/01.]

WAC 16-302-040 Varieties eligible for seed certification in Washington state. (1) Only seed varieties that are accepted as meriting seed certification by an appropriate AOSCA National Variety Review Board or a member agency of AOSCA in accordance with the criteria listed in subsection (3) of this section may be eligible for seed certification in Washington state.

(2) A current list of varieties eligible for certification for the crops certified by the seed program may be obtained by contacting WSDA Seed Program, 21 N. 1st Avenue, Yakima, WA 98902, (509) 225-2630. A current list of varieties eligi-

ble for certification for the crops certified by WSCIA may be obtained by contacting WSCIA, 414 S. 46th Avenue, Yakima, WA 98908, (509) 966-2234.

(3) The following information is required for submission to an AOSCA National Variety Review Board or other certifying agency for acceptance of a seed variety for certification:

(a) A statement and supporting evidence by the originator, developer, or owner requesting certification that:

(i) The variety has been adequately tested to determine its value and probable area of adaptation, and that it merits certification; and

(ii) The variety is distinguishable from other varieties as set forth in Article 5, International Code of Nomenclature for Cultivated Plants, which reads as follows: "The term cultivar (variety) denotes an assemblage of cultivated individuals which are distinguished by any characters (morphological, physiological, cytological, chemical or others) significant for the purposes of agriculture, forestry, or horticulture, and which, when reproduced (sexually or asexually) retain their distinguishing features."

(b) A statement on origin and breeding procedure.

(c) A description of:

(i) The morphological characteristics, (such as color, height, uniformity, leaf, head or flower characteristics, etc.);

(ii) Physiological characteristics;

(iii) Disease and insect reactions; and

(iv) Any other identifying characteristics of value to field inspectors and other pertinent factors as the breeder or sponsor considers relevant.

(d) Evidence of performance, including data on yield, insect or disease resistance and other factors supporting the value of the variety. Performance tests may be conducted by private seed firms or agricultural experiment stations, and must include appropriate check varieties, which are used extensively in the area of intended usage.

(e) A statement giving the suggested region of probable adaptation and purposes for which the variety is used. This includes where the breeder of the variety has tested the variety and anticipates recommending the merchandising of it.

(f) A description of the procedure for maintenance of stock seed classes. At the time a variety is accepted for certification, a sample lot of breeder seed is presented to the certifying agency. The sample is retained as a control varietal sample against which all future seed stock released for certified seed production may be tested to establish continued trueness of variety.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-040, filed 12/4/00, effective 1/4/01.]

WAC 16-302-045 How may a person apply for seed certification in Washington state? If a person wishes to participate in the Washington state seed certification program, you must submit an application to the appropriate certifying agency.

(1) An application for seed certification must be submitted for each crop, variety and field.

(2) Applications may be obtained from a certified seed processor or the certifying agency listed in WAC 16-302-010.

(3) The applicant is responsible for payment of all fees. Washington State University, its official agents and USDA Plant Material Center are exempt from paying fees on seed stock.

(4) The applicant must attach to the application for seed certification official tags/labels and/or other verification from seed stock planted. The applicant must also attach proof of quarantine compliance when required, under chapter 16-301 WAC. Refer to chapter 16-303 WAC for appropriate fees.

(5) When it is necessary for a grower to reseed due to a failure to get a stand, the grower will retain records of seed lots used and the date of reseeding. Reseeding must be done within two years of the original planting date for grasses or within one year for all other crops. If seed stock of a different lot is used for reseeding, the grower must submit proof of seed stock used on a seedling application form. An additional application fee will be charged.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-045, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-045, filed 12/4/00, effective 1/4/01.]

WAC 16-302-050 When is an application for seed certification submitted? (1) Seed certification application due dates are:

(a) For seed certified by the department: Alfalfa, clover, grasses and rapeseed (seedling applications) - within sixty days of planting. Seedling applications will not be accepted if received more than one hundred five days after planting.

(b) Notification of a seedling field to be harvested for certification the same year of planting is due July 31 with the required fees.

(i) Bean - July 1.

(ii) Corn - June 1.

(2) For seed certified by the WSCIA:

(a) Buckwheat, field pea, chickpea, lentil, millet, and small grains (both winter and spring varieties) - June 1.

(b) Soybean - July 1.

(c) Sorghum - July 15.

(d) Forest tree seed certification - refer to specific crop requirements in chapter 16-319 WAC.

(3) An application for seed certification must be submitted to the certifying agency each year a grower plans to produce seed for certification of annual crops (beans, peas, grain).

(4) A renewal application for seed certification must be submitted to the certifying agency after a stand is established each year that a grower plans to produce seed for certification of perennial crops (alfalfa, clover, grass). Due dates for renewal applications are as follows:

(a) Alfalfa and clover - June 15.

(b) Grass - May 1.

(5) Applications received after the due date are assessed a late application fee.

(6) No renewal application for seed certification may be accepted after the due date if a field inspection cannot be conducted prior to harvest except at the discretion of the certifying agency.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-050, filed 12/4/00, effective 1/4/01.]

WAC 16-302-055 What are the responsibilities of a grower when participating in the seed certification program? All growers participating in the seed certification program must:

(1) Maintain the purity and identity of seed harvested and/or farm stored, and ensures reasonable precaution is taken to control contaminating crops and varieties, noxious weeds, and seed-borne diseases.

(2) Exercise precaution to prevent seed crop and lot mixture when harvesting.

(3) Identify the seed crop as it is delivered to the processor with the assigned field number or numbers.

(4) Clean the seed crop at a seed conditioner approved by the department under WAC 16-302-125. A list of approved seed conditioners may be obtained from the department seed program.

(5) Comply with standards and procedures for seed certification under the authority of chapter 15.49 RCW and rules adopted thereunder.

(6) Prior to planting, comply with the quarantine provisions under chapter 16-301 WAC.

(7) Harvest of seed before a field inspection by the certifying agency causes forfeitures of both the application and field inspection fees, and completion of certification.

(8) Failure of seed growers to comply with the seed laws and rules is cause for the department to deny certification of seed under the provisions of chapter 34.05 RCW, the Administrative Procedure Act.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-055, filed 12/4/00, effective 1/4/01.]

WAC 16-302-060 What are the certification requirements for seed? (1) The general seed certification rules in addition to the rules adopted on specific seed crop standards constitute the certification requirements for the seed crops listed in this chapter.

(2) Crops approved for certification for which rules are not in effect may be certified under the minimum requirements for seed certification as shown in WAC 16-301-010. Fees for certification of seed shall be the most applicable fees established by the department in rule.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-060, filed 12/4/00, effective 1/4/01.]

WAC 16-302-065 Land history—Seed certification. Land requirements for seed certification are as established in the specific seed crop standards. When a cultural practice has proved to be successful, requirements may be modified upon written approval of the seed certifying agency. Cultural practice may include any of the following:

(1) Mechanical means such as deep plowing.

(2) Chemical means such as fumigants.

(3) Other material for seed bed preparation. Materials and methods must be a matter of record. Any practice used must be adequate to ensure varietal purity and must be approved in writing by the certifying agency. Any deviations from established land requirements must be submitted in writing to the certifying agency.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-065, filed 12/4/00, effective 1/4/01.]

WAC 16-302-070 When is a seed field inspected by the certifying agency? The certifying agency conducts field inspections as follows:

(1) A seedling field is inspected at the most appropriate time after receipt of seedling application. If the field produces seed the same year of planting, a seedling producing inspection is made prior to harvest.

(2) Each year a crop of certified seed is produced, field inspections are made at a time when factors affecting certification are most evident.

(3) The unit of certification is the entire field standing at the time of inspection. A portion of a field may be certified if the area to be certified is clearly defined by flagging, stakes or other visual means.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-070, filed 12/4/00, effective 1/4/01.]

WAC 16-302-075 Tolerances stated as "none found."

A tolerance of "none found" for contaminating or diseased material in either field or clean seed standards means that none was found during the normal procedure of field inspection or seed sample testing. None found does not constitute a guarantee that the field or seed is entirely free of the contaminant or disease.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-075, filed 12/4/00, effective 1/4/01.]

WAC 16-302-080 What will cause a seed field to be ineligible for seed certification? (1) A seed field is not eligible for certification unless a field inspection is made prior to defoliation or harvesting.

(2) The presence of prohibited noxious weeds or excessive objectionable weeds may be cause for rejection of a seed field. Excessive weeds, poor stands, lack of vigor, or other conditions which make inspection inaccurate may be cause for rejection. A field producing foundation or registered seed that warrants a rejection because of noxious weeds may be reclassified to certified blue tag class if upon reinspection the field meets certified blue tag standards.

(3) If a seed field is rejected for certification, the grower may reapply to the certifying agency and pay a fee for reinspection after the cause for rejection is corrected, unless otherwise specified in chapter 16-302 WAC. No more than two reinspections are permitted for each field per year.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-080, filed 12/4/00, effective 1/4/01.]

WAC 16-302-085 When may an applicant withdraw a field from inspection for seed certification? The applicant applying for seed certification may withdraw a field from field inspection for seed certification by notifying the certifying agency before the field is inspected.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-085, filed 12/4/00, effective 1/4/01.]

(2007 Ed.)

WAC 16-302-086 Agency power to reject certification. The certifying agency shall have the authority to reject from certification any lot of seed not meeting these regulations. The agency reserves the right to refuse certification on any lot of seed if, in the opinion of the certifying agency, the color appearance, or the condition of the seed might be detrimental to the certification program. The certifying agency has the authority to refuse certification if the labeling of containers is misleading or may tend to be confusing as to its contents.

Persons found guilty of violation or misuse or abuse of these regulations shall be subject to prosecution under chapter 15.49 RCW. Proof of violation may result in removal of privileges of certifying, dealing in or handling certified seed.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-086, filed 12/4/00, effective 1/4/01.]

WAC 16-302-090 Sampling—Methods used in the sampling, inspecting, testing, analyzing and examining seed for certification. (1) The terms used in seed testing and the methods of sampling, inspecting, analyzing, testing and examining seed for certification are those adopted by the AOSA as shown in WAC 16-301-010.

(2) The entire lot of seed must be cleaned and in condition for sale at the time of sampling. Except for ryegrass which may be sampled under the early sampling program as allowed in WAC 16-302-091.

(3) The department shall obtain a representative sample for laboratory analysis of each lot of seed for certification. The sample shall be taken in accordance with official sampling procedures. Official sampling procedures are as follows:

Seed in bags.

(a) When more than one core is drawn from a bag, follow different paths. When more than one handful is taken from a bag, take them from well-separated points.

(b) For lots of one to six bags, sample each bag and take a total of at least five cores or handfuls.

(c) For lots of more than six bags, sample five bags plus at least 10% of the number of bags in the lot. Round numbers with decimals to the nearest whole number. Regardless of the lot size, it is not necessary to sample more than thirty bags.

Ex: No. bags in lots	7	10	23	50	100	200	300	400
No. bags to sample	6	6	7	10	15	25	30	30

(4) Bulk seed. To obtain a composite sample, take at least as many cores or handfuls as if the same quantity of seed were in bags of an ordinary size. Take the cores or handfuls from well distributed points throughout the bulk.

(5) Seed in small containers. Seed in small containers shall be sampled by taking the entire unopened container in sufficient number to supply a minimum size sample for testing. The contents of a single container or the combined contents of multiple containers of the same lot shall be considered representative of the entire lot of seed sampled.

(6) A mechanical sampling device installed in a conditioning plant approved by the department under WAC 16-302-125 may be used in lieu of the sampling procedures above.

(7) If it is necessary for a sample to be taken by the department, a sampling fee will be charged under provisions of chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-090, filed 12/4/00, effective 1/4/01.]

WAC 16-302-091 What is the program for early sampling of ryegrass? The procedure for participating in the program for early sampling of ryegrass is as follows:

(1) Any company participating in this program must submit a report to the seed program listing the grower, acreage, variety, and field number of each field to be enrolled. This report must be filed by June 15th of each year. For fields that are in their second year of production or beyond, all lab numbers of tests from the previous year must also be provided.

(2) The seed company is responsible for having their field personnel sample each field in the windrow. The sample must be obtained from well-distributed points throughout the field. It is recommended that samples be thrashed and cleaned prior to testing. An additional fee will be charged for samples that are not cleaned. Samples must be forwarded to the seed program with the following information: The crop and variety, field number, grower, the name of the seed company, and a request for germination and fluorescence test. The sample must also indicate that it is being submitted under the early sampling program for ryegrass.

(3) At the time of conditioning the seed, a composite sample must be submitted to the seed program for purity testing. The sample information must indicate the seed is from a field under the early sampling program for ryegrass. In addition to providing complete certification information, the lab number on which the fluorescence test was conducted must also be provided. The seed program may run a fluorescence test on the composite sample to verify the results from the early sample.

(4) Certification tags will be issued upon completion of all required testing meeting the minimum certification standards for ryegrass. A tagging request must be filed with the seed program.

(5) Failure to comply with the requirements of this section will result in the disqualification of the seed company from the early sampling program for the year.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-091, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-091, filed 12/4/00, effective 1/4/01.]

WAC 16-302-095 Identification of seed containers with field or lot numbers. (1) The field number must be on all seed containers or bulk seed delivery documents to ensure identity when delivered to the seed conditioner.

(2) All seed for certification must be packaged in clean, new containers of uniform weight and identified with a lot number when tagged and sealed. The lot number must identify the producer and year of production for each lot of seed. This requirement may be satisfied by use of a conditioner's code.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-095, filed 12/4/00, effective 1/4/01.]

WAC 16-302-100 Seed certification—Prohibited noxious weed seed. The following are considered prohibited noxious weeds for the purpose of seed certification.

ENGLISH OR COMMON NAME	BOTANICAL OR SCIENTIFIC NAME
Austrian fieldcress	<i>Rorippa austriaca</i> (Crantz) Bess.
Field bindweed	<i>Convolvulus arvensis</i> L.
Hedge bindweed	<i>Calystegia</i> Spp.
Camelthorn	<i>Alhagi maurorum</i>
Canada thistle	<i>Cirsium arvense</i> (L.) Scop.
Dodder	<i>Cuscuta</i> spp.
Hairy whitetop	<i>Cardaria pubescens</i> (C.A. Mey.)
Hoary cress	<i>Cardaria draba</i> (L.) Desv.
Jointed goatgrass	<i>Aegilops cylindrica</i>
Leafy spurge	<i>Euphorbia esula</i> L.
Perennial pepperweed	<i>Lepidium latifolium</i> L.
Perennial sowthistle	<i>Sonchus arvensis</i> L.
Quackgrass	<i>Elytrigia repens</i> (L.) Beauv.
Knapweed complex	
Bighead	<i>Centaurea macrocephala</i>
Vochin	<i>Centaurea nigrescens</i>
Black	<i>Centaurea nigra</i>
Brown	<i>Centaurea jacea</i>
Diffuse	<i>Centaurea diffusa</i>
Meadow	<i>Centaurea jacea x nigra</i>
Russian	<i>Acroptilon repens</i> L.
Spotted	<i>Centaurea maculosa</i>
Purple starthistle	<i>Centaurea calcitrapa</i>
Yellow starthistle	<i>Centaurea solstitialis</i> L.
Serrated tussock	<i>Nassella trichotoma</i>
Silverleaf nightshade	<i>Solanum elaeagnifolium</i> Cav.
Sorghum perennial such as, but not limited to, johnson-grass, sorghum alnum, and perennial sweet sudangrass	<i>Sorghum</i> spp.
Tansy ragwort	<i>Senecio jacobaea</i> L.
Yellow-flowering skeleton weed	<i>Chondrilla juncea</i> L.
White cockle	<i>Silene latifolia</i> (only in timothy)
Bladder campion	<i>Silene vulgaris</i> (only in timothy)
Lepyrodielis	<i>Lepyrodielis holsteoides</i>
Velvetleaf	<i>Abutilon theophrasti</i>

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-100, filed 12/4/00, effective 1/4/01.]

WAC 16-302-105 Seed certification—Objectionable weeds. The following weeds are considered objectionable noxious weeds for the purpose of seed certification.

ENGLISH OR COMMON NAME	BOTANICAL OR SCIENTIFIC NAME
Blackgrass	<i>Alopecurus myosuroides</i>
Blue lettuce	<i>Lactuca tatarica</i>
Docks and Sorrel	<i>Rumex</i> spp.
Field pennycress (fanweed)	<i>Thlaspi arvense</i>

ENGLISH OR COMMON NAME	BOTANICAL OR SCIENTIFIC NAME
Field sandbur	<i>Cenchrus incertus</i>
Halogeton	<i>Halogeton glomeratus C.A. Mey.</i>
Medusahead	<i>Taeniatherum caput-medusae subsp. caputmedusae</i>
Plantains	<i>Plantago spp.</i>
Poverty weed	<i>Iva axillaris Pursh.</i>
Puncturevine	<i>Tribulus terrestris L.</i>
St. Johnswort	<i>Hypericum perforatum L.</i>
Dalmation toadflax	<i>Linaria dalmatica (L.) Mill.</i>
Yellow toadflax	<i>Linaria vulgaris Hill.</i>
Western ragweed	<i>Ambrosia psilostachya DC.</i>
Wild mustard	<i>Sinapis arvensis subsp. arvensis</i>
Wild oat	<i>Avena fatua L.</i>
Gromwell (in small grain)	<i>Buglossoides arvensis</i>
Bedstraw	<i>Galium spp. (in alfalfa only)</i>
Black mustard	<i>Brassica nigra</i>
Brown mustard	<i>Brassica juncea (in rape-seed only)</i>
Wild radish	<i>Raphanus raphanistrum</i>
Dyers woad	<i>Isatis tinctoria</i>

[Statutory Authority: Chapters 15.49, 17.24, and 34.05 RCW. 06-01-111, § 16-302-105, filed 12/21/05, effective 1/21/06. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-105, filed 12/4/00, effective 1/4/01.]

WAC 16-302-110 Completion of seed certification—When may seed be labeled with a seed certification tag, label or seal? (1) The seed certification tag, label or seal is evidence of the genetic identity and purity of the contents must be attached to a container of certified seed prior to distribution. Seed that fails to meet certification standards because of genetic purity is not eligible for labeling.

(2) Seed certification tags, labels, and seals must be obtained from the certifying agency except as allowed in WAC 16-302-390, and must be attached to seed containers in accordance with the certifying agency's rules.

(3) Certification of seed is valid only if the tag, label or seal is affixed to each container in accordance with the AOSCA procedures as shown in WAC 16-301-010.

(4) No tag, label or seal may be removed and reused without permission of the certifying agency.

(5) A certified seed sale certificate will be issued upon completion of final certification for all seed to be sold in bulk. This certificate must accompany any shipment or transfers including those to other seed plants, out-of-state shipments or with any brokered seed. The seed plants own invoice may be used in lieu of a certified seed sale certificate for retail sales to growers.

(6) Seed that fails to meet certification requirements on factors other than genetic purity may be designated substandard at the discretion of the certifying agency. The certification tag or label attached to the seed must clearly show the reason the seed is substandard. Seed may not be tagged substandard if the seed can be remilled to meet minimum seed standards.

(7) Refer to chapter 16-301 WAC for seed labeling requirements.

(2007 Ed.)

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-110, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-110, filed 12/4/00, effective 1/4/01.]

WAC 16-302-115 Limitation of liability—Certification. The issuance of a certified seed label or certificate by the certifying agency for a lot of seed affirms that seed has been produced and conditioned according to chapter 15.49 RCW and the certification rules adopted thereunder. The certifying agency makes no warranty, expressed or implied or any representation as to the freedom from disease or quality of certified seed.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-115, filed 12/4/00, effective 1/4/01.]

WAC 16-302-120 Labeling, advertising or other representation of seed—Prohibitions. It shall be deemed unlawful if any labeling, advertising, or other representation subject to chapter 15.49 RCW represents:

(1) Seed to be certified seed or any class thereof unless it has been determined by a seed certifying agency that such seed conforms to standards of purity and identity as to species (and subspecies, if appropriate), and variety, in compliance with the rules and laws of that agency pertaining to such seed.

(2) Seed to be foundation, registered, or certified seed unless it has been inspected and tagged accordingly by a certifying agency as meeting certification standards of the department.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-120, filed 12/4/00, effective 1/4/01.]

WAC 16-302-125 Who may condition seed in Washington state? (1) Under the authority of RCW 15.49.350, a seed conditioning facility must be inspected and approved by the department prior to conditioning seed in Washington state. Upon approval by the department, a seed conditioning permit is issued and the facility is placed on a list of approved seed conditioning plants. A copy of the list can be obtained by contacting the department seed program.

(2) A person desiring to condition seed must make application to the department for a permit on a form provided by the department.

(3) To obtain department approval for a seed-conditioning permit, the department conducts an inspection. A facility must show evidence that:

(a) Seed for certification is handled in a manner which prevents mixture of lots of seed;

(b) The seed conditioning facility is maintained and cleaned. Equipment must be easily accessible for cleaning and inspection, and must be cleaned between lots;

(c) Each lot of seed is identified with a lot number;

(d) Screenings are disposed of in accordance with chapter 15.49 RCW; and

(e) Seed is sampled in accordance with WAC 16-301-095, 16-302-090 and 16-302-091.

(4) A seed conditioning facility must be approved by the department prior to handling seed for certification in bulk.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-125, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005,

15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-125, filed 12/4/00, effective 1/4/01.]

WAC 16-302-130 What are the responsibilities of a seed conditioner? (1) It is the responsibility of a department approved seed conditioner to operate in a manner that:

(a) Maintains the purity and identity of seed conditioned, stored, transshipped or labeled.

(b) Complies with the standards and procedures for conditioning and sampling seed in accordance with chapter 15.49 RCW and rules adopted thereunder.

(2) Prior to shipping seed out-of-state, the seed conditioner must obtain approval from the certifying agency. Refer to WAC 16-302-145 through 16-302-165 for inter-agency seed certification requirements.

(3) Records of all operations must be complete and adequate to account for all incoming seed and final disposition of seed.

(4) The seed conditioner is responsible for seed certification fees including sampling, testing, production and final certification fees, and may request the responsibility for additional fees.

(5) Failure of a seed conditioner to comply with the seed law and rules is cause for the department to revoke a seed conditioning permit under the provisions of chapter 34.05 RCW, the Administrative Procedure Act.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-130, filed 12/4/00, effective 1/4/01.]

PART 2 - BLENDING OF CERTIFIED SEED

WAC 16-302-135 What considerations are there for blending seed? (1) Size of seed blend permitted is dependent on factors such as quality of seed lots to be blended and the conditioning plant facilities.

(2) A blend data sheet is filed with the certifying agency and must be maintained by the seed conditioner. Laboratory analysis must be completed before tags are issued.

(3) Seed must be blended by a seed conditioner approved by the department under WAC 16-302-125.

(4) A representative of the certifying agency may supervise the blending operation.

(5) A tetrazolium test may be used in lieu of a germination test.

(6) Upon approval of the certifying agency, field run lots of seed may be commingled to facilitate conditioning. The blend fee shall not apply.

(7) Remill lots of seed may be blended prior to testing to facilitate processing.

(8) Individual lots of grass seed shall not contain more than one hundred eighty per pound and alfalfa and clover shall not contain more than ninety per pound of objectionable weed seeds.

(9) Individual lots must be free of prohibited noxious weed seeds.

(10) Two or more sod quality lots may be blended and tagged as a "sod quality mixture or blend." Appropriate tags will be issued and blend fee shall be applicable.

[Title 16 WAC—p. 374]

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-135, filed 12/4/00, effective 1/4/01.]

WAC 16-302-140 When are seed blends eligible for tagging prior to analysis? Blends are eligible for tagging prior to analysis of the official sample of the blend upon meeting the following conditions:

(1) The calculated percent of impurities (weeds, crop, inert, etc.) is twenty percent less than the maximum allowed in rules for seed certification.

(2) The calculated percent of germination is not less than the minimum germination standard established in the rule for seed certification.

(3) All seed lots blended meet certification standards.

(4) All lots of seed used in a registered class blend must meet registered class purity and germination standards.

(5) Fees for blending are payable to the department by the person requesting permission for the blend after completion of lab analysis. Refer to chapter 16-303 WAC for the appropriate fee.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-140, filed 12/4/00, effective 1/4/01.]

WAC 16-302-142 Standards for verification of turf seed ingredients. The general rules for seed certification are basic and together with the following specific requirements constitute the rules for certification identity of mixtures of different kinds of turf certified seed:

(1) A blend data sheet, including proof of certification, verifying the origin and the certifying agency along with the analysis and pounds of each lot must be submitted to the certifying agency for approval.

(2) Each lot of certified seed shall:

(a) Meet standards acceptable to the certifying agency.

(b) Be sampled under supervision of the certifying agency prior to mixing. The sample shall be obtained in accordance with official sampling procedures. The sample shall be identified with:

(i) The verification of certification, origin, and certifying agency;

(ii) The kind/variety;

(iii) The analysis and size of lot.

(3) The certifying agency reserves the right to:

(a) Refuse permission to use individual lots;

(b) Approve the equipment to be used and procedure to follow in mixing;

(c) Approve the containers and labeling to be used; and

(d) Sample the final mixture.

(4) The certifying agency will identify each container with an official certification label verifying that the individual lots used were certified seed lots.

(5) For a mixture to be labeled sod quality each component shall meet sod quality standards in WAC 16-302-410.

(6) Fees for turf seed mixing shall be the same as the current blend fee. Refer to chapter 16-303 WAC for appropriate fees.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-142, filed 5/30/02, effective 6/30/02.]

(2007 Ed.)

PART 3 - INTERAGENCY SEED CERTIFICATION REQUIREMENTS

WAC 16-302-145 Interagency seed certification standards. (1) Interagency certification is the participation of two or more official certifying agencies in performing the services required to certify the same lot or lots of seed.

(2) The general rules for seed certification and specific certification standards are basic and together with WAC 16-302-150 through 16-302-165, constitute the rules for interagency certification for Washington state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-145, filed 12/4/00, effective 1/4/01.]

WAC 16-302-150 Eligibility for interagency certification. (1) Seed recognized for interagency certification must be received in containers carrying official certification labels or evidence of its eligibility from another official certifying agency together with the following information:

- (a) Variety and species;
- (b) Quantity of seed;
- (c) Class of seed; and
- (d) Field or lot number traceable to the previous certifying agency's records.

(2) Seed tagged and sealed with official certification tags is eligible for interagency certification without obtaining approval from the certifying agency of the originating state.

(3) An "interagency certified seed" report form must be submitted to all certifying agencies involved. Forms can be obtained from the department seed program. Information required to complete the form includes:

Part A

- Name
- Address of shipper
- Destination
- Shipping weight
- Lot number
- Grower name
- Field number
- Date of seed shipment
- Amount of seed used

Part B

- Date shipment is received by the receiving state
- Receiving weight and lot number
- Clean weight
- Bag count
- New lot number if different than the receiving lot number
- Screenings weight

(4) Certified seed not tagged and sealed with official certification tags must follow the interagency certification procedure in WAC 16-302-155.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-150, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-150, filed 12/4/00, effective 1/4/01.]

(2007 Ed.)

WAC 16-302-155 Interagency seed certification procedure. Certified seed that is produced in Washington state and shipped out-of-state must comply with the interagency seed certification procedure.

(1) The interagency seed certification procedure for field pea, lentil, soybean, small grain and sorghum seed is as follows:

(a) A certified seed sale certificate must be executed by the department for unprocessed seed pending final certification when moved out-of-state.

(b) Unprocessed seed pending final certification is subject to all certification fees when moved out-of-state.

(2) The interagency seed certification procedure for all other kinds of seed except field pea, lentil, soybean, small grain and sorghum seed shipped out-of-state is as follows:

(a) Obtain approval of all certifying agencies involved prior to shipment:

- Complete section (A) of "interagency certified seed" report referred to in WAC 16-302-150(3). Prior to shipment one copy of the "interagency certified seed" report must be submitted to the department seed program and one copy to the certifying agency where seed is being processed.

- Clearly mark each container with the lot number and Washington field number.

(b) Upon completion of seed processing, section (B) of "interagency certified seed" report referred to in WAC 16-302-150(3) must be completed and submitted to the department seed program.

- If the department is to finalize certification, a representative of the certifying agency in the receiving state must draw an official sample. The sample must be submitted to the department seed program.

- When Washington state certification tags are used, the lot must be tagged and sealed under supervision of the department. The applicant must pay a mileage fee and hourly rate for all additional mileage and travel time required.

- When Washington state interagency tags are used, the tags must be mailed to the nearest representative of the certifying agency having jurisdiction for tagging.

(c) If another state receives seed and finalizes certification, the department must advise the receiving state's certifying agency of certification eligibility. Sampling, testing, and tagging shall be in accordance with the receiving state's requirements.

(d) The applicant for interagency seed certification is responsible for all fees authorized under Washington's certification program and any additional fees that may be assessed by both agencies involved. Fees for Washington's interagency certification program must be paid upon submission to the department of the "interagency certified seed" report, section (A).

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-155, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-155, filed 12/4/00, effective 1/4/01.]

WAC 16-302-160 Interagency seed certification standards—Seed produced out-of-state. (1) Certified seed produced out-of-state and shipped into Washington state for processing is eligible for Washington interagency tags only after obtaining approval from the certifying agency of the originat-

[Title 16 WAC—p. 375]

ing state. The seed must then comply with Washington certification standards.

(2) Certified seed produced out-of-state that is officially tagged and sealed must be handled under the interagency program if seals are to be broken for reinoculation or other processing. The applicant for interagency seed certification must obtain approval from the department prior to breaking the official seals and all operations must be under the supervision of the certifying agency.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-160, filed 12/4/00, effective 1/4/01.]

WAC 16-302-165 Interagency certification requirements—Blends. Blends of different origin can be authorized only after obtaining approval from certifying agencies involved. Blends must comply with blend standards established by the department (see blending of certified seed in this chapter). Interagency tags used must show percentage of each origin involved.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-165, filed 12/4/00, effective 1/4/01.]

WAC 16-302-170 Other considerations in applying the standards for certification. (1) Any crop certification standard, with the exception of germination that is expressed as a percent will be derived from a test based on the minimum weight for purity analysis as specified in the 2000 AOSA rules for that crop unless otherwise specified in rule.

(2) Any crop certification standard that is based on a number per pound will be derived from a test based on the minimum weight for noxious weed seed examination as specified in the 2000 AOSA rules for that crop unless otherwise specified in rule.

(3) For species that have a high rate of inherent dormancy, it will be acceptable to use the percent of total viability instead of germination percentage for certification only. State and federal seed laws require seed be labeled on a germination test.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-170, filed 12/4/00, effective 1/4/01.]

PART 4 - PROCEDURES FOR ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT SCHEME FOR VARIETY CERTIFICATION (OECD)

WAC 16-302-210 What is the organization for economic cooperation and development? The Organization for Economic Cooperation and Development (OECD) certification scheme is an international organization limited to federal government membership. The agricultural research service of the United States Department of Agriculture is responsible for implementing the OECD seed certification schemes in the United States. The department, by virtue of an agreement with the agricultural research service, United States Department of Agriculture, is authorized to implement OECD certification in Washington state.

[Title 16 WAC—p. 376]

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-210, filed 12/4/00, effective 1/4/01.]

WAC 16-302-215 Crop standards for OECD variety certification. (1) The general and specific crop certification standards as established in rule by the department are basic and, together with the following specific standards, constitute the rules for OECD varietal seed certification.

(2) Varieties eligible for OECD certification.

(a) Crop varieties of United States origin shall be eligible for OECD certification only if accepted into Washington state's certification program.

(b) Crop varieties, of origin other than United States, are eligible for OECD certification only if listed in OECD publication, *List of Cultivars Eligible for Certification*.

(3) Classes of seed eligible for OECD certification.

Washington and U.S. Seed Classes	Label Color	Equivalent OECD Seed Classes	OECD Label Color
Breeder	---	Prebasic	---
Foundation	White	Basic	White
Registered	Purple	Basic	White
Certified	Blue	1st Generation Certified Seed	Blue
Certified produced from Certified	Blue	2nd Generation Certified Seed	Red

(a) Breeder or prebasic shall be planted to be eligible to produce basic white label.

(b) Foundation white label, registered purple label, or basic white label shall be planted to be eligible to produce 1st generation blue label.

(c) Certified or 1st generation blue label shall be planted to be eligible to produce 2nd generation red label.

(4) OECD seed stock sample. Each lot of OECD seed stock shall be sampled under supervision of the certifying agency before seals are broken. Samples are used as control for grow out test and a portion may be submitted to seed laboratory for analysis if deemed necessary. Seed stock lots without official tags will not be granted OECD approval.

(5) The department must obtain approval from the originating country for each OECD seed stock lot to be planted in the state of Washington for OECD production. Request for OECD approval is submitted by the seed program to ARS-Beltsville, Maryland, which then contacts the originating country.

(6) Application for OECD certification and fees.

(a) Applicant desiring plantings to be eligible for OECD certification must submit applications and fees as required for certification of that crop under Washington state's certification standards. Certification requirements and procedures for each species shall be the genetic standards in Washington state's certification program supplemented by OECD standards and by the limitations specified by originating country; such as, length of stand and number of seed crops eligible. All OECD seed shall be officially sampled and tested prior to tagging. Seed lots may not be required to meet Washington's minimum purity or germination certified seed standards.

(b) Washington OECD eligible lots may, with approval of both agencies involved, be blended with OECD eligible seed of other state agencies. The applicant is responsible for all fees of both agencies involved.

(2007 Ed.)

(c) Seed produced out-of-state and processed in Washington must be OECD tagged by the state of origin.

(7) OECD tagging and sealing. OECD tags shall be printed and issued according to OECD rules. The department seed program shall issue an OECD reference number; e.g. (USA-W-78-000), which is printed on each tag. The department recommends that OECD reference numbers be stenciled on each bag. Additional statements on the OECD tag such as, "date of sealing," etc. must be kept to a minimum.

(8) Bagging sample of OECD lot. A bagging sample of each lot of OECD seed tagged is drawn under supervision of the certifying agency. One hundred to two hundred fifty grams of the sample must be held for the originating country, and the balance of the sample is used for required post control grow-out tests.

(9) OECD certificate. The seed program shall issue an OECD certificate showing:

- (a) Species,
- (b) Variety,
- (c) Reference number,
- (d) Date of sealing,
- (e) Number of containers,
- (f) Weight of lot, class of seed, and
- (g) OECD reference number of seed stock used for each lot tagged and sealed upon receipt of tagging report and bagging sample.

One copy of the OECD certificate is to be mailed to the shipper, one copy is mailed to ARS-USDA, one copy is attached to bagging sample and one copy is for department seed program files.

(10) OECD grow-out tests. As prescribed by OECD rules, at least one of four domestic lots tagged and all lots of foreign varieties OECD tagged must be planted in grow-out tests.

(11) Special OECD fees. In addition to fees required by applicable Washington certification rules, an additional fee shall apply to all seed tagged OECD. Refer to chapter 16-303 WAC for the appropriate fee.

All fees are payable by the person requesting OECD certificate.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-215, filed 12/4/00, effective 1/4/01.]

PART 5 - SPECIFIC SEED CERTIFICATION STANDARDS

Alfalfa Seed Certification Standards

WAC 16-302-220 What are the standards for alfalfa seed certification. (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-225 through 16-302-240 constitute the standards for alfalfa seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-220, filed 12/4/00, effective 1/4/01.]

(2007 Ed.)

WAC 16-302-225 Land requirements for alfalfa seed certification. Land requirements for the production of alfalfa seed crop are as follows:

(1) Prior to stand establishment an alfalfa seed crop of the same kind must not have been grown or planted on the land for four years for the production of foundation or registered class or one year for the production of certified class; except two years must elapse between the destruction of dissimilar varieties, which are varieties that differ by more than four or more points on a dormancy rating scale as reported by the National Alfalfa Variety Review board.

(2) Reseeding of an alfalfa seed field due to failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(3) Ditchbanks, roadways, etc. adjacent to a certified alfalfa seed field must be free of volunteer alfalfa and prohibited noxious weeds.

(4) Volunteer alfalfa plants in the alfalfa seed field may be cause for rejection or reclassification of a seed field.

(5) No manure or other contaminating materials may be applied during the establishment and production period of the alfalfa seed stand.

[Statutory Authority: RCW 15.49.310 and chapter 34.05 RCW. 06-15-138, § 16-302-225, filed 7/19/06, effective 8/19/06. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-225, filed 12/4/00, effective 1/4/01.]

WAC 16-302-230 Isolation requirements for alfalfa seed certification. Isolation requirements for the production of alfalfa seed crop are as follows:

(1) Alfalfa seed crop for certification must be isolated from all other alfalfa varieties or fields of the same variety not meeting varietal purity requirements for certification as follows:

	Fields less than five acres	Fields five acres or more
Foundation	900 feet	600 feet
Registered	450 feet	300 feet
Certified	165 feet	165 feet

(2) Isolation between different classes (generations) of the same variety of alfalfa seed crop must be as follows:

Class Being Produced	Distance required from fields planted with:	Fields less than five acres	Fields five acres or more
Foundation	Foundation or Registered	225 feet	150 feet
Registered	Registered or Certified	115 feet	75 feet
Certified	Certified	75 feet	45 feet

(3) In cases where an adjoining field is planted with a different variety of alfalfa, or alfalfa of a lower class, isolation may be obtained by measuring off the required strip in the certified seed crop field. This isolation strip may be mowed for hay or it may be harvested for uncertified seed under the following conditions:

(a) The grower must apply for certification of the entire alfalfa seed field and clearly stake off the isolation strip. The entire field must pass all certification requirements, except for isolation at time of inspection. The field report will show rejection due to lack of isolation.

(b) The grower must harvest and deliver to a department approved conditioning plant the seed from the certified portion of the field separately from the seed from isolation strip. After the seed is weighed and lotted in, the weight of the seed

from the isolation strip is to be reported to the seed program. At this time the seed program records will indicate the field has passed certification.

(4) Isolation is not required in an alfalfa seed field producing certified class seed when the isolation zone is less than ten percent of the entire field being certified if there is a clear ten-foot line of demarcation between adjacent varieties. The isolation zone is the area calculated by the length of the common border with other varieties by average width of the certified field falling within the one hundred sixty-five-foot isolation distance requirement.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-230, filed 12/4/00, effective 1/4/01.]

WAC 16-302-235 Field tolerances for alfalfa seed certification. Field tolerances for the production of alfalfa seed are as follows:

	Foundation	Field Producing* Registered	Certified
Other varieties	0.1%	0.5%	1.0%
Sweet Clover	none found	5 plants/acre	10 plants/acre
Red Clover	none found	4 plants/acre	20 plants/acre

* Prohibited noxious weeds must be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-235, filed 12/4/00, effective 1/4/01.]

WAC 16-302-240 Seed standards for alfalfa seed certification. (1) Seed standards for the production of alfalfa seed are as follows:

Purity	Foundation	Registered	Blue Tag Certified
Pure seed (minimum)	99.00%	99.00%	99.00%
Other crops (maximum)	.10%	.10%	.25%
Sweet clover (maximum)	none found	none found	90 per lb.
Inert matter (maximum)	1.00%	1.00%	1.00%
Weed seed (maximum)	.10%	.20%	.25%
Objectionable weed seeds (maximum)	none found	none found	18 per lb.
Germination (Min. total of germination and hard seed) or <i>Tetrazolium</i> (Min. total of Tetrazolium and hard seed)	80.00%	85.00%	85.00%
	82.00%	87.00%	87.00%

(2) Alfalfa seed must be free of prohibited noxious weed seeds and foundation class must be free of *Brassica* spp.

(3) One pound of seed will be examined for the presence of dodder.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-240, filed 12/4/00, effective 1/4/01.]

Bean Seed Certification Standards

WAC 16-302-245 What are the standards for bean seed certification. (1) The general seed certification standards and definitions in this chapter are basic and together with WAC 16-302-250 through 16-302-270 constitute the standards for bean seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Title 16 WAC—p. 378]

(3) Prior to the planting of bean seed stock, the seed must be in compliance with the quarantine requirements found in chapter 16-301 WAC in order to be eligible for certification. Any seedling application submitted without proof of quarantine compliance will not be accepted into the certification program. Any seed field planted in violation of chapter 16-301 WAC will be subject to the procedures in WAC 16-301-435, 16-301-440, and 16-301-485.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-245, filed 12/4/00, effective 1/4/01.]

WAC 16-302-250 Definitions. For the purposes of WAC 16-302-245 through 16-302-270, the following definitions shall apply in addition to the definitions found in chapter 16-301 WAC:

"Adzuki bean" means *Vigna angularis*.

"Dominant I-gene cultivar" means a cultivar that has resistance to all known strains of bean common mosaic virus (B.C.M.V.) due to the presence of the dominant I-gene. Dominant I-gene cultivars will not show mosaic mottle symptoms or transmit the virus through seed when inoculated with any strain of B.C.M.V.

"Diseases" means those viral, fungal, and bacterial diseases of beans enumerated in WAC 16-301-380 and any new variations or strains of these identified in the future.

"Recessive I-gene cultivar" means a cultivar that may be susceptible to some strains of bean common mosaic virus and may show mosaic mottle symptoms.

"Seed-borne viral diseases" includes bean common mosaic virus, adzuki common mosaic virus, and other similar viral diseases causing mosaic mottle and other symptoms similar to those of bean common mosaic virus.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-250, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-250, filed 12/4/00, effective 1/4/01.]

WAC 16-302-255 Land requirements for bean seed certification. Land requirements for the production of bean seed are as follows:

(1) A field to be eligible for the production of certified class must not have been planted to beans of a different variety the preceding one year.

A field to be eligible for the production of foundation or registered classes must not have been planted to beans for the previous three years unless those beans were of the same variety of equal or higher class. The fields must be free of bacterial diseases during the previous two years of planting.

(2) A bean field is not eligible for production of certified seed for more than two consecutive years.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-255, filed 8/29/03, effective 9/29/03. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-255, filed 12/4/00, effective 1/4/01.]

WAC 16-302-260 Field tolerances and requirements for bean seed certification. (1) Field tolerances and requirements for the production of a bean seed crop are as follows:

(2007 Ed.)

	Foundation	Field Producing Registered	Certified
Other varieties or off-type plants	none found	0.1%	0.2%
Other crops*	none found	0.1%	0.1%
Total seed-borne diseases**	none found	none found	none found

* Except as noted in subsection (6) of this section.

** Except as noted in subsection (7) of this section.

(2) Snap and kidney beans must be isolated by 1320 feet from known bacterial blight.

(3) The following requirements apply to bean seed certification:

(a) Pintos, red mexicans, pinks, great northern, small whites, navy beans, and black turtle beans may be grown for an unlimited number of generations under rill or sprinkler irrigation.

(b) Kidney beans, cranberry types, Taylor horticultural types, and Borlotto types may be grown for an unlimited number of generations under rill irrigation or for one generation under sprinkler irrigation. The fourth and unlimited subsequent generations may be grown and inspected with the same alternation of irrigation types.

(4) Bean fields must be rogued of weeds, off-type plants, volunteer plants, and plants showing symptoms of seed-borne diseases. Excessive nightshade shall be a cause for rejection.

(5) For a bean field to be eligible for certification it must be clean and have boundaries that are clearly defined and a minimum of 36" which is adequate to prevent mechanical contamination.

(6) Excessive weeds, poor stands, lack of vigor, or any other condition which is apt to make inspection inaccurate may be cause for rejection of a bean field.

(7) Bean fields, including those planted with a dominant I-gene cultivar, are allowed the following levels of bean seed-borne virus diseases in the field: For foundation class, none found; for registered class 0.5%, and for certified class 1.0%.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-260, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-260, filed 12/4/00, effective 1/4/01.]

WAC 16-302-265 Seed field inspection requirements for bean seed certification. Seed field inspection requirements for the production of bean seed are as follows:

(1) When factors affecting certification are most evident. The second inspection, when required, shall be a windrow inspection.

(2) A serology or a grow out test to verify presence of seed-borne diseases in beans may be required if the applicant, or the certifying agency deems it necessary as allowed under WAC 16-301-480(1).

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-265, filed 12/4/00, effective 1/4/01.]

WAC 16-302-270 Seed standards for bean seed certification. Seed standards for the production of bean seed are as follows:

(1)

(2007 Ed.)

Purity	Foundation	Registered	Certified
Pure seed (Min.)	98%	98%	98%
Other crops & varieties (Max.)	none found	none found	2/100 lbs.
Badly damaged seed (Max.)		2%	2%
Inert matter (Max.)		2%	2%
Splits (Max.)		2%	2%
Weed seed (Max.)		none found	none found
Germination (Min.)		85%	85%

(2) Total inert matter, splits, and badly damaged bean seed shall not exceed 2% except for foundation class.

(3) Laboratory test reports state the percent of discolored beans for information only.

(4) Rough handling of bean seed in the combine or cleaning plant reduces germination materially. Precautions must be taken against such treatment and the seed safeguarded against high drops.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-270, filed 12/4/00, effective 1/4/01.]

Corn Seed Certification Standards

WAC 16-302-275 What are the standards for corn seed certification. (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-280 through 16-302-315 constitute the standards for corn seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-275, filed 12/4/00, effective 1/4/01.]

WAC 16-302-280 Eligibility for corn seed certification. Eligibility for corn seed certification is as follows:

(1) Foundation corn inbred lines:

(a) For the purposes of corn seed certification, the propagation of male sterile inbred lines is subject to the same requirements and rules as apply to foundation single crosses in subsection (2) of this section.

(b) An inbred line must be a relatively true breeding strain of corn resulting from at least five successive generations of controlled self-fertilization; or at least five generations of back-crossing to a recurrent parent with selection; or its equivalent.

(c) Inbred lines increased by hand pollination are eligible for corn seed certification.

(d) An inbred used as a pollinator in a foundation single cross production corn field may be certified if all the seed parents in the isolated corn field are inspected for certification and meet all field requirements for certification.

(e) Addition of specific genetic factors to a line of corn.

(i) When a specific genetic factor(s) is added to an inbred line, the line must be backcrossed to its recurrent parent at least five generations. The line shall be homozygous for the specific genetic factor(s) except for the pollen restoration factor(s), and the genic male sterile maintainer line.

(ii) For a recovered pollen restorer inbred line, selection must be relative to a specific cytoplasmic male sterile source.

(iii) The originator must supply proof of the genetic nature of a recovered line.

(iv) A genic male sterile maintainer line, consisting of duplicate-deficient and male-steriles in an approximate one to one ratio must be no more than two generations removed from breeder's seed. The maintainer must be designated according to generation as:

(A) Breeder seed: The hand pollinated selfed seed from a known duplicate-deficient plant heterozygous at a particular male sterile locus.

(B) Foundation I seed: The product of random-mating among fertile plants arising from breeder seed.

(C) Foundation II seed: The product of random-mating among fertile plants arising from foundation I seed.

(v) A genic male sterile line must be a strain homozygous for a particular male sterile recessive allele.

(vi) The genic male sterile lines shall be identified as to the recessive genes they carry, e.g., B37 ms-1, N26 ms-10. The maintainer lines must be identified not only for the male sterile gene for which it is heterozygous, but also for the specific translocation from which it was derived, e.g., B37 Mt-1 ms-1, N28 Mt-1 ms-10.

(2) Foundation corn single crosses:

(a) Foundation single cross. A foundation single cross must consist of the first generation of a cross between: Two inbred lines; an inbred line and a foundation back cross; or two foundation back crosses.

(b) Foundation back-crosses:

(i) A first generation foundation back cross must be the first generation cross between a foundation single cross of related inbred lines and an inbred line which must be the same as one of the inbreds in the foundation single cross.

(ii) A second generation foundation back cross must be made by using a first generation back cross as the seed parent and the pollinating parent shall be an inbred line. The inbred line must be the same as the inbred parent used in making the first generation back cross seed parent.

(c) A male sterile line may be substituted for its fertile counterpart as one parent of a foundation single cross if the male sterile line has been backcrossed for not less than five generations to its fertile counterpart, or the male sterile line is the same in other characteristics as its fertile counterpart.

(d) Male sterile lines propagated by hand pollination will be eligible for certification.

(e) A pollen restoring line may be substituted for its non-restoring counterpart in a foundation single cross if the pollen restoring line is the same in other characteristics as its nonrestoring counterpart.

(3) Hybrid corn seed:

(a) Hybrid corn seed is seed to be planted for the production of feed or for use other than seed. It may be any one of the following:

(i) Double cross - the first generation cross between two foundation single crosses.

(ii) Three-way cross - the first generation cross between a foundation single cross as one parent and an inbred line or a foundation back cross as the other parent.

(iii) Single cross must consist of the first generation of a cross between: Two inbred lines; an inbred line and a foundation back cross; or of two foundation back crosses.

(b) Foundation single cross seed and foundation back cross seed planted for the production of double cross, single

cross, or three-way cross hybrid corn seed must be completely certified by a recognized seed certifying agency.

(c) Inbred line seed planted for the production of single cross or three-way cross hybrid corn seed to be used for grain or forage production must meet the requirements for the definition of an inbred line (as provided for in subsection (1)(b) of this section) and be certified.

(d) Only the class "certified" is recognized.

(4) Inbred seed and the seed of each parent for single crosses must meet one of the following requirements:

(a) Be in the hands of the originator;

(b) Be a line obtained directly from the originator;

(c) Be a line obtained from a state agricultural experiment station;

(d) Be a line obtained from the United States Department of Agriculture; or

(e) Be certified. Evidence of eligibility must be a certification tag taken from the seed planted.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-280, filed 12/4/00, effective 1/4/01.]

WAC 16-302-285 Field inspection for corn seed certification. A representative of the certifying agency makes a minimum of three field inspections during the pollinating period for certification of corn seed. When the previous crop was corn, at least one additional inspection is made to verify that the field is sufficiently free of volunteer plants from the previous crop. Field inspections may be made without giving prior notice to the grower.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-285, filed 12/4/00, effective 1/4/01.]

WAC 16-302-290 Field standards for corn seed certification. Except for hybrid corn field standards for corn seed certification are:

(1) Corn seed isolation requirements are:

(a) An inbred must be so located that it is not less than 660 feet from other corn except when the inbred is grown as a pollinator in a single cross production field. Any ear parent(s) in the same isolated field must be entered for certification, inspected, and meet all field requirements for certification.

(b) A specific foundation single cross must be located so the seed parent is not less than six hundred and sixty feet from other corn for pollinator rows and other seed parent(s) in the same isolated field. All seed parent(s) in the same isolated field must be applied for certification, inspected, and meet all field requirements for certification.

(c) Differential maturity dates are permitted for modifying isolation distances for inbred lines or male sterile inbred line increases if there are no receptive silks in the ear or seed parent at the same time pollen is being shed in the contaminating field.

(d) Foundation inbred or single cross production fields of dent sterile popcorn need not be isolated from yellow dent field corn.

(e) Corrections for improper isolation must be made by one of the following methods:

(i) By completely destroying or by detasseling the necessary contaminating corn before silks appear in the ear or seed parent in the field to be certified; or

(ii) By completely destroying the plants which are improperly isolated from the contaminating corn before the final field inspection.

(2) For corn single crosses, nine feet is the maximum distance a seed parent row must be from a pollen parent row.

(3) For corn single crosses, the minimum population of pollen shedding plants per acre is two thousand. Ineffective pollen parent plants must not be counted.

(4) Corn single cross fields being inspected for certification must contain not less than four hundred pollen plants per acre that are actively shedding pollen when more than twenty-five percent of the seed parent silks are apparently receptive.

(5) Corn single cross detasseling or pollen control. More than five percent of the seed parent must have apparently receptive silks for the following provisions to apply. Apparently receptive silks are emerged silks which are not wilted or brown.

(a) An isolation of a specific foundation single cross is not accepted for certification if at one inspection more than one-half percent of the stalks of the seed parent have shed pollen, or if the total number having shed pollen on any three days of inspection exceeds one percent.

(b) Cytoplasmic male sterile seed parent plants; detasseling (cutting or pulling) to control plant pollen is permitted.

(6) Corn field roguing:

(a) Definitely off-type plants must be destroyed completely so that suckers do not develop. Plants showing definite hybrid vigor or a definitely different type from the inbred or parent being inspected are classified as definitely off-type.

(b) For inbred lines, an isolation in which more than one-tenth of one percent (one per one thousand) of definitely off-type plants have shed pollen, when at the same time more than five percent of the plants have apparently receptive silks, is not certified.

(c) For single crosses, an isolation in which more than one-tenth of one percent of definitely off-type plants are present in the seed parent, when the silks have turned brown, is not eligible for certification.

(d) Sucker tassels and portions of tassels of off-type plants is counted as shedding pollen when two inches or more of the central stem, the side branches, or a combination of the two has the anthers extended from the glumes.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-290, filed 12/4/00, effective 1/4/01.]

WAC 16-302-295 Field standards for hybrid corn seed certification. Field standards for hybrid corn seed certification are:

(1) Hybrid corn seed isolation:

(a) A specific hybrid must be located so that the seed parent is not less than six hundred and sixty feet from corn of a different color or texture with the following exceptions:

(i) Hybrid seed production fields of dent sterile popcorn need not be isolated from yellow dent field corn; or

(ii) When the contaminating corn is of a different color or texture aggregating less than one-fourth acre on one expo-

sure, the isolation distance may be modified in accordance with the table listed in this section.

(2) A specific hybrid corn must be located so that the seed parent is not less than four hundred and fifteen feet from other corn of the same color or texture. The planting of pollen parent border rows and the size of the crossing field according to the following table may modify this distance.

Field Size* = 1-20 Acres		Field Size* = 21 Acres or more	
Distance from other corn in feet	Minimum border rows required	Distance from other corn in feet	Minimum border rows required
415	0	415	0
395	1	375	1
375	2	330	2
355	3	290	3
330	4	250	4
310	5	210	5
290	6	165	6
270	7	125	7
250	8	85	8
230	9	45	9
210	10	less than 45	10
185	11		
165	12		
145	13		
125	14		
105	15		
85	16		

* Different dates of planting will not divide a field for isolation purposes but may divide the field for detasseling inspection.

(a) The border rows and pollen parent rows must be planted with certified first generation seedstock, must be shedding pollen simultaneously with silk emergence of the seed parent and must not be separated from the seed parent by more than thirty-three feet.

(b) A field planted with the same eligible pollen parent may be used as an isolation buffer if it is applied for certification, inspected and meets field requirements for certification.

(c) Full credit is not given where poor stands of border corn exist, where the border rows have been detasseled, or where, for any reason, the border rows are not shedding pollen as plentifully as the pollen parent rows. Because of the difficulty of obtaining and maintaining a good stand of corn, the planting of more than the minimum number of border rows is recommended.

(d) The maximum distance a seed parent row shall be from a pollen parent row is fifteen feet.

(3) Corrections for improper isolation of hybrid corn must be made by one of the following methods:

(a) By completely destroying or by detasseling the necessary contaminating corn before silks appear in the seed parent in the field to be certified; or

(b) By completely destroying the seed producing plants that are improperly isolated from contaminating corn before the final field inspection.

(4) Hybrid corn detasseling or pollen control. More than five percent of the stalks of the seed parent must have apparently receptive silks for the following provisions to apply. Apparently receptive silks are emerged silks which are not wilted or brown.

(a) An isolation is not accepted for certification if upon inspection by the certifying agency more than one percent of the stalks of the seed parent have shed pollen, or if the total

number having shed pollen on any three days of inspection exceeds two percent.

(b) When more than one combination of hybrid corn is grown in the same isolation and the seed parent of one or more is shedding pollen in excess of one percent, all seed parents having five percent or more apparently receptive silks at the time is disqualified for certification unless adequately isolated from the shedding seed parent.

(c) Sucker tassels and portion of tassels are counted as shedding pollen when two inches or more of the central stem, the side branches, or a combination of the two have the anthers extended from the glumes.

(5) A male sterile seed parent may be used to produce certified hybrid corn seed by either of two methods:

(a) Seed of the normal fertile seed parent is mixed with the seed of the male sterile seed parent of the same pedigree either by blending in the field at harvest or by size at conditioning time. The ratio of male sterile seed parent seed to normal seed parent seed does not exceed two to one.

(b) The male parent involves a certified pollen restoring line or lines so that not less than one-third of the plants grown from the hybrid corn seed produce pollen that appears to be normal in quantity and viability.

(6) Hybrid corn roguing:

(a) Definitely off-type plants in a parent line planted for the production of single cross or three-way cross hybrid corn seed to be used for grain or forage production must be completely destroyed so that suckers do not develop.

(b) Plants showing definite hybrid vigor or a definitely different type from the parent being inspected must be classified as definitely off-type.

(c) An isolation in which more than two-tenths of one percent of definitely off-type plants in the parent or parents have shed pollen, at a time when more than five percent of the seed parent plants have apparently receptive silks, is disqualified for certification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-295, filed 12/4/00, effective 1/4/01.]

WAC 16-302-300 Seed inspection for foundation corn single crosses and inbred lines certification. The following applies for certification of corn single crosses and inbred lines: When excessive off-type or different textured kernels are observed at the time of ear inspection by the certifying agency and the off-type kernels are detectable in the shelled seed, the seed certification applicant may have the option of shelling the ears to attempt to remove the kernels by mechanical or other means. The sampled seed after conditioning must not contain in excess of three-tenths of one percent of the off-type kernels.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-300, filed 12/4/00, effective 1/4/01.]

WAC 16-302-310 Seed inspection and standards for hybrid corn seed certification. Seed inspection and standards for hybrid corn seed certification are as follows:

	Genetic Factor	Standard Certified Class
(1)	Other varieties and off-types (maximum)	0.5%
	Off-textured kernels in opaque 2, flowery 2 and waxy (maximum)	1.0%
(2)	Quality Factors	Standards
	Pure seed (minimum)	98.0%
	Total other crops - including other varieties (maximum)	0.5%
	Total weed seed (maximum)	None found
	Total inert matter (maximum)	2.0%
	Germination (minimum)	90.0%
	Moisture (maximum)	14.0%

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-310, filed 12/4/00, effective 1/4/01.]

WAC 16-302-315 Ear inspection and winter growouts for certification of foundation corn single crosses and inbred lines. Ear inspection and winter growouts for certification of foundation corn single crosses and inbred lines are:

(1) Foundation single crosses and inbred lines is either inspected in the ear or included in a winter growout.

(2) Foundation corn single crosses and inbred lines for ear inspection are inspected by the certifying agency after the applicant for seed certification indicates the seed is sorted and ready for inspection.

(3) A corn seed lot must not contain in excess of one-tenth of one percent of definitely off-type ears, or more than five-tenths of one percent of ears with off-colored or different textured kernels which would not exceed a total of twenty-five off-colored seeds, or different textured kernels per one thousand ears.

(4) Winter growouts for foundation corn single crosses and inbred lines:

(a) When differential maturity dates or detasseling within the required isolation distance are permitted for modifying isolation distances for corn foundation male sterile inbred line increases or foundation inbred lines, winter growouts are required in addition to other standards.

(b) The applicant may choose to have a winter growout in lieu of ear inspection.

(c) Seed shelled before ear inspection must be included in a winter growout.

(d) Standards for winter growouts are:

(i) Percentage of off-types allowed must not exceed one percent.

(ii) Growouts are made on one round and/or flat separation, or on individual grade sizes.

(iii) The inspection fee for winter growouts are charged to the applicant for seed certification at actual cost.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-315, filed 12/4/00, effective 1/4/01.]

Grass Seed Certification Standards

WAC 16-302-320 What are the standards for grass seed certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-325 through 16-302-360 constitute the standards for grass seed certification.

(2) Each lot of seed stock subject to the annual bluegrass and rough bluegrass quarantine as established in chapter 16-301 WAC must be in compliance with the quarantine requirements prior to planting in order to be eligible for certification. Any seedling application submitted without proof of quarantine compliance will not be accepted into the certification program. Any seed field planted in violation of chapter 16-301 WAC will be subject to the violation procedures under WAC 16-301-295 and 16-301-355.

(3) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-320, filed 12/4/00, effective 1/4/01.]

WAC 16-302-325 Land requirements for grass seed certification. (1) Land requirements for production of grass seed are as follows:

(a) A grass field planted with breeder seed for the production of foundation seed must not have been seeded to the same species, subspecies, variety, or strain of grass during the preceding five years of planting. The field must be planted in spaced rows. The five-year eligibility may be waived to three years with the use of fumigants and other short-term soil sterilization chemicals with prior approval of the certifying agency.

(b) A grass field planted with foundation seed for the production of registered seed must not have been seeded to the same species, subspecies, variety, or strain of grass during the preceding three years.

(c) A grass field planted with foundation, registered, or certified seed for the production of certified seed must not have been seeded to the same species, subspecies, variety or strain of grass during the preceding year from planting unless the previous planting was of the same variety and eligible to produce foundation, registered or certified seed.

(d) Reseeding of a grass field because of failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(e) Grasses of the same kind growing in fencerows and other areas adjacent to the field must be controlled to prevent blooming.

(f) Prohibited noxious weeds in the field, or on ditch-banks, roadways, etc., adjacent to a certified field shall be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-325, filed 12/4/00, effective 1/4/01.]

WAC 16-302-330 Field isolation requirements for grass seed certification. (1) The field isolation requirements for grass seed are as follows:

(a) A seed field eligible for the production of foundation, registered or certified seed must be isolated from any other

(2007 Ed.)

variety or strain of the same species in accordance with the requirements in the following table:

Symbol for Type of Reproduction	Minimum Isolation Distance Required for Fields Producing:		
	Foundation	Registered	Certified
Strains at least 80%			
Apomictic A	60 feet	30 feet	15 feet clean fallow
Highly Self-Fertile Species—S	60 feet	30 feet	15 feet clean fallow
All cross-pollinated Species—C	900 feet	300 feet	165 feet

(b) A seed field that is eligible for the production of foundation or registered seed must be isolated from different classes of the same variety of cross-pollinated (C) species in accordance with the requirements in the following table:

Class Seed Planted	Class Seed Produced	Distance Required From Nearest Field Producing:	
Breeder	Foundation	Registered	150 feet
Breeder	Foundation	Certified	225 feet
Foundation	Registered	Certified	75 feet

(c) Isolation is not required in fields producing certified class seed when the isolation zone is less than ten percent of the entire field being certified if there is a clear (ten feet) line of demarcation between adjacent varieties. The isolation zone is the area calculated by the length of the common border with other varieties by average width of the certified field falling within the one hundred sixty-five feet isolation distance requirement.

(d) A field eligible for the production of foundation, registered or certified seed must be isolated from classes of the same variety of apomictic (A) and self-fertile (S) species in accordance with the following requirements:

(i) A field producing foundation or registered seed must be a minimum of fifteen feet from a field planted with a different class of the same variety.

(ii) A field producing certified seed must be a minimum of five feet from a field planted with a different class of the same variety.

(e) If it is not possible to provide minimum isolation distances for fields producing foundation, registered or certified seed exceeding five acres in area, border removal is permitted. Border removal requires removal of the portion of the field being certified that is adjacent to a contamination source. The following requirements apply if the grower uses border removal:

(i) The minimum distances required for border removal are as follows:

Minimum Isolation Distance Required for Fields Producing:			
Border to be removed from the field being certified	Foundation	Registered	Certified
0 feet	900 ft.	300 ft.	165 ft.
15 feet	450 ft.	150 ft.	75 ft.

(ii) The grower must apply for seed certification of the entire field and clearly stake off the border removal portion before inspection of the field by the certifying agency.

(f) The border removal portion of the field may be harvested for uncertified seed under the following conditions:

[Title 16 WAC—p. 383]

(i) The entire field must pass all certification requirements except for isolation at time of inspection. The field report will show rejection due to lack of isolation.

(ii) The grower must harvest and deliver to a department approved conditioning plant the seed from the certified portion of the field separately from the seed from the isolation strip. After the seed is weighed and logged in, the weight of the seed from the isolation strip is to be reported to the seed program. At this time the seed program records will indicate the field has passed certification.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-330, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-330, filed 12/4/00, effective 1/4/01.]

WAC 16-302-335 Field inspection tolerances for grass seed certification. (1) Field tolerances for the production of foundation, registered or certified grass seed are as follows:

Maximum other varieties permitted in fields producing:

Foundation:	0%
Registered:	0.5%
Certified:	2%

(2) Prohibited noxious weeds must be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-335, filed 12/4/00, effective 1/4/01.]

WAC 16-302-385 Grass seed standards for certification. The seed standards for grass shall be as follows:

The following (a) - (o) are notes to the above table.

- (a) Not to exceed .25% other grass species for blue tag seed.
- (b) Grass seed must not contain more than 45/lb. for registered seed 91/lb. for certified seed, singly or collectively, of objectionable weed seeds. (See (f) of this subsection for certified bentgrass and redbud exemption.) Grass seed shall be free of the seed of prohibited noxious weeds.
- (c) A tolerance of 0.5% may be allowed for samples containing weedy bromus spp provided the total of all other weed seeds does not exceed 0.3%.
- (d) A standard tetrazolium (two hundred seed) test may be used in lieu of germination test. NOTE: State and federal seed laws require seed be labeled on a germination test.
- (e) A tolerance of 0.8% may be allowed in registered and certified wheatgrass containing small grain seed provided the total of all other crop seed does not exceed 0.1% for registered class and 0.5% for certified class.
- (f) Certified seed must not contain over 907 seeds per pound, singly or collectively, of the following weeds: Plantago spp., Big Mouse-ear Chickweed, Yarrow, Spotted Cat's Ear, and Dandelion.
- (g) A maximum of .50% weed seed may be allowed in certified bentgrass containing silver hairgrass provided the total of all other weed seed does not exceed .40%.
- (h) 1.50% other fine bentgrasses and .50% redbud may be allowed in certified bentgrass containing a minimum of 98.00% total bentgrass.
- (i) A crop exam is required for all registered and foundation class grass seeds.
- (j) Or 70% by Tz test.
- (k) Maximum other ryegrass allowed as determined by fluorescence test: Foundation 0.1%, registered 1%, certified 2% for annual and 3% for perennial containing a minimum of 97% total ryegrass. Acceptable fluorescence levels for specific varieties available upon request.
- (l) 85% minimum germination allowed on ryegrass varieties as designated by the breeder or variety owner. See list maintained by the seed program.
- (m) An ammonia test is required on hard, blue and sheep fescue to determine presence of other Fescue sp. Other fine-leaved fescue found in the ammonia test will be included with other crop not other grass species.
- (n) Total viability as allowed in WAC 16-302-170 can be substituted for germination percentage.
- (o) Turf type fescues 97% pure seed. Range/reclamation types 92% pure seed. Varietal designation of turf or range/reclamation types are to be made by the breeder or variety owner. If no designation is made, the variety will be considered a turf type.
- (p) 10% slender wheatgrass is allowed in the certified class of Crutana, provided that the total of all other grass spp. does not exceed .25% and total other crop, including all other grass spp. does not exceed .50%.

[Statutory Authority: RCW 15.49.310 and chapter 34.05 RCW. 06-15-139, § 16-302-385, filed 7/19/06, effective 8/19/06. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW. 04-08-044, § 16-302-385, filed 3/31/04, effective 5/1/04. Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-385, filed 8/29/03, effective 9/29/03; 02-12-060, § 16-302-385, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-385, filed 12/4/00, effective 1/4/01.]

WAC 16-302-390 Inspection and final grass seed certification fees—Options. Inspection and final grass seed certification fees are based on the following options:

(a) **Option A** - certification is based on pounds of seed sampled, and billed at completion of required laboratory tests, the fees are as listed in WAC 16-303-330 (5)(a):

(b) **Option B** - certification is based on dealers requesting sampling and tagging privileges. Seed dealers must sign a memorandum of agreement with the department that expires on June 30 of each year. The memorandum may be terminated by the director if the dealer violates certification standards or requirements of memorandum. Payment of fees is the responsibility of the conditioner under this program. Upon termination or nonrenewal of the memorandum of agreement, the dealer is responsible for Option A fees on all

(2007 Ed.)

certified seed not tagged at termination date. A dealer choosing this program must handle all certified grasses in his warehouse under this program for the entire crop year.

Fees are listed in WAC 16-303-330 (5)(b).

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-390, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-390, filed 12/4/00, effective 1/4/01.]

Sod Quality Certification

WAC 16-302-395 What are the standards for sod quality seed certification? (1) The general seed certification definitions and standards in this chapter and the grass seed certification standards are basic and together with WAC 16-302-400 through 16-302-410 constitute the standards for sod quality seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-395, filed 12/4/00, effective 1/4/01.]

WAC 16-302-400 Varieties eligible, certification fees, land and isolation requirements and field tolerances. The varieties eligible and certification scheme of each; the certification fees; the land requirements; the isolation requirements; and field tolerances shall be as listed in grass seed certification standards and fees.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-400, filed 12/4/00, effective 1/4/01.]

WAC 16-302-410 Standards for sod quality seed. (1) Except for ryegrass sod quality seed, seed standards for sod quality grass seed are as follows:

Variety	Minimum Purity	Minimum Germination	Maximum* Other Crop	Maximum** Weed
Kentucky Bluegrass	97%	80%	0.1%	.02%
Red Fescue	98%	90%	0.1%	.02%
Chewings Fescue	98%	90%	0.1%	.02%
Tall Fescue	98%	85%	0.1%	.02%

* Must be free of ryegrass, orchardgrass, timothy, Agrostis sp., black medic, Poa trivialis, brome, reed canarygrass, tall fescue, clover, and meadow foxtail. Maximum allowable Canada bluegrass .02%. When the base sample is one of these kinds, the species will not be considered a contaminant (i.e., tall fescue in tall fescue).

** Must be free of Big, Canby and Sandberg bluegrass, dock, chickweed, crabgrass, plantain, short-awn foxtail, annual bluegrass, velvetgrass, *Vulpia* sp., and noxious weed seeds as listed under WAC 16-302-100 and 16-302-105.

(2) Seed standards for sod quality ryegrass seed are as follows:

Variety	Minimum Purity	Germination****	Other Crop*	Maximum Weed***
Ryegrass**	98%	90%	0.10%	.02%

* Must be free of black medic, orchardgrass, timothy, Agrostis sp., Poa trivialis, brome, reed canarygrass, tall fescue, clover and meadow foxtail. Maximum allowable Canada bluegrass 0.02%.

** Maximum fluorescence levels as determined by breeder or variety owner.

*** Must be free of Big, Canby and Sandberg bluegrass, dock, chickweed, crabgrass, plantain, annual bluegrass, velvetgrass, *Vulpia* sp., short-awn foxtail, and noxious weed seeds as listed under WAC 16-302-100 and 16-302-105. An additional 0.07% of weedy *Bromus* spp. will be allowed.

**** 85% minimum germination allowed on ryegrass varieties as designated by the breeder or variety owner. See list maintained by the seed program.

(3) A sod seed analysis certificate is the basis of determining if a lot meets sod quality standards. This certificate is issued by the certifying agency and represents a purity analysis, a twenty-five gram noxious all weed all crop exam and a germination test, except a 50-gram noxious all weed all crop exam is required for fescues and ryegrass.

(4) In addition to a seed certification tag, seed meeting sod quality certified seed standards will be tagged with a special "sod quality seed" tag.

[Statutory Authority: RCW 15.49.310 and chapter 34.05 RCW. 06-15-137, § 16-302-410, filed 7/19/06, effective 8/19/06. Statutory Authority: Chapters 15.49 and 34.05 RCW. 03-18-072, § 16-302-410, filed 8/29/03, effective 9/29/03; 02-12-060, § 16-302-410, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-410, filed 12/4/00, effective 1/4/01.]

Sudangrass Certification Standards

WAC 16-302-415 What are the standards for sudangrass certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-420 through 16-302-435 constitute the standards for sudangrass seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-415, filed 12/4/00, effective 1/4/01.]

WAC 16-302-420 Land requirements for sudangrass seed certification. The land requirements for the production sudangrass are as follows:

(1) A field planted for all foundation, registered, and certified classes of sudangrass seed must not have grown or been seeded to sudangrass or sorghum during the preceding two years.

(2) Reseeding of a field, because of failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(3) Prohibited noxious weeds in the field and on ditch-banks, roadways, etc., adjacent to a certified field shall be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-420, filed 12/4/00, effective 1/4/01.]

WAC 16-302-425 Isolation requirements for sudangrass seed certification. Sudangrass for certification of the foundation, registered, and certified classes must be isolated from all other sudangrass not meeting the same varietal purity requirements for certification or from sorghum by a minimum of nine hundred ninety feet.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-425, filed 12/4/00, effective 1/4/01.]

WAC 16-302-430 Field tolerances for sudangrass certification. Maximum other varieties permitted in field inspection for certification shall be as follows:

- (a) Foundation seed field. . . 1 plant/50,000 plants
- (b) Registered seed field . . . 1 plant/35,000 plants
- (c) Certified seed field 1 plant/20,000 plants

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-430, filed 12/4/00, effective 1/4/01.]

WAC 16-302-435 Sudangrass lot standards for certification. Lot standards for certification of sudangrass are as follows:

Purity	Foundation	Class Registered	Certified
Pure seed (min.)	98.0%	98.0%	98.0%
Inert material (max.)	2.0%*	2.0%*	2.0%*
Other crop (max.)	0.01%	0.03%	0.08%
Weed seed (max.)	0.10%	0.10%	0.10%
Prohibited or restricted noxious weed seeds	none found	none found	none found
Germination (min.)	85.0%	85.0%	85.0%

* Inert matter must not contain more than 0.5% of material other than seed fragments of the variety under consideration.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-435, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-435, filed 12/4/00, effective 1/4/01.]

Flax Certification Standards

WAC 16-302-445 What are the standards for flax certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-450 through 16-302-455 constitute the standards for flax certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-445, filed 12/4/00, effective 1/4/01.]

WAC 16-302-450 Field standards for flax certification. Isolation must be an adequate distance to prevent mechanical mixture.

Maximum permitted-ratio of heads or plants.		
Foundation	Registered	Certified
1:5000	1:2000	1:1000

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-450, filed 12/4/00, effective 1/4/01.]

WAC 16-302-455 Seed standards for flax certification.

Standards for each class

Factor	Foundation	Registered	Certified
Pure seed (min.)		98%	97%
Inert matter (max.)		2%	3%
Weed seed (max.)*		.1%	.2%
Other crop seed (max.)		.1%	.2%
Germination (min.)		80%	80%

*Flax must be free of prohibited and objectionable noxious weed seed.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-455, filed 12/4/00, effective 1/4/01.]

Woody Plants and Forbes Certification Standards

WAC 16-302-460 What are the standards for woody plants and Forbes certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-465 through 16-302-470 constitute the standards for woody plants and Forbes certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-460, filed 12/4/00, effective 1/4/01.]

WAC 16-302-465 Land requirements and field standards for woody plants and Forbes. (1) The life of a stand shall be unlimited as long as seventy-five percent of the

plants present in the stand are those that were planted originally.

(2) To be eligible for the production of certified class of seed, a field must not have grown or been seeded to the same species during the previous four years for foundation, three years for registered, and two years for certified.

(3) A seed field inspection must be made the year of establishment and at least once each year that seed is to be harvested. This inspection will be made at a time when plant development allows for the detection of factors such as off-type varieties and weed contamination.

(4) Isolation for seed production the minimum distance from a different variety or wild hybridizing populations are as follows:

	Minimum of isolation-feet:	
	Fields of 2 acres or less	Fields of more than 2 acres
Foundation & registered	400	200
Certified	200	100

Volunteer plants may be cause for rejection or reclassification of a seed field.

(5) Specific field tolerances:

Factor	Maximum ratio of heads or plants		
	Foundation	Registered	Certified
Other varieties & off type	1/1000	1/500	1/250
Other kinds	1/2000	1/1000	1/500
(Inseparable other species)			
Prohibited noxious weeds	None found	None found	None found

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-465, filed 12/4/00, effective 1/4/01.]

WAC 16-302-470 Seed standards for woody plants and Forbes.

SEED STANDARDS

Crop	Germination (min.)		Pure seed (min.)		Inert (max.)		Weeds* (max.)		Other crop (max.)	
	F/R	C	F/R	C	F/R	C	F/R	C	F/R	C
Small burnet	80	80	95	95	5	5	.1	.2	.1	.25
Purple prairie clover	60**	60**	95	95	5	5	.20	.5	.1	.25

* Must be free prohibited and restricted noxious weed seed.

** Includes total germination and hard seed.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-470, filed 12/4/00, effective 1/4/01.]

Rapeseed Certification Standards

WAC 16-302-475 What are the standards for rapeseed certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-480 through 16-302-490 constitute the standards for rapeseed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-475, filed 12/4/00, effective 1/4/01.]

WAC 16-302-480 Field standards for rapeseed certification. Field standards for the production of rapeseed are as follows:

(2007 Ed.)

(1) A portion of a rapeseed field may be certified if the area to be certified is clearly defined.

(2) A field producing foundation, registered or certified rapeseed, also known as Canola (*Brassica napus*), must be the minimum specified isolation distance from fields of any other variety of *Brassica napus*, from fields of the same variety that do not meet the varietal purity requirements for certification, as well as from fields of *Brassica rapa*, *Brassica oleracea*, and *Brassica juncea* as indicated in the following table:

Class	Fields of Cross Pollinated Varieties Including Hybrids	Fields of Self Pollinated Varieties
Foundation	1 mile	660 feet
Registered	1 mile	660 feet
Certified	1 mile	330 feet
Different class of same variety	165 feet	165 feet

[Title 16 WAC—p. 387]

These isolation distances are minimum and must be met in all cases.

(3) Volunteer plants may be cause for rejection or reclassification of a rapeseed field.

(4) Specific standards for rapeseed are:

Factor	Maximum permitted in each class		
	Foundation	Registered	Certified
Other varieties*	None found ¹	None found ¹	1.00%
* Other varieties are considered to include <i>Brassica rapa</i> , <i>Brassica oleracea</i> , <i>Brassica juncea</i> , off-type plants of <i>Brassica napus</i> and plants that can be differentiated from the variety being inspected.			
¹ None found means none found during the normal inspection procedures. None found is not a guarantee that the field inspected is free of the factor.			

(5) Inspection will be made by the certifying agency when the crop is in the early flowering stage.

[Statutory Authority: RCW 15.49.310 and chapter 34.05 RCW. 06-15-136, § 16-302-480, filed 7/19/06, effective 8/19/06. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-480, filed 12/4/00, effective 1/4/01.]

WAC 16-302-485 Land requirements for rapeseed certification. (1) Land requirements prior to planting for the production of rapeseed are as follows:

Class Planted	Class Produced	Years Field Shall be Free of Rapeseed
Breeder	Foundation	5
Foundation	Registered	4
Breeder, Foundation, Registered	Certified	3

(2) For all classes no manure or other contaminating materials shall be applied during the establishment and production period of the rapeseed stand.

(3) Reseeding of a rapeseed field due to failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(4) Ditchbanks, roadways, etc., adjacent to a certified rapeseed field must be free of volunteer rapeseed and prohibited noxious weeds.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-485, filed 12/4/00, effective 1/4/01.]

WAC 16-302-490 Seed standards for rapeseed certification. Seed standards for the production of rapeseed are as follows:

Purity	Foundation	Registered	Certified
Pure seed (Min.)	99.00%	99.00%	99.00%
Other crop and/or varieties (Max.)	9/lb	9/lb	18/lb
Inert matter (Max.)	1.00%	1.00%	1.00%
Weed seed (Max.)	91/lb	91/lb	181/lb
Prohibited noxious weeds (1)	None found	None found	None found
Objectionable weeds (2)	(Max.) 5/lb	9/lb	18/lb
Chemical analysis (3)			
Germination (Min.)	85.00%	85.00%	85.00%

Note:

- (1) None found means none found during normal inspection procedures. None found is not a guarantee that the lot is free of noxious weed seeds.
- (2) Objectionable weed seeds are defined as restricted noxious listed in WAC 16-301-050 plus: *Brassica nigra*, *Sinapis arvensis*, *Brassica juncea*, and *Raphanus raphanistrum*.
- (3) Erucic acid content shall be less than 2% and glucosinolate content shall not be greater than thirty micromoles unless other tolerances are described by the plant breeder for each variety.
- (4) Erucic acid and glucosinolate analysis must be conducted on clean seed.
- (5) Erucic acid and glucosinolate analysis must be conducted at a WSDA approved laboratory.

[Statutory Authority: Chapters 15.49 and 34.05 RCW. 02-12-060, § 16-302-490, filed 5/30/02, effective 6/30/02. Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-490, filed 12/4/00, effective 1/4/01.]

Red Clover Seed Certification Standards

WAC 16-302-495 What are the standards for red clover seed certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-500 through 16-302-520 constitute the standards for red clover seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-495, filed 12/4/00, effective 1/4/01.]

WAC 16-302-500 Land requirements for red clover seed certification. Land requirements for the production of red clover seed are as follows:

(1) A field planted with red clover breeder seed for the production of foundation seed must have grown or been seeded to red clover during the preceding six years of planting, three years of which the land must be cultivated.

(2) A field to be planted with red clover foundation seed for the production of certified seed must not have grown or been seeded to red clover during the preceding two years. The time interval may be shortened to one year if one cultivated crop or clean fallow has intervened and the new planting is of the same variety and class.

(3) A stand of red clover is not eligible to produce certified seed after two seed crops. The two crops may be produced either in the same or in consecutive years.

(4) Reseeding of a red clover field because of failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(5) Ditchbanks, roadways, etc., adjacent to a certified red clover field must be free of volunteer red clover and prohibited noxious weeds.

(6) Volunteer plants in the red clover field may be cause for rejection or reclassification of the seed field.

(7) No manure or contaminating material may be applied one year preceding planting, or during the establishment and productive period of the red clover stand.

(8) A stand of red clover over three years old is not eligible for certification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-500, filed 12/4/00, effective 1/4/01.]

WAC 16-302-510 Isolation requirements for red clover seed certification. Isolation requirements for the production of red clover seed crop are as follows:

(1) Red clover for certification must be isolated from all other red clover varieties or fields of the same variety not meeting varietal purity requirements for certification as follows:

Class Being Produced	Fields less than five acres	Fields five acres or more
Foundation	900 feet	600 feet
Certified	165 feet	165 feet

(2) Isolation between different classes (generations) of the same red clover variety is as follows:

Class Being Produced	Distance Required from Fields Planted with:	Fields less than 5 acres	Fields 5 acres or more
	Foundation or Certified		
Foundation	225 feet	150 feet	
Certified	75 feet	45 feet	

(3) In cases where an adjoining field is planted with a different variety of red clover, or red clover of a lower class, isolation may be obtained by measuring off the required strip in the certified seed field. This isolation strip may be mowed for hay or it may be harvested for uncertified seed under the following conditions:

(a) The grower must apply for certification of the entire red clover field and clearly stake off the isolation strip. The entire field must pass all certification requirements, except for isolation at time of inspection. The field report will show rejection due to lack of isolation.

(b) The grower must harvest and deliver to a department approved conditioning plant the seed from the certified portion of the field separately from the seed from the isolation strip. After the seed is weighed and lotted in the weight of the seed from the isolation strip is to be reported to the seed program. At this time the seed program records will indicate the field has passed certification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-510, filed 12/4/00, effective 1/4/01.]

WAC 16-302-515 Field tolerances for red clover seed certification. Field tolerances for the production of red clover seed are as follows:

		Field Producing*	
		Foundation	Certified
Other varieties	(Max.)	0.00%	0.50%
Alfalfa	(Max.)	None found	0.50%
Sweet Clover	(Max.)	None found	20 plants/acre

* Prohibited noxious weeds must be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-515, filed 12/4/00, effective 1/4/01.]

WAC 16-302-520 Seed standards for red clover seed certification. Seed standards for the production of red clover seed are as follows:

(2007 Ed.)

(1)

Purity		Foundation	Certified
Pure seed	(Min.)	99.00%	99.00%
Other crops	(Max.)	18 per lb.	0.25%
Inert matter	(Max.)	1.00%	1.00%
Sweet clover	(Max.)	9 per lb.	90 per lb.
Weed seed	(Max.)	0.15%	0.25%
Objectionable weed seeds	(Max.)	none found	90 per lb.
<i>Germination</i> (minimum total germination and hard seeds)		85.00%	85.00%
or <i>Tetrazolium</i> (minimum total tetrazolium and hard seeds)		87.00%	87.00%

(2) Red clover seed must be free of prohibited noxious weed seeds and foundation class must be free of Brassica spp.

(3) One pound of seed will be examined for the presence of dodder.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-520, filed 12/4/00, effective 1/4/01.]

White Clover and Trefoil Seed Certification Standards

WAC 16-302-525 What are the standards for white clover and trefoil seed certification? (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-530 through 16-302-545 constitute the standards for white clover and trefoil seed certification.

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-525, filed 12/4/00, effective 1/4/01.]

WAC 16-302-530 Land requirements for white clover and trefoil seed certification. Land requirements for the production of white clover and trefoil seed are as follows:

(1) Breeder seed for the production of white clover or trefoil foundation seed must not be planted on land on which the same kind has been previously planted. During the year prior to white clover or trefoil seeding, the land must be in a cultivated crop or fallow and the land must be free from volunteer plants as determined by a field inspection during the season in which the seedling is established.

(2) Foundation seed for the production of registered or certified white clover or trefoil seed must be planted on land on which no other variety or strain of the same kind is grown or planted during the season in which the seedling is established.

(3) Foundation or registered trefoil seed for the production of certified seed shall be planted on land on which no other variety or strain of trefoil is grown or planted during the three years prior to planting.

(4) Reseeding of a white clover or trefoil seed field due to failure or partial failure of the first seeding may be done by referring to the guidelines in WAC 16-302-045(5).

(5) Certification of trefoil shall be limited to stands not exceeding five years of age, except for a variety grown outside its region of adaptation, in which case certification shall be limited to stands not exceeding three years of age.

[Title 16 WAC—p. 389]

(6) Foundation or certified producing white clover fields are eligible for certification for only two harvest years following the year of seeding if the seed production the first year is prevented. Foundation fields may be reclassified to the next lower class after being harvested for seed for two years.

(7) Ditchbanks, roadways, etc., adjacent to a certified white clover or trefoil field must be free of volunteer plants of the same kind and prohibited noxious weeds.

(8) Volunteer plants in the white clover or trefoil field may be cause for rejection or reclassification of the seed field.

(9) No manure or other contaminating materials may be applied during the establishment and production period of the white clover or trefoil stand.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-530, filed 12/4/00, effective 1/4/01.]

WAC 16-302-535 Isolation requirements for white clover and trefoil seed certification. Isolation requirements for the production of white clover and trefoil seed crop are as follows:

(1) White clover or trefoil fields for certification must be isolated from all other fields of the same variety not meeting varietal purity requirements for certification as follows:

Class Being Produced	Fields less than five acres	Fields five acres or more
Foundation	900 feet	600 feet
Registered	450 feet	300 feet
Certified	165 feet*	165 feet

* 330 feet required for trefoil.

(2) Isolation between different classes (generations) of the same variety of white clover or trefoil is as follows:

Class Being Produced	Distance Required from Fields Planted with:	Fields less than five acres	Fields five acres or more
Foundation	Foundation or Registered	225 feet	150 feet
Registered	Registered or Certified	115 feet	75 feet
Certified	Certified	75 feet	45 feet

(3) In cases where an adjoining field is planted with a different variety, or of a lower class, isolation may be obtained by measuring off the required strip in the certified seed field. This isolation strip may be mowed for hay or it may be harvested for uncertified seed under the following conditions:

(a) The grower must apply for certification of the entire white clover or trefoil field and clearly stake off the isolation strip. The entire field must pass all certification requirements, except for isolation, at time of inspection. The field report will show rejection due to lack of isolation.

(b) The grower must harvest and deliver to a department approved conditioning plant the seed from the certified portion of the field separately from the seed from the isolation strip. After the seed is weighed and lotted in the weight of the seed from the isolation strip is to be reported to the seed program. At this time the seed program records will indicate the field has passed certification.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-535, filed 12/4/00, effective 1/4/01.]

[Title 16 WAC—p. 390]

WAC 16-302-540 Field tolerances for white clover or trefoil seed certification. Field tolerances for the production of white clover or trefoil seed are as follows:

Factor	Maximum permitted: Ratio of Plant Field Producing*		
	Foundation	Registered	Certified
Other Variety	1:1000	1:400	1:100
Sweet Clover	1:1000	1:400	1:100
Other Inseparable Crops	1:1000	1:400	1:100

* Prohibited noxious weeds must be controlled to prevent seed formation.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-540, filed 12/4/00, effective 1/4/01.]

WAC 16-302-545 Seed standards for white clover and trefoil seed certification. Seed standards for the production of white clover and trefoil seed are as follows:

(1) PART I OF TABLE

		WHITE CLOVER		
		Found.	Reg.	Cert.
Pure Seed	(Min.)	98.0%	99.0%	99.0%
Other Crop	(Max.)	0.1%	0.2%	0.5%
Inert	(Max.)	2.0%	2.0%	1.0%
Weed Seed	(Max.)	0.2%	0.25%	0.3%
Sweet Clover	(Max.)		9/lb	90/lb
Objectionable Weed Seeds	(Max.)	none found	45/lb	90/lb
Germination (Germination + Hard Seed) or Tetrazolium (Minimum total tetrazolium and hard seeds)	(Min.)	85.0%	85.0%	85.0%
				87.0%

PART II OF TABLE

		TREFOIL		
		Found.	Reg.	Cert.
Pure Seed	(Min.)	98.0%	98.0%	99.0%
Other Crop	(Max.)	0.1%	0.25%	0.3%
Inert	(Max.)	2.0%	1.0%	1.0%
Weed Seed	(Max.)	0.1%	0.25%	0.3%
Sweet Clover	(Max.)	None found	9/lb	90/lb
Objectionable Weed Seeds	(Max.)	None found	45/lb	90/lb
Germination (Germination + Hard Seed) or Tetrazolium (Minimum total tetrazolium and hard seeds)	(Min.)	85.0%	85.0%	85.0%
				87.0%

(2) White clover and trefoil seed must be free of prohibited noxious weed seeds and foundation class must be free of Brassica spp.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-545, filed 12/4/00, effective 1/4/01.]

SEED CROPS CERTIFIED BY WSCIA

Buckwheat, Chickpea, Field Pea, Lentil, Millet, Soybean, Sorghum and Small Grains Seed Certification

WAC 16-302-550 Standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum and small grains seed certification. (1) The general seed certification definitions and standards in this chapter are basic and together with WAC 16-302-555 through 16-302-700 constitute the standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum and small grains seed certification.

(2007 Ed.)

(2) Fees for seed certification are assessed by the certifying agency as established in chapter 16-303 WAC.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-550, filed 12/4/00, effective 1/4/01.]

WAC 16-302-555 Labeling and sealing of certified seed of small grains by a grower. The certifying agency may authorize a grower who has his own equipment and conditions his own seed to label and seal certified seed of small grains.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-555, filed 12/4/00, effective 1/4/01.]

WAC 16-302-560 Miscellaneous field and seed inspection standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum, small grain seed certification. (1) Field inspection standards for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum, small grain seed entered in the certification program are:

(a) For field pea and chickpea (garbanzo bean) - when seed crop is in full bloom and at maturity;

(b) For lentil - when seed crop is in full bloom and at maturity;

(c) For soybean - when seed crop is in full bloom and/or of mature color;

(d) For open pollinated sorghum - when seed crop is in full bloom, and optionally again when seed crop begins to show mature color;

(e) For hybrid sorghum - two inspections during bloom and one inspection after seed begins to show mature color;

(f) For small grains - when seed crop is fully headed and of mature color;

(g) For millet - one inspection during bloom and one inspection after seed begins to show mature color; and

(h) For buckwheat - one inspection when seed crop is in full bloom.

(2) Any condition or practice which permits or causes contamination of the seed crop, such as failure to prevent seed formation in bindweeds, Canada thistle or jointed goatgrass, or excess weeds, or mechanical field mixing, is cause for rejection upon inspection except for formation of bindweed or Canada thistle in fields of chickpea, lentil, and field pea seed. Fields rejected for jointed goatgrass at first inspection are not eligible for reinspection and must remain ineligible for any production of certified classes of small grain seed until a reclamation procedure, as specified in subsection (3) of this section has been completed. Fields rejected for other causes will remain eligible for reinspection.

(3) The jointed goatgrass reclamation procedure includes the following:

(a) Each grower must develop a reclamation plan for his/her affected fields. The plan must be based on the most current recommendations of Pacific Northwest scientists and Washington State University cooperative extension as well as good management practices. The plan may include use of certified seed, spring cropping practices, and late tilling and planting. No particular program is specified or endorsed and compliance with a program does not assure eligibility for the production of certified classes of small grain seed. Eligibility

(2007 Ed.)

is based solely upon results of field inspections as provided in (b) through (e) of this subsection.

(b) The rehabilitation and inspection program duration is three years for irrigated land and five years for dryland without production of certified small grain seed and the first year of certified seed production thereafter.

(c) Annual inspections of the affected fields are conducted by the certifying agency during the prescribed rehabilitation period at such time that the jointed goatgrass would be most visible.

(d) Following the prescribed period of rehabilitation and during the first certified seed production year, a minimum of three field inspections are conducted by the certifying agency.

(e) If jointed goatgrass is found during any inspection as provided in (c) and (d) of this subsection, the rehabilitation program is determined unsuccessful or the field is declared ineligible and the rehabilitation and inspection program for that field must begin again at year one of the procedure.

(4) Field run lots of seed of the same variety may be commingled to facilitate storage and conditioning.

(5) No prohibited noxious weed seeds are permitted upon inspection for seed standards.

(6) Germination minimum refers to germination when sampled.

(7) If chemically controllable seed-borne diseases are noted upon inspection for field standards and seed standards for small grains, treatment of seed is required.

(8) Wild oat, isolated patches and borders must be removed or clearly marked so as to avoid harvesting with the rest of the field. If rejected, a reinspection is necessary to assure clean-up efforts are satisfactory. Spot checks are conducted on fields where heavy patches or contaminated borders were noted. Harvesting these areas with the rest of the field is cause for rejection of the entire field.

(9) The official laboratory providing seed analysis for the purpose of certification is the department.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 00-24-077, § 16-302-560, filed 12/4/00, effective 1/4/01.]

WAC 16-302-660 Field pea standards for seed certification. (1) The land, isolation, and field standards for field pea seed certification are:

CLASS	LAND MINIMUM YEARS	ISOLATION MINIMUM FEET	OFF-TYPE MAXIMUM PLANTS/ACRE	FIELD OTHER CROP MAXIMUM PLANTS/ACRE
Foundation	5*	100**	None found	None found***
Registered	3*	100**	10	None found***
Certified	2*	25**	20	None found***

* Spring peas also require 10 years land history with no production of Austrian pea for all classes.

** Reduce to three feet from fields producing a certified class of the same variety. In addition, each field pea field for certification must be isolated by three feet from small grain fields. To prevent mechanical field mixing of swathed field pea seed crop, the planting of small grain between field pea fields, except for the three feet of isolation, is recommended.

*** For spring peas, no Austrian pea or rye is permitted. For Austrian peas, no rye is permitted.

(2) Seed certification standards for field pea are:

CLASS	OFF-TYPE MAXIMUM %	PURE SEED MINIMUM %	INERT MAXIMUM %	OTHER CROP MAXIMUM %	WEED MAXIMUM %	GERMINATION MINIMUM %

WAC 16-303-020 Schedule of charges—Billing policies and procedures. (1) Accounts.

(a) All billable services provided for under chapter 15.49 RCW are due and payable upon billing by the department. For the convenience of established accounts and in accord with good business practices, the department provides a monthly billing service. Accounts not paid in full within thirty days of billing are considered delinquent.

(b) On all debts due and payable after July 28, 1991, all delinquent accounts are assessed a late charge equal to one and one-half percent per month, or portion of a month, on the unpaid balance.

(c) Except for established accounts where there is a reasonable expectation of additional charges during a calendar month, the minimum billable amount through the monthly billing system is twenty dollars. All billable services of less than twenty dollars are due and payable on the date that service is rendered.

(d) No person with an account ninety days or more in arrears may receive service except on the basis of payment in full at the time service is rendered. Accounts in arrears may be subject to legal action for collection and are not restored to monthly billing status until all past due amounts are paid-in-full.

(e) Accounts that become ninety or more days in arrears twice within a five-year period may be subject to a permanent requirement for payment in full at the time service is provided.

(2) Unless otherwise provided for in rule, requests for refund fees or assessments must be submitted to the department by June 30 of the year following payment of the fee or assessment.

(3) Fees for services not listed in rule are set on the basis of the actual cost to the department of agriculture, or the most appropriate fee established by rule.

[Statutory Authority: 2003 1st sp.s. c 25 § 309(2), RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW. 05-12-053, § 16-303-020, filed 5/26/05, effective 6/26/05. ANNUAL SEED ASSESSMENT**WAC 16-303-105 Annual seed inspection charge.** (1)

Each person required to obtain a seed labeling permit, pursuant to RCW 15.49.400, of the Washington State Seed Act, must also, pursuant to RCW 15.49.310 and 15.49.370, pay a

general seed inspection charge annually to the department in the amount of ten cents per one hundred dollars gross annual dollar sales in excess of ten thousand dollars of agricultural and/or vegetable seed distributed in this state during the preceding fiscal year, except that no assessment shall be collected on:

(a) Seed for which the assessment has been previously collected, except when such seed is relabeled;

(b) Agricultural or vegetable seed distributed out-of-state;

(c) Seed distributed in containers of four ounces or less;

(d) Stock seed; and

(e) Seed distributed by governmental agencies, such as, but not limited to, the United States Department of Agriculture national foundation seed project. Agricultural and/or vegetable seeds distributed under bailment contract are valued at the producer-conditioner agreement rate in lieu of sale.

(2) The seed assessment fees for the fiscal period beginning July 1 through June 30 are payable on February 1 of the following calendar year.

(3) The seed assessment may accompany the annual application for the seed labeling permit. A penalty of ten percent of the assessment fee or a minimum of ten dollars, whichever is greater, is added to all assessments not paid by February 1.

(4) The annual seed-labeling permit may not be issued until all seed assessments and penalties are satisfied.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 01-01-015, § 16-303-105, filed 12/6/00, effective 1/6/01.]

WAC 16-303-115 Seed labeling registrant records.

Each seed labeling registrant must maintain reasonable and necessary records accurately reflecting the gross annual dollar value of agricultural and/or vegetable seed distributed in this state.

[Statutory Authority: RCW 15.49.005, 15.49.081, 15.49.310, 15.49.370(3) and chapter 17.24 RCW. 01-01-015, § 16-303-115, filed 12/6/00, effective 1/6/01.]

WAC 16-303-210 Fees for special seed tests.

Test	Fee	Additional Information
(1) All states noxious weed examination	\$ 33.38	
(2) Dormant Seed Test	\$ 41.83	
(a) For crops requiring a 400 seed TZ as required in the AOSA rules	\$ 83.66	
(b) This fee also applies to paired tests when required by AOSA rules		
(3) Brassica seed chemical identification	\$ 20.94	
(4) Cold (vigor) test for wheat	\$ 65.00	
(5) Crop or weed exam		
(a) Turf-type and other small seeded grasses	\$ 38.00	Standard noxious amount from AOSA rules Kentucky bluegrass, timothy, alkaligrass, fine-leaved fescues

Test	Fee	Additional Information
(b) Small seeded legumes and medium seeded crops	\$ 44.00	Brassicas, ryegrass, tall fescue
(c) Wheatgrass and native species	\$ 50.00	
(d) Grains and pulses	\$ 22.00	
(6) Fescue seed ammonia test	\$ 30.82	
(7) Fluorescence test (400 seed test)	\$ 26.72	
(8) Miscellaneous services, samples requiring extra time, field run samples, etc.	\$ 30.00/hour	
(9) Pest and disease (phyto exam) or soil exam	\$ 34.94	
(10) Quarantine tests on seed		
Bluegrass and Bentgrass	\$ 18.04/5 grams	
Other grasses	\$ 18.04/10 grams	
(11) Rules test—Canadian	PURITY	GERMINATION
Alfalfa, clover, peas, lentils	\$ 32.37	\$ 24.66
Kentucky bluegrass	\$ 49.34	\$ 30.82
Bentgrass	\$ 72.47	\$ 34.94
(12) Rules test—I.S.T.A.	PURITY	GERMINATION
Alfalfa, clover, peas, lentils	\$ 32.37	\$ 30.82
Kentucky bluegrass	\$ 49.34	\$ 30.82
(13) Moisture test	\$ 30.00	
(14) Seed Count	\$ 21.84	
(15) Out-sourcing charge	\$ 15.00	
(16) Sod seed analysis	Bluegrass \$ 75.00	
	Fescue \$ 52.00	
	Ryegrass \$ 42.00	
(17) Sodium Hydroxide test for presence of red and/or white wheat	\$ 20.54	
(18) Undesirable grass species test (includes an all states noxious test) examination (UGS test)	\$ 70.37

WAC 16-303-250 Miscellaneous charges for seed services. Fees for miscellaneous department seed services are as follows:

Service	Fee
Rush samples (including phone or FAX report if requested at time sample is submitted)	\$ 15.00
High priority sample - purity result completed before the end of the next business day. (Special circumstances only. Call ahead for availability.)	\$ 150.00
Phone reports on test result, per call	\$ 7.18
Preliminary report on germination	\$ 20.00

(2007 Ed.)

Service	Fee
Additional mailing of report	\$ 5.12 each destination
Additional copies of reports	\$ 5.12 minimum fee
Revised reports	\$ 10.26 minimum (hourly fee when applicable)
Fee for special shipping and handling service, for example Federal Express, Air Parcel or air freight	\$ 3.70 plus exact shipping cost
Fee for facsimile transmission of doc- uments	\$ 1.00 per document
Mileage - additional or special requested trips	As established by the Washington State Office of Financial Man- agement
Stand-by time - or travel time	\$ 30.00/hour Travel time to be charged when special trip is requested.
Sample envelopes	Customer will be charged the exact cost of the enve- lopes.

WAC 16-303-320 Certification fees for seed certified by the department. (1) Fees apply to both new and renewal applications.

The seed processor is responsible for seed certification fees including sampling, testing, production and final certification fees, and may accept responsibility for any other additional fees associated with certification. Fees for services such as O.E.C.D. and sod quality, etc., are in addition to the fees listed in this section.

[Title 16 WAC—p. 399]

Seed	Application Fee 1/	Seedling field inspection fee	Seedling producing or field inspection Fee 2/	Late Application Penalty Fee	Reinspection Fee (other than isolation)	Production Fee (includes tagging) 7/	Seed shipped Out-of-State (uncleaned)
Alfalfa, Red clover, White clover and Trefoil	\$ 30.00 per variety per grower	\$ 50.00/field	\$ 1.85/acre	\$ 41.00	\$ 53.44 ea. field	\$ 0.53/cwt. 5/	\$ 0.20/cwt.
Bean	\$ 30.00 per variety per grower	N/A	\$ 1.85/acre 3/ (one inspection) \$ 3.70/acre 4/ (two inspections)	\$ 41.00	\$ 53.44 ea. field	\$ 0.53/cwt.	\$ 0.20/cwt.
Turnip, Rutabaga	\$ 30.00 per field	N/A	\$ 3.70/acre (two inspections)	\$ 41.00	\$ 53.44 each field	\$ 0.53/cwt.	\$ 0.20
Perennial Grasses 6/	\$ 30.00 per field	\$ 50.00/field	\$ 50.00 per field	\$ 41.00	\$ 53.44 each field	Option A \$ 0.84/cwt. for all grass except tall fescue \$ 0.51/cwt. tall fescue Option B \$ 1.17/cwt. (min. \$ 11.66)	\$ 0.31
Corn	\$ 30.00 for each separate combination/or isolation	N/A	\$ 50.00 first acre \$ 10.99 ea. additional acre except hybrid corn \$ 4.85 ea. additional acre	————	————	————	————
Annual grasses	\$ 30.00 per field	N/A	\$ 1.85/acre	\$ 41.00 per field	————	\$ 0.42/cwt.	\$ 0.20
Rapeseed	\$ 30.00 per variety per grower	N/A	\$ 1.85/acre (one inspection)	\$ 41.00 per grower	\$ 53.44 ea. field	\$ 0.53/cwt.	\$ 0.20

1/ Seed certification application due dates can be found in WAC 16-302-050.

2/ Seedling producing or field inspection fees are refundable if the acreage is withdrawn before the inspection is completed. In the case of bean seed, fees are required of seedling fields to be harvested for certification the year of planting.

3/ One inspection is required for Great Northern Red Mexican, pinto, pink, and small white bean.

4/ Includes windrow inspection which is required for certification of snap beans, kidney beans, and eligibility for shipment into the state of Idaho.

5/ Production fees are billed at completion of laboratory analysis tests. If no seed is tagged, \$ 0.10 of the \$ 0.53 per cwt. production fee is refundable.

6/ Option A: Inspection and final certification fees are based on pounds sampled and billed upon completion of required laboratory tests.

Option B: Inspection and final certification fees are based on pounds tagged after required laboratory tests are completed. Those dealers requesting sampling and tagging privileges and/or participation in Option B must sign a memorandum of agreement that shall expire on June 30 of each year. The memorandum may be terminated by the director if the conditioner violates certification standards or requirements of memorandum.

7/ Does not include shipping and handling charge.

(2) Other fees associated with grass seed certification:

Out-of-state origin seed tagged with interagency certification tags.

Grass Option A: \$ 0.31 per cwt.
Grass Option B: \$ 0.68 per cwt.
Reissuance of cert. tags: \$ 0.11 per tag or minimum fee of \$ 11.66

[Statutory Authority: 2003 1st sp.s. c 25 § 309(2), RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW. 05-12-053, § 16-303-320, filed 5/26/05, effective 6/26/05. WAC 16-303-340 Seed certification fees for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum and small grains. (1) Seed certification fees for buckwheat, chickpea, field pea, lentil, millet, soybean, sorghum and small grains are as follows:

(a) Application fee per variety per grower	\$21.88
(b) Field inspection fee per acre except millet and hybrid sorghum	\$3.02
(c) Millet - first acre	\$32.55
..... - each additional acre	\$6.48
(d) Hybrid sorghum - first acre	\$32.55
..... - each additional acre	\$13.00
(e) Special field inspection fee per acre	\$2.58
(f) Late application fee	\$20.50
(g) Reinspection fee	\$41.05
minimum for each field which did not pass field inspection plus \$0.44 for each acre over twenty-five. The reinspection fee for isolation requirements only for a field of any size is \$41.05.	
(h) Final certification fee	\$0.25

per cwt. of clean seed sampled, which is charged to conditioning plant, or production fee \$0.105

per cwt. of production from fields inspected which is utilized for seed, which is charged to the grower or the final seller prior to brokerage, retail sale, sale to plant not approved for conditioning certified seed, or transshipment out-of-state.

(i) Sampling fee \$0.105
per cwt. of clean seed sampled, with minimum charge of \$10.30 per sample, which is charged to conditioning plant in lieu of mechanical sampling.

(2) A field may be withdrawn upon notification by the applicant to the certifying agency's office before field inspection. In such case, the field inspection fee is refunded upon request until June 30 of the year following harvest.

(3) Harvest before field inspection causes forfeitures of both the application and field inspection fees, and completion of certification.

16-319-101	Forest reproductive material—Rejection of certification.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-319-001	Promulgation. [Order 1028, Promulgation, filed 8/4/66, effective 9/4/66.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.
16-319-002	Promulgation. [Order 1089, § 16-319-002, filed 6/4/68; Order 1044, Promulgation, filed 4/14/67, effective 5/15/67; Order 1030, filed 8/19/66, effective 9/19/66.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.
16-319-003	Promulgation. [Order 1151, § 16-319-003, filed 4/16/70.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.
16-319-004	Promulgation. [Order 1189, § 16-319-004, filed 4/16/71.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.
16-319-006	Promulgation. [Order 1247, § 16-319-006, filed 4/13/72.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.

16-319-007	tive 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW. Promulgation. [Order 1369, § 16-319-007, filed 6/12/74.] Repealed by 05-05-051, filed 2/14/05, effective 3/17/05. Statutory Authority: RCW 15.49.310, 15.49.370(3) and chapter 34.05 RCW.
16-319-040	Basis for rejection. [Order 1089, § 16-319-040, filed 6/4/68; Order 1044, Regulation 6, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 6, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-050	Basis for refusal to inspect. [Order 1089, § 16-319-050, filed 6/4/68; Order 1044, Regulation 7, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 7, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-060	Right of appeal. [Order 1089, § 16-319-060, filed 6/4/68; Order 1044, Regulation 8, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 8, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-070	Seed standards. [Order 1089, § 16-319-070, filed 6/4/68; Order 1044, Regulation 9, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 9, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-071	Audit standards. [Order 1369, § 16-319-071, filed 6/12/74; Order 1151, § 16-319-071, filed 4/16/70.] Repealed by Order 1506, filed 4/11/77.
16-319-080	Fees. [Order 1089, § 16-319-080, filed 6/4/68; Order 1044, Regulation 10, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 10, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-090	Lot identity. [Order 1089, § 16-319-090, filed 6/4/68; Order 1044, Regulation 11-14, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 11-14, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-100	Buying station records. [Order 1089, § 16-319-100, filed 6/4/68; Order 1044, Regulation 15, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 15, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-110	Maintenance of cone identification labels. [Order 1089, § 16-319-110, filed 6/4/68; Order 1044, Regulation 16, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 16, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-120	Cone and seed inventory records. [Order 1089, § 16-319-120, filed 6/4/68; Order 1044, Regulation 17, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 17, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-130	Tagging and sealing. [Order 1089, § 16-319-130, filed 6/4/68; Order 1044, Regulation 18, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 18, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.
16-319-140	Blending of lots. [Order 1089, § 16-319-140, filed 6/4/68; Order 1044, Regulation 19, filed 4/14/67, effective 5/15/67; Order 1030, Regulation 19, filed 8/19/66, effective 9/19/66.] Repealed by Order 1151, filed 4/16/70.

WAC 16-319-010 Forest tree seed certification—Certifying agency. The Washington State Crop Improvement Association, Inc. is hereby designated to act as the duly authorized agent of the director of agriculture for the purpose of assisting in certifying forest tree seeds and shall perform such duties as the director may assign as provided in chapter 15.48 RCW, specifically RCW 15.48.150(1).

[Order 1028, Regulation 1, filed 8/4/66, effective 9/4/66.]

WAC 16-319-020 Forest reproductive material certification standards. (1) Purpose. The purpose of certification of forest reproductive material is to make available reproductive material properly identified by species or species and cultivar, and by source or source and origin.

(2) Definitions:

(a) Applicant means person or organization who submits application for certification of forest reproductive material to certifying agency and who assumes responsibility for compliance with these standards.

(b) Audit means periodic examination and check by certifying agency of any part or all of the records and procedures specified in field standards and conditioning standards, and of additional records pertinent to inventory and distribution of reproductive material including verification of corresponding physical inventory to assure that no significant errors or omissions exist.

(c) Batch means all or part of a lot of reproductive material of a single species collected during one crop season from within stated breeding zone(s) or from within stated five hundred foot elevation increment(s) in stated seed zone(s) that is collected or processed at one time.

(d) Breeding zone means a specific designated unit of land, the description of which is on file at the certifying agency, for which an improved population of trees of a specific species or species cross is being produced.

(e) Buyer means person who first receives reproductive material from the collector.

(f) Certificate of genetic identity means a document furnished by the producer on demand and verified by the certifying agency describing the ancestry and breeding behavior of a lot of reproductive material.

(g) Certification of reproductive material means execution by certifying agency of field inspection, plant/warehouse inspection and/or audit to accomplish the purpose described in subsection (1) of this section.

(h) Certifying agency means the duly designated agent of the state agency: In Oregon state, the Oregon Seed Certification Service, 31 Crop Science Building, Oregon State University, Corvallis, Oregon 97331; in Washington state, Washington State Crop Improvement Association, Inc., 513 North Front Street, Yakima, Washington 98901.

(i) Certificate of provenance means a document issued by certifying agency which verifies source and origin of reproductive material by field inspection and audit. (Only certificates of provenance are issued to satisfy O.E.C.D.)

(j) Character means a distinctive trait, but not necessarily an invariable feature, exhibited by all individuals of a group and capable of being described or measured: E.g., growth; form; color; resistance to disease, insects, weather, animals, etc.

(k) Code means a unique identification of a group of the producer's pertinent records about a lot of forest reproductive material.

(l) Collector means a person who collects forest reproductive material at its source.

(m) Elevation means altitude above sea level and is divided in five hundred foot increments as shown below, or may mean appropriate elevational bands as provided for under code and/or breeding zone.

0 - 500 feet — Code 05	2501 - 3000 feet — Code 30
501 - 1000 feet — Code 10	3001 - 3500 feet — Code 35
1001 - 1500 feet — Code 15	3501 - 4000 feet — Code 40
1501 - 2000 feet — Code 20	4001 - 4500 feet — Code 45
2001 - 2500 feet — Code 25	4501 - 5000 feet — Code 50
	and so forth.

(n) Field inspection means observation by certifying agency of all activities and records involved in propagation, collection, buying, production, and transportation of forest reproductive material to assure compliance with field standards.

(o) Forest reproductive material means plant material of genera and species of trees which will be used for forestry.

(p) Genetic identity means the ancestry and breeding background of selected and tested classes only of the forest reproductive material.

(q) Genetic superiority means that forest reproductive material originated from tree(s) whose superiority in one or more characters important to forestry has been proven by tests conducted in specified environments.

(r) Location means description by seed zone or portion thereof and elevation and/or breeding zone or code.

(s) Legal description means legal cadastral survey subdivision.

(t) Lot means a homogeneous quantity of forest reproductive material.

(i) For tested and selected classes, it is of a single species, cultivar, or cross collected during one crop season from a distinctively described and recorded population of trees.

(ii) For source identified class, it is a single species collected during one crop season from within stated seed zone(s) and from within five hundred foot elevation increment(s) and/or breeding zones or appropriate codes.

(iii) For audit class, it is a single species collected during one crop season from within stated seed zone(s) and from within five hundred foot elevation increment(s).

(iv) Lots shall be identified by number and/or code or breeding zone.

(u) Origin means the location of the indigenous parents; for nonindigenous parents, it is the location from which the seed or plants were originally introduced.

(v) Plant/warehouse inspection means observation by certifying agency of all activities and records involved in receiving, processing, storage and labeling of forest reproductive material to assure compliance with conditioning standards.

(w) Producer means person, company, bureau or agency with overall responsibility for producing forest reproductive material.

(x) Provenance means the original geographic source of seed, pollen or propagules.

(y) Reproductive material means seed, pollen, trees, cuttings, scions, etc., originating from forest trees.

(z) Seed zone means a geographic area delineated on western forest tree seed council's tree seed zone map published July 1973, or similarly authoritative maps of seed zones as approved by certifying agency.

(aa) Source means the location of the immediate parents, the origin of which may be indigenous, nonindigenous, or unknown.

(bb) Test means evaluation of parents by comparing the performance of their offspring under more controlled conditions that exist for the parent(s) or other applicable tests which evaluate specific character(s) of the parents or the offspring.

(cc) Unit of measure means a consistent volume of measure, i.e., bushels, pounds, grams, number, cubic centimeters, etc.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-020, filed 5/22/87; 84-13-079 (Order 1834), § 16-319-020, filed 6/21/84; 80-10-001 (Order 1704), § 16-319-020, filed 7/24/80; 79-05-070 (Order 1625), § 16-319-020, filed 4/30/79; Order 1506, § 16-319-020, filed 4/11/77; Order 1369, § 16-319-020, filed 6/12/74; Order 1151, § 16-319-020, filed 4/16/70; Order 1089, § 16-319-020, filed 6/4/68; Order 1044, Regulation 1-5, filed 4/14/67, effective 5/5/67; Order 1030, filed 8/19/66, effective 9/19/66.]

WAC 16-319-030 Classes of reproductive material.

(1) Tested class means that forest reproductive material came from tree(s) which have been tested for specific character(s) as determined by progeny or other applicable tests and under specified conditions. Further, such forest reproductive material is produced and processed in a manner assuring genetic identity common with the tested material, and, for nursery stock, that it was produced from tested reproductive material. Said forest reproductive material shall be labeled with a blue label stating "tested." Certifying agency shall examine trees and reproductive material; exercise field, plant, and warehouse inspection, and audit all pertinent records involved.

(2) Selected class means that reproductive material came from trees that were selected for specific character(s). Two subclasses are recognized:

Subclass A: Reproductive material is obtained from selected trees and, in addition for tree seed, the male parent(s) is also selected.

Subclass B: Applies to tree seed when only one parent is selected.

Both subclasses shall be labeled with a green label stating "selected" and the subclass. Certifying agency shall examine trees and reproductive material; exercise field, plant, and warehouse inspection, and audit all pertinent records involved.

(a) Selected subclass A means that the donor or parents of the reproductive material are selected, known, and of record, but have no test results of record, and, for nursery stock, that it was produced from selected subclass A or better reproductive material.

(b) Selected subclass B means that only one parent of the tree seed is selected, known, and of record and reproductive material has not been tested, and, for nursery stock, that it was produced from selected subclass B or better reproductive material.

(3) Source identified class means that the reproductive material came from within a seed zone(s) or portion thereof (as defined by legal description) and from within a 500-foot elevation increment(s) or breeding zone(s) or code(s).

Subclass A: Personally supervised production.

Subclass B: Procedurally supervised production.

Both classes of said reproductive material shall be labeled with a yellow label stating "source identified" and the subclass. Certifying agency shall exercise field inspection, plant/warehouse inspection, and audit.

(a) Subclass A source identified means that applicant and certifying agency personally know beyond a reasonable doubt the seed zone(s) or portion thereof and 500-foot elevation increment(s) within which cones and/or reproductive material were collected; and, for nursery stock, that it was

produced from subclass A source identified or better reproductive material. Certifying agency knows location from applicant's prior written plan of his reproductive material collecting and/or producing activities. For source identified subzone collections, a representative of the producer, whose major responsibility is observation of picker location, shall make daily observations within the collection area.

(b) Subclass B source identified means that applicant and certifying agency know reproductive material is identified as collected from within a seed zone(s) and from within a 500-foot elevation increment(s), and for nursery stock, that it was produced from subclass B source identified or better reproductive material.

(4) Audit class means that the applicant's records of procurement, processing, storage, and distribution state that the reproductive material was collected from within stated seed zone(s) or described portions thereof and from within 500-foot elevation increment(s), and, for nursery stock, certifying agency knows that it was produced from audit class or better reproductive material. Containers of said reproductive material shall carry a serially numbered brown and white label stating "audit certificate." All records of the applicant for this class of reproductive material are subject to audit.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-030, filed 5/22/87; 80-10-001 (Order 1704), § 16-319-030, filed 7/24/80; Order 1506, § 16-319-030, filed 4/11/77; Order 1369, § 16-319-030, filed 6/12/74; Order 1151, § 16-319-030, filed 4/16/70.]

WAC 16-319-041 Application for certification of forest reproductive material. (1) The conditions of applicant's submittal and of certifying agency's acceptance of application are:

(a) The application should show all classes for which certification services are requested.

(b) All reproductive material acquired or distributed by applicant of a type for which certification is requested is subject to audit.

(c) Applicant shall be responsible for payment of fees for certification services.

(d) Applicant is responsible for developing a record keeping system and labels available and satisfactory to the certifying agency.

(e) Certifying agency reserves the right to refuse certification service to applicant.

(f) Application for audit certification reproductive material shall be filed with certifying agency of the state in which warehouse, nursery, etc., is located with a copy to the certifying agency in the state where the reproductive material is collected.

(2) Timing of application requests for certification services:

(a) Application requests for source identified subclass B and lower classes for the current year's production of reproductive material shall be received by certifying agency from applicant not later than three days prior to initiation of collection, production, or propagation of forest reproductive material.

(b) For source identified subclass A and higher certification class, the applicant shall make application for service, and present a written plan to the certifying agency two weeks

prior to the beginning of the collection season. The written plan will include the following:

(i) For subzone collection, areas shall be defined by legal description.

(ii) Details of the collection organization including names of buyers and field supervisors, estimated harvest volume, receiving station location(s), and other pertinent information.

(c) Application requests for all other services shall be received by certifying agency from applicant not later than seven days before need.

(3) The certifying agency establishes the fee schedule for certification services. These may be adjusted at the beginning of a crop year if certifying agency determines that costs are significantly more or less than anticipated: Provided, That increases shall not exceed twenty-five percent.

(a) Cones and seed:

(i) Tested and selected - the service includes review of test plans, audit of pertinent records and field inspection at the hourly job time rate shown in current fee schedule.

(ii) Source identified classes - the fee includes field inspection at the per bushel rate shown in the current fee schedule and audit of conditioning at the hourly rate also shown in the current fee schedule.

The fee for each lot containing less than sixty bushels shall be a maximum of thirty-six dollars: Provided, That the certifying agency, due to specific circumstances, may waive this maximum fee or a part thereof.

(iii) Audit class - the fee includes audit of applicant's field and conditioning records at the hourly rate shown in the current fee schedule.

(b) Trees: The fee includes the verification of the source of the trees from the seed source, stratification, sowing, bed identification, lifting, sorting, package identification, storing and/or transplanting.

(c) Not entered for certification: The fee for audit of reproductive material not entered for certification service is performed as required by and satisfactory to certifying agency to exercise said audit simultaneously with audit of reproductive material which applicant has requested certification service.

(d) The fee for certification classes applied for shall be charged whether or not offered material qualifies.

(e) The certifying agency may provide other services, such as training to comply with these standards, advising on the development of recordkeeping systems directly connected with certification needs if requested by the applicant.

(4) Fee schedule:

(a) Tree cones and seed -

Certification Classes	Field Inspection	Audit	Fee Due
Tested and Selected	\$ 27.00/hr.	\$ 27.00/hr.	When billed
Source Identified Classes:			
Lots 11 bu. and more	\$ 0.90/bu.	\$ 27.00/hr.	
Lots 6-10 bu.	\$ 23.00/lot	\$ 27.00/hr.	
Lots 0-5 bu.	\$ 13.00/lot	\$ 27.00/hr.	
Audit	None	\$ 27.00/hr.	When billed

(b) Tree certification - \$ 27.00/hr.

Seedling certification - experience has shown that seedling certification normally requires a minimum of five nurs-

ery visits totaling approximately thirty-two hours. Plantation certification procedures shall be billed at the hourly rate.

(c) Other services including education to comply with the standards, development of record system, verification of source of pollen, cuttings, audit of forest reproductive material not offered for certification by applicant or other services requested, etc. at \$ 27.00/hr. payable when billed.

(d) OECD certification (certificates of provenance) - \$ 0.60 per certificate plus the hourly audit rate. (Auditors shall issue certificates.)

[Statutory Authority: RCW 15.49.310, 15.49.370(3), and chapter 34.05 RCW. 06-11-066, § 16-319-041, filed 5/12/06, effective 6/12/06; 05-05-051, § 16-319-041, filed 2/14/05, effective 3/17/05; 04-06-028, § 16-319-041, filed 2/24/04, effective 3/26/04. WAC 16-319-051 Forest reproductive material—

Field standards. (1) Tested and selected classes. Applicant shall maintain continuous record(s) satisfactory to certifying agency which maintains the identity of the reproductive material through all stages of production, collection, processing, storage, and disbursement from stores, and, in addition, such records as needed to trace the pedigree and document the performance of the reproductive material. The records shall include but are not limited to those involving:

(a) Selection, location, and origin of the parent trees.

(b) Pollen, seed, scions, etc., collection, processing, inventory, storage, and use in tree improvement and breeding programs.

(c) Design, establishment and management of test(s) and the collection, analysis and interpretation of test data.

(d) Nursery stock production.

Certifying agency shall inspect all phases of the field operation including periodic checks of parent trees, pollen and scion collections; pollinations; cone harvest, storage, processing and inventory; and tests, together with appropriate records.

(2) Source identified reproductive material. Applicant shall develop and make correct use of collector and buyer labels, collector registration, and transportation records, and for nursery stock, labels and records identifying the stock as originating from source identified or better reproductive material.

(a) Subclass A.

(i) Control of collectors shall be such that applicant and certifying agency personally know beyond a reasonable doubt the seed zone or breeding zone or code or portions thereof (as delineated by legal description), and 500-foot elevation increment or specified elevation increment for breeding zone(s) or code(s) within which reproductive material was collected. Control of producers of nursery stock shall be such that applicant and certifying agency personally know

beyond a reasonable doubt that the nursery stock was produced from source identified subclass A or better reproductive material.

(ii) Applicant shall provide certifying agency with a written reproductive material collection and/or nursery stock production plan (not later than three days) prior to collection of reproduction material or production of nursery stock.

(iii) Further, all following requirements of subclass B shall be met.

(b) Subclass B.

(i) All collectors shall be supervised sufficiently so that either buyers know where reproductive material was collected, or buyers shall purchase all reproductive material that collectors present for sale without differential of acceptance stated or implied, as to source, location, seed zone, or elevation.

(ii) Buyer shall require collector to sign collector's registration record prior to collection of reproductive material. He shall also issue collector's labels, and direct collector to complete them and place them in or attach them to each container of reproductive material before it is transported from point of collection. Coincident with purchase of reproductive material, he shall complete description on labels including species, source by seed zone, breeding zone or code, elevation increment, special collection area if any, certification class, date of purchase and his signature or initials.

(iii) Buyer shall maintain a buyer record on a form for all reproductive material received, listing species, seed zone, elevation increment, units of reproductive material, date of purchase, collector's name and buyer's name.

(iv) Buyer shall maintain transportation record showing species, seed zone, elevation increment, units of reproductive material, and date shipped.

(v) Producers of nursery stock shall be supervised sufficiently so that applicant knows that the stock was produced from source identified subclass B or better reproductive material.

(vi) The certifying agency shall advise the applicant of problems or conditions that affect competent verification or execution of these standards by certifying agency and applicant.

(vii) Unless other arrangements are made, the certification class shown by the producer on all containers of reproductive material shall be verified by the certifying agency before being transported from the receiving station. The producer is responsible for evidence of verification of the certification class applied for.

(3) Audit class reproductive material.

(a) Buyer shall require collector to sign collector's registration record and to complete collector's labels prior to purchase of reproductive material.

(b) Buyer shall maintain a buyer record on a form for all reproductive material received, listing species, seed zone, elevation increment, units of reproductive material, date of purchase, collector's name and buyer.

(c) Buyer or other shipper of reproductive material shall maintain a transportation record showing species, seed zone, elevation increment, units of reproductive material and date shipped.

(2007 Ed.)

(d) Producers of nursery stock shall maintain auditable records identifying the stock as being produced from audit class or better reproductive material.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-051, filed 5/22/87; 80-10-001 (Order 1704), § 16-319-051, filed 7/24/80; Order 1506, § 16-319-051, filed 4/11/77; Order 1369, § 16-319-051, filed 6/12/74; Order 1151, § 16-319-051, filed 4/16/70.]

WAC 16-319-061 Forest reproductive material—Conditioning standards. (1) Applicant shall maintain a continuous record for each lot and batch of reproductive material at each plant or warehouse, showing lot and batch number or code, species, seed zone, breeding zone or code, elevation increment, date received and units of reproductive material. Reproductive material stored at plant or warehouse prior to conditioning shall be assembled by lot or batch and so arranged as to be reasonably accessible for audit. The auditor will advise producer before making changes in the certification class of cones or seed offered by the producer.

(2) Labels shall be maintained on containers until reproductive material is conditioned. During conditioning, labels shall be removed and immediately deposited in a container marked with the lot or batch designation or code. Upon completely emptying the containers for each lot or batch of audit or source identified classes, the package of labels from it shall be closed and set aside for examination by the certifying agency auditor. All labels for tested and selected classes shall be attached to or placed inside of the seed containers by the producer for examination by the certifying agency auditor. These labels shall remain with the seed until the lot is depleted.

(3) All reproductive material shall be handled in a manner to prevent lot mixture and maintain lot identity. All machinery, containers, and equipment shall be thoroughly cleaned before conditioning another lot or batch.

(4) Specific requirement: Certifying agency may refuse to certify reproductive material failing to meet the following maximum standards: Other distinguishable species or cultivars: Seed one-half of one percent by weight; trees, cuttings, scions, etc. one percent by number; pollen one percent by number.

(5) Labeling and sealing of tested, selected, or source identified reproductive material shall be done by the certifying agency.

(a) Labeling of audit class reproductive material shall be done by the applicant with the label being affixed to the container: Provided, That for small sales (any quantity of reproductive material less than a full container of a size normally used by the applicant) the label may be affixed to the invoice or sales slip.

(6) For each lot of tested or selected reproductive material, a certificate of genetic identity shall be prepared and affirmed by the producer upon demand and, if verified by the certifying agency, shall be signed and placed in or attached to each container before other labels or seals are affixed. The certificate of genetic identity shall include the following information:

(a) For both tested and selected reproductive material, the lot number, breeding zone or code and information on:

(i) The donor or parents which produced the reproductive material, including their selection generation, type of

selection made, selected character(s), seed zone(s) and elevation increment(s) in which selection was made, and selection procedure.

(ii) For each prior selection generation, the same information.

(iii) For sexual reproductive material, whether pollination was controlled or not: If controlled, the pollen situation; if controlled, the pollen or pollen mix used, including identification of pollen parent(s), also the number of maternal parents, and, if applicable, the crossing design used.

(b) For tested reproductive material only.

(i) A progeny, clonal, or other applicable test plan shall normally be submitted to the certifying agency for review and acceptance before installation. Acceptance of the test plan may be made after installation providing requirements in WAC 16-319-051(1) and 16-319-061 (6)(b)(ii) are met. Applicant may request assistance from the certifying agency in the development of a plan.

(ii) The plan shall include in the test both randomization and replication for the material to be tested and the identity and background of the check material to be used.

(iii) Complete randomization and balanced randomized blocks are recommended. The actual design of the established test shall be recorded in detail.

(iv) Trees to be planted for tests shall be grown together in soil as uniform as possible, or, if they are grown in different soils, shall be so distributed that like proportions of all clones or progenies are produced in each distinct class of soil.

(v) Test measurements are to be presented in numerical form. Each character to be evaluated is to be measured separately. The genetic superiority as compared with the check shall be clearly demonstrated for at least one of the characters being tested. Characters of economic importance in forestry identified in the test shall be clearly reported if they are significantly inferior at the ninety-five percent level to those of the check material.

(vi) The results of the test measurements and data shall be readily available to the certifying agency and prospective user or purchaser.

(7) A document, acceptable to the certifying agency for informing the purchaser of species and certification information of each item, and, for auditing purposes, shall be issued by the producer for each sale of tested, selected, source identified, and audit class reproductive material. Such document may be a certificate of provenance for tested, selected, or source identified reproductive material, or an invoice, shipping order, or sales slip for audit class reproductive material. The certifying agency may authorize use of said certificate of provenance for portions of reproductive material from labeled and sealed containers in lieu of labels and seals when relabeling and resealing by the certifying agency is impractical.

(8) If a lot is composed of reproductive material from more than one seed zone, elevation increment or code in excess of seven percent if of contiguous seed zones, elevation increments, or codes or if in excess of two percent of other than contiguous seed zones, elevation increments, or codes, the certification label shall show all seed zones, elevation increments, or codes either with or without the percentage of each.

(9) The allowance for accidental mixing of noncertifiable reproductive material with audit class, or noncertifiable or audit class reproductive material with source identified classes is two percent. When in excess of two percent, the lot shall drop to the lowest class represented. No mixing of lower classes with selected or tested classes is permissible.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-061, filed 5/22/87; 84-13-079 (Order 1834), § 16-319-061, filed 6/21/84; 80-10-001 (Order 1704), § 16-319-061, filed 7/24/80; Order 1506, § 16-319-061, filed 4/11/77; Order 1369, § 16-319-061, filed 6/12/74; Order 1247, § 16-319-061, filed 4/13/72, effective 5/14/72; Order 1151, § 16-319-061, filed 4/16/70.]

WAC 16-319-081 Forest reproductive material—Affirmation by certifying agency. Affixing of label or label and seal to a container of forest reproductive material or to a certificate of provenance or certificate of genetic identity by the certifying agency affirms that to the best of its knowledge the reproductive material meets these forest reproductive material certification standards.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-081, filed 5/22/87; Order 1506, § 16-319-081, filed 4/11/77; Order 1369, § 16-319-081, filed 6/12/74; Order 1151, § 16-319-081, filed 4/16/70.]

WAC 16-319-091 Forest reproductive material—Mixing of lots. (1) When lots collected in the same or different crop seasons are deliberately mixed, the new lot shall be given a new identification number and certification label. The certification class shall drop to the lowest certification class represented in the new lot.

(2) For the tested and selected classes, the certification label shall show the components of the new lot and the percentage of each in the new lot, or this information shall be contained on a properly executed certificate of genetic identity placed in, or attached to each container of the lot before other labels or seals are affixed.

(3) For the source identified classes and the audit class, the certification label shall show the components of the new lot and the percentage of each in the new lot.

(4) Lots being mixed shall be uniformly blended into the new lot so that they are near equally represented throughout the new lot.

(5) The producer of the new lot shall make the last viability information for the component parts of the new lot available to the certifying agency and prospective user or buyer upon demand.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-091, filed 5/22/87.]

WAC 16-319-101 Forest reproductive material—Rejection of certification. Any lot may be rejected if certifying agency determines that said lot fails to meet these standards. The privilege of certification may be withdrawn by certifying agency for a definite period of time in case of flagrant violations of field or processing standards. If applicant believes an erroneous decision has been rendered, he may make written appeal to certifying agency for review by its governing body.

[Statutory Authority: Chapter 15.49 RCW. 87-12-006 (Order 1930), § 16-319-101, filed 5/22/87.]

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-322-001	Promulgation. [Order 1087, § 16-322-001, filed 4/24/68, effective 5/24/68; Order 1017, filed 5/20/66; Order 952, Promulgation, filed 7/17/64; Order 888, Promulgation, filed 6/4/62.] Repealed by 00-23-095, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 15.14 RCW.
16-322-020	Requirements for the production of certified mint rootstock. [Order 1017, Regulation 3, filed 5/20/66; Order 952, Regulation 3, filed 7/17/64; Order 888, Regulation 3, filed 6/4/62.] Repealed by 85-15-017 (Order 1865), filed 7/8/85. Statutory Authority: Chapter 15.14 RCW.
16-322-030	Field standards. [Order 888, Regulation 5, filed 6/4/62.] Now codified within WAC 16-322-035.

WAC 16-322-010 Mint planting stock certification—Applications and fees. (1) Mint planting stock may be designated as foundation stock, registered stock or certified stock if the planting stock and plants from which it has been propagated have been inspected, tested and determined to meet the requirements of this chapter.

(2) The applicant must furnish all information requested on the application for certification, including, but not limited to, the crop, variety, class planted, date planted, source of seed or plants, acreage, field number, applicant's name and address, applicant's signature, and date of application. The applicant must allow the department to take plants or plant parts from any planting for examination and/or testing. Application for inspection and testing of registered and certified stock must be filed with the Washington State Department of Agriculture, Plant Services Program, P.O. Box 42560, Olympia, WA 98504-2560 by May 1 of each year, accompanied by a seventy-five dollar application fee.

(3) Payment is due and payable upon completion of any service. Bill may be arranged subject to department policies and procedures.

(4) The department will remove any applicant from the certification program for nonpayment of fees.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-010, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-010, filed 7/8/85; Order 1017, Regulation 5, filed 5/20/66; Order 952, Regulation 5, filed 7/17/64; Order 888, Regulation 1, filed 6/4/62.]

WAC 16-322-012 Definitions. (1) "Certified planting stock" means planting stock produced directly from registered planting stock in compliance with this chapter.

(2) "Department" means the Washington state department of agriculture.

(3) "Foundation planting stock" means planting stock originating directly from healthy clones maintained by Washington State University or other equivalent sources approved by the department.

(2007 Ed.)

(4) "Mint flea beetle" means the insect *Langitarsus ferrugineus*.

(5) "Mint planting stock" means any plant or propagative plant part of the genus *Mentha*.

(6) "Mint root borer" means the insect *Fumibotys fumalis*.

(7) "Mint rust" means the disease caused by the fungal organism *Puccinia menthae* Pers.

(8) "Mint stem borer" means the insect *Pseudogaris nigrina*.

(9) "Noxious weed" means a plant that when established is highly destructive, competitive, or difficult to control by cultural or chemical practices.

(10) "Off-type" means appearing under visual examination to be different from the species or variety listed on the application for registration or certification, or exhibiting symptoms of a genetic or nontransmissible disorder.

(11) "Registered planting stock" means planting stock produced directly from foundation planting stock in compliance with this chapter.

(12) "Root knot nematode" means the nematode *Meloidogyne hapla*.

(13) "Root lesion nematode" means any nematode of the genus *Pratylenchus*.

(14) "Strawberry root weevil" means the insect *Otiorhynchus ovatus*.

(15) "Verticillium wilt" means the disease caused by the fungus *Verticillium dahliae*.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-012, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-012, filed 7/8/85; Order 1017, Regulation 1, filed 5/20/66; Order 952, Regulation 1, filed 6/4/62.]

WAC 16-322-015 Requirements for the production of registered and certified mint rootstock.

(1) Planting sites for production of certified or registered mint planting stock must be inspected and approved by the department at least thirty days prior to planting. At a minimum, land for a planting site must fulfill all of the following conditions:

- (a) It must not have grown mint previously;
- (b) It must be free of noxious weeds;
- (c) It must be at least five thousand feet from any field infested with verticillium wilt of mint; and
- (d) It must be at least one thousand feet from any mint field not of equal standard.

(2) In all cases where adjoining fields are planted with different species or varieties of mint, the fields must be separated by a minimum of twenty feet to prevent mechanical mixing during harvesting and transport of mint planting stock.

(3) Soil borne insects, noxious weeds and nematodes must be controlled.

(4) Fields must be free of off-type mint plants.

(5) Roguing certified or registered mint fields without permission of the department is prohibited.

(6) Hay from registered planting stock fields may be harvested for oil if the harvesting equipment is sterilized prior to entry into the registered field by steam cleaning or by other methods approved by the department.

(7) All sanitation methods and procedures must be approved by the department.

(8) All sources of water used to irrigate certified or registered planting stock fields must be approved by the department.

(9) Harvesting equipment must be sterilized by steam cleaning, or other approved methods before being used on another lot or farm.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-015, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-015, filed 7/8/85; Order 1087, § 16-322-015, filed 4/24/68, effective 5/24/68; Order 1017, Regulation 2, filed 5/20/66; Order 952, Regulation 2, filed 7/17/64; Order 888, Regulation 2, filed 6/4/62.]

WAC 16-322-025 Mint planting stock inspections. (1)

The department will conduct a minimum of two field inspections of registered and certified mint planting stock at times when plants are likely to express symptoms or damage from verticillium wilt, mint root borer, mint flea beetle, mint stem borer, strawberry root weevil, root knot nematode and root lesion nematode. Additional inspections and tests may be conducted if they are judged necessary by the department.

(a) The department will conduct the first field inspection in or about July. The department will analyze samples for tomato spotted wilt virus, impatiens necrotic spot virus and potato virus Y.

(b) The department will conduct the second field inspection in or about late September. The department will analyze samples of feeder roots from each acre for root knot nematode and root lesion nematode. Samples of stolons will be collected and examined for mint root borers. The department will note the presence of noxious weeds.

(2) The department will inspect certified and registered mint planting stock after harvest.

(3) All inspections and analyses performed by the department under provisions of this chapter are charged in compliance with provisions of chapter 16-470 WAC.

(4) The department will issue an inspection certificate for each inspection. The inspection certificate will note the presence of pests detected by analysis or visual inspection and, when possible, the level of infestation. Inspection certificates will be furnished to the grower, and copies will be available upon request to any other person.

(5) It is the responsibility of the grower to notify the department before mint hay is cut, so that the required inspections can be performed.

(6) Certification may be denied if the department is unable to complete the required field or post harvest inspections.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-025, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-025, filed 7/8/85; Order 1017, Regulation 4, filed 5/20/66; Order 952, Regulation 4, filed 7/17/64; Order 888, Regulation 4, filed 6/4/62.]

WAC 16-322-035 Washington standards for mint planting stock. (1) Washington No. 1 mint planting stock consists of mint rhizomes with similar varietal characteristics which are (a) fresh, (b) firm, (c) moist, (d) free of mold, (e) free of detectable, detrimental insects, nematodes, diseases and other pests, and (f) reasonably free of excess soil.

(2) **Tolerances.** In order to allow for variations incident to proper grading and packing, not more than a combined total of five percent, by count, of the rhizomes in any lot may

[Title 16 WAC—p. 408]

fail to meet the requirements of Washington No. 1 as defined in this section.

(3) Specific requirements.

Pests and Diseases	Tolerance for:		
	Foundation planting stock	Registered planting stock	Certified planting stock
Mint flea beetle	0	0	1%
Rootknot nematode	0	0	0
Verticillium wilt	0	0	0
Mint rust	Trace	Trace	1%
Other pests and diseases	1%	1%	1%

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-035, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-035, filed 7/8/85; Order 1087, § 16-322-035, filed 4/24/68, effective 5/24/68; Order 1017, Regulation 6, filed 5/20/66; Order 952, Regulation 6, filed 7/17/64; Emergency Order 949, filed 5/18/64; Order 888, Regulations 5 and 6, filed 6/4/62.]

WAC 16-322-040 Certifying agency issuance of certificate. (1)

Issuance of a state of Washington certified plant tag, stamp or other document under this chapter means only that the tagged, stamped or otherwise documented mint planting stock has been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation, implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(2) The department is not responsible for disease, genetic disorder, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter. No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(3) Participation in the mint planting stock certification program is voluntary.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-040, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-040, filed 7/8/85; Order 1017 (part), filed 5/20/66; Order 952 (part), filed 7/17/64; Order 888, Regulation 7 (part), filed 6/4/62.]

WAC 16-322-045 Identification and movement of mint rootstock. (1) The department will issue a certificate for mint planting stock that meets the requirements of this chapter and will authorize the use of official certificates and seals for the identification of such planting stock. The certificate will indicate presence of noxious weeds at the final field inspection and the level of infection by pests listed in WAC 16-322-025(1).

(2) Any person selling certified mint planting stock is responsible for the identity of the planting stock bearing each certificate and for such planting stock meeting the requirements of the certification program. Persons issued certificates authorized by the program must account for all planting stock produced and sold and must keep and allow the department to examine all necessary records.

(3) All registered and certified mint planting stock moving from the place of origin must be conveyed in clean trucks

(2007 Ed.)

and covered by new plastic or clean canvas tarps and properly sealed.

(4) The department will deny certification for any mint planting stock that fails to meet the minimum standards, tolerances and criteria established in this chapter.

[Statutory Authority: Chapter 15.14 RCW. 00-23-095, § 16-322-045, filed 11/21/00, effective 12/22/00; 85-15-017 (Order 1865), § 16-322-045, filed 7/8/85; Order 1087, § 16-322-045, filed 4/24/68, effective 5/24/68; Order 1017, Regulation 7, filed 5/20/66; Order 952, Regulation 7, filed 7/17/64; Emergency Order 949, filed 5/18/64; Subsection (1) from Order 888, Regulation 7, filed 6/4/62.]

- 16-324-750 Tests for bacterial ring rot—Fees. [Statutory Authority: Chapter 15.14 RCW. 02-12-010, § 16-324-750, filed 5/23/02, effective 6/23/02. Statutory Authority: Chapters 34.05 and 15.14 RCW. 92-22-017 (Order 4014), § 16-324-750, filed 10/22/92, effective 11/22/92.] Repealed by 04-12-026, filed 5/26/04, effective 6/26/04. Statutory Authority: Chapters 15.13, 15.14 and 34.05 RCW.

WAC 16-324-361 Definitions. (1) "Certification" means that the lot of seed potatoes was inspected and meets the requirements of this chapter.

(2) "Cull" means any lot of potatoes rejected for certification for any reason.

(3) "Department" means the department of agriculture of the state of Washington.

(4) "Director" means the director of the department of agriculture or his/her duly appointed representative.

(2007 Ed.)

(5) "Disease tested" means tested for and found free of all of the following diseases: Potato virus A (PVA), potato virus M (PVM), potato virus S (PVS), potato virus X (PVX), potato virus Y (PVY), potato leafroll virus (PLRV), potato spindle tuber viroid (spindle tuber), *Erwinia carotovora* ssp. *carotovora* (soft rot), *Erwinia carotovora* ssp. *atroseptica* (black leg) and *Clavibacter michiganense* ssp. *sependonicum* (ring rot).

(6) "Micropropagated" means potato stock propagated using aseptic laboratory techniques and culture media to promote plant tissue growth.

(7) "Microtubers" means tubers produced in vitro by a micropropagated plant or plantlet.

(8) "Minitubers" means tubers produced under controlled greenhouse conditions.

(9) "Nematode" means plant parasitic nematodes capable of infesting potatoes, including but not limited to the genus *Meloidogyne*.

(10) "Nuclear stock" means plantlets, microtubers, minitubers, or seed potatoes produced from prenuclear stock, and grown in the field for the first time.

(11) "Plot" means a seed potato planting that is 0.25 acre or less in size.

(12) "Powdery scab" means the disease caused by the fungus *Spongospora subterranea*.

(13) "Prenuclear" means micropropagated plants or tubers and plants or minitubers produced in a greenhouse.

(14) "Quarantine pest" means a pest of potential economic importance and not yet present in the state, or present but not widely distributed and being officially controlled.

(15) "Recertification" means the process of certifying a seed lot that was certified the previous year.

(16) "Rogue" means removing diseased or undesirable plants, including all associated plant parts from a seed potato field.

(17) "Seed lot" means a field, in whole or in part, or a group of fields producing seed potatoes, or the potato tubers harvested from a seed potato field.

(18) "Seed potatoes" means vegetatively propagated tubers used for potato production.

(19) "Seed source" means seed potatoes produced by an individual grower within a particular seed production area.

(20) "Trace" means a barely perceivable indication of plant disease that amounts to less than 0.001 percent of sample.

(21) "Tolerance" means the maximum acceptable percentage of potato plants or tubers that is diseased, infected by plant pests, defective or off-type based on visual inspection or laboratory testing by the director or other authorized person.

(22) "Unit method" means a method of planting in which cut seed pieces from one tuber are dropped consecutively in a row, or in which all tubers from one plant are dropped consecutively in a row.

[Statutory Authority: Chapter 15.14 RCW. 02-12-010, § 16-324-361, filed 5/23/02, effective 6/23/02; 00-20-070, § 16-324-361, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-361, filed 5/14/97, effective 6/14/97.]

WAC 16-324-370 General guidance. (1) Participation in this program is voluntary, except as provided in chapter

15.15 RCW, and may be withdrawn at the option of the applicant.

(2) The department will refuse or cancel certification of any seed potato planting or seed potato lot that fails to comply with this chapter.

(3) Issuance of a certified state of Washington tag, stamp or other document under this chapter means only that the tagged, stamped or otherwise documented seed potatoes have been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter. Certification is based solely on compliance with this chapter.

(4) The department is not responsible for disease, genetic disorders, off-type, failure of performance, mislabeling or otherwise, in connection with this chapter. No grower, dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-370, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-370, filed 5/14/97, effective 6/14/97. Statutory Authority: Chapter 15.14 RCW. 78-12-034 (Order 1587), § 16-324-370, filed 11/21/78; Order 1199, § 16-324-370, filed 5/5/71, effective 6/7/71.]

WAC 16-324-375 Application and withdrawal. (1) To apply for certification, applicants must use the form provided by the department and furnish all information requested, including the date, name, signature and address of the applicant, lot number, seed source identification number, variety, class planted, acres, date planted, seed spacing at planting, average length of rows, year the field was last cropped to potatoes, along with their variety and lot number, and a map of the field location. Applications for certification must reach the department on or before June 15 of each year, accompanied by the appropriate fee, field location maps and evidence of eligibility such as tags or certificates. A North American Certified Seed Potato Health Certificate is required for evidence of eligibility for seed lots originating in other states or Canada, and must be submitted with the application. Unless prior approval has been granted, late applications will be assessed a late fee of twenty dollars per application. The department will not accept applications after July 10.

(2) Separate applications are required for each variety, seed source, and seed lot except as described in subsection (5) of this section.

(3) Separate applications are required for each field location that is separated by more than one hundred feet.

(4) Growers may withdraw a seed potato lot from certification for any reason by notifying the department in writing.

(5) Growers may use a single application for multiple varieties planted in a field plot totaling 1/8 acre or less. The application must contain the information required in subsection (1) of this section for each variety. Growers shall use one identification number for the field plot with a separate letter designation for each variety in the field plot.

[Statutory Authority: Chapters 15.13, 15.14 and 34.05 RCW. 04-12-026, § 16-324-375, filed 5/26/04, effective 6/26/04. Statutory Authority: Chapter

15.14 RCW. 02-12-010, § 16-324-375, filed 5/23/02, effective 6/23/02; 00-20-070, § 16-324-375, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-375, filed 5/14/97, effective 6/14/97. Statutory Authority: Chapter 15.14 RCW. 91-10-029 (Order 2083), § 16-324-375, filed 4/24/91, effective 5/25/91; 86-15-045 (Order 1897), § 16-324-375, filed 7/17/86; 78-12-034 (Order 1587), § 16-324-375, filed 11/21/78.]

WAC 16-324-381 Certified seed potato stock—Fees.

(1) The seed potato certification fee is twenty-nine dollars per acre or fraction of an acre.

(2) The certification fee for a field plot is twenty dollars per application.

(3) The department may assess additional fees for time and mileage pursuant to chapter 16-470 WAC.

(4) Growers must submit a minimum of fifty percent of the total certification fees with the applications.

(5) Final payment of certification fees is due and payable November 1 of each year.

(6) For the purpose of fee assessment, acreage may be adjusted by no more than ten percent prior to the first field inspection. The department will refund certification fees, if a written withdrawal notice is received by the department prior to the first field inspection.

(7) Growers are not required to pay the final half of the certification fee on lots rejected or withdrawn before the second inspection.

(8) The department will deny certification to any applicant who fails to pay fees when due.

(9) The department will not accept applications from any grower owing the department for previous fees.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-381, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-381, filed 5/14/97, effective 6/14/97.]

WAC 16-324-382 Seed potato classification. (1) All seed potatoes entered for certification are classified on the basis of production phases as follows:

(a) Prenuclear (PN) - Micropropagated potatoes or seed potatoes grown in a greenhouse or screenhouse under sanitary conditions free of insects, weeds that can harbor potato diseases or other sources of disease contamination.

(b) Nuclear (N) - First field production year.

(c) Generation 1 (G1) - Second field production year.

(d) Generation 2 (G2) - Third field production year.

(e) Generation 3 (G3) - Fourth field production year.

(f) Generation 4 (G4) - Fifth field production year.

(g) Generation 5 (G5) - Sixth field production year.

(2) If a seed lot fails to meet the standards established in this chapter for its class, then it will be reclassified to the earliest generation for which it meets established standards.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-382, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-382, filed 5/14/97, effective 6/14/97.]

WAC 16-324-385 Production requirements. (1) A grower is not eligible to produce nuclear, generation 1, or generation 2 seed potatoes, if ring rot has been detected on his or her farm during the previous two years.

(2) Prenuclear class.

(a) Prenuclear seed lots must be derived from disease tested micropropagated plants. All testing methods and laboratories must be approved by the department.

(b) A minimum of one percent (and not less than twenty samples) of prenuclear seed produced in a greenhouse must be tested and found free of potato virus X (PVX), potato virus Y (PVY), potato virus S (PVS), potato leafroll virus (PLRV), *Erwinia carotovora* ssp. *carotovora* (soft rot), *Erwinia carotovora* ssp. *atroseptica* (black leg), and *Clavibacter michiganense* ssp. *sependonicum* (ring rot).

(c) The department will inspect all facilities used in the production of prenuclear class seed potatoes on a periodic basis. Department approval is necessary in order to utilize these facilities.

(3) Nuclear class.

(a) Nuclear class seed potatoes must be propagated entirely from prenuclear plants.

(b) Each nuclear class seed lot must be distinctly separated in storage and in the field.

(c) If a ground rig is used for spraying, wide enough spacing between rows must be left, so that tires will not touch plants during the growing season.

(d) Growers must plant cut seed and single drop seed separately, with single drop seed identified.

(4) Generations 1, 2, 3, 4 and 5.

(a) Growers must leave a distinct separation of at least six feet unplanted or planted to some other crop between lots of seed potatoes from different classes. A similar separation must be left between different varieties, unless the varieties are readily distinguishable by visual observation.

(b) When more than one lot of seed potatoes is planted in the same field, growers must stake or mark the identity of each lot.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-385, filed 10/3/00, effective 11/3/00.]

WAC 16-324-391 Eligibility requirements. (1) Only seed potatoes derived from plants that have been disease tested and certified by an official certification agency are eligible for certification.

(2) Only seed lots that meet or exceed the minimum requirements as established in this chapter are eligible for certification. A seed lot that has more than a trace amount of virus disease noted during any field inspection is not eligible for recertification, unless it has been post-harvest tested and meets the minimum standards established in WAC 16-324-420.

(3) In order to be eligible for certification in Washington state, seed lots from other states or countries must be eligible for recertification in the state or country of origin.

(4) A seed lot blended from two or more different sources of seed is not eligible for recertification.

(5) A seed lot infected with powdery scab is not eligible for recertification.

(6) Generation 5 (G5) seed lots are not eligible for recertification.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-391, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-391, filed 5/14/97, effective 6/14/97.]

WAC 16-324-392 Isolation requirements. (1) The department must approve all nuclear and generation 1 field locations.

(2007 Ed.)

(2) Generation 2 through generation 5 must be isolated by at least three hundred fifty feet from all noncertified potatoes.

(3) When ring rot is found in a field planted with more than one lot of seed potatoes, the department will reject entire field unless at least six feet between lots has been left unplanted or planted to some other crop.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-392, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-392, filed 5/14/97, effective 6/14/97.]

WAC 16-324-393 Land requirements. (1) The department will not accept any field infested with nematodes.

(2) Detection of ring rot in a field will make that field ineligible for production of certified seed potatoes for three years. Presence of volunteer potato plants in a field with ring rot history will disqualify the current field crop for certification. Plants outside of the defined row are considered volunteers.

(3) Nuclear class seed potatoes must be produced in a field that has not been planted with potatoes for at least four years. (New ground is preferred.)

(4) Generation 1 class seed potatoes must be produced in a field that has not been planted with potatoes for at least three years.

(5) Generation 2, 3, 4, and 5 class seed potatoes must be produced in a field that has not been planted with potatoes during the previous year unless the prior potato crop was certified seed potatoes of an earlier class of the same variety. Volunteer plants from a previously planted seed potato crop will cause the class designation of the current crop to be changed to the appropriate generation of the volunteer plants.

[Statutory Authority: Chapters 15.13, 15.14 and 34.05 RCW. 04-12-026, § 16-324-393, filed 5/26/04, effective 6/26/04. Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-393, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-393, filed 5/14/97, effective 6/14/97.]

WAC 16-324-396 Sanitation requirements. (1) Chemicals used in the sanitation of equipment should be those recommended by the *Pacific Northwest Plant Disease Control Handbook*. Vector control must be maintained throughout the growing season as recommended by the *Pacific Northwest Plant Disease Control Handbook*.

(2) Seed stocks entered for certification must be planted and harvested prior to handling any other seed stock. The earliest generation must be handled prior to lower classes within the program.

(3) Only department-approved containers shall be used during the digging, storage, and packing process.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-396, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-396, filed 5/14/97, effective 6/14/97.]

WAC 16-324-398 Field inspection disease tolerance. (1) Compliance with a 0.0% tolerance is not intended, nor should it be construed, to mean that the lot inspected is free from the disease. It means that the disease was not detected during visual inspections of the seed lot.

(2) First and second field inspection tolerances, expressed as percentages.

	Nuclear	G 1	G 2	G 3	G 4	G5
Factor						
Varietal mixture	0.00	0.00	0.01	0.25	0.25	0.25
Mosaic	0.00	0.10	0.20	0.50	1.00	2.00
Leafroll	0.00	0.05	0.10	0.25	0.25	0.25
Total visible virus	0.00	0.10	0.30	0.75	1.25	2.25
Phytoplasmas	0.00	0.00	0.10	0.20	0.50	1.00
Black leg	0.00	0.10	0.50	1.00	2.00	*
Ring rot	0.00	0.00	0.00	0.00	0.00	0.00
Nematode	0.00	0.00	0.00	0.00	0.00	0.00
Spindle tuber viroid and other quarantined pests	0.00	0.00	0.00	0.00	0.00	0.00

*Tolerance for black leg does not apply to G5.

[Statutory Authority: Chapters 15.13, 15.14 and 34.05 RCW. 04-12-026, § 16-324-398, filed 5/26/04, effective 6/26/04. Statutory Authority: Chapter 15.14 RCW. 02-12-010, § 16-324-398, filed 5/23/02, effective 6/23/02; 00-20-070, § 16-324-398, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-398, filed 5/14/97, effective 6/14/97.]

WAC 16-324-399 Field inspection. (1) The department will visually inspect each seed lot at least two times during the growing season. The department may make additional inspections if the department deems it necessary.

(2) The department will reject all seed lots that do not comply with minimum field inspection standards at the time of inspection.

(3) Growers must notify the department of unusual field conditions, which may cause premature dying from any cause prior to the final reading of the field.

(4) Post-harvest testing is required for any seed lot with a field condition preventing adequate field evaluation at the time of the first field inspection.

(5) If the department is unable to perform the final field inspection of a seed potato lot for any reason at least one of the following actions will be taken:

- (a) The seed lot will be denied certification;
- (b) The seed lot will be denied recertification; and/or
- (c) The lot must be post harvest tested and found free of ring rot.

(6) The department will reject any seed lot in which ring rot is detected and will conduct additional inspections on all of the grower's remaining seed lots. The department will not recertify any seed lot associated with or planted after the rejected lot. The department will submit samples of ring rot detected during field inspections to an approved laboratory for confirmation.

(7) The department may require a post-harvest test and withhold certification pending results of the post-harvest test on seed potato lots exposed to any chemical that causes tuber-borne injury. Any seed potato lot showing five percent or greater tuber-borne chemical damage in the post-harvest test will be rejected for certification.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-399, filed 10/3/00, effective 11/3/00.]

[Title 16 WAC—p. 414]

WAC 16-324-401 Latent virus testing requirements.

(1) PVX testing is required for nuclear and generation 1 class seed potatoes. PVX testing is optional for all other classes.

(2) Growers must submit petiole samples for latent virus testing to a laboratory approved by the department. The applicant is responsible for laboratory testing fees.

(3) The minimum number of plants per seed lot to be sampled for PVX testing is one hundred. For nuclear class, a minimum of one percent of the total number of plants per lot must be sampled. For generation 1, a minimum of two hundred leaves per acre must be sampled. For generation 2, a minimum of fifty leaves per acre must be sampled. Generation 3, 4 and 5 seed lots should be sampled at a rate of twenty leaves per acre. The department may require additional testing.

[Statutory Authority: Chapter 15.14 RCW. 02-12-010, § 16-324-401, filed 5/23/02, effective 6/23/02; 00-20-070, § 16-324-401, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-401, filed 5/14/97, effective 6/14/97.]

WAC 16-324-402 Latent virus tolerance. (1) PVX tolerances are listed in the table that follows and must be based on positive ELISA test results.

PVX TOLERANCE TABLE: PERCENT DISEASE					
NUCLEAR	G1	G2	G3	G4	G5
0.00	0.50	1.00	3.00	4.00	5.00

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-402, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-402, filed 5/14/97, effective 6/14/97.]

WAC 16-324-409 Post-harvest test requirements. (1) Post-harvest testing of all seed classes is optional, except as required in WAC 16-324-399. Seed lots which fail the minimum requirements of the field inspection standards are not eligible for post-harvest testing.

(2) A minimum of four hundred tubers must be submitted for each seed lot entered for post-harvest testing. Seed lots less than one acre in size must submit a minimum of four tubers per total hundred weight with a minimum of fifty tubers.

(3) The applicant is responsible for the cost of post-harvest testing.

(4) Seed lots in the post-harvest test which fail to comply with the disease tolerance requirements set forth in WAC 16-324-420 are not eligible for recertification.

(a) The applicant must notify in writing all receivers of any seed lot that failed to comply with post-harvest tolerances set forth in WAC 16-324-420.

(b) Acceptance of a seed lot that fails to comply with the tolerances set forth in WAC 16-324-420 must be based on a written buyer/seller agreement. The grower must provide the department with a copy of the written agreement within thirty days of receiving the post-harvest results.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-409, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-409, filed 5/14/97, effective 6/14/97.]

(2007 Ed.)

WAC 16-324-420 Post-harvest test tolerances.

TOLERANCE TABLE: PERCENT DISEASE

Factor	NUCLEAR	G1	G2	G3	G4	G5
Leafroll	0.00	0.25	0.50	0.75	1.00	2.00
	0.00	0.25	0.50	1.00	1.50	2.00
Mosaic (well defined)						
Total virus	0.00	0.50	0.75	1.00	1.50	3.00

[Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-420, filed 5/14/97, effective 6/14/97. Statutory Authority: Chapters 34.05 and 15.14 RCW. 92-22-017 (Order 4014), § 16-324-420, filed 10/22/92, effective 11/22/92. Statutory Authority: Chapter 15.14 RCW. 78-12-034 (Order 1587), § 16-324-420, filed 11/21/78; Order 1199, § 16-324-420, filed 5/5/71, effective 6/7/71.]

WAC 16-324-431 Digging, storage and premarket-ing. (1) Each seed lot must be stored with its identity maintained. All tubers from a unit planting method must be numbered and stored as an identifiable unit for the next year's planting.

(2) Each storage or room containing more than one seed lot must have a solid barrier between each lot.

(a) The department will reject any seed lot in which ring rot or nematode is found.

(b) Noncertified potatoes must not be stored in the same facility as certified seed potatoes.

(3) The applicant must notify in writing receivers of any seed lot found to be infected with ring rot. The applicant must provide the department with a copy of this notification when it is sent to the receiver.

(4) All seed classes must be graded according to the United States Standards for Grades of Seed Potatoes.

(5) Each container or sack must be identified with an official Washington seed potato tag listing the grower's name, address, seed lot number, net weight, variety and classification unless such information is printed on the sacks or containers.

(6) The department issues tags to the grower. The grower is required to comply with all of the following:

(a) Tag the sack or container as the potatoes are sorted;

(b) Allow inspection of graded seed potatoes at any time;

(c) Remove the tags from out-of-grade potatoes under the supervision of the department; and

(d) Return all unused tags to the department.

(7) The department may issue a compliance agreement authorizing the grower to tag seed potatoes.

(8) Bulk shipments must be identified with the information required in subsection (5) of this section.

[Statutory Authority: Chapter 15.14 RCW. 02-12-010, § 16-324-431, filed 5/23/02, effective 6/23/02; 00-20-070, § 16-324-431, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-431, filed 5/14/97, effective 6/14/97.]

WAC 16-324-446 Grading inspection. (1) Grading of seed potatoes is the responsibility of the grower. The department monitors grading activities for compliance with the United States Standards for Seed Potatoes and established state standards for seed potatoes.

(2) Upon request, the department provides shipping point inspections for seed potatoes. Fees established in chapter 16-470 WAC apply to all shipping point inspections.

(2007 Ed.)

(3) Three colors of tags are authorized for use on certified seed potatoes.

(a) Blue tags are used for seed potatoes which meet or exceed minimum requirements of United States Standards for US Number 1 grade of seed potatoes.

(b) Yellow tags indicate a contract grade between buyer and seller.

(c) White tags are used for seed potatoes which meet or exceed minimum requirements of US Number 1 standards for grade of seed potatoes except, that the size may not be less than one ounce or more than three ounces in weight.

[Statutory Authority: Chapter 15.14 RCW. 00-20-070, § 16-324-446, filed 10/3/00, effective 11/3/00. Statutory Authority: RCW 15.14.030. 97-11-028, § 16-324-446, filed 5/14/97, effective 6/14/97.]

Chapter 16-325 WAC**SEED POTATO ISOLATION DISTRICT****WAC**

16-325-005

Promulgation—Establishing an isolation district.

16-325-010

Definitions.

16-325-015

Regulated area.

16-325-020

Regulations for potato production within the seed potato isolation district.

16-325-025

Exceptions.

WAC 16-325-005 Promulgation—Establishing an isolation district. The production of high quality seed potatoes within the state requires conditions that are as free as possible from insect pests and plant diseases. The production of other potatoes intermixed with or in close proximity to a concentrated seed potato production area poses an increased risk of introduction of insect pests and plant diseases. To mitigate this problem this chapter establishes a seed potato isolation district requiring commercial potato production within the boundaries to be enrolled in the seed potato certification program.

[Statutory Authority: Chapter 15.15 RCW. 98-09-071, § 16-325-005, filed 4/20/98, effective 5/21/98.]

WAC 16-325-010 Definitions. The definitions in this section shall apply throughout this chapter.

(1) "Department" means the department of agriculture of the state of Washington.

(2) "Director" means the director of the department of agriculture or a duly appointed representative.

(3) "Potato" means plants or plant parts of *Solanum tuberosum*.

(4) "Seed potatoes" means vegetatively propagated tubers of *Solanum tuberosum* used for propagation or production.

(5) "Seed potato certification program" means the program in which certified seed potatoes are produced, as set forth in chapter 16-324 WAC.

[Statutory Authority: Chapter 15.15 RCW. 98-09-071, § 16-325-010, filed 4/20/98, effective 5/21/98.]

WAC 16-325-015 Regulated area. The seed potato isolation district consists of that area of Whatcom County lying within the following boundaries:

On the west the boundary follows Georgia Straight from the Canadian border south to Slater Road.

On the north the boundary follows the Canadian border from Georgia Straight easterly to South Pass Road.

On the east the boundary follows South Pass Rd. southwesterly to the point where the eastern edge of Range 4 East intersects South Pass Road, then south along the eastern boundary of Range 4 East to the Nooksack River (south of the town of Deming).

On the south the boundary follows the Nooksack River northwesterly to the City of Everson, south from Everson on Mission Road to Smith Road, westerly on Smith Rd to Interstate 5, southeasterly on Interstate 5 to Slater Road, westerly on Slater Road to Rural Ave., southwestly on Rural Ave. to Marine Dr., westerly on Marine Dr. to Ferndale Rd., northerly on Ferndale Rd. to Slater then westerly on Slater to Georgia Straight.

[Statutory Authority: Chapter 15.15 RCW. 02-09-030, § 16-325-015, filed 4/9/02, effective 5/10/02; 98-09-071, § 16-325-015, filed 4/20/98, effective 5/21/98.]

WAC 16-325-020 Regulations for potato production within the seed potato isolation district. All potato plantings in excess of one acre must be enrolled in the seed potato certification program described in chapter 16-324 WAC. Affected growers shall be responsible for all associated fees as required in chapter 16-324 WAC.

[Statutory Authority: Chapter 15.15 RCW. 98-09-071, § 16-325-020, filed 4/20/98, effective 5/21/98.]

WAC 16-325-025 Exceptions. The director may allow the production of potatoes, otherwise prohibited, by special permit. The permit shall specify under what conditions and in what location production will be allowed and must be obtained prior to planting.

[Statutory Authority: Chapter 15.15 RCW. 98-09-071, § 16-325-025, filed 4/20/98, effective 5/21/98.]

Chapter 16-328 WAC

CERTIFICATION OF STRAWBERRY PLANTING STOCK

WAC

16-328-008	Definitions.
16-328-011	Strawberry plant certification fees.
16-328-015	Certifying agency issuance of certificate.
16-328-025	Production requirements for foundation strawberry planting stock.
16-328-045	Production requirements for registered and certified strawberry planting stock.
16-328-060	Standards and tolerances for inspection of growing foundation, registered, and certified strawberry planting stock.
16-328-065	Strawberry planting stock certification—Identification and marking.
16-328-083	Strawberry planting stock grades and standards—Washington No. 1.
16-328-085	Strawberry planting stock grades and standards—Washington No. 2.
16-328-088	Strawberry planting stock grades and standards—Tolerances for inspection during or after harvest.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-328-001	Promulgation. [Order 925, Promulgation, filed 6/25/63.] Repealed by 87-13-016 (Order 1932), filed 6/9/87. Statutory Authority: Chapter 15.14 RCW.
------------	---

16-328-002	Promulgation. [Order 1110, § 16-328-002, filed 3/31/69.] Repealed by Order 1216, filed 10/18/71, effective 11/18/71.
16-328-003	Promulgation. [Order 1216, § 16-328-003, filed 10/18/71, effective 11/18/71.] Repealed by 87-13-016 (Order 1932), filed 6/9/87. Statutory Authority: Chapter 15.14 RCW.
16-328-009	Strawberry plant certification standards. [Statutory Authority: Chapter 15.14 RCW. 87-13-016 (Order 1932), § 16-328-009, filed 6/9/87.] Repealed by 00-19-034, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-328-010	Strawberry plant certification fees. [Statutory Authority: Chapter 15.14 RCW. 01-11-032, § 16-328-010, filed 5/8/01, effective 6/8/01; 00-19-034, § 16-328-010, filed 9/12/00, effective 10/13/00; 92-15-114 (Order 3005), § 16-328-010, filed 7/21/92, effective 8/21/92; 87-13-016 (Order 1932), § 16-328-010, filed 6/9/87; Order 1216, § 16-328-010, filed 10/18/71; effective 11/18/71, Order 925, Regulation 1, filed 6/25/63; Order 625, Regulation 1, effective 4/29/52.] Repealed by 03-10-080, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.14 and 34.05 RCW.
16-328-020	Definitions. [Order 625, Regulation 2, effective 4/29/52.] Omitted from Order 925, which superseded Order 625.
16-328-030	Strawberry plant certification—Requirements for production of foundation and registered stock. [Statutory Authority: Chapter 15.14 RCW. 87-13-016 (Order 1932), § 16-328-030, filed 6/9/87; Order 1216, § 16-328-030, filed 10/18/71, effective 11/18/71; Order 925, Regulation 3, filed 6/25/63; Order 625, Regulation 3 (part), effective 4/29/52.] Repealed by 00-19-034, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-328-035	Strawberry plant certification—Requirements for the production of certified stock. [Statutory Authority: Chapter 15.14 RCW. 87-13-016 (Order 1932), § 16-328-035, filed 6/9/87; Order 1216, § 16-328-035, filed 10/18/71, effective 11/18/71; Order 925, Regulation 4, filed 6/25/63; Order 625, Regulations 4 and 5, effective 4/29/52.] Repealed by 00-19-034, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-328-038	Production of certified strawberry nursery stock by micropropagation techniques. [Statutory Authority: Chapter 15.14 RCW. 87-17-024 (Order 1947), § 16-328-038, filed 8/13/87.] Repealed by 00-19-034, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-328-040	Handling the crop prior to inspection. [Order 625, Regulation 4, effective 4/29/52.] Omitted from Order 925, which superseded Order 625.
16-328-050	Field inspection. [Order 625, Regulation 5, effective 4/29/52.] Now codified within WAC 16-328-035.
16-328-070	Classes of certified plants. [Order 625, Regulation 7, effective 4/29/52.] Now codified within WAC 16-328-065.
16-328-080	Strawberry plant certification—Tagging or stamping and plant inspection. [Statutory Authority: Chapter 15.14 RCW. 87-13-016 (Order 1932), § 16-328-080, filed 6/9/87; Order 1216, § 16-328-080, filed 10/18/71, effective 11/18/71; Order 1110, § 16-328-080, filed 3/31/69; Order 925, Regulation 7, filed 6/25/63; Order 625, Regulation 8, effective 4/29/52.] Repealed by 00-19-034, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-328-090	Effective date. [Order 1216, § 16-328-090, filed 10/18/71, effective 11/18/71.] Repealed by 87-13-016 (Order 1932), filed 6/9/87. Statutory Authority: Chapter 15.14 RCW.
16-328-100	Washington No. 1. [Order 925, Strawberry Standards, Regulation 1, filed 6/25/63.] Repealed by Order 1216, filed 10/18/71, effective 11/18/71.
16-328-110	Washington No. 2. [Order 925, Strawberry Standards, Regulation 2, filed 6/25/63.] Repealed by Order 1216, filed 10/18/71, effective 11/18/71.
16-328-120	Tolerances. [Order 925, Strawberry Standards, Regulation 3, filed 6/25/63.] Repealed by Order 1216, filed 10/18/71, effective 11/18/71.
16-328-130	Definitions. [Order 925, Regulation 4, Strawberry Standards, filed 6/25/63; Order 625, Regulation 2, effective 4/29/52.] Repealed by Order 1216, filed 10/18/71, effective 11/18/72.

WAC 16-328-008 Definitions. "Department" means the department of agriculture of the state of Washington.

"Director" means the director of the department of agriculture or a duly appointed representative.

"Fairly clean" means that the roots are not matted or caked with dirt.

"Fairly fresh" means that the roots and petioles are not excessively wilted or otherwise damaged.

"Fairly well trimmed runners and petioles" means that the length of each runner and petiole is three inches or less.

"Firm" means that the crowns are not soft or spongy, although they may yield to slight pressure.

Free from damage by:

(a) "Sunburn" means that the roots are not damaged by sunburn or scald, but slight discoloration may be present.

(b) "Mold" means that the plants are free from excessive mold or decay. Plants slightly affected by mold may be allowed.

(c) "Freezing injury" means that the roots are of a normal color, and the plant is only moderately affected by discolored roots which may affect its normal growth. Black roots caused by disease are not permitted.

(d) "Broken or split crowns, mechanical injury" means there is no breaking or severance of the crown from the root section, or splitting of the crown, or other mechanical injury that would affect the normal growth of the plant.

"Index" means to test for virus infection by means of inoculation from the plant to be tested to an indicator plant, or by any other method accepted by the department.

"Indicator plant" means any herbaceous or woody plant used to index or test for virus infection.

"Moist" means that the plants are reasonably turgid and not dried to a degree that would affect normal growth.

"Nuclear stock" means strawberry plants that have been indexed and found free of known viruses and virus-like diseases by United States Department of Agriculture personnel or other personnel acceptable to the department. Nuclear plants must be reindexed for virus and virus-like diseases at least every three years and maintained under conditions that would ensure freedom from infection.

"Off-type" means appearing by visual examination to be different from the species or variety listed on the application or exhibiting symptoms of a genetic or nontransmissible disorder.

"Similar varietal characteristics" means that the plants have the same general character of growth.

"Tolerance" means the maximum acceptable percentage of planting stock that is diseased, infected by plant pests, defective, or off-type based on visual inspection or laboratory testing by the director or other authorized person.

"Virus-like" means a graft-transmissible disorder resembling a virus disease, including, but not limited to, diseases caused by viroids and phytoplasmas.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 03-10-080, § 16-328-008, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-008, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-008, filed 6/9/87; Order 1216, § 16-328-008, filed 10/18/71, effective 11/18/71.]

WAC 16-328-011 Strawberry plant certification fees. The strawberry plant certification fees are as follows:

(2007 Ed.)

(1) Certification application fee. The applicant must furnish all information requested on the application for inspection, including, but not limited to, the crop, variety, class planted, date planted, source of seed or plants, acreage, field number, applicant's name and address, applicant's signature, and date of application. The applicant must allow the department to take plants or plant parts from any planting for inspection or testing purposes. A separate application is required for each cultivar and/or lot entered for certification. Applications for inspection must be filed with the Plant Services Program, P.O. Box 42560, Olympia, Washington, 98504-2560 by June 15 of each year and be accompanied by the application fee of \$140.00.

(2) Inspection fees. The department will conduct certification inspections at the hourly inspection rate established in chapter 16-401 WAC, plus mileage charged at a rate established by the state office of financial management. Testing fees will be charged at the rate established in chapter 16-470 WAC. Inspection and testing fees are payable upon completion of work. Billing may be arranged subject to department policies and processes.

(3) The department will remove any applicant from the certification program for failing to pay fees when due.

(4) The department will not accept applications from growers owing the department for previous fees.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 04-17-039, § 16-328-011, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13, 15.14, 17.24, and 34.05 RCW. 03-21-166, § 16-328-011, filed 10/22/03, effective 11/22/03. Statutory Authority: Chapters 15.14 and 34.05 RCW. 03-10-080, § 16-328-011, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapter 15.14 RCW. 01-11-032, § 16-328-011, filed 5/8/01, effective 6/8/01.]

WAC 16-328-015 Certifying agency issuance of certificate. (1) Issuance of a state of Washington certified plant tag, stamp or other document, under this chapter means only that the tagged, stamped, or otherwise documented strawberry planting stock has been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation, implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(2) The department is not responsible for disease, genetic disorder, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter. No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(3) Participation in the strawberry planting stock certification program is voluntary.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-015, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-015, filed 6/9/87.]

WAC 16-328-025 Production requirements for foundation strawberry planting stock. (1) Foundation strawberry plants must originate directly from nuclear stock and must be grown in an insect-proof facility on pasteurized soil

[Title 16 WAC—p. 417]

or a soil-less growing medium free of plant pests and vectors of plant pests.

(2) Growers may use micro-propagation techniques to multiply foundation plants prior to planting them in a foundation facility, if both of the following conditions are met:

(a) The micro-propagated plants are isolated from all nonfoundation strawberry plants at all times; and

(b) The micro-propagation facility is approved by the department.

(3) Growers may maintain and increase foundation stock indefinitely, if no individual plant remains in the foundation planting for more than two growing periods.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-025, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-025, filed 6/9/87; Order 1216, § 16-328-025, filed 10/18/71, effective 11/18/71; Order 925, Regulation 2, filed 6/25/63; Order 625, Regulation 3 (part), effective 4/29/52.]

WAC 16-328-045 Production requirements for registered and certified strawberry planting stock. (1) Registered strawberry plants must originate directly from foundation stock.

(2) Certified strawberry plants must be planted with first year plantings of registered or foundation stock.

(3) Registered or certified strawberry plants must be grown in an insect-proof facility or in a field that is at least one-half mile from any noncertified strawberry plants.

(4) The grower must remove or rogue all low-yielding, diseased, off-type or abnormal plants.

(5) Use of any pesticide which suppresses the symptoms of red stele without eradicating the causal pathogen is prohibited.

(6) If registered or certified strawberry plants are grown in a field, all of the following conditions must be complied with:

(a) The field must not have been planted with strawberries during the previous growing season, unless the plants are of the same variety and class and one or both of the following two conditions have been complied with:

(i) The field was inspected by the department in the previous year and found free of red stele; or

(ii) The field was fumigated or treated to control red stele by methods approved by the department.

(b) Each variety must be separated by a distance of at least twelve feet.

(c) All insects and diseases must be effectively controlled using methods recommended by the Washington State University Cooperative Agricultural Extension Service.

(d) The field must be relatively free of weeds.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-045, filed 9/12/00, effective 10/13/00.]

WAC 16-328-060 Standards and tolerances for inspection of growing foundation, registered, and certified strawberry planting stock. (1) The unit of certification is the lot.

(2) Any portion of a field not meeting the standards, tolerances and criteria established in this chapter may be marked and removed from consideration for certification if, in the judgment of the department, it does not jeopardize the certification eligibility of the remaining portion of the field.

[Title 16 WAC—p. 418]

(3) The department will perform at least two visual inspections of each planting prior to harvest and one inspection during or after harvest.

(4) Each lot of foundation, registered or certified planting stock may have no more than the percentage of affected plants listed in the table below.

Factors	TOLERANCES (%)			
	Foundation (all inspections)	Registered	Certified 1st & 2nd inspections	Certified 3rd inspection
Visible Symptoms of Virus Diseases	0	0	1	0.5
Visible Symptoms of Red Stele	0	0	0	0
Nematode	0	0	0	0
Variety Mixture	0	0	0.1	0
All other Diseases (including lethal decline)	0	0.5	2	1

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-060, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-060, filed 6/9/87; Order 1216, § 16-328-060, filed 10/18/71, effective 11/18/71; Order 925, Regulation 5, filed 6/25/63; Order 625, Regulation 6, effective 4/29/52.]

WAC 16-328-065 Strawberry planting stock certification—Identification and marking. (1) After the plants have passed inspection, foundation, registered and certified strawberry planting stock must be identified by the official state of Washington plant tag or stamp. In addition, foundation or registered strawberry planting stock must be marked with the appropriate class as "foundation planting stock" or "registered planting stock."

(2) When they are offered for sale, crown division plants from certified planting stock must be segregated and packed separately from other stock. The plants must be identified with the official state of Washington plant tag or stamp and marked "crown divisions."

(3) All containers must be marked with the name and address of the grower, grade or class of stock, and variety.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-065, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-065, filed 6/9/87; Order 1216, § 16-328-065, filed 10/18/71, effective 11/18/71; Order 1110, § 16-328-065, filed 3/31/69; Order 925, Regulation 6, filed 6/25/63; Order 625, Regulation 7, effective 4/29/52.]

WAC 16-328-083 Strawberry planting stock grades and standards—Washington No. 1. Washington No. 1 strawberry planting stock consists of strawberry plants of one variety or plants of similar varietal characteristics which are:

(1) Fairly fresh.

(2) Firm.

(3) Moist.

(4) Fairly clean.

(5) Fairly well trimmed runners and petioles.

(6) Free from damage caused by:

(a) Sunburn.

(b) Mold.

(c) Freezing injury, black roots.

(d) Broken or split crown, mechanical injury.

(7) Free from detectable dangerous pests or diseases, including plant parasitic nematodes.

Strawberry plants in this grade must have at least ten main roots with a minimum length of two and one-half

(2007 Ed.)

inches, and a minimum crown diameter of one-fourth inch measured at the base of the crown.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-083, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-083, filed 6/9/87.]

WAC 16-328-085 Strawberry planting stock grades and standards—Washington No. 2. Washington No. 2 shall consist of strawberry plants of one variety or plants of similar varietal characteristics which meet all of the requirements of Washington No. 1 except strawberry plants in this grade must have at least six main roots with a minimum length of two and one-half inches.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-085, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-085, filed 6/9/87.]

WAC 16-328-088 Strawberry planting stock grades and standards—Tolerances for inspection during or after harvest. (1) In order to allow for variations incident to proper grading and packing, not more than a combined total of ten percent, by count, of the plants in any lot may fail to meet the requirements of the grades specified in WAC 16-328-083 or 16-328-085.

(2) Individual packages in any lot may vary from the tolerance specified above in this section, if the average for the entire lot, based on sample inspection, is within the tolerance.

(3) Strawberry planting stock must be packed in such manner to retain a fresh condition.

[Statutory Authority: Chapter 15.14 RCW. 00-19-034, § 16-328-088, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-328-088, filed 6/9/87.]

Chapter 16-333 WAC

CERTIFICATION OF CANEBERRY PLANTING STOCK

WAC

16-333-010	Definitions.
16-333-020	Certifying agency issuance of certificate.
16-333-041	Caneberry certification fees.
16-333-045	Production requirements for foundation caneberry planting stock.
16-333-051	Production requirements for registered caneberry planting stock.
16-333-056	Production requirements for certified caneberry planting stock.
16-333-061	Site requirements for foundation, registered and certified caneberry planting stock.
16-333-066	Caneberry greenhouse and screenhouse inspection.
16-333-071	Caneberry field inspection.
16-333-085	Tolerances for foundation, registered and certified caneberry planting stock.
16-333-090	Caneberry planting stock identification and grading.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-333-030	Caneberry certification standards. [Statutory Authority: Chapter 15.14 RCW. 85-22-053 (Order 1876), § 16-333-030, filed 11/5/85.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-333-040	Caneberry certification fees effective June 30, 2001. [Statutory Authority: Chapter 15.14 RCW. 01-11-030, § 16-333-040, filed 5/8/01, effective 6/8/01; 00-19-035, § 16-333-040, filed 9/12/00, effective 10/13/00; 92-15-114 (Order 3005), § 16-333-040, filed 7/21/92, effective 8/21/92; 87-13-016 (Order 1932), § 16-333-040, filed 6/9/87; 85-22-053 (Order 1876), § 16-333-040, filed

16-333-050

11/5/85.] Repealed by 03-10-081, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.14 and 34.05 RCW.

Requirements for production of caneberry foundation and registered stock. [Statutory Authority: Chapter 15.14 RCW. 89-16-051 (Order 2013), § 16-333-050, filed 7/28/89, effective 8/28/89; 87-13-016 (Order 1932), § 16-333-050, filed 6/9/87; 85-22-053 (Order 1876), § 16-333-050, filed 11/5/85.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

16-333-060

Requirements for production of caneberry certified planting stock. [Statutory Authority: Chapter 15.14 RCW. 89-16-051 (Order 2013), § 16-333-060, filed 7/28/89, effective 8/28/89; 85-22-053 (Order 1876), § 16-333-060, filed 11/5/85.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

16-333-065

Production of certified caneberry nursery stock by micropropagation techniques. [Statutory Authority: Chapter 15.14 RCW. 87-17-024 (Order 1947), § 16-333-065, filed 8/13/87.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

16-333-070

Caneberry field inspection. [Statutory Authority: Chapter 15.14 RCW. 85-22-053 (Order 1876), § 16-333-070, filed 11/5/85.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

16-333-080

Caneberry field standards. [Statutory Authority: Chapter 15.14 RCW. 85-22-053 (Order 1876), § 16-333-080, filed 11/5/85.] Repealed by 00-19-035, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

16-333-200

Definitions. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-200, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-205

Approval of stock. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-205, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-210

Seed stock eligible for certification. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-210, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-215

Planting requirements. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-215, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-220

Conditions under which certification may be refused. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-220, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-225

Responsibilities of the grower. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-225, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-230

Storage requirements for certified seed. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-230, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-235

Movement of seed out-of-state—Permit requirement. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-235, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-240

Fees. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-240, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

16-333-245

Certifying agency issuance of certificate. [Statutory Authority: Chapter 15.14 RCW. 91-08-015 (Order 2076), § 16-333-245, filed 3/27/91, effective 4/27/91.] Repealed by 98-13-033, filed 6/8/98, effective 7/9/98. Statutory Authority: Chapter 15.14 RCW.

WAC 16-333-010 Definitions. "Caneberry" means any cultivated *Rubus* species.

"Department" means the department of agriculture of the state of Washington.

"Director" means the director of the department of agriculture or a duly appointed representative.

"Index" means to test for virus infection by means of inoculation from the plant to be tested to an indicator plant, or by any other method approved by the department.

"Indicator plant" means any herbaceous or woody plant used to index or test for virus infection.

"Nuclear stock" means caneberry plants that have been indexed and found free of known viruses and virus-like diseases by United States Department of Agriculture personnel or other personnel acceptable to the department. Nuclear plants must be reindexed for virus and virus-like diseases at least every three years and maintained under conditions that would ensure freedom from infection.

"Off-type" means appearing by visual examination to be different from the species or variety listed on the application or exhibiting symptoms of a genetic or nontransmissible disorder.

"Root cuttings" means sections of roots which have one or more bud.

"Succulent plants" means small, actively growing plants that are developing from root buds, not having passed through a dormant period.

"Tolerance" means the maximum acceptable percentage of planting stock that is diseased, infected by plant pests, defective, or off-type based on visual inspection or laboratory testing by the director or other authorized person.

"Virus-like" means a graft-transmissible disorder resembling a virus disease, including, but not limited to, diseases caused by viroids and phytoplasmas.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 03-10-081, § 16-333-010, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-010, filed 9/12/00, effective 10/13/00; 85-22-053 (Order 1876), § 16-333-010, filed 11/5/85.]

WAC 16-333-020 Certifying agency issuance of certificate. (1) Issuance of a state of Washington certified plant tag, stamp or other document under this chapter means only that the tagged, stamped or otherwise documented caneberry planting stock has been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation, implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(2) The department is not responsible for disease, genetic disorder, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter. No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(3) Participation in the caneberry planting stock certification program shall be voluntary.

[Title 16 WAC—p. 420]

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-020, filed 9/12/00, effective 10/13/00; 87-13-016 (Order 1932), § 16-333-020, filed 6/9/87; 85-22-053 (Order 1876), § 16-333-020, filed 11/5/85.]

WAC 16-333-041 Caneberry certification fees. The caneberry certification fees are as follows:

(1) Certification application fee. The applicant must furnish all information requested on the application form furnished by the department, including, but not limited to, the crop, variety, class planted, date planted, source of seed or plants, acreage, field number, applicant's name and address, applicant's signature, and date of application. The applicant must allow the department to take plants or plant parts from any planting for inspection and testing purposes. A separate application is required for each cultivar and/or lot entered for certification. Applications must be filed with the Plant Services Program, P.O. Box 42560, Olympia, Washington 98504-2560 by May 15 each year and be accompanied by the application fee of \$140.00.

(2) Inspection fees. The department will conduct certification inspections at the hourly inspection rate established in chapter 16-401 WAC, plus mileage charged at a rate established by the state office of financial management. Testing fees will be charged at the rate established in chapter 16-470 WAC. Inspection and testing fees are payable upon completion of work. Billing may be arranged subject to department policies and processes.

(3) The department will remove any applicant from the certification program for failing to pay fees when due.

(4) The department will not accept applications from growers owing the department for previous fees.

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 04-17-038, § 16-333-041, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13, 15.14, 17.24, and 34.05 RCW. 03-21-166, § 16-333-041, filed 10/22/03, effective 11/22/03. Statutory Authority: Chapters 15.14 and 34.05 RCW. 03-10-081, § 16-333-041, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapter 15.14 RCW. 01-11-030, § 16-333-041, filed 5/8/01, effective 6/8/01.]

WAC 16-333-045 Production requirements for foundation caneberry planting stock. (1) Foundation caneberry plants must originate directly from nuclear stock and may be grown in a greenhouse, screenhouse or field.

(2) Growers may use micro-propagation techniques to multiply foundation plants prior to planting them in a foundation greenhouse, screenhouse or field, if both of the following conditions are met:

(a) The micro-propagated plants are isolated at all times from all other caneberry plants, except those that have been indexed and found free of virus or virus-like infections; and

(b) The micro-propagation facility is approved by the department.

(3) Growers may transplant micro-propagated foundation plants to a greenhouse or screenhouse for conditioning prior to planting them in a foundation field.

(4) Foundation plants may be harvested from a foundation field planting for no more than one year.

(5) Foundation plants grown in an insect-proof facility in approved soil-less media may be maintained indefinitely, providing they are indexed and found free of virus or virus-like infections at intervals of no more than three years by per-

(2007 Ed.)

sonnel employed by the United States Department of Agriculture or other institution approved by the department.

(6) Each foundation plant in a foundation greenhouse or screenhouse must be grown in a container individually identified by the cultivar and lot.

(7) Different cultivars planted in a foundation field must be separated by a distance of fourteen feet or by a physical barrier that prevents the intermingling of roots.

(8) Upon request, growers must provide records to the department documenting the cultivar, nuclear source, indexing results and date of acquisition for any foundation stock.

[Statutory Authority: Chapter 15.14 RCW. 01-11-030, § 16-333-045, filed 5/8/01, effective 6/8/01; 00-19-035, § 16-333-045, filed 9/12/00, effective 10/13/00.]

WAC 16-333-051 Production requirements for registered caneberry planting stock. (1) Registered caneberry plants must originate directly from nuclear or foundation stocks and may be grown in a greenhouse, screenhouse or field.

(2) Registered plants of differing cultivars produced in a registered greenhouse or screenhouse must be grown in separate containers.

(3) Different cultivars planted in a registered field must be separated by a distance of fourteen feet or by a physical barrier that prevents the intermingling of roots.

(4) Registered plants may be harvested from a registered planting for no more than one year.

(5) Upon request, growers must provide records to the department documenting the cultivar, source, indexing results and date of acquisition for any registered stock.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-051, filed 9/12/00, effective 10/13/00.]

WAC 16-333-056 Production requirements for certified caneberry planting stock. (1) Certified caneberry plants must originate directly from foundation or registered planting stock, or from root cuttings or succulent plants from foundation or registered plants.

(2) Different cultivars planted in a certified field must be separated by a distance of fourteen feet or by a physical barrier that prevents the intermingling of roots.

(3) Certified plants may be harvested from a certified planting for no more than one year.

(4) Upon request, growers of certified planting stock must provide records to the department documenting the cultivar, source, indexing results and date of acquisition for any certified stock.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-056, filed 9/12/00, effective 10/13/00.]

WAC 16-333-061 Site requirements for foundation, registered and certified caneberry planting stock. (1) Prior to planting foundation, registered, or certified planting stock, the grower must obtain approval from the department for each field site or facility.

(2) For approval by the department, a field site for growing foundation, registered, or certified planting stock must comply with each of the following criteria:

(a) The site has not been planted to caneberry plants or solanaceous crops for the previous five years, or the entire

site has been tarp fumigated with chloropicrin and methyl bromide or other equivalent soil treatments approved by the department.

(b) The entire site is at least five hundred feet from any noncertified *Rubus* plants.

(c) The site has been treated for plant parasitic nematodes using methods recommended by the Washington State University Cooperative Agricultural Extension Service, and its soil has been tested and found free of harmful plant parasitic nematodes.

(3) In order to grow foundation or registered caneberry planting stock in a greenhouse or screenhouse, the grower must use a pasteurized growing media, free of plant pests and vectors of virus pests.

(4) Upon request, growers must provide records to the department documenting fumigations, treatments, and tests.

(5) A map identifying cultivars and lots at each site must be provided to the department by the grower.

(6) Growers must tag all lots identifying the cultivar and/or the lot number.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-061, filed 9/12/00, effective 10/13/00.]

WAC 16-333-066 Caneberry greenhouse and screenhouse inspection. (1) Foundation or registered caneberry plants growing in a greenhouse or screenhouse must be inspected by the department at least one time during the growing period when the plants are likely to express symptoms of virus infection, crown and cane gall infections, and other disorders. The department may conduct additional inspections.

(2) During inspection, the department will flag all plants that are visibly off-type, crown gall infected, virus infected, or exhibiting virus-like symptoms.

(3) Growers must remove all plants flagged by the department immediately after inspection.

(4) The unit of certification is the lot.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-066, filed 9/12/00, effective 10/13/00.]

WAC 16-333-071 Caneberry field inspection. (1) Field grown foundation, registered, or certified caneberry planting stock must be inspected by the department at least three times during the growing period.

(a) The first and second inspections must be conducted when the plants are likely to express symptoms of virus infection, crown and cane gall infections, and other disorders.

(b) The department will conduct the third inspection during or after harvest.

(c) The department may conduct additional inspections.

(2) During inspections, the department will flag all plants that are visibly off-type, crown gall infected, virus infected, or exhibiting symptoms of other caneberry pests or diseases.

(3) Growers must rogue in compliance with the criteria in this subsection all plants flagged by the department within one week after inspection.

(a) Roguing after the first field inspection must include removing the undesirable plant and all of its roots.

(b) Roguing after the second field inspection must include removing the undesirable plant and all of its roots, as

well as all plants and plant parts within ten feet of the undesirable plant.

(4) Any portion of a field not meeting the standards, tolerances and criteria established in this chapter may be marked and removed from consideration for certification if, in the judgment of the department, it does not jeopardize the certification eligibility of the remaining portion of the field.

(5) The unit of certification is the lot.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-071, filed 9/12/00, effective 10/13/00.]

WAC 16-333-085 Tolerances for foundation, registered and certified caneberry planting stock. (1) Each lot of foundation, registered or certified planting stock may have no more than the percentage of affected plants listed in the table below:

	Foundation All inspections	Registered All inspections	Certified All inspections
Factors	Percent	Percent	Percent
Varietal mixture	0	0	0
Visible symptoms of virus diseases	0	0.05	0.5
Crown and cane gall	0	0.1	1.0
Nematode	0	0.05	0.1
Anthrachnose	0	2.0	5.0
Other diseases	0	Practically free	Practically free
Root, cane or crown inhabiting insects	0	0.05	0.1

(2) Caneberry planting stock that fails to meet any tolerance for its intended class may be reclassified to the next class for which it meets all of the tolerances.

[Statutory Authority: Chapter 15.14 RCW. 01-11-030, § 16-333-085, filed 5/8/01, effective 6/8/01; 00-19-035, § 16-333-085, filed 9/12/00, effective 10/13/00.]

WAC 16-333-090 Caneberry planting stock identification and grading. (1) All caneberry planting stock meeting the requirements and standards of this chapter may be identified with the state of Washington official certified caneberry plant tag or stamp issued by the department.

(2) All containers must be marked with the name and address of the grower, class of certified stock, variety, and lot number.

(3) Quality and grading of planting stock is the responsibility of the grower.

[Statutory Authority: Chapter 15.14 RCW. 00-19-035, § 16-333-090, filed 9/12/00, effective 10/13/00; 85-22-053 (Order 1876), § 16-333-090, filed 11/5/85.]

[Title 16 WAC—p. 422]

Chapter 16-334 WAC

RULES RELATING TO THE PRODUCTION OF GARLIC SEED CERTIFICATION

WAC

16-334-010	Definitions.
16-334-020	Garlic seed—General.
16-334-030	Requirements for participation in the seed garlic certification program.
16-334-040	Inspection and testing requirements for certification.
16-334-050	Conditions under which certification may be refused.
16-334-060	Responsibilities of the grower.
16-334-070	Storage requirements for registered and certified garlic seed.
16-334-080	Movement of garlic planting stock—Permit required.

WAC 16-334-010 Definitions. (1) "Certified block" means a planting of a single variety of garlic established from foundation stock, registered stock or certified stock, which complies with the requirements of this chapter.

(2) "Certified stock" means garlic which is produced in a certified block and/or which complies with the requirements of this chapter.

(3) "Department" means the Washington state department of agriculture.

(4) "Director" means the director of the Washington state department of agriculture or the director's duly authorized representative.

(5) "Foundation block" means a garlic planting established from stock subjected to a laboratory disease elimination procedure approved by the director, which complies with the requirements of this chapter.

(6) "Foundation stock" means garlic which is produced in a foundation block and which complies with the requirements of this chapter.

(7) "Garlic" means plants, plantlets, cloves, bulbs or any plant part of *Allium sativum* or related varieties.

(8) "Garlic seed" means vegetatively propagated bulbs or cloves of garlic used for planting purposes.

(9) "Off-type" means appearing different by visual examination from the variety listed on the application or exhibiting symptoms of a genetic or nontransmissible disorder.

(10) "Planting stock" means certified stock, registered stock or foundation stock.

(11) "Registered block" means a planting of a single variety of garlic which is established from foundation stock or registered stock and which complies with the requirements of this chapter.

(12) "Registered stock" means garlic which is produced in a registered block and which complies with the requirements of this chapter.

(13) "Stem and bulb nematode" means *Ditylenchus dipsaci*.

(14) "White rot fungus" means *Sclerotinium cepivorum*.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-010, filed 5/18/98, effective 6/18/98.]

WAC 16-334-020 Garlic seed—General. (1) Issuance of a state of Washington certified plant tag, stamp or other document means only that the tagged, stamped, or otherwise documented plant materials have been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and require-

(2007 Ed.)

ments. The department disclaims all expressed or implied warranties, including without limitation, implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials.

(2) The department is not responsible for disease, genetic disorder, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter.

(3) No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding certification.

(4) Participation in the seed garlic certification program is voluntary.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-020, filed 5/18/98, effective 6/18/98.]

WAC 16-334-030 Requirements for participation in the seed garlic certification program. (1) Participants in the seed garlic certification program must submit an annual two-hundred dollar application fee and all applications for plant propagation and certification by July 1 prior to planting. A separate application form must be used for each variety to be certified.

(2) As a condition of participation in the seed garlic certification program, the applicant grower must furnish the department all requested information pertinent to the operation of the program and must give consent to the department to take material for examination and testing.

(3) Garlic seed to be planted into registered or certified blocks must be inspected and tested in compliance with WAC 16-334-030 during the prior growing season by the department or by another certifying agency approved by the department. All such garlic seed must be found to be free of stem and bulb nematode and white rot fungus.

(4) Foundation blocks must be planted with garlic seed that has been through an approved disease elimination process.

(5) Registered blocks must be planted with garlic seed that originates from an approved program as foundation or registered stock.

(6) Certified blocks must be planted with garlic seed that originates from an approved program as foundation stock, registered stock or certified stock. The department may accept other garlic seed as certified stock, if the garlic seed has been inspected, tested, and found free of stem and bulb nematode and white rot fungi, as specified in subsection (3) above, for the previous two growing seasons.

(7) Planting sites for foundation, registered and certified blocks must be inspected and approved by the department at least 30 days prior to planting. At a minimum, planting sites must comply with all of the following criteria:

(a) The site has been out of *Allium spp.* production for at least five years;

(b) The site is found free of stem and bulb nematode based on an official laboratory test;

(c) The site is not infested with white rot fungus;

(d) The site is not likely to become infested with stem and bulb nematode or white rot fungus by drainage, flooding or irrigation;

(e) The site is separated from all other certified, registered, or foundation blocks by a minimum of six feet, unless

(2007 Ed.)

the department approves alternative precautions to preserve identity;

(f) The site is a minimum of five hundred feet from any planting of noncertified *Allium spp.*

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-030, filed 5/18/98, effective 6/18/98.]

WAC 16-334-040 Inspection and testing requirements for certification. (1) The department shall conduct the following inspections for white rot fungus:

(a) One growing season inspection for all field plantings;

(b) One inspection at harvest or during storage;

(2) The department shall collect samples and conduct laboratory analysis for stem and bulb nematode on the following:

(a) Soil from all sites prior to planting;

(b) Plants from foundation and registered blocks, collected at approximately 20 foot intervals and composited on a one acre basis;

(c) Plants from certified blocks equal to or greater than one quarter acre intended to be planted back for recertification, collected at approximately 20 foot intervals and composited on a one acre basis;

(d) Plants from certified blocks of less than a quarter acre intended for recertification, comprising a reasonable sample of not more than five percent of the total plants.

(3) The department may require additional inspections or tests as needed.

(4) Inspection fees as established in chapter 16-401 WAC and laboratory analysis fees as established in chapter 16-470 WAC are applicable to this program.

(5) Payment is due upon completion of each inspection or test. Billing may be arranged subject to department policies and processes.

[Statutory Authority: Chapter 15.14 RCW. 00-01-148, § 16-334-040, filed 12/21/99, effective 1/21/00; 98-11-048, § 16-334-040, filed 5/18/98, effective 6/18/98.]

WAC 16-334-050 Conditions under which certification may be refused. Any plant that appears to be growing abnormally or with abnormal appearing bulbs will be collected and examined for the presence of pests or disease. The department may refuse to certify a planting or the harvested bulbs of garlic if:

(1) The garlic is found to be infested with stem and bulb nematode or infected with white rot fungi; or

(2) The garlic is infected with any other pest that the department determines cannot be eliminated by treatment or roguing; or

(3) A plant or plants are off-type, unless the block is rogued to the satisfaction of the department; or

(4) The participant has failed to pay in a timely manner any fees applicable to this program; or

(5) The participant has failed to comply with any requirements in this chapter.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-050, filed 5/18/98, effective 6/18/98.]

WAC 16-334-060 Responsibilities of the grower. In addition to other requirements specified in this chapter, a

grower participating in this program must perform all of the following:

- (1) Conduct an active program of garlic pest control;
- (2) Use precautions when cultivating, irrigating and moving equipment to prevent the spread of soil-borne pests or diseases;
- (3) Comply with the white rot quarantine regulations in WAC 16-470-300;
- (4) Maintain the identity of each lot.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-060, filed 5/18/98, effective 6/18/98.]

WAC 16-334-070 Storage requirements for registered and certified garlic seed. (1) Harvested seed garlic shall be stored in:

- (a) Clean bins or containers that have not been used to store noncertified *Allium spp.*; and
- (b) Clean storage areas approved by the department where onions are not stored.

(2) Harvested planting stock must be held in one of the following:

- (a) New bags;
- (b) Bags that have been only used to store certified garlic seed; or
- (c) Bags that have been used to store crops other than onions and have been sanitized prior to use for garlic.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-070, filed 5/18/98, effective 6/18/98.]

WAC 16-334-080 Movement of garlic planting stock—Permit required. In order to move planting stock out of Washington for cracking or other treatment, the participant must comply with all of the following requirements:

- (1) The identity of each lot must be maintained at all times;
- (2) The participant must obtain a permit from the department prior to movement of the planting stock out of Washington;
- (3) The number specified on its permit shall be used to identify each lot;
- (4) The permit must accompany the shipping container at all times; and
- (5) The permit must accompany certified seed garlic re-entering the state.

[Statutory Authority: Chapter 15.14 RCW. 98-11-048, § 16-334-080, filed 5/18/98, effective 6/18/98.]

16-350-065	Statutory declaration of unlawful acts. [Statutory Authority: Chapter 15.14 RCW. 90-23-006 (Order 2058), § 16-350-065, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-065, filed 1/15/74; Order 1300, § 16-350-065, filed 3/26/73; Order 951 (part), filed 7/2/64; Order 890 (part), effective 9/17/62.] Repealed by 00-19-036, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-350-070	Effective date. [Order 1331, § 16-350-070, filed 1/15/74; Order 1300, § 16-350-070, filed 3/26/73.] Repealed by 00-19-036, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.
16-350-075	Certifying agency issuance of certificate. [Statutory Authority: Chapter 15.14 RCW. 90-23-006 (Order 2058), § 16-350-075, filed 11/9/90, effective 12/10/90.] Repealed by 00-19-036, filed 9/12/00, effective 10/13/00. Statutory Authority: Chapter 15.14 RCW.

WAC 16-350-010 General. (1) Trees may be registered as rootstock and scion sources for the propagation of certified nursery stock when inspected, tested and found to be discernibly free from harmful virus and virus-like diseases and other conditions by procedures outlined in this program.

(2) Issuance of a certified state of Washington plant tag, stamp or other document under this chapter means only that the tagged, stamped or otherwise documented fruit tree or fruit tree related ornamental stock and rootstock have been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(3) The department is not responsible for disease, genetic disorders, off-type, failure of performance, mislabeling or otherwise, in connection with this chapter. No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(4) Participation in the fruit tree planting stock certification program is voluntary.

[Statutory Authority: Chapter 15.14 RCW. 00-19-036, § 16-350-010, filed 9/12/00, effective 10/13/00; Order 1331, § 16-350-010, filed 1/15/74; Order 1300, § 16-350-010, filed 3/26/73; Order 951 (part), filed 7/2/64; Order 890 (part), effective 9/17/62.]

(2007 Ed.)

WAC 16-350-015 Definitions. (1) "Indicator plant" means any herbaceous or woody plant used to index or test for virus infection.

(2) "Index" means to test for virus infection by means of inoculation from the plant to be tested to an indicator plant, or by any other method approved by the department.

(3) "NRSP-5" means the United States Department of Agriculture National Research Support Project 5.

(4) "Off-type" means appearing by visual examination to be different from the species or variety certified or exhibiting symptoms of a genetic or nontransmissible disorder.

(5) "Scion block" means a planting of registered trees which serves as a source of scion wood for the propagation of certified nursery stock.

(6) "Seed block" means a planting of registered trees which serves as a source of seed for producing rootstock used in the propagation of certified nursery stock.

(7) "Stool bed" means a clonal planting of self-rooted registered trees for the specific purpose of producing vegetatively propagated rootstock used in the propagation of certified nursery stock.

(8) "Virus-like" means a graft-transmissible disorder resembling a virus disease, including, but not limited to, diseases caused by viroids and phytoplasmas.

(9) "Washington certified nursery stock" means nursery grown seedlings, clonal rootstocks and nursery grown trees of the plant genera *Chaenomeles*, *Cydonia*, *Crataegus*, *Malus*, *Prunus*, *Pyrus* and *Sorbus*, that comply with the requirements of this chapter.

(10) "Washington certified seed" means seed produced on registered seed trees in compliance with this chapter.

[Statutory Authority: Chapter 15.14 RCW. 00-19-036, § 16-350-015, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-015, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-015, filed 1/15/74; Order 1300, § 16-350-015, filed 3/26/73; Order 951, Regulation 1, filed 7/2/64; Order 890, Regulation 1, effective 9/17/62.]

WAC 16-350-020 Requirements. (1) The applicant is responsible, subject to the approval of the department, for the selection of the location and the proper maintenance of registered plantings grown under the provisions of this program. The applicant is also responsible for maintaining the identity of all nursery stock entered in this program in a manner approved by the department. Any planting entered in this program must be kept in a thrifty growing condition free of plant pests.

(2) Budding, grafting, or top-working of registered trees is prohibited, except for indexing under the supervision of the department.

(3) Applicants must remove any tree that is infected with virus or virus-like disease or is off-type, following notification by the department.

[Statutory Authority: Chapter 15.14 RCW. 00-19-036, § 16-350-020, filed 9/12/00, effective 10/13/00; Order 1331, § 16-350-020, filed 1/15/74; Order 1300, § 16-350-020, filed 3/26/73; Order 951, Regulation 2(a), filed 7/2/64; Order 890, Regulation 2 (part), effective 9/17/62.]

WAC 16-350-025 Requirements for registered scion blocks. (1) The department will assign a registration number to each registered scion tree.

(2) Only registered trees are permitted in a registered scion block.

(2007 Ed.)

(3) Isolation requirements.

(a) *Prunus* trees must be at least one hundred feet from any nonregistered *Prunus* tree.

(b) *Chaenomeles*, *Cydonia*, *Crataegus*, *Malus*, *Pyrus*, and *Sorbus* trees must be at least sixty feet from any nonregistered plant of the Rosaceae family. The department may waive the isolation distance for registered trees of these genera, if the trees are separated by a physical barrier that would prevent the intermingling of roots.

(4) The ground in a scion block and for a distance of twenty feet on all sides around it must be kept either clean cultivated or in ground cover relatively free of broadleaf weeds.

(5) Registered scion trees must be propagated from foundation scion wood obtained from NRSP-5 or other equivalent sources approved by the department and rootstock that complies with the requirements established in this chapter, except:

(a) Registered scion trees of the genus *Malus* may be propagated with scion wood from other registered *Malus* trees, if all of the following three conditions are complied with:

(i) No registered tree utilized is more than two generations from the foundation source.

(ii) The registered tree providing scion wood for a second generation registered tree is identified and its location is known.

(iii) The department monitors the propagation of second generation registered scion trees.

(b) Registered scion trees may be propagated from trees that have been indexed and found free of all known virus and virus-like diseases by NRSP-5 or other programs approved by the department using equivalent indexing methods.

[Statutory Authority: Chapter 15.14 RCW. 00-19-036, § 16-350-025, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-025, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-025, filed 1/15/74; Order 1300, § 16-350-025, filed 3/26/73; Order 951, Regulation 2(b), filed 7/2/64; Order 890, Regulation 2 (part), effective 9/17/62.]

WAC 16-350-030 Requirements for registered seed blocks. (1) The department will assign a registration number to each registered seed tree.

(2) Only registered trees are permitted in a registered seed block.

(3) *Prunus* seed blocks must be located at least one hundred feet from any nonregistered *Prunus* plants.

(4) The ground in a seed block and for a distance of twenty feet on all sides around it must be kept either clean cultivated or in ground cover relatively free of broadleaf weeds.

(5) Registered seed trees must be propagated from foundation or registered scion wood and rootstock that has been demonstrated to be free of all virus or virus-like diseases.

[Statutory Authority: Chapter 15.14 RCW. 00-19-036, § 16-350-030, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-030, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-030, filed 1/15/74; Order 1300, § 16-350-030, filed 3/26/73; Order 951, Regulation 2(c), filed 7/2/64; Order 890, Regulation 2 (part), effective 9/17/62.]

WAC 16-350-032 Requirements for registered stool beds. (1) Only registered trees are permitted in a registered stool bed.

(2) Registered stool beds must be at least ten feet from nonregistered plants of the Rosaceae family.

(3) The ground in a stool bed and for a distance of at least ten feet on all sides around it must be kept clean cultivated.

(4) Registered stool beds must be planted with foundation or registered planting stock. Certified rootstocks from programs approved by the department may also be used, provided the resulting stock in the stool bed is tested and found free of virus and virus-like diseases prior to harvest of certified rootstock.

[Statutory Authority: Chapter 15.14 RCW, 00-19-036, § 16-350-032, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-032, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-032, filed 1/15/74; Order 1300, § 16-350-032, filed 3/26/73.]

WAC 16-350-035 Requirements for certified nursery planting stock. (1) All nursery stock being grown for certification must be propagated on certified rootstock. Certified rootstock must comply with at least one of the following conditions:

(a) Rootstock propagated directly from registered trees.

(b) Rootstock originating from other approved certification programs, if the rootstock was propagated directly from mother plants that have been tested and found free of all known virus and virus-like diseases.

(c) *Prunus persica* seedlings grown from commercial seed, if the seed lot has been tested for transmissible virus content, and not more than five percent of the seed tested positive for transmissible virus content.

(d) Pome fruit seedlings.

(2) Growers must keep records identifying the scion, rootstock, and interstock sources for all Washington certified stock. Upon request, these records must be made available to the department.

(3) Seed may be designated as Washington certified seed only if both of the following conditions are complied with:

(a) The seed was produced on registered seed trees; and

(b) The seed lot has been tested for transmissible virus content, and not more than five percent of the seed tested positive for transmissible viruses.

(4) Washington certified nursery stock must be identified by a blue certification tag.

(5) When it is offered for sale, Washington certified nursery stock must be identified as to variety, interstock and rootstock.

[Statutory Authority: Chapters 15.14 and 34.05 RCW, 05-03-042, § 16-350-035, filed 1/11/05, effective 2/11/05. Statutory Authority: Chapter 15.14 RCW, 00-19-036, § 16-350-035, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-035, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-035, filed 1/15/74; Order 1300, § 16-350-035, filed 3/26/73; Order 951, Regulation 2(d), filed 7/2/64; Order 890, Regulation 2 (part), effective 9/17/62.]

WAC 16-350-040 Inspection and testing for certification of nursery planting stock. (1) The department will conduct all inspections, testing and indexing prescribed in this chapter in a manner and at times the department has determined to be suitable. The methods and procedures used for making the virus and virus-like disease determinations will conform to the standards of NRSP-5.

(2) The department will refuse certification of planting stock that has been propagated from registered trees found to

be infected by a virus or virus-like disease, or if other requirements of this chapter have not been complied with.

[Statutory Authority: Chapters 15.14 and 34.05 RCW, 04-11-025, § 16-350-040, filed 5/11/04, effective 7/1/04. Statutory Authority: Chapter 15.14 RCW, 00-19-036, § 16-350-040, filed 9/12/00, effective 10/13/00; Order 1331, § 16-350-040, filed 1/15/74; Order 1300, § 16-350-040, filed 3/26/73; Order 951, Regulation 3, filed 7/2/64; Order 890, Regulation 3, effective 9/17/62.]

WAC 16-350-045 Application and fees. (1) The applicant must provide the department with all information documenting the eligibility of all registered and certified stock and must allow the department to take samples for indexing and testing purposes.

(2) An application for certification must be filed with the department by June 1 of each year accompanied by an application fee. The application fee will consist of \$100.00 plus \$10.00 for each registered *Prunus* tree and \$2.00 for each registered pome tree.

(3) The application fee will apply toward the annual assessment on the gross wholesale price of all fruit trees and fruit tree related ornamental nursery stock produced in Washington and sold within the state or shipped from the state during any license period, as set forth in RCW 15.13.310. No refund of the application fee will be allowed.

[Statutory Authority: Chapters 15.14 and 34.05 RCW, 04-11-025, § 16-350-045, filed 5/11/04, effective 7/1/04. Statutory Authority: Chapter 15.14 RCW, 00-19-036, § 16-350-045, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-045, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-045, filed 1/15/74; Order 1300, § 16-350-045, filed 3/26/73; Order 1275, § 16-350-045, filed 7/6/72; Order 951, Regulation 4, filed 7/2/64; Order 890, Regulation 4, effective 9/17/62.]

WAC 16-350-050 Tagging and identity. (1) The department authorizes the use of official certification tags for the identification of nursery stock or seed that meet the requirements of this program. These tags will be supplied by the department to all growers participating in the program. Participating growers will reimburse the department for all certification tags supplied. This reimbursement will be based on the cost incurred by the department.

(2) Any person selling Washington certified nursery stock or Washington certified seed is responsible for the identity of the stock bearing each tag and for such nursery stock or seed meeting the requirements of this program. Persons issued tags authorized by the program must account for stock produced and sold, keep such records, and make them available to the department upon request.

[Statutory Authority: Chapter 15.14 RCW, 00-19-036, § 16-350-050, filed 9/12/00, effective 10/13/00; 90-23-006 (Order 2058), § 16-350-050, filed 11/9/90, effective 12/10/90; Order 1331, § 16-350-050, filed 1/15/74; Order 1300, § 16-350-050, filed 3/26/73; Order 951, Regulation 5, filed 7/2/64; Order 890, Regulation 5, effective 9/17/62.]

16-354-002	Promulgation. [Order 1264, § 16-354-002, filed 5/10/72.] Repealed by 98-09-049, filed 4/15/98, effective 5/16/98. Statutory Authority: Chapter 15.14 RCW.
16-354-060	Standards for hop rootstock (early and late cluster type). [Order 1023, Regulation VI, filed 6/16/66; Order 996, Regulation VI, filed 11/30/65; Order 947, Regulation VI, filed 4/13/64.] Repealed by Order 1264, filed 5/10/72.
16-354-080	Effective date. [Order 1264, § 16-354-080, filed 5/10/72.] Repealed by 85-15-046 (Order 1867), filed 7/16/85. Statutory Authority: Chapter 15.14 RCW.

WAC 16-354-005 Hop rootstock—General. (1) Rootstocks of hops and hop plants (*Humulus Lupulus L.*) may be designated as foundation stock, registered stock or certified stock, if the rootstocks and plants from which they were produced have been inspected and tested in accordance with procedures and requirements outlined in rule. At a minimum, these procedures and requirements deal with Ilar viruses and virus-like diseases, downy mildew, verticillium wilt, crown gall, rootknot nematode, hop cyst nematode and other serious pests.

(2) Issuance of a state of Washington certified plant tag, stamp, or other document under this chapter means only that the tagged, stamped, or otherwise documented rootstock or plant stock has been subjected to procedures and requirements described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all express or implied warranties, including without limitation implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(3) The department is not responsible for disease, genetic disorders, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter. No grower, nursery dealer, government official or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(4) Participation in the hop rootstock certification program is voluntary.

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-005, filed 4/15/98, effective 5/16/98. Statutory Authority: RCW 15.14.030 (2), (5). 95-18-034 (Order 5083), § 16-354-005, filed 8/28/95, effective 9/28/95. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-005, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-005, filed 7/16/85; Order 1264, § 16-354-005, filed 5/10/72.]

WAC 16-354-010 Definitions. (1) "Broken or mutilated rootstock" means the breaking of the root section or splitting of the plant part or other mechanical injury that would affect the normal growth of the plant.

(2) "Certified mother block" means a planting of hop stocks established from foundation rootstock.

(3) "Certified rootstock" means rootstock produced from certified mother blocks and meeting the requirements as herein provided.

(4) "Crown" means a slip or layered stem cutting with visible buds, that has been grown for one or two years.

(5) "Crown gall" means the disease caused by *Agrobacterium tumefaciens* E. F. Sm. & Towns., Conn.

(6) "Department" means the Washington state department of agriculture.

(7) "Director" means the director of the Washington state department of agriculture or the director's authorized representative.

(8) "Downy mildew and/or black rot" means the disease caused by *Pseudoperonospora humuli* Miy. & Tak., G. W. Wils. Black roots caused by this disease shall not be permitted.

(9) "Fairly clean" means that the plant parts are not matted or caked with dirt.

(10) "Fairly fresh" means that the roots or cuttings are not excessively wilted.

(11) "Firm" means that the plant parts are not soft or spongy, although they may yield to slight pressure.

(12) "Foundation rootstock" means planting material taken from hop stocks established and maintained by Washington State University, which are indexed and believed to be free from known viruses. Such stock must, as much as practicable, be genetically uniform.

(13) "Free from damage caused by freezing injury" means that the roots shall be of a normal color and only moderately affected by discolored roots which affect the normal growth of the plant.

(14) "Free from damage caused by mold" means that the plants shall be free from excessive mold or decay. Plants slightly affected by mold shall be allowed.

(15) "Hop cyst nematode" means the nematode *Heterodera humuli* Filipjev.

(16) "Ilar virus" means a grouping of viruses, including Apple Mosaic Virus and Prunus Necrotic Ringspot, which share common characteristics including spherical in shape, with genetic material in three different particles and commonly inducing ring spots in hosts.

(17) "Index" means to determine virus infection by means of inoculation from the plant to be tested to an indicator plant or by any other method.

(18) "Moist" means that the plant parts are reasonably turgid and not dried to a degree that would affect normal growth.

(19) "Powdery mildew" means the disease caused by *Sphaerotheca humuli* (DC) Burrill = *Sphaerotheca macularis* (WALLR.: FR) Lind.

(20) "Rootknot nematode" means the nematode *Meloidogyne* sp.

(21) "Verticillium wilt" means the disease caused by *Verticillium albo-atrum* Reinke & Berth. or hop strains of this organism.

(22) "Virus-like" means a transmissible disorder of unknown cause.

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-010, filed 4/15/98, effective 5/16/98. Statutory Authority: RCW 15.14.030 (2), (5). 95-18-034 (Order 5083), § 16-354-010, filed 8/28/95, effective 9/28/95. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), §

16-354-010, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-010, filed 7/16/85; Order 1264, § 16-354-010, filed 5/10/72; Order 1023, Regulation I, filed 6/16/66; Order 996, Regulation I, filed 11/30/65; Order 947, Regulation I, filed 4/13/64.]

WAC 16-354-020 Field standards for production of certified hop rootstock. (1) Certified rootstock may be produced only from certified mother blocks. In order to be a certified mother block, a proposed hop planting site must meet all of the following requirements:

(a) The site must be inspected and approved by the department during the growing season immediately prior to planting. An exception may be made to allow inspection and planting during the same growing season, if exclusively greenhouse grown certified plants are planted on or after August 15th.

(b) The site must have been out of hop production, and all poles and trellis removed, for a minimum of three full growing seasons prior to planting.

(c) The site must be entirely free of residual hop plants or hop hullings.

(d) The site must be separated from any other hop plants by a strip of land at least twenty-one feet wide.

(2) A certified mother block must meet the following requirements:

(a) The certified mother block must consist of no more than one hop variety or strain. Certified mother blocks of different varieties or strains must be separated at all points by a strip of land at least twenty-one feet wide and free of hop plants.

(b) Any material planted in a certified mother block must meet one of the following criteria:

(i) Foundation rootstock produced by Washington State University;

(ii) Rootstock from another certified mother block;

(iii) Growing plants or cuttings from foundation mother plants grown by Washington State University; or

(iv) Growing plants or cuttings from another certified mother block.

(c) Plant material, including rootstock and plants described in (b)(ii) and (iv) of this subsection, may be moved from one certified mother block to another certified mother block site only after appropriate testing by a Washington State University plant pathologist and written approval by the department.

(d) A certified mother block must be kept free of hop hullings at all times.

(e) No certified mother block location may retain certification for more than:

(i) Four consecutive growing seasons, if the certified mother block was produced from rootstock; or

(ii) Five consecutive growing seasons, if the certified mother block was produced from cuttings or growing plants.

(f) If a male plant or pollinated female plant is found during any inspection, the grower may harvest certified rootstock from the certified mother block for the subsequent harvest only. After this harvest, the mother block site must be decertified.

(g) Plant pests and weeds must be effectively controlled.

(h) Growers shall rogue (i.e., dig and remove) and immediately destroy all male, diseased, unhealthy appearing or

otherwise abnormal plants. For purposes of assessing disease intensity, an exception may be made for plants exhibiting powdery mildew symptoms.

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-020, filed 4/15/98, effective 5/16/98; 93-17-019 (Order 5000), § 16-354-020, filed 8/10/93, effective 9/10/93. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-020, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-020, filed 7/16/85; 79-06-038 (Order 1631), § 16-354-020, filed 5/17/79; Order 1264, § 16-354-020, filed 5/10/72; Order 1023, Regulation II, filed 6/16/66; Order 996, Regulation II, filed 11/30/65; Order 947, Regulation II, filed 4/13/64.]

WAC 16-354-030 Certified mother block inspections. (1) A minimum of three inspections per year will be conducted by the department at each certified mother block. Additional inspections may be conducted as needed.

(2) Timing and inspection methods will vary, depending on weather conditions, the disease or pest being sought, and other factors.

(3) The first inspection is intended primarily to detect downy mildew, as well as other diseases and pests.

(4) The second inspection is intended primarily to detect lilar viruses and virus-like diseases.

(5) The third inspection is intended primarily to detect powdery mildew, as well as other diseases and pests.

(6) Inspection reports may contain observations and information on diseases, pests, and other factors for which no specific tolerances are established or which do not affect the certification status of the rootstock or hop plants.

(7) The presence of verticillium wilt, detected at any time, shall cause immediate decertification of the site. The grower must dig and destroy all affected plants immediately. Affected material may be removed from the site under suitable precautions only by a Washington State University plant pathologist or the department for diagnostic or verification purposes.

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-030, filed 4/15/98, effective 5/16/98. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-030, filed 3/27/91, effective 4/27/91. WAC 16-354-040 Hop rootstock certification application and fees. (1) Application for inspection and testing of certified mother blocks and certified stock shall be filed with the department by April 1 of each year accompanied by a seventy-five dollar application fee.

(2) As a condition of participation in the hop rootstock certification program, the applicant grower must furnish to the department all requested information pertinent to the operation of the program and must give consent to the department to take material from certified mother blocks and/or greenhouses for examination and testing.

(3) Fees for field inspections or inspection of harvested rootstock for grade, phytosanitary certification, or other purposes are assessed at the appropriate rate established in chapter 16-401 WAC.

(4) Payment for each inspection is due upon completion of the inspection. Billing may be arranged subject to department policies and processes.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 04-24-050, § 16-354-040, filed 11/29/04, effective 12/30/04. Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-040, filed 4/15/98, effective 5/16/98. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-040, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-040, filed 7/16/85; 79-06-038 (Order 1631), § 16-354-040, filed 5/17/79; Order 1264, § 16-354-040, filed 5/10/72; Order 1023, Regulation IV, filed 6/16/66; Order 996, Regulation IV, filed 11/30/65; Order 947, Regulation IV filed 4/13/64.]

WAC 16-354-050 Hop rootstock tags and identity.

(1) Any person selling or offering for sale hop rootstock bearing a certification tag or otherwise identified as certified is responsible for the following:

(a) Accurately identifying the rootstock as to variety and year of harvest;

(b) Accurately identifying the rootstock as complying with all of the conditions of the certified hop rootstock program.

(2) Any person issued certification tag(s) must keep written records of stock produced and sold. These records must be produced at the request of the department.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 04-24-050, § 16-354-050, filed 11/29/04, effective 12/30/04. Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-050, filed 4/15/98, effective 5/16/98; 85-15-046 (Order 1867), § 16-354-050, filed 7/16/85; Order 1264, § 16-354-050, filed 5/10/72; Order 1023, Regulation V, filed 6/16/66; Order 996, Regulation V, filed 11/30/65; Order 947, Regulation V, filed 4/13/64.]

WAC 16-354-070 Hop rootstock field standards. (1)

The unit of certification is the entire certified mother block.

(2) Each entire certified mother block may have no more than the following percent of affected plants:

	Tolerance
Downy mildew	1%
Visible nematode damage	1%
Verticillium wilt	0
Ilar viruses	0

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-070, filed 4/15/98, effective 5/16/98. Statutory Authority: RCW 15.14.030 (2), (5). 95-18-034 (Order 5083), § 16-354-070, filed 8/28/95, effective 9/28/95. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-070, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-070, filed 7/16/85; Order 1264, § 16-354-070, filed 5/10/72.]

WAC 16-354-090 Hop rootstock grades and standards. (1) Grades for hop clones which inherently produce slips or rhizomes and/or layered stem cuttings of small caliber shall be determined by a committee appointed by the Washington hop commission.

(2) Washington No. 1 shall consist of hop slips or rhizomes and/or layered stem cuttings of one strain, not less than five inches in length and not less than five-sixteenths inch in diameter and containing at least one visible bud, crowns not less than six inches in length and not less than three-fourths inch in diameter, with one or more visible buds which are:

- (a) Fairly fresh.
- (b) Firm.
- (c) Moist.
- (d) Fairly clean.
- (e) Free from damage caused by:

- (i) Mold.
- (ii) Freezing injury.
- (iii) Broken or mutilated rootstocks.
- (iv) Crown gall.
- (v) Black rot.

[Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-090, filed 7/16/85.]

WAC 16-354-100 Hop rootstock tolerances. (1) In order to allow for variations incident to proper grading and packing, not more than a combined total of six percent, by count, of the rootstocks in any lot shall fail to meet the requirements of Washington No. 1, and not more than six percent of the rootstock shall have rhizomes or layered stem cuttings less than five inches in length.

(2) In order to insure lot uniformity, no individual container within a lot may contain more than one and one-half times the established tolerance.

(3) Hop plants shall be packed to retain a fresh condition.

(4) The department may inspect rootstock from certified mother blocks after harvest and packing for the purpose of verifying that it meets grades and standards established in rule.

[Statutory Authority: Chapter 15.14 RCW. 98-09-049, § 16-354-100, filed 4/15/98, effective 5/16/98. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-354-100, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 15.14 RCW. 85-15-046 (Order 1867), § 16-354-100, filed 7/16/85.]

Chapter 16-390 WAC

WSDA FRUIT AND VEGETABLE INSPECTION DISTRICTS, INSPECTION FEES AND OTHER CHARGES

WAC

16-390-005	What definitions are important to this chapter?
16-390-010	How many WSDA fruit and vegetable inspection districts are there?
16-390-020	What are the fees for grade and condition certificates for fruit?
16-390-030	What are the fees for grade and condition certificates for vegetables?
16-390-040	What are the fees for grade and condition certificates for fruits and vegetables inspected under the customer assisted inspection program (CAIP)?
16-390-060	What are the fees for inspecting beans, peas, lentils, hay and straw?
16-390-100	What are the fees for fruit and vegetable certificates?
16-390-150	What requirements apply to shipping permits and certificates of compliance for fruits and vegetables?
16-390-200	What are the fees for platform inspection services?
16-390-210	What is the fee for supervising fumigations?
16-390-220	What is the fee for a field or orchard inspection?
16-390-230	What is the fee for an apple pest certification?
16-390-240	What is the fresh produce audit verification program?
16-390-242	What charges does the department assess for fruit and vegetable audit verification certificates issued under the fresh produce audit verification program?
16-390-245	What requirements apply to certifications using USDA positive lot identification?
16-390-250	What miscellaneous inspection and certification fees does WSDA charge?
16-390-260	Does the department assess extra charges for the inspection and certification services it provides?
16-390-270	Can the department waive fruit and vegetable inspection fees?
16-390-280	What requirements apply to the payment and collection of fruit and vegetable fees and charges?

WAC 16-390-005 What definitions are important to this chapter? "Certification" means the issuance of an official document confirming the inspection results for grade, classification, condition, and the absence or presence of plant pests or diseases and/or other defects.

"Customer assisted inspection program (CAIP)" means a quality and/or condition inspection performed by industry with verification and oversight by WSDA.

"Department" means the Washington state department of agriculture (WSDA).

"Director" means the director of the department or the director's designated representative.

"Grade and condition certificate" means a document issued by the director of a certification confirming the results of an inspection.

"Inspection" means a review or examination of fruits and vegetables in order to determine quality, condition, and/or presence or absence of pests or diseases and/or other defects.

"Platform inspection" means any inspection and/or certification performed on a lot that has no defined per unit charges for the service.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-005, filed 5/18/04, effective 6/18/04.]

WAC 16-390-010 How many WSDA fruit and vegetable inspection districts are there? The department has two fruit and vegetable inspection districts, which are:

(1) Fruit and vegetable inspection district two, which consists of Kittitas, Klickitat, Skamania, Yakima, Pacific, Lewis, Wahkiakum, Cowlitz, Clark, Benton, Franklin, Walla Walla, Columbia, Asotin, Whitman and Garfield counties; and

(2) Fruit and vegetable inspection district four, which consists of Grays Harbor, Jefferson, Clallam, Island, Mason, Kitsap, Pierce, Thurston, King, Snohomish, Skagit, Grant, Adams, Ferry, Pend Oreille, Stevens, Spokane, Lincoln, San Juan, Whatcom, Chelan, Douglas and Okanogan counties.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-010, filed 5/18/04, effective 6/18/04.]

WAC 16-390-020 What are the fees for grade and condition certificates for fruit? WSDA fees for grade and condition certificates for all fruits are:

(1) A minimum charge of sixteen dollars.

(2) The fees for **federal-state or state grade and condition certificates** of all fresh market apples, pears, and soft fruits in containers (wrapped, place pack, face and fill), bags, master containers, consumer packages, or loose in bulk cartons, boxes, crates, bins, or bags are listed in the following table:

Type of Fruit	Fees per CWT or Fraction Thereof
Apples on-line for domestic shipping, CA, etc.	\$0.17
Apples for export	\$0.17
Apricots, cherries, nectarines, peaches, plums, prunes, other soft fruits, grapes and berries	\$0.23

Type of Fruit	Fees per CWT or Fraction Thereof
Pears	\$0.17
Pears for export	\$0.17

(3) The department will give a volume discount for apples and pears that are inspected and certified on-line for domestic shipment, controlled atmosphere certification, etc. Packing of up to 4800 cwt per eight-hour shift, the normal inspection fee will be assessed, and every cwt of product above 4800 cwt for that same shift will be charged at \$0.12 cwt. Platform inspection fees will still apply (WAC 16-390-200).

(4) The department charges a fee of three dollars per ton net weight (or fraction thereof) for all apples, pears, stone fruits, berries, and grapes in bulk or in containers that are inspected for processing.

(5) The department charges a fee of thirty-two dollars per hour, with a minimum certificate charge of sixteen dollars, when an inspection is requested only to verify the product, conveyance, markings, or other factors not related to quality.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25 § 309(2). 05-12-054, § 16-390-020, filed 5/26/05, effective 6/26/05. Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-020, filed 5/18/04, effective 6/18/04.]

WAC 16-390-030 What are the fees for grade and condition certificates for vegetables? WSDA fees for grade and condition certificates for all vegetables are:

(1) A minimum charge of sixteen dollars.

(2) The fees for **federal-state or state grade and condition certificates** for all fresh market vegetables in containers (wrapped, place pack, face and fill), bags, master containers, consumer packages, or loose in bulk cartons, boxes, crates, bins, or bags are listed in the following table:

Type of Vegetables	Fees per CWT or Fraction Thereof
Asparagus	\$0.23
Cantaloupes and corn	\$0.14
Onions	\$0.09
Potatoes	\$0.07
In-state processing potatoes Complete inspection	\$0.08 Rate shall be reduced for the level of service required
Tomatoes	\$0.21

(3) For the inspection of vegetables not listed, the department charges a fee of thirty-two dollars per hour.

(4) The department charges a fee of three dollars per ton net weight (or fraction thereof) for the inspection of vegetables to be processed, whether in bulk or in containers.

(5) When an inspection is requested only to verify the product, conveyance, markings, or other factors not related to quality, the department charges the rate of thirty-two dollars per hour, with a minimum certificate charge of sixteen dollars.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25 § 309(2). 05-12-054, § 16-390-030, filed 5/26/05, effective 6/26/05. Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-030, filed 5/18/04, effective 6/18/04.]

WAC 16-390-040 What are the fees for grade and condition certificates for fruits and vegetables inspected under the customer assisted inspection program (CAIP)? WSDA fees for grade and condition certificates for all fruits and vegetables issued under the customer assisted inspection program (CAIP) are:

(1) A minimum charge of sixteen dollars.

(2) The fees for **federal-state grade and condition certificates** for all fresh market fruits and vegetables in containers (wrapped, place pack, face and fill), bags, master containers, consumer packages, or loose in bulk cartons, boxes, crates, bins, or bags are:

Type of Fruit or Vegetable	Fees per CWT or Fraction Thereof
Fresh potatoes	Three and one-half cents per cwt., with a minimum charge of thirty-two dollars per hour for each staff hour worked.
All other fresh market fruits and vegetables	Three-fourths of the cwt. rates specified in WAC 16-390-020(2) and 16-390-030(2) but not less than the equivalent rate of thirty-two dollars per staff hour worked. If the cwt. rate results in an inspection fee that is less than the equivalent of thirty-two dollars per staff hour worked, the department will assess additional certification charges. For example, if an inspection takes three staff hours (\$96.00) to complete and the cwt. rate results in a fee of \$85.00, the department will assess additional certification charges of \$11.00.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-040, filed 5/18/04, effective 6/18/04.]

WAC 16-390-060 What are the fees for inspecting beans, peas, lentils, hay and straw? Inspection fees for beans, peas, lentils, hay, and straw are found in the following rule sections:

WAC Section	Title
WAC 16-239-071	Straight time rate.
WAC 16-239-0902	Fees for official sampling and inspecting without weighing and fees for official sampling only.
WAC 16-239-0904	Fees for other official weighing services.
WAC 16-239-0905	Fees for inspection of submitted samples.
WAC 16-239-0906	Fees for factor analysis.
WAC 16-239-0909	Fees for other stowage examination services.

(2007 Ed.)

WAC Section	Title
WAC 16-401-023	Schedule of fees and charges—Establishing hourly rates.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-060, filed 5/18/04, effective 6/18/04.]

WAC 16-390-100 What are the fees for fruit and vegetable certificates? As shown in the following table, WSDA certificate fees vary with the type of certificate requested:

Type of Certificate Requested	Fee
Consolidation certificates	Fees are specified in WAC 16-390-020 and 16-390-030 with an added charge of three dollars for each additional lot.
Condition certificates for previously inspected lots	Fee is two-thirds of the fee charged for grade and condition certificates, with a minimum charge of sixteen dollars.
Condition certificates for lots not previously inspected for quality or grade with a request that the certificate carry out-bound car, truck, or state lot number	Fees are based upon the applicable grade and condition certificate schedules.
Out-of-state products reported on state certificates	Fees are based either upon the applicable grade and condition certificate schedule or a charge of thirty-two dollars per hour whichever is greater.
A state condition certificate or quality control inspection for previously certified controlled atmosphere storage apple lots	A state condition certificate or quality control inspection may be issued without additional charge.
Sanitary and quarantine certificates for fruits and vegetables	Sixteen dollars for issuing a certificate, plus the hourly rates specified in WAC 16-390-200(1) when the shipment is not covered by federal-state or state certificates.
Container weight, or check loading certificates	Fee is charged at the rates specified in WAC 16-390-200(1).

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-100, filed 5/18/04, effective 6/18/04.]

WAC 16-390-150 What requirements apply to shipping permits and certificates of compliance for fruits and vegetables? (1) Each shipment of apples, apricots, Italian prunes, peaches, pears, dark sweet cherries, Rainier cherries and asparagus must be covered by a shipping permit. All other sweet cherries, whether certified or not, must have a shipping permit indicating freedom from cherry fruit fly larvae.

[Title 16 WAC—p. 431]

(2) Shipments of apricots, cherries, peaches, prunes, and asparagus to processors do not require a shipping permit.

(3) A permit or certificate of compliance may be issued without additional charge if the lot is certified.

(4) If the lot has not been certified, a permit or certificate of compliance may be issued based upon the following charges:

(a) The minimum charge for a permit or certificate of compliance is three dollars.

(b) Two-thirds of the rate for federal-state or state grade and condition certificates applies.

(c) A permit to ship apples and/or pears to a by-product plant outside the state is three dollars.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25 § 309(2). 05-12-054, § 16-390-150, filed 5/26/05, effective 6/26/05. Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-150, filed 5/18/04, effective 6/18/04.]

WAC 16-390-200 What are the fees for platform inspection services? (1) Fees for platform inspections, taking samples, extra time, phytosanitary and/or quarantine inspection, and all other platform services are charged at the rate of thirty-two dollars per hour.

(2) When a platform inspector is working full time at one house and is also doing certification inspections, the inspector must allow credit, according to the limits outlined in the schedule for such inspections, for the time spent on the inspection at the rate of thirty-two dollars per hour.

(a) Platform fees will not be assessed if the certificate cwt. fee divided by the respective hourly rates is equal to or exceeds the number of hours worked.

(b) Platform fees will be assessed if the certificate cwt. fee divided by the respective hourly rates is less than the number of hours worked. The amount assessed will be sufficient to make the total fee equal to the number of hours worked multiplied by the thirty-two dollars per hour rate.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-200, filed 5/18/04, effective 6/18/04.]

WAC 16-390-210 What is the fee for supervising fumigations? (1) The minimum fee for supervising fumigation shall be equivalent to one and one-half hours specified in WAC 16-390-200(1) for the master fumigation certificate. Additional certificates issued from this master certificate will cost sixteen dollars each.

(2) The department will charge for any additional stand-by time at the rate specified in WAC 16-390-200(1).

(3) In facilities that are either temporary or without adequate devices for maintaining acceptable treatment temperatures, fumigations must not start after:

(a) 3:00 p.m. from October 1 to May 31; or

(b) 10:00 p.m. from June 1 to September 30.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-210, filed 5/18/04, effective 6/18/04.]

WAC 16-390-220 What is the fee for a field or orchard inspection? The fee for field or orchard inspections made at the applicant's request to determine the presence or absence of disease or insect infestation, or for some other reason is:

(1) Three dollars per acre or fraction thereof; or

(2) At the platform inspection rate specified in WAC 16-390-200(1).

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25 § 309(2). 05-12-054, § 16-390-220, filed 5/26/05, effective 6/26/05. Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-220, filed 5/18/04, effective 6/18/04.]

WAC 16-390-230 What is the fee for an apple pest certification? Through December 31, 2008, the fee for apple pest certification, using the survey method, on all fresh apples produced in Washington state or marketed under Washington state grades and standards, is \$.015 per cwt. or fraction thereof. Beginning January 1, 2009, the fee shall be \$.0075 per cwt. or fraction thereof.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-19-008, § 16-390-230, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-230, filed 5/18/04, effective 6/18/04.]

WAC 16-390-240 What is the fresh produce audit verification program? A federal-state inspection service program that reviews and verifies a participating company's facility and agronomic practices, along with its documented procedures, to help determine if "good agricultural practices" and "good handling practices" are maintained.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-240, filed 5/18/04, effective 6/18/04.]

WAC 16-390-242 What charges does the department assess for fruit and vegetable audit verification certificates issued under the fresh produce audit verification program? Charges assessed by the department for good agricultural practices (GAP) and good handling practices (GHP) audit verification certificates issued under the fresh produce audit verification program are as follows:

(1) Audit time, administration time and applicable travel time is charged at the hourly rate established by USDA/AMS/FPB/FVP the Schedule of Fees for Fresh Fruit and Vegetable Terminal Market Inspection Services, 7 CFR Part 51 Subpart 38, which became effective on January 15, 2004.

(2) Mileage related to GAP and GHP audit services is charged at the rate established by the office of financial management (OFM) at the time the service was performed.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-242, filed 5/18/04, effective 6/18/04.]

WAC 16-390-245 What requirements apply to certifications using USDA positive lot identification? (1) Certification fees using USDA positive lot identification are based upon the rates specified in WAC 16-390-020, 16-390-030, 16-390-040, 16-390-100, 16-390-200, 16-390-210, 16-390-250 and 16-390-260.

(2) The department may add an additional charge of ten percent if an inspector is required to be on-site when no other inspections are requested.

(3) The department responds to requests for positive lot identification services in the following order:

(a) First priority is given to those situations where positive lot identification is a mandatory condition of a sales transaction.

(b) All other requests will be honored based upon adequate notice to the inspection service and the availability of inspectors.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-245, filed 5/18/04, effective 6/18/04.]

WAC 16-390-250 What miscellaneous inspection and certification fees does WSDA charge? (1) Department services provided to other agencies, commissions, and organizations are charged at the rate of thirty-two dollars per hour.

(2) The charge for mileage related to inspection and certification services is at the rate established by the office of financial management (OFM) at the time the service was performed.

(3) The department may charge for telegrams, facsimile, or electronic transmission of inspection documents at the rate of four dollars per transmission in addition to any Western Union charges made directly to the applicant.

(4) The cost of extra copies of original documents is four dollars per set.

(5) The department may charge twenty-five cents per copy for Xerox copies of inspectors' notes, certificates or related documents.

(6) When, through no fault of the inspection service, it is necessary to retype or reissue a document, the cost of retyping or reissuing the document is four dollars per set.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-250, filed 5/18/04, effective 6/18/04.]

WAC 16-390-260 Does the department assess extra charges for the inspection and certification services it provides? The department does assess extra charges on services provided according to the following:

(1) The minimum inspection charge for each commodity and requested document is sixteen dollars.

(2) If, through no fault of the inspection service, excess time is required over the maximum time allowed (as supported by unit rates for each commodity and requested document) the excess time is charged at the rate of thirty-two dollars per hour.

(3)(a) For all inspection services performed beyond a regularly scheduled eight-hour week day shift or on Saturdays, or Sundays, or state legal holidays, a rate equivalent to forty-two dollars will be charged for actual hours spent in performance of duties. Such charges include unit charges, plus, if necessary, overtime charges to equal the respective overtime hourly rates.

(b) The following are state legal holidays:

Holiday	Date
New Year's Day	January 1
Martin Luther King, Jr. Day	Third Monday in January
Presidents' Day	Third Monday in February
Memorial Day	Last Monday of May
Independence Day	July 4
Labor Day	First Monday in September
Veteran's Day	November 11
Thanksgiving Day	Fourth Thursday in November
Day following Thanksgiving Day	Fourth Friday in November

(2007 Ed.)

Holiday	Date
Christmas Day	December 25

(4) Additional hourly or overtime charges will not be assessed when the per unit inspection charge in any one day equals or exceeds the basic hourly and/or overtime charge.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-260, filed 5/18/04, effective 6/18/04.]

WAC 16-390-270 Can the department waive fruit and vegetable inspection fees? The department may waive inspection fees for fruits and vegetables donated to bona fide nonprofit organizations if the shipping containers are conspicuously labeled or marked "not for resale."

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-270, filed 5/18/04, effective 6/18/04.]

WAC 16-390-280 What requirements apply to the payment and collection of fruit and vegetable fees and charges? (1) All fees and charges for services rendered are due within thirty days after the date of the billing statement you receive from the department.

(2) If your payment is not received within thirty days, service may be withheld until your delinquent account is paid.

(3) If your account is delinquent, the department may require that you pay cash for subsequent services.

(4) The department assesses a penalty of eighteen percent per annum on all delinquent account balances.

[Statutory Authority: Chapters 15.17, 34.05 RCW, and 2003 1st sp.s. c 25. 04-11-078, § 16-390-280, filed 5/18/04, effective 6/18/04.]

Chapter 16-401 WAC NURSERY INSPECTION FEES

WAC

16-401-019	Schedule of fees and charges—Billing policies and procedures.
16-401-021	Schedule of fees and charges—Facility inspection.
16-401-023	Schedule of fees and charges—Establishing hourly rates.
16-401-027	Schedule of fees and charges—Applicable rates and charges.
16-401-032	Schedule of fees and charges—Miscellaneous charges.
16-401-041	Nursery dealer license fees.
16-401-050	Annual assessment—Fruit tree material.
16-401-060	Annual assessment—Grapevines.
16-401-070	Annual assessment—Recordkeeping requirement.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-401-001	Promulgation. [Order 1064, Promulgation, filed 8/28/67, effective 9/27/67.] Repealed by Order 1152, filed 5/28/70, effective 7/1/70.
16-401-002	Promulgation. [Order 1152, § 16-401-002, filed 5/28/70, effective 7/1/70.] Repealed by 87-19-098 (Order 1953), filed 9/17/87. Statutory Authority: Chapter 15.54 RCW.
16-401-003	Promulgation. [Order 1315, § 16-401-003, filed 5/30/73; Order 1204, § 16-401-003, filed 5/28/71, effective 7/1/71.] Repealed by 79-04-025 (Order 1628), filed 3/21/79. Statutory Authority: Chapter 15.13 RCW.
16-401-010	Nonlicensed operators. [Order 1064, Regulation 1, filed 8/28/67, effective 9/27/67.] Repealed by Order 1152, filed 5/28/70, effective 7/1/70.
16-401-015	Nonretailer or wholesaler shippers. [Order 1064, Regulation 2, filed 8/28/67, effective 9/27/67.] Repealed by Order 1152, filed 5/28/70, effective 7/1/70.

- 16-401-040 Nursery dealer license fees—Effective June 30, 1999. [Statutory Authority: Chapters 15.13 and 15.14 RCW. 99-12-034, § 16-401-040, filed 5/26/99, effective 6/26/99. Statutory Authority: [Chapter 15.13 RCW]. 92-24-067 (Order 4016), § 16-401-040, filed 12/1/92, effective 1/1/93; 92-13-034 (Order 2094), § 16-401-040, filed 6/10/92, effective 7/1/92. Statutory Authority: Chapter 15.54 RCW. 87-19-098 (Order 1953), § 16-401-040, filed 9/17/87.] Repealed by 99-21-050, filed 10/18/99, effective 11/18/99. Statutory Authority: Chapters 15.13 and 15.14 RCW.

WAC 16-401-019 Schedule of fees and charges—Billing policies and procedures. (1) All billable services provided under chapter 15.13 RCW are due and payable upon billing by the department. For the convenience of established accounts and in accord with good business practices, the department provides a monthly billing service for established accounts. Accounts not paid-in-full within thirty days of billing are considered delinquent.

(2) All delinquent accounts are assessed a late charge equal to one and one-half percent per month, or portion of a month, on the unpaid balance.

(3) Except for established accounts where there is a reasonable expectation of additional charges during a calendar month, the minimum billable amount through the monthly billing system is twenty dollars. All billable services of less than twenty dollars are due and payable-in-full at the time that service is rendered.

(4) No person with an account ninety days or more in arrears will receive service except on the basis of payment in full at the time service is rendered. Such accounts will not be restored to monthly billing status until all past due accounts are paid-in-full. Such accounts may be subject to legal action for collection.

(5) Accounts that become ninety days or more in arrears twice within a five-year period may be subject to a permanent requirement for payment in full at the time service is provided.

[Statutory Authority: Chapters 15.13 and 15.14 RCW. 99-12-034, § 16-401-019, filed 5/26/99, effective 6/26/99. Statutory Authority: [Chapter 15.13 RCW]. 92-24-067 (Order 4016), § 16-401-019, filed 12/1/92, effective 1/1/93.]

WAC 16-401-021 Schedule of fees and charges—Facility inspection. (1) The department may conduct regulatory inspections of any plant material at any nursery facility licensed under chapter 15.13 RCW without additional charge except as provided in subsection (2) of this section. Subsequent to each inspection the department will issue a nursery inspection report to the licensed nursery.

(2) The department may charge a fee for repeated, subsequent inspections of licensed locations where plant material does not meet the requirements in chapter 15.13 RCW. However, the licensed location cannot be subjected to more than two paid inspections each license period. Fees are assessed on the basis of the time required for the inspection at the applicable hourly rate provided in this chapter.

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 03-10-083, § 16-401-021, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.13 and 15.14 RCW. 01-11-031, § 16-401-021, filed 5/8/01, effective 6/8/01; 99-12-034, § 16-401-021, filed 5/26/99, effective 6/26/99.]

WAC 16-401-023 Schedule of fees and charges—Establishing hourly rates. (1) Requested services are provided at the applicable hourly rate. The nonbusiness hourly rate applies for service provided before 8:00 a.m. or after 5:00 p.m. during the workday and for all services provided on Saturday, Sunday, or a holiday listed in subsection (2) of this section.

(2) Holidays mean New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day immediately following Thanksgiving Day, Veteran's Day, Christmas Day, President's Day, and Martin Luther King's Birthday.

(3) The hourly charge is assessed in one-half hour increments.

(4) Persons requesting service with less than twenty-four hours notice during nonbusiness hours may be subject to a charge of two additional hours at the nonbusiness hourly rate,

if the department is required to pay call back to the employee(s) providing the requested service.

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 03-10-083, § 16-401-023, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.13 and 15.14 RCW. 99-12-034, § 16-401-023, filed 5/26/99, effective 6/26/99. Statutory Authority: [Chapter 15.13 RCW]. 92-24-067 (Order 4016), § 16-401-023, filed 12/1/92, effective 1/1/93.]

WAC 16-401-027 Schedule of fees and charges—Applicable rates and charges. The following rates apply for requested inspection services:

(1) Fee or Charge:	
Hourly rate—business hours	\$33.00
Hourly rate—nonbusiness hours	\$42.15
Certificate issued at time of inspection	No charge
Certificate issued more than twenty-four hours after the inspection	\$15.70
Additional certificates	\$4.95
Fumigation lot or container fee	\$13.10
Certificate of plant health for noncommercial movement	\$6.45
Compliance agreement	\$33.00
Inspection tags or stickers (lots of 250)	\$6.45 per lot
Inspection tags or stickers (minimum 10)	\$0.28 each

(2) Mileage at the established office of financial management rate (schedule A), per diem at actual cost, and travel time at the applicable hourly rate may be assessed for requested inspections that are not a part of a regular work schedule. Such charge may be prorated among applicants if more than one applicant is provided service during a workday or trip when mileage and/or per diem are applicable.

(3) Inspections for phytosanitary certification, including growing season field inspections, are provided at the applicable hourly rate provided in subsection (1) of this section except where an alternate certification inspection fee is provided in statute, in rule, or by a written agreement between the department and an industry entity, university, or public agency. When growing season field inspections for phytosanitary certification and regulatory inspections are performed simultaneously, the first two hours of inspection each calendar year for nurseries licensed under WAC 16-401-041 (1)(b) or (2)(a); and the first four hours of inspection per calendar year for nurseries licensed under WAC 16-401-041 (1)(c) or (2)(b), are without charge.

There is no additional charge for the first phytosanitary certificate issued at the time of the inspection.

(4) Inspection and certification of nonplant material or equipment for sanitation (freedom from soil or pests) by visual examination or through witnessing a prescribed treatment (steam cleaning, hydro-washing, etc.) is charged at the applicable hourly rate.

(5) Witnessing and certification of fumigation is charged at the applicable hourly rate, plus a per lot or container fee.

(6) The department may issue a certificate of plant health for noncommercial movement of plant materials between states by unlicensed persons, up to a maximum of five plants, and provided that the plants are brought to a plant services office for inspection.

Note: When two or more types of inspection, provided in this section, are performed simultaneously, only one hourly rate applies. One certificate for one service is issued at no charge.

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 06-15-043, § 16-401-027, filed 7/11/06, effective 8/11/06; 05-12-110, § 16-401-027, filed 5/31/05, effective 7/1/05; 04-17-037, § 16-401-027, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13, 15.14, 17.24, and 34.05 RCW. 03-21-166, § 16-401-027, filed 10/22/03, effective 11/22/03. Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 03-10-083, § 16-401-027, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.13 and 15.14 RCW. 01-11-031, § 16-401-027, filed 5/8/01, effective 6/8/01.]

WAC 16-401-032 Schedule of fees and charges—Miscellaneous charges. The following rates for miscellaneous charges on requested inspections shall apply.

(1) Postage, special handling services and other miscellaneous costs exceeding five dollars are charged at the actual cost.

(2) Other requested office services, not specifically provided for, are charged a fee based on the portion of an hour at the applicable hourly rate in this chapter.

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 05-12-110, § 16-401-032, filed 5/31/05, effective 7/1/05; 03-10-083, § 16-401-032, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.13 and 15.14 RCW. 01-11-031, § 16-401-032, filed 5/8/01, effective 6/8/01.]

WAC 16-401-041 Nursery dealer license fees. Annual license fees as established below, must accompany the application for nursery dealer license:

(1) Retail nursery dealer license fee:

(a) Gross business sales of horticultural plants and turf less than two thousand five hundred dollars \$38.73

(b) Gross business sales of horticultural plants and turf between two thousand five hundred dollars and fifteen thousand dollars, the license fee is \$82.99

(c) Gross business sales of horticultural plants and turf of fifteen thousand dollars or more \$166.00

(2) Wholesale nursery dealer license fee:

(a) Gross business sales of horticultural plants and turf less than fifteen thousand dollars \$82.99

(b) Gross business sales of horticultural plants and turf of fifteen thousand dollars or more \$166.00

(3) As provided in RCW 15.13.285, a surcharge of twenty percent of the base rate, in addition to the fees established on all classes of licenses in subsections (1) and (2) of this section, is established.

(4) Permit fee for those types of sales and organizations exempted from licensing requirements by RCW 15.13.270 \$6.35

[Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 06-15-043, § 16-401-041, filed 7/11/06, effective 8/11/06; 05-12-110, § 16-401-041, filed 5/31/05, effective 7/1/05. Statutory Authority: Chapters 15.13, 15.14, 17.24 and 34.05 RCW. 03-21-166, § 16-401-041, filed 10/22/03, effective 11/22/03. Statutory Authority: Chapters 15.13, 15.14, and 34.05 RCW. 03-10-083, § 16-401-041, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 15.13 and 15.14 RCW. 01-11-031, § 16-401-041, filed 5/8/01, effective 6/8/01; 99-12-034, § 16-401-041, filed 5/26/99, effective 6/26/99.]

WAC 16-401-050 Annual assessment—Fruit tree material. As provided in RCW 15.13.310, an annual assessment of one percent on the gross sale price of the wholesale market value for all fruit trees, fruit tree related ornamental trees, fruit tree seedlings, fruit tree rootstock, and all other rootstock used for fruit tree propagation produced in Wash-

ington, and sold within the state or shipped from the state by any licensed nursery dealer, is established.

[Statutory Authority: Chapters 15.13 and 15.14 RCW. 99-12-034, § 16-401-050, filed 5/26/99, effective 6/26/99. Statutory Authority: [Chapter 15.13 RCW]. 92-24-067 (Order 4016), § 16-401-050, filed 12/1/92, effective 1/1/93. Statutory Authority: Chapter 15.54 RCW. 87-19-098 (Order 1953), § 16-401-050, filed 9/17/87.]

WAC 16-401-060 Annual assessment—Grapevines.

As provided in RCW 15.13.310, an annual assessment of five percent on the gross sale price of the wholesale market value for all grapevine propagation material produced in Washington, and sold within the state or shipped from the state by any licensed nursery dealer, is established.

[Statutory Authority: Chapters 15.13 and 34.05 RCW. 03-09-112, § 16-401-060, filed 4/22/03, effective 5/23/03.]

WAC 16-401-070 Annual assessment—Recordkeeping requirement. Any person selling grapevine, fruit tree or fruit tree related ornamental nursery stock must maintain a set of accurate sales records to facilitate an audit and ensure that the proper assessment amount is paid to the department. The records must be maintained for a minimum of three years from the date of sale. At a minimum, the records must contain sequentially numbered sales invoices that clearly show the amount of assessment owed for each invoice. Sales invoices must be filed either numerically or alphabetically.

[Statutory Authority: Chapters 15.13, 15.14 and 34.05 RCW. 04-11-026, § 16-401-070, filed 5/11/04, effective 6/11/04.]

Chapter 16-402 WAC

PLANT PEST INFESTATIONS AND PLANT LABELING

WAC

16-402-005	Freedom from infestation—General.
16-402-010	Definitions.
16-402-015	Standards for freedom from infestation by plant pests.
16-402-020	Compliance with standards required.
16-402-030	Standards for plant labeling.
16-402-040	Horticultural plants not in compliance.

REPORTING AND HOLDING OF TREE AND SHRUB NURSERY STOCK

16-402-100	Purpose.
16-402-110	Definitions.
16-402-120	Notification requirement.
16-402-130	Hold requirement.

WAC 16-402-005 Freedom from infestation—General. Issuance of any document stating that horticultural plants are apparently free from plant pests means only that the plants were inspected and found to meet the standards for freedom from infestation by plant pests described in this chapter. The department disclaims all expressed or implied warranties, including without limitations implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant material under this chapter. The department is not responsible for disease, genetic disorders, failure of performance or otherwise in connection with this chapter. No grower, nursery dealer, government official or other person is authorized to give any expressed or implied warranties on behalf of the department regarding this chapter.

[Title 16 WAC—p. 436]

[Statutory Authority: Chapter 15.13 RCW. 98-17-069, § 16-402-005, filed 8/17/98, effective 9/17/98.]

WAC 16-402-010 Definitions. The definitions in this section shall apply throughout this chapter.

"Collected horticultural plant" means a noncultivated native plant, collected in its native habitat and sold for horticultural purposes.

"Department" means the Washington state department of agriculture.

"Director" means the director of the Washington state department of agriculture or the director's duly authorized representative.

"Established" means a reproducing population of a pest that is expected to have a permanent presence.

"Harmful" means injurious or potentially injurious to horticultural plants.

"Practically free" means horticultural plants which do not exceed:

(a) A 2% infestation level; or

(b) An infestation in an amount expected to result from and be consistent with good culturing and handling practices employed in the production and marketing of the horticultural plants.

"Quarantine pest" means any pest listed in current Washington state quarantines as promulgated in chapter 17.24 RCW.

"Tag" means to identify a horticultural plant or a group of horticultural plants by a bill of lading, invoice, label or other package marking.

"Unit of sale" means a group of the same plant variety or of mixed varieties placed together at a specific site for retail sale.

[Statutory Authority: Chapters 15.13 and 34.05 RCW. 04-09-084, § 16-402-010, filed 4/20/04, effective 5/21/04. Statutory Authority: Chapter 15.13 RCW. 98-17-069, § 16-402-010, filed 8/17/98, effective 9/17/98.]

WAC 16-402-015 Standards for freedom from infestation by plant pests. Horticultural plants sold, held for sale, shipped or transported into the state must be:

(1) Free of quarantine pests;

(2) Free of pests that would be harmful if allowed to become established within the state or county; and

(3) Practically free of plant pests.

Determination of this standard shall be based on visual inspection by the department.

[Statutory Authority: Chapter 15.13 RCW. 98-17-069, § 16-402-015, filed 8/17/98, effective 9/17/98.]

WAC 16-402-020 Compliance with standards required. (1) Horticultural plants sold, held for sale, shipped or transported in the state must comply with the standards described in WAC 16-402-015.

(2) The director may deny, suspend or revoke the license of any person selling, holding for sale, shipping or transporting horticultural plants in violation of this standard, pursuant to RCW 15.13.490. The director may also issue civil penalties in accordance with RCW 15.13.490 for violations of this standard.

(3) Any horticultural plant sold, held for sale, shipped or transported in violation of WAC 16-402-015 shall be subject

(2007 Ed.)

to a hold order, issued pursuant to RCW 15.13.430, or an order of condemnation, issued pursuant to RCW 15.13.440. Upon issuance of a hold order or an order of condemnation, the seller or holder of the plant material is entitled to request a hearing under chapter 34.05 RCW.

(4) The department shall issue a nursery inspection record or other official document(s) certifying compliance to WAC 16-402-015.

[Statutory Authority: Chapters 15.13 and 34.05 RCW. 04-09-084, § 16-402-020, filed 4/20/04, effective 5/21/04. Statutory Authority: Chapter 15.13 RCW. 98-17-069, § 16-402-020, filed 8/17/98, effective 9/17/98.]

WAC 16-402-030 Standards for plant labeling. (1)

Nursery dealers transporting horticultural plants into the state must legibly tag or identify each species or variety of plant in the shipment in a conspicuous manner with the botanical name and/or the common name.

(2) Nursery dealers displaying horticultural plants for retail sale must tag or identify each variety or species of each unit of sale in a conspicuous manner with the botanical name, and/or the common name, or provide this information to any person upon request.

This requirement does not apply to containers or baskets with mixed species of perennials, annuals or biennials.

(3) Nursery dealers must tag or identify collected horticultural plants with the botanical name, the common name and designate the plants as collected.

(4) To determine compliance with state and federal quarantines, the botanical name of each horticultural plant transported or sold in the state must be made available to the director upon request.

[Statutory Authority: Chapters 15.13 and 34.05 RCW. 04-09-084, § 16-402-030, filed 4/20/04, effective 5/21/04.]

WAC 16-402-040 Horticultural plants not in compliance. Pursuant to RCW 15.13.410, the director may order any horticultural plant, not properly tagged or identified, off sale or returned to the consignor for proper tagging. Upon issuance of an order requiring horticultural plants to be removed from sale or returned to the consignor, the seller or holder of the plant material is entitled to request a hearing under chapter 34.05 RCW.

[Statutory Authority: Chapters 15.13 and 34.05 RCW. 04-09-084, § 16-402-040, filed 4/20/04, effective 5/21/04.]

REPORTING AND HOLDING OF TREE AND SHRUB NURSERY STOCK

WAC 16-402-100 Purpose. The intrusion of nonnative, invasive plant pest species into Washington state is a significant public concern. Plant pest species include insects, nematodes, snails, plant diseases, weeds and other species which harm plants or plant products. If established, such plant pests have potential to cause harm to the state's forest, agricultural, horticultural, floricultural and apiary industries, to damage natural resources and the property of private landowners, to reduce environmental quality, and to threaten the diversity and abundance of native species. In recent years, many of these invasive plant pests have entered the state, in some cases causing significant private and public expense for monitoring, control or eradication. This rule is intended to aid in

(2007 Ed.)

the exclusion, tracking, identification, control and/or eradication of invasive plant pests which may enter the state on or in association with horticultural plants, in order to protect public health, safety, welfare, and the environment.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-14-090, § 16-402-100, filed 7/6/04, effective 8/6/04.]

WAC 16-402-110 Definitions. The following definitions apply to WAC 16-402-100 through 16-402-130:

(1) "Tree and shrub nursery stock" means woody forest and ornamental trees, shrubs and vines grown or kept for propagation, distribution or sale, including bareroot, balled and burlaped, and containerized plants, liners, budwood, seedlings and cuttings. Fruit, seeds and tissue culture plantlets are not considered tree and shrub nursery stock.

(2) "Business day" means Monday through Friday, excluding state holidays.

(3) "Receiving nursery" means any nursery dealer within Washington state, including landscape firms and greenhouses required to be licensed as nursery dealers, that acquires tree and shrub nursery stock via interstate or international shipment.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-14-090, § 16-402-110, filed 7/6/04, effective 8/6/04.]

WAC 16-402-120 Notification requirement. (1)

Receiving nurseries for tree and shrub nursery stock imported into Washington state from any out-of-state source are required to notify the Washington state department of agriculture (WSDA). Notification methods may include U.S. mail, telefacsimile, delivery service or e-mail to: Nursery Inspection Program Supervisor, Plant Protection Division, Washington State Department of Agriculture, 1111 Washington St. S.E., P.O. Box 42560, Olympia, WA 98504-2560; fax 360-902-2094; e-mail: nursery@agr.wa.gov.

(2) Notification must include the species of plant(s), quantities of each species, source of each shipment and the receiving nursery's contact information including telephone numbers and e-mail address (if available). Copies of regular shipping documents, such as load lists, with this information are encouraged.

(3) Notification must arrive at WSDA no later than two business days after arrival of the shipment at the receiving nursery. Notification in advance of the shipment is encouraged.

(4) WSDA may approve alternative notification systems, if the alternative systems allow the provisions of WAC 16-401-130 to be carried out.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-14-090, § 16-402-120, filed 7/6/04, effective 8/6/04.]

WAC 16-402-130 Hold requirement. (1)

Tree and shrub nursery stock shipments from outside the state must be held separate from other nursery stock for a minimum of one full business day after notification is received by WSDA.

(2) WSDA will contact the nursery before or during the hold period specified in subsection (1) of this section, if the tree and shrub nursery stock must be held for inspection. WSDA will conduct the inspection as soon as practicable.

[Title 16 WAC—p. 437]

(3) Unless the receiving nursery has been instructed by WSDA to hold the shipment under subsection (2) of this section, the receiving nursery may distribute the stock before the expiration of the hold period specified in subsection (1) of this section, if the disposition of the stock is fully traceable. Retail sale to cash customers is not permitted during the hold period.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-14-090, § 16-402-130, filed 7/6/04, effective 8/6/04.]

Chapter 16-403 WAC

STANDARDS FOR APPLES MARKETING WITHIN THE STATE OF WASHINGTON

WAC

16-403-140	Washington state standards for apples.
16-403-141	Red Delicious, Delicious, Golden Delicious—Minimum soluble solids.
16-403-142	Red Delicious, Delicious, Golden Delicious, Gala, and Jonagold—Minimum firmness.
16-403-143	Granny Smith—Starch-iodine requirements.
16-403-145	Red, partial red or blushed varieties—Washington extra fancy.
16-403-150	Red, partial red or blushed varieties—Washington fancy.
16-403-155	Color requirements.
16-403-160	Green or yellow varieties—Washington extra fancy.
16-403-165	Green or yellow varieties—Washington fancy.
16-403-170	Green or yellow varieties—Washington C grade.
16-403-175	Green or yellow varieties—Color requirements.
16-403-180	Combination grades.
16-403-185	Culls.
16-403-190	Tolerances.
16-403-195	Application of tolerances.
16-403-200	Calculation of percentages.
16-403-205	Condition after storage or transit.
16-403-215	Packing requirements.
16-403-220	Marking requirements—Open or closed containers.
16-403-225	Other brands and grades.
16-403-230	Well formed.
16-403-235	Fairly well formed.
16-403-240	Diameter or fruit weight.
16-403-245	Mature.
16-403-250	Overripe.
16-403-260	Clean.
16-403-265	Injury.
16-403-270	Damage.
16-403-275	Serious damage.
16-403-280	Adoption of United States standards as state standards.
16-403-285	Spots showing diameters in fractions of an inch.
16-403-290	Damage by invisible watercore.
16-403-295	Inspector's guide for apple bruises at shipping point and market.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-403-001	Promulgation. [Order 893, Promulgation, filed 8/31/62; Order 870, Promulgation, filed 11/13/61.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-002	Promulgation. [Order 992, filed 8/24/65; Emergency Order 991, filed 8/24/65.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.

16-403-015	Red, partial red or blushed varieties—Washington extra fancy. [Order 893, Regulation 1, § 1, effective 10/1/62; Order 870, Regulation 1, § 1, filed 11/13/61; Order 838, Regulation 1 (part), filed 3/27/61; Order 791, Regulation 1, § 1, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.

16-403-020	Red, partial red or blushed varieties—Washington fancy. [Order 893, Regulation 1, § 2, effective 10/1/62; Order 870, Regulation 1, § 2, filed 3/27/61; Order 838, Regulation 1, § 2, filed 3/27/61; Order 791, Regulation 1, § 2, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-025	Red, partial red or blushed varieties—Color requirements. [Order 893, Regulation 1, § 3, effective 10/1/62; Order 870, Regulation 1, § 3, filed 11/13/61; Order 838, Regulation 1, § 3, filed 3/27/61; Order 791, Regulation 1, § 4, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-030	Green or yellow varieties—Washington extra fancy. [Order 893, Regulation 2, § 1, effective 10/1/62; Order 870, Regulation 2, § 1, filed 11/13/61; Order 791, Regulation 2, § 1, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-035	Green or yellow varieties—Washington fancy. [Order 1061 (part), filed 7/28/67, effective 8/28/67; Order 893, Regulation 2, § 2, effective 10/1/62; Order 870, Regulation 2, § 2, filed 11/13/61; Order 791, Regulation 2, § 2, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-040	Green or yellow varieties—Washington C grade. [Order 1061 (part), Regulation 2, § 3, filed 7/28/67, effective 8/28/67; Order 893, Regulation 2, § 3, effective 10/1/62; Order 870, Regulation 2, § 3, filed 11/13/61; Order 791, Regulation 2, § 3, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-045	Green or yellow varieties—Hail grade. [Order 870, Regulation 2, § 4, filed 11/13/61; Order 791, Regulation 2, § 4, effective 9/15/59.] Superseded by Order 893, filed 8/31/62, effective 10/1/62.
16-403-050	Green or yellow varieties—Color requirements. [Order 893, Regulation 2, § 4; Order 870, Regulation 2, § 5, filed 11/13/61; Order 791, Regulation 2, § 5, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-055	Combination grades. [Order 893, Regulation 3, effective 10/1/62; Order 870, Regulation 3, filed 11/13/61; Order 838, Regulation 3, § 1, filed 6/20/61; Clarification in Order 838, filed 6/20/62; Order 791, Regulation 3, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-060	Cull grades. [Order 893, Regulation 4, effective 10/1/62; Order 870, Regulation 4, filed 11/13/61; Order 791, Regulation 4, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-065	Tolerances. [Order 893, Regulation 5, effective 10/1/62; Order 870, Regulation 5, filed 11/13/61; Order 791, Regulation 5, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-070	Containers. [Order 893, Regulation 6, effective 10/1/62; Order 870, Regulation 6, filed 11/13/61; Order 791, Regulation 6, effective 9/15/59, subsection (2)(d) amended by Order 992, filed 8/24/65; Emergency Order 991, filed 8/24/65.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-075	Marking requirements—Marking open or closed containers. [Order 1061, Regulation 7, § 2, filed 7/28/67, effective 8/28/67; Order 893, Regulation 7, effective 10/1/62; Order 870, Regulation 7, filed 11/13/61; Order 791, Regulation 7, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-080	Other brands and grades. [Order 893, Regulation 8, effective 10/1/62; Order 870, Regulation 8, filed 11/13/61; Order 791, Regulation 8, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-085	Washington state conditions standards. [Order 893, Regulation 9, effective 10/1/62; Order 870, Regulation 9, filed 11/13/61; Order 791, Regulation 9, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-090	Washington state standards for grades of processing apples. [Order 893, Regulation 10, effective 10/1/62; Order 870, Regulation 10, filed 11/13/61.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-095	United States standards for apples—Grades. [Order 893, Regulation 11, § 1, effective 10/1/62; Order 870, Regulation 11, § 1, filed 11/13/61; Order 791, Regulation 10, § 1, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
16-403-100	United States standards for apples—Color requirements. [Order 893, Regulation 11, § 2, effective

- 10/1/62; Order 870, Regulation 10, § 2, filed 11/13/61; Order 791, Regulation 10, § 2, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-105 United States standards for apples—Tolerances. [Order 893, Regulation 11, § 3, effective 10/1/62; Order 870, Regulation 11, § 3, filed 11/13/61; Order 791, Regulation 10, § 3, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-110 United States standards for apples—Condition. [Order 893, Regulation 11, § 4, effective 10/1/62; Order 870, Regulation 11, § 4, filed 11/13/61; Order 791, Regulation 10, § 4, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-115 United States standards for apples—Packing and marking. [Order 893, Regulation 11, § 5, effective 10/1/62; Order 870, Regulation 11, § 5, filed 11/13/61; Order 791, Regulation 10, § 5, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-120 United States standards for apples—United States condition standards for export. [Order 893, Regulation 11, § 6, effective 10/1/62; Order 870, Regulation 11, § 6, filed 11/13/61; Order 791, Regulation 10, § 6, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-125 United States standards for apples—Definitions. [Order 893, Regulation 11, § 7, effective 10/1/62; Order 870, Regulation 11, § 7, filed 11/13/61; Order 791, Regulation 10, § 7, effective 9/15/59.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-130 Spot diameters illustrated. [Order 893 (part), effective 10/1/62.] Repealed by Order 1374, filed 7/26/74, effective 9/1/74.
- 16-403-135 Promulgation. [Order 1374, § 16-403-135, filed 7/26/74, effective 9/1/74.] Repealed by 79-07-068 (Order 1635), filed 6/27/79. Statutory Authority: Chapter 15.17 RCW.
- 16-403-13501 Promulgation. [Order 1475, § 16-403-13501, filed 7/2/76.] Repealed by 79-07-068 (Order 1635), filed 6/27/79. Statutory Authority: Chapter 15.17 RCW.
- 16-403-255 Carefully hand picked. [Order 1374, § 16-403-255, filed 7/26/74, effective 9/1/74.] Repealed by 06-12-117, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapters 15.17 and 34.05 RCW.
- 16-403-300 Effective date. [Order 1374, § 16-403-300, filed 7/26/74, effective 9/1/74.] Repealed by 79-07-068 (Order 1635), filed 6/27/79. Statutory Authority: Chapter 15.17 RCW.

WAC 16-403-140 Washington state standards for apples. Washington state standard apple grades for extra fancy and fancy shall be equivalent to or better than the U.S. standards for grades of apples, except the Fuji variety, effective September 1, 1964, as amended October 1, 1966, July 25, 1972, and March 25, 1976, for U.S. extra fancy and U.S. fancy. Apples meeting the foregoing grades may be marked either with the proper Washington or U.S. grade, or both. In no case shall the grade and condition requirements thereof be interpreted as less than those standards required by said U.S. standards for grades of apples for the comparable Washington grade and variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-140, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 88-14-128 (Order 1982), § 16-403-140, filed 7/6/88, effective 9/1/88; Order 1374, § 16-403-140, filed 7/26/74, effective 9/1/74.]

WAC 16-403-141 Red Delicious, Delicious, Golden Delicious—Minimum soluble solids. For harvest of the crop of the current growing season, apples of the Red Delicious and Delicious varieties cannot be shipped prior to October 1, unless they have at least eleven percent soluble solids as determined by refractometer. Apples of the Golden Delicious varieties, cannot be shipped prior to September 20 unless they have at least ten and one-half percent soluble solids as determined by refractometer.

(2007 Ed.)

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 02-12-011, § 16-403-141, filed 5/23/02, effective 8/1/02. Statutory Authority: Chapter 15.17 RCW. 01-12-079, § 16-403-141, filed 6/5/01, effective 7/6/01; 99-14-036, § 16-403-141, filed 6/29/99, effective 7/30/99; 86-14-026 (Order 1892), § 16-403-141, filed 6/25/86.]

WAC 16-403-142 Red Delicious, Delicious, Golden Delicious, Gala, and Jonagold—Minimum firmness. At the time of shipment, Red Delicious, and Delicious varieties shall pressure test not less than twelve pounds: Provided, That those apples failing to pressure test twelve pounds may be considered as meeting the requirements of this section when the individual apple exhibits edible qualities and texture of flesh comparable to other apples of the same variety which pressure test twelve pounds or more.

At the time of shipment, Golden Delicious variety shall pressure test not less than ten pounds: Provided, That those apples failing to pressure test ten pounds may be considered as meeting the requirements of this section when the individual apple exhibits edible qualities and texture of flesh comparable to other apples of the same variety which pressure test ten pounds or more.

At time of shipment, Gala and Jonagold varieties of apples shall pressure test not less than eleven pounds.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 02-12-011, § 16-403-142, filed 5/23/02, effective 8/1/02. Statutory Authority: Chapter 15.17 RCW. 90-09-032 (Order 2032), § 16-403-142, filed 4/11/90, effective 5/12/90; 89-14-031 (Order 2012), § 16-403-142, filed 6/28/89, effective 9/1/89; 88-14-128 (Order 1982), § 16-403-142, filed 7/6/88, effective 9/1/88.]

WAC 16-403-143 Granny Smith—Starch-iodine requirements. For harvest of the crop of the current growing season, apples of the Granny Smith variety cannot be shipped prior to October 10 unless they meet the stage of maturity as indicated by starch-iodine rating of 1.2 on the Cascade Analytical Inc. chart: Provided, That any such lot of apples may be shipped if not more than ten percent of the apples tested fail to meet the 1.2 rating.

[Statutory Authority: Chapter 15.17 RCW. 01-12-079, § 16-403-143, filed 6/5/01, effective 7/6/01; 92-15-056, § 16-403-143, filed 7/13/92, effective 8/13/92.]

WAC 16-403-145 Red, partial red or blushed varieties—Washington extra fancy. Washington extra fancy consists of apples of one variety (except when more than one variety is printed on the container) which are mature but not overripe, clean, fairly well formed; free from decay, internal browning, internal breakdown, scald, scab, freezing injury, visible watercore, and broken skins and bruises except those which are slight and incident to proper handling and packing. The apples are also free from injury caused by smooth net-like russetting, sunburn or spray-burn, limb rubs, hail, drought spots, scars, disease, insects, or other means; and free from damage by smooth solid, slightly rough or rough russetting, or stem or calyx cracks, Jonathan spot, bitter pit and free from damage by invisible watercore after January 31st of the year following the year of production: Provided, That smooth net-like russetting and/or invisible watercore shall not be a quality factor of Fuji variety at any time of the year. Each apple of this grade has the amount of color specified in WAC 16-403-155 for the variety.

[Title 16 WAC—p. 439]

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-145, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 94-07-133 (Order 5033), § 16-403-145, filed 3/23/94, effective 4/23/94; Order 1374, § 16-403-145, filed 7/26/74, effective 9/1/74.]

WAC 16-403-150 Red, partial red or blushed varieties—Washington fancy. Washington fancy consists of apples of one variety (except when more than one variety or commodity is printed on the container) which are mature but not overripe, clean, fairly well formed; free from decay, internal browning, internal breakdown, scald, freezing injury, visible watercore, and broken skins and bruises, except those which are incident to proper handling and packing. The apples are also free from damage caused by russetting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, Jonathan spot, bitter pit, disease, insects, invisible watercore after January 31st of the year following the year of production, or damage by other means: Provided, That smooth net-like russetting and/or invisible watercore shall not be a quality factor of Fuji variety at any time of the year. Each apple of this grade has the amount of color specified in WAC 16-403-155 for the variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-150, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 94-07-133 (Order 5033), § 16-403-150, filed 3/23/94, effective 4/23/94; Order 1374, § 16-403-150, filed 7/26/74, effective 9/1/74.]

WAC 16-403-155 Color requirements. In addition to the requirement specified for the grades set forth in WAC 16-403-145 and 16-403-150, apples of these grades shall have the percentage of color specified for the variety appearing in this section.

(1) **Solid red varieties.** For the solid red varieties the percentage stated refers to the area of the surface which must be covered with a good shade of solid red characteristic of the variety: Provided, That an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade, subject to the limitations set forth below.

VARIETY	EXTRA FANCY PERCENT	FANCY PERCENT
Black Ben	66 ⁽¹⁾	40 ⁽³⁾
Gano	66 ⁽¹⁾	40 ⁽³⁾
Winesaps	66 ⁽¹⁾	40 ⁽³⁾
Other similar varieties	66 ⁽¹⁾	40 ⁽³⁾
Red sport varieties ⁽²⁾	66 ⁽⁴⁾	40 ⁽³⁾

- (1) Must have at least 50 percent good shade of red color characteristic of the variety.
- (2) When the red sport varieties are marked as such, they shall meet the color requirements of red sport varieties, and the containers must also bear the name of the parent variety.
- (3) Must have at least 33 percent good shade of red color; characteristic of the variety.
- (4) Must have at least 66 percent good shade of red color; characteristic of the variety.

(2) **Striped or partial red varieties.** For the striped or partial red varieties the percentage stated refers to the area of the surface in which the stripes of a good shade of red charac-

teristic of the variety shall predominate over stripes of lighter red, green or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade, subject to the limitations set forth below. Faded brown stripes shall not be considered as color.

VARIETY	EXTRA FANCY PERCENT	FANCY PERCENT
Delicious	50	25
Rome Beauty	50 ⁽¹⁾	33 ⁽²⁾
Wealthy	50	25
Stayman	50	33
Other similar varieties	50	25
Jonathan	66 ⁽¹⁾	33 ⁽²⁾
McIntosh	50 ⁽¹⁾	33 ⁽²⁾
Cortland	50	33
Akane	33 1/3	15
Jonamac	50	33
Nittany	25	10
Vista Bella	25	10
Other similar varieties	50	33
Red sport varieties ⁽⁵⁾	66 ⁽⁴⁾	40 ⁽³⁾

- (1) Must have at least 35 percent good shade of red color characteristic of the variety.
- (2) Must have at least 15 percent good shade of red color characteristic of the variety.
- (3) Must have at least 33 percent good shade of red color characteristic of the variety.
- (4) Must have at least 66 percent good shade of red color characteristic of the variety.
- (5) When the red sport varieties are marked as such, they shall meet the color requirements of red sport varieties, and the containers must also bear the name of the parent variety.

(3) Red cheeked or blushed varieties.

VARIETY	EXTRA FANCY PERCENT	FANCY PERCENT
Braeburn	Blush Cheek	Tinge of color
Elstar	Blush Cheek	Tinge of color
Fuji	Blush Cheek	Tinge of color
Gala, (Royal Gala)	Blush Cheek	Tinge of color
Jonagold	Blush Cheek	Tinge of color
Winter Banana	Blush Cheek	Tinge of color
Other similar varieties	Blush Cheek	Tinge of color

(4) In no case shall the color requirements for any variety be less than those required under the United States standards for grades of apples, effective September 1, 1964, as amended October 1, 1966 and July 25, 1972 for the comparable Washington grade and variety.

[Statutory Authority: Chapter 15.17 RCW. 90-13-078 (Order 2045), § 16-403-155, filed 6/19/90, effective 7/20/90; Order 1374, § 16-403-155, filed 7/26/74, effective 9/1/74.]

WAC 16-403-160 Green or yellow varieties—Washington extra fancy. Washington extra fancy consists of apples of one variety (except when more than one variety or commodity is printed on the container) which are mature but not overripe, clean, fairly well formed; free from decay, internal browning, internal breakdown, scald, scab, freezing

injury, visible watercore, broken skins and bruises except those which are slight and incident to proper handling and packing. The apples are also free from slightly rough or rough russetting, provided, russetting other than rough or bark-like russetting materially affecting the appearance of the apple shall be permitted in the stem cavity or calyx basin if it cannot be seen when the apple is placed stem end or calyx end down on a flat surface. The apples are also free from injury caused by smooth net-like russetting, smooth solid russetting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, disease, insects, stem or calyx cracks, or other means; and free from damage by Jonathan spot, bitter pit and by invisible watercore after January 31st of the year following the year of production. Each apple of this grade has the amount of color specified in WAC 16-403-175 for the variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-160, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 92-15-056, § 16-403-160, filed 7/13/92, effective 8/13/92; 86-14-026 (Order 1892), § 16-403-160, filed 6/25/86; Order 1374, § 16-403-160, filed 7/26/74, effective 9/1/74.]

WAC 16-403-165 Green or yellow varieties—Washington fancy. Washington fancy consists of apples of one variety (except when more than one variety or commodity is printed on the container) which are mature but not overripe, clean, fairly well formed; free from decay, internal browning, internal breakdown, scald, freezing injury, visible watercore, and broken skins and bruises except those which are incident to proper handling and packing. The apples are also free from damage caused by russetting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, Jonathan spot, bitter pit, disease, insects, invisible watercore after January 31st of the year following the year of production, or damage by other means. Each apple of this grade has the amount of color specified in WAC 16-403-175 for the variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-165, filed 6/7/06, effective 7/8/06; Order 1374, § 16-403-165, filed 7/26/74, effective 9/1/74.]

WAC 16-403-170 Green or yellow varieties—Washington C grade. The requirements of this grade are the same as for Washington fancy except for color, russetting and invisible watercore. Apples of this grade are free from excessive damage caused by russetting which means that apples meet the russetting requirements for Washington fancy as defined under the definitions of "damage by russetting," except the aggregate area of an apple which may be covered by smooth net-like russetting shall not exceed 25 percent; and the aggregate area of an apple which may be covered by smooth solid russetting shall not exceed 10 percent: Provided, That in the case of the Yellow Newtown, Granny Smith or similar varieties the aggregate area of an apple which may be covered with smooth solid russetting shall not exceed 20 percent; and the aggregate area of an apple which may be covered with excessively rough or barklike russetting or limb rubs shall not exceed the area of a circle three-fourths of an inch in diameter. Each apple of this grade has the amount of color specified in WAC 16-403-175 for the variety. There is no requirement in this grade pertaining to invisible watercore.

(2007 Ed.)

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-170, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 79-07-068 (Order 1635), § 16-403-170, filed 6/27/79; Order 1374, § 16-403-170, filed 7/26/74, effective 9/1/74.]

WAC 16-403-175 Green or yellow varieties—Color requirements. (1) Golden Delicious. In extra fancy and fancy grades, 75 percent or more of the surface of the apple shall show white or light green predominating over the green color. In C grade, 33-1/3 percent or more of the surface of the apple shall show white or light green predominating over the green color.

(2) In green and yellow varieties, other than Golden Delicious, characteristic ground color shall be required in extra fancy, fancy or C grade.

(3) In no case shall the color requirements for any variety be less than those required under the United States standards for grades of apples, effective September 1, 1964, as amended October 1, 1966 and July 25, 1972 for the comparable Washington grade and variety.

[Order 1374, § 16-403-175, filed 7/26/74, effective 9/1/74.]

WAC 16-403-180 Combination grades. (1) Combination extra fancy and fancy. When extra fancy and fancy apples are packed together, the boxes may be marked "Washington combination extra fancy and fancy" and shall contain at least 80 percent extra fancy apples, except Newtowns, which shall contain at least 50 percent extra fancy apples. (This is the only combination grade which may be used for red or partial red varieties.)

(2) Combination extra fancy, fancy and C grade. When extra fancy, fancy and C grade apples are packed together, the boxes may be marked "Washington combination extra fancy, fancy and C grade" and shall contain at least 80 percent extra fancy apples, except Newtowns, which shall contain at least 50 percent extra fancy apples.

(3) Combination fancy and C grade. When fancy and C grade apples are packed together, the boxes may be marked "Washington combination fancy and C grade" but shall contain at least 80 percent fancy apples, except Newtowns, which shall contain at least 50 percent fancy apples.

(4) Jumble pack. The larger sizes of the above grades may be removed and the rest packed and marked "jumble" or "face and fill" in addition to the grade mark.

(5) Gift grade. Gift grade may consist of mixed varieties (apples and pears) and in the case of apples shall meet Washington extra fancy grade as defined in Washington standards for apples, and in the case of pears shall be U.S. No. 1 or higher grade as defined in Washington standards for D'Anjou, Bosc, Winter Nelis and other varieties of winter pears. When gift containers meet the requirements of gift grade, such containers need be marked only "gift grade" and a statement of net contents in weight or count and name and address of packer or shipper.

[Statutory Authority: Chapter 15.17 RCW. 88-14-128 (Order 1982), § 16-403-180, filed 7/6/88, effective 9/1/88; Order 1374, § 16-403-180, filed 7/26/74, effective 9/1/74.]

WAC 16-403-185 Culls. (1) Apples which are not graded in conformity with the foregoing grades and which

contain not more than 5 percent serious insect damage shall be designated as "culls."

(2) Following is a quotation from RCW 15.17.080 - Fresh fruits—Culls—Container markings—Designation on bills of lading, invoices, etc.:

"It shall be unlawful for any person to sell fresh fruits for fresh consumption classified as culls under the provisions of this chapter or rules adopted hereunder unless such fruit is packed in one-half bushel or one bushel wooden baskets ring faced, with the fruit in the ring face representative of the size and quality of the fruit in such baskets. Such baskets shall be lidded and the words "cull" including the kind of fruit and variety must appear on the top and side of each basket and on any label thereon in clear and legible letters at least two and one-half inches high. Every bill of lading, invoice, memorandum, and document referring to said fruit shall designate them as culls."

[Order 1374, § 16-403-185, filed 7/26/74, effective 9/1/74.]

WAC 16-403-190 Tolerances. In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided as specified:

(1) Defects: Washington extra fancy, Washington fancy and Washington C grade.

Ten percent of the apples in any lot may fail to meet the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for apples which are seriously damaged, including therein not more than one percent for apples affected by decay or internal breakdown.

(2) When applying the foregoing tolerances to combination grades, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the percent of apples of the higher grade required in the combination.

Combinations requiring 80 percent of the higher grade for the lot shall have not less than 65 percent of the higher grade in individual samples.

Combinations requiring 50 percent of the higher grade for the lot shall have not less than 40 percent of the higher grade in individual samples.

(3) Size. When size is designated by the numerical count for a container, not more than 5 percent of the apples in the lot may vary more than 1/2 inch in diameter. When size is designated by minimum or maximum diameter or weight, not more than 5 percent of the apples in any lot may be smaller than the designated minimum and not more than 10 percent may be larger than the designated maximum.

(4) Firmness. Not more than ten percent of the apples in any lot of Red Delicious, Delicious, Golden Delicious, Jonagold, and Gala varieties shall fail to meet the firmness requirements as defined in WAC 16-403-142.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-190, filed 6/7/06, effective 7/8/06; 02-12-011, § 16-403-190, filed 5/23/02, effective 8/1/02. Statutory Authority: Chapter 15.17 RCW. 92-15-056, § 16-403-190, filed 7/13/92, effective 8/13/92; 90-09-032 (Order 2032), § 16-403-190, filed 4/11/90, effective 5/12/90; 89-14-031 (Order 2012), § 16-403-190, filed 6/28/89, effective 9/1/89; 88-14-128 (Order 1982), § 16-403-190, filed 7/6/88, effective 9/1/88; Order 1374, § 16-403-190, filed 7/26/74, effective 9/1/74.]

WAC 16-403-195 Application of tolerances. The contents of individual samples in the lot, are subject to the following limitations: Provided, That the averages for the entire lot are within the tolerances specified for the grade.

Packages which contain more than 10 pounds:

Samples shall have not more than one and one-half times a specified tolerance of 10 percent or more and not more than double a tolerance of less than 10 percent, except that at least one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any sample.

Packages which contain 10 pounds or less:

No packages may have more than three times the tolerance specified, except that at least three defective apples may be permitted in any package: Provided, That not more than three apples or more than 18 percent (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-195, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 88-14-128 (Order 1982), § 16-403-195, filed 7/6/88, effective 9/1/88; Order 1374, § 16-403-195, filed 7/26/74, effective 9/1/74.]

WAC 16-403-200 Calculation of percentages. (1) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(2) When the minimum diameter and/or minimum weight of individual apples, or minimum and maximum diameters and/or weights of individual apples are marked on a container or when the apples are jumbled in a container or in bulk, percentages shall be calculated on the basis of weight or an equivalent basis.

[Statutory Authority: Chapter 15.17 RCW. 92-15-056, § 16-403-200, filed 7/13/92, effective 8/13/92; Order 1475, § 16-403-200, filed 7/2/76; Order 1374, § 16-403-200, filed 7/26/74, effective 9/1/74.]

WAC 16-403-205 Condition after storage or transit. (1) Decay, scald or any other deterioration which may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade, except a separate tolerance in addition to and aside from the regular grade tolerances shall be allowed for apples that are overripe, providing an average of not more than 5 percent overripe in any lot of apples with not more than 10 percent overripe in any one container shall be permitted in any shipment.

[Order 1374, § 16-403-205, filed 7/26/74, effective 9/1/74.]

WAC 16-403-215 Packing requirements. (1) Apples tray packed or cell packed in cartons shall be arranged according to approved and recognized methods. Packs shall be at least fairly tight^a or fairly well filled^b.

(2) Closed cartons containing apples not tray or cell packed shall be fairly well filled^b or the pack shall be sufficiently tight to prevent any appreciable movement of the apples.

(3) Apples on the shown face of any container shall be reasonably representative in size, color and quality of the contents.

(4) Tolerances: In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may fail to meet these requirements.

- ^a - "Fairly tight" means that apples are of the proper size for molds or cell compartments in which they are packed and that molds or cells are filled in such a way that no more than slight movement of apples within molds or cells is possible.
- ^b - "Fairly well filled" means that the net weight of apples in containers ranging from 2,100 to 2,900 cubic inch capacity is not less than 38 pounds for Jonathan, McIntosh and Golden Delicious varieties and not less than 40 pounds for all other varieties.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-215, filed 6/7/06, effective 7/8/06; Order 1374, § 16-403-215, filed 7/26/74, effective 9/1/74.]

WAC 16-403-220 Marking requirements—Open or closed containers. (1) The containers shall bear the correct name of the variety or when more than one variety or commodity is in the container, each variety and commodity must be shown, the name of the grower, packer, or distributor, and his address, the grade, the numerical count or the minimum diameter of apples packed in a closed container, and the net contents either in terms of dry measure or weight. The minimum weight of individual apples within the container may be stated in lieu of, in combination with, or in addition to, minimum diameter as a declaration of size. All open containers and consumer packages must bear statement of net weight or volume.

(a) When the numerical count is not shown, the minimum diameter or minimum weight of individual apples shall be plainly stamped, stenciled, or otherwise marked on the container in terms of whole inches, or whole inches and not less than eight inch fractions thereof or in terms of whole grams.

(b) When used in combination with minimum diameter as a size designation, the following minimum fruit weights shall be used:

Red Delicious	Golden Delicious
2 1/8 in. or 65 grams	63 grams
2 1/4 in. or 75 grams	70 grams
2 3/8 in. or 84 grams	82 grams
2 1/2 in. or 100 grams	95 grams
2 5/8 in. or 115 grams	109 grams
2 3/4 in. or 139 grams	134 grams

(c) The word "minimum," or its abbreviation, when following a diameter size or weight size marking, means that the apples are of the size marked or larger.

(2) Over-wrapped consumer units may be marked with count, if all specimens can be counted.

(3) Any of these marks may be placed on either the end or side of the container. (California requires end markings.)

(4) When containers are marked as to number, each container shall contain the correct number of apples designated by the markings.

(5) Grade markings on consumer-type packages must be at least one-fourth inch in height.

(6) Apples which were produced outside of the state of Washington and which are graded, packed, or repacked in the

state of Washington, shall be correctly labeled as to the state or country of origin, e.g., "Product of Oregon," "Grown in Oregon," "Produced in Canada."

Such marking shall be placed on the same end or side panel of the container as other markings related to grade, variety, net contents, and name and address of the grower, packer, or distributor, and shall be of similar print size. Consumer type packages shall not be required to bear a statement as to origin when such marking has been placed on the master shipping container.

(7) Containers shall be marked with the harvest year beginning on October 1 of each year and be applied only to apples harvested in the previous year; that this marking shall occur at the time of shipment; and be displayed on the principal display panel with letters of a minimum of one-half inch in height.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-220, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 01-12-079, § 16-403-220, filed 6/5/01, effective 7/6/01; 93-18-065 (Order 5005), § 16-403-220, filed 8/30/93, effective 9/30/93; 92-15-056, § 16-403-220, filed 7/13/92, effective 8/13/92; Order 1374, § 16-403-220, filed 7/26/74, effective 9/1/74.]

WAC 16-403-225 Other brands and grades. (1) Any person, firm or organization wishing to pack apples under any other grade or brand than according to the foregoing rules shall file a certified copy of the description of such grade or brand with the director of agriculture the year in which the apples so to be packed are grown: Provided, That upon request of such person, firm, or organization, having reregistered such grade or brand for ten or more consecutive years, the grade or brand may be permanently registered.

(2) If such grade or brand is approved by the director of agriculture, apples may be packed under such grade or brand, instead of the official state grading rules and all boxes of apples so packed shall be marked with that grade or brand: Provided, That private grades or brands for apples may only be registered and approved when they meet the specifications required of Washington fancy grade or better.

Note: Private grades do not meet marking requirements of U.S. Apple and Pear Act and shall not be used on export shipments.

[Statutory Authority: Chapter 15.17 RCW. 86-10-045 (Order 1886), § 16-403-225, filed 5/6/86; Order 1374, § 16-403-225, filed 7/26/74, effective 9/1/74.]

WAC 16-403-230 Well formed. "Well formed" means having the normal shape characteristic of the variety, except that the shape may be slightly irregular provided it does not detract from the general appearance of the apple. Shape shall be determined by the same models used in determining shape under the United States standards for grades of apples, effective September 1, 1964, as amended October 1, 1966 and July 25, 1972.

[Order 1374, § 16-403-230, filed 7/26/74, effective 9/1/74.]

WAC 16-403-235 Fairly well formed. "Fairly well formed" means that the apple may be slightly abnormal in shape but not to an extent which detracts materially from its appearance. Shape shall be determined by the same models used in determining shape under the United States standards

for grades of apples, effective September 1, 1964, as amended October 1, 1966 and July 25, 1972.

[Order 1374, § 16-403-235, filed 7/26/74, effective 9/1/74.]

WAC 16-403-240 Diameter or fruit weight. When measuring for minimum size, "diameter" means the greatest dimension of the apple measured at right angles to a line from stem to blossom end. When measuring for maximum size "diameter" means the smallest dimension of the apple determined by passing the apple through a round opening in any position. When measuring for minimum weight as a designation of fruit size, the individual apple must meet the minimum weight designation as marked on the container or package.

[Statutory Authority: Chapter 15.17 RCW. 92-15-056, § 16-403-240, filed 7/13/92, effective 8/13/92; Order 1374, § 16-403-240, filed 7/26/74, effective 9/1/74.]

WAC 16-403-245 Mature. (1) "Mature" means that the apples have reached the stage of development which will insure the proper completion of the ripening process. Before a mature apple becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. The following terms are used for describing different stages of firmness of apples:

(a) "Hard" means apples with a tenacious flesh and starchy flavor.

(b) "Firm" means apples with a tenacious flesh but which are becoming crisp with a slightly starchy flavor, except the Delicious variety.

(c) "Firm ripe" means apples with crisp flesh except that the flesh of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy.

(d) "Ripe" means apples with mealy flesh and soon to become soft for the variety.

[Order 1374, § 16-403-245, filed 7/26/74, effective 9/1/74.]

WAC 16-403-250 Overripe. "Overripe" means apples which are dead ripe, with flesh very mealy or soft, and past commercial utility.

[Order 1374, § 16-403-250, filed 7/26/74, effective 9/1/74.]

WAC 16-403-260 Clean. "Clean" means that the apples are free from excessive dirt, dust, spray residue and other foreign material.

[Order 1374, § 16-403-260, filed 7/26/74, effective 9/1/74.]

WAC 16-403-265 Injury. (1) "Injury" means any specific defect defined in this section, or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which more than slightly detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as injury:

(a) Russetting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether or not an apple is injured by russetting. Smooth net-like russetting outside of the stem cavity or calyx basin shall be considered as injury when an aggregate area of

more than 10 percent of the surface is covered in the red, partial red and blushed varieties and 5 percent of the surface for green and yellow varieties, and the color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russetting when the appearance is affected to a greater extent than the above amount permitted. Smooth solid russetting when the aggregate area in the green and yellow varieties exceeds more than 1/4 inch in diameter and in the red and partial red varieties when the aggregate area exceeds 3/8 inch in diameter shall also be considered as injury.

(b) Sunburn or sprayburn, when the discolored area does not blend into the normal color of the fruit.

(c) Dark brown or black limb rubs which affect a total area of more than one-fourth inch in diameter for red, partial red or blushed varieties and one-eighth inch for green or yellow varieties, except that light brown limb rubs of a russet character shall be considered under the definition of injury by russetting.

(d) Hail marks, drought spots, other similar depressions or scars:

(i) When the skin is broken, whether healed or unhealed;

(ii) When there is appreciable discoloration of the surface;

(iii) When any surface indentation exceeds one-sixteenth inch in depth;

(iv) When any surface indentation exceeds one-eighth inch in diameter; or

(v) When the aggregate affected area of such spots exceeds one-half inch in diameter for red, partial red and blushed varieties or one-fourth inch for green or yellow varieties.

(e) Disease:

(i) Cedar rust infection which affects a total area of more than three-sixteenths inch in diameter.

(ii) Sooty blotch or fly speck which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.

(iii) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.

(f) Insects:

(i) Any healed sting or healed stings which affect a total area of more than one-eighth inch in diameter including any encircling discolored rings.

(ii) Worm holes.

(g) Stem or calyx cracks which more than slightly detract from the appearance or the edible or shipping quality of the apple or stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-eighth inch.

[Order 1374, § 16-403-265, filed 7/26/74, effective 9/1/74.]

WAC 16-403-270 Damage. (1) "Damage" means any specific defect defined in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or shipping qual-

ity of the apple. The following specific defects shall be considered as damage:

(a) Russetting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether or not an apple is damaged by russetting, except that excessively rough or barklike russetting in the stem cavity or calyx basin shall be considered as damage when the appearance of the apple is materially affected. The following types and amounts of russetting outside of the stem cavity or calyx basin shall be considered as damage:

(i) Russetting which is excessively rough or rough on green and yellow varieties.

(ii) Smooth net-like russetting, when an aggregate area of more than 15 percent of the surface is covered, and the color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russetting when the appearance is affected to a greater extent than the above amount permitted.

(iii) Smooth solid russetting when an aggregate area of more than 5 percent of the surface is covered and the pattern and color of the russetting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russetting when the appearance is affected to a greater extent than the above amount permitted.

(iv) Slightly rough russetting which covers an aggregate area of more than one-half inch.

(v) Rough russetting in the red and partial red varieties which covers an aggregate area of more than one-fourth inch in diameter.

(b) Sunburn or sprayburn which has caused blistering or cracking of the skin, or when the discolored area does not blend into the normal color of the fruit unless the injury can be classed as russetting.

(c) Limb rubs which affect a total area of more than one-half inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of damage by russetting.

(d) Hail marks, drought spots, other similar depressions or scars:

(i) When any unhealed mark is present;

(ii) When any surface indentation exceeds one-eighth inch in depth;

(iii) When the skin has not been broken and the aggregate affected area exceeds one-half inch in diameter; or

(iv) When the skin has been broken and well healed, and the aggregate affected area exceeds one-fourth inch in diameter.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-fourth inch.

(f) Invisible watercore existing around the core and extending to watercore in the vascular bundles; or surrounding the vascular bundles when the affected areas surrounding three or more vascular bundles meet or coalesce; or existing in more than slight degree outside the circular area formed by the vascular bundles.

(g) Disease:

(i) Scab spots which affect a total area of more than one-fourth inch in diameter.

(ii) Cedar rust infection which affects a total area of more than one-fourth inch in diameter.

(iii) Sooty blotch or fly speck which is thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.

(iv) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.

(v) Bitter pit or Jonathan spot when one or more spots affects the surface of the apple.

(h) Insects:

(i) Any healed sting or healed stings which affect a total area of more than three-sixteenths inch in diameter including any encircling discolored rings.

(ii) Worm holes.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-117, § 16-403-270, filed 6/7/06, effective 7/8/06; Order 1374, § 16-403-270, filed 7/26/74, effective 9/1/74.]

WAC 16-403-275 Serious damage. (1) "Serious damage" means any specific defect defined in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects which seriously detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as serious damage:

(a) The following types and amounts of russetting shall be considered as serious damage:

(i) Smooth solid russetting, when more than one-half of the surface in the aggregate is covered, including any russetting in the stem cavity or calyx basin, or slightly rough, or excessively rough or barklike russetting, which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russetting permitted.

(b) Sunburn or sprayburn which seriously detracts from the appearance of the fruit.

(c) Limb rubs which affect more than one-tenth of the surface in the aggregate.

(d) Hail marks, drought spots, or scars, if they materially deform or disfigure the fruit, or if such defects affect more than one-tenth of the surface in the aggregate: Provided, That no hail marks which are unhealed shall be permitted and not more than an aggregate area of one-half inch shall be allowed for well healed hail marks where the skin has been broken.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-half inch.

(f) Visible watercore which affects an area of more than one-half inch in diameter.

(g) Disease:

(i) Scab spots which affect a total area of more than three-fourths inch in diameter.

(ii) Cedar rust infection which affects a total area of more than three-fourths inch in diameter.

(iii) Sooty blotch or fly speck which affects more than one-third of the surface.

(iv) Red skin spots which affect more than one-third of the surface.

(v) Bitter pit or Jonathan spot which is thinly scattered over more than one-tenth of the surface and does not materially deform or disfigure the fruit.

(h) Insects:

(i) Healed stings which affect a total area of more than one-fourth inch in diameter including any encircling discolored rings.

(ii) Worm holes.

[Order 1374, § 16-403-275, filed 7/26/74, effective 9/1/74.]

WAC 16-403-280 Adoption of United States standards as state standards. In addition to the standards for apples prescribed in WAC 16-403-140 through 16-403-275, there are hereby adopted, as additional standards of the state of Washington for apples, the United States standards for grades of apples, effective December 19, 2002, adopted by the United States Department of Agriculture, as they apply to U.S. extra fancy, U.S. fancy, U.S. No. 1 and U.S. No. 1 hail, provided, the color requirements specified for U.S. No. 1 and U.S. No. 1 hail must be good shade of red color and the percentage of color required for U.S. No. 1 and U.S. No. 1 hail for Delicious shall be 25 percent good shade of red color and provided further, that all the United States grades as applied to Red Delicious, Delicious, Golden Delicious, Gala, and Jonagold varieties shall meet the firmness requirements of WAC 16-403-142.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 03-24-007, § 16-403-280, filed 11/20/03, effective 12/21/03; 02-12-011, § 16-403-280, filed 5/23/02, effective 8/1/02. Statutory Authority: Chapter 15.17 RCW. 89-14-031 (Order 2012), § 16-403-280, filed 6/28/89, effective 9/1/89; 88-14-128 (Order 1982), § 16-403-280, filed 7/6/88, effective 9/1/88; Order 1374, § 16-403-280, filed 7/26/74, effective 9/1/74.]

WAC 16-403-285 Spots showing diameters in fractions of an inch. Spots showing diameters in fractions of an inch are illustrated below.

One-eighth inch

Three-sixteenths inch

One-fourth inch

Three-eighths inch

One-half inch

Three-fourths inch

WASHINGTON STANDARDS FOR APRICOTS

WAC

16-406-005	What definitions are important to understanding this chapter?
16-406-010	How do you determine the maturity of an apricot?
16-406-012	Do all apricot varieties mature in the same way?
16-406-015	What is considered "damage" and "serious damage" to apricots?
16-406-020	What tolerances apply to apricots?
16-406-025	How are apricot tolerances applied to individual samples?
16-406-030	What marking and packing requirements apply to apricots?
16-406-060	What grades apply to apricots?

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-406-001	Promulgation. [Order 1015, Promulgation, filed 4/29/66; Order 771, Promulgation, effective 4/28/58.] Repealed by 03-24-008, filed 11/20/03, effective 12/21/03. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-406-040	Culls for fresh market. [Order 1015, Regulation D, filed 4/29/66; Order 771, effective 4/28/58.] Repealed by 05-12-036, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-406-050	Definition of terms. [Statutory Authority: Chapter 15.17 RCW. 99-17-003, § 16-406-050, filed 8/4/99, effective 9/4/99; Order 1015, Regulation E, filed 4/29/66; Order 771, effective 4/28/58.] Repealed by 05-12-036, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

WAC 16-406-005 What definitions are important to understanding this chapter? The following definitions are important to this chapter:

"Aggregate" means that injury areas on an apricot's surface may be combined into one circular area with a diameter equal to the maximum diameter specified for the particular injury.

"Damage" means an injury to an apricot that is readily apparent during grading and handling.

"Department" means the Washington state department of agriculture.

"Diameter" means the greatest diameter, measured through the center of the apricot, at right angles to a line running from the stem to the blossom end.

(1) Apricots having a diameter of 1-1/2 inches or larger, ring measurement, may be considered "large."

(2) Apricots having a diameter of less than 1-1/2 inches may be considered "small."

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Mature" means apricots have reached a growth stage that will insure the proper completion of the ripening process.

"Serious damage" means:

(1) Immaturity; or

(2) Any deformity; or

(3) Injuries either causing skin breaks exceeding 3/8 of an inch in diameter or that seriously affects the apricot's appearance.

"Well formed" means having a shape that is characteristic of the variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-005, filed 5/25/05, effective 6/25/05.]

WAC 16-406-010 How do you determine the maturity of an apricot? The information in the following table must be considered when determining an apricot's maturity:

MATURITY CHARACTERISTIC	EXPLANATION
(1) Ambering	"Ambering," which many authorities on apricots recognize as an indicator of maturity, refers to the replacement of the green colored flesh immediately around the pit with an amber shade of flesh.
(2) Springiness	"Springiness" develops in connection with the separation of the flesh from the pit. It is an indication that the apricot is reaching proper tree maturity for picking for fresh shipment. Springiness may be detected by: •External pressure on the apricot; or •Cutting the apricot in half at right angles to the longitudinal axis and noting how one-half or both halves slip away from the pit.
(3) Taste	On a tree whose fruit is ready for harvest for fresh shipment, it is quite common to find apricots that are fairly palatable because they have lost much of their green taste. However, in using this test, do not be misled by apricots that, because of worm infestation, may be maturing abnormally.
(4) Separation of fruit from the stem	The way apricots separate from their stems is an indication of their maturity. For example, immature apricots tend to tear the adjacent skin and flesh more than apricots that are near proper maturity.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-010, filed 5/25/05, effective 6/25/05.]

WAC 16-406-012 Do all apricot varieties mature in the same way? Not all varieties of apricots mature in the

[Title 16 WAC—p. 448]

same way. The varieties listed in the following table have not reached a stage of maturity that will insure a proper completion of the ripening process until they have developed a characteristic yellow color (shades Nos. 3 or 4 on U.S. standard ground color chart) over the minimum surface area shown:

APRICOT VARIETY	MINIMUM YELLOW SURFACE AREA STATED AS A PERCENTAGE OF AN APRICOT'S TOTAL SURFACE AREA
Moorpark	20%
Gilbert or Newcas-tle	50%
Tilton	40%
Blenheim	40%
Royal	40%

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-012, filed 5/25/05, effective 6/25/05.]

WAC 16-406-015 What is considered "damage" and "serious damage" to apricots? The following tables explain the differences between "damage" and "serious damage" as applied to apricots:

Table 1

"Damage" and "Serious Damage" for All Varieties of Apricots **except** the Riland Variety

Except for the Riland variety, the following are considered damage :	Except for the Riland variety, the following are considered serious damage :
(1) Well-healed growth cracks over 3/8 of an inch in length.	(1) Well-healed growth cracks that are more than 1/2 inch in length.
(2) Punctures over 3/16 of an inch in diameter.	(2) Any deformity or injury causing the skin to break more than 3/8 of an inch in diameter or which seriously affects the apricot's appearance.
(3) Stem pulls over 3/8 of an inch in diameter.	
(4) Smooth shallow limb rubs more than 1/4 of an inch in diameter.	
(5) Russetting affecting more than ten percent of the apricot's surface.	(3) Bruises exceeding ten percent of the surface of the apricot.
(6) Bruises exceeding five percent of the apricot's surface.	
(7) Hail marks that are:	(4) Hail marks that are more than:
(a) Not shallow and superficial; or	(a) 3/16 of an inch deep; or
(b) More than 3/8 of an inch in diameter in the aggregate; or	(b) 1/2 of an inch in diameter in the aggregate; or
(c) More than 1/8 inch in diameter when the skin has been broken.	(c) 1/2 inch in diameter when the skin has been broken.

Table 2
"Damage" and "Serious Damage" for the Riland Variety of
Apricots

For the Riland variety, the following are considered damage :	For the Riland variety, the following are considered serious damage :
(1) Growth cracks exceeding 3/8 inches in length.	(1) Growth cracks that are not well healed and are more than 1/2 inch in length.
(2) Punctures exceeding 1/4 of an inch in diameter.	
(3) Stem pulls exceeding 1/2 inch in diameter.	
(4) Smooth shallow limb rubs more than 1/4 of an inch in diameter.	
(5) Russeting affecting more than ten percent of the apricot's surface.	
(6) Bruises exceeding five percent of the apricot's surface.	(2) Bruises exceeding ten percent of the surface of the apricot.
(7) Hail marks that are:	(3) Hail marks that are more than:
(a) Not shallow and superficial; or	(a) 3/16 of an inch deep; or
(b) More than 3/8 of an inch in diameter in the aggregate; or	(b) 1/2 of an inch in diameter in the aggregate; or
(c) More than 1/8 inch in diameter when the skin has been broken.	(c) 1/2 inch in diameter when the skin has been broken.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-20-074, § 16-406-015, filed 10/4/05, effective 11/4/05; 05-12-036, § 16-406-015, filed 5/25/05, effective 6/25/05.]

WAC 16-406-020 What tolerances apply to apricots?

(1) To allow for variations incident to proper grading and handling, the following tolerances apply to apricots:

(a) No more than ten percent of the apricots in any lot may be below grade requirements.

(b) Serious damage by insects must affect no more than five percent of the apricots in any lot.

(c) No more than one percent must be affected by decay or internal breakdown.

(d) In addition, for Washington No. 1 grade, no more than ten percent, by count, of the apricots in any lot may be damaged (but not seriously damaged) by bruising.

(2) When applying the tolerances in subsection (1) of this section to the Washington combination grade:

(a) No part of any tolerance must be used to reduce the percentage of Washington No. 1 apricots required for the combination grade.

(b) However, individual containers may contain forty percent Washington No. 1 grade apricots if the entire lot averages fifty percent.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-020, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 99-17-003, § 16-406-020, filed 8/4/99, effective 9/4/99; Order 1015, Regulation B, filed 4/29/66; Order 771, effective 4/28/58.]

WAC 16-406-025 How are apricot tolerances applied to individual samples? If the averages for the entire lot are within the tolerances specified for the grade, the contents of individual samples are subject to the following limitations:

Package Weight and/or Apricot Grade	With a Tolerance of:	Individual Sample in Any Lot:	Defects Allowed in a Sample
(1) Packages containing more than ten pounds	Ten percent or more	Must have no more than one and one-half times the tolerance specified	No more than one apricot affected by decay or internal breakdown is permitted in any sample.
(2) Packages containing more than ten pounds	Less than ten percent	Must have no more than double the tolerance specified	No more than one apricot affected by decay or internal breakdown is permitted in any sample.
(3) Washington No. 1 grade packages containing ten pounds or less	Ten percent or less	May have more than three times the tolerances specified	At least one defective apricot may be permitted in any sample and one apricot or more than six percent (whichever is the larger amount) may be affected by decay or internal breakdown.
(4) Washington No. 2 grade packages containing ten pounds or less	Ten percent or less	May have more than three times the tolerances specified	N/A

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-025, filed 5/25/05, effective 6/25/05; 03-24-008, § 16-406-025, filed 11/20/03, effective 12/21/03. Statutory Authority: Chapter 15.17 RCW. 99-17-003, § 16-406-025, filed 8/4/99, effective 9/4/99.]

WAC 16-406-030 What marking and packing requirements apply to apricots?

Note: The marking requirements in this section do not apply to apricots being sold or shipped to canneries.

(1) When a numerical count is used to pack apricots, the apricots in any container must not vary more than one-quarter inch in diameter.

(2) To allow for variations incident to proper sizing, no more than ten percent, by count, of the apricots in any package may be below the specified minimum size.

(3) Numerical count may be used to determine apricot grades.

(4) When apricots are prepared for market and/or offered for sale in containers (either open or closed), the following information must be clearly stamped on each container:

- (a) Variety;
- (b) Grade;
- (c) Packer's, grower's or shipper's name and address; and
- (d) Count; or
- (e) Net weight and minimum diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-030, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 99-17-003, § 16-406-030, filed 8/4/99, effective 9/4/99; Order 1015, Regulation C, filed 4/29/66; Order 771, effective 4/28/58.]

WAC 16-406-060 What grades apply to apricots?

The following table identifies apricot grades and describes their characteristics:

WASHINGTON APRICOT GRADES	CHARACTERISTICS
(1) Washington No. 1	Washington No. 1 grade apricots consist of apricots of one variety that are: <ul style="list-style-type: none"> •Mature but not soft •Not overripe or shriveled •Well formed •Visibly clean •Free from decay and worm holes •Free from damage caused by dirt, limb rubs, growth cracks, bruises, scale, hail, disease, insects or mechanical or other means. (See tolerances WAC 16-407-060.)
(2) Washington No. 2	Washington No. 2 grade apricots consist of apricots of one variety that are: <ul style="list-style-type: none"> •Mature but not soft •Not overripe or shriveled •Fairly clean •Free from decay and worm holes •Free from serious damage caused by growth cracks, bruises, hail, insect pests, mechanical or other means. (See tolerances WAC 16-407-060.)

WASHINGTON APRICOT GRADES	CHARACTERISTICS
(3) Washington combination	<ul style="list-style-type: none"> •Washington combination grade consists of a combination of Washington No. 1 and Washington No. 2 grade apricots. •Washington combination grade apricots may be packed. •When packed, at least fifty percent of the apricots in any container must meet the requirements of Washington No. 1 grade. (See tolerances WAC 16-407-060.)
(4) Culls	<ul style="list-style-type: none"> •Culls consist of apricots that are immature or seriously damaged by growth cracks, hail, insect pests, mechanical or other means. (See marking and packing requirements WAC 16-406-030.) •Cull apricots for fresh market must be clearly marked with the word CULLS, in large letters at least two inches high, on closed type of containers.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-036, § 16-406-060, filed 5/25/05, effective 6/25/05; Order 1015, Regulation A, filed 4/29/66; Order 771, effective 4/28/58.]

Chapter 16-409 WAC**WASHINGTON STANDARDS FOR ASPARAGUS****WAC**

16-409-005	Must all Washington fresh asparagus comply with Washington state standards?
16-409-015	What definitions are important to this chapter?
16-409-020	What standards apply to all asparagus marketed within Washington state?
16-409-022	What grades are used to identify asparagus in Washington state?
16-409-024	What are the size requirements for Washington asparagus grades?
16-409-026	Does the department adopt U.S. standards for fresh asparagus as Washington state standards?
16-409-030	What tolerances are adopted for Washington asparagus?
16-409-035	How does the department apply its asparagus tolerances during an inspection?
16-409-065	What requirements apply to the containers used to market fresh asparagus?
16-409-070	What marking requirements apply to fresh asparagus containers?

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-409-001	Promulgation. [Order 795, Promulgation, effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-010	Washington standards—Variations between lot and individual package tolerances. [Order 795, Regulation 1, effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.

16-409-040	Washington standards—Culls. [Order 795, Regulation 2(5), effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-050	Washington standards—Definition of terms. [Order 795, Regulation 2(6), effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-060	Washington standards—Size designations. [Statutory Authority: Chapter 15.17 RCW. 97-01-081 (Order 6008), § 16-409-060, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-060, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-060, filed 3/1/83; Order 795, Regulation 2(7), effective 2/16/60.] Repealed by 05-10-092, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-409-075	Exemption. [Statutory Authority: Chapter 15.17 RCW. 97-01-081 (Order 6008), § 16-409-075, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-075, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-075, filed 3/1/83.] Repealed by 05-10-092, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-409-080	United States standards for fresh asparagus—Authorized U.S. grades—Application of tolerances. [Order 795, Regulation 4(1), (2), effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-085	Adoption of United States standards as Washington state standards. [Statutory Authority: Chapter 15.17 RCW. 85-07-028 (Order 1848), § 16-409-085, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-085, filed 3/1/83.] Repealed by 05-10-092, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-409-090	United States standards for fresh asparagus—U.S. No. 1 grade. [Order 795, Regulation 4(3), (4), (5), (6), effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-100	United States standards for fresh asparagus—U.S. No. 2 grade. [Order 795, Regulation 4(7), (8), (9), (10), effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-110	United States standards for fresh asparagus—Diameter classification. [Order 795, Regulation 5, effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-120	United States standards for fresh asparagus—Amount of green color. [Order 795, Regulation 6, effective 2/16/60.] Repealed by 85-07-028 (Order 1848), filed 3/15/85. Statutory Authority: Chapter 15.17 RCW.
16-409-130	United States standards for fresh asparagus—Stalk length. [Order 795, Regulation 7, effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.
16-409-140	United States standards for fresh asparagus—Definition of terms. [Order 795, Regulation 8, effective 2/16/60.] Repealed by 83-06-049 (Order 1787), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.

WAC 16-409-005 Must all Washington fresh asparagus comply with Washington state standards? The following table explains which Washington fresh asparagus is exempt from some of the requirements of this chapter:

If an individual shipment of fresh Washington asparagus:	Then the shipment is exempt from the requirements in:
(1) Consists of asparagus for home use and not for resale; and	• WAC 16-409-020 through 16-409-060;
(2) Does not exceed two hundred fifty pounds net weight.	• WAC 16-409-065 (2), (3), (4), (5), and (7); and • WAC 16-409-070.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-005, filed 5/4/05, effective 6/4/05.]

(2007 Ed.)

WAC 16-409-015 What definitions are important to this chapter? The following definitions are important to this chapter:

"Badly misshapen" means the stalk is so badly flattened, crooked or otherwise so badly deformed that its appearance is seriously affected.

"Clean" means the asparagus is free from excessive dirt, dust, residue or foreign matter.

"Damage" means any defect or combination of defects that materially detract from the appearance, edible quality or marketing quality of the stalk.

"Department" means the Washington state department of agriculture (WSDA).

"Diameter" means the greatest thickness of the stalk measured at a point approximately one inch from the butt.

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Fairly uniform in length" means the stalks within a container must not vary in length more than one and one-half inches.

"Fairly well trimmed" means that:

(1) At least one-third of the butt of the stalk is smoothly trimmed in a plane approximately parallel to the bottom of the container; and

(2) The butt is not badly stringy or frayed.

"Field container" means an open lug made of wood, plastic, or similar material that is repetitively used for field harvesting.

"Fresh" means that the stalk is not limp or flabby.

"Fresh asparagus" means asparagus marketed by lot for fresh consumption.

"Green" means the portion of the stalk having green, purplish-green or greenish-purple color with purple at the tip.

"Lot" means any number of containers of fresh asparagus offered as a unit for inspection, sale, or shipment.

"Serious damage" means any defect or combination of defects that seriously detract from the appearance, edible quality or marketing quality of the stalk.

"Shipment" means any number of containers of fresh asparagus transported from the production area by a single conveyance.

"Well trimmed" means that:

(1) At least two-thirds of the butt of the stalk is smoothly trimmed in a plane approximately parallel to the bottom of the container; and

(2) The butt is not stringy or frayed.

"White" means the portion of the stalk near the butt that is white or light purple over white in color. The white is measured from the extreme tip of the butt to the point where the green color begins.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-015, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 85-07-028 (Order 1848), § 16-409-015, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-015, filed 3/1/83.]

WAC 16-409-020 What standards apply to all asparagus marketed within Washington state? Any lot of fresh asparagus, including "culls," marketed within Washington state must have no more than ten percent of the stalks that:

(1) Have white in excess of two inches; and

(2) Are less than 4/16 inch in diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-020, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 97-05-054 (Order 6015), § 16-409-020, filed 2/19/97, effective 3/22/97; 97-01-081 (Order 6008), § 16-409-020, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-020, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-020, filed 3/1/83; Order 795, Regulation 2(1), (2), effective 2/16/60.]

WAC 16-409-022 What grades are used to identify asparagus in Washington state? (1) The following table identifies and describes the asparagus grades used in Washington state:

Washington Asparagus Grades:					
Stalk Characteristics:	"Extra Fancy Grade Asparagus"	"Extra Fancy Grade Asparagus Tips"	"Fancy Grade Asparagus"	"Consumer Pack Asparagus"	"Culls"
Stalks must be:					
(a) Clean;	Yes	Yes	Yes	Yes	No
(b) Fresh;	Yes	Yes	Yes	Yes	No
(c) Fairly uniform in length;	Yes	Yes	Yes	Yes	No
(d) Well trimmed;	Yes	Yes	No	No	No
(e) Fairly well trimmed;	No	No	Yes	Yes	No
(f) Fairly straight;	Yes	Yes	No	Yes	No
(g) Not wilted;	Yes	Yes	Yes	Yes	No
(h) Not badly misshapen;	No	No	Yes	No	No
(i) Free from decay;	Yes	Yes	Yes	Yes	No
(j) Free from damage caused by spreading or broken tips, dirt, disease, insects, or mechanical or other means;	Yes	Yes	Yes	Yes	No
(k) At least eighty-five percent green in color;	Yes	No	Yes	Yes	No
(l) All green.	No	Yes	No	No	No

(2) "Culls" describes asparagus that:

(a) Is not graded in conformity with Washington extra fancy, Washington extra fancy tips, Washington fancy, Washington consumer pack, or U.S. No. 1, or U.S. No. 2; and

(b) Must not be marketed if more than ten percent by count of the stalks show white in excess of two inches.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-022, filed 5/4/05, effective 6/4/05.]

WAC 16-409-024 What are the size requirements for Washington asparagus grades? The following table identifies asparagus size requirements by Washington grades:

Washington Asparagus Grades	Stalks within individual containers must meet one of the following designated sizes:	Grade lots must be designated as:	Ninety percent, by count, of the stalks in any lot must conform to the diameters for such designations:
"Extra Fancy Grade Asparagus"	Jumbo	Washington extra fancy jumbo or Washington jumbo	Washington extra fancy jumbo or Washington jumbo must have stalks at least 13/16 inch in diameter.
	Large	Washington extra fancy large or Washington large	Washington extra fancy large or Washington large must have stalks at least 7/16 inch in diameter.
	Standard	Washington extra fancy standard or Washington standard	Washington extra fancy standard or Washington standard must have stalks at least 6/16 inch in diameter.
"Extra Fancy Grade Asparagus Tips"	Jumbo	Washington extra fancy tips jumbo	Washington extra fancy tips jumbo must be 13/16 inch in diameter or larger.
	Large	Washington extra fancy tips large	Washington extra fancy tips large must be 7/16 inch in diameter or larger.
	Standard	Washington extra fancy tips standard	Washington extra fancy tips standard must be 6/16 inch in diameter or larger.

Washington Asparagus Grades	Stalks within individual containers must meet one of the following designated sizes:	Grade lots must be designated as:	Ninety percent, by count, of the stalks in any lot must conform to the diameters for such designations:
	Small	Washington extra fancy tips small	Washington extra fancy tips small must have a diameter of at least 4/16 inch.
"Fancy Grade Asparagus"	Small	Minimum diameter; or Washington fancy small or Washington small	Washington fancy grade asparagus lots must be designated by minimum diameter: However, when at least ninety percent, by count, of the stalks in any lot are at least 4/16 inch in diameter, the lot may be designated as Washington fancy small or Washington small.
"Washington consumer pack"	N/A	Washington consumer pack	Washington consumer pack lots must be designated by minimum diameter and stalks must be at least 4/16 inch in diameter.
"U.S. No. 1 grade"	N/A	Minimum diameter; or	N/A
	Jumbo	Washington jumbo	U.S. No. 1 grade jumbo must have stalks at least 13/16 inch in diameter.
	Large	Washington large	U.S. No. 1 grade large must have stalks at least 7/16 inch in diameter.
	Standard	Washington standard	U.S. No. 1 grade standard must have stalks at least 6/16 inch in diameter.
"U.S. No. 2 grade"	N/A	Minimum diameter; or	N/A
	Small	Washington small	U.S. No. 2 grade small must have stalks at least 4/16 inch in diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-024, filed 5/4/05, effective 6/4/05.]

WAC 16-409-026 Does the department adopt U.S. standards for fresh asparagus as Washington state standards? (1) In addition to the Washington state fresh asparagus standards contained in this chapter, the Washington state department of agriculture has adopted, as Washington state standards, modified United States fresh asparagus standards for U.S. grades No. 1 and No. 2.

(2) The department's modifications to the U.S. standards are as follows:

(a) U.S. No. 1 must be at least 6/16 inch in diameter and must meet or exceed Washington extra fancy grade requirements.

(b) U.S. No. 2 must be at least 4/16 inch in diameter and must meet or exceed Washington fancy grade requirements.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-026, filed 5/4/05, effective 6/4/05.]

WAC 16-409-030 What tolerances are adopted for Washington asparagus? The following table identifies and explains the tolerances adopted for Washington asparagus:

Washington Asparagus Grades to Which Tolerances Apply	Defect, color and trim tolerances adopted for Washington asparagus	Diameter and length tolerances adopted for Washington asparagus
Washington extra fancy Washington extra fancy tips Washington fancy Washington consumer pack	To allow for variations incident to proper grading and handling, the following tolerances are adopted:	To allow for variations in diameter and length incident to proper sizing, the following tolerances are adopted:
	(1) Ten percent, by count, for stalks failing to meet grade requirements other than for trim and color, including no more than one percent for decayed stalks.	(1) Ten percent, by count, for stalks failing to meet the required minimum and maximum diameter defined in WAC 16-409-015 ("fairly uniform in length").

Washington Asparagus Grades to Which Tolerances Apply	Defect, color and trim tolerances adopted for Washington asparagus	Diameter and length tolerances adopted for Washington asparagus
	(2) An additional ten percent, by count, for stalks having less than the required amount of green color.	(2) Ten percent, by count, for stalks failing to meet the required length as established in WAC 16-409-022.
	(3) An additional ten percent, by count, for stalks not meeting trim requirements.	

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-030, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 97-01-081 (Order 6008), § 16-409-030, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-030, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-030, filed 3/1/83; Order 795, Regulation 2(3), (4), effective 2/16/60.]

WAC 16-409-035 How does the department apply its asparagus tolerances during an inspection? (1) If the averages for an entire lot are within the tolerances specified in WAC 16-409-030, the limitations in this section, based upon sample inspections, apply to the contents of individual containers in the lot.

(2) Individual containers:

(a) May contain one decayed or otherwise defective stalk, one poorly trimmed stalk, one poorly colored, and one off-size stalk.

(b) Must have no more than one and one-half times the tolerance specified when a tolerance is ten percent or more.

(c) Must have no more than double the tolerance specified when a tolerance is less than ten percent.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-035, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 85-07-028 (Order 1848), § 16-409-035, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-035, filed 3/1/83.]

WAC 16-409-065 What requirements apply to the containers used to market fresh asparagus? The following table identifies and explains the requirements that apply to the containers used to market fresh asparagus:

Asparagus Grades:	Container Requirements:
(1) All fresh asparagus:	Must be marketed in containers that are clean and free from dirt, trash, and visible contaminants.
(2) All fresh asparagus:	Must not be marketed in field containers.
(3) For testing or trial marketing purposes, the director:	May allow the use of any experimental containers not specified in this table.
(4) Washington extra fancy, Washington extra fancy tips, Washington fancy, U.S. No. 1, and U.S. No. 2 grades of fresh asparagus:	Must be marketed in containers with moisture pads.
(5) Washington consumer pack grade of fresh asparagus:	Must be marketed either in: <ul style="list-style-type: none"> (a) Pyramid type containers with moisture pads; or (b) Fiberboard or wooden "western lug" containers with: <ul style="list-style-type: none"> (i) Inside dimensions of approximately seven inches, by eleven and one-half inches, by eighteen inches; or (ii) A capacity of thirteen hundred and fifty to fifteen hundred and fifty cubic inches. (iii) Western lugs must contain at least twenty pounds net weight.
(6) Culls;	Must be marketed in wooden pyramid containers with moisture pads.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-065, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 97-01-081 (Order 6008), § 16-409-065, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-065, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-065, filed 3/1/83.]

WAC 16-409-070 What marking requirements apply to fresh asparagus containers? (1) All required markings must be placed on one end of the container, but may be duplicated on the opposite end.

(2) Containers must be conspicuously and legibly marked with the:

(a) Name and address of the grower, packer, or distributor;

(b) Grade;

(c) Net weight; and

(d) Size designation or diameter size as defined in WAC 16-409-024.

(3) The grade and size designation required in subsection (2) of this section must be marked in letters at least 3/8 inch in height.

(4) The following abbreviations of grade and size designation are acceptable:

(a) Washington as Wash. or WA

(b) Extra fancy as ex fcy or extra fcy

(c) Fancy as fcy

(d) Large as lge.

(e) Standard as std.

(5) The use of U.S. No. 1 or U.S. No. 2 grade markings is permissible subject to the requirements in WAC 16-409-026.

(6) If culls are marketed:

(a) The word "culls" must be:

(i) Conspicuously and legibly marked in letters at least one inch in height; and

(ii) Predominant in size over any other markings on the container.

(b) They must be marketed only in wooden pyramid containers with moisture pads.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-092, § 16-409-070, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 97-01-081 (Order 6008), § 16-409-070, filed 12/17/96, effective 1/17/97; 85-07-028 (Order 1848), § 16-409-070, filed 3/15/85; 83-06-049 (Order 1787), § 16-409-070, filed 3/1/83; Order 795, Regulation 3, effective 2/16/60.]

Chapter 16-414 WAC

WASHINGTON STANDARDS FOR CHERRIES

WAC

Part I SWEET CHERRIES

- 16-414-005 What definitions are important to this chapter?
- 16-414-010 What are Washington No. 1 grade and Northwest No. 1 grade sweet cherries?
- 16-414-011 What size requirements apply to sweet cherries?
- 16-414-012 What tolerances apply to Washington No. 1 and Northwest No. 1 grade sweet cherries at their shipping point and en route or at their destination?
- 16-414-014 What tolerances apply to sweet cherries that are "off-size"?
- 16-414-016 Does Washington state adopt the U.S. standards for grades of sweet cherries?
- 16-414-020 How are individual sample tolerances applied to Washington No. 1 and Northwest No. 1 grade sweet cherries?
- 16-414-045 What specific defects are considered damage to Washington standards?
- 16-414-065 What specific defects are considered "serious damage" to Washington standards?
- 16-414-086 Can the director grant exemptions to the container requirements listed in WAC 16-414-085?
- 16-414-090 What marking requirements apply to sweet cherry containers?

Part II SULPHURED CHERRIES

- 16-414-105 What definitions are important to sulphured cherries?
- 16-414-107 What are the Washington state grades for sulphured cherries?
- 16-414-108 What are the tolerances for Washington sulphured cherries?
- 16-414-110 What are the size requirements for all grades of Washington sulphured whole cherries?
- 16-414-120 What are the tolerance requirements for the certification of lots of Washington No. 1 and Washington No. 2 grade sulphured cherries?
- 16-414-125 What tolerances apply to sulphured pitted cherries?
- 16-414-145 What specific defects are considered damage to Washington standards for sulphured cherries?
- 16-414-155 What specific defects are considered serious damage to Washington standards for sulphured cherries?

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

- 16-414-015 Northwest No. 1 grade and tolerances defined. [Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-015, filed 6/14/95, effective 7/15/95.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-030

Definitions. [Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-030, filed 6/14/95, effective 7/15/95; 78-04-060 (Order 1550), § 16-414-030, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-040

Damage. [Statutory Authority: Chapter 15.17 RCW. 78-04-060 (Order 1550), § 16-414-040, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-050

Diameter. [Statutory Authority: Chapter 15.17 RCW. 78-04-060 (Order 1550), § 16-414-050, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-060

Serious damage. [Statutory Authority: Chapter 15.17 RCW. 78-04-060 (Order 1550), § 16-414-060, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-070

Permanent defects. [Statutory Authority: Chapter 15.17 RCW. 78-04-060 (Order 1550), § 16-414-070, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-080

Condition defects. [Statutory Authority: Chapter 15.17 RCW. 78-04-060 (Order 1550), § 16-414-080, filed 3/31/78.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-085

What requirements apply to containers used to ship sweet cherries? [Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-085, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-085, filed 6/14/95, effective 7/15/95.] Repealed by 06-12-116, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-095

Adoption of United States standards as state standards. [Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-095, filed 6/14/95, effective 7/15/95.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-100

Grades. [Statutory Authority: Chapter 15.17 RCW. 80-08-010 (Order 1708), § 16-414-100, filed 6/20/80.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

16-414-130

Definitions. [Statutory Authority: Chapter 15.17 RCW. 80-08-010 (Order 1708), § 16-414-130, filed 6/20/80.] Repealed by 05-12-037, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

Part I SWEET CHERRIES

WAC 16-414-005 What definitions are important to this chapter? "Clean" means cherries are practically free from dirt, dust, spray residue, or other foreign material. For example, clean means the product is practically free from leaves, fruit spurs, bark, twigs, dirt or foreign material.

"Condition defects" means defects that may develop or change during shipment or storage. Condition defects include, but are not limited to, decayed or soft cherries and such other factors as pitting, shriveling, sunken areas, brown discoloration and bruising that, because of its location appears to have occurred after packing.

"Damage" means any injury or specific defect described in WAC 16-414-045 or any equally objectionable variation of those defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible quality or marketing quality of the fruit.

"Department" means the Washington state department of agriculture (WSDA).

"Diameter" means the greatest dimension measured at right angles to a line from the stem to the blossom end of the cherry.

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Face packed" means the cherries in the top layer of any container are placed so the stem ends are pointing downward toward the bottom of the container.

"Fairly well colored" means that at least ninety-five percent of the surface of the cherry shows characteristic color for mature cherries of the variety.

"Firm" means the cherries:

- (1) Possess a firm, fleshy texture;
- (2) Retain their approximate original shape;
- (3) Are not shriveled; and
- (4) Do not show more than slight collapsed areas of flesh.

"Mature" means cherries have reached the stage of growth that will insure the proper completion of the ripening process. Rainier cherries or other varieties of "light colored sweet cherries" shall meet a minimum of seventeen percent soluble solids as determined from a composite sample by refractometer prior to packing, at time of packing, or at time of shipment; provided that individual lots shall not be combined with other lots to meet soluble solids requirements.

"Permanent defects" means defects that are not subject to change during shipping or storage. Permanent defects include, but are not limited to, factors of shape, scarring, skin breaks, injury caused by hail or insects, and mechanical injury that, because of its location, appears to have occurred before shipment.

"Off-size" means a cherry whose diameter fails to meet a designated size when measured at right angles to a line from its stem to its blossom end.

"Serious damage" means any specific defect described in WAC 16-414-065 or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects that seriously detracts from the appearance, edible quality or marketing quality of cherries.

"Shipping point" means:

- (1) The point of origin of the shipment in the producing area or at the port of loading; or
- (2) The port of entry into the United States in the case of shipments from outside the continental United States.

"Similar varietal characteristics" means the cherries in any container are similar in color and shape.

"Well formed" means a cherry has the normal shape characteristic of the variety. Mature well-developed doubles are considered well formed if the halves are approximately evenly formed with a variation of no more than 2/64 of an inch.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-116, § 16-414-005, filed 6/7/06, effective 7/8/06; 05-12-037, § 16-414-005, filed 5/25/05, effective 6/25/05.]

WAC 16-414-010 What are Washington No. 1 grade and Northwest No. 1 grade sweet cherries? The following table describes the characteristics of Washington No. 1 grade and Northwest No. 1 grade sweet cherries:

[Title 16 WAC—p. 456]

Washington No. 1 Grade Sweet Cherries	Northwest No. 1 Grade Sweet Cherries
Washington No. 1 sweet cherries must meet the following requirements:	Northwest No. 1 sweet cherries must meet the:
(1) Similar varietal characteristics;	(1) Quality requirements of Washington No. 1 sweet cherries listed in this table; and
(2) Mature;	(2) Size requirements listed in WAC 16-414-011.
(3) Not soft overripe or shriveled;	
(4) Fairly well colored;	
(5) Well formed;	
(6) No underdeveloped doubles;	
(7) Clean;	
(8) Free from decay, insect larvae or holes caused by them and sunscald; and	
(9) Free from damage by any other cause.	

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-010, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-010, filed 6/14/95, effective 7/15/95; 78-04-060 (Order 1550), § 16-414-010, filed 3/31/78.]

WAC 16-414-011 What size requirements apply to sweet cherries? (1) The minimum diameter of each cherry must be at least 54/64 inch.

(2) The maximum diameter of the cherries in any lot may be specified according to the facts.

(3) For the Rainier variety and similar varieties commonly referred to as "light colored sweet cherries," at least ninety percent, by count, of the cherries in any lot shall measure not less than 61/64 inch in diameter and not more than five percent, by count, may be less than 57/64 inch in diameter.

(4) When containers of cherries are marked with a row count/row size designation, the row count/row size marked must comply with the corresponding minimum diameter size as shown in the following table:

If containers of cherries are marked with the following row count/row size designations:	Then minimum diameter size of the cherries in inches must be:
8	84/64
8 1/2	79/64
9	75/64
9 1/2	71/64
10	67/64
10 1/2	64/64
11	61/64
11 1/2	57/64
12	54/64

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-116, § 16-414-011, filed 6/7/06, effective 7/8/06; 05-12-037, § 16-414-011, filed 5/25/05, effective 6/25/05.]

WAC 16-414-012 What tolerances apply to Washington No. 1 and Northwest No. 1 grade sweet cherries at their shipping point and en route or at their destination? To allow for variations incident to proper grading and handling at the shipping point, en route or at their destination, the following tolerances, by count, are established for Washington No. 1 and Northwest No. 1 grade sweet cherries:

Washington No. 1 Grade Sweet Cherries	Northwest No. 1 Grade Sweet Cherries
(1) Tolerances applied at shipping point	(1) Tolerances applied at shipping point
(a) Eight percent for cherries that fail to meet the requirements for Washington No. 1 grade.	(a) Ten percent for cherries in any inspection lot that fail to meet the requirements for Northwest No. 1 grade.
(b) Of the total tolerance of eight percent, no more than four percent is allowed for defects causing serious damage.	(b) Of the total tolerance of ten percent, no more than five percent is allowed for defects causing serious damage.
(c) Of the four percent tolerance for serious damage defects, no more than one-half of one percent is allowed for cherries affected by decay.	(c) Of the five percent tolerance for serious damage defects, no more than one percent is allowed for cherries affected by decay.
	(d) The contents of individual samples or containers in any lot must not be limited to the percentage of grade defects discussed in WAC 16-414-020.
(2) Tolerances applied en route or at destination	(2) Tolerances applied en route or at destination
(a) Twenty-four percent for cherries in any lot that fail to meet the requirements for Washington No. 1 grade.	(a) Twenty-four percent for cherries in any inspection lot that fail to meet the requirements for Northwest No. 1 grade.
(b) Of the total tolerance of twenty-four percent, no more than eight percent is allowed for cherries that fail to meet the requirements for Washington No. 1 grade because of permanent defects.	(b) Of the total tolerance of twenty-four percent, no more than ten percent, by count, is allowed for cherries that fail to meet the requirements for Northwest No. 1 grade because of permanent defects.
(c) Of the total tolerance of twenty-four percent, no more than six percent is allowed for cherries that are seriously damaged, including no more than:	(c) Of the total tolerance of twenty-four percent, no more than seven percent, by count, is allowed for cherries that are seriously damaged, including no more than:
(i) Four percent for cherries seriously damaged by permanent defects; and	(i) Five percent for cherries seriously damaged by permanent defects; and
(ii) Two percent for cherries affected by decay.	(ii) Two percent for cherries affected by decay.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-012, filed 5/25/05, effective 6/25/05.]

(2007 Ed.)

WAC 16-414-014 What tolerances apply to sweet cherries that are "off-size"? To allow for variations in size incident to proper grading and handling, the following tolerances, by count, are established for off-size grade sweet cherries:

(1) No more than ten percent of the cherries in any inspection lot must measure less than 54/64 inches in diameter.

(2) Ten percent for cherries that fail to meet any specified maximum diameter when that maximum diameter is marked on the container or specified in terms of fractions of inches.

(3) When containers are marked with row count/row size or a lot is specified by row count/row size, no more than ten percent of the cherries in any inspection lot may fail to meet the corresponding diameter size listed in the table in WAC 16-414-011(3).

(4) When containers are marked with a "minimum diameter," no more than five percent of the cherries in the container may fail to meet the corresponding diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-014, filed 5/25/05, effective 6/25/05.]

WAC 16-414-016 Does Washington state adopt the U.S. standards for grades of sweet cherries? In addition to the standards for sweet cherries contained in this chapter, the Washington state department of agriculture adopts the United States standards for grades of sweet cherries (effective May 7, 1971) as they apply to U.S. No. 1 grade cherries, except the minimum size of cherries and tolerances for undersize cherries must meet the requirements for Washington No. 1 grade.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-016, filed 5/25/05, effective 6/25/05.]

WAC 16-414-020 How are individual sample tolerances applied to Washington No. 1 and Northwest No. 1 grade sweet cherries? Tolerances are applied to Washington No. 1 and Northwest No. 1 sweet cherries as follows:

(1) Individual samples must have no more than double the tolerances specified. However, if the averages for the entire lot are within the tolerances specified for the grade, at least two defective and two off-size specimens may be allowed in any sample.

(2) When containers are marked with row count/row size or when a lot is specified by row count/row size, the individual samples or containers must not be limited by the percentage of cherries that are smaller than the diameter corresponding to the particular row count/row size. However, no more than twenty percent, by count, of the cherries in any sample or container must measure less than 54/64 inches in diameter.

(3) When marked with minimum size, individual samples may have no more than double the tolerances specified.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-020, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-020, filed 6/14/95, effective 7/15/95; 78-04-060 (Order 1550), § 16-414-020, filed 3/31/78.]

WAC 16-414-045 What specific defects are considered damage to Washington standards? The defects listed in the following table are considered "damage":

[Title 16 WAC—p. 457]

DEFECT	DESCRIPTION
(1) Cracks within the stem cavity	Cracks within the stem cavity are considered damage when: <ul style="list-style-type: none"> • Deep or not well healed; or • The cherry's appearance is affected to a greater extent than a cherry that has a superficial well healed crack one-sixteenth inch in width extending one-half the greatest circumference of the stem cavity.
(2) Cracks outside of the stem cavity	Cracks outside of the stem cavity are considered damage when: <ul style="list-style-type: none"> • Deep or not well healed; or • The crack has weakened the cherry to the extent that it is likely to split or break in the process of proper grading, packing and handling; or • Materially affecting the cherry's appearance.
(3) Hail marks	Hail marks are considered damage when: <ul style="list-style-type: none"> • Deep or not well healed; or • The aggregate area exceeds the area of a circle three-sixteenths inch in diameter.
(4) Evidence of insects	Evidence of insects is considered damage when: <ul style="list-style-type: none"> • Scale or more than one scale mark is present; or • Any insect materially affects the cherry's appearance.
(5) Limb rubs	Limb rubs are considered damage when they affect the cherry's appearance more than the amount of scarring that is permitted.
(6) Pulled stems	Pulled stems are considered damage when the skin or flesh is slightly torn.
(7) Russetting	Russetting is considered damage when affecting the cherry's appearance more than the amount of scarring permitted.
(8) Blemished	Any of the following blemishes are considered damage: <ul style="list-style-type: none"> • Bird pecks; • Sunburn; • Other blemishes or combinations of blemishes that materially affect the appearance of the cherry; or • Any cherry with flesh that is materially discolored.
(9) Scars	Scars are considered damage when: <ul style="list-style-type: none"> • Excessively deep or rough or dark colored and the aggregate area exceeds the area of a circle three-sixteenths inch in diameter; or

DEFECT	DESCRIPTION
	<ul style="list-style-type: none"> • Smooth or fairly smooth, light colored and superficial and the aggregate area exceeds the area of a circle one-fourth inch in diameter.
(10) Skin breaks	Skin breaks are considered damage when: <ul style="list-style-type: none"> • Not well healed; or • The cherry's appearance is materially affected.
(11) Sutures	Sutures are considered damage when: <ul style="list-style-type: none"> • Excessively deep; or • Causing the cherry's shape to be less than well formed.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-045, filed 5/25/05, effective 6/25/05.]

WAC 16-414-065 What specific defects are considered "serious damage" to Washington standards? The defects listed in the following table are considered "serious damage":

DEFECT	DESCRIPTION
(1) Cracks	Cracks are considered serious damage if they are not well healed.
(2) Insect larvae or holes caused by them	The presence of insect larvae or holes caused by insect larvae is considered serious damage.
(3) Pulled stems	Pulled stems are considered serious damage if they cause: <ul style="list-style-type: none"> • A more than slight tear in the cherry skin or flesh; or • The cherry to leak.
(4) Skin breaks	Skin breaks are considered serious damage if they are not well healed.
(5) Decay	Any sign of decay is considered serious damage.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-065, filed 5/25/05, effective 6/25/05.]

WAC 16-414-086 Can the director grant exemptions to the container requirements listed in WAC 16-414-085?

(1) Upon the recommendation of the Washington State Horticultural Association's cherry committee, the director may waive the container requirements in WAC 16-414-085 and allow the use of experimental containers for the purpose of test or trial marketing.

(2) Cherries placed in experimental containers:

(a) Must meet the quality requirements of Washington No. 1, U.S. No. 1, or Northwest No. 1 grade; and

(b) At least ninety percent, by count, must measure at least 54/64 inches in diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-086, filed 5/25/05, effective 6/25/05.]

WAC 16-414-090 What marking requirements apply to sweet cherry containers? (1) Containers must be conspicuously and legibly stamped with the:

(a) Name and the address of the grower, packer or shipper;

(b) Net weight; and

(c) True variety name or "sweet cherries."

(2) The containers may be marked with the grade name Washington No. 1, U.S. No. 1, or Northwest No. 1.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-090, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 95-13-038, § 16-414-090, filed 6/14/95, effective 7/15/95; 78-04-060 (Order 1550), § 16-414-090, filed 3/31/78.]

Part II SULPHURED CHERRIES

WAC 16-414-105 What definitions are important to sulphured cherries? "Damage" means any injury or specific defect described in WAC 16-414-145 or any equally objectionable variation of those defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible quality or marketing quality of the fruit.

"Fairly well bleached" means the cherries possess a reasonably uniform color typical of reasonably well bleached sulphured cherries for that variety.

"Pit" means an entire pit or portion of a pit that is attached to a sulphured cherry or located within the pit cavity.

"Properly matured" means that stage of ripeness when a cherry is ready for brining.

"Serious damage" means any injury that seriously affects the appearance or market quality of the product.

"Sulphured cherries" means properly matured whole cherries of similar varietal characteristics packed in a solution of sulphur dioxide of sufficient strength to preserve the cherries without adding hardening agents.

"Sulphured cherries with pits" means whole cherries, with or without stems, from which the pits have not been removed. If:

(1) Without stems, not more than twenty percent, by weight, of all the cherries may have the stems removed.

(2) With stems, not more than one-half of one percent, by weight, of all the cherries may have the stems attached.

"Sulphured cherries without pits" means whole cherries with or without stems from which the pits have been removed. If:

(1) Without stems (cocktail), not more than seven percent, by weight, of all the cherries may have the stems removed.

(2) With stems, not more than one-half of one percent, by weight, of all the cherries may have the stems attached.

"Unclassified cherries" means sulphured cherries that do not conform to the descriptions of "sulphured cherries with pits" or sulphured cherries without pits.

"Well bleached" means the cherries possess a practically uniform color that is typical of well bleached sulphured cherries for that variety.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-105, filed 5/25/05, effective 6/25/05.]

WAC 16-414-107 What are the Washington state grades for sulphured cherries? The following table lists and describes the various grades of Washington state sulphured cherries:

IF THE GRADE IS:	THEN THE CHERRIES MUST BE:
(1) Washington No. 1 grade sulphured whole cherries	<ul style="list-style-type: none"> • Properly matured; • Of similar varietal characteristics; • Clean; • Firm; • Well formed; • Well bleached; and • Free from damage caused by mechanical injury, surface discoloration, rain cracks, blemishes or other means.
(2) Washington No. 1 grade sulphured halved cherries	<ul style="list-style-type: none"> • Portions of sliced cherries with no particle smaller than an estimated one-third or larger than an estimated two-thirds of a whole cherry; • Properly matured; • Of similar varietal characteristics; • Clean; • Firm; • Well formed; • Well bleached; and • Free from damage caused by mechanical injury, surface discoloration, rain cracks, blemishes or other means.
(3) Washington No. 2 grade sulphured whole cherries	<ul style="list-style-type: none"> • Properly matured; • Of similar varietal characteristics; • Clean; • Fairly firm; • Well formed; • Fairly well bleached; and • Free from serious damage caused by mechanical injury, surface discoloration, rain cracks, blemishes or other means.
(4) Washington No. 2 grade sulphured halved cherries	<ul style="list-style-type: none"> • Properly matured cherries; • Of similar varietal characteristics; • Clean; • Fairly firm; • Well formed; • Fairly well bleached; and • Free from serious damage caused by mechanical injury, surface discoloration, rain cracks, blemishes or other means.
(5) Washington combination grade sulphured cherries	<ul style="list-style-type: none"> • A combination of Washington No. 1 and Washington No. 2 cherries of any style; and • Unless otherwise specified, packed in a lot that averages at least fifty percent Washington No. 1 quality cherries.

IF THE GRADE IS:	THEN THE CHERRIES MUST BE:
(6) Washington No. 3 grade sulphured cherries	<ul style="list-style-type: none"> Cherries that fail to meet the requirements of the above grades; and Practically free of stems, leaves, fruit spurs, bark, dirt or foreign material.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-107, filed 5/25/05, effective 6/25/05.]

WAC 16-414-108 What are the tolerances for Washington sulphured cherries? The following table describes the tolerances for various grades of Washington sulphured cherries:

IF THE GRADE IS:	THEN THE TOLERANCES ARE:
(1) Washington No. 1 grade sulphured whole cherries	<ul style="list-style-type: none"> At least ninety-five percent of the cherries of any lot must meet the requirements of "firm." In addition, not more than ten percent of the cherries of any lot may be below the remaining requirements of this grade, of which not more than one-half or five percent must be allowed for defects classified as serious damage.
(2) Washington No. 1 grade sulphured halved cherries	<ul style="list-style-type: none"> At least ninety-five percent of the cherries of any lot must meet the requirements of "firm." In addition, not more than ten percent of the cherries of any lot may be below the remaining requirements of this grade, of which not more than one-half or five percent must be allowed for defects classified as serious damage.
(3) Washington No. 2 grade sulphured whole cherries	<ul style="list-style-type: none"> At least ninety percent of the cherries of any lot must meet the requirements of "fairly firm." In addition, not more than ten percent of the cherries of any lot may be below the remaining requirements of this grade.
(4) Washington No. 2 grade sulphured halved cherries	<ul style="list-style-type: none"> At least ninety percent of the cherries of any lot must meet the requirements of "fairly firm." In addition, not more than ten percent of the cherries of any lot may be below the remaining requirements of this grade.
(5) Washington combination grade sulphured cherries	<ul style="list-style-type: none"> A tolerance of not more than ten percent is allowed for cherries that are below the requirements of Washington No. 2 grade.

[Title 16 WAC—p. 460]

IF THE GRADE IS:	THEN THE TOLERANCES ARE:
	<ul style="list-style-type: none"> The tolerances for combination grade sulphured cherries are on a container basis. However, individual containers in any lot may vary from the specified tolerances, if the averages for the entire lot, based on sample inspections, are within the specified tolerances. For the entire lot, no part of any tolerance must reduce the requirement that fifty percent of cherries in the combination must be of the higher grade. However, individual containers may have at least thirty-five percent of the higher grade or be more than twenty percent below the requirements of Washington No. 2 grade. When other combinations are specified, individual containers may not have more than fifteen percent less than the percentage specified of the higher grade or be more than twenty percent below the requirements of Washington No. 2 grade.
(6) Washington No. 3 grade sulphured cherries	There are no applicable tolerances for Washington No. 3 grade sulphured cherries.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-108, filed 5/25/05, effective 6/25/05.]

WAC 16-414-110 What are the size requirements for all grades of Washington sulphured whole cherries? (1) The following table lists the standard sizes for all grades of Washington whole sulphured cherries.

SIZE DESIGNATION	SIZE RANGE
Extra small	14 mm to and including 16 mm
Small	16 mm to and including 18 mm
Medium	18 mm to and including 20 mm
Large	20 mm to and including 22 mm
Extra large	22 mm and over

- (2) The following tolerances are allowed:
- Five percent for cherries that fail to meet the specified minimum diameter; and
 - Ten percent for cherries that fail to meet the specified maximum diameter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-110, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 80-08-010 (Order 1708), § 16-414-110, filed 6/20/80.]

WAC 16-414-120 What are the tolerance requirements for the certification of lots of Washington No. 1 and Washington No. 2 grade sulphured cherries? (1) Tolerances for the certification of lots of Washington No. 1 or Washington No. 2 grades of sulphured cherries must be on a container basis.

(2007 Ed.)

(2) At least one-sixth of the individual containers in any lot may vary from the specified tolerances if the averages for the entire lot, based on sample inspection, are within the specified tolerances.

(3) For a tolerance of ten percent or more, individual containers in any lot may contain no more than one and one-half times the specified tolerance.

(4) For a tolerance of less than ten percent, individual containers in any lot may contain no more than double the specified tolerances.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-120, filed 5/25/05, effective 6/25/05. Statutory Authority: Chapter 15.17 RCW. 80-08-010 (Order 1708), § 16-414-120, filed 6/20/80.]

WAC 16-414-125 What tolerances apply to sulphured pitted cherries? The following tolerances apply to sulphured pitted cherries:

IF THE CHERRY SIZE IS:	THEN THE TOLERANCE IS:
(1) Extra small and small sizes	No more than two pits per each forty ounces of cherries
(2) Medium, large or mixed sizes	No more than one pit per each forty ounces of cherries
(3) Extra large size	No more than one pit per each sixty ounces of cherries

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-125, filed 5/25/05, effective 6/25/05.]

WAC 16-414-145 What specific defects are considered damage to Washington standards for sulphured cherries? The defects listed in the following table are considered "damage":

DEFECT	DESCRIPTION
(1) Mechanical injury	Any of the following mechanical injuries are considered damage: <ul style="list-style-type: none"> • Open pitter hole; or • Pitter hole where there is a material loss of flesh; or • Pitter tear or pitter tears; or • Other mechanical injuries that materially affect the appearance of the cherry.
(2) Surface discoloration	Surface discoloration for Washington No. 1 whole cherries is considered damage when any: <ul style="list-style-type: none"> • Light surface discoloration exceeds, in the aggregate, one-eighth of the cherry's surface; or • Dark surface discoloration exceeds, in the aggregate, the area of a circle three-sixteenths inches in diameter, but does not exceed, in the aggregate, one-eighth of the cherry's surface.
(3) Surface discoloration	Surface discoloration for Washington No. 1 halved cherries is considered damage when any: <ul style="list-style-type: none"> • Light surface discoloration exceeds, in the aggregate, one-eighth of the cherry's surface; or

DEFECT	DESCRIPTION
	<ul style="list-style-type: none"> • Dark surface discoloration exceeds, in the aggregate, the area of a circle one-sixteenth inch in diameter.
(4) Rain cracks	Rain cracks on Washington No. 1 whole cherries are considered damage if: <ul style="list-style-type: none"> • In the stem basin and more than one-fourth inch in length; or • Outside the stem basin and more than three-sixteenths of an inch in length, measured on the circumference.
(5) Rain cracks	Rain cracks on Washington No. 1 halved cherries are considered damage if: <ul style="list-style-type: none"> • In the stem basin and more than one-eighth inch in length; or • Outside the stem basin. (Note: No rain cracks are allowed outside the stem basin.)
(6) Blemished	Any of the following blemishes are considered damage: <ul style="list-style-type: none"> • Insect injury; • Bird pecks; • Limb rub; • Hail marks; • Sunburn; • Solution cracks; • Other blemishes or combinations of blemishes that materially affect the appearance of the cherry; or • Any cherry with flesh that is materially discolored.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-12-037, § 16-414-145, filed 5/25/05, effective 6/25/05.]

WAC 16-414-155 What specific defects are considered serious damage to Washington standards for sulphured cherries? The defects listed in the following table are considered serious damage:

DEFECT	DESCRIPTION
(1) Deformed cherry or double cherry	Any deformed sulphured cherry or double sulphured cherry is considered serious damage.
(2) Mechanical injury	Mechanical injury to Washington No. 2 whole cherries is considered serious damage if it causes any: <ul style="list-style-type: none"> • Open pitter holes; • Pitter hole where there is a serious loss of flesh; • Pitter tears; or • Other mechanical injury that seriously affects the cherry's appearance.

DEFECT	DESCRIPTION
(3) Mechanical injury	Mechanical injury to Washington No. 2 halved cherries is considered serious damage if it causes any: <ul style="list-style-type: none"> • Open pitter holes; • Pitter hole where there is a serious loss of flesh; • Pitter tears; or • Other mechanical injury that seriously affects the cherry's appearance.
(4) Surface discoloration	Surface discoloration is considered serious damage when any: <ul style="list-style-type: none"> • Light surface discoloration exceeds, in the aggregate, 1/2 of the cherry's surface; or • Dark surface discoloration exceeds, in the aggregate, 1/8 of the cherry's surface.
(5) Rain cracks	Rain cracks on Washington No. 2 whole cherries are considered serious damage if: <ul style="list-style-type: none"> • In the stem basin and more than 1/2 inch in length; or • Outside the stem basin and more than 3/8 of an inch in length, measured on the circumference.
(6) Rain cracks	Rain cracks on Washington No. 2 halved cherries are considered serious damage if: <ul style="list-style-type: none"> • In the stem basin and more than 1/4 inch in length; or • Outside the stem basin more than 3/16 of an inch in length, measured on the circumference.
(7) Blemished	Any blemish or combination of blemishes are considered serious damage if they seriously: <ul style="list-style-type: none"> • Affect the appearance of the cherry; or • Discolor the flesh of the cherry.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-20-075, § 16-414-155, filed 10/4/05, effective 11/4/05; 05-12-037, § 16-414-155, filed 5/25/05, effective 6/25/05.]

16-436-130	Washington No. 2 grade. [Order 1203, § 16-436-130, filed 5/14/71, effective 6/14/71.] Repealed by 92-11-076, filed 5/20/92, effective 6/20/92. Statutory Authority: Chapter 15.17 RCW.
16-436-170	Tolerances. [Statutory Authority: Chapter 15.17 RCW. 88-11-048 (Order 1977), § 16-436-170, filed 5/16/88; Order 1203, § 16-436-170, filed 5/14/71, effective 6/14/71.] Repealed by 92-11-076, filed 5/20/92, effective 6/20/92. Statutory Authority: Chapter 15.17 RCW.
16-436-186	Containers. [Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-186, filed 5/20/92, effective 6/20/92.] Repealed by 06-11-052, filed 5/11/06, effective 6/11/06. Statutory Authority: Chapters 15.17 and 34.05 RCW.

WAC 16-436-002 Promulgation. (This promulgation relates to WAC 16-436-001, 16-436-010, 16-436-020, 16-436-030, 16-436-040, and 16-436-050.)

I, Donald W. Moos, director of agriculture of the state of Washington, by virtue of the authority vested in me under chapter 15.17 RCW and after due notice and public hearing held at Ellensburg, Washington on May 5, 1971, pursuant to chapters 42.32 and 34.04 RCW do hereby establish the following standards for peaches and the container marking requirements.

[Order 1203, § 16-436-002, filed 5/14/71, effective 6/14/71.]

WAC 16-436-003 Promulgation. I, Donald W. Moos, director of agriculture of the state of Washington, by virtue of the authority vested in me under chapter 15.17 RCW and after due notice as provided under chapters 34.04 and 42.32 RCW, and a public hearing held in Olympia, Washington, September 14, 1971, do hereby promulgate the following regulations relating to Washington standards for peaches. (Amending Order No. 1203 and superseding Emergency Order No. 1208)

[Order 1212, § 16-436-003, filed 9/17/71, effective 10/18/71.]

WAC 16-436-100 Washington extra fancy grade. (1)
Shall consist of peaches of one variety which are mature, but

(2007 Ed.)

not soft or overripe; fairly well formed; and which are free from decay, broken skin, worms, worm holes; and free from damage caused by bruises; dirt or other foreign material; bacterial spot; scab; scale; growth cracks; hail injury; leaf or limb rubs or russetting; split pits; stem pull; rough suture; other diseases, insects or mechanical or other means.

(2) Size. Such peaches shall measure not less than 2-1/4 inches in diameter: Provided, That such peaches shall also meet requirements of WAC 16-436-187 Minimum size. Definitions for the above grade will be found under WAC 16-436-160, 16-436-180, 16-436-185, 16-436-190, 16-436-200, 16-436-210, and 16-436-220.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-100, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-100, filed 5/16/88; Order 1203, § 16-436-100, filed 5/14/71, effective 6/14/71.]

WAC 16-436-110 Washington fancy grade. (1) Shall consist of peaches of one variety which meet all of the requirements of Washington extra fancy: Provided, Split pit not to exceed 3/8 inch in length shall be allowed. Damage, but not serious damage, for rough suture shall be allowed in this grade.

(2) Size. Such peaches shall measure not less than 2-1/4 inches in diameter: Provided, That such peaches shall also meet requirements of WAC 16-436-187 Minimum size. Definitions for the above grade will be found under WAC 16-436-165, 16-436-180, 16-436-185, 16-436-190, 16-436-200, 16-436-210, and 16-436-220.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-110, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-110, filed 5/16/88; Order 1212, § 16-436-110, filed 9/17/71, effective 10/18/71; Order 1203, § 16-436-110, filed 5/14/71, effective 6/14/71.]

WAC 16-436-120 Washington combination extra fancy and fancy grade. When extra fancy and fancy peaches are packed together, the box shall be marked Washington combination extra fancy and fancy and shall contain at least 75% Washington extra fancy peaches. Definitions for the above grade will be found under WAC 16-436-160, 16-436-180, 16-436-185, 16-436-190, 16-436-200, 16-436-210, and 16-436-220.

[Order 1203, § 16-436-120, filed 5/14/71, effective 6/14/71.]

WAC 16-436-140 Cull grade. Shall consist of peaches which are not graded in conformity with the foregoing grades.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-140, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-140, filed 5/16/88; Order 1203, § 16-436-140, filed 5/14/71, effective 6/14/71.]

WAC 16-436-150 Cull peach requirements. Cull peaches shall be packed in one bushel baskets, ring faced with the peaches in the ring representative of the size, and quality of the peaches in the baskets and the baskets lidded, and the words "cull peaches" shall appear on the top and side of the basket in which they are shipped and upon labels upon the basket in clear and legible letters at least 2-1/2 inches high, and the name and address of the grower, shipper, or packer, and the variety, minimum diameter, and net weight shall be legibly stamped upon the lid or appear upon the labels in letters at least 1/2 inch high. Every bill of lading,

(2007 Ed.)

invoice, memorandum and other documents referring to said peaches shall designate them as cull peaches.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-150, filed 5/20/92, effective 6/20/92; Order 1203, § 16-436-150, filed 5/14/71, effective 6/14/71.]

WAC 16-436-160 Tolerances. In order to allow for variations incident to proper grading and handling, the following tolerances shall apply to the Washington extra fancy (WAC 16-436-100), and the Washington combination extra fancy and fancy (WAC 16-436-120), not more than 10% by count, of the peaches in any lot may fail to meet the requirements of this grade but not more than 1/2 of this amount, or 5%, shall be allowed for defects causing serious damage, as defined under WAC 16-436-220, and not more than 1/5 of this amount, or 1%, shall be allowed for decay at shipping point: Provided, An additional tolerance of not more than 10% by count, of the peaches in any lot may be damaged, but not seriously damaged, by bruising at packing time as defined under WAC 16-436-210 and 16-436-220. When applying the foregoing tolerances to the combination grades, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 75% of peaches of the higher grade required in the combination, but individual containers shall have not less than 65% of the higher grade. An additional tolerance of 2% shall be allowed for soft, overripe, or decayed peaches en route or at destination as defined under WAC 16-436-200.

[Statutory Authority: Chapter 15.17 RCW. 88-11-048 (Order 1977), § 16-436-160, filed 5/16/88; Order 1203, § 16-436-160, filed 5/14/71, effective 6/14/71.]

WAC 16-436-165 Tolerances. In order to allow for variations incident to proper grading and handling, the following tolerances shall apply to the Washington fancy (WAC 16-436-110), not more than 20% by count of the peaches in any lot may fail to meet the requirement of this grade, but not more than 1/4 of this amount, or 5% shall be allowed for defects causing serious damage, as defined under WAC 16-436-220 and not more than 1/5 of this amount, or 1% shall be allowed for decay at shipping point. An additional tolerance of 2% shall be allowed for soft, overripe, or decayed peaches en route or at destination as defined under WAC 16-436-200.

[Statutory Authority: Chapter 15.17 RCW. 88-11-048 (Order 1977), § 16-436-165, filed 5/16/88.]

WAC 16-436-166 Tolerances—Size. In order to allow for variations incident to proper sizing, not more than 10% by count, of the peaches in any lot may be below the specified minimum size and not more than 15% may be above any specified maximum size.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-166, filed 5/20/92, effective 6/20/92.]

WAC 16-436-180 Application of tolerances to individual packages. Applying to all grades.

(1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: Provided, The averages for the entire lot are within the tolerances specified for this grade.

(2) For packages which contain more than 10 pounds, and a tolerance of 10% or more is provided, individual pack-

ages in any lot shall have not more than 1-1/2 times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10% is provided, individual packages in any lot shall have not more than double the tolerance specified.

(3) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects and sizes: Provided, That not more than one peach which is seriously damaged by insects or affected by decay may be permitted in any package.

[Order 1203, § 16-436-180, filed 5/14/71, effective 6/14/71.]

WAC 16-436-185 Washington standard pack.

Applies to all grades except **culls**.

(1) Each package shall be packed so that the peaches in the shown face shall be reasonably representative in size, color and quality of the contents of the package.

(2) Baskets. Peaches packed in U.S. Standard bushel baskets, or half-bushel baskets shall be ring faced and tightly packed with sufficient bulge to prevent any appreciable movement of the peaches within the packages when lidded.

(3) Boxes. Peaches packed in standard western boxes shall be reasonably uniform in size and arranged in the packages according to the approved and recognized methods. Each wrapped peach shall be fairly well enclosed by its individual wrapper. All packages shall be well filled and tightly packed but the contents shall not show excessive or unnecessary bruising because of over-filled packages. The number of peaches in the box shall not vary more than 4 from the number indicated on the box.

(4) Peaches packed in other type boxes such as fibre-board boxes or corrugated cartons may be place packed, or jumble packed faced, and all packs shall be well filled.

(5) Peaches packed in boxes equipped with cell compartments or molded trays shall be of the proper size for the cells or the molds in which they are packed.

(6) Peaches placed in individual paper cups and packed in boxes shall be in cups of the proper size for the peaches.

(7) In order to allow for variations incident to proper packing, not more than 10% of the packages in any lot may not meet these requirements.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-185, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-185, filed 5/16/88; Order 1203, § 16-436-185, filed 5/14/71, effective 6/14/71.]

WAC 16-436-187 Minimum size. (1) Fresh peaches of any variety, except peaches of the Elberta varieties, when packed and marketed in any container except the standard peach box, shall measure not less than 2 3/8 inches in diameter.

(2) Fresh peaches of any variety when packed and marketed in the standard peach box shall measure not less than 2 1/4 inches in diameter.

(3) Fresh peaches of the Elberta varieties when marketed in any container shall measure not less than 2 1/4 inches in diameter.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-187, filed 5/20/92, effective 6/20/92.]

[Title 16 WAC—p. 464]

WAC 16-436-190 Marking requirements. Applies to all grades except **culls**.

(1) All containers shall be conspicuously and legibly stamped with the name and address of the grower, shipper or packer, the fruit variety, grade, and numerical count, or minimum diameter.

(2) When the numerical count is not shown, the minimum diameter and net weight shall be plainly stamped or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 3 inches minimum, 2-1/4 inches minimum, 2-3/8 inches minimum, in accordance with the facts. The minimum and maximum diameters may both be stated in accordance with the facts.

(3) The grade shall be stamped in letters at least 1/4 inch high. The following abbreviations may be used: Washington may be abbreviated as Wash. or Wa.; extra fancy may be abbreviated as ex. fcy. or extra fcy.; fancy may be abbreviated as fcy.; combination may be abbreviated as comb.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-190, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-190, filed 5/16/88; Order 1203, § 16-436-190, filed 5/14/71, effective 6/14/71.]

WAC 16-436-200 Definitions. Applying to all grades.

(1) "Diameter" means the greatest distance measured through the center of the peach at right angles to a line running from the stem to the blossom end.

(2) "Mature" means that the peach has reached the stage of growth which will insure a proper completion of the ripening process.

(3) "Soft or overripe" means that the peach has very little resistance to pressure. Such peaches are dead ripe.

(4) "Fairly well formed" means that the shape of the peach shall not be so misshapen that the appearance is more than moderately affected, consistent with the characteristic shape of the variety.

(5) "Not badly misshapen" means that the peach may be more irregularly shaped than "fairly well formed" as defined above, but shall not be deformed to the extent of seriously affecting its utility or general appearance.

(6) The term "loose or jumble pack" shall mean that the peaches are not placed in the container in cups, compartments, or trays.

(7) The term "standard peach box" shall mean a container with minimum inside dimensions of 4 1/4 to 6 by 11 1/2 by 16 inches.

(8) The term "western lug box" shall mean any container with minimum inside dimensions of 7 by 11 1/2 by 18 inches.

(9) The term "well filled" shall mean the level of the fruit is filled to the top edge of the container sides.

(10) The term "enroute" shall mean that the peaches have left the original shipping point and are in transit or being held in an intermediate storage facility prior to arriving at the final destination.

(11) The term "at destination" shall mean the final point of delivery by commercial carrier, or the wholesale or retail facility in which peaches are held.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-200, filed 5/20/92, effective 6/20/92; Order 1203, § 16-436-200, filed 5/14/71, effective 6/14/71.]

(2007 Ed.)

WAC 16-436-210 Definition—Damage. Applies to Wash. ex. fancy (WAC 16-436-100); Wash. fancy (WAC 16-436-110); Wash. comb. ex. fancy and fancy (WAC 16-436-120). "Damage" means any injury or defect which materially affects the appearance or the edible or shipping quality of the peach. Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage.

(1) Bruises where any bruise discolors the flesh to a depth greater than 3/16 of an inch or discolors the skin in an area greater than 1/2 inch in diameter or smaller bruises aggregating more than 1/2 inch in diameter. Areas or depths of bruises are applicable to a peach 2-1/4 inches or smaller in diameter. Correspondingly greater areas or depths shall be allowed on larger peaches as follows:

2 1/2 inches in dia.	5/9 in. area dia.	5/24 in. deep
2 3/4 inches in dia.	11/18 in. area dia.	11/48 in. deep
3 inches in dia.	2/3 in. area dia.	1/4 in. deep
3 1/4 inches in dia.	13/18 in. area dia.	13/48 in. deep
3 1/2 inches in dia.	7/9 in. area dia.	7/24 in. deep
3 3/4 inches in dia.	15/18 in. area dia.	5/16 in. deep
4 inches in dia.	8/9 in. area dia.	1/3 in. deep

(2) Bacterial spot, when cracked, or when aggregating more than 3/8 inch in diameter;

(3) Scab spot, when cracked, or when aggregating more than 3/8 inch in diameter;

(4) Scale, when concentrated, or when scattered and aggregating more than 1/4 inch in diameter;

(5) Growth cracks, when unhealed, or more than 1/2 inch in length;

(6) Hail injury which is unhealed, or deep, or when aggregating more than 1/4 inch in diameter, or more than 1/8 inch in depth;

(7) Leaf or limb rubs or russetting, exceeding 1-1/4 inches in diameter when smooth and light colored or exceeding 1/2 inch in diameter when rough or dark colored;

(8) Split pit, when causing any unhealed crack, or when causing any crack which is readily apparent, or when affecting shape to the extent that the fruit is not fairly well formed;

(9) Stem pulls larger than 1/2 inch in diameter, including stem area;

(10) Rough suture length, half way down side of peach 1/4 inch wide and 1/32 inch high.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-210, filed 5/20/92, effective 6/20/92; Order 1203, § 16-436-210, filed 5/14/71, effective 6/14/71.]

WAC 16-436-220 Definition—Serious damage. Applying to Washington extra fancy (WAC 16-436-100); Wash. fancy (WAC 16-436-110); Wash. comb. ex. fancy and fancy (WAC 16-436-120). "Serious damage" means any injury or defect which seriously affects the appearance, or the edible or shipping quality of the peach. Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage.

(1) Bruises, when aggregated and causing a waste in excess of 10% by area on any peach or with any one bruise causing a waste in excess of 5% by area or exceeding 3/8 of an inch in depth. Areas or depths of bruises specified are

applicable to a peach 2-1/4 inches or smaller in diameter. Correspondingly greater areas or depths shall be allowed on definitely larger peaches;

(2) Bacterial spot, when any cracks are not well healed, or when aggregating more than 1/2 inch in diameter;

(3) Scab spots, when cracked, or when healed and aggregating more than one inch in diameter;

(4) Scale, when aggregating more than 1/2 inch in diameter;

(5) Growth cracks, when unhealed, or more than 5/8 inch in length;

(6) Hail injury, when unhealed, or shallow hail injury when aggregating more than 3/4 inch in diameter, or deep hail injury which seriously deforms the fruit or which aggregates more than 1/2 inch in diameter, or more than 1/8 inch in depth;

(7) Leaf or limb rubs, when smooth and light colored and aggregating more than 1-1/2 inches in diameter, or dark or rough and barklike scars aggregating more than 1/2 inch in diameter;

(8) Split pit, when causing any unhealed crack, or when healed and aggregating more than 1/2 inch in length including any part of the crack which may be covered by the stem;

(9) Stem pulls larger than 5/8 inch in diameter, including stem area;

(10) Punctures not on the shoulder area or punctures on the shoulder area larger than 3/16 of an inch in diameter;

(11) Rough suture, entire length of suture 1/4 inch wide, 1/16 inch high.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-220, filed 5/20/92, effective 6/20/92; 88-11-048 (Order 1977), § 16-436-220, filed 5/16/88; Order 1203, § 16-436-220, filed 5/14/71, effective 6/14/71.]

WAC 16-436-225 Adoption of United States standards as state standards. In addition to the standards for peaches prescribed in WAC 16-436-100 through 16-436-230 there are hereby adopted as additional standards of the state of Washington for peaches, and for optional use by the producer or shipper, the United States standards for grades of peaches, effective June 15, 1952, as they apply to U.S. fancy, U.S. extra no. 1, U.S. no. 1, U.S. no. 2: Provided, That such peaches shall meet the requirements of WAC 16-436-100, 16-436-110, and 16-436-120.

[Statutory Authority: Chapter 15.17 RCW. 92-11-076, § 16-436-225, filed 5/20/92, effective 6/20/92.]

WAC 16-436-230 Effective date. This order shall take effect on and after October 18, 1971.

[Order 1212, § 16-436-230, filed 9/17/71, effective 10/18/71; Order 1203, § 16-436-230, filed 5/14/71, effective 6/14/71.]

Chapter 16-439 WAC PEARS, SUMMER AND FALL

WAC

16-439-001	Promulgation.
16-439-200	Definition of terms.
16-439-210	Grades.
16-439-220	Tolerances.
16-439-230	Culls.
16-439-240	Size.
16-439-250	Containers.

16-439-270 Marking.
16-439-280 United States standards for summer and fall pears.

**DISPOSITION OF SECTIONS FORMERLY
CODIFIED IN THIS CHAPTER**

16-439-010 through 16-439-120. [Order 188, effective 6/30/33; Order 632, effective 8/9/52.] Superseded by Emergency Order 922 and Permanent Order 930. See WAC 16-439-200 et seq.

WAC 16-439-001 Promulgation. I, Donald W. Moos, director of agriculture of the state of Washington, by virtue of the authority vested in me under chapter 15.17 RCW, after due notice and public hearing held at Olympia, Washington on September 30, 1966, (pursuant to chapters 42.32 and 34.04 RCW), do hereby establish the Washington standards for Bartlett and other summer and fall pears, container minimum size and marking requirements.

[Order 1033, Promulgation, filed 10/10/66, effective 11/10/66; Order 930, Promulgation, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-200 Definition of terms. The following regulations and definitions shall apply to all varieties and grades under this order.

(1) "Mature" means having reached the stage of maturity which will insure a proper completion of the ripening process. Firmness of the flesh shall be considered only in connection with other factors to determine the degree of maturity.

(2) "Hand picked" means that pears do not show evidence of rough handling or of having been on the ground.

(3) "Clean" means reasonably free from dust, dirt, or honey dew.

(4) "Sound" means that pears at time of packing are free from visible defects such as decay, breakdown, scald, bitter pit, or physical injury affecting keeping quality.

(5) "Aggregate area" means that all the areas of the blemish under consideration may be assembled into one circular area of the maximum diameter specified.

[Order 1033, § 1, filed 10/10/66, effective 11/10/66; Order 930, General Regulation, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-210 Grades. Washington extra fancy shall consist of pears of one variety which are mature, hand picked, clean, well formed, sound, and free from drought spot, cork spot, and visible black end, and from damage caused by broken skin, bruises, limbrubs, sunburn, sprayburn, hail marks, russeting, disease, insects, mechanical or other means.

(1) "Well formed" means having the shape characteristic of the variety; and is further defined by variety as follows:

(a) Bartletts shall have a characteristic pyriform shape of a length not less than 1 1/4 times the diameter of the pear, except that the shape may be slightly irregular provided it does not detract from the general appearance of the pear.

(b) In other varieties slight irregularities of shape from type which do not materially detract from the general appearance of the fruit shall be considered well formed.

(2) "Free from damage" means that no blemish shall be allowed which materially affects the appearance of the fruit. The following blemishes shall not be considered as damage:

(a) Slight handling bruises and box bruises such as are incident to good commercial handling in the preparation of a tight pack.

(b) Sunburn, if the normal color of the fruit has not been materially changed, without any softening of the flesh or blistering or cracking of the skin.

(c) Spray burn, same as sunburn.

(d) Russeting, characteristic of the variety as follows:

(i) On Bartlett, characteristic russeting shall be permitted at the calyx end provided such russeting is not visible for more than 1/2 inch when the pear is placed calyx end down on a flat surface.

(e) Light russeting not characteristic of the variety, when the affected area does not exceed an aggregate of 15% of the surface.

(f) Slight pebbling on Bartletts which does not materially detract from the appearance.

In addition to the above, a pear may show any one or a combination of the following, the aggregate of which does not exceed 3/4 inch in diameter:

(g) Limbrubs which are light and not soft and which affect an aggregate area not to exceed 3/4 inch in diameter.

(h) Hail marks when the injury is superficial and which affect an aggregate area not to exceed 1/4 inch in diameter.

(i) Heavy russeting, such as is characteristic of frost injury when the aggregate area does not exceed 1/2 inch in diameter.

(j) Two slight, healed depressions which do not materially affect the general appearance of the fruit.

(k) Sooty blotch when affecting an aggregate area of more than 10% slight or thin, or 1/2 inch moderate, or 3/8 inch heavy.

(3) **Washington fancy** shall consist of pears of one variety which are mature, hand picked, clean, not seriously misshapen, sound, and free from cork spot, and visible black end, and from damage caused by broken skin, and from serious damage caused by bruises, limbrub, sunburn, spray burn, hail marks, drought spot, russeting, disease, insects, mechanical or other means.

(4) "Not seriously misshapen" means in Bartletts and other varieties, the pear shall have a shape which will permit the cutting of three fairly uniform quarters, and which is neither excessively flattened or elongated for the variety, and which shall be free from excessive creases or folds.

(5) "Free from serious damage" means that the defects taken singly or collectively shall not seriously deform or disfigure the fruit, or seriously affect the edible or culinary value. The following blemishes shall not be considered as serious damage:

(a) Slight handling bruises and box bruises, such as are incident to good commercial handling in the preparation of a tight pack.

(b) Sunburn, if the normal color of the fruit has been but slightly changed without any softening of the flesh or blistering or cracking of the skin.

(c) Spray burn, same as sunburn.

(d) Russeting characteristic of the variety.

(i) On Bartlett, characteristic russeting shall be permitted at the calyx end provided such russeting is not visible for more than 1/2 inch when the pear is placed calyx end down

on a flat surface and in addition smooth russetting shall be permitted on the entire surface.

(ii) On other varieties, smooth russetting not characteristic of the variety will be permitted on the entire surface of the fruit.

(e) Pebbling on Bartletts which does not seriously affect the culinary or edible value of the fruit.

(f) Limbrubs on Bartletts and other varieties which are light and which are not soft and which do not affect an aggregate area to exceed 10% of the surface of the fruit.

(g) Drought spots which do not affect an aggregate area exceeding 1/4 inch.

In addition to the above, a pear may show any one or a combination of the following, the aggregate of which does not exceed the maximum area specified on each variety mentioned below:

(h) Heavy or dark heavy limbrubs on Bartletts and other varieties which are not soft and which do not affect an aggregate area to exceed 3/4 of an inch.

(i) Hail marks when the injury does not affect an aggregate area to exceed 3/4 inch in diameter on Bartlett pears, and 1/2 inch in diameter on other varieties of pears.

(j) Frost rings.

(i) Bartletts: Frost rings which do not completely encircle the pear and when the surface is only slightly grooved; and frost damage, such as occurs at the calyx end and which does not materially detract from the appearance of the pear.

(ii) On other varieties frost injury of the nature of heavy russet shall be considered under heavy limbrubs.

(k) Scab spot affecting an aggregate area not to exceed 1/2 inch in diameter.

(l) Shallow healed depressions which do not seriously affect the general appearance of the fruit and which do not affect an aggregate area to exceed 3/4 of an inch in diameter.

(m) Sooty blotch when affecting an aggregate area of not more than 50% of the surface area of thin, widely scattered spots, or not more than 1 1/4 inches of moderate, or not more than 3/4 inch of heavy.

(6) Washington C grade shall consist of pears of one variety which are mature, hand picked, clean, sound and free from hard-end; and free from serious damage caused by (a) broken skin, (b) insects, disease, hail marks, limbrubs, heavy russet, or other means; and shall not be so excessively elongated or flattened as to preclude the cutting of one good half.

(a) Broken skin exceeding 1/4 inch in diameter.

(b) "Free from serious damage" means defects when taken singly or collectively shall not seriously affect the edible or culinary value of the fruit. The following conditions shall not be considered serious damage: Healed insect depressions or other surface blemishes which do not prevent the cutting of one good half.

(c) Hard-end is defined as those pears which show an abnormally yellow or green color at the blossom end or an abnormally smooth rounded bases with little or no depression at the calyx, or if the flesh near the calyx is abnormally dry and tough or woody.

(d) Pears affected by hard-end shall be considered defects of all grades.

(e) Rat-tail shaped pears, or second bloom pears that are tough or ridged shall be considered defects of all grades.

(7) Combination grades.

A. When extra fancy and fancy pears are packed together, the packages may be marked "combination extra fancy and fancy." In this grade at least 50%, by count, of the fruit must meet the requirements of extra fancy.

B. When extra fancy, fancy, and C grade pears are packed together, the packages may be marked "combination extra fancy, fancy and C grade" but must contain at least 50%, by count, of pears meeting the requirements of extra fancy grade.

C. When extra fancy and C grade pears are packed together, the packages may be marked "combination extra fancy, and C grade," but must contain at least 50%, by count, of pears meeting the requirements of extra fancy grade.

D. When fancy and C grade pears are packed together, the packages may be marked "combination fancy and C grade," but must contain at least 50%, by count, of pears meeting the requirements of fancy grade.

[Order 1033, Regulation 1, filed 10/10/66, effective 11/10/66; Order 930, Regulation 1, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-220 Tolerances. (1) Tolerances which apply at time of packing:

(a) In order to allow for variations incident to commercial grading and handling, in each of the foregoing grades not more than 10%, by count, of any lot may be below the requirements of the grade, and not more than one-tenth of this amount shall be allowed for decay and/or breakdown. Slight imperfections which are not discernible in good commercial sorting practice shall not be considered as defects of grade.

(b) In addition to the above, a 10% tolerance for a total of all defects from the standards defined for uniformity of size, wrapping, and tightness of pack shall be permitted, and shall be computed by counting, weighing, or measuring the specimens judged to be below the standard.

(c) In order to allow for variations incident to proper sizing, not more than five percent, by count, of the pears in any lot may be below any specified minimum size and not more than ten percent may be above any specified maximum size.

(d) Small inconspicuous skin breaks, less than one-eighth inch in diameter or depth, shall not be considered damage. In addition, not more than 15 percent of the pears in any container may have not more than one skin break from one-eighth inch to three-sixteenths inch, inclusive, in diameter or depth.

(2) Tolerances which apply after pears have been placed in storage or in transit in Washington state: After pears have been placed in storage or in transit, scald, breakdown, decay, bitter pit, or physical injury affecting keeping quality which may have developed or may only have become evident after pears are packed are defined as applying to condition rather than to grade.

[Order 1033, Regulation 2, filed 10/10/66, effective 11/10/66; Order 930, Regulation 2, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-230 Culls. (1) Pears which are not graded in conformity with foregoing grades and standards and which contain not more than 5% serious insect damage shall be designated as "culls."

(2) Infested culls. Pears which are not graded in conformity with the foregoing grades and which contain 5% or

more infestation from codling moth, San Jose scale, and other horticultural pests, shall be designated as "infested culls."

[Order 1033, Regulation 3, filed 10/10/66, effective 11/10/66; Order 930, Regulation 3, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-240 Size. (1) The following packs shall be recognized as standard for determining range in sizes: 70, 80, 90, 100, 110, 120, 135, 165, 180, 193, 210, 228, 245.

(2) The following terms will be used for description of degrees of uniformity of sizing of pears in packed containers.

(a) **Uniform** when the container contains not more than two sizes, the majority of which must be of the size with which the container is marked;

(b) **Fairly uniform** when the container actually contains a range of not more than three sizes, one size larger and one size smaller than the size with which the container is marked;

(c) **Slightly irregular** when not more than 10% of the pears in the container exceed the range of three sizes mentioned above;

(d) **Irregular** when more than 10% of the pears in the container exceed the range of three sizes mentioned above. (Note: Packages in which the size must be described as "irregular" do not comply with the state grading and packing regulations and cannot legally be shipped.)

[Order 1033, Regulation 4, filed 10/10/66, effective 11/10/66; Order 930, Regulation 4, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-250 Containers. (1) Standard box packs: All pears packed in boxes under these regulations shall be arranged in clean, fairly bright and tightly nailed boxes according to the approved and recognized methods, with stems pointing towards the end of the box, except when jumbled. All boxes shall be tightly packed at time of packing but the contents shall not show excessive or unnecessary bruising because of an overfilled package. Each pear wrapped shall be well wrapped.

(2) Tray packs:

(a) A standard tray pack container carries four, five, or six molded pulp trays and is packed to and marked with one of the same size counts of the same size pears as are packed in the standard container.

(b) All pears packed in tray pack containers shall be as uniformly sized as those packed in the standard box and shall be arranged according to the approved method for the tray type of pack.

(c) Each container shall be well filled.

(3) When containers smaller than standard boxes or tray pack cartons are used, the containers shall be tightly packed, and if pears are wrapped and/or packed in a uniform manner as described in (1) or (2) above, the same requirements for sizing, wrapping and/or placement shall apply.

[Order 1033, Regulation 5, filed 10/10/66, effective 11/10/66; Order 930, Regulation 5, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-260 Minimum weight. The smallest container for shipment of fresh Bartlett pears shall contain at least 14 lbs. net weight of pears. (Except for overwrap trays or other consumer type packages packed in master containers.) The director may, after receiving application, grant the use of experimental packages.

[Title 16 WAC—p. 468]

[Order 1033, Regulation 6, filed 10/10/66, effective 11/10/66; Order 930, Regulation 6, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-270 Marking. (Packed or loose in containers.) (1) When shipped, the container shall bear the correct name of the variety or "variety unknown," the name of the grower, packer, or shipper, and his address, the grade, and the correct number of pears or the net contents either in terms of dry measure or weight. Any of these marks may be printed on the label but in case they are not, they must be stamped on the end of the container. The grower's, packer's, or shipper's name and address, if not included on the label, must be placed either in line with the grade marks above the label or on the opposite end of the container.

(2) When pears are packed in other than standard boxes or tray cartons, the container shall be marked with the correct number of pears and the net weight.

[Order 1033, Regulation 7, filed 10/10/66, effective 11/10/66; Order 930, Regulation 7, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

WAC 16-439-280 United States standards for summer and fall pears. (1) The following U.S. grades may be used for Bartlett and other summer and fall pears: U.S. No. 1, U.S. No. 2, and U.S. combination, as promulgated in the U.S. standards for summer and fall pears and adopted effective August 20, 1955.

(2) When U.S. grades are used, pears must meet the requirements of the lowest Washington state grade or better.

[Order 1033, Regulation 8, filed 10/10/66, effective 11/10/66; Order 930, Regulation 8, filed 8/6/63; Emergency Order 922, filed 6/7/63.]

Chapter 16-442 WAC WINTER PEARS

WAC

16-442-005	Application and when mandatory.
16-442-010	Introduction.
16-442-020	Washington extra fancy or U.S. extra No. 1.
16-442-030	U.S. No. 1.
16-442-040	Washington fancy or U.S. No. 2.
16-442-050	Washington combination or U.S. combination grade.
16-442-060	Washington commercial.
16-442-070	Washington third grade.
16-442-080	Culls.
16-442-090	Definitions of terms.
16-442-100	Tolerances for preceding grades.
16-442-110	Condition after storage or transit.
16-442-120	Standard pack.
16-442-130	Tolerances for standard pack.
16-442-140	Box packs.
16-442-150	Marking boxes.
16-442-160	Other grades and brands.

WAC 16-442-005 Application and when mandatory. (1) This order is applicable to D'Anjou, Bosc, Winter Nelis and other varieties of winter pears; and

(2) Effective and mandatory when packed or marketed within the state of Washington.

[Order 322, effective 7/29/40.]

WAC 16-442-010 Introduction. (1) Numbers and letters in parentheses following grade terms indicate where such terms are defined under definitions of terms (WAC 16-442-090).

(2) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(3) When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight.

(4) When the pears are in bulk, percentages shall be calculated on the basis of weight.

(5) The tolerances for the standards are on a container basis. However, individual packages in any lot may vary from the specified tolerances as stated below, provided the averages for the entire lot, based on sample inspection, are within the tolerances specified.

(6) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, except that when the package contains 15 specimens or less, individual packages may contain not more than double the tolerance specified.

(7) For a tolerance of less than 10 per cent, individual packages in any lot may contain not more than double the tolerance specified, provided at least one specimen which does not meet the requirements shall be allowed in any one package.

[Order 322, effective 7/29/40.]

WAC 16-442-020 Washington extra fancy or U.S. extra No. 1. Washington extra fancy or U.S. extra No. 1 shall consist of pears of one variety which are mature (1), but not overripe (2), carefully handpicked (3), clean (4), well formed (5), free from decay, internal breakdown, scald, freezing injury, worm holes, black end (6), hard end, drought spot, and free from injury (7) caused by russetting (7a), limb rubs (7b), hail (7c), scars (7c), cork spot (7d), sunburn (7e), sprayburn (7e), stings or other insect injury (7f) or mechanical or other means (7), except that they shall be free from damage (9) caused by bruises (9b), broken skins (9c), or disease (9k). (See tolerances and condition after storage or transit.)

[Order 322, effective 7/29/40.]

WAC 16-442-030 U.S. No. 1. U.S. No. 1 shall consist of pears of one variety which are mature (1), but not overripe (2), carefully handpicked (3), clean (4), fairly well formed (8), free from decay, internal breakdown, scald, freezing injury, worm holes, black end (6), and from damage (9) caused by hard end (9a), bruises (9b), broken skins (9c), russetting (9d), limbrubs (9e), hail (9f), scars (9f), cork spot (9g), drought spot (9h), sunburn (9i), sprayburn (9i), stings or other insect injury (9j), disease (9k) or mechanical or other means (9). (See tolerances and condition after storage or transit.)

[Order 322, effective 7/29/40.]

WAC 16-442-040 Washington fancy or U.S. No. 2. Washington fancy or U.S. No. 2 shall consist of pears of one variety which are mature (1), but not overripe (2), carefully handpicked (3), clean (4), not seriously misshapen (10), free from decay, internal breakdown, scald, freezing injury, worm holes, black end (6), and from damage (9) caused by hard end (9a), or broken skins (9c). The pears shall also be free from serious damage (11), caused by bruises, russetting (11a), limbrubs (11b), hail (11c), scars (11c), cork spot (11d), drought spot (11e), sunburn (11f), sprayburn (11f), stings or other

(2007 Ed.)

insect injury (11g), disease (11h), or mechanical or other means (11). (See tolerances and condition after storage or transit.)

[Order 322, effective 7/29/40.]

WAC 16-442-050 Washington combination or U.S. combination grade. A combination of U.S. No. 1 and U.S. No. 2 may be packed. When such a combination is packed, at least 50 percent of the pears in any container shall meet the requirements of U.S. No. 1. (See tolerances and condition after storage or transit.)

[Order 322, effective 7/29/40.]

WAC 16-442-060 Washington commercial. A combination of extra fancy and fancy may be packed together as "Washington commercial grade" when at least 50 percent of the pears in any container meet the requirements of Washington extra fancy, and the remainder meet the requirements of Washington fancy (except that broken skins or skin punctures not to exceed three sixteenths of an inch in diameter shall not be considered a defect for this grade).

[Order 322, effective 7/29/40.]

WAC 16-442-070 Washington third grade. Washington third grade shall consist of pears of one variety which are mature, hand picked, clean, sound, not very seriously misshapen (12), free from black end, free from damage caused by hard end, broken skins, and from serious damage caused by cork spot or bruises.

[This paragraph—Order 610, effective 8/21/51.]

WAC 16-442-080 Culls. Pears which are not graded in conformity with the foregoing grades must be designated as culls.

[Order 322, effective 7/29/40.]

WAC 16-442-090 Definitions of terms. As used in these standards:

(1) "Mature" means that the pear has reached the stage of maturity which will insure the proper completion of the ripening process.

Before a mature pear becomes overripe it will show varying degrees of firmness depending upon the stage of the ripening process. Therefore, a statement of firmness should be given in order to indicate the state of the ripening process. A description of the ground color should also be given.

The following terms should be used for describing the ground colors "green," "light green," "yellowish green," and "yellow."

The following terms should be used for describing the firmness of pears:

"Hard" means that the flesh of the pear is solid and does not yield appreciably even to considerable pressure. Such pears are in suitable condition for long storage periods for the variety;

"Firm" means that the flesh of the pear is fairly solid but yields somewhat to moderate pressure. The ripening process in firm pears is further advanced than in hard pears and they

cannot be held in storage as long. Winter varieties at the firm stage may be held longer than the early varieties;

"Firm ripe" means that the flesh of the pear yields readily to moderate pressure. Such a pear is approaching the stage at which it is in prime eating condition but may be held for a brief period although winter varieties can be held longer than the early varieties;

"Ripe" means that the pear is at the stage where it is in its most desirable condition for eating.

(2) "Overripe" means dead ripe, very mealy or soft, past commercial utility;

(3) "Carefully handpicked" means that the pears do not show evidence of rough handling or of having been on the ground;

(4) "Clean" means free from excessive dirt, dust, spray residue or other foreign material;

(5) "Well formed" means having the shape characteristic of the variety. Slight irregularities of shape from type which do not appreciably detract from the general appearance of the fruit shall be considered well formed;

(6) "Black end" is evidenced by an abnormally deep green color around the calyx, or black spots usually occurring on the one-third of the surface nearest to the calyx, or by an abnormally shallow calyx cavity;

(7) "Injury" means any blemish or defect that more than slightly affects the appearance, edible or shipping quality. The following shall be considered as injury:

(7a) Russetting which exceeds the following shall be considered as injury:

On all varieties any excessively rough russetting (russetting which shows "frogging" or slight cracking).

On Comice, and on Anjou and other smooth-skinned varieties, slightly rough russetting, or thick russetting such as is characteristic of frost injury, when the aggregate area exceeds 1/2 inch in diameter;

On Anjou and other smooth-skinned varieties, smooth solid russetting when the aggregate area exceeds 1/2 inch in diameter and smooth netlike russetting when the aggregate area exceeds 15 percent of the surface, and on Comice, smooth solid or smooth netlike russetting when the aggregate area exceeds one-third of the surface, except that, in addition, on these and similar varieties, any amount of characteristic smooth russetting shall be permitted on that portion of the calyx and not visible for more than 1/2 inch along the contour of the pear, when it is placed calyx end down on a flat surface;

On any of the following and other similar varieties, rough or thick russetting such as is characteristic of frost injury when the aggregate area exceeds 1/2 inch in diameter. On any of these varieties any amount of characteristic russetting is permitted whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limb rubs which resemble and blend into russeted areas shall be considered as russet:

Bosc	Pound
Clairgeau	Seckel
Easter Beurre	Sheldon
Kieffer	Winter Nelis, and other similar
P. Barry	varieties;

Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(7b) Limbrubs which are cracked, softened, more than very slightly depressed, not light in color, or exceeding an aggregate area of 3/4 inch in diameter;

(7c) Hail marks or other similar depressions or scars which are not very shallow or superficial, or which affect an aggregate area of more than 1/4 inch in diameter;

(7d) Cork spot when a pear shows depressions or other external evidence of the disease;

(7e) Sunburn or sprayburn if the normal color of the fruit has been materially changed, or if the skin is blistered or cracked, or the flesh softened or discolored;

(7f) More than two healed slight stings or depressions, or any stings which materially affect the general appearance of the fruit.

Blister mite or canker worm injury which is not very shallow and superficial or where the injury affects an aggregate area or more than 1/4 inch;

(8) "Fairly well formed" means that the pear may be slightly abnormal in shape but not to an extent which detracts materially from the appearance of the fruit. Winter Nelis pears with characteristic slight sutures or with slight flattening on one side and/or other slight irregularities which do not materially detract from the general appearance of the pear shall be considered fairly well formed;

(9) "Damage" means any injury or defect which materially affects the appearance, edible or shipping quality;

(9a) Hard end, if the pear shows an abnormally yellow color at the blossom end, or an abnormally smooth rounded base with little or no depression at the calyx, or if the flesh near the calyx is abnormally dry and tough or woody;

(9b) Slight handling bruises and package bruises such as are incident to good commercial handling in the preparation of a tight pack shall not be considered damage;

(9c) Any pear with one skin break larger than 3/16 inch in diameter or depth, or with more than one skin break 1/8 inch or larger in diameter or depth, shall be considered damaged, and scored against the grade tolerance.

Small inconspicuous skin breaks, less than 1/8 inch in diameter or depth, shall not be considered damage. In addition, not more than 15 percent of the pears in any container may have not more than one skin break from 1/8 inch to 3/16 inch inclusive in diameter or depth;

(9d) Russetting which exceeds the following shall be considered as damage:

On all varieties excessively rough russetting (russetting which shows "frogging" or slight cracking) when the aggregate area exceeds 1/2 inch in diameter;

On Anjou and other smooth-skinned varieties, slightly rough russetting, or thick russetting such as is characteristic of frost injury, when the aggregate area exceeds 3/4 inch in diameter;

On Anjou, smooth solid or smooth netlike russetting when the aggregate area exceeds one-third of the surface, and on other smooth-skinned varieties, 15 percent of the surface, except that, in addition, on Anjou and other smooth-skinned varieties, any amount of characteristic smooth russetting shall be permitted on that portion of the calyx end not visible for

more than 1/2 inch along the contour of the pear, when it is placed calyx end down on the flat surface;

On any of the following and other similar varieties, rough or thick russetting such as is characteristic of frost injury, when the aggregate area exceeds 3/4 inch in diameter; on any of these varieties any amount of characteristic russetting is permitted, whether due to natural causes such as weather or stimulated by artificial means; leaf whips or light limb rubs which resemble and blend into russeted areas shall be considered as russet:

Bosc	Pound
Clairgeau	Seckel
Comice	Sheldon
Easter Beurre	Winter Nelis, and other similar
Kieffer	varieties;
P. Barry	

Any one of the following defects or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as damage:

(9e) Any limbrubs which are cracked, softened, or more than slightly depressed.

Black discoloration caused by limb rubs which exceeds an aggregate area of 3/8 inch in diameter.

Dark brown discoloration or excessive roughness caused by limb rubs which exceeds an aggregate area of 1/2 inch in diameter.

Slightly rough, light colored discoloration caused by limb rubs which exceeds an aggregate area of 3/4 inch in diameter.

Smooth, light colored discoloration caused by limb rubs which exceeds an aggregate area of 1 inch in diameter;

(9f) Hail marks or other similar depressions or scars which are not shallow or superficial, or where the injury affects an aggregate area of more than 3/8 inch in diameter;

(9g) Cork spot, when more than one in number visible externally, or when the visible external injury affects an area of more than 3/8 inch in diameter;

(9h) Drought spot when more than one in number, or when the external injury exceeds an aggregate area of 3/8 inch in diameter, or when the appearance of the flesh is materially affected by corky tissue or brownish discoloration;

(9i) Sunburn or sprayburn where the skin is blistered, cracked, or shows any light tan or brownish color, or the shape of the pear is appreciably flattened, or the flesh is appreciably softened or changed in color, except that sprayburn of a russet character shall be considered under the definition of russetting (9d);

(9j) Insects.

More than two healed codling moth stings, or any insect sting which is over 3/32 of an inch in diameter, or other insect stings affecting the appearance to an equal extent.

Blister mite or canker worm injury which is not shallow or superficial, or where the injury affects an aggregate area of more than 3/8 inch in diameter;

(9k) Disease.

Scab spots which are black and which cover an aggregate area of more than 1/8 inch in diameter, except that scab spots of a russet character shall be considered under the definition of russetting (9d).

Sooty blotch which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than 3/8 inch in diameter;

(10) "Seriously misshapen" means that the pear is excessively flattened or elongated for the variety, or is constricted or deformed so it will not cut three fairly uniform good quarters, or is so badly misshapen that the appearance is seriously affected;

(11) "Serious damage" means any injury or defect which seriously affects the appearance, edible or shipping quality:

(11a) Russetting which in the aggregate exceeds the following shall be considered as serious damage:

On all varieties, excessively rough russetting (russetting which shows "frogging" or slight cracking) when the aggregate area exceeds 3/4 inch in diameter;

On all varieties, thick russetting such as is characteristic of frost injury, 15 percent of the surface;

On Anjou, smooth solid or smooth netlike russetting when the aggregate area exceeds two-thirds of the surface, except that, in addition, any amount of characteristic smooth russetting shall be permitted on that portion of the calyx end not visible for more than 1/2 inch along the contour of the pear, when it is placed calyx end down on a flat surface;

Any one of the following defects or combination thereof, the seriousness of which exceeds the maximum allowed for any one defect shall be considered as serious damage:

(11b) Limb rubs which are more than slightly cracked, or excessively rough limb rubs or dark brown or black discoloration caused by limb rubs which exceeds an aggregate area of 3/4 inch in diameter;

Other limb rubs which affect an aggregate area of more than one-tenth of the surface;

(11c) Hail marks or other similar depressions or scars which affect an aggregate area of more than 3/4 inch in diameter, or which materially deform or disfigure the fruit;

(11d) Cork spot, when more than two in number visible externally, or when the visible external injury affects an aggregate area of more than 1/2 inch in diameter;

(11e) Drought spot when more than two in number, or where the external injury affects an aggregate area of more than 3/4 inch in diameter, or when the appearance of the flesh is seriously affected by corky tissue or brownish discoloration;

(11f) Sunburn or sprayburn where the skin is blistered, cracked or shows any brownish color, or where the shape of the pear is materially flattened, or the flesh is softened or materially changed in color, except that sprayburn of a russet character shall be considered under the definition of russetting (11a);

(11g) Insects:

Worm holes.

More than three healed codling moth stings, of which not more than two may be over 3/32 inch in diameter, or other insect stings affecting the appearance to an equal extent.

Blister mite or canker worm injury which affects an aggregate area of more than 3/4 inch in diameter or which materially deforms or disfigures the fruit;

(11h) Disease:

Scab spots which are black, and which cover an aggregate area of more than 1/4 inch in diameter, except that scab

spots of a russet character shall be considered under the definition of russetting (11a);

Sooty blotch which is thinly scattered over more than 15 percent of the surface, or dark heavily concentrated spots which affect an area of more than 3/4 inch in diameter;

(12) Very seriously misshapen means that the pear is excessively flattened, elongated for variety, or is constricted or deformed so it will not cut one good half or two fairly uniform quarters.

[Order 610, effective 8/21/51; Order 322, effective 7/29/40.]

WAC 16-442-100 Tolerances for preceding grades.

(1) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the pears in any container may be below the requirements of grade, provided that not more than 5 percent shall be seriously damaged by insects, and not more than 1 percent shall be allowed for decay or internal breakdown.

(2) When applying the foregoing tolerances to the combination grade no part of any tolerance shall be used to reduce the percentage of U.S. No. 1 pears required in the combination; but individual containers may have not more than 10 percent less than the percentage of U.S. No. 1 required, provided that the entire lot averages within the percentage specified.

[Order 322, effective 7/29/40.]

WAC 16-442-110 Condition after storage or transit.

Decay, scald or other deterioration which may have developed on pears after they have been in storage or transit shall be considered as affecting condition and not the grade.

[Order 322, effective 7/29/40.]

WAC 16-442-120 Standard pack. (1) Sizing. The numerical count, or the minimum size of the pears packed in closed containers shall be indicated on the package. The number of pears in the box shall not vary more than 3 from the number indicated on the box.

(2) When the numerical count is marked on western standard or special pear boxes the pears shall not vary more than 3/8 inch in their transverse diameter for counts 120 or less; 1/4 inch for counts 135 to 180 inclusive; and 3/16 inch for counts 193 or more.

(3) When the numerical count is marked on western standard half boxes or special half boxes packed three tiers deep, the pears shall not vary more than 1/4 inch for counts 90 or less, and 3/16 inch for counts 100 or more.

(4) When the numerical count is marked on western standard half boxes or special half boxes packed two tiers deep, the pears shall not vary more than 3/8 inch for counts 50 or less; 1/4 inch for counts 55 to 60 inclusive; and 3/16 inch for counts 65 or more.

(5) When the numerical count is not shown, the minimum size shall be plainly stamped, stenciled or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2-1/2 inches minimum, 2-1/4 inches minimum, or 2-5/8 inches minimum, in accordance with the facts. It is suggested that both minimum and maximum sizes be marked on the container, as 2-1/4 to 2-3/4 inches, 2-1/2 to 2-3/4 inches,

[Title 16 WAC—p. 472]

as such marking is especially desirable for pears marketed in the export trade.

(6) "Size" means the greatest transverse diameter of the pear taken at right angles to a line running from the stem to the blossom end.

(7) Packing. Each package shall be packed so that the pears in the shown face shall be reasonably representative in size and quality of the contents of the package.

(8) Pears packed in any container shall be tightly packed. All packages shall be well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(9) Pears packed in boxes shall be arranged in containers according to the approved and recognized methods with the pears packed lengthwise. A bridge shall not be allowed in any standard pack. When wrapped each pear shall be fairly well enclosed by its individual wrapper.

(10) Pears packed in round stave bushel baskets, tubs or in barrels shall be ring faced.

[Order 322, effective 7/29/40.]

WAC 16-442-130 Tolerances for standard pack. (1)

In order to allow for variations incident to proper sizing, not more than 5 percent of the pears in any container may not meet the size requirements provided that, when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for pears which are larger than the maximum size stated.

(2) In order to allow for variations incident to proper packing, not more than 10 percent of the containers in any lot may not meet these requirements, but no part of this tolerance shall be allowed for bridge packs, or for packs with different sizes and arrangements such as layers of 195 size and arrangement, and layers of 180 size and arrangement packed in the same box.

[Order 322, effective 7/29/40.]

WAC 16-442-140 Box packs. All pears packed in boxes under these regulations shall be arranged in clean, fairly bright and tightly nailed boxes according to the approved and recognized methods, with the stems pointing towards the end of the box, except when jumbled, and all boxes shall be tightly packed at time of packing but the contents shall not show excessive or unnecessary bruising because of an overfilled package. Each pear wrapped shall be well wrapped.

[Order 322, effective 7/29/40.]

WAC 16-442-150 Marking boxes. (1) When shipped, the box shall bear the correct name of the variety, or "variety unknown," the name of the grower, packer, or shipper, and his address, the grade and the number of pears or the net contents either in terms of dry measure or weight. Any of these marks may be printed on the label but in case they are not, they must be stamped on the end of the box. The grower's, packer's or shipper's name and address, if not included on the label, must be placed either in line with the grade marks above the label or on the opposite end of the box.

(2) When boxes are marked as to number, they shall comply with the specifications mentioned under size.

(2007 Ed.)

[Order 322, effective 7/29/40.]

WAC 16-442-160 Other grades and brands. Any person, firm, or organization wishing to pack pears under any other grade or brand than those described in the foregoing rules shall file a certified copy of the description of such grade or brand with the director of agriculture at Olympia, Washington, before the first day of August of the year in which the pears so to be packed are grown. If such grade or brand is approved by the director of agriculture, pears may be packed under such grade or brand instead of the official state grading rules, and all boxes of pears so packed shall be marked with that grade or brand.

[Order 322, effective 7/29/40.]

Chapter 16-445 WAC

WASHINGTON STANDARDS FOR ITALIAN PRUNES

WAC

16-445-015	What definitions are important to this chapter?
16-445-025	What does "damage" and "serious damage" mean?
16-445-040	What is a "Washington No. 1 grade" Italian prune?
16-445-045	What tolerances apply to Italian prunes?
16-445-060	How does the department apply its Italian prune tolerances during an inspection?
16-445-070	What are the "standard pack" requirements for Italian prunes?

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-445-001	Promulgation. [Order 1262, § 16-445-001, filed 5/5/72.] Repealed by 05-10-093, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-445-005	Non-Italian type prunes. [Order 662, effective 7/8/53.] Repealed by Order 1262, filed 5/5/72.
16-445-010	U.S. No. 1 grade—Tolerances. [Order 662, effective 7/8/53.] Repealed by Order 1262, filed 5/5/72.
16-445-020	U.S. No. 2 grade—Tolerances. [Order 662, effective 7/8/53.] Repealed by Order 1262, filed 5/5/72.
16-445-030	U.S. combination grade—Tolerances. [Order 662, effective 7/8/53.] Repealed by Order 1262, filed 5/5/72.
16-445-050	Culls. [Order 1262, § 16-445-050, filed 5/5/72; Order 662, effective 7/8/53.] Repealed by 05-10-093, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-445-080	Definitions of terms. [Order 1262, § 16-445-080, filed 5/5/72; Order 662, effective 7/8/53.] Repealed by 05-10-093, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.
16-445-090	Effective date. [Order 1262, § 16-445-090, filed 5/5/72.] Repealed by 05-10-093, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapters 15.17 and 34.05 RCW.

WAC 16-445-015 What definitions are important to this chapter? The following definitions are important to this chapter and apply only to Italian prunes:

"Badly misshapen" means prunes so malformed or rough that they appear to be seriously damaged. Doubles that have approximately equal sized halves are not considered "badly misshapen."

"Culls" mean prunes that are immature, or seriously damaged by growth cracks, hail, insect pests, mechanical or other means.

"Department" means the Washington state department of agriculture.

(2007 Ed.)

"Diameter" means the greatest distance measured through the center of a prune at right angles to a line running from the stem to the blossom end.

"Fairly uniform size" means that the prunes in each packed container must not show a variation of more than one-fourth of an inch in diameter.

"Fairly well colored" means that at least three-fourths of the surface of a prune is purple color.

"Mature" means that a prune has reached the stage of maturity that will insure proper completion of the ripening process.

"Sunscauld" means an apparent softening or collapse of a prune's flesh that is caused by the sun.

"Well colored" means that except for the portion of allowed russetting, ninety-five percent of the surface of a prune is purple color.

"Well-formed" means that a prune has the shape characteristic of the variety. Doubles are not considered well-formed.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-015, filed 5/4/05, effective 6/4/05.]

WAC 16-445-025 What does "damage" and "serious damage" mean? The following table explains the differences between "damage" and "serious damage" as the terms apply to Italian prunes:

"Damage" means:	"Serious damage" means:
(1) Any injury or defect that materially affects the prune's appearance, or its edible or shipping quality.	(1) Any injury or defect that seriously affects the prune's appearance, or its edible or shipping quality.
Note: Internal growth cracks, cavities or gum spots are not considered damage.	
(2) Any one of the following defects or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, is "damage":	(2) Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, is "serious damage":
(a) Broken skins that are unhealed.	(a) Broken skins that are unhealed and more than one-eighth inch in diameter or depth.
Note: <ul style="list-style-type: none"> Broken skins caused by pulled stems where the skin is not torn beyond the stem basin are not damage. Broken skins that have healed are considered scars. 	Note: <ul style="list-style-type: none"> Broken skins caused by pulled stems where the skin is not torn beyond the stem basin are not serious damage. Broken skins that have healed are considered scars.
(b) Heat injury that is extensive or not light in color.	(b) Heat injury that causes any softening or dark discoloration of the flesh.

[Title 16 WAC—p. 473]

"Damage" means:	"Serious damage" means:
	Note: <ul style="list-style-type: none"> Heat injury may cause internal or external discoloration, and may or may not be serious. Heat injury should not be confused with sunscald, which causes softening or collapse of the tissue, and which is always classed as serious damage.
(c) External growth cracks, when: <ul style="list-style-type: none"> There are more than one on a prune; or One is deep; or One is not well healed; or One is more than 1/4 inch in length. 	(c) External growth cracks that are: <ul style="list-style-type: none"> Not well healed; or More than 3/16 inch in depth; or More than 1/2 inch in length.
(d) Sunburn that has: <ul style="list-style-type: none"> Materially changed the normal color of a prune; or Caused the skin to blister or crack. 	(d) Sunburn that causes: <ul style="list-style-type: none"> Decided flattening of a prune; or Blistering, cracking, or noticeable brownish discoloration of the skin.
(e) Split pit that: <ul style="list-style-type: none"> Causes a readily apparent crack at the stem end; or Affects a prune's shape so it is not well-formed. 	(e) Split pit that: <ul style="list-style-type: none"> Causes a crack at the stem end more than 3/16 inch in length, including any part that may be covered by the stem; or Affects the shape to the extent that the fruit is badly misshapen.
(f) Hail marks, or other similar depressions or scars that: <ul style="list-style-type: none"> Are not shallow or superficial; or Total more than 3/8 inch in diameter; or Break the skin. 	(f) Hail marks that: <ul style="list-style-type: none"> Are more than 3/16 inch deep; or Total more than 1/2 inch in diameter.
(g) Drought spots or external gum spots that are more than 1/4 inch in diameter.	(g) Drought spots or external gum spots that total more than 1/2 inch in diameter.
(h) Russetting that is: <ul style="list-style-type: none"> Not excessively rough but totals more than 1/10 of a prune's surface; or 	(h) Russetting that is: <ul style="list-style-type: none"> Not excessively rough but totals more than 1/3 of a prune's surface; or

"Damage" means:	"Serious damage" means:
<ul style="list-style-type: none"> Excessively rough and totals more than 1/4 inch in diameter. 	<ul style="list-style-type: none"> Excessively rough and totals more than 1/2 inch in diameter.
(i) Scars: <ul style="list-style-type: none"> Dark, rough or depressed scars totaling more than 1/4 inch in diameter. Fairly smooth, superficial scars that total more than 1/2 inch in diameter. An example is fairly light discoloration such as that caused by handling or packing or by prunes rubbing against each other while on the tree. Thorn and limb scratches that are not well healed, or that total more than 1/2 inch in length. 	(i) Scars that are: <ul style="list-style-type: none"> Very dark or excessively rough and total more than 1/2 inch in diameter; or More than 3/16 inches deep.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-025, filed 5/4/05, effective 6/4/05.]

WAC 16-445-040 What is a "Washington No. 1 grade" Italian prune? To be labeled "Washington No. 1 grade," Italian prunes must be:

- (1) Of one variety;
- (2) A purplish color over at least 2/3 of their surface;
- (3) Well-formed;
- (4) At least 1-1/4 inches in diameter unless otherwise specified;
- (5) Mature but not overripe, soft or shriveled;
- (6) Free from decay and sunscald; and
- (7) Free from damage caused by:
 - (a) Broken skins;
 - (b) Heat injury;
 - (c) Growth cracks;
 - (d) Sunburn;
 - (e) Split pits;
 - (f) Hail marks;
 - (g) Drought spots;
 - (h) Russetting;
 - (i) Scars; or
 - (j) Dirt, other foreign material, disease, insects or mechanical or other means.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-040, filed 5/4/05, effective 6/4/05. Statutory Authority: Chapter 15.17 RCW. 78-04-061 (Order 1549), § 16-445-040, filed 3/31/78; Order 1262, § 16-445-040, filed 5/5/72; Order 698, (1), effective 6/15/54; Order 662, effective 7/8/53.]

WAC 16-445-045 What tolerances apply to Italian prunes? The following tolerances apply to prunes in any container and are adopted to allow for variations that are incidental to proper grading and handling:

(1) Tolerances that apply at the shipping point:	(2) Tolerances that apply to the destination or en route to the destination:
(a) Other than color and size, no more than ten percent, by count, may fail to meet the grade requirements for defects.	(a) No more than eighteen percent, by count, may fail to meet grade requirements.
(b) No more than five percent, by count, may have serious damage defects.	(b) No more than ten percent, by count, may fail to meet grade requirements due to other permanent defects.
(c) No more than one percent, by count, may be decayed.	(c) No more than seven percent, by count, may have defects that cause serious damage, including no more than five percent for permanent defects and no more than two percent for decay.
(d) No more than ten percent, by count, may fail to meet the color requirements.	(d) No more than ten percent, by count, may fail to meet color requirements.
(e) No more than ten percent, by count, may fail to meet the size specifications.	(e) No more than ten percent, by count, may fail to meet minimum size requirements.
(f) The combined tolerance for all defects must not exceed fifteen percent by count.	

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-045, filed 5/4/05, effective 6/4/05.]

WAC 16-445-060 How does the department apply its Italian prune tolerances during an inspection? If the averages for an entire lot are within the specified tolerances, the following limitations apply to the contents of the individual containers in the lot. Based upon sample inspections, the individual containers in the lot:

- (1) May contain at least one defective and one under-sized prune.
- (2) Must have no more than one and one-half times the tolerance specified when a tolerance is ten percent or more.
- (3) Must have no more than double the tolerance specified when a tolerance is less than ten percent.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-060, filed 5/4/05, effective 6/4/05; Order 1262, § 16-445-060, filed 5/5/72; Order 662, effective 7/8/53.]

WAC 16-445-070 What are the "standard pack" requirements for Italian prunes? (1) A standard pack of Italian prunes must:

- (a) Contain prunes of fairly uniform size;
 - (b) Be tightly packed according to industry-approved methods; and
 - (c) Contain prunes in the top layer that are not noticeably superior in quality or size to those below the top layer.
- (2) In order to allow for variations incident to proper packing, no more than ten percent of the containers in any lot,

(2007 Ed.)

by count, may fail to meet the standard pack requirements of this section.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 05-10-093, § 16-445-070, filed 5/4/05, effective 6/4/05; Order 1262, § 16-445-070, filed 5/5/72; Order 662, effective 7/8/53.]

Chapter 16-450 WAC

CONTROLLED ATMOSPHERE STORAGE REQUIREMENTS FOR WASHINGTON FRUITS AND VEGETABLES

(Formerly chapters 16-449, 16-459 and 16-690 WAC)

WAC

16-450-005	What definitions are important to this chapter?
16-450-010	What are "controlled atmosphere fruits and vegetables"?
16-450-012	Where must the letters "CA" appear?
16-450-014	When must controlled atmosphere fruit enter commercial trade channels?
16-450-016	What is controlled atmosphere storage?
16-450-020	Is a license required to operate or lease a controlled atmosphere storage facility in Washington state?
16-450-022	How can I obtain a license to operate or lease a controlled atmosphere storage facility in Washington state?
16-450-024	When must I apply for a license to operate or lease a controlled atmosphere storage facility in Washington state?
16-450-026	Can I renew my license after August 31?
16-450-028	What requirements affect all licensed controlled atmosphere storage facility operators?
16-450-032	Violations of this chapter and/or chapter 15.30 RCW.
16-450-040	What requirements apply to controlled atmosphere storage facilities?
16-450-042	What are the specific controlled atmosphere storage requirements for Bartlett pears?
16-450-044	What are the specific controlled atmosphere requirements for winter pears?
16-450-046	When must controlled atmosphere fruits and vegetables be identified for certification?
16-450-048	What inspection, certification and marking requirements apply to controlled atmosphere fruits and vegetables?
16-450-050	When is a reinspection of controlled atmosphere fruit and vegetables required?
16-450-060	What are the shipping standards for controlled atmosphere storage fruits and vegetables?
16-450-070	What if my fruit does not comply with the requirements of this chapter?

WAC 16-450-005 What definitions are important to this chapter? "Department" means the Washington state department of agriculture (WSDA).

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Person" means an individual, firm, partnership, corporation, or association.

"CA number" means the license number assigned to a facility by the director.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-005, filed 2/18/04, effective 3/20/04.]

WAC 16-450-010 What are "controlled atmosphere fruits and vegetables"? "Controlled atmosphere fruits and vegetables" are fruits and vegetables that are:

- (1) Inspected by the director of the Washington state department of agriculture (WSDA) or the director's designee;
- (2) Stored in containers or subcontainers marked with a CA number and either a dated state lot number or a sequential state lot number; and
- (3) Identified by a certificate documenting:

- (a) Their quality and condition;
- (b) That they have been stored in a CA facility licensed according to the requirements of this chapter; and
- (c) That they comply with all of the requirements of this chapter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-010, filed 2/18/04, effective 3/20/04.]

WAC 16-450-012 Where must the letters "CA" appear? The letters "CA" or a similar designation must appear only on containers or subcontainers of fruits or vegetables that comply with the requirements of this chapter.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-012, filed 2/18/04, effective 3/20/04.]

WAC 16-450-014 When must controlled atmosphere fruit enter commercial trade channels? (1) Controlled atmosphere (CA) fruits or vegetables must enter commercial trade channels within two weeks following a CA inspection and certification.

(2) If the CA fruits and/or vegetables do not enter commercial channels within the two weeks following a CA inspection and certification, they must be reinspected to meet controlled atmosphere conditions and maturity requirements before they are shipped.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-014, filed 2/18/04, effective 3/20/04.]

WAC 16-450-016 What is controlled atmosphere storage? (1) Controlled atmosphere storage is an area of one or more rooms in a facility where atmospheric gases are controlled by amount and degrees of temperature.

(2) The purpose of a controlled atmosphere storage area is to control the condition and maturity of any fresh fruits or vegetables stored there so when those fruits and vegetables are removed from storage they can be designated as having been exposed to controlled atmosphere.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-016, filed 2/18/04, effective 3/20/04.]

WAC 16-450-020 Is a license required to operate or lease a controlled atmosphere storage facility in Washington state? (1) Before any person can operate or lease a controlled atmosphere storage facility, they must obtain a license from the department. These are annual licenses that expire each year on August 31.

(2) When the WSDA director issues a controlled atmosphere storage facility license, the licensee receives a facility number preceded by the letters "WN CA" or "WA CA."

(a) These letters and numbers are the "CA number" of the storage facility.

(b) This CA number verifies that the fruits or vegetables meet the requirements for controlled atmosphere storage.

(c) This CA number must appear on all containers, after they are certified, in which CA fruits or vegetables are packed.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-020, filed 2/18/04, effective 3/20/04.]

[Title 16 WAC—p. 476]

WAC 16-450-022 How can I obtain a license to operate or lease a controlled atmosphere storage facility in Washington state? (1) To apply for a license, you must complete and submit WSDA form 6074 (Application for a Controlled Atmosphere License) to the department.

(2) You can obtain this form (and any others required by this chapter) by *writing*:

WA State Department of Agriculture
Commodity Inspection Division
Fruit & Vegetable Inspection Program
P.O. Box 42560
Olympia, WA 98504;

Or *calling* 360-902-1828 or *faxing* 360-902-2085 or *on-line* at agr.wa.gov.

(3) Your application for an annual license to operate a controlled atmosphere storage warehouse or warehouses must be accompanied by an annual license fee of five dollars per room, with a minimum fee of twenty-five dollars for five rooms or less.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-022, filed 2/18/04, effective 3/20/04.]

WAC 16-450-024 When must I apply for a license to operate or lease a controlled atmosphere storage facility in Washington state? You must apply for your initial license before September 1 of any given year. Once issued, your license is valid for one year and must be renewed each year on or before August 31.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-024, filed 2/18/04, effective 3/20/04.]

WAC 16-450-026 Can I renew my license after August 31? (1) You can renew your license after August 31 but such a renewal is considered "late." Late renewals are regulated by RCW 15.30.070, which requires that you pay your original license fee plus a late renewal penalty of two dollars and fifty cents.

(2) You do not have to pay a late renewal penalty if you submit an affidavit to the department declaring that you have not operated or leased a controlled atmosphere storage facility since your previous license expired.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-026, filed 2/18/04, effective 3/20/04.]

WAC 16-450-028 What requirements affect all licensed controlled atmosphere storage facility operators? (1) Every licensed operator or lessee must submit to the manager of their local WSDA fruit and vegetable inspection district a signed, completed copy of WSDA form 6075A (Storage Closing and Inventory - Operator) or a form approved by the director whenever they close a CA room in one of their facilities. The completed form must contain the following information:

- (a) Location of the room;
- (b) Storage room number;
- (c) Date the room was sealed;
- (d) Quantity of loose fruit in the room identified by variety; and
- (e) Quantity of packed fruit in the room identified by variety.

(2) Every licensed operator or lessee must, at least once a day, record the following information on a form approved by the director:

(a) The percentage of carbon dioxide and oxygen inside the sealed storage area;

(b) The temperature inside the sealed storage area; and

(c) The time the percentages and temperature were measured.

(3) WSDA fruit and vegetable inspectors have the right to audit the forms required in this section. Upon completing an audit, the inspector must report their audit results on WSDA form 6076 (Audit of Daily Log) or a form approved by the director.

(4) All Standard and Red Delicious apple varieties must be stored in sealed controlled atmosphere storage on or before December 15 of each year to qualify and be identified as Washington controlled atmosphere storage apples.

(5) For auditing purposes, all licensed operators must notify their local WSDA inspection office before they open any controlled atmosphere storage rooms or before they pack any controlled atmosphere storage fruit.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-028, filed 2/18/04, effective 3/20/04.]

WAC 16-450-032 Violations of this chapter and/or chapter 15.30 RCW. Any willful violation of either chapter 15.30 RCW or this chapter by any controlled atmosphere operator or lessee is sufficient cause for the suspension of their license by the department.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-032, filed 2/18/04, effective 3/20/04.]

WAC 16-450-040 What requirements apply to controlled atmosphere storage facilities? All controlled atmosphere facilities must comply with the following controlled atmosphere requirements:

(1) The oxygen content of each storage room must be reduced to five percent within twenty calendar days after the room is sealed.

(2) Stored fruits or vegetables must be kept in controlled atmosphere storage under required degrees of temperature and percentage of air components for the specified period, including the following:

Apple Varieties:	Storage Period:
• Gala and Jonagold varieties	• At least forty-five continuous calendar days
• Other varieties	• At least sixty continuous calendar days
Pear Varieties:	Storage Period:
• Bartlett varieties	• At least forty-five continuous calendar days
• Other summer varieties	• At least sixty continuous calendar days
• Bosc variety	• At least forty-five continuous calendar days
• Other winter varieties	• At least sixty continuous calendar days

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-040, filed 2/18/04, effective 3/20/04.]

(2007 Ed.)

WAC 16-450-042 What are the specific controlled atmosphere storage requirements for Bartlett pears? To qualify as controlled atmosphere storage pears, Bartlett pears must comply with the requirements in chapter 15.30 RCW, this chapter and the following additional requirements:

(1) Oxygen content of each room where the pears are stored must be reduced to five percent within twenty calendar days after the room is sealed.

(2) The pears must be kept in controlled atmosphere storage, under the required degrees of temperature and percentage of air components, for at least forty-five continuous calendar days.

(3) At the time of shipment, the pears marked with a CA number must:

(a) Be no further advanced in maturity than "mostly hard—some firm."

(b) Not exceed an average of two percent decay and/or breakdown.

(4) Pears that fail to meet any requirement in this section:

(a) Must not be sold as CA storage fruit; and

(b) Their containers must not be marked with a CA number.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-042, filed 2/18/04, effective 3/20/04.]

WAC 16-450-044 What are the specific controlled atmosphere requirements for winter pears? To qualify as controlled atmosphere storage pears, winter pears must comply with the requirements in chapter 15.30 RCW, this chapter and the following additional requirements:

(1) Oxygen content of each room where the pears are stored must be reduced to five percent within twenty calendar days after the room is sealed.

(2) The pears must be kept in controlled atmosphere storage, under the required degrees of temperature and percentage of air components, for:

(a) At least forty-five continuous calendar days for Bosc pears; and

(b) At least sixty continuous calendar days for all other varieties of winter pears.

(3) All CA-marked winter pears must meet the following standards when shipped:

(a) **Condition standards:**

• No more than two percent decay;

• No more than two percent scald; and

• A five percent maximum aggregate for all condition factors including cork.

(b) **Maturity standards:**

• No more than five percent must be advanced beyond "firm."

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-044, filed 2/18/04, effective 3/20/04.]

WAC 16-450-046 When must controlled atmosphere fruits and vegetables be identified for certification? (1) All fruits and vegetables intended for controlled atmosphere storage certification must be identified before being placed in the controlled atmosphere storage room.

(2) Before the controlled atmosphere room is sealed, all packed fruit or vegetable containers intended for controlled atmosphere storage must be:

(a) Marked either with "WSDA and (year of production)" or with a department-supplied stamp; and

(b) Marked under the supervision of WSDA inspection personnel.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-046, filed 2/18/04, effective 3/20/04.]

WAC 16-450-048 What inspection, certification and marking requirements apply to controlled atmosphere fruits and vegetables? All Washington state fruits and vegetables sold as CA fruits or vegetables:

(1) Must be inspected and certified as to grade and condition; and

(2) At time of certification, all containers holding CA fruits and vegetables must be marked with both a dated state lot number and a CA number.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-048, filed 2/18/04, effective 3/20/04.]

WAC 16-450-050 When is a reinspection of controlled atmosphere fruit and vegetables required? (1) If CA fruits or vegetables are not shipped within two weeks after they are inspected and certified, they must be reinspected to meet controlled atmosphere and maturity requirements in order to qualify for an additional two-week shipping period.

(2) If identification of a reinspected lot:

(a) Can be accomplished without a problem, the reinspected containers do not have to be restamped with a current date state lot number.

(b) May be a problem, the reinspected containers must be restamped with a current date state lot number.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-050, filed 2/18/04, effective 3/20/04.]

WAC 16-450-060 What are the shipping standards for controlled atmosphere storage fruits and vegetables?

(1) When shipped, all controlled atmosphere fruits and vegetables must be certified and marked with a CA number and dated state lot stamp.

(2) Apples must meet U.S. condition standards for export.

(3) Pears must meet the maturity requirements of WAC 16-450-042 (3)(a) and (b) or 16-450-044 (3)(b).

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-060, filed 2/18/04, effective 3/20/04.]

WAC 16-450-070 What if my fruit does not comply with the requirements of this chapter? If your fruit does not comply with any of the requirements in this chapter, you are prohibited from:

(1) Selling your fruit as controlled atmosphere storage fruit; or

(2) Representing your fruit using terms, words or symbols that imply that it has been exposed to controlled atmosphere storage. For example, the words "controlled atmosphere" or the symbol "CA" must be removed from the container and/or subcontainer.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 04-05-117, § 16-450-070, filed 2/18/04, effective 3/20/04.]

INSPECTION REQUIREMENTS FOR FRUITS AND VEGETABLES

WAC

16-461-006

Definitions.

16-461-010

Inspection certificate and/or permit required.

16-461-015

Effective date.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-461-001

Promulgation. [Order 1098, Promulgation, § 16-461-001, filed 8/30/68, effective 9/30/68; Order 968, filed 3/26/65.] Superseded by WAC 16-461-002.

16-461-002

Promulgation. [Order 1122, filed 8/14/69, effective 9/14/69.] Superseded by WAC 16-461-003.

16-461-003

Promulgation. [Order 1122, filed 5/29/70, effective 7/1/70; Order 1122, filed 8/14/69, effective 9/14/69.] Superseded by WAC 16-461-004.

16-461-004

Promulgation. [Order 1122, filed 8/23/71; Order 1122, filed 5/29/70, effective 7/1/70; Order 1122, filed 8/14/69, effective 9/14/69.] Superseded by WAC 16-461-005.

16-461-005

Promulgation. [Order 1324, § 16-461-005, filed 8/3/73; Order 1122, § 16-461-005, filed 5/5/72, effective 6/5/72.] Repealed by 83-06-050 (Order 1788), filed 3/1/83. Statutory Authority: Chapter 15.17 RCW.

WAC 16-461-006 Definitions. (1) Commercial lot shall mean any number of any type of containers or any quantity in bulk of agricultural products listed in WAC 16-461-010, which are sold or bartered: Provided, That quantities of less than five hundred pounds net weight, when sold by any producer where grown by the producer and sold directly to the ultimate consumer, shall not be considered as a commercial lot.

(2) Fruit/produce stands, as used in this chapter, shall mean any facilities from which the predominance of the edible commodity sales to the public are of seasonal fresh fruits and/or vegetables produced within the state of Washington, and shall include roadside stands, farmer's markets, trucks or other conveyances from which sales of commodities are made, and temporary open air parking lot stands other than those owned or operated by retail grocery stores. Such facilities may or may not be owned, leased, or otherwise operated by the producer of fruits and/or vegetables.

(3) Zone of production shall be defined as one of two geographical areas: Zone 1: All counties west of the Cascade Mountain Range; Zone 2: The counties of Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Skamania, Spokane, Stevens, Walla Walla, Whitman, and Yakima.

[Statutory Authority: Chapter 15.17 RCW. 92-18-103, § 16-461-006, filed 9/2/92, effective 10/3/92; 92-06-085, § 16-461-006, filed 3/4/92, effective 4/4/92.]

WAC 16-461-010 Inspection certificate and/or permit required. (1) No person shall ship, transport, accept for shipment, or accept delivery of, any commercial lot of the following agricultural products without an inspection and the issuance of a certificate and/or a permit by the plant services division of the department of agriculture allowing such shipment, movement or delivery:

(a) Apricots - in closed or open containers for fresh market.

(b) Italian prunes - in closed or open containers for fresh market.

(c) Peaches - in closed or open containers for fresh market.

(d) Cherries - in closed or open containers for fresh market: Provided, That no permit shall be issued on cherries infested with live cherry fruit fly larvae.

(e) Apples - in closed or open containers for fresh market: Provided, That apples may be shipped or transported if accompanied by a certificate of compliance issued by the shipper or packer of apples having the approval of the director to issue the certificates of compliance.

Apples of the Red Delicious and Delicious varieties must be certified as to quality and condition and must meet all the requirements of chapter 16-403 WAC, Standards for Apples Marketed Within Washington. Apples of the Red Delicious and Delicious varieties not allowed to enter channels of commerce within twenty-one days following the original date of inspection as indicated by a state lot stamp, will require recertification for meeting the minimum firmness requirement as stated in WAC 16-403-142.

(f) Pears - in closed or open containers for fresh market: Provided, That pears may be shipped or transported if accompanied by a certificate of compliance issued by the shipper or packer of pears having the approval of the director to issue the certificates of compliance.

(g) Asparagus - in closed or open containers for fresh market: Provided, That asparagus may be shipped or transported if accompanied by certificates of compliance issued by the shipper or packer of the asparagus, having the approval of the director to issue the certificates of compliance.

(h) Apples in containers or bulk, for processing: Provided, That apples for processing may be shipped or transported if accompanied by a certificate of compliance issued by the shipper of apples having the approval of the director to issue the certificates of compliance: Provided further, That apples for processing entering intrastate commerce shall not require a permit.

(i) Pears in containers or bulk, for processing: Provided, That pears for processing may be shipped or transported if accompanied by a certificate of compliance issued by the shipper of pears having the approval of the director to issue the certificates of compliance: Provided further, That pears for processing entering intrastate commerce shall not require a permit.

(2) Exemptions - fruits and vegetables listed in WAC 16-461-010 shall be exempted from requirements for inspection and issuance of a certificate or permit:

(a) When the product is being transported from the premises where grown or produced to a horticultural facility other than wholesale or retail for the purpose of storing, grading, packing, packaging, labelling, or processing; prior to entering commercial channels for resale;

(b) When transportation is between horticultural facilities other than those facilities which sell at wholesale or retail level, for the purposes set forth in (a) of this subsection;

(c) When sold or transported to a fruit/produce stand within the zone of production, not to exceed daily quantities of two thousand pounds net weight of a single commodity nor six thousand pounds net weight of any combination of com-

modities other than cherries, listed in subsection (1) of this section, when on a single conveyance, provided that such exempt sales by the producer within a farmer's market shall not be restricted to the zone of production;

(d) When daily quantities do not exceed one hundred pounds net weight of dark or light sweet varieties of sweet cherries which are sold for home use and not for resale, and the containers are marked "not for resale" in letters at least one-half inch in height.

(3)(a) Any shipper or packer of apples, apricots, cherries, pears, peaches, prunes, or asparagus may petition the director for authority to issue certificates of compliance for each season. The director may issue certificate of compliance agreements, granting such authority, on such terms and conditions as he may deem appropriate. The authority shall be limited to the issuance of certificates of compliance for apples, apricots, cherries, pears, peaches, prunes, and asparagus under the applicant's direct control or being handled at the shipper's or packer's facilities.

(b) The certificate of compliance shall be issued at time of shipment by the shipper or packer authorized to do so: Provided, That the apples, pears, cherries, and asparagus about to be shipped or transported are in full compliance with the requirements of chapter 15.17 RCW, regulations adopted thereunder and administrative directives of the director: Provided further, That apricots, cherries, peaches, prunes, or pears about to be shipped or transported are in full compliance with an existing federal marketing order requiring quality and condition certification and Washington state lot identification or federal-state lot identification;

Cherries of the dark sweet varieties shall be certified as to quality, condition, and size and shall meet all of the requirements of chapter 16-414 WAC, Cherries. Cherries of the Rainier variety or other varieties of "light colored sweet cherries" shall meet only requirements of WAC 16-414-005 "mature" and WAC 16-414-011(3) size requirement.

(c) The director's approval to issue certificates of compliance may be suspended, revoked, or denied for cause, subject to RCW 34.05.422(3) and that cause shall be the shipper's or packer's failure to comply with the requirements of subsection (3)(b) of this section, or for the shipper's or packer's actions which impede the department's abilities to ascertain full compliance with requirements of chapter 15.17 RCW or rules adopted thereunder, or for violation of the terms of the certificate of compliance agreement. The period of any suspension shall be determined by the director and shall be commensurate with the seriousness of the violation.

(d) Any shipper or packer whose authority to issue certificates of compliance has been suspended, revoked, or denied by the director shall be subject to those provisions of chapter 15.17 RCW and the regulations requiring the issuance of a shipping permit by the director before apples, apricots, cherries, pears, peaches, prunes, and asparagus may be shipped or transported.

(e) Certificates of compliance shall be on forms approved and issued by the director of agriculture.

(f) Any shipper or packer authorized to issue certificates of compliance shall deposit with the director of agriculture at the regular base fee equivalent to that charged by the director for a shipping permit, for each certificate of compliance issued by the authorized shipper or packer. The base fees

shall be deposited with the director of agriculture in the same manner as fees for shipping permits.

[Statutory Authority: Chapters 15.17 and 34.05 RCW. 06-12-116, § 16-461-010, filed 6/7/06, effective 7/8/06. Statutory Authority: Chapter 15.17 RCW. 99-14-036, § 16-461-010, filed 6/29/99, effective 7/30/99; 95-13-038, § 16-461-010, filed 6/14/95, effective 7/15/95; 92-18-103, § 16-461-010, filed 9/2/92, effective 10/3/92; 92-06-085, § 16-461-010, filed 3/4/92, effective 4/4/92; 83-06-050 (Order 1788), § 16-461-010, filed 3/1/83; Order 1523, § 16-461-010, filed 4/20/77; Order 1324, § 16-461-010, filed 8/3/73; Order 1122, § 16-461-010, filed 5/5/72, effective 6/5/72; Order 1122, § 16-461-010, filed 8/23/71; Order 1122, § 16-461-010, filed 5/29/70, effective 7/1/70; Order 1122, § 16-461-010, filed 8/14/69, effective 9/14/69; Order 1098, § 16-461-010, filed 8/30/68, effective 9/30/68; Order 968, filed 3/26/65.]

WAC 16-461-015 Effective date. This order shall become effective on and after September 4, 1973.

[Order 1324, § 16-461-015, filed 8/3/73; Order 1122, § 16-461-015, filed 5/5/72, effective 6/5/72.]

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-462-001	Promulgation. [Order 1397, § 16-462-001, filed 4/7/75; Order 1193, § 16-462-001, filed 4/19/71; Order 1084, § 16-462-001, filed 4/2/68.] Repealed by 86-08-078 (Order 1883), filed 4/2/86. Statutory Authority: Chapter 15.14 RCW.
16-462-040	Grades and standards. [Order 1084, § 16-462-040, filed 4/2/68.] Repealed by Order 1193, filed 4/19/71.
16-462-045	Effective date. [Order 1397, § 16-462-045, filed 4/7/75; Order 1193, § 16-462-045, filed 4/19/71.] Repealed by 99-12-025, filed 5/25/99, effective 6/25/99. Statutory Authority: Chapter 15.14 RCW.
16-462-060	Certified grape nursery stock—Aseptic shoot tip propagation. [Statutory Authority: Chapter 15.14 RCW. 90-10-043, § 16-462-060, filed 4/27/90, effective 5/28/90.] Repealed by 99-12-025, filed 5/25/99, effective 6/25/99. Statutory Authority: Chapter 15.14 RCW.

WAC 16-462-010 Grape planting stock program—General. (1) Grapevines or parts of grape plants may be designated as registered stock or certified stock, if they and the stock from which they were produced have been inspected, indexed, and tested in accordance with procedures and requirements outlined in this chapter and found to be in compliance with all standards and requirements established in this chapter.

(2) The issuance of a state of Washington plant tag, stamp, or other document under this chapter means only that the tagged, stamped or otherwise documented planting stock has been subjected to standards and procedures described in this chapter and determined to be in compliance with its standards and requirements. The department disclaims all

expressed or implied warranties, including without limitation, implied warranties of merchantability and fitness for particular purpose, regarding all plants, plant parts, and plant materials under this chapter.

(3) The department is not responsible for disease, genetic disorders, off-type, failure of performance, mislabeling, or otherwise, in connection with this chapter. No grower, nursery dealer, government official, or other person is authorized to give any expressed or implied warranty, or to accept financial responsibility on behalf of the department regarding this chapter.

(4) Participation in the grape planting stock certification program is voluntary.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-010, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 99-12-025, § 16-462-010, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-010, filed 4/2/86; Order 1193, § 16-462-010, filed 4/19/71; Order 1084, § 16-462-010, filed 4/2/68.]

WAC 16-462-015 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise:

"Aseptic shoot tip propagation" means aseptically removing a vegetative shoot tip from growth arising from a dormant cutting from a foundation plant or from green growth (i.e., softwood) from a foundation plant during the growing season and aseptically transferring this shoot tip to a suitable vessel containing an appropriate culture medium.

"Certified grape planting stock" means vines, rooted cuttings, cuttings or grafted plants taken or propagated directly from foundation vines, registered vines or certified in compliance with the provisions of this chapter.

"Department" means the department of agriculture of the state of Washington.

"Director" means the director of the department of agriculture or the director's designee.

"Foundation block" means a planting of grapevines established, operated and maintained by Washington State University, or other equivalent sources approved in writing by the director, that are indexed and found free from viruses designated in this chapter and that are not off-type.

"Index" means determining whether a virus infection is present by means of inoculation from the plant to be tested to an indicator plant or by any other testing method approved by the department.

"Indicator plant" means any herbaceous or woody plant used to index or determine virus infection.

"Mother vine" means a grapevine used as a source for propagation material.

"Off-type" means appearing under visual examination to be different from the variety listed on the application for registration and certification, or exhibiting symptoms of a genetic or nontransmissible disorder.

"Registered block" means a planting of registered grapevines maintained by a nursery and used as a source of propagation material for certified grapevines.

"Registered vine" means any vine propagated from a foundation block approved by the director, identified to a single vine source, and registered with the Washington state department of agriculture, in compliance with provisions of this chapter.

"Virus-like" means a graft-transmissible disorder with symptoms resembling a characterized virus disease, including, but not limited to, disorders caused by viroids and phytoplasmas.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-015, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-015, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-015, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-015, filed 4/2/86; 78-10-072 (Order 1583), § 16-462-015, filed 9/27/78; Order 1397, § 16-462-015, filed 4/7/75; Order 1193, § 16-462-015, filed 4/19/71; Order 1084, § 16-462-015, filed 4/2/68.]

WAC 16-462-020 Requirements for participation in the grape planting stock program. (1) The applicant shall be responsible, subject to the approval of the department, for the selection of the location and the proper maintenance of registered blocks and planting stock.

(2) The applicant must maintain records identifying the foundation source of registered vines and certified planting stock. The applicant must make these records available to the department upon request.

(3) The applicant shall take suitable precautions in cultivation, irrigation, movement and use of equipment, and in other farming practices, to guard against spread of soil-borne pests to planting stock entered in this program. The applicant shall keep all registered blocks and certified planting stock clean cultivated except for approved cover crops.

(4) Following notification by the department the applicant shall remove and destroy immediately any registered vine or certified planting stock found to be off-type or affected by a virus or virus-like disease or a quarantine pest.

(5) Registered blocks and certified planting stock must be located at least one hundred feet from any land on which noncertified or nonregistered grapevines have been grown within the past ten years. This does not apply to registered and certified stock grown in a fully enclosed greenhouse, screenhouse or laboratory provided the facility does not contain noncertified grapevines.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-020, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-020, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-020, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-020, filed 4/2/86; 78-10-072 (Order 1583), § 16-462-020, filed 9/27/78; Order 1193, § 16-462-020, filed 4/19/71; Order 1084, § 16-462-020, filed 4/2/68.]

WAC 16-462-021 Requirements for registered blocks. (1) All registered grapevines must be identified by the number assigned to the single vine source in the foundation block from which they were taken.

(2) With the exception of practices allowed in subsections (3), (4), and (5) of this section, registered plants must be propagated directly from cuttings taken from a foundation block.

(3) Plants propagated from a foundation block by aseptic shoot tip propagation and grown entirely under laboratory or greenhouse conditions may serve as a source of softwood cuttings or shoot tip culture used to establish a registered block or registered grapevines.

(4) Registered grapevines may be propagated from other registered grapevines within the same registered block for the purpose of increasing the size of the registered block or for replacement grapevines.

(2007 Ed.)

(5) The department may permit participating nurseries to propagate registered grapevines from other registered grapevines for the purpose of establishing or increasing other registered blocks within the nursery under the following conditions:

(a) Mother vines were propagated directly from a foundation vine;

(b) Propagation is under environmentally controlled conditions to prevent the introduction of pests; and

(c) Mother vine is no more than two years old, or has been tested and found free of regulated viruses within the past two years.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-021, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-021, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-021, filed 5/25/99, effective 6/25/99.]

WAC 16-462-022 Requirements for certified planting stock. (1) Certified planting stock must be propagated from cuttings taken from registered or foundation grapevines.

(2) Cuttings from registered blocks must be sorted and kept separate by variety and selection number or clone.

(3) Treatment to control nematodes and other soil-borne pests may be required at any time by the department.

(4) All certified planting stock other than greenhouse grown plants must comply with the grades and standards for Washington certified grape planting stock as listed in WAC 16-462-055.

(5) Certification is based solely on compliance with the requirements prescribed in WAC 16-462-050 and other requirements of this chapter.

[Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-022, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-022, filed 5/25/99, effective 6/25/99.]

WAC 16-462-025 Foundation, registered, and certified grape planting stock—Inspections. (1) Inspections and indexing of registered grapevines and certified planting stock will be performed by the department at times determined to be suitable for the detection of virus and virus-like disease symptoms. Washington State University will inspect and index the foundation block.

(2) The department will index registered grapevines by methods listed in Appendix 1 of the North American Plant Protection Organization (NAPPO) Grapevine Standard.

(3) The department will conduct at least two inspections of registered grapevines during each growing season.

(4) The department will inspect certified planting stock at least three times per year, twice during the growing season and once during or after harvest.

(5) The department will refuse or withdraw registration or certification for any planting stock that is infested or infected with any regulated pest.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-025, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-025, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-025, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-025, filed 4/2/86; Order 1193, § 16-462-025, filed 4/19/71; Order 1084, § 16-462-025, filed 4/2/68.]

WAC 16-462-030 Certified grape planting stock—Application and fees. (1) The applicant shall furnish all

[Title 16 WAC—p. 481]

information requested on the application form and shall give consent to the department to take samples from any planting stock enrolled in the program as registered or certified grapevines for inspection or indexing.

(2) Application for registration and certification shall be filed with the department by January 1 of each year accompanied by a one hundred seventy-five dollar application fee.

(3) Inspection, phytosanitary certification, indexing and testing fees are due upon completion of services.

(4) Fees for inspection, phytosanitary certification, and testing shall be assessed at the appropriate rate established in chapters 16-401 and 16-470 WAC. Mileage for inspections and other on-site services shall be charged at a rate established by the state office of financial management.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-030, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-030, filed 5/20/02, effective 6/20/02; 00-01-149, § 16-462-030, filed 12/21/99, effective 1/21/00; 99-12-025, § 16-462-030, filed 5/25/99, effective 6/25/99; 93-17-022 (Order 5001), § 16-462-030, filed 8/11/93, effective 9/11/93; 86-08-078 (Order 1883), § 16-462-030, filed 4/2/86; 78-10-072 (Order 1583), § 16-462-030, filed 9/27/78; Order 1397, § 16-462-030, filed 4/7/75; Order 1193, § 16-462-030, filed 4/19/71; Order 1084, § 16-462-030, filed 4/2/68.]

WAC 16-462-035 Certified grape planting stock—Tagging and identity. (1) Certification tags issued by the department must be securely attached by the grower to each certified planting stock, including rooted cuttings, cuttings and grafted plants.

(2) Any person selling Washington certified grape planting stock is responsible for the identity of such planting stock. Persons issued tags authorized by this chapter must account by variety for stock produced and sold. They must keep and allow the department to inspect and copy records necessary to verify this.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-035, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 99-12-025, § 16-462-035, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-035, filed 4/2/86; Order 1193, § 16-462-035, filed 4/19/71; Order 1084, § 16-462-035, filed 4/2/68.]

WAC 16-462-050 Certified grape planting stock—Requirements. Certified plants must be free of grapevine fanleaf virus, grapevine leafroll-associated viruses, grapevine corky bark disease agent, grapevine rupestris stem pitting virus, arabis mosaic virus, tomato ringspot virus, grape phylloxera, and vine mealy bug. It must also be free of root knot nematode, crown gall and other visible diseases or serious pest injuries.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-050, filed 9/8/06, effective 10/9/06. WAC 16-462-055 Certified grape planting stock—Grades and standards. All field-grown certified stock offered for sale must be bundled in accordance with commercial practice and correctly identified by one or more legible printed labels.

(1) Grades for rooted cuttings are as follows:

(a) Grade No. 1 must have one live cane at least nine inches long and must be well rooted.

(b) Grade No. 2 must have one live cane at least six inches long and must be well rooted.

(2) Cuttings must have at least three buds and be at least nine inches long. The basal bud must be within one-half inch of the basal end.

(3) Two-year plants shall meet the same standard as rooted cutting Grade No. 1.

(4) In order to allow for variations incident to proper grading and packing, not more than a combined total of five percent by count, of the plants or cuttings in any lot may fail to meet the requirements of the grades set forth in this section.

[Statutory Authority: Chapters 15.14 and 34.05 RCW. 06-19-009, § 16-462-055, filed 9/8/06, effective 10/9/06. Statutory Authority: Chapter 15.14 RCW. 02-11-100, § 16-462-055, filed 5/20/02, effective 6/20/02; 99-12-025, § 16-462-055, filed 5/25/99, effective 6/25/99; 86-08-078 (Order 1883), § 16-462-055, filed 4/2/86.]

Chapter 16-463 WAC

PROHIBITING THE SALE AND/OR MOVEMENT OF INFESTED CHERRIES

WAC

16-463-001
16-463-010

Promulgation.
Conditions for shipment, transfer and sale of cherries.

WAC 16-463-001 Promulgation. I, Donald W. Moos, director of agriculture of the state of Washington, by virtue of the authority vested in me under chapters 15.17 and 15.08 RCW after due notice and public hearing held in Yakima, Washington on June 27, 1968, pursuant to chapters 42.32 and 34.04 RCW do hereby adopt the following rules*.

[Order 1099, § 16-463-001, filed 8/30/68, effective 9/30/68.]

***Reviser's Note:** WAC 16-463-001 applies to WAC 16-463-010 only.

WAC 16-463-010 Conditions for shipment, transfer and sale of cherries. No person shall ship or transfer from the area of production, or within the area of production, or offer for sale for human consumption, any cherries that are infested with live cherry fruit fly larvae.

[Order 1099, § 16-463-010, filed 8/30/68, effective 9/30/68.]

Chapter 16-465 WAC

RULES AND REGULATIONS FOR THE OFFICIAL DETERMINATION OF BACTERIAL RING ROT IN SEED POTATOES

WAC

16-465-010
16-465-020
16-465-030
16-465-040
16-465-050

Sampling procedures for seed potatoes produced in Washington.
Sampling procedure for potato planting stock for seed or commercial production.
Handling and shipment of official samples.
Official reporting and diagnosis.
Disposition.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-465-001 Promulgation. [Order 1138, § 16-465-001, filed 2/2/70.] Repealed by 03-05-079, filed 2/19/03, effective 3/22/03. Statutory Authority: Chapters 15.08, 17.24, 15.14, 15.17, and 34.05 RCW.
16-465-060 Effective date. [Order 1138, § 16-465-060, filed 2/2/70.] Repealed by 03-05-079, filed 2/19/03, effective 3/22/03.

Statutory Authority: Chapters 15.08, 17.24, 15.14, 15.17, and 34.05 RCW.

WAC 16-465-010 Sampling procedures for seed potatoes produced in Washington. (1) Official sample must be taken by authorized Washington state department of agriculture personnel.

(2) Samples may consist of stems, roots and/or tubers.

(3) Samples may be taken from a field lot, bin or other container.

(4) Samples may be taken any time during field inspection, harvesting or shipping.

[Order 1138, § 16-465-010, filed 2/2/70.]

WAC 16-465-020 Sampling procedure for potato planting stock for seed or commercial production. (1) Upon request, official samples will be taken by authorized Washington state department of agriculture personnel.

(2) Lot from which sample has been requested must be held until official diagnosis is made. Disposition will be in accordance with diagnosis result.

(3) Samples must be selected from containers with positive identification.

[Order 1138, § 16-465-020, filed 2/2/70.]

WAC 16-465-030 Handling and shipment of official samples. (1) A sample shall consist of a minimum of three to five tubers and/or affected stems or root systems.

(2) Lower stems and root systems shall be placed in a dry plastic bag for transportation.

(3) Affected tubers shall be wrapped in dry newspapers and placed in a box.

(4) Official sample and reporting form delivered to the state plant pathologist for diagnosis will be in a container sealed with a Washington state department of agriculture seal.

(5) Keep sample cool and deliver promptly to the state plant pathologist designated by the Washington state department of agriculture.

[Order 1138, § 16-465-030, filed 2/2/70.]

WAC 16-465-040 Official reporting and diagnosis. (1) The official diagnosis shall be recorded on a form designated by the Washington state department of agriculture.

(2) This completed form with the results attested to by the designated state plant pathologist will be the official determination of the state of Washington.

[Order 1138, § 16-465-040, filed 2/2/70.]

WAC 16-465-050 Disposition. (1) Lots of potato planting stock officially determined to be infected with bacterial ring rot shall not be used for propagation purposes and will be disposed of in the following manners.

(a) Processing plant.

(b) Fresh consumption.

(c) Diverted outside of state of Washington at growers expense and discretion, if not grown in state of Washington.

(d) Disposition by burning.

[Order 1138, § 16-465-050, filed 2/2/70.]

(2007 Ed.)

- 16-470-810 Prohibiting possession, transportation or distribution of living beetles of the genus Anoplophora. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-810, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-820 What is the area under quarantine for citrus longhorned beetle? [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-820, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-830 Prohibition on moving living plants from the area under quarantine for citrus longhorned beetle. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-830, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-840 Prohibition on moving wood and prunings from the area under quarantine for citrus longhorned beetle. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-840, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-850 Exemption for articles in transit. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-850, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-860 Disposal of articles regulated under longhorned beetle quarantine. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-860, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-870 Special permits—Longhorned beetle. [Statutory Authority: Chapter 17.24 RCW. 02-09-099, § 16-470-870, filed 4/17/02, effective 5/18/02.] Repealed by 06-24-125, filed 12/6/06, effective 1/6/07. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-910 Schedule of fees and charges—Applicable fees and charges—Effective June 30, 1999. [Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-910, filed 5/26/99, effective 6/26/99; 92-07-023, § 16-470-910, filed 3/10/92, effective 4/10/92.] Repealed by 99-21-049, filed 10/18/99, effective 11/18/99. Statutory Authority: Chapter 17.24 RCW.
- 16-470-911 Schedule of fees and charges—Applicable fees and charges—Effective June 30, 2001. [Statutory Authority: Chapters 17.24 and 15.14 RCW. 01-11-033, § 16-470-911, filed 5/8/01, effective 6/8/01. Statutory Authority: Chapter 17.24 RCW. 99-22-076, § 16-470-911, filed

- 11/2/99, effective 12/3/99; 99-12-035, § 16-470-911, filed 5/26/99, effective 6/26/99.] Repealed by 03-10-082, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-915 Schedule of fees and charges—Fees for post entry inspection services—Effective June 30, 1999. [Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-915, filed 5/26/99, effective 6/26/99; 92-07-023, § 16-470-915, filed 3/10/92, effective 4/10/92.] Repealed by 99-21-049, filed 10/18/99, effective 11/18/99. Statutory Authority: Chapter 17.24 RCW.
- 16-470-916 Schedule of fees and charges—Fees for post entry inspection services—Effective June 30, 2001. [Statutory Authority: Chapters 17.24 and 15.14 RCW. 01-11-033, § 16-470-916, filed 5/8/01, effective 6/8/01. Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-916, filed 5/26/99, effective 6/26/99.] Repealed by 03-10-082, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapters 17.24 and 34.05 RCW.
- 16-470-920 Schedule of fees and charges—Miscellaneous fees—Effective June 30, 1999. [Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-920, filed 5/26/99, effective 6/26/99; 92-07-023, § 16-470-920, filed 3/10/92, effective 4/10/92.] Repealed by 99-21-049, filed 10/18/99, effective 11/18/99. Statutory Authority: Chapter 17.24 RCW.

WAC 16-470-010 Definitions. The definitions set forth in this section shall apply throughout this chapter, unless the context otherwise requires:

(1) "Director" means the director of agriculture of this state, or a duly authorized representative.

(2) "Department" means the Washington state department of agriculture.

(3) "Interior quarantine" means a quarantine within the state of Washington established against the movement of designated plant pests, life stages, their hosts, and possible carriers from areas identified by the Washington state department of agriculture.

(4) "Exterior quarantine" means a quarantine established against the movement into Washington state of designated plant pests, life stages, their hosts, and possible carriers from areas identified by the Washington state department of agriculture.

(5) "Commercial orchard" means an orchard in which fruit is grown for commercial purposes and with the use of approved and accepted integrated pest management programs pursuant to statutes, guidelines or rules approved by the agricultural extension service or regulatory officials of the state of origin.

(6) "Commercial fruit" means fruit that is:

(a) Grown in a commercial orchard and commercially packed and labeled;

(b) Fruit grown in a commercial orchard and destined to a commercial processing plant or packing plant.

(7) "Phytosanitary certificate" means a certificate issued by a government agency under authority of state or federal statute, which declares or establishes the pest status of a shipment of plants or plant parts under accepted inspection or sampling procedures. Phytosanitary certificates are patterned after model certificates of the International Pest Protection Convention.

(8) "Pest free area" means an officially identified area in which a target pest is not established and which is maintained in such a manner as to prevent establishment of the target pest.

(9) "Plant protection organization" means an agency established by a government to discharge functions such as

(2007 Ed.)

inspection of plants and plant products for pests, issuing phytosanitary certificates, and other actions specified in this rule.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-010, filed 7/3/01, effective 8/3/01; 00-23-098, § 16-470-010, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapters 15.60 and 17.24 RCW. 88-16-016 (Order 1978), § 16-470-010, filed 7/25/88. Statutory Authority: Chapter 17.24 RCW. 86-07-020 (Order 1881), § 16-470-010, filed 3/12/86; 85-15-006 (Order 1861), § 16-470-010, filed 7/8/85; 84-10-039 (Order 1822), § 16-470-010, filed 5/1/84, effective 7/1/84.]

WAC 16-470-020 Quarantine—Gypsy moth—Area under order.

(1) Interior quarantine. Real and personal properties within Washington state and adjacent properties where the department has identified multiple gypsy moth life stages and where occupants and/or owners of those properties have been notified by the department of the gypsy moth infestation and to the effect that the subject property is under quarantine pursuant to chapter 16-470 WAC rules and requirements.

(2) Exterior quarantine. All areas of the United States and Canada that are declared high risk by the United States Department of Agriculture, animal, plant, health inspection service, plant protection and quarantine.

(3) The following definition shall apply to WAC 16-470-020 through 16-470-060: "Gypsy moth (*Lymantria dispar*)" means a lepidopterous insect of the family Lymandriidae which in the larval stage defoliates many species of trees and shrubs.

[Statutory Authority: Chapter 17.24 RCW. 86-07-020 (Order 1881), § 16-470-020, filed 3/12/86; 84-10-039 (Order 1822), § 16-470-020, filed 5/1/84, effective 7/1/84.]

WAC 16-470-030 Quarantine/gypsy moth hosts and carriers. The following articles and commodities are placed under quarantine when located within or originating from an area as described in WAC 16-470-020:

(1) Trees, shrubs with persistent woody stems, Christmas trees and parts of such trees and shrubs (except seeds, fruits and cones).

(2) Timber and building materials, including but not limited to such items as lumber, planks, poles, logs, firewood, pulpwood, fencing and building blocks.

(3) Mobile homes, recreational vehicles, trailers, boats, camping gear, and associated equipment.

(4) Outdoor household articles including but not limited to such items as furniture, toys, garden tools, garden machinery, animal houses.

(5) Any other items or means of conveyance not covered above when that item or conveyance presents a hazard of the spread of any life stage of gypsy moth.

[Statutory Authority: Chapter 17.24 RCW. 84-10-039 (Order 1822), § 16-470-030, filed 5/1/84, effective 7/1/84.]

WAC 16-470-040 Gypsy moth quarantine restrictions—Interior. Items under quarantine are prohibited movement from the area under quarantine except as follows:

(1) Any item under quarantine may be inspected and certified for movement by a department inspector if, in the inspector's judgment, it is free of all stages of gypsy moth. Any item that in the judgment of the department inspector is too large or for other reasons cannot be adequately inspected for all stages of gypsy moth will not be certified except as indicated in WAC 16-470-040 (3) and (4).

(2) Garden prunings from trees and shrubs may be moved under Washington state department of agriculture permit to the city or county dumps where such material is to be buried, incinerated, composted, or otherwise treated or handled in a manner that is approved by a department inspector and does not pose a hazard to the spread of gypsy moth life stages. A department permit is not necessary for such material picked up by city or county vehicles or trucking companies under contract to haul such material to county approved facilities for disposal.

(3) Any item which cannot be adequately inspected as stated in WAC 16-470-040(1) may be moved from the quarantine area if cleaned or treated as prescribed by the director and in a manner satisfactory to the department inspector. Such items cleaned or treated shall be certified by a department inspector before movement from the quarantine area.

(4) Department inspectors may also certify items for movement when in their judgment the item has not been exposed to infestation, or has not been exposed to infestation after being properly inspected, cleaned or treated.

(5) Expense of cleaning or treatment of articles or commodities for gypsy moth shall be the responsibility of the person in possession of the articles or commodities, or the consignee in case of commercial shipment by common carriers of household goods.

[Statutory Authority: Chapter 17.24 RCW. 84-10-039 (Order 1822), § 16-470-040, filed 5/1/84, effective 7/1/84.]

WAC 16-470-050 Gypsy moth quarantine restrictions—Exterior. Quarantined articles and commodities are prohibited entry into Washington state except as follows:

(1) Articles and commodities covered originating in the area under quarantine may enter this state: Provided, That the articles or commodities are accompanied by a certificate issued by an authorized agricultural official in the state or province of origin which contains the following information:

(a) The designation of the articles and commodities.

(b) The county and state or province of origin.

(c) A statement verifying that all the articles and commodities were inspected for all stages of gypsy moth, and:

(i) They originated in noninfested premises in the area under quarantine and have not been exposed to gypsy moth while in the area under quarantine; or

(ii) Upon inspection, they were found to be free of any stage of gypsy moth; or

(iii) They were treated at origin under the direction of an agricultural official to destroy any stage of gypsy moth; the method of treatment used and the date of the treatment shall also be stated; or

(iv) They were grown, produced, manufactured, stored or handled in such a manner that no stage of gypsy moth would be transmitted on them.

(d) The original or facsimile signature of the authorized agricultural official.

(2) The certificate required under WAC 16-470-050(1) may be issued by a private enterprise: Provided, That the enterprise has been approved by the director, or by the United States Department of Agriculture, animal and plant health inspection service, plant protection and quarantine as having employees who have successfully completed a training program approved by the director or the United States Department

of Agriculture, conducted by private organizations or state government officials, in the inspection for and treatment of gypsy moth; and the inspection and any treatment was performed, and the certificate issued by, one of those employees.

(3) Any certificate issued by a private enterprise shall contain the information required in WAC 16-470-050(1): Provided, That the statement relating to treatment at origin in WAC 16-470-050 (1)(c) shall verify that the articles and commodities were treated at origin by an employee who has successfully completed an approved training program in the inspection for and treatment of gypsy moth; and the signature required in WAC 16-470-050 (1)(d), shall be that of the employee issuing the certificate.

(4) The certificate required in WAC 16-470-050(1) shall be securely attached to the outside of the container containing the articles or commodities, or securely attached to the article or commodity itself if not in a container, or securely attached to the consignee's copy of the weighbill or other shipping document.

(5) Any article or commodity covered in WAC 16-470-030 which originated in the area under quarantine and is not accompanied by the certificate required may:

(a) Enter Washington, if, in the determination of the department, the article or commodity is:

(i) Cleaned or treated to destroy gypsy moth at the point of entry; or

(ii) Cleaned or treated to destroy gypsy moth in the county of destination, under the supervision of the department, prior to release of the article or commodity. Any shipment containing articles or commodities to be cleaned or treated in the county of destination shall be sealed at point of entry or origin and held under quarantine in that county until the treatment or cleaning is to occur.

(b) Be refused entry in Washington, if, in the opinion of the department inspector that:

(i) Cleaning or treatment to destroy gypsy moth at the point of entry would interfere with the movement of interstate commerce; and/or

(ii) Cleaning or treatment to destroy gypsy moth in the county of destination presents a high risk of dissemination of gypsy moth during transit or it is not possible to effectively clean or treat due to lack of facilities and/or needed equipment or lack of personnel in that county.

(c) Expense of cleaning or treatment of articles and commodities for gypsy moth at point of arrival in Washington state, or in the county of destination shall be the responsibility of the person in possession of the articles and commodities or the consignee in the case of commercial shipment by common carrier of household goods.

(6) No certificate is required for movement into Washington of articles and commodities covered in WAC 16-470-030 that originated outside an area under quarantine when the point of origin is clearly indicated, their identity has been maintained and they have been safeguarded against infestation by gypsy moth while in the area under quarantine.

[Statutory Authority: Chapter 17.24 RCW. 84-10-039 (Order 1822), § 16-470-050, filed 5/1/84, effective 7/1/84.]

WAC 16-470-060 Special permits. The director may issue special permits admitting articles or commodities covered in WAC 16-470-030 not otherwise eligible for entry

from the area under quarantine, subject to such conditions and provisions deemed necessary for protection of Washington agriculture.

[Statutory Authority: Chapter 17.24 RCW. 84-10-039 (Order 1822), § 16-470-060, filed 5/1/84, effective 7/1/84.]

WAC 16-470-101 Establishing quarantine for apple maggot and plum curculio. Apple maggot (*Rhagoletis pomonella*) and plum curculio (*Conotrachelus nenuphar*) are insects with a larval (worm) stage that develops within fruit. These insects are capable of attacking many fruit crops grown in Washington. Apple maggot is not established in significant portions of the major fruit production areas east of the Cascade Mountains, and plum curculio is not established anywhere in the state. An increased range for either insect would cause decreased environmental quality and economic loss to the agricultural industries of the state by increasing production inputs and jeopardizing foreign and domestic markets. The director of agriculture, pursuant to chapter 17.24 RCW, has determined that the regulation and/or exclusion of fresh fruits grown or originating from areas infested with apple maggot or plum curculio is necessary to protect the environmental quality and agricultural crops of the state.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-14-004, § 16-470-101, filed 6/22/06, effective 8/1/06. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-101, filed 7/3/01, effective 8/3/01.]

WAC 16-470-103 Definitions. The following definitions shall apply to WAC 16-470-101 through 16-470-130:

(1) "Established" means present in a country, state, county or other area, multiplying and expected to continue.

(2) "Threatened with infestation" means that any life stage of apple maggot or plum curculio has been found within one-half mile of an orchard or other production site, including any portion of an orchard outside or beyond the one-half mile area. Orchards or production sites in a quarantined area, which are not surveyed by a plant protection organization, are considered to be threatened with infestation. An orchard or other production site will be removed from threatened with infestation status, if control measures are performed at the detection site, and survey by the department shows no further detection(s) within the one-half mile area around the orchard or other production site throughout the subsequent full growing season.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 05-09-005, § 16-470-103, filed 4/7/05, effective 8/15/05. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-103, filed 7/3/01, effective 8/3/01.]

WAC 16-470-105 Area under order for apple maggot—Pest free area—Quarantine areas. (1) A pest free area for apple maggot is declared for the following portions of Washington state:

(a) Counties of Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Lincoln, Okanogan, Pend Oreille, Stevens, Walla Walla, and Whitman.

(b) The portion of Kittitas County designated as follows: Beginning at the point where Interstate Highway No. 90 crosses longitude 120°31' W; thence southerly to the Kittitas - Yakima County line; thence easterly along the county line to the Columbia River; thence northerly along the Columbia

(2007 Ed.)

River to Interstate Highway No. 90; thence westerly along Interstate Highway No. 90 to the point of beginning.

(c) Yakima County, except for the area designated in subsection (2)(c) of this section.

(2) A quarantine for apple maggot is declared for the following portions of Washington state:

(a) Counties of Clallam, Clark, Cowlitz, Grays Harbor, Island, Jefferson, King, Kitsap, Klickitat, Lewis, Mason, Pacific, Pierce, Snohomish, Spokane, Skagit, Skamania, Thurston, Wahkiakum, and Whatcom.

(b) Kittitas County, except for the area designated in subsection (1)(b) of this section.

(c) The portion of Yakima County designated as follows: Beginning at the northeastern corner of Yakima County on the west bank of the Columbia River; thence southerly along the Columbia River to the Yakima-Benton County line; thence southerly along the county line to latitude N46°30'; thence west to longitude W120°20'; thence north to latitude N46°30.48'; thence west to longitude W120°25'; thence north to latitude N46°31.47'; thence west to longitude W120°28'; thence north to latitude N46°32'; thence west to longitude W120°36'; thence south to latitude N46°30'; thence west to longitude W120°48'; thence southerly to the Klickitat-Yakima County line; thence westerly along the county line to the Yakima-Skamania County line; thence northerly along the county line to the Lewis-Yakima County line; thence easterly and northerly along the county line to the Pierce-Yakima County line; thence northerly and easterly along the county line to the Kittitas-Yakima County line; thence easterly and southerly along the county line to the west bank of the Columbia River and the point of beginning.

(3) A quarantine for apple maggot is declared for all states or foreign countries where apple maggot is established. The area under quarantine includes, but is not limited to, the states of Idaho, Oregon, Utah, and California, and, in the eastern United States, all states and districts east of and including North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, and any other areas where apple maggot is established.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-14-004, § 16-470-105, filed 6/22/06, effective 8/1/06; 05-09-005, § 16-470-105, filed 4/7/05, effective 8/15/05; 04-09-027, § 16-470-105, filed 4/13/04, effective 8/16/04. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-105, filed 7/3/01, effective 8/3/01.]

WAC 16-470-108 Distribution of infested or damaged fruit is prohibited. Regulated commodities described in WAC 16-470-111 and 16-470-125(2) that are known or found to be infested or damaged by apple maggot or plum curculio may not be distributed, sold, held for sale, or offered for sale, unless the fruit has undergone cold storage treatment, in compliance with WAC 16-470-113 (1)(a) and (b) or 16-470-127 (1)(a) and (b), and the necessary certificate has been issued by the appropriate plant protection organization.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-108, filed 7/3/01, effective 8/3/01.]

WAC 16-470-111 What commodities are regulated for apple maggot? All fresh fruit of apple (including crab apple), cherry (except cherries that are commercial fruit),

hawthorn (haw), pear (except pears that are commercial fruit from California, Idaho, Oregon, Utah, and Washington), plum, prune, and quince are regulated under quarantine for apple maggot.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-14-004, § 16-470-111, filed 6/22/06, effective 8/1/06. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-111, filed 7/3/01, effective 8/3/01.]

WAC 16-470-113 What do you need to ship commodities regulated for apple maggot from a state under quarantine into the pest free area for apple maggot? Shipment of regulated commodities, as described in WAC 16-470-111, from an area under quarantine, as described in WAC 16-470-105(3), into the pest free area for apple maggot, as described in WAC 16-470-105(1), is prohibited, unless at least one of the following conditions is met:

(1) The shipment is accompanied by an official certificate issued by the plant protection organization of the state of origin evidencing at least one of the following:

(a) The shipment is composed of apples, which have undergone cold treatment for a continuous period of at least ninety days. During this ninety days, the temperature within the storage room must be maintained at thirty-seven and nine-tenths (37.9) degrees Fahrenheit or less.

(b) The shipment is composed of regulated commodities, which have undergone cold treatment for a continuous period of forty days or more. During this forty days, the temperature within the storage room must be maintained at thirty-two (32) degrees Fahrenheit or less.

(c) The shipment is composed of regulated commodities from Oregon, Idaho, or Utah, certified by the state of origin in compliance with WAC 16-470-122.

(d) Each lot or shipment consists of repacked fruit, which was grown outside the area under quarantine and has been identity maintained while within the area under quarantine. For repacked fruit, the certificate must show the following information:

(i) State in which the fruit was grown;
(ii) Point of repacking and reshipment;
(iii) Amount and kind of commodities comprising the lot or shipment; and

(iv) Names and addresses of the shipper and consignee.

(2) The fruit originated outside the area under quarantine for apple maggot and is a reshipment in original, unopened containers. The containers must each bear labels or other identifying marks evidencing origin outside the area under quarantine.

(3) The fruit is frozen solid.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-113, filed 7/3/01, effective 8/3/01.]

WAC 16-470-115 Within Washington state, what is required to ship fruit into the pest free area for apple maggot from quarantined areas? Shipment of regulated commodities, as described in WAC 16-470-111, from an area under quarantine, as described in WAC 16-470-105(2), into the pest free area for apple maggot, as described in WAC 16-470-105(1), is prohibited, unless one of the following conditions is met:

(1) The shipment is accompanied by a permit for movement of fruit issued by the department verifying one of the following:

(a) The fruit came from orchards and production sites that are not threatened with infestation; or

(b) The fruit has completed treatment as specified in WAC 16-470-118(3). If records of treatment verifying compliance with conditions specified in WAC 16-470-118(3) are made available to the department, no reinspection is required by the department.

(2) The shipment is accompanied by a permit issued by the department in fulfillment of WAC 16-470-118 (2) and (3), which specifies conditions for shipment from orchards and production sites that are infested or threatened with infestation.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-14-004, § 16-470-115, filed 6/22/06, effective 8/1/06. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-115, filed 7/3/01, effective 8/3/01.]

WAC 16-470-118 Within Washington state, what is required to ship fruit into, within, or through the pest free area for apple maggot from an orchard or production site that is infested or threatened with infestation? All regulated commodities, as described in WAC 16-470-111, from an orchard or production site that is infested or threatened with infestation by apple maggot must be inspected (except graded culls - see subsection (4) of this section) by the department following accepted agency standards.

(1) If regulated commodities are inspected and found free of apple maggot, the shipment must be accompanied by a permit for movement of fruit issued by the department.

(2) If regulated commodities are found to be infested with apple maggot, a permit from the department, which specifies conditions for handling and shipment, is required to transport the fruit within or through the pest free area. No permit may be issued under this subsection for transportation of regulated commodities found to be infested with apple maggot into the pest free area for apple maggot.

(3) If regulated commodities are found to be infested with apple maggot, one or more of the following treatments must be performed and verified by the department as specified in WAC 16-470-115 (1)(b) before the commodity is moved from area(s) designated or quarantined by the department:

(a) Apples (including crab apples) cold treated as specified in WAC 16-470-113 (1)(a).

(b) Regulated commodities cold treated as specified in WAC 16-470-113 (1)(b).

(c) Other methods as prescribed in writing by the department.

(4) If the shipment contains graded culls, it must comply with the conditions specified in WAC 16-470-113 (1)(a) and (b).

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-14-004, § 16-470-118, filed 6/22/06, effective 8/1/06. Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-118, filed 7/3/01, effective 8/3/01.]

WAC 16-470-122 What are the requirements to ship regulated articles from Oregon, Idaho, or Utah into the pest free area for apple maggot? Commercially grown fresh fruit from Oregon, Idaho, or Utah may be shipped into

the pest free area for apple maggot if both of the subsections of this section are complied with:

(1) A permit has been agreed to by the plant protection organization of the state of origin and the department. The permits must specify that the plant protection organization of the state of origin has conducted an adequate apple maggot detection program, which includes immediate written notification to the department of detections in counties where apple maggot has not previously been detected.

(2) The plant protection organization of the state of origin certifies that the fruit originated in areas in which apple maggot is not established, was grown in a commercial orchard, and has not been placed under quarantine.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-122, filed 7/3/01, effective 8/3/01.]

WAC 16-470-125 Area under quarantine for plum curculio—Regulated commodities. (1) A quarantine for plum curculio is declared for any commodity named in subsection (2) of this section entering the state of Washington from any area where plum curculio is established. The area under quarantine includes, but is not limited to, the entire state of Utah, and, in the eastern United States, all states and districts east of and including the states of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, and any other areas where plum curculio is established.

(2) The following commodities are regulated under this quarantine as possible hosts or carriers of plum curculio: All fresh fruit of apple (including crab apple), apricot, blueberry, cherry, currant, grape, hawthorn (haw), huckleberry, nectarine, peach, pear, persimmon, plum, prune, and quince.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-125, filed 7/3/01, effective 8/3/01.]

WAC 16-470-127 What do you need to ship commodities regulated for plum curculio into Washington? Shipment into the state of Washington of regulated commodities described in WAC 16-470-125 from states under quarantine for plum curculio is prohibited, unless one of the following conditions is met:

(1) The shipment is accompanied by an official certificate issued by the plant protection organization of the state of origin evidencing at least one of the following:

(a) The shipment consists of apples, which have undergone cold treatment for a continuous period of at least ninety days. During this ninety days, the temperature within the storage room must be maintained at thirty-seven and nine-tenths (37.9) degrees Fahrenheit or less.

(b) The shipment consists of regulated commodities, which have undergone cold treatment for a continuous period of forty days or more. During this forty days, the temperature within the storage room must be maintained at thirty-two (32) degrees Fahrenheit or less.

(c) Each lot or shipment consists of repacked fruit, which was grown outside the area under quarantine and has been identity maintained while within the area under quarantine. For repacked fruit, the certificate must show the following information:

- (i) State in which the fruit was grown;
- (ii) Point of repacking and reshipment;

(iii) Amount and kind of commodities comprising the lot or shipment; and

(iv) Names and addresses of the shipper and consignee.

(2) The fruit originated outside the area under quarantine for plum curculio and is a reshipment in original, unopened containers. The containers must each bear labels or other identifying marks evidencing origin outside the area under quarantine.

(3) The shipment consists of fresh fruit from Utah counties where plum curculio is established and is made in compliance with terms of a permit agreed upon by both the Utah and Washington plant protection organizations.

(4) The shipment consists of fresh fruit from Utah counties where plum curculio is not established, and all of the following conditions are complied with:

(a) The Utah plant protection organization has conducted an adequate plum curculio detection program, which includes immediate written notification to the department of detections in counties where plum curculio has not previously been detected; and

(b) The Utah plant protection organization certifies that the fruit originated in areas in which plum curculio is not established, was grown in a commercial orchard, and has not been placed under quarantine.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-127, filed 7/3/01, effective 8/3/01.]

WAC 16-470-130 Special permits. The director may issue special permits admitting, or allowing transportation and distribution of, regulated commodities described in WAC 16-470-111 and 16-470-125(2), which would not otherwise be eligible for entry from the area under quarantine, or for transportation or distribution, subject to conditions and provisions which the director may prescribe to prevent introduction, escape or spread of the quarantined pests.

[Statutory Authority: Chapter 17.24 RCW. 01-14-075, § 16-470-130, filed 7/3/01, effective 8/3/01; 84-10-039 (Order 1822), § 16-470-130, filed 5/1/84, effective 7/1/84.]

WAC 16-470-300 Quarantine—Onion white rot disease. Onion white rot is a potentially devastating disease of onions and closely related species, which causes greatly decreased yields and reduced storage quality. It is spread primarily by movement of contaminated water, soil, equipment, tools, machinery, and infested plants and plant parts. Onion white rot disease is caused by *Sclerotium cepivorum*, a fungus. Once a field is infested, the disease remains indefinitely in the soil. The director finds that onion white rot disease is detrimental to the onion industry of Washington state and establishes a quarantine to prevent introduction and spread of the disease within noninfested areas of Washington state.

[Statutory Authority: Chapter 17.24 RCW. 01-01-013, § 16-470-300, filed 12/6/00, effective 1/6/01; 86-07-020 (Order 1881), § 16-470-300, filed 3/12/86; 85-20-043 (Order 1873), § 16-470-300, filed 9/25/85.]

WAC 16-470-305 Onion white rot disease—Definitions. The following definitions apply to WAC 16-470-300 through 16-470-340:

(1) "Onion" means any plant of the *Allium* genus, including, but not limited to, onion, garlic, leek, chive and shallots.

(2) "Pest-free area for onion white rot" means Adams, Franklin and Grant counties.

[Statutory Authority: Chapter 17.24 RCW. 01-01-013, § 16-470-305, filed 12/6/00, effective 1/6/01.]

WAC 16-470-310 Onion white rot disease—Area under order. The area under exterior quarantine for onion white rot disease is all states of the United States. The area under interior quarantine for onion white rot disease is all counties of Washington state.

[Statutory Authority: Chapter 17.24 RCW. 01-01-013, § 16-470-310, filed 12/6/00, effective 1/6/01; 85-20-043 (Order 1873), § 16-470-310, filed 9/25/85.]

WAC 16-470-320 Onion white rot disease—Restrictions—Control—Prevention—Sanitation. The following restrictions are declared to be the proper methods for the control and prevention of the introduction of onion white rot disease, which shall be used in the pest-free area for onion white rot:

(1) No person shall import onion bulbs, sets or seedlings into the pest-free area for onion white rot for the purpose of planting or propagation, except those produced in and shipped from any area of this state or other states where onion white rot is not known to occur. Each shipment must be certified to be free from white rot disease by the pest protection organization of the state where the onion planting stock was produced.

(2) Except as provided in this chapter, no person shall in any manner import or move soil, machinery, tools, or equipment into the pest-free area for onion white rot. If the soil, machinery, tools, or equipment have been previously used in any manner in fields outside the pest-free area for onion white rot. Machinery, tools or equipment may be imported or moved into the pest-free area for onion white rot with prior approval from the department. The soil, machinery, tools or equipment must be cleaned and sanitized to the satisfaction of the department prior to movement into the pest-free area for onion white rot. The cleaning shall include the thorough removal of all soil and debris by the use of steam under pressure. Sanitation must be accomplished by the use of steam or other methods approved by the department. For the purposes of this section, "machinery, tools or equipment" includes but is not limited to vehicles, farm trucks, harvesters, and tillage equipment.

(3) The department may stop the movement into or within the pest-free area for onion white rot of any machinery, tools or equipment that has not been cleaned and sanitized as provided in this section.

(4) No person shall knowingly import into the pest-free area for onion white rot livestock which have been pastured on irrigated fields known to be infested with white rot or which have been fed white rot infested plant parts. Onion white rot infested plant parts may not be imported into the quarantine area for livestock feed. Onion white rot infested plant parts found in the pest-free area for onion white rot may not be fed to livestock. No restrictions are imposed by this section on livestock moving to feed lots, sale yards, or exhibition sites (such as fairgrounds, shows, etc.) in the pest-free area for onion white rot.

[Title 16 WAC—p. 490]

[Statutory Authority: Chapter 17.24 RCW. 01-01-013, § 16-470-320, filed 12/6/00, effective 1/6/01; 85-20-043 (Order 1873), § 16-470-320, filed 9/25/85.]

WAC 16-470-330 Onion white rot disease—Enforcement. (1) The department may inspect any onions or onion planting areas within the pest-free area for onion white rot during any time of the year to determine whether the disease organism is present. If the department finds the disease organism in onions at any stage of production or transportation or in land, the department may seize any infested onions which are separated from the land on which they were grown, or by written order direct the control and eradication of an infestation.

(2) Movement of infested onions within the pest-free area for onion white rot or removal of infested onions from the pest-free area for onion white rot must be carried out only with the department's prior approval and under its supervision.

(3) Control and eradication methods that may be used are limited to those approved by the department. They may include:

- (a) The destruction of any infested onions;
- (b) A directive that a specific part or all of any infested area be taken out of onion production;
- (c) A directive that any infested area be fenced, properly diked to prevent off-flow of irrigation or rainwater, and planted to an approved crop which will prevent soil erosion and will not require annual tillage;
- (d) Prohibiting the pasturing of animals on any infested area;
- (e) A directive that equipment, tools and machinery used on an infested area be cleaned and sanitized as described in WAC 16-470-320 prior to removal from the area.

[Statutory Authority: Chapter 17.24 RCW. 01-01-013, § 16-470-330, filed 12/6/00, effective 1/6/01; 85-20-043 (Order 1873), § 16-470-330, filed 9/25/85.]

WAC 16-470-340 Onion white rot disease—Research. The department may, with the consent of the owner, allow use of an infested growing area as an experimental plot by Washington State University for onion white rot research. Use of the growing area for research shall be subject to the prior approval of, and supervised by the department.

[Statutory Authority: Chapter 17.24 RCW. 85-20-043 (Order 1873), § 16-470-340, filed 9/25/85.]

WAC 16-470-400 Quarantine—Chestnut. The director finds that chestnut pests not known to occur in Washington may be detrimental to the chestnut industry of Washington state and a quarantine is established to prevent the introduction of designated chestnut pests into Washington state.

[Statutory Authority: Chapter 17.24 RCW. 85-21-003 (Order 1875), § 16-470-400, filed 10/3/85.]

WAC 16-470-410 Chestnut—Area under quarantine. The area under quarantine for designated chestnut pests includes all states and districts of the United States.

[Statutory Authority: Chapter 17.24 RCW. 85-21-003 (Order 1875), § 16-470-410, filed 10/3/85.]

WAC 16-470-420 Chestnut—Pests. The following are designated chestnut pests: Chestnut bark disease (*Endothia parasitica*); large chestnut weevil (*Curculio caryatrypes*); small chestnut weevil (*Curculio sayi*); nut curculio (*Conotrachelus carinifer*); and the oriental chestnut gall wasp (*Dryocosmus kuriphilus*).

[Statutory Authority: Chapter 17.24 RCW. 85-21-003 (Order 1875), § 16-470-420, filed 10/3/85.]

WAC 16-470-430 Chestnut pests—Hosts and carriers—Commodities under quarantine. Commodities under quarantine are all known carriers of designated pests listed in WAC 16-470-420, including but not limited to all species and varieties of chestnut (*Castanea* spp.) and chinquapin (*Castanopsis* spp.) trees, plants and parts thereof including grafts, cuttings, scions, nuts, logs and firewood.

[Statutory Authority: Chapter 17.24 RCW. 85-21-003 (Order 1875), § 16-470-430, filed 10/3/85.]

WAC 16-470-440 Chestnut quarantine—Restrictions—Requirements. Commodities under quarantine for designated chestnut pests are prohibited entry into Washington state from areas under quarantine (see WAC 16-470-410) except as provided below:

(1) Commodities under quarantine produced in Arizona, California, Idaho, Nevada, Oregon and Utah may be shipped into Washington state: Provided, That each shipment is identified by proper origin certification stating the shipment originated in that state.

(2) Commodities under quarantine produced in any area of Montana, Wyoming, Colorado, New Mexico, or any states east thereof may be shipped into Washington state: Provided, That each shipment is accompanied by a certificate bearing original or facsimile signature of the authorized agricultural official affirming that chestnut bark disease, large chestnut weevil, small chestnut weevil, nut curculio, and oriental chestnut gall wasp are not known to occur within the production area of the origin state.

(3) Commodities under quarantine produced in any area where chestnut bark disease, large chestnut weevil, small chestnut weevil, nut curculio, and oriental chestnut gall wasp are known to occur may be shipped into Washington state: Provided, That the commodities under quarantine have been treated in a manner recommended by the origin department of agriculture or university extension service and approved by the department. Each shipment shall be accompanied by a certificate bearing the original or facsimile signature of the authorized agricultural official stating the commodity is free from quarantined pests, and stating in detail the treatment used.

(4) No restrictions are placed on the nuts of all species and varieties of chestnut and chinquapin that are grown in and imported from foreign countries as regulated by the United States Department of Agriculture and reshipped into Washington state when shipped in unopened, original containers.

(5) In addition to all other penalties prescribed in WAC 16-470-015, all host material listed in WAC 16-470-430 entering Washington state in violation of this quarantine will immediately be shipped out of Washington or destroyed by

(2007 Ed.)

the person or persons in possession of the material in a manner approved by the department at no cost to the department.

[Statutory Authority: Chapter 17.24 RCW. 85-21-003 (Order 1875), § 16-470-440, filed 10/3/85.]

WAC 16-470-700 Quarantine—Japanese beetle. A quarantine is established under this chapter against all life stages of the insect pest Japanese beetle (*Popillia japonica* Newman), a member of the family Scarabaeidae. The Japanese beetle is a persistent, serious and highly destructive pest, attacking the roots, leaves, and fruits of over three hundred kinds of plants including fruit trees, ornamentals, and field and vegetable crops. The director of agriculture has determined that the regulation and exclusion of Japanese beetle is necessary to protect the environmental quality, forests, floriculture and agricultural crops of the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 00-23-098, § 16-470-700, filed 11/21/00, effective 12/22/00; 90-15-042 (Order 2049), § 16-470-700, filed 7/16/90, effective 8/16/90.]

WAC 16-470-705 Areas under quarantine. (1) The entire states of Alabama, Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, the District of Columbia, the Provinces of Ontario and Quebec, and any other state, province, parish, or county where infestations of Japanese beetle are detected are declared to be under quarantine for Japanese beetle.

(2) The director may exempt individual counties of the states under quarantine from meeting the conditions in WAC 16-470-715 if the director determines that:

(a) The state has adopted and is enforcing restrictions on the interstate and intrastate movement of regulated articles that are equivalent to or exceed the restrictions placed on the movement of regulated articles as provided in WAC 16-470-715; and

(b) Annual surveys are conducted in such counties and the results of these surveys are negative for Japanese beetle; and

(c) One or more neighboring counties are not subject to an unacceptable heavy Japanese beetle infestation.

(3) A plant health official of any state may request exemption of one or more counties under subsection (2) of this section. The request must be in writing, and it must state the area surveyed, the survey method, personnel conducting the survey, and dates of any previous Japanese beetle infestations in that county.

[Statutory Authority: Chapter 17.24 RCW. 00-23-098, § 16-470-705, filed 11/21/00, effective 12/22/00; 90-15-042 (Order 2049), § 16-470-705, filed 7/16/90, effective 8/16/90.]

WAC 16-470-710 Regulated articles. The following are declared to be hosts or possible carriers of Japanese beetle and are prohibited entry into this state from an area under quarantine as declared in WAC 16-470-705 either directly, indirectly, diverted or reconsigned, except as provided for in WAC 16-470-715:

- (1) Soil, humus, compost, and manure (except when commercially packaged);
- (2) All plants with roots (except bareroot plants free from soil in amounts that could contain concealed Japanese beetle eggs, larvae or pupae);
- (3) Grass sod;
- (4) Plant crowns or roots for propagation (except when free from soil);
- (5) Bulbs, corms, tubers, and rhizomes of ornamental plants (except when free of soil);
- (6) Any other plant, plant part, article, or means of conveyance when it is determined by the director to present a hazard of spreading live Japanese beetle due to either infestation, or exposure to infestation.

[Statutory Authority: Chapter 17.24 RCW. 00-23-098, § 16-470-710, filed 11/21/00, effective 12/22/00; 90-15-042 (Order 2049), § 16-470-710, filed 7/16/90, effective 8/16/90.]

WAC 16-470-715 Conditions governing the movement of regulated articles into Washington state. (1) Prior notification is required. Persons shipping regulated articles as specified in WAC 16-470-710 into this state from areas under quarantine must notify the department's plant services program by sending via telefacsimile or other method a copy of the applicable phytosanitary certificate as described in subsection (2) of this section for each shipment. The phytosanitary certificate must state the nature and quantity of the shipment, its expected date of arrival at destination, the name of the intended receiver and the destination. The person to whom the commodities are shipped must hold the shipment until it is inspected and released by the department.

(2) Each shipment of regulated articles must be accompanied by a phytosanitary certificate from the state of origin certifying that the commodity, soil, or means of conveyance is treated with methods and procedures approved and prescribed by the director. Approved methods and procedures include those specified in the National Plant Board U.S. Domestic Japanese Beetle Harmonization Plan Appendix 1. Shipment to Category 1 States.

(3) Privately owned houseplants grown indoors may be allowed entry into this state if a department official inspects the plants and determines that they are free from Japanese beetle.

[Statutory Authority: Chapter 17.24 RCW. 00-23-098, § 16-470-715, filed 11/21/00, effective 12/22/00; 90-15-042 (Order 2049), § 16-470-715, filed 7/16/90, effective 8/16/90.]

WAC 16-470-720 Special permits. The director may issue special permits admitting regulated articles specified in WAC 16-470-710 that are not otherwise eligible for entry from the area under quarantine, subject to conditions and provisions which the director may prescribe to prevent the introduction, escape, or spread of Japanese beetle.

[Statutory Authority: Chapter 17.24 RCW. 00-23-098, § 16-470-720, filed 11/21/00, effective 12/22/00; 90-15-042 (Order 2049), § 16-470-720, filed 7/16/90, effective 8/16/90.]

WAC 16-470-900 Schedule of fees and charges—Billing policies and procedures. (1) All billable services provided under chapter 17.24 RCW are due and payable upon billing by the department. For the convenience of established

accounts and in accord with good business practices, the department provides a monthly billing. Accounts not paid in full within thirty days of billing are considered delinquent.

(2) All delinquent accounts are assessed a late charge equal to one and one-half percent per month, or portion of a month, on the unpaid balance.

(3) Except for established accounts where there is a reasonable expectation of additional charges during a calendar month, the minimum billable amount through the monthly billing system is twenty dollars. All billable services of less than twenty dollars are due and payable on the date that service is rendered.

(4) No person with an account ninety days or more in arrears will receive service except on the basis of payment in full at the time service is rendered. Such accounts are not restored to monthly billing status until all past due amounts are paid-in-full. Such accounts may be subject to legal action for collection.

(5) Accounts that become ninety days or more in arrears twice within a five-year period may be subject to a permanent requirement for payment in full at the time service is provided.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 05-12-111, § 16-470-900, filed 5/31/05, effective 7/1/05. Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-900, filed 5/26/99, effective 6/26/99; 92-07-023, § 16-470-900, filed 3/10/92, effective 4/10/92.]

WAC 16-470-905 Schedule of fees and charges—Establishing hourly rates. (1) Requested services are provided at the applicable hourly rate except as provided in subsection (5) of this section. The hourly rate for nonbusiness hours applies for service provided before 8:00 a.m. or after 5:00 p.m. during the workday and for all services provided on Saturday, Sunday, or on a holiday listed in subsection (2) of this section.

(2) Holidays shall mean New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day immediately following Thanksgiving Day, Veteran's Day, Christmas Day, President's Day, and Martin Luther King's Birthday.

(3) Charges are assessed in one-half hour increments.

(4) Persons requesting service with less than twenty-four hours notice during nonbusiness hours, may be subject to a charge of two additional hours at the nonbusiness hourly rate if the department is required to pay call back pay to the employee(s) providing the requested service.

(5) The department reserves the right to provide service by written agreement at a single, negotiated cost or at a negotiated rate for projects with one of the following characteristics:

(a) Projects requiring multiple periodic inspections and/or certificates; or

(b) Projects requiring field inspections of crops not regulated under chapter 15.13 or 15.14 RCW.

The rate charged shall not be less than the cost to the department of providing the services.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 03-10-082, § 16-470-905, filed 5/6/03, effective 6/30/03. Statutory Authority: Chapter 17.24 RCW. 99-12-035, § 16-470-905, filed 5/26/99, effective 6/26/99; 92-07-023, § 16-470-905, filed 3/10/92, effective 4/10/92.]

WAC 16-470-912 Schedule of fees and charges—Applicable fees and charges. (1) Hourly rate.

Hourly rate - business hours	\$33.00
Hourly rate - nonbusiness hours	\$42.15

(2) Laboratory diagnostic services, except as provided in subsection (3) or (4) of this section, are charged at the applicable hourly rate plus materials.

(3) Nematology laboratory diagnostic fees are as follows:

Identity Determination	1 sample	5 samples	10 samples	50 samples	100+ samples
nematode	34.30 ea	31.60 ea	28.95 ea	28.25 ea	26.30 ea

Note: To receive volume rates, samples must be submitted as a unit and identification requests must be for one specific nematode, unless more than one nematode can be detected in a single test without additional inputs.

(4) The department reserves the right to provide service by written agreement at a single, negotiated cost or at a negotiated rate for projects with at least one of the following characteristics:

- (a) Projects greater than one hundred samples;
- (b) Projects requiring materials not readily available; or
- (c) Projects requiring special handling or prolonged incubation periods.

The rate charged shall not be less than the cost to the department of performing the tests.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 06-15-044, § 16-470-912, filed 7/11/06, effective 8/11/06; 05-12-111, § 16-470-912, filed 5/31/05, effective 7/1/05. Statutory Authority: Chapters 17.24, 15.14, and 34.05 RCW. 05-01-180, § 16-470-912, filed 12/21/04, effective 1/21/05. WAC 16-470-921 Schedule of fees and charges—Miscellaneous fees. (1) Mileage at the established office of financial management rate (schedule A), per diem at actual cost, and travel time at the applicable hourly rate may be assessed for requested inspections or post entry inspections that are not a part of a regular work schedule. Such charges

(2007 Ed.)

may be prorated among applicants if more than one applicant is provided service during a workday or trip when per diem is applicable.

(2) Postage, special handling services and other miscellaneous costs exceeding five dollars will be charged back to the applicant at the actual cost.

(3) Certificates of inspection, phytosanitary certificates, and other official documents will be provided to the applicant subject to the charges and conditions established in chapter 16-401 WAC.

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 03-10-082, § 16-470-921, filed 5/6/03, effective 6/30/03. Chapter 16-472 WAC

BARBERRY AND BLACK STEM RUST

WAC

16-472-010	Establishing quarantine—Promulgation.
16-472-020	Duty to destroy rust susceptible barberry bushes.
16-472-030	This rule does not apply to rust-resistant <i>Berberis</i> , <i>Mahonia</i> , and <i>Mahoberberis</i> plants or seeds.
16-472-040	All packages to be plainly labelled or stamped.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-472-050	Revisions of previous conflicting regulations. [Order 556, effective 9/1/49.] Repealed by 00-20-069, filed 10/3/00, effective 11/3/00. Statutory Authority: Chapters 17.24, 15.13, and 15.08 RCW.
------------	---

WAC 16-472-010 Establishing quarantine—Promulgation. The common barberry, (*Berberis vulgaris*) and many of its horticultural varieties as well as certain other species of *Berberis*, *Mahonia*, and *Mahoberberis* are the alternate host plants of the disease black stem rust, caused by the organism *Puccinia graminis*. Black stem rust attacks wheat, oats, barley, rye, and many other cultivated and wild grasses, often resulting in material financial loss to growers of these crops in Washington. Without access to alternate host plants, *Puccinia graminis* cannot reproduce, and black stem rust is eliminated or greatly decreased. The director of agriculture, under authority granted by chapters 17.24, 15.13 and 15.08 RCW, has determined that the regulation and exclusion of rust susceptible varieties of barberry and related *Berberis*, *Mahonia*, and *Mahoberberis* species is necessary to protect agricultural crops of the state of Washington.

[Statutory Authority: Chapters 17.24, 15.13, and 15.08 RCW. 00-20-069, § 16-472-010, filed 10/3/00, effective 11/3/00; Order 556, effective 9/1/49.]

WAC 16-472-020 Duty to destroy rust susceptible barberry bushes. (1) Persons owning or controlling public or private lands in Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman, or Yakima counties are required to destroy all rust-susceptible barberry bushes and to keep the land free from such plants.

(2) No person who is or should be licensed as a nursery dealer under provisions of chapter 15.13 RCW may sell, offer for sale, ship or grow any rust susceptible variety of barberry

or related *Berberis*, *Mahonia*, and *Mahoberberis* species, as defined in 7 C.F.R. 301.38-2.

[Statutory Authority: Chapters 17.24, 15.13, and 15.08 RCW. 00-20-069, § 16-472-020, filed 10/3/00, effective 11/3/00; Order 556, effective 9/1/49.]

WAC 16-472-030 This rule does not apply to rust-resistant *Berberis*, *Mahonia*, and *Mahoberberis* plants or seeds. No restrictions are placed by this rule on the growing or intrastate movement of rust-resistant *Berberis*, *Mahonia*, and *Mahoberberis* plants, plant parts or seeds, as defined in United States Department of Agriculture Animal and Plant Health Inspection Service regulations in 7 C.F.R. 301.38-2.

This rule does not apply to cuttings (without roots) of *Mahonia* shipped for decorative purposes and not for propagation.

[Statutory Authority: Chapters 17.24, 15.13, and 15.08 RCW. 00-20-069, § 16-472-030, filed 10/3/00, effective 11/3/00; Order 556, effective 9/1/49.]

WAC 16-472-040 All packages to be plainly labelled or stamped. (1) All intrastate and interstate shipments and/or individual packages of *Berberis*, *Mahonia* or *Mahoberberis* plants, seeds, or parts capable of propagation must be plainly labelled or stamped on the outside of the package with botanical species or horticultural variety and the name and address of the consignee and consignor. In addition, when required by federal regulations in 7 C.F.R. 301.38, each shipment and/or individual package containing *Berberis*, *Mahonia* or *Mahoberberis* plants or seeds must have securely attached to the outside, a valid shipping permit issued by the United States Department of Agriculture authorizing its interstate movement.

(2) Any *Berberis*, *Mahonia* and *Mahoberberis* plants, plant parts or seeds that are in violation of this barberry and black stem rust quarantine are subject to destruction, shipment out-of-state or other disposition in a manner prescribed by the department. Any such action will be at the expense of the owner or owner's agent and without compensation.

[Statutory Authority: Chapters 17.24, 15.13, and 15.08 RCW. 00-20-069, § 16-472-040, filed 10/3/00, effective 11/3/00; Order 556, effective 9/1/49.]

Chapter 16-473 WAC

LENTIL ANTHRACNOSE QUARANTINE

WAC

16-473-001	Promulgation—Establishing quarantine.
16-473-010	Regulated articles.
16-473-015	Quarantine areas.
16-473-020	Prohibited acts.
16-473-025	Permits.

WAC 16-473-001 Promulgation—Establishing quarantine. The disease anthracnose of lentils (caused by the plant pathogen *Colletotrichum truncatum* (Schwein)) is potentially devastating to the Washington lentil crop. The disease has become established in central Canada and contiguous lentil growing areas of North Dakota and South Dakota, all of which produce lentil varieties grown in Washington. Anthracnose of lentils is a seed borne disease. In order to prevent its introduction, the director, under authority provided in chapter 17.24 RCW, establishes a quarantine.

[Statutory Authority: RCW 17.24.041. 97-11-015, § 16-473-001, filed 5/12/97, effective 6/12/97.]

[Title 16 WAC—p. 494]

WAC 16-473-010 Regulated articles. Regulated articles include lentils used, or intended to be used, as seed.

[Statutory Authority: RCW 17.24.041. 97-11-015, § 16-473-010, filed 5/12/97, effective 6/12/97.]

WAC 16-473-015 Quarantine areas. Quarantine areas are the Canadian provinces of Manitoba, Saskatchewan, and Alberta, the states of North Dakota and South Dakota, and any other states and territories of the United States and foreign countries known to have confirmed the presence of anthracnose of lentils.

[Statutory Authority: RCW 17.24.041. 97-11-015, § 16-473-015, filed 5/12/97, effective 6/12/97.]

WAC 16-473-020 Prohibited acts. The sale, offering to sell, transporting, disposing of, distributing and/or planting of regulated articles as defined in WAC 16-473-010 from or originating in the quarantine area as listed in WAC 16-473-015 is prohibited.

[Statutory Authority: RCW 17.24.041. 97-11-015, § 16-473-020, filed 5/12/97, effective 6/12/97.]

WAC 16-473-025 Permits. The director may allow, by special permit, the transportation, distribution, disposal of or planting of regulated articles, listed in WAC 16-473-010. Such permit shall specify terms and conditions, pursuant to RCW 17.24.041 and 17.24.091. Permits may be requested from the Washington state department of agriculture, plant protection program at telephone number (360) 902-2071.

[Statutory Authority: RCW 17.24.041. 97-11-015, § 16-473-025, filed 5/12/97, effective 6/12/97.]

Chapter 16-478 WAC

EUROPEAN CORN BORER

WAC

16-478-010	Establishing quarantine for European corn borer.
16-478-020	Area under quarantine.
16-478-030	Definitions.
16-478-040	Regulated articles.
16-478-050	Requirements for shipping regulated articles from an area under quarantine.
16-478-065	Special permits.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-478-001	Promulgation. [Order 607, Promulgation, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
16-478-00101	Promulgation. [Order 1476, § 16-478-00101, filed 7/2/76.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
16-478-060	Enforcing powers. [Order 607, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
16-478-070	Federal shipments exempt. [Order 607, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
16-478-080	Commodities covered subject to other rules and regulations. [Order 607, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
16-478-090	Disposition of violations and penalties. [Order 607, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.

(2007 Ed.)

16-478-100

11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.
Common carrier agents must hold shipments. [Order 607, effective 7/23/51.] Repealed by 00-23-097, filed 11/21/00, effective 12/22/00. Statutory Authority: Chapter 17.24 RCW.

WAC 16-478-010 Establishing quarantine for European corn borer. European corn borer (*Ostrinia nubilalis*) is a nonnative, invasive insect which has infested most of North America since its introduction in the early 1900's. Its host range constitutes a wide range of plants, including important food and nursery crops grown in this state. The director of agriculture, pursuant to authorities in chapter 17.24 RCW, has determined that the exclusion of European corn borer at all stages of its life cycle is necessary to protect the environmental quality and agricultural crops of the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 00-23-097, § 16-478-010, filed 11/21/00, effective 12/22/00; Order 607, effective 7/23/51.]

WAC 16-478-020 Area under quarantine. All states and districts of the United States except the states of Arizona, California, Idaho, Nevada, Oregon and Utah.

[Order 607, effective 7/23/51.]

WAC 16-478-030 Definitions. (1) "European corn borer inspection certificate" means a certificate issued by an authorized agent of the agricultural regulatory agency of the state of origin, which includes all of the following information:

- (a) Kind and quantity of the commodity in the shipment lot.
 - (b) Railway car number or vehicle identification of the carrier.
 - (c) Names and addresses of both the shipper and the consignee.
 - (d) Date issued.
 - (e) Identity of issuing agent.
 - (f) Any other information required in WAC 16-478-050.
- If the certificate includes information regarding fumigation as a treatment method, the certificate must include the material(s) used, the dosage schedule, temperature, period of exposure, and date of treatment.

(2) "Infested area" means any area located within the following:

(a) Entire states of Alabama, Arkansas, Connecticut, Colorado, Delaware, Georgia, Illinois, Iowa, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, Wyoming, or the District of Columbia; or

(b) Portions of the state of Texas in Bailey, Carson, Castro, Dallam, Deaf Smith, Floyd, Gray, Hale, Hansford, Hartley, Hutchinson, Lamb, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Robers, Sherman and Swisher counties; or

(c) Portions of the state of Florida in Escambia and Santa Rosa counties.

(2007 Ed.)

(3) "Noninfested area" means all locations in the area under quarantine as designated in WAC 16-478-020 that are not listed as infested in WAC 16-478-030(2).

(4) "Phytosanitary certificate" means a certificate issued by a government agency under authority of state or federal statute, which declares or establishes the pest status of a shipment of plants or plant parts under accepted inspection or sampling procedures. Phytosanitary certificates are patterned after model certificates of the International Pest Protection Convention.

[Statutory Authority: Chapter 17.24 RCW. 00-23-097, § 16-478-030, filed 11/21/00, effective 12/22/00; Order 607, effective 7/23/51.]

WAC 16-478-040 Regulated articles. The following products and commodities are regulated under this quarantine as hosts or possible carriers of European corn borer:

(1) Corn, broomcorn, sorghums, and Sudan grass plants and plant parts (including, but not limited to, seed and shelled grain, and stalks, ears, cobs, and all other parts, fragments, or debris).

(2) Beans in the pod, beets, celery, bell pepper fruits, endive, Swiss chard, and rhubarb (cut or plants with roots).

(3) Cut flowers or entire plants of aster, chrysanthemum, calendula, cosmos, hollyhock, marigold, zinnia, Japanese hop, dahlia (except tubers without stems) and gladiolus (except corms without stems).

[Statutory Authority: Chapter 17.24 RCW. 00-23-097, § 16-478-040, filed 11/21/00, effective 12/22/00; Order 607, effective 7/23/51.]

WAC 16-478-050 Requirements for shipping regulated articles from an area under quarantine. (1) For

shelled grain, seed, and stalks, ears, cobs and other parts, fragments, or debris from an infested area, unless the shipment is addressed in subsection (3) of this section. Shelled grain, seed, and stalks, ears, cobs, and other parts, fragments, or debris of corn, broomcorn, sorghums, and Sudan grass, grown in or shipped from the infested area described in WAC 16-478-030, will be admitted into the state of Washington only when each lot or shipment is accompanied by a European corn borer inspection certificate stating that the conveyance (such as a railcar or truck) was inspected and found free of regulated articles and that at least one of the following conditions has been complied with:

(a) The grain or seed has been passed through a 1/2 inch or less mesh screen or otherwise cleaned prior to loading and is believed to be free from stalks, cobs, stems or other plant parts capable of harboring larvae of the European corn borer;

(b) The grain, seed, or stalks, ears, cobs or other parts, fragments, or debris has been treated, sterilized, or disinfected in a manner approved by the director as adequate to control European corn borer.

(2) For shelled grain, seed, or stalks, ears, cobs, or other parts, fragments, or debris from a noninfested area, unless the shipment is addressed in subsection (3) of this section. Shelled grain, seed, and stalks, ears, cobs, or other parts, fragments or debris of corn, broomcorn, sorghums, and Sudan grass, grown in or shipped from the noninfested area described in WAC 16-478-030(3) will be admitted into the state of Washington only when each shipment or lot is accompanied by a European corn borer inspection certificate stating both of the following:

(a) That all grain, seed, or stalks, ears, cobs, or other parts, fragments or debris in the shipment was produced in an area where European corn borer is not known to exist based on negative survey data; and

(b) That the continued identity of the shipment has been maintained to assure the shipment was not blended or mixed with grain, seed, plants, plant parts, fragments, or debris produced in or shipped from an infested area.

(3) For small lots and packages of seed. Individual shipments or lots of one hundred pounds or less of clean shelled grain or seed and shipments comprised of packages of less than ten pounds, are exempted from the requirement for a European corn borer inspection certificate stated in subsections (1) and (2) of this section. These small lots are admitted into this state subject to inspection and freedom from other plant parts, fragments, and debris capable of harboring European corn borer.

(4) For vegetable and ornamental plants and plant products. Beans in the pod, beets, celery, bell pepper fruits, endive, Swiss chard, and rhubarb (cut or plants with roots), cut flowers and entire plants of aster, chrysanthemum, calendula, cosmos, hollyhock, marigold, zinnia, Japanese hop, dahlia, (except tubers without stems) and gladiolus (except corms without stems), produced in or shipped from the infested area described in WAC 16-478-030 above will be admitted into the state of Washington only when each lot or shipment is accompanied by a phytosanitary certificate stating that all plants, products or cut flowers in the shipment or lot have been inspected and that one of the following is true:

(a) The shipment was found free from infestation by the European corn borer; or

(b) The plants, products, or cut flowers were grown in a greenhouse in which all host plants have been regularly inspected during the growing season and no evidence of European corn borer was found; or

(c) The plants, products or cut flowers have been treated, sterilized or disinfected in a manner approved by the director as adequate to control European corn borer.

(5) Exemptions.

(a) The requirement for a phytosanitary certificate is waived for shipments or lots of 10 pounds or less of beans in the pod, beets, bell peppers, endive, Swiss chard or rhubarb (cut or plants with roots).

(b) During the period November 30 to May 1, the requirement for a phytosanitary certificate is waived for divisions without stems of the previous year's growth, rooted cuttings, seedling plants and cut flowers of aster, chrysanthemum, calendula, cosmos, hollyhock, marigold, zinnia and Japanese hop.

(c) No restrictions are placed by this chapter on movement of regulated articles listed in WAC 16-478-040 which are processed or manufactured in such a manner as to eliminate all danger of carrying European corn borer.

[Statutory Authority: Chapter 17.24 RCW. 00-23-097, § 16-478-050, filed 11/21/00, effective 12/22/00; Order 1476, § 16-478-050, filed 7/2/76; Order 607, effective 7/23/51.]

WAC 16-478-065 Special permits. The director may issue special permits to allow regulated articles grown in or shipped from a quarantine area to enter the state. A special permit may be issued if the director determines that the con-

ditions of the permit are sufficient to protect the environmental quality and agricultural crops of the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 00-23-097, § 16-478-065, filed 11/21/00, effective 12/22/00.]

Chapter 16-481 WAC GRAPE INSECT PESTS

WAC

16-481-010	Establishing quarantine.
16-481-015	Definitions.
16-481-020	Quarantine area.
16-481-025	Regulated products.
16-481-030	Conditions governing shipments—External.
16-481-050	Equipment cleaning requirements.
16-481-060	Notification requirements.
16-481-070	Disposition of products shipped in violation of this quarantine—Violations.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-481-040	Regulated products. [Order 384, § 4, effective 3/30/43.] Repealed by 91-21-042, filed 10/11/91, effective 11/11/91. Statutory Authority: Chapters 15.13 and 17.24 RCW.
16-481-075	Violations—Penalties. [Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-075, filed 10/11/91, effective 11/11/91.] Repealed by 04-17-035, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW.

WAC 16-481-010 Establishing quarantine. Grape phylloxera and the vine mealybug are insect pests injurious to grapevines. Grape phylloxera can cause severe reductions in grape yield and ultimately the death of the grapevine. This pest is widely distributed throughout the United States and the world. The vine mealybug injures grapevines by damaging grape bunches and transmitting grape viruses. Introductions of these pests into the state of Washington through infested grapevines, rootstock, and plant cuttings or on contaminated grape cultivation or harvesting equipment could have a severe economic impact on the Washington grape industry. The director, under the authority provided in chapters 17.24 and 15.13 RCW, has established a quarantine to prevent their introduction into the state.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-010, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-010, filed 10/11/91, effective 11/11/91; Order 384, § 1, effective 3/30/43.]

WAC 16-481-015 Definitions. "Department" means the Washington state department of agriculture.

"Director" means the director of the Washington state department of agriculture or the director's authorized representative.

"Grape phylloxera" means the insect *Daktulosphaira vitifoliae* (Fitch) of the order *Homoptera* and family *Phylloxeridae*.

"Hardwood cutting" means a cutting from a grapevine taken during the period of dormancy and not including portions of the trunk of the plant produced during previous growing seasons.

"Infested area" means all states and territories of the United States and all areas outside the United States.

"Softwood cutting" means any cutting taken when the grape plant is not fully dormant.

"Vine mealybug" means the insect *Planococcus ficus* (Signoret) of the order *Homoptera* and family *Pseudococcidae*.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-015, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-015, filed 10/11/91, effective 11/11/91.]

WAC 16-481-020 Quarantine area. There is established under this chapter, an external quarantine area for grape phylloxera and vine mealybug including all states and territories of the United States and all territories outside the United States.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-020, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-020, filed 10/11/91, effective 11/11/91; Order 384, § 2, effective 3/30/43.]

WAC 16-481-025 Regulated products. Products regulated under the grape insect pests quarantine include:

(1) All grapevines, rootstock, and softwood cuttings, rooted or not. Hardwood cuttings meeting the definition in WAC 16-481-016 and dried grapevines used for ornamental purposes are exempt from the requirements in this chapter.

(2) All equipment that has been used for cultivation or harvesting of grapes in a quarantine area.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-025, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-025, filed 10/11/91, effective 11/11/91.]

WAC 16-481-030 Conditions governing shipments—External. (1) Each shipment of grapevines, grape rootstock and/or softwood cuttings from an infested area must be accompanied by a certificate issued by the plant protection organization in the state or country of origin stating that:

(a) The grapevines, rootstock and/or softwood cuttings were grown in and shipped from an area known to be free from grape phylloxera and vine mealybug; or

(b) The grapevines, rootstock or softwood cuttings were grown under an approved sterile media system; or

(c) For small shipments (five hundred articles or less), softwood cuttings were carefully inspected by an authorized inspector and were found to be free from grape phylloxera and vine mealybug; or

(d) The grapevines, rootstock, and/or softwood cuttings were subject to one of the two treatments outlined in subsection (2) of this section or such additional methods as may be determined to be effective and are approved in writing by the director and were stored in a manner after treatment that would prevent reinfestation.

(2) Acceptable treatments shall include:

(a) Hot water treatment. Dormant, rooted grapevines or rootstock shall be washed to remove all soil or other propagative media. Dormant rooted plants or rootstock shall be immersed in a hot water bath for a period of not less than three minutes nor more than five minutes at a temperature of not less than 125 degrees F. (52 degrees C.) nor more than 130 degrees F. (55 degrees C.) at any time during immersion; or

(2007 Ed.)

(b) Methyl bromide fumigation. Grapevines, rootstock or softwood cuttings may be treated by methyl bromide fumigation. Fumigation shall be in an approved gastight fumigation chamber, equipped with a heating unit, fan for dispersal of gas and clearing the chamber of gas after fumigation, and interior thermometer readable from the outside. Fumigation shall be with a dosage of two pounds (0.908 kg.) of methyl bromide per one thousand cubic feet (twenty-eight cubic meters) for a period of three hours at a temperature of between 65 degrees F. (18.3 degrees C.) and 70 degrees F. (21.1 degrees C.). The fan shall be operated for a period of ten minutes after the injection of the gas.

(3) All shipments of grapevines, rootstock and/or softwood cuttings from an infested area shall be plainly marked with the contents on the outside of the package or container as "grapevines," "grape rootstock," or "grape cuttings."

(4) Notification requirements of WAC 16-481-060 are met.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-030, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-030, filed 10/11/91, effective 11/11/91; Order 384, § 3, effective 3/30/43.]

WAC 16-481-050 Equipment cleaning requirements.

(1) All equipment used for cultivation or harvesting of grapes in grape insect pests quarantine areas outside the state or infested properties within the state must be thoroughly washed or steam cleaned to remove all soil and plant material prior to entry into the state of Washington. Such equipment shall be subject to inspection by authorized inspectors of the department of agriculture.

(2) Any equipment found to be in violation of the cleaning requirement shall be subject to detention by the department until such equipment is thoroughly cleaned at the expense of the owner or shipper or provision made to transport the equipment directly out of the state.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-050, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-050, filed 10/11/91, effective 11/11/91; Order 384, § 5, effective 3/30/43.]

WAC 16-481-060 Notification requirements. The plant protection division of the department of agriculture shall be notified by United States mail or telefacsimile to: Plant Protection Division, Washington State Department of Agriculture, 1111 Washington St. S.E., P.O. Box 42560, Olympia, WA 98504-2560; fax 360-902-2094, prior to the shipment of grapevines and/or cuttings under the grape insect pests quarantine into this state from an infested area. Such notice shall include, but not be limited to, the approximate number of the grapevines, rootstock and/or softwood cuttings; the shipper; the consignee; the method of treatment used, if applicable; and the approximate date of delivery.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-060, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-060, filed 10/11/91, effective 11/11/91; Order 384, § 6, effective 3/30/43.]

WAC 16-481-070 Disposition of products shipped in violation of this quarantine—Violations. Any shipment of grapevines, rootstock, and/or softwood shipped into or entering the state of Washington from an infested area and not

accompanied by the required certificate and/or not complying with the notification requirement in WAC 16-481-060 shall be returned to the point of origin, or destroyed at the option and expense of the owner or owners, or their responsible agent or agents.

[Statutory Authority: Chapters 15.13, 17.24, and 34.05 RCW. 04-17-035, § 16-481-070, filed 8/10/04, effective 9/10/04. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-481-070, filed 10/11/91, effective 11/11/91; Order 384, § 7, effective 3/30/43.]

Chapter 16-482 WAC

SEED POTATO QUARANTINE

WAC

16-482-001	Promulgation—Establishing quarantine.
16-482-005	Regulated articles.
16-482-006	Quarantine area.
16-482-007	Regulated area.
16-482-010	Regulations—Certified seed requirement.
16-482-015	Regulations—Certified seed—Exceptions.
16-482-016	Exceptions—Permit requirement.
16-482-017	Recordkeeping requirement.
16-482-020	Disposition of material shipped in violation of this quarantine.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-482-030	Violation and penalty. [Order 1126, § 16-482-030, filed 10/9/69, effective 11/10/69.] Repealed by 91-07-016 (Order 2075), filed 3/13/91, effective 4/13/91. Statutory Authority: Chapter 17.24 RCW.
16-482-040	Effective date. [Order 1126, § 16-482-040, filed 10/9/69, effective 11/10/69.] Repealed by 91-07-016 (Order 2075), filed 3/13/91, effective 4/13/91. Statutory Authority: Chapter 17.24 RCW.

WAC 16-482-001 Promulgation—Establishing quarantine. The commercial production of potatoes both for food and for seed in the state of Washington is one of the major agricultural industries. The introduction and spread of serious bacterial, fungal, viral and nematode diseases of potatoes represents a serious economic threat to the industry. A quarantine is established under this chapter requiring the planting of certified seed potatoes in commercial potato production areas to mitigate this threat.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-001, filed 3/13/91, effective 4/13/91; Order 1126, § 16-482-001, filed 10/9/69, effective 11/10/69.]

WAC 16-482-005 Regulated articles. All potatoes used for commercial plantings in excess of one acre or for seed potato production.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-005, filed 3/13/91, effective 4/13/91.]

WAC 16-482-006 Quarantine area. All states and territories of the United States and all counties within the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-006, filed 3/13/91, effective 4/13/91.]

WAC 16-482-007 Regulated area. There is established a regulated area within the state of Washington consisting of the entire counties of Adams, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Grays Harbor,

King, Kittitas, Klickitat, Lincoln, Mason, Pend Oreille, Skagit, Snohomish, Spokane, Stevens, Thurston, Walla Walla, Whatcom, Whitman, and Yakima.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-007, filed 3/13/91, effective 4/13/91.]

WAC 16-482-010 Regulations—Certified seed requirement. (1) Except as provided in WAC 16-482-015, all seed potatoes propagated for commercial or for seed production within the regulated area shall be from certified seed, produced as a part of a certified seed potato program in the state or country of origin and accepted and certified by that program.

(2) The department may sample and test any lot of seed potatoes or conduct field inspections for the purpose of testing and verification of compliance with this chapter.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-010, filed 3/13/91, effective 4/13/91; Order 1126, § 16-482-010, filed 10/9/69, effective 11/10/69.]

WAC 16-482-015 Regulations—Certified seed—Exceptions. The certified seed requirement shall not be applicable to:

(1) Potatoes planted for personal use or other noncommercial purposes;

(2) Commercial production, other than for production of seed potatoes, of not more than one acre;

(3) Experimental or seed trial plots as provided in WAC 16-482-016.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-015, filed 3/13/91, effective 4/13/91.]

WAC 16-482-016 Exceptions—Permit requirement. The director may allow planting of seed potatoes, otherwise prohibited, by special permit. Such permit shall specify the conditions under which planting is allowed and shall be obtained prior to planting. Prior to issuance of a permit, the director shall consult with a committee composed of one member from the Washington state seed potato commission and two members of the Washington state potato commission, appointed by the respective commission chairs, as to the need for and terms of such permit.

[Statutory Authority: Chapter 17.24 RCW. 94-11-069 (Order 5042), § 16-482-016, filed 5/13/94, effective 6/13/94; 91-07-016 (Order 2075), § 16-482-016, filed 3/13/91, effective 4/13/91.]

WAC 16-482-017 Recordkeeping requirement. All commercial potato growers within the regulated area shall be responsible for obtaining certification documents or tags to verify that all seed potatoes used for propagation purposes comply with the terms of this chapter. Such documents shall be retained by the grower for a period of one calendar year and a copy provided to the department of agriculture, plant services division, upon written request to the grower. Such documents shall include the total weight of certified seed potatoes and shall be issued by an official certifying agency in the state or country of origin. Falsification of seed potato documents shall subject the grower to penalties provided in law.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-017, filed 3/13/91, effective 4/13/91.]

WAC 16-482-020 Disposition of material shipped in violation of this quarantine. (1) Seed potatoes shipped in violation of this quarantine may be returned to the point of origin, diverted to nonseed use, or destroyed at the option and expense of the owner or owners or their responsible agents.

(2) Seed potatoes planted and growing in violation of the terms of this quarantine may be destroyed or placed under quarantine, with terms and conditions for that quarantine specified by the director, at the option and expense of the grower or owners or their responsible agents. Potatoes, placed under quarantine for violation of the terms of this chapter and found to be infested or infected with a viral, fungal, bacterial or nematode disease by subsequent inspection or testing shall be destroyed at the expense of the grower, without compensation.

(3) In addition to the actions specified in subsections (1) and (2) of this section, any grower violating the terms of this quarantine shall be subject to civil and/or criminal penalties provided by laws.

[Statutory Authority: Chapter 17.24 RCW. 91-07-016 (Order 2075), § 16-482-020, filed 3/13/91, effective 4/13/91; Order 1126, § 16-482-020, filed 10/9/69, effective 11/10/69.]

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-483-060	Grape virus quarantine—Violation and penalty. [Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-060, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-060, filed 3/16/70, effective 5/1/70.] Repealed by 00-05-105, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapter 17.24 RCW.
16-483-070	Effective date. [Order 1146, § 16-483-070, filed 3/16/70, effective 5/1/70.] Repealed by 91-21-042, filed 10/11/91, effective 11/11/91. Statutory Authority: Chapters 15.13 and 17.24 RCW.

WAC 16-483-001 Grape virus quarantine—Establishing quarantine. The production of wine grapes, juice grapes, and grape planting stock are important industries in the state of Washington. The director has determined that these industries are threatened by the introduction and establishment of the virus diseases known as leafroll, fanleaf and corky bark that are not known to occur in the state of Washington. The presence of these virus diseases cannot be determined by the most rigorous visual examination of dormant grape planting stock. The introduction and establishment of these virus diseases would entail great economic loss to the grape industries of the state. To minimize this risk, the director, under the authority provided in chapter 17.24 RCW, has established a quarantine setting forth rules for the importation of grape planting stock into the state of Washington.

(2007 Ed.)

[Statutory Authority: Chapter 17.24 RCW. 00-23-096, § 16-483-001, filed 11/21/00, effective 12/22/00; 00-05-105, § 16-483-001, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-001, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-001, filed 3/16/70, effective 5/1/70.]

WAC 16-483-005 Grape virus quarantine—Definitions. "Department" means the Washington state department of agriculture.

"Director" means the director of the Washington state department of agriculture or the director's authorized representative.

"Grape planting stock" means live plants, hardwood cuttings, softwood cuttings, rootstocks, and any other parts of the grape plant (*vitis* species), except fruit, capable of propagation.

"Official certificate" means a document issued by an official plant protection organization including but not limited to phytosanitary certificates, inspection certificates, or other letters, tags, stamps, or similar documents certifying plant quality or condition.

[Statutory Authority: Chapter 17.24 RCW. 00-05-105, § 16-483-005, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-005, filed 10/11/91, effective 11/11/91.]

WAC 16-483-010 Grape virus quarantine—Quarantine area. Areas under quarantine include all states and territories of the United States outside of the territorial borders of the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 00-05-105, § 16-483-010, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-010, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-010, filed 3/16/70, effective 5/1/70.]

WAC 16-483-020 Grape virus quarantine—Regulated articles. All grape planting stock is regulated under the terms of this quarantine.

[Statutory Authority: Chapter 17.24 RCW. 00-05-105, § 16-483-020, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-020, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-020, filed 3/16/70, effective 5/1/70.]

WAC 16-483-030 Grape virus quarantine—Regulations. Grape planting stock will be admitted into the state of Washington provided the following provisions are complied with:

(1) The grape planting stock has been certified in accordance with the regulations of an official grapevine certification program that includes inspection and testing by methods approved by the director for fanleaf, leafroll and corky bark virus diseases. An official certificate issued by the plant protection organization of the state of origin certifying that the grapevines meet the requirements of this chapter must accompany the grape planting stock into the state.

(2) All shipments of grape planting stock must be plainly marked with the contents on the outside of the package or container.

(3) Persons shipping or transporting grape planting stock into this state from areas under quarantine shall notify the department by mail or telefacsimile prior to shipment. The notification must include the nature of the grape planting stock (such as live plants, hardwood cuttings, softwood cut-

tings, rootstocks, or other similar categories), the quantity in each shipment, the expected date of arrival, the name of the intended receiver and the destination. The person to whom the articles are shipped shall hold the articles until the grape planting stock is inspected and/or released by the department.

[Statutory Authority: Chapter 17.24 RCW. 00-23-096, § 16-483-030, filed 11/21/00, effective 12/22/00; 00-05-105, § 16-483-030, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-030, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-030, filed 3/16/70, effective 5/1/70.]

WAC 16-483-040 Grape virus quarantine—Disposition of material shipped in violation. The department will refuse admittance into the state grape planting stock not meeting the requirements of this chapter. For grape planting stock shipped into the state in violation of this chapter, the department will give the owner or the owner's responsible agent the option of destroying the material or immediately sending it out of the state.

[Statutory Authority: Chapter 17.24 RCW. 00-05-105, § 16-483-040, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-040, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-040, filed 3/16/70, effective 5/1/70.]

WAC 16-483-050 Grape virus quarantine—Exemption. The restrictions on the movement of regulated articles set forth in this chapter do not apply to grape planting stock imported for experimental or trial purposes by the United States Department of Agriculture or Washington State University: Provided, a permit issued by the director is obtained.

[Statutory Authority: Chapter 17.24 RCW. 00-05-105, § 16-483-050, filed 2/16/00, effective 3/18/00. Statutory Authority: Chapters 15.13 and 17.24 RCW. 91-21-042, § 16-483-050, filed 10/11/91, effective 11/11/91; Order 1146, § 16-483-050, filed 3/16/70, effective 5/1/70.]

WAC 16-484-200 Definitions. The definitions set forth in this section shall apply to WAC 16-484-205 through 16-484-260 unless the context otherwise requires:

(1) "Director" means the director of agriculture of this state, or a duly authorized representative.

(2) "Department" means the Washington state department of agriculture.

(3) "Seed potatoes" means White or Irish potatoes, *Solanum tuberosum*, intended for the purpose of propagation or reproduction.

(4) "Interior quarantine" means a quarantine within the state of Washington established against the movement of designated pests, life stages, their hosts, and possible carriers from areas identified by the department.

(5) "Exterior quarantine" means a quarantine established against the movement into Washington state of designated pests, life stages, their hosts, and possible carriers from areas identified by the department.

[Statutory Authority: Chapter 17.24 RCW. 91-13-026 (Order 2087), § 16-484-200, filed 6/11/91, effective 6/12/91.]

WAC 16-484-205 Penalties. Any person who violates or fails to comply with any rule adopted under chapter 17.24 RCW shall be guilty of a misdemeanor, and for a second and each subsequent violation of the same rule, shall be guilty of a gross misdemeanor.

[Statutory Authority: Chapter 17.24 RCW. 91-13-026 (Order 2087), § 16-484-205, filed 6/11/91, effective 6/12/91.]

WAC 16-484-210 Quarantine—PVYⁿ. A quarantine is established under this chapter against the PVYⁿ. PVYⁿ is a serious viral disease of certain species of the family Solanaceae, and is designated as a regulated pest in the North American Plant Protection Organization (NAPPO) standards for phytosanitary measures.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-210, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-210, filed 6/11/91, effective 6/12/91.]

WAC 16-484-220 Area under quarantine. The following areas are declared to be under quarantine for PVYⁿ:

(1) Exterior quarantine. All states and districts of the United States; and

(2) Interior quarantine. All counties in the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-220, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-220, filed 6/11/91, effective 6/12/91.]

WAC 16-484-230 Regulated articles. Regulated articles include all seed potatoes to be used for commercial planting or for seed potato production.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-230, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-230, filed 6/11/91, effective 6/12/91.]

WAC 16-484-240 Conditions governing the movement of regulated articles into Washington state. (1) Except as provided in WAC 16-484-250, all seed potatoes planted for commercial or seed potato production within the state of Washington must:

(a) Originate from a state or district that participates in the Canada/USA PVYⁿ Management Plan; or

(b) Be tested by and found free of PVYⁿ by the plant protection organization in the state of origin.

(2) The department may sample and test any lot of seed potatoes or conduct field inspections of commercial potatoes for the purpose of testing and verifying compliance with this chapter.

(3) All growers of commercial potatoes or seed potatoes must obtain documents certifying compliance with the Canada/USA PVYⁿ Management Plan and must provide those documents to the director upon request.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-240, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-240, filed 6/11/91, effective 6/12/91.]

WAC 16-484-250 Special permits and compliance agreements. The director may issue special permits or enter into compliance agreements allowing the movement of regulated articles covered in WAC 16-484-230 not otherwise eligible for movement from the area under quarantine, subject to conditions and provisions which the director may prescribe to prevent the escape or spread of PVYⁿ.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-250, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-250, filed 6/11/91, effective 6/12/91.]

WAC 16-484-260 Disposition of regulated articles entering in violation or found infected with PVYⁿ. Any regulated article (1) entering the state in violation of this quarantine; or (2) entering the state prior to the effective date of this quarantine which is or may be infected with PVYⁿ; shall be disposed of in a manner prescribed by the director, returned out-of-state, or destroyed at the option and expense of the owner or the owner's agent.

[Statutory Authority: Chapter 17.24 RCW. 02-12-009, § 16-484-260, filed 5/23/02, effective 6/23/02; 91-13-026 (Order 2087), § 16-484-260, filed 6/11/91, effective 6/12/91.]

(2007 Ed.)

Chapter 16-487 WAC PRUNUS DISEASE QUARANTINE

WAC

16-487-005	Definitions.
16-487-010	Disposition of materials moved in violation.
16-487-015	Notification requirement.
16-487-017	Special permits.
16-487-020	Peach yellows, little peach, and red suture diseases—Establishing quarantine.
16-487-023	Peach yellows, little peach, and red suture disease quarantine—Regulated articles.
16-487-025	Peach yellows, little peach, and red suture disease quarantine—Species not regulated.
16-487-030	Peach yellows, little peach, and red suture disease quarantine—Quarantine area.
16-487-040	Peach yellows, little peach, and red suture disease quarantine—Absolute quarantine for symptomless carriers.
16-487-050	Peach yellows, little peach, and red suture disease quarantine—Conditions for movement of regulated articles.
16-487-060	Peach yellows, little peach, and red suture disease quarantine—Reshipment permitted under certificate.
16-487-100	Peach rosette disease quarantine—Establishing quarantine.
16-487-110	Peach rosette disease quarantine—Regulated articles.
16-487-120	Peach rosette disease quarantine—Species not regulated.
16-487-130	Peach rosette disease quarantine—Quarantine area.
16-487-140	Peach rosette disease quarantine—Absolute quarantine for symptomless carriers.
16-487-150	Peach rosette disease quarantine—Conditions for movement of regulated articles.
16-487-160	Peach rosette disease quarantine—Reshipment permitted under certification.
16-487-200	Peach mosaic virus—Establishing quarantine.
16-487-210	Peach mosaic virus quarantine—Regulated articles.
16-487-220	Peach mosaic virus quarantine—Regulated area.
16-487-230	Peach mosaic virus quarantine—Requirements.
16-487-250	Peach mosaic virus—Reshipment permitted under certificate.
16-487-300	Peach rosette mosaic virus—Establishing quarantine.
16-487-310	Peach rosette mosaic virus quarantine—Regulated articles.
16-487-320	Peach rosette mosaic virus quarantine—Regulated area.
16-487-330	Peach rosette mosaic virus quarantine—Requirements.
16-487-335	Peach rosette mosaic virus quarantine—Permits for movement of regulated articles.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-487-240	Peach mosaic virus quarantine—Special permits. [Statutory Authority: Chapter 17.24 RCW. 91-21-041, § 16-487-240, filed 10/11/91, effective 11/11/91.] Repealed by 00-24-022, filed 11/28/00, effective 12/29/00. Statutory Authority: Chapter 17.24 RCW.
------------	--

WAC 16-487-005 Definitions. (1) "Director" means the director of the Washington state department of agriculture or the director's authorized representative.

(2) "Department" means the Washington state department of agriculture.

(3) "Growing ground" means any property within the area under quarantine on which planting stock produced for distribution or sale.

(4) "Indicator plant" means any herbaceous or woody plant used to index or test for infection.

(5) "Index" means to test for infection by means of inoculation from the plant to be tested to an indicator plant, or by any other method approved by the department.

(6) "Planting stock" means any plant material used in the propagation of horticultural, floracultural or viticultural plants for the purpose of being sold, offered for sale or distributed for planting or reproduction purposes.

(7) "Symptomless carrier" means a plant which may be infected by or capable of hosting a disease agent but which does not show visible disease symptoms.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-005, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-005, filed 10/11/91, effective 11/11/91.]

WAC 16-487-010 Disposition of materials moved in violation. Regulated articles, shipped in violation of this chapter, will be denied entry into the state and returned to the point of origin or destroyed at the option and expense of the owner(s) or their responsible agent.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-010, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-010, filed 10/11/91, effective 11/11/91; Order 386, § 1, effective 3/30/43.]

WAC 16-487-015 Notification requirement. Persons shipping regulated articles into the state of Washington from areas under quarantine by the provisions of this chapter must notify the plant services program of the department prior to shipment. At a minimum, notification must include the nature and quantity of each shipment, its destination, its expected date of arrival, and the name of the intended receiver.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-015, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-015, filed 10/11/91, effective 11/11/91.]

WAC 16-487-017 Special permits. (1) The provisions of this chapter do not apply to plants or propagative parts of plants imported for experimental purposes by the United States Department of Agriculture or the Washington State University agricultural experiment stations, if a permit to import has been issued by the department.

(2) The department may issue special permits allowing entry of regulated articles otherwise prohibited in this chapter. The permit will state mandatory provisions or conditions under which entry is allowed.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-017, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-017, filed 10/11/91, effective 11/11/91.]

WAC 16-487-020 Peach yellows, little peach, and red suture diseases—Establishing quarantine. The director has determined that peach yellows, little peach, and red suture diseases do not exist in the state of Washington and that the introduction of these diseases into the state would cause economic loss to the horticultural industries within the state. To prevent this loss, a quarantine is hereby established against the host plants and possible carriers of peach yellows, little peach and red suture diseases.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-020, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-020, filed 10/11/91, effective 11/11/91; Order 386, § 2, effective 3/30/43.]

WAC 16-487-023 Peach yellows, little peach, and red suture disease quarantine—Regulated articles. All planting stock of the genus *Prunus*, except seeds, is regulated under the peach yellows, little peach, and red suture disease quarantine, except those listed in WAC 16-487-025.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-023, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-023, filed 10/11/91, effective 11/11/91.]

[Title 16 WAC—p. 502]

WAC 16-487-025 Peach yellows, little peach, and red suture disease quarantine—Species not regulated. The following species have been determined not to be hosts of peach yellows, little peach, and red suture diseases and are not regulated under WAC 16-487-021 through 16-487-060:

Prunus avium, sweet cherry
Prunus besseyi, western sand cherry
Prunus cerasus, sour cherry
Prunus caroliniana, American cherry laurel, Carolina cherry laurel
Prunus ilicifolia, California cherry, hollyleaf cherry
Prunus laurocerasus, cherry laurel, English laurel
Prunus lusitanica, Portugal laurel
Prunus lyonii, Catalina cherry

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-025, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-025, filed 10/11/91, effective 11/11/91.]

WAC 16-487-030 Peach yellows, little peach, and red suture disease quarantine—Quarantine area. The entire states of Alabama, Connecticut, Delaware, Florida, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia are declared to be quarantine areas for peach yellows, little peach, and red suture diseases.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-030, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-030, filed 10/11/91, effective 11/11/91; Order 386, § 3, effective 3/30/43.]

WAC 16-487-040 Peach yellows, little peach, and red suture disease quarantine—Absolute quarantine for symptomless carriers. The following *Prunus* species are symptomless carriers of peach yellows, little peach, and red suture diseases. All planting stock of these species, except seeds, is prohibited entry into Washington state:

Prunus americana, American plum
Prunus cerasifera, cherry plum, myrobalan plum, "Antropurpurea" purple leaf plum
Prunus domestica, European plum, prune
Prunus hortulana, hortulan plum
Prunus munsoniana, wild goose plum
Prunus salicina, Japanese plum
 hybrids of any of the species named in this section and wild native species of plum.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-040, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-040, filed 10/11/91, effective 11/11/91; Order 386, § 4, effective 3/30/43.]

WAC 16-487-050 Peach yellows, little peach, and red suture disease quarantine—Conditions for movement of regulated articles. Regulated articles, as listed in WAC 16-487-023, other than symptomless carriers listed in WAC 16-487-040, may be permitted entry into the state if the plant protection organization of the state in which the planting stock was grown issues a certificate verifying that all four of the following requirements have been met:

(1) Each species and variety is properly labeled as to scientific name and state of origin.

(2007 Ed.)

(2) One of the following two conditions has been fulfilled:

(a) The planting stock was produced in accordance with an official certification program of the state in which the planting stock was grown. The official certification program must include inspection and indexing on suitable indicator plants for peach yellows, little peach and red suture diseases; or

(b) The planting stock was tested and found free of the causal phytoplasma using a laboratory test protocol approved by the department. In order to ensure accurate test results, samples for testing must be collected late in the growing season.

(3) Peach yellows, little peach, and red suture disease symptoms were not found on the growing grounds during the period when the planting stock was growing or budwood taken.

(4) No symptomless carriers existed on the growing grounds during the production of the planting stock, except symptomless carrier planting stock that meets the requirements of subsection (2) of this section.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-050, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-050, filed 10/11/91, effective 11/11/91; Order 386, § 5, effective 3/30/43.]

WAC 16-487-060 Peach yellows, little peach, and red suture disease quarantine—Reshipment permitted under certificate. Regulated articles, as listed in WAC 16-487-023, may be reshipped into Washington state from a quarantine area, as listed in WAC 16-487-030, if all three of the following conditions are fulfilled:

(1) The planting stock was propagated in a nonquarantine state; and

(2) The planting stock remained dormant at all times while it was in the quarantine area; and

(3) A certificate issued by the plant protection organization of the state under quarantine accompanies the planting stock. The certificate must name the state where the planting stock was produced and declare that the planting stock remained dormant at all times while within the quarantine area.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-060, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-060, filed 10/11/91, effective 11/11/91; Order 386, § 5, effective 3/30/43.]

WAC 16-487-100 Peach rosette disease quarantine—Establishing quarantine. The director has determined that peach rosette disease is not present in the state of Washington and that the introduction of this disease would cause economic loss to the horticultural industries in the state. To prevent this loss, a quarantine is hereby established against the host plants and possible carriers of the phytoplasma that causes peach rosette disease.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-100, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-100, filed 10/11/91, effective 11/11/91.]

WAC 16-487-110 Peach rosette disease quarantine—Regulated articles. All planting stock, except seed, of all species of the genus *Prunus* except those listed in WAC 16-487-120 is regulated under the peach rosette disease quarantine in WAC 16-487-100 through 16-487-160.

487-120 is regulated under the peach rosette disease quarantine in WAC 16-487-100 through 16-487-160.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-110, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-110, filed 10/11/91, effective 11/11/91.]

WAC 16-487-120 Peach rosette disease quarantine—Species not regulated. The following species have been determined not to be carriers of peach rosette disease and are not regulated under the peach rosette disease quarantine in WAC 16-487-100 through 16-487-160:

Prunus caroliniana, American cherry laurel, Carolina cherry laurel

Prunus ilicifolia, holly leaf cherry, California cherry

Prunus laurocerasus, cherry laurel, English laurel

Prunus lusitanica, Portugal laurel

Prunus lyonii, Catalina cherry

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-120, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-120, filed 10/11/91, effective 11/11/91.]

WAC 16-487-130 Peach rosette disease quarantine—Quarantine area. The entire states of Alabama, Arkansas, Florida, Georgia, Mississippi, Oklahoma, South Carolina, Tennessee, and West Virginia are declared to be quarantined areas for peach rosette disease.

[Statutory Authority: Chapter 17.24 RCW. 91-21-041, § 16-487-130, filed 10/11/91, effective 11/11/91.]

WAC 16-487-140 Peach rosette disease quarantine—Absolute quarantine for symptomless carriers. The following *Prunus* species and cultivars are symptomless carriers of peach rosette disease. All planting stock (except seed) of these species and cultivars are prohibited entry into Washington state:

Prunus armeniaca, the "Wilson" cultivar of apricot

Prunus cerasifera x *P. munsoniiana*, Mariana plums

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-140, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-140, filed 10/11/91, effective 11/11/91.]

WAC 16-487-150 Peach rosette disease quarantine—Conditions for movement of regulated articles. Regulated articles, as listed in WAC 16-487-110, other than symptomless carriers listed in WAC 16-487-140, may be permitted entry into the state if the planting stock is accompanied by a certificate issued by the plant protection organization of the state in which the planting stock was grown. At a minimum, the certificate must state that all four of the following requirements have been met:

(1) Each species and variety is properly labeled as to scientific name and state of origin.

(2) One of the following two conditions has been complied with:

(a) The planting stock was grown in compliance with the conditions of an official certification program in the state in which the planting stock was grown, which includes inspection and indexing on suitable indicator plants to verify freedom from peach rosette disease; or

(b) The planting stock was tested through laboratory methods approved by the department and found free of the causal phytoplasma of peach rosette disease. Sampling for this test must be performed late in the growing season.

(3) Peach rosette disease symptoms were not found during the period when the planting stock was growing or budwood taken.

(4) No symptomless carrier listed in WAC 16-487-140 existed on the growing grounds during the production of the planting stock, except symptomless carrier planting stock that fulfills the requirements in subsection (2) of this section.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-150, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-150, filed 10/11/91, effective 11/11/91.]

WAC 16-487-160 Peach rosette disease quarantine—Reshipment permitted under certification. Regulated articles, as listed in WAC 16-487-110, may be reshipped into Washington state from a quarantine area, as listed in WAC 16-487-130, if all three of the following conditions are fulfilled:

(1) The planting stock was propagated in a nonquarantine state; and

(2) The planting stock remained dormant at all times while it was in the quarantine state; and

(3) A certificate issued by the plant protection organization of the state under quarantine accompanies the planting stock. The certificate must name the state where the planting stock was produced and declare that the planting stock remained dormant at all times while within the quarantine area.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-160, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-160, filed 10/11/91, effective 11/11/91.]

WAC 16-487-200 Peach mosaic virus—Establishing quarantine. The director has determined that peach mosaic virus is not present in the state of Washington and that the introduction of this disease would cause economic loss to the horticultural industries in the state. To prevent this loss, a quarantine is hereby established against the host plants and possible carriers of peach mosaic virus.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-200, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-200, filed 10/11/91, effective 11/11/91.]

WAC 16-487-210 Peach mosaic virus quarantine—Regulated articles. All planting stock, except seeds of all species, varieties, and hybrids of almond, apricot, peach, plum, prune, Manchu cherry (*Prunus tomentosa*) and western sand cherry (*Prunus besseyi*) is regulated under the peach mosaic virus quarantine.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-210, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-210, filed 10/11/91, effective 11/11/91.]

WAC 16-487-220 Peach mosaic virus quarantine—Regulated area. The following are declared to be areas under quarantine for peach mosaic virus:

- (1) The entire states of Arizona and New Mexico.

[Title 16 WAC—p. 504]

(2) In Colorado, the counties of Delta, Garfield, Mesa, Montezuma, and Montrose.

(3) In Oklahoma, the counties of Alfalfa, Bryan, Johnson, and Woods.

(4) In Texas, the counties of Brown, Callahan, Camp, Cherokee, Comanche, Dallas, Eastland, El Paso, Erath, Fisher, Floyd, Freestone, Hale, Harrison, Hudspeth, Jones, Limestone, Palo Pinto, Rannels, San Saba, Smith, Tarrant, Taylor, Upshur, and Young.

(5) In California, the counties of Los Angeles, Riverside, San Bernardino, and San Diego.

[Statutory Authority: Chapter 17.24 RCW. 91-21-041, § 16-487-220, filed 10/11/91, effective 11/11/91.]

WAC 16-487-230 Peach mosaic virus quarantine—Requirements. All regulated articles listed in WAC 16-487-210 from areas under quarantine, as listed in WAC 16-487-220, are prohibited entry into Washington state.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-230, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-230, filed 10/11/91, effective 11/11/91.]

WAC 16-487-250 Peach mosaic virus—Reshipment permitted under certificate. Regulated articles, as listed in WAC 16-487-210, may be reshipped into Washington state from a quarantine area, as listed in WAC 16-487-220, if all three of the following conditions are fulfilled:

(1) The planting stock was propagated outside the quarantine area; and

(2) The planting stock remained dormant at all times while it was in the quarantine area; and

(3) A certificate issued by the state plant protection organization for the quarantine area accompanies the planting stock. The certificate must name the state where the planting stock was produced and declare that the planting stock remained dormant at all times while within the quarantine area.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-250, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-250, filed 10/11/91, effective 11/11/91.]

WAC 16-487-300 Peach rosette mosaic virus—Establishing quarantine. The director has determined that peach rosette mosaic virus is not present in the state of Washington and that the introduction of the disease would cause economic loss to the horticultural industries in the state. To prevent this loss, a quarantine is hereby established against the host plants and possible carriers of peach rosette mosaic virus.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-300, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-300, filed 10/11/91, effective 11/11/91.]

WAC 16-487-310 Peach rosette mosaic virus quarantine—Regulated articles. All planting stock, except seeds, of peach (*Prunus persica*) and American grape (*Vitis lubrusca*) is regulated under the peach rosette mosaic virus quarantine.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-310, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-310, filed 10/11/91, effective 11/11/91.]

WAC 16-487-320 Peach rosette mosaic virus quarantine—Regulated area. The areas under quarantine for peach rosette mosaic virus disease are:

- (1) For peach planting stock, the counties of Berrien, Kalamazoo, and Van Buren in the state of Michigan.
- (2) For American grape, the entire state of Michigan.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-320, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-320, filed 10/11/91, effective 11/11/91.]

WAC 16-487-330 Peach rosette mosaic virus quarantine—Requirements. All regulated articles listed in WAC 16-487-310 from the applicable areas under quarantine, as listed in WAC 16-487-320, are prohibited entry into Washington state, unless the shipment is accompanied by a permit as described in WAC 16-487-335.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-330, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-330, filed 10/11/91, effective 11/11/91.]

WAC 16-487-335 Peach rosette mosaic virus quarantine—Permits for movement of regulated articles. Regulated articles, as listed in WAC 16-487-310, grown in the areas under quarantine, as listed in WAC 16-487-320, may be permitted entry into the state if the plant protection organization of the state in which the planting stock was grown issues a certificate verifying that both of the following requirements have been met:

- (1) Each species and variety is properly labeled as to scientific name and state of origin.
- (2) The planting stock was produced in accordance with an official certification program of the state in which it was grown. The official certification program must include inspection and indexing for peach rosette mosaic virus.

[Statutory Authority: Chapter 17.24 RCW. 00-24-022, § 16-487-335, filed 11/28/00, effective 12/29/00; 91-21-041, § 16-487-335, filed 10/11/91, effective 11/11/91.]

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-488-001	Promulgation. Establishing quarantine. [Order 1327, § 16-488-001, filed 10/10/73.] Repealed by 86-19-002 (Order 1906), filed 9/5/86. Statutory Authority: Chapter 17.24 RCW.
16-488-005	Pest. [Order 1327, § 16-488-005, filed 10/10/73.] Repealed by 86-19-002 (Order 1906), filed 9/5/86. Statutory Authority: Chapter 17.24 RCW.
16-488-020	Areas not infested. [Order 1327, § 16-488-020, filed 10/10/73.] Repealed by 86-19-002 (Order 1906), filed 9/5/86. Statutory Authority: Chapter 17.24 RCW.
16-488-035	Violation and penalty. [Order 1327, § 16-488-035, filed 10/10/73.] Repealed by 86-19-002 (Order 1906), filed 9/5/86. Statutory Authority: Chapter 17.24 RCW.

(2007 Ed.)

16-488-040

Effective date. [Order 1327, § 16-488-040, filed 10/10/73.] Repealed by 86-19-002 (Order 1906), filed 9/5/86. Statutory Authority: Chapter 17.24 RCW.

WAC 16-488-002 Definitions. The definitions set forth in this section shall apply throughout this chapter, unless the context otherwise requires:

- (1) "Director" means the director of agriculture of this state, or a duly authorized representative.
- (2) "Department" means the Washington state department of agriculture.
- (3) "Interior quarantine" means a quarantine within the state of Washington established against the movement of designated plant pests, life stages, their hosts, and possible carriers from areas identified by the Washington state department of agriculture.
- (4) "Exterior quarantine" means a quarantine established against the movement into Washington state of designated plant pests, life stages, their hosts, and possible carriers from areas identified by the Washington state department of agriculture.
- (5) "Commercial orchard" means an orchard in which fruit is grown for commercial purposes and with the use of approved and accepted integrated pest management programs pursuant to statutes, guidelines or rules approved by the agricultural extension service or regulatory officials of the state of origin.

- (6) "Commercial fruit" means fruit that is:

- (a) Grown in a commercial orchard and commercially packed and labeled;
- (b) Fruit grown in a commercial orchard and destined to a commercial processing plant or packing plant.

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-002, filed 9/5/86.]

WAC 16-488-006 Blueberry maggot—Establishing quarantine. Blueberry maggot (*Rhagoletis mendax*) is known to infest blueberries in various states situated in the eastern part of the United States, and blueberries produced in this state are susceptible to infestation by blueberry maggot (*Rhagoletis mendax*); therefore, a quarantine is established to prevent shipments or receipt of blueberries from such eastern states which may constitute a direct threat or hazard to blueberry production in Washington state.

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-006, filed 9/5/86.]

WAC 16-488-010 Blueberry quarantine—Commodity covered. The movement or shipment into Washington state of all fresh fruit of blueberry from areas under quarantine (see WAC 16-488-015) shall be prohibited except as provided for in WAC 16-488-025.

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-010, filed 9/5/86; Order 1327, § 16-488-010, filed 10/10/73.]

WAC 16-488-015 Blueberry quarantine—Areas under quarantine. The following areas are declared by the director to be under quarantine for blueberry maggot: All states and districts of the United States east of and including the states of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas.

[Title 16 WAC—p. 505]

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-015, filed 9/5/86; Order 1327, § 16-488-015, filed 10/10/73.]

WAC 16-488-025 Blueberry quarantine exemptions.

Fresh fruit of blueberry may be moved or shipped from quarantined areas into Washington state under the following conditions:

(1) No restrictions are placed by this section on the entry into this state of fruits which upon arrival are frozen solid and which are under refrigeration to assure their solid frozen state.

(2) Commodities covered which are held in cold storage for a continuous period of forty days or more, during which period the temperature within the storage room is maintained at thirty-two degrees fahrenheit or less, may be admitted: Provided, That a lot or shipment is accompanied by a certificate issued by an official governmental agency from the state of origin evidencing compliance with the minimum requirements of this section.

(3) Each shipment of blueberries that have been fumigated with methylbromide at atmospheric pressure by one of the following schedules may be permitted entry into Washington state: Provided, That residues on fresh fruit of blueberries do not exceed the Federal Food and Drug Administration's allowable tolerances.

32 g/m³ (2 lbs./1,000 ft.³) for 2 hours at 27.7°C (82°F) or above; or

32 g/m³ (2 lbs./1,000 ft.³) for 2 1/2 hours at 22.2°C - 27.2°C (72°F-81°F); or

32 g/m³ (2 lbs./1,000 ft.³) for 3 hours at 16.6°C - 21.6°C (62°F-71°F); or

32 g/m³ (2 lbs./1,000 ft.³) for 3 1/2 hours at 10°C - 16.1°C (50°F-61°F).

(a) The fumigation shall be done by applicators who are registered or certified in fumigation pest control in the state of origin;

(b) Each fumigation shall be monitored and supervised by an authorized representative of the origin state department of agriculture;

(c) Each shipment of blueberries shall be accompanied by a phyto-sanitary certificate issued by an authorized representative of the origin state department of agriculture evidencing compliance with the fumigation requirements. The certificate shall state the number of cartons in the shipment and the name and address of the consignee. In addition, a copy of the phyto-sanitary certificate and the estimated date of arrival shall be sent, by mail or electronically, to the Washington state department of agriculture, plant services division, prior to the shipment of the blueberries; and

(d) All shipping containers (flats) shall be stamped or tagged indicating the fresh fruit of blueberries have undergone fumigation.

[Statutory Authority: Chapter 17.24 RCW. 90-12-123 (Order 2040), § 16-488-025, filed 6/6/90, effective 7/7/90; 88-17-014 (Order 1985), § 16-488-025, filed 8/9/88; 86-19-002 (Order 1906), § 16-488-025, filed 9/5/86; Order 1327, § 16-488-025, filed 10/10/73.]

WAC 16-488-030 Blueberry quarantine disposition of material shipped in violation of this quarantine. All fresh fruit of blueberry not meeting the requirements of this chapter shall be returned to the point of origin, or destroyed at

[Title 16 WAC—p. 506]

the option and expense of the owner(s) or the owner(s) responsible agent(s).

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-030, filed 9/5/86; Order 1327, § 16-488-030, filed 10/10/73.]

WAC 16-488-990 Permits. The director may issue special permits admitting commodities under quarantine not otherwise eligible for entry from the area under quarantine, subject to conditions and provisions which the director may prescribe to prevent introduction, escape, or spread of the quarantined pests.

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-990, filed 9/5/86.]

WAC 16-488-995 Penalty and violation. All violations of this chapter shall be dealt with according to the provisions of RCW 17.24.100.

[Statutory Authority: Chapter 17.24 RCW. 86-19-002 (Order 1906), § 16-488-995, filed 9/5/86.]

Chapter 16-489 WAC

BLUEBERRY SCORCH VIRUS QUARANTINE

WAC

16-489-010	Blueberry scorch virus.
16-489-020	Blueberry scorch virus—Definitions.
16-489-030	Blueberry scorch virus—Area under quarantine.
16-489-040	Blueberry scorch virus—Regulated articles.
16-489-050	Blueberry scorch virus—Restrictions.
16-489-060	Blueberry scorch virus—Recordkeeping.
16-489-070	Blueberry scorch virus—Exceptions.

WAC 16-489-010 Blueberry scorch virus. Blueberry scorch virus is an aphid-borne virus that causes necrosis of leaves and flowers in susceptible blueberry varieties, leading to a decline in productivity. A strain of blueberry scorch virus benign to varieties commonly grown in the Pacific Northwest has been historically present in Washington. Now a more virulent strain of blueberry scorch virus has been identified in western North America. If this virulent strain is introduced into the state, it will have a severe economic impact on Washington's blueberry industry. The strains of blueberry scorch virus cannot be readily distinguished by standard laboratory testing methods, making it necessary to eliminate all strains of this virus from Washington. A quarantine is established under authority of chapters 17.24 and 15.13 RCW, in order to prevent introduction and spread of all strains of blueberry scorch virus.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-010, filed 6/19/02, effective 7/20/02.]

WAC 16-489-020 Blueberry scorch virus—Definitions. The following definitions apply to chapter 16-489 WAC.

(1) "Blueberry plants" means all plants and plant parts of *Vaccinium corymbosum*, except fruit that is free of leaf tissue.

(2) "Blueberry scorch virus" means any and all strains of blueberry scorch carlavirus.

(3) "Pest free area" means an area where no strain of blueberry scorch virus occurs, as demonstrated by scientific

(2007 Ed.)

evidence, and in which, where appropriate, this blueberry scorch virus free condition is being officially maintained.

(4) "Director" means the director of the Washington state department of agriculture or the director's authorized representative.

(5) "Micropropagated plants" means plants propagated using aseptic laboratory techniques and an artificial culture medium.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-020, filed 6/19/02, effective 7/20/02.]

WAC 16-489-030 Blueberry scorch virus—Area under quarantine. All states and territories of the United States and all counties within the state of Washington.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-030, filed 6/19/02, effective 7/20/02.]

WAC 16-489-040 Blueberry scorch virus—Regulated articles. All blueberry plants and plants of other *Vaccinium* species shown to be hosts for blueberry scorch virus are regulated articles. Blueberry fruit that is free of leaf tissue is not regulated under this chapter; however, please note that blueberry fruit may be regulated for other pests under provisions of chapter 16-488 WAC.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-040, filed 6/19/02, effective 7/20/02.]

WAC 16-489-050 Blueberry scorch virus—Restrictions. (1) All regulated articles planted, sold, offered for sale or transported within the state must be demonstrated free of blueberry scorch virus by meeting at least one of the following conditions:

- (a) They must originate from a pest free area;
- (b) They are certified in accordance with the regulations of an official certification program in the state of origin that includes testing and inspection for blueberry viruses and is approved by the director;
- (c) They are shown to be free of blueberry scorch virus, based on an official laboratory test using a protocol approved by the director; or
- (d) They are micropropagated and/or grown in an insect-proof greenhouse or screenhouse and originate from mother plants that have been tested and found free of blueberry scorch virus.

(2) Persons importing regulated articles into the state must obtain a phytosanitary certificate from the plant protection organization of the place of origin verifying that one of the conditions in subsection (1) of this section has been met. A copy of the phytosanitary certificate must accompany the shipment.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-050, filed 6/19/02, effective 7/20/02.]

WAC 16-489-060 Blueberry scorch virus—Record-keeping. (1) All persons planting or growing regulated articles in the state are required to retain records as specified in subsection (2) of this section for a period of not less than one calendar year from acquisition of the plants.

(2) These records shall contain the number and variety of plants, the name and address of the propagator, and application

phytosanitary certificates, certification tags or documentation, and laboratory testing reports.

(3) The grower must provide a copy of the records to the plant services program of the state department of agriculture upon request of the director.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-060, filed 6/19/02, effective 7/20/02.]

WAC 16-489-070 Blueberry scorch virus—Exceptions. The director may issue special permits to allow blueberry plants otherwise prohibited in this chapter to be planted, sold, offered for sale, or transported. Such special permits must be in writing and must be obtained prior to planting, sale, and/or transportation.

[Statutory Authority: Chapters 17.24, 15.13 RCW. 02-13-125, § 16-489-070, filed 6/19/02, effective 7/20/02.]

Chapter 16-497 WAC HOP DISEASE QUARANTINE

WAC

16-497-001	Establishing quarantine.
16-497-005	Hop disease quarantine—Definitions.
16-497-010	Quarantine area.
16-497-020	Regulated articles.
16-497-030	Regulations—Conditions governing the movement of regulated articles.
16-497-040	Disposition of material shipped in violation of this quarantine.
16-497-050	Exemption.
16-497-060	Violation and penalty.

WAC 16-497-001 Establishing quarantine. The introduction of dangerous diseases of hops into the state of Washington would entail great losses to the horticultural interests of the state, and the most rigid examinations cannot determine the presence of disease on dormant hop plants or parts of plants; therefore this quarantine is established by the director of agriculture, pursuant to the authority provided in chapter 17.24 RCW, setting forth the rules for the importation of hop plants into the state of Washington.

[Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-001, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-001, filed 12/31/79, effective 6/1/80.]

WAC 16-497-005 Hop disease quarantine—Definitions. (1) "Director" means the director of the Washington state department of agriculture or the director's authorized representative.

(2) "Department" means the Washington state department of agriculture.

(3) "Iilar viruses" means a grouping of viruses, including Apple Mosaic Virus and Prunus Necrotic Ringspot, which share common characteristics including spherical in shape, with genetic material in three different particles and commonly inducing ring spots in hosts.

(4) "Verticillium wilt" means the disease caused by *Verticillium albo-atrum* Reinke & Berth, or hop strains of this organism.

(5) "Powdery mildew" means the disease caused by *Sphaerotheca macularis* (WALLR.: FR) Lind = *Sphaerotheca humuli* (DC) Burrill.

[Statutory Authority: RCW 17.24.041. 95-18-033 (Order 5082), § 16-497-005, filed 8/28/95, effective 9/28/95. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-005, filed 3/27/91, effective 4/27/91.]

WAC 16-497-010 Quarantine area. All areas outside of the territorial borders of the state of Washington.

[Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-010, filed 12/31/79, effective 6/1/80.]

WAC 16-497-020 Regulated articles. Plants and all parts thereof (except the kiln dried cone) of hops (*Humulus Lupulus* L.)

[Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-020, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-020, filed 12/31/79, effective 6/1/80.]

WAC 16-497-030 Regulations—Conditions governing the movement of regulated articles. Hop plants and all parts thereof will be admitted into the state of Washington: Provided, That the following provisions are complied with.

(1) The hop plant or parts thereof have been certified in accordance with the regulations of an official state agency, which certification program requires at least two field inspections during the growing season, and requires that certification tolerances shall not exceed: Powdery mildew, Verticillium wilt (*albo atrum* (dm)), and Ilar viruses, zero percent: And provided further, That all shipments of such hop planting stock shall be apparently free of insect pests and shall be accompanied by a certificate issued by an official agency of the state of origin certifying that the hop planting stock was produced under official certification regulations and meets official standards.

(2) All shipments of hop planting stock shall be plainly marked with the contents on the outside of the package or container.

(3) Persons shipping or transporting regulated articles into this state from areas under quarantine shall notify the department's plant certification branch of the nature and quantity of each shipment, the expected date of arrival at destination, the name of the intended receiver and the destination. The person to whom the articles are shipped shall hold the same until they are inspected and/or released by the department.

[Statutory Authority: RCW 17.24.041. 95-18-033 (Order 5082), § 16-497-030, filed 8/28/95, effective 9/28/95. Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-030, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-030, filed 12/31/79, effective 6/1/80.]

WAC 16-497-040 Disposition of material shipped in violation of this quarantine. All regulated articles arriving in the state of Washington in violation of this quarantine shall be immediately sent out of the state or destroyed at the option and expense of the owner or owners, or their responsible agents.

[Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-040, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-040, filed 12/31/79, effective 6/1/80.]

[Title 16 WAC—p. 508]

WAC 16-497-050 Exemption. The restrictions on the movement of regulated articles set forth in this chapter shall not apply to hop plants or parts of plants imported for experimental or trial purposes by the United States Department of Agriculture or the state experiment stations in the state of Washington.

[Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-050, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-050, filed 12/31/79, effective 6/1/80.]

WAC 16-497-060 Violation and penalty. Violations of this quarantine shall be punishable by the criminal and/or civil penalties provided by law in addition to any other inspection costs that may be assessed.

[Statutory Authority: Chapters 15.14 and 17.24 RCW. 91-08-016 (Order 2077), § 16-497-060, filed 3/27/91, effective 4/27/91. Statutory Authority: Chapter 17.24 RCW. 80-01-093 (Order 1663), § 16-497-060, filed 12/31/79, effective 6/1/80.]

Chapter 16-501 WAC

WSDA PROCEDURAL RULES—COMMODITY BOARDS OR COMMISSIONS

WAC

16-501-005	Definitions.
16-501-010	Commodity commission financial contribution.
16-501-015	Calculation of a commodity board or commission's contribution.

Procedural Rules for Administrative Function for Commodity Commissions Elections

16-501-525	Unsigned ballot envelopes: Advisory votes, referenda, and board member elections.
------------	---

WAC 16-501-005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout the chapter:

"Assessment level" means the total annual assessment collected by an agricultural commodity board or commission under the provisions of its marketing order or authorizing statute.

"Department" means the Washington state department of agriculture (WSDA).

"Total financial contribution" means the contributions from all agricultural commodity boards and commissions to cover one-half the annual salary and benefits of the department's commodity commission coordinator for commodity boards and commissions plus the annual costs for goods and services, travel, training and equipment necessary to support the commodity commission coordinator.

[Statutory Authority: Chapters 15.65, 15.66, 15.24, 16.67, 15.44, 15.28, 15.26, 15.88, and 43.23 RCW. 02-16-045, § 16-501-005, filed 8/1/02, effective 9/1/02.]

WAC 16-501-010 Commodity commission financial contribution. (1) Under the provisions of RCW 43.23, the director may establish, by rule, a method to fund staff support for all commodity boards and commissions.

(2) Before July 1 of each fiscal year, the department will determine the total financial contribution required from all commodity boards or commissions and calculate, according to the provisions of WAC 16-501-015, each board or commission's share of that total contribution. The board or com-

(2007 Ed.)

mission's contribution shall be based on the previous fiscal year's assessment level.

(3) On or around July 1 of each fiscal year, the department will bill each commodity board or commission for its portion of the total financial contribution. The board or commission shall remit to the department the amount billed within thirty days of the billing date.

(4) The department will provide each commodity board or commission with an annual report regarding the department's activities on behalf of the boards or commissions.

[Statutory Authority: Chapters 15.65, 15.66, 15.24, 16.67, 15.44, 15.28, 15.26, 15.88, and 43.23 RCW. 02-16-045, § 16-501-010, filed 8/1/02, effective 9/1/02.]

WAC 16-501-015 Calculation of a commodity board or commission's contribution. The total financial contribution for each commodity board or commission shall be calculated using the following steps:

(1) Step 1 - Using a board or commission's assessment level, the base assessment portion of a commodity board or commission's share of the total financial contribution is established as follows:

Contribution Categories

Assessment Level	Base Assessment
> \$100,000	\$ 250.00
100,001 - 250,000	500.00
250,001 - 500,000	750.00
500,001 - 1,000,000	1,000.00
1,000,001 - 5,000,000	2,000.00
5,000,001 - 10,000,000	3,000.00
10,000,001 and above	4,000.00

A percentage is calculated for each board or commission by dividing the board or commission's base assessment by the total base assessment for all boards and commissions.

For example, assuming commission A's base assessment is \$4,000 divided by an assumed total base assessment of \$80,000 results in 5% (.05)

(2) Step 2 - The difference between the total financial contribution and the total base assessment is apportioned to each board or commission using the percentage calculated in subsection (1) subject to a \$7,500 cap on any one board or commission;

For example, assuming a total financial contribution of \$105,000 minus the assumed total base assessment of \$80,000 results in a difference of \$25,000. \$25,000 multiplied by commission A's .05 equals \$1,250. This is commission A's portion of the difference.

(3) Step 3 - If any commission reaches the \$7,500 cap in Step 2, the difference between the amount calculated for that board or commission in subsection (2) and \$7,500 would be recalculated among the remaining commissions or boards using a percentage of each commission's base assessment to the total base assessment less the base assessment of the commission that reached the cap.

For example, assume that commission A's percentage remains 5% but that the difference between the total

financial contribution and the total base assessment is \$180,000. \$180,000 multiplied by .05 equals \$9,000. \$9,000 exceeds the \$7,500 cap for commission A by \$1,500. This \$1,500 would be apportioned between the other boards and commissions excluding commission A.

For example, assume that commission B's base assessment is \$3,000. The total base assessment excluding commission A is now \$76,000 (\$80,000 less commission A's \$4,000). Commission B's base assessment of \$3,000 divided by \$76,000 results in .04 rounded (4%). \$1,500 (the excess over the cap for commission A) multiplied by .04 equals \$60, which is commission B's share of the excess.

(4) Step 4 - A commodity commission or board's contribution is the sum of the base assessment from subsection (1) and the calculations in subsections (2) or (3) whichever is applicable.

For example, using the calculations in subsection (2), commission A's contribution is \$5,250 (\$4,000 base assessment plus \$1,250 apportioned share).

Using the calculations in subsection (3), commission A's contribution is \$11,500 (\$4,000 base assessment plus the \$7,500 cap).

[Statutory Authority: Chapters 15.65, 15.66, 15.24, 16.67, 15.44, 15.28, 15.26, 15.88, and 43.23 RCW. 02-16-045, § 16-501-015, filed 8/1/02, effective 9/1/02.]

Procedural Rules for Administrative Function for Commodity Commissions Elections

WAC 16-501-525 Unsigned ballot envelopes: Advisory votes, referenda, and board member elections. The director of the department of agriculture is responsible for administering elections for advisory votes, marketing order referenda and board member selection as required in chapters 15.65 and 15.66 RCW.

(1) The department will mail ballots to those eligible to vote in each election according to the terms of the applicable statute and marketing order. Each voter will be provided an official ballot, instructions for voting, a security envelope and return ballot-mailing envelope with a "Certificate of Eligibility" (certification) printed on the reverse side of the envelope.

(2) After casting its vote in the election, an eligible voter must place the ballot in the security envelope. The security envelope is then to be placed in the ballot-mailing return envelope with the certification on the reverse side. To validate its ballot, the voter is required to complete, sign and date the certification.

(3) In the event a ballot is submitted to the department and the certification is not signed and dated in accordance with the instructions contained on the outside of the ballot-mailing return envelope or the ballot is returned in a different envelope without a certification, the department shall process the ballot and the ballot-mailing return envelope as follows, if the department is able to ascertain the identity of the eligible voter from the envelope:

(a) The department will not open the ballot-mailing return envelope, but will make a copy of the reverse side of the ballot-mailing return envelope with the printed certifica-

tion. The original ballot-mailing return envelope will be held by the department.

(b) The department will provide the eligible voter with a copy of the ballot-mailing return envelope with the certification and require the voter to sign the copy of the certification and mail it back to the department so that it is received not later than the date specified in the correspondence accompanying the certification.

(c) The department shall advise the voter about the correct procedures for completing the unsigned certification and that, in order for the ballot to be counted, the voter must sign and date the copy of the certification, and mail it back to the department so that it does not arrive later than the specified date.

(d) The signed certification must be received by the department within fourteen calendar days from the date the copy of the certification was mailed to the voter as evidenced by the United States mail date stamp, for the voter's ballot to be validated.

(e) If the department does not receive the signed certification with the requested information within the specified time frame, the original ballot-mailing envelope will not be opened nor will the ballot it contains be counted. The unopened ballot-mailing envelope will be set aside and retained in accordance with the appropriate records retention schedule.

(4) A record shall be kept of the date on which the department mailed the copy of the certification to the eligible voter, the date on which the voter signed the certification and the date that the department received the certification. That record will be retained in accordance with applicable records retention schedules for ballots.

(5) Only validated ballots will be included in a ballot count.

(6) This rule applies to elections and runoffs required by statute that are conducted after the effective date of this rule. However, subsections (3) and (4) do not apply in an election once any election ballots have been counted or in a runoff election once any runoff election ballots have been counted.

(7) This rule does not apply if the recount period specified in the applicable statute has expired.

[Statutory Authority: RCW 15.65.047 and 15.66.055. 05-08-078, § 16-501-525, filed 4/1/05, effective 5/2/05.]

WAC 16-512-005 Marketing order—Policy statement. (1) The marketing of fryers, broilers, and roasters within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its fryers, broilers, and roasters be properly promoted by:

(a) Enabling producers of fryers, broilers, and roasters to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the fryers, broilers, and roasters they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of fryers, broilers, and roasters within the state, the nation, and internationally.

(2) That it is in the overriding public interest that support for the fryer, broiler, and roaster industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that fryers, broilers, and roasters be promoted individually, and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's fryers, broilers, and roasters;

(b) Increase the sale and use of Washington state's fryers, broilers, and roasters in local, domestic, and foreign markets;

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's fryers, broilers, and roasters;

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's fryers, broilers, and roasters and products; and

(e) Support and engage in programs or activities that benefit the production, handling, processing, marketing, and uses of fryers, broilers, and roasters produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.66 RCW through the adoption of this marketing order.

(4) The Washington state fryer commission exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the commission is authorized to speak on behalf of Washington state government with regard to fryers, broilers, and roasters under the provisions of this marketing order.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055. 04-07-128, § 16-512-005, filed 3/22/04, effective 4/22/04; Marketing Order for Washington Fryers, Broilers and Roasters, effective 4/15/57.]

WAC 16-512-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or

(2007 Ed.)

increasing production efficiency, ensuring a fair regulatory environment; or increasing per capita consumption of fryers in Washington state. The Washington state fryer commission is designated by the director to conduct the following programs in accordance with chapter 15.66 RCW:

(1) Marketing and sales promotion plans.

(a) Subject to the provisions of the act, the commission is hereby authorized to prepare plans, administer and conduct programs, and expend moneys for marketing and sales promotion for promoting the sale of fryers, including, but not necessarily limited to the following:

(i) Increasing the sale and consumption of Washington-produced fryers through the use of the press, radio, television, and all other marketing media;

(ii) Dealer service work, trade promotion, publicity, market development, and expansion activities;

(iii) Prevention, modification, or elimination of trade barriers which restrict the free flow of fryers produced in this state;

(iv) Presentation of facts to and negotiations with state, federal, or foreign governmental agencies on matters which affect the marketing of fryers produced in this state, including cooperation with any agency or group in efforts to increase per capita consumption of fryers, and such other activities and programs which are consistent with the objectives of this marketing order and the act.

(b) In carrying out any marketing and sales promotion plans or programs, the commission may engage or hire such advertising media as may be necessary to accomplish the purposes of the act and this order, arrange for marketing space, display material and other marketing material, conduct dealer service work, or may use any other methods consistent with the act and this marketing order which the commission considers appropriate in promoting or creating new and larger domestic or foreign markets for fryers, or in maintaining existing markets. The commission may also engage in cooperative efforts in the domestic or foreign marketing of fryer food products.

(c) Programs and plans adopted by the commission under this marketing order shall be directed towards promoting the sale of fryers without reference to any particular private brand or trade name and sales promotion and marketing programs so conducted shall not disparage the value, quality, sale, or use of any other agricultural commodity or make use of any unwarranted or false claims on behalf of fryers.

(2) Research.

(a) The commission, subject to the provisions of the act, is hereby authorized to carry on or cause to be carried on any necessary and proper marketing, production, transportation, processing, or handling research or survey studies relating to fryers and to expend moneys for such purposes.

(b) The commission is authorized to engage in research and survey studies that may include, but shall not necessarily be limited to, the following:

(i) Production problems.

(ii) Developing objective quality factors for fryers.

(iii) Disease control.

(iv) Developing and improving methods of processing fryers for the purpose of increasing and expanding their use for food purposes.

(v) Improving packaging and handling techniques which promote more efficient operation in the marketing and distribution of fryers.

(vi) Investigating transportation rates and service costs.

(c) The commission may, in addition to the activities enumerated above, carry on any other proper and necessary research and/or survey programs and activities consistent with, and subject to, the limitations of the act. Research and/or survey studies may include the collection of data and information relating to fryers; the analysis of the data and information; the dissemination of the data, information and analysis; and other investigation that falls within the scope of the marketing, producing, transportation, processing or handling of fryers.

(3) Labeling.

(a) The commission may adopt rules, subject to the provisions of chapter 34.05 RCW, to provide for the improving of standards and grades for fryers by defining, establishing and providing labeling requirements, as provided in the act, and not inconsistent with the laws of this state, with respect to the same, and to expend moneys for such purposes.

(b) The commission shall be authorized to cooperate with state and federal agencies or departments responsible for revising and modernizing grades and standards and labeling of fryers.

(c) All chickens commonly referred to as fryers, broilers, or fryer-roasters and including any and all breeds or varieties of chicken under the age of six months, sold or offered for sale in the state of Washington, must be labeled as to the state of origin at the point of retail sale. The state of origin is defined as the state wherein the bird has been raised to market weight. Specific requirements for labeling shall be made by the fryer commission pursuant to rules promulgated in accordance with the provisions of chapter 34.05 RCW.

(4) Unfair trade practices. The commission may investigate and take necessary action to prevent unfair trade practices and to correct, where possible, trade practices which hinder marketing of Washington-produced fryers. Information acquired in an investigation shall be confidential and shall be released only to the extent necessary to effectuate the purposes of the act.

(5) Standards, grades, labels and trade practices. The provisions covering standards, grades, labels and trade practices shall apply with respect to fryers produced in Washington state.

(6) The commission is authorized, subject to the provisions of the act, to provide information and communicate on matters pertaining to the production, processing, transportation, marketing, or uses of fryers produced in Washington state to any elected official or officer or employee of any agency.

(7) Information and education. The commission may conduct programs for the purpose of providing information and education including:

(a) Marketing information and services for producers of fryers;

(b) Information and services enabling producers to meet their resource conservation objectives;

(c) Fryer-related education and training.

(8) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for advertising and promotion of fryers; and

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of fryers may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055. 04-07-128, § 16-512-006, filed 3/22/04, effective 4/22/04.]

WAC 16-512-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.66 RCW, Washington State Agricultural Commodity Commissions Act. For purposes of the fryers, broilers, and roasters marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or any qualified person or persons designated by the director of agriculture to act for him or her concerning some matter under this chapter;

(2) "Act" means the Washington State Agricultural Commodity Commissions Act, chapter 15.66 RCW;

(3) "Person" includes any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals or any unit or agency of local or state government;

(4) "Producer" means any person who is engaged in the business of producing or causing to be produced for market in commercial quantities fryers as herein defined. "To produce" means to act as a producer;

(5) "Commercial quantities" shall mean and include one or more pound;

(6) "Pound" or "affected unit" are synonymous and mean and include each pound unit or any combination of packages making a one-pound unit of fryers;

(7) "Fryers" means and includes any and all breeds or varieties of chickens under the age of six months marketed for human consumption as fryers, broilers or fryer-roasters;

(8) "Fryer commission" or "commission" are synonymous and mean the commission established pursuant to the provisions of WAC 16-512-020;

(9) "Marketing season" or "fiscal year" are synonymous and mean the twelve month period beginning January 1 of any year and ending upon the last day of December, both dates inclusive;

(10) "Handler" means any person who acts, either as principal, agent, or otherwise, in the processing, selling, marketing, or distributing of fryers that are not produced by the handler. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler;

(11) "Affected producer" means any producer who is subject to this marketing order;

(12) "Sale" means a transaction wherein the property in or to fryers is transferred from the producer to a purchaser for consideration. "Sale" shall also include an agreement to acquire such property for a consideration;

(13) "Affected area" or "area of production" are synonymous and mean and include all of the state of Washington;

(14) "District" means the geographical divisions of the affected area of fryer production established pursuant to the provisions of WAC 16-512-020 of this order;

(15) "Affected handler" means any handler of fryers.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055. 04-07-128, § 16-512-010, filed 3/22/04, effective 4/22/04; Marketing Order, Article I, effective 4/15/57.]

WAC 16-512-020 Fryer commission—Structure, powers, duties, and procedure. (1) **Establishment and membership.** A fryer commission is hereby established to administer this marketing order which shall be composed of six members who shall be affected producers appointed at large by the director as provided in subsection (2) of this section and two members who shall be appointed by the commission members. In addition, the director shall be a voting member of the commission.

(2) **Representative membership.** For the purpose of nomination and appointment of producer members of the commission, the affected area of the state of Washington shall be one representative district. Producer positions appointed at large by the director shall be numbered one through six. Positions appointed by the commission members shall be numbered seven and eight. The director's position shall be position nine.

(3) **Membership qualifications.** Commission members shall be citizens and residents of this state, over the age of eighteen years. Producer members of the commission shall be producers of fryers in this state. The qualifications of producer members of the commission as herein set forth must continue during their term of office. Members appointed by the commission shall be either fryer producers or others active in matters relating to fryers.

(4) **Term of office.**

(a) The term of office of the commission members shall be three years from the date of their appointment and until their successors are appointed and qualified.

(b) The initial members of the commission shall serve from the effective date of this marketing order in terms terminating as follows: Positions 3 and 6 shall terminate December 31, 1957; positions 1 and 5 shall terminate December 31, 1958; and positions 2 and 4 shall terminate December 31, 1959. One appointed member's term, being position 7, shall terminate December 31, 1958, and the second appointed member's term, being position 8, shall terminate December 31, 1959.

(i) The appointed members of the initial commission shall be elected by a majority of the elected commissioners at the first meeting of said commission.

(ii) With respect to the establishment of positions at large, commission members in office shall serve out their terms.

(c) To accomplish the transition to a commodity commission structure where the director appoints a majority of the commission members, the names of the currently elected or appointed commission members in positions one through six shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) **Nomination and appointment of commission members.** Nomination and appointment of director-appointed commission members shall be as set forth in chapter 15.66 RCW and specified by the director. Dates will be set as follows:

(a) Not earlier than September 17 and not later than October 2 of each year, the director shall give notice by mail to all affected producers of an open commission position(s) and call for nominations. Nominating petitions shall be signed by five persons qualified to vote. The notice shall state the final date for filing nomination petitions which shall be not earlier than October 8 and not later than October 13 of each year.

(b) The director shall conduct an advisory vote by mail to all affected producers not earlier than October 18 and not later than November 2 of each year. Ballots shall be returned not later than December 2 of each year. The advisory vote shall be conducted in a manner so that it shall be a secret ballot in accordance with rules adopted by the director. An affected producer is entitled to one vote.

(c) When only one nominee is nominated by the affected producers for a director-appointed position, RCW 15.66.120 shall apply.

(d) Except with respect to the initial fryer commission, the members of the commission not elected by the producers or appointed by the director shall be appointed by a majority of the commission within ninety days prior to the expiration of the term.

(6) Vacancies.

(a) In the event of a vacancy in a commission-appointed position, the remaining members shall select a qualified person to fill the term. The appointment shall be made at the commission's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in chapter 15.66 RCW.

(7) Powers and duties of commission. The commission shall have the following powers and duties:

(a) To administer, enforce, direct and control the provisions of this marketing order and of the act relating thereto;

(b) To elect a chairman and such other officers as the commission may deem advisable;

(c) To adopt, rescind, and amend rules and regulations reasonably necessary for the administration and operation of the commission and the enforcement of its duties under this marketing order;

(d) To employ and discharge at its discretion such administrators and additional personnel, attorneys, advertising and research agencies and other persons and firms that it may deem appropriate and pay compensation to the same;

(e) To acquire personal property and lease office space and other necessary real property and transfer and convey the same;

(f) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction or civil recovery, or proceedings, before administrative tribunals or other governmental authorities necessary to carry out the provisions of the act and of this marketing order;

(g) To keep accurate records of all its receipts and disbursements, which records shall be open to inspection and audit by the department and other legal agencies of the state and make annual reports therefrom to the state auditor.

(h) To borrow money and incur indebtedness;

(i) To make necessary disbursements for routine operating expenses;

(j) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with and to effectuate the purposes of the act and this order;

(k) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year. The commission, at least sixty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget;

(l) To accept and receive gifts, grants, and contributions from private persons or private and public agencies and expend the same to effectuate the purposes of the act and this order;

(m) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes set forth in this marketing order;

(n) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local, to carry out the purposes set forth in this marketing order. Personal service contracts must comply with chapter 39.29 RCW;

(o) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of fryers, broilers, and roasters;

(p) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general;

(q) To engage in appropriate fund-raising activities for the purpose of supporting activities of the commission authorized by this marketing order;

(r) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, manufacture, regulation, transportation, distribution, sale, or use of fryers, broilers, and roasters including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission;

(s) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's production for a minimum three-year period pursuant to RCW 15.66.140;

(t) To maintain a list of the names and addresses of persons who handle fryers within the affected area and data on the amount and value of the fryers handled for a minimum three-year period by each person pursuant to RCW 15.66.140;

(u) To maintain a list of names and addresses of all affected persons who produce fryers and the amount, by unit, of fryers produced during the past three years pursuant to RCW 15.66.143;

(v) To maintain a list of all persons who handle fryers and the amount of fryers handled by each person during the past three years pursuant to RCW 15.66.143;

(w) To establish a foundation using commission funds as grant money for the purposes established in this marketing order;

(x) To request records and audit the records of producers or handlers of the affected commodity during normal business hours to determine whether the appropriate assessment has been paid;

(y) To acquire or own intellectual property rights, licenses, or patents and to collect royalties resulting from commission-funded research related to the affected commodity; and

(z) To exercise such other powers and perform such other duties as are necessary and proper to effectuate the purposes of the act and of this marketing order.

(8) Procedure for commission.

(a) The commission may by resolution establish a headquarters which shall continue as such unless and until so changed by the commission, at which headquarters shall be kept the books, records, and minutes of the commission meetings.

(b) The commission shall hold regular meetings at least quarterly, with the time and date thereof to be fixed by the resolution of the commission. Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(c) The commission may hold special meetings as it may deem advisable and shall establish by resolution the time, place, and manner of calling such special meetings with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver from that member of the commission. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

(d) Any action taken by the commission shall require the majority vote of the members present, provided a quorum is present.

(e) A quorum of the commission shall consist of at least five members.

(f) No member of the commission shall receive any salary or other compensation from the commission, except that each member shall be paid a specified sum to be determined by resolution of the commission which shall not exceed the compensation rate set by RCW 43.03.230 for each day spent in the actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, together with subsistence and travel expenses in accordance with RCW 43.03.050 and 43.03.060. The commission may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members of the commission in carrying out the provisions of this marketing order pursuant to RCW 15.66.130.

(9) Limitation of liability of commission members and employees. Obligations incurred by the commission and any other liabilities or claims against the commission shall be enforced only against the assets of the commission in the same manner as if it were a corporation and no liability for the debts or actions of the commission shall exist against either the state of Washington or any subdivision or instrumentality thereof or against any other commission established pursuant to the act or the assets thereof or against any member officer, employee, or agent of the commission in his individual capacity. The members of the commission, includ-

ing employees thereof, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other member of the commission. The liability of the members of the commission shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, 04-07-128, § 16-512-020, filed 3/22/04, effective 4/22/04; Order 1405, § 16-512-020, filed 7/7/75; Marketing Order, Article II, effective 4/15/57.]

WAC 16-512-040 Assessments and assessment funds.

(1) Assessments levied. On and after the effective date of this amendment, there is hereby levied and there shall be collected by the commission as provided in the act, upon all fryers, roasters and broilers under the age of 6 months, an assessment of .35 of one cent per lb. live weight. Such assessment shall be paid by the producer thereof upon each and every pound of fryers, roasters, or broilers sold, delivered for sale or processed by him or her: Provided, That no assessment shall be collected on the following:

(a) Sales on a producer's premises by a producer direct to a consumer of thirty pounds or less of fryers from a producer's own production;

(b) Fryers of a producer's own production used by him for personal consumption; or

(c) Fryers donated or shipped for relief or charitable purposes.

No assessment levied or made collectable by the act under this order shall exceed three percent of the total market value of all such fryers sold, processed or delivered for sale or processing by all producers of fryers for the fiscal year to which the assessment applies.

(2) Collection of assessment.

(a) All assessments made and levied pursuant to the provisions of the act under this marketing order shall apply to the respective producer who shall be primarily liable therefor. To collect assessments, the commission may require:

(i) Stamps to be known as "Washington fryer commission stamps" to be purchased from the commission and fixed or attached to the containers, invoices, shipping documents, inspection certificates, releases or receiving receipts or tickets. Any stamps shall be canceled immediately upon being attached or fixed and the date of the cancellation shall be placed thereon;

(ii) Payment of producer assessments before the fryers are shipped off the farm or payment of assessments at different or later times and in that event, any person subject to the assessments shall give adequate assurance or security for its payment as the commission shall require.

(iii) Every producer subject to the assessment under this order to deposit with the commission in advance an amount based on the estimated number of affected units upon which the person will be subject to assessments in any one year during which this marketing order is in force, but in no event shall a deposit exceed twenty-five percent of the estimated total annual assessment payable by the person. At the close of

the marketing season the sums so deposited shall be adjusted to the total of assessments payable by the person.

(iv) Handlers receiving fryers from the producer, including warehousemen and processors, to collect producer assessments from producers whose production they handle and all moneys so collected shall be paid to the commission on or before the twentieth day of the succeeding month for the previous month's collections. Each handler shall at times required by rule, file with the commission a return under oath on forms to be furnished by the commission, stating the quantity of fryers handled, processed, delivered and/or shipped during the period prescribed by the commission.

(b) The commission is authorized to adopt rules in accordance and conformity with the act and with this section to effectuate the collection of assessments. On or before the beginning of each marketing season, the commission shall give reasonable notice to all producers, handlers and other affected persons of the method or methods of collection to be used for that marketing season.

(c) No affected units of fryers shall be transported, carried, shipped, sold, stored or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued or stamp canceled, but no liability hereunder shall attach to common carriers in the regular course of their business. When any fryers for which exemption as provided in subsection (1) of this section is claimed are shipped either by railroad or truck, there shall be plainly noted on the bill of lading, shipping document, container or invoice, the reasons for the exemptions.

(d) Any producer or handler who fails to comply with the provisions of this section as herein provided shall be guilty of a violation of this order.

(3) Funds.

(a) Moneys collected by the fryer commission pursuant to the act and this marketing order as assessments shall be used by the commission only for the purposes of paying for the costs or expenses arising in connection with carrying out the purposes and provisions of the act and this marketing order.

(b) At the end of each fiscal year the commission shall credit each producer with any amount paid by such producer in excess of three percent of the total market value of all fryers sold, processed, delivered for sale or processing during that period. Refund may be made only upon satisfactory proof given by the producer, which may include bills of lading, bills of sale, or receipts.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055. 04-07-128, § 16-512-040, filed 3/22/04, effective 4/22/04. Statutory Authority: Chapter 15.66 RCW. 80-14-020 (Order 1714), § 16-512-040, filed 9/24/80, effective 11/1/80; Marketing Order, Article IV, effective 4/15/57.]

WAC 16-512-050 Information reports. All persons subject to the provisions of this marketing order shall make and render reports and furnish such information to the director or the commission as may be necessary or required under the act or this order to effectuate the purposes thereof. Any financial and commercial information and records obtained by the director or commission are exempted from public disclosure under the provisions of RCW 15.66.105 and 42.17-31907 but shall not be disclosed to any person save to a person with like right to obtain the same or any attorney

(2007 Ed.)

employed by the director or the commission to give legal advice thereon or by court order.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055. 04-07-128, § 16-512-050, filed 3/22/04, effective 4/22/04; Marketing Order, Article V, effective 4/15/57.]

WAC 16-512-060 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any person, circumstances, or thing shall not be affected thereby.

[Marketing Order, Article VI, effective 4/15/57.]

WAC 16-512-070 Effective time. The provisions hereof shall become effective at such time as the director may declare above his signature attached hereto and shall continue in force until terminated as specified in the act.

[Marketing Order, Article VII, effective 4/15/57.]

RULES OF THE WASHINGTON FRYER COMMISSION

WAC 16-512-101 Promulgation. The Washington fryer commission, by virtue of the authority vested in it by chapter 15.66 RCW, and the marketing order issued by J.D. Dwyer, the Washington state director of agriculture, effective April 15, 1957, does hereby make and promulgate the following regulation; (WAC 16-512-110).

[Regulation I, Promulgation, effective 8/20/57.]

WAC 16-512-110 Labeling. (1) All chickens commonly referred to as fryers, broilers or fryer roasters and including any and all breeds or varieties of chicken under the age of six months, sold or offered for sale in the state of Washington, must be labeled as to state of origin, regardless of where produced. Such labeling is mandatory on and after August 20, 1957.

(2) "State of origin" is defined as that state where the bird has been raised to market weight.

(3) To effect this marketing step being taken under authority of WAC 16-512-030(3), the following points are mandatory:

(a) Each fryer, whole, half, cut-up or packaged parts thereof, sold at retail, must bear the state of origin label. (The identifying phrase must include "grown in (state)," or "(state) grown.")

(b) Such label must appear, plainly visible on the top face of the package, at the point of retail so as to provide ready identification by the consumer.

(c) Each shipping carton, container or box must also bear the state of origin label either imprinted or by a specially attached tag or label.

(d) The state of origin identification may be as large as desired, but must be no less than 1" x 1 3/4" in area and identifying phrases must be legible and printed in not less than a 14 point sans serif bold type face with the state name to appear in 14 point sans serif bold upper case letters.

(e) The actual label medium is not designated. It may be imprinted on any form of paper, tag or card stock meeting with normal food packaging standards. The labeling may be

[Title 16 WAC—p. 515]

included as one element of an overwrap, bag, tag or carton design provided it is plainly visible. Furthermore, it must be (as stated in requirement no. 1) affixed to each individual fryer or package thereof however presented to the consumer at retail.

(f) In the case of institutional or bulk pack, each whole or half fryer must be individually labeled at wholesale with the exception that a pack of parts (consisting of smaller pieces than 1/2 chicken in size) may bear the label affixed to the shipping carton or box.

(g) In meat case display where fryer parts are displayed of less than 1/2 chicken in size, each display utensil must show an identification 5" x 7" in size with the state of origin shown in letters not less than 3/4" high.

(4) As a further guide the Washington fryer commission suggests that each state of origin label bear the outline or facsimile of the state's geographic shape with the phrase "this fryer grown in"

For example: Washington grown fryers may bear such a label as this:

(This label as reproduced requires a space approximately 1" x 1 3/4".) This regulation shall be effective August 20, 1957.

[Regulation I, effective 8/20/57.]

(1) **Front.**

(2) Reverse side.

REPORTING INSTRUCTIONS

1. Assessment rate of .0017¢ per lb. live weight.
EXAMPLE: 1000 head — 3300 lbs @ .0017¢ equals \$5.61.
2. File this report by 10th of each month whether or not money is due.
3. If no money is due, print across face of return —
NO ACTIVITY.
4. Pay assessment by check, draft, or money order only. Make payable to the Washington fryer commission.
5. Attach completed return to assessment check.
6. Growers who sell fryers out of the state of Washington will make reports not later than 10 days following the marketing of such fryers, but will not be required to report each month unless they market each month.
7. Be sure return is COMPLETE and PROPERLY SIGNED.
8. If birds are sold dressed weight, assessment rate is .0022¢ per lb.
9. Address all correspondence to:

Conditions for prepayment of assessments and maximum payable. [Order XII, § 16-516-140, filed 7/2/73.] Repealed by 06-03-002, filed 1/4/06, effective 2/4/06. Statutory Authority: Chapters 15.66 and 34.05 RCW, specifically RCW 15.66.140(2).

WAC 16-516-003 Director's order making marketing order effective and creating a potato commission. (1)

Whereas, the director of agriculture of the state of Washington acting pursuant to and by virtue of the authority vested in him by the provisions of the Washington Agricultural Enabling Act, being chapter 15.66 RCW, issued on June 6, 1956, that certain marketing order entitled, "Marketing Order for Washington Potatoes Providing for the Creation of a Washington Potato Commission," for the written referendum assent of the affected producers in accordance with RCW 15.66.090 and,

(2) Whereas, the director of agriculture has found that more than fifty-one percent of the affected producers have replied to the written referendum within the time specified by the director and that said marketing order for Washington potatoes has been assented to in writing by more than sixty-five percent of the producers who produced more than fifty-one percent by volume of the said potatoes reported produced in the state of Washington during the past five years; said determination being based upon the official affected producer list of potato producers established by the director pursuant to the provisions of RCW 15.66.060, which list is now on file in the department; said affected producers being qualified to assent to said marketing order;

(3) Now therefore, I, Sverre N. Omdahl, director of the department of agriculture of the state of Washington, acting pursuant to and by virtue of the authority vested in me by said act, do hereby make effective the said marketing order for

Washington potatoes providing for the creation of a Washington potato commission, said order to be effective at 12:01 a.m. July 23, 1956.

[Order and Findings, effective 7/23/56.]

WAC 16-516-005 Marketing order for Washington potatoes—Policy statement. (1) The production of potatoes within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its potatoes be properly encouraged by enabling producers of potatoes to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the potatoes they produce.

(2) It is in the overriding public interest that support for the potato industry be clearly expressed and that adequate protection be given to the industry and its activities and operations as part of a comprehensive agricultural industry to:

(a) Eliminate or limit impediments affecting the sale and use of Washington state's potatoes in local, domestic, and foreign markets;

(b) Respond to public requests for information regarding the quality, care, and methods used in the production of Washington state's potatoes;

(c) Respond to public requests for information regarding the nutritional, health-giving qualities and dietetic value of Washington state's potatoes and products; and

(d) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, transportation and utilization of potatoes produced in Washington state.

(3) The director is authorized to implement and administer chapter 15.66 RCW through this marketing order.

(4) The Washington state potato commission exists primarily for the benefit of the people of the state of Washington and its economy.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 06-03-003, § 16-516-005, filed 1/4/06, effective 2/4/06. Marketing Order for Washington Potatoes, effective 7/23/56.]

WAC 16-516-006 Marketing order purposes. The purpose of this marketing order is to promote the general welfare of the state and to maintain and protect existing markets, increase production efficiency, and ensure a fair regulatory environment for potatoes produced in Washington. The commission is designated by the director to conduct the following programs in accordance with chapter 15.66 RCW:

(1) Unfair trade practices and foreign regulatory barriers.

(a) The commission, subject to the provisions of the act, may investigate alleged unfair trade practices and foreign regulatory barriers that hinder the sale, production, transport, or export of Washington-produced potatoes or potato products.

(b) If the commission finds as a result of an investigation that trade or foreign regulatory barriers are restricting the free flow of potatoes produced in this state, the commission may institute appropriate action before any agency or body deemed necessary to correct the situation.

(c) If the commission finds as a result of an investigation that transportation rates and service costs are restricting the free flow of potatoes produced in this state, the commission

(2007 Ed.)

may institute proper action before the interstate commerce commission or such other agency or body deemed necessary to correct the situation.

(d) Information and records acquired in any such investigation are exempt from public disclosure to the extent provided in RCW 15.66.105 and 42.17.31907 or any other applicable statute, except that such information may be released, to the extent necessary to effectuate the purposes of the act, in the presentation of facts to and negotiations with state, federal, or foreign governmental agencies on matters which affect the production, irrigation, transport, use, consumption, export, or sale of potatoes grown in this state, as authorized in RCW 15.66.105.

(2) Research.

(a) The commission, subject to the provisions of the act, may carry on or cause to be carried on any necessary and proper production, irrigation, processing, transportation or handling research relating to potatoes and to expend moneys for those purposes.

(b) The commission, subject to the provisions of the act, may engage in research that may include, but shall not necessarily be limited to, the following:

(i) Production problems, such as soil, seed, fertilizers, irrigation, insecticides, fungicides, herbicides and the like;

(ii) Developing and testing new potato cultivars with improved disease resistance, processing, nutritional, or horticultural characteristics;

(iii) Improving techniques and methods of harvesting potatoes;

(iv) Developing and improving methods of processing potatoes and potato by-products for the purpose of increasing and expanding their use for food and industrial purposes;

(v) Improving packing and handling techniques which promote more efficient operation in the marketing and distribution of potatoes;

(vi) Determining any special nutritive, nutraceutical or pharmaceutical qualities of potatoes produced in Washington;

(vii) Improving production practices, resource requirements and availability, and similar issues or matters that may impact the continued production of potatoes in Washington.

(c) The commission may, in addition to the activities enumerated above, carry on any other proper and necessary research programs and activities consistent with and subject to the limitations of the act. Such research may include the collection of data and information relating to potatoes; the analysis of such data and information; and the dissemination of such data, information and analysis to potato producers and handlers and in response to public requests.

(d) The commission, subject to the provisions of the act, is authorized to coordinate potato producers' potato crop protection chemical registrations and integrated pest management (IPM) implementation.

(3) Standards and grades.

(a) The potato commission, subject to the provisions of the act and chapter 34.05 RCW, may adopt rules to define, establish and provide labeling requirements for improving standards and grades for potatoes, as provided in the act, not inconsistent with the horticultural laws of this state with respect to the same, and to expend moneys for such purposes.

(b) The commission shall give reasonable written notice to all producers, handlers and persons directly affected by the labeling requirements issued pursuant to this section in accordance with rule-making proceedings conducted under chapter 34.05 RCW.

(c) The commission may cooperate with state and federal agencies or departments responsible for revising and modernizing grades and standards and labeling of potatoes.

(d) Nothing in this section shall be construed as authorizing the commission to set minimum grades, sizes or maturity of potatoes which a producer may sell, offer for sale or ship.

(4) Public education. The commission may respond to requests from the public for information regarding:

(a) The economic, environmental and nutritional value and benefits of potatoes and the Washington potato industry;

(b) The quality, care and methods used in the production of Washington potatoes;

(c) The handling, preparation and utilization of Washington potatoes and potato products;

(d) The effects of trade, transportation and regulatory barriers on the Washington potato industry.

(5) Grower and industry education. The commission, subject to the provisions of the act, may conduct programs to provide information and education to the Washington state potato industry including:

(a) Public opinion or awareness research information for producers of potatoes;

(b) Industry-related education and training;

(c) Information and services enabling producers to meet resource conservation objectives and keep current with issues impacting their business.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 06-03-003, § 16-516-006, filed 1/4/06, effective 2/4/06.]

WAC 16-516-010 Definitions. The following terms shall have the meanings given in RCW 15.66.010, supplemented by the following additional definitions:

(1) "Act" means the Washington state agricultural commodity commissions statute, chapter 15.66 RCW;

(2) "Affected area" or "area of production" are synonymous and mean all of the state of Washington;

(3) "Affected commodity" means potatoes as defined in this section;

(4) "Affected handler" means any handler of potatoes;

(5) "Affected producer" means any producer who is subject to this marketing order;

(6) "Agricultural development" means activities intended to increase the efficiency, productivity, or fair market access of Washington potatoes and potato products;

(7) "Commercial quantities" shall mean and include five hundredweight or more per growing season;

(8) "Director" means the director of agriculture of the state of Washington or any qualified person or persons designated by the director of agriculture to act for him or her concerning some matter under this chapter;

(9) "District" means the geographical divisions of the area of potato production established pursuant to the provisions of WAC 16-516-020;

(10) "Handler" means any person who acts, either as principal, agent, or otherwise, in the processing, packing, shipping, selling, marketing, or distributing of potatoes that

are not produced by the handler. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler;

(11) "Hundredweight" or "affected unit" are synonymous and mean and include each one hundred pound unit or any combination of packages making a one hundred pound unit of potatoes;

(12) "Marketing season" or "fiscal year" are synonymous and mean the twelve month period beginning July 1 of any year and ending upon the last day of June, both dates inclusive;

(13) "Person" includes any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals or any unit or agency of local or state government;

(14) "Potato commission" or "commission" are synonymous and mean the commission established pursuant to the provisions of WAC 16-516-020;

(15) "Potatoes" means and includes all kinds and varieties of Irish potatoes grown in the state of Washington and marketed, sold or intended for use for human consumption;

(16) "Producer" means any person engaged in the production of potatoes grown in Washington for market in commercial quantities, and it includes a landowner, landlord, tenant or other person that participates in the growing or producing of the affected commodity and who has a proprietary interest in the potatoes so produced. "To produce" means to act as a producer;

(17) "Research" means scientific research conducted by a university or other accredited researcher on pest and disease surveys; pest and disease control tools or techniques; planting, harvesting, handling and other production or processing tools or techniques; health or nutritional qualities or benefits of potatoes or potato products; and environmental issues including, but not limited to, water use, water quality, water quantity, and erosion control related to production of potatoes or potato products. Results of agricultural research conducted under the provisions of this marketing order shall be public information;

(18) "Sale" means a transaction wherein the property in or to potatoes is transferred from the producer to a purchaser for consideration. "Sale" shall also include an agreement to acquire such property for a consideration;

(19) "Unfair trade practice" means any practice that is unlawful or prohibited under the laws of the state of Washington including but not limited to Titles 15, 16, and 69 RCW and chapters 9.16, 19.77, 19.80, 19.84, and 19.83 RCW, or any practice, whether concerning interstate or intrastate commerce that is unlawful under the Federal Trade Commission Act of 1914, as amended (38 Stat. 719; 15 U.S.C. Sec. 41 et seq.) or the violation of or failure to accurately label as to grades and standards in accordance with any lawfully established grades or standards or labels.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 06-03-003, § 16-516-010, filed 1/4/06, effective 2/4/06. Statutory Authority: RCW 15.66.020. 00-11-180, § 16-516-010, filed 5/24/00, effective 6/24/00; Marketing Order, Article I, effective 7/23/56.]

WAC 16-516-020 Potato commission. (1) Establishment and membership. A potato commission is hereby established to administer this marketing order which shall be com-

posed of nine members who shall be producers elected from districts as provided in subsections (2) and (3) of this section and five members who shall be appointed by the elected producer members as provided in subsection (4) of this section. In addition, the director shall appoint one member to the commission to represent the director as a voting member of the commission.

(2) Representative districts. For the purpose of nomination and selection of producer members of the commission, the affected area of the state of Washington shall be divided into three representative districts as follows:

(a) "District No. 1" shall be and include the counties of Douglas, Chelan, Okanogan, Grant, Adams, Ferry, Stevens, Pend Oreille, Spokane, Whitman and Lincoln.

(b) "District No. 2" shall be and include the counties of Kittitas, Yakima, Klickitat, Benton, Franklin, Walla Walla, Columbia, Garfield, and Asotin.

(c) "District No. 3" shall be and include the counties of Skagit and all other counties in the state of Washington.

(3) Elected membership. Producer members shall be elected from the districts as follows:

(a) Positions 1, 2, 3, and 4 shall be elected from District No. 1.

(b) Positions 5, 6, 7, and 8 shall be elected from District No. 2.

(c) Position 9 shall be elected from District No. 3.

(4) Appointed membership.

(a) Positions 10, 11, 12, 13, and 14 shall be appointed by the elected producers as provided in subsections (1) and (5)(b) of this section.

(b) Position 15 shall be appointed by the director as provided in subsection (1) of this section.

(5) Membership qualifications. Commission members shall be citizens and residents of this state, over the age of eighteen years.

(a) Producer members of the commission shall be producers of potatoes in the district in and for which they are nominated and elected. The producer members shall be and have been actively engaged in producing potatoes for a period of at least three years, and shall derive a substantial proportion of their incomes from the sale of potatoes. A producer member of the commission must have paid an assessment to the commission on potatoes in each of the preceding three calendar years. The qualifications of producer members of the commission as herein set forth must continue during their term of office.

(b) Members of the commission appointed by the elected producers to positions 10, 11, 12, 13, and 14 shall be potato producers or handlers or others active in matters directly relating to Washington state potatoes and have a demonstrated record of service in the potato industry in Washington state.

(6) Term of office. The term of office of the elected and appointed producer members of the commission shall be three years from the date of their election or appointment and until their successors are elected or appointed and qualified. Commencing on July 1, 2005, the term of office for members of the commission shall be as follows: Positions 1, 5 and 7 shall terminate June 30, 2008; positions 3, 4 and 6 shall terminate June 30, 2006; positions 2, 8 and 9 shall terminate June 30, 2007; positions 10 and 11 shall terminate June 30,

(2007 Ed.)

2008; positions 12 and 14 shall terminate June 30, 2006; and position 13 shall terminate June 30, 2007.

(7) Nomination and election of commission members. Nomination and election of commission members shall be as set forth in the act and specified by the director. Dates will be set as follows:

(a) Not earlier than March 18 and not later than April 2 of each year, the director shall give notice by mail to all producers in each district in which one or more open positions will occur in the commission and call for nominations. Nominating petitions shall be signed by five persons qualified to vote for such candidates. Such notice shall state the final date for filing said petitions which shall be not earlier than April 7 and not later than April 12 of each year.

(b) Not earlier than April 17 and not later than May 2 of each year, the director shall mail ballots to all affected producers in each district in which one or more open positions will occur. Ballots must be received by the director not later than June 1 of such year. Such mailed ballot shall be conducted in a manner so that it shall be a secret ballot in accordance with rules adopted by the director. An affected producer is entitled to one vote.

(c) Each appointed producer member of the commission shall be elected by majority vote of the elected commissioners in a public vote at a public meeting held within ninety days prior to the expiration of the appointed member's term.

(8) Vacancies. In the event of a vacancy on the board in an elected or commission-appointed position, the remaining members shall select a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position becomes vacant. Any member so appointed shall serve until the normal expiration of his or her term.

(9) Powers and duties of commission. The commission shall have the following powers and duties:

(a) To administer, enforce, direct and control the provisions of this marketing order and of the act relating thereto;

(b) To elect a chairman and such other officers as the commission may deem advisable; and to select subcommittees of commission members;

(c) To adopt, rescind, and amend rules reasonably necessary for the administration and operation of the commission and the enforcement of its duties under this marketing order;

(d) To employ and discharge at its discretion such administrators and additional personnel, attorneys, research agencies and other persons and firms that it may deem appropriate and pay compensation to the same;

(e) To acquire personal property and lease office space and other necessary real property and transfer and convey the same;

(f) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction or civil recovery, or proceedings before administrative tribunals or other governmental authorities necessary to carry out the provisions of the act and of this marketing order;

(g) To keep accurate records of all its receipts and disbursements, which records shall be open to inspection and audit by the department and other legal agencies of the state and make annual reports therefrom to the state auditor;

(h) To borrow money and incur indebtedness;

(i) To make necessary disbursements for routine operating expenses;

(j) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with and to effectuate the purposes of the act and this marketing order;

(k) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year. The commission, at least forty-five days prior to the beginning of its fiscal year, shall prepare and submit to the director its budget, research plan, and its commodity-related education and training plan;

(l) To accept and receive gifts and grants from private persons or private and public agencies and expend the same to effectuate the purposes of the act and this order;

(m) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes set forth in this marketing order;

(n) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local, to carry out the purposes set forth in this marketing order. Personal service contracts must comply with chapter 39.29 RCW;

(o) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, use, distribution and trade barriers impacting potatoes and potato products;

(p) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general;

(q) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale or use of potatoes as requested by any elected official or officer or employee of any agency and as authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission;

(r) To assist and cooperate with the department or any other local, state, or federal government agency in the investigation and control of exotic pests and diseases that could damage or affect trade of the affected commodity;

(s) To acquire or own intellectual property rights, licenses, or patents and to collect royalties resulting from commission-funded research related to the affected commodity;

(t) To engage in appropriate fund-raising activities for the purpose of supporting activities of the commission authorized by this marketing order;

(u) To establish a foundation using commission funds as grant money for the purposes established in this marketing order;

(v) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's production for a minimum three-year period pursuant to RCW 15.66.140(18);

(w) To maintain a list of the names and addresses of persons who handle potatoes within the affected area and data on

the amount and value of the potatoes handled by each person pursuant to RCW 15.66.140(19) for a minimum three-year period;

(x) To maintain a list of names and addresses of all affected persons who produce potatoes and the amount, by unit, of potatoes produced during the past three years pursuant to RCW 15.66.143(1);

(y) To maintain a list of all persons who handle potatoes and the amount of potatoes handled by each person during the past three years pursuant to RCW 15.66.143(2);

(z) To check records of producers or handlers of the affected commodity during normal business hours to determine whether the appropriate assessment has been paid; and

(aa) To exercise such other powers and perform such other duties as are necessary and proper to effectuate the purposes of the act and of this order.

(10) Procedure for commission.

(a) The commission shall by resolution establish a headquarters which shall continue as such unless and until so changed by the commission, at which headquarters shall be kept the books, records and minutes of the commission meetings.

(b) The commission shall hold regular meetings at least quarterly, with the time and date thereof to be fixed by the resolution of the commission. Notice of the meetings shall be published in the potato commission newsletter and sent to the appropriate general and agricultural media outlets.

(c) The commission may hold such special meetings as it may deem advisable and shall establish by resolution the time, place and manner of calling such special meetings with reasonable notice as required in RCW 42.30.080.

(d) Any action taken by the commission shall require the majority vote of the members present, provided a quorum is present.

(e) A quorum of the commission shall consist of at least nine members.

(f) No members of the commission shall receive any salary or other compensation from the commission, except that each member shall be paid a specified sum to be determined by resolution of the commission, which shall not exceed the compensation rate set by RCW 43.03.230 or state travel expense rates in accordance with RCW 43.03.050 and 43.03.060 for each day spent in actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, except the commission may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members of the commission in carrying out the provisions of this marketing order pursuant to RCW 15.66.130.

(11) Limitation of liability of commission members and employees. Obligations incurred by the commission and any other liabilities or claims against the commission shall be enforced only against the assets of the commission in the same manner as if it were a corporation and no liability for the debts or actions of the commission shall exist against either the state of Washington or any subdivision or instrumentality thereof or against any other commission established pursuant to the act or the assets thereof or against any member officer, employee or agent of the commission in his individual capacity. The members of the commission, including employees thereof, shall not be held responsible individ-

ually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other member of the commission. The liability of the members of the commission shall be several and not joint and no member shall be liable for the default of any other member.

Statutory Authority: RCW 15.66.020. 00-11-180, § 16-516-020, filed 5/24/00, effective 6/24/00. Statutory Authority: RCW 15.66.090. 80-05-073 (Order 1684), § 16-516-020, filed 4/28/80, effective 6/1/80; Marketing Order, Article II, effective 7/23/56.]

WAC 16-516-040 Assessments and assessment funds.

(1) Assessments levied.

(a) On and after the effective date of this order, there is hereby levied and there shall be collected by the commission, as provided in the act, upon all potatoes grown in the state an annual assessment of four cents per hundredweight which shall be paid by the producer thereof upon each and every hundredweight of potatoes sold, processed, delivered for sale or processing by him or her or stored or delivered for storage when storage or delivery for storage shall be outside the boundaries of this state: Provided, That no assessment shall be collected on the following:

- (i) Potatoes grown and sold for seed under an established seed certification program;
- (ii) Potatoes sold for livestock feed, regardless of grade;
- (iii) Potatoes sold for nonfood products, such as industrial starch;
- (iv) Potatoes of a producer's own production used by him or her on his or her own premises for seed, feed or personal consumption;
- (v) Potatoes donated or shipped for relief or charitable purposes; or
- (vi) Sales on a producer's premises by a producer direct to a consumer of five hundred pounds or less of potatoes from a producer's own production.

(b) The commission may provide by rule for an assessment discount not to exceed twenty-five percent of the total hundredweight on field run or ungraded potatoes to allow for cull potatoes not used or intended for use for human consumption.

(c) No assessment levied or made collectable by the act under this order shall exceed three percent of the total market value of all potatoes sold, processed or delivered for sale or processing by all producers of potatoes for the fiscal year to which the assessment applies.

(2) Collection of assessment.

(a) All assessments made and levied pursuant to the provisions of the act under this marketing order shall apply to the respective producer who shall be primarily liable therefore.

(b) Handlers receiving potatoes from the producer, including warehousemen and processors shall collect producer assessments from producers whose production they handle, and all moneys so collected shall be paid to the commission on or before the twentieth day of the succeeding month for the previous month's collections. Each handler

shall at times required by rule file with the commission a return under oath on forms to be furnished by the commission, stating the quantity of potatoes handled, processed, delivered and/or shipped during the period prescribed by the commission.

(c) Producer assessments may be paid before the potatoes are shipped off the farm or at different or later times. If assessments are paid after the potatoes are shipped off the farm, any person subject to the assessment shall give adequate assurance or security for its payments as the commission shall require by rule.

(d) The commission may adopt rules in accordance and conformity with the act and with this section to effectuate the collection of assessments. On or before the beginning of each marketing season, the commission shall give reasonable notice to all producers, handlers and other affected persons of the method or methods of collection to be used for that marketing season and of the assessment discount, if any, allowable on field run or ungraded potatoes.

(e) No affected units of potatoes shall be transported, carried, shipped, sold, stored or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued, but no liability hereunder shall attach to common carriers in the regular course of their business. When any potatoes for which exemption as provided in subsection (1) of this section is claimed are shipped either by railroad or truck, there shall be plainly noted on the bill of lading, shipping document, container or invoice, the reasons for the exemptions.

(f) Any producer or handler who fails to comply with the provisions of this subsection as herein provided shall be guilty of a violation of this order.

(3) Funds.

(a) Moneys collected by the potato commission pursuant to the act and this marketing order as assessments shall be used by the commission only for the purposes of paying for the costs or expenses arising in connection with carrying out the purposes and provisions of the act and this marketing order.

(b) At the end of each fiscal year the commission shall credit each producer with any amount paid by the producer in excess of three percent of the total market value of all potatoes sold, processed, delivered for sale or processing during that period. Refund may be made only upon satisfactory proof given by the producer, which may include bills of lading, bills of sale, or receipts.

WAC 16-516-060 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Marketing Order, Article VI, effective 7/23/56.]

RULES OF THE WASHINGTON STATE POTATO COMMISSION

WAC 16-516-100 Definitions. The following definitions apply to rules in this chapter adopted by the Washington potato commission unless otherwise provided:

"Hosting" may include providing meals, refreshments, lodging, transportation, gifts of nominal value, reasonable and customary entertainment, and normal incidental expenses at meetings or gatherings.

"Trade relations hosting" means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations for Washington state potatoes and potato products.

[Statutory Authority: Chapters 15.66 and 34.05 RCW, specifically RCW 15.66.140(2). 06-03-002, § 16-516-100, filed 1/4/06, effective 2/4/06. Statutory Authority: Chapter 15.66 RCW and RCW 15.04.200. 01-09-028, § 16-516-100, filed 4/10/01, effective 5/11/01.]

WAC 16-516-110 Commission rules—Reporting and paying assessments. Effective with the growing season of 1962, the following procedure is established for the reporting and paying assessments levied pursuant to RCW 15.66.150 and WAC 16-516-040:

(1) The commission shall have the discretion to determine which one or more of the methods hereinafter set forth shall be respectively followed by each respective affected producer and or handler in reporting and paying assessments.

(2) Assessments shall be paid in accordance with one or more of the following methods as prescribed by the commission, in its discretion, for each respective affected producer and or handler:

(a) By means of collection from producers by handlers at the time the potatoes are first handled, and payment by said handlers to the commission of the assessments so collected.

(i) The commission shall bill each handler at such intervals, not less frequently than monthly, as the commission may from time to time determine, for the assessments due upon potatoes handled in the preceding period for which billing has not previously been made, and upon which assessments have not been paid, computed on the basis of the quantity of potatoes so handled as recorded on potato shipping records pertaining to each handler prepared by the state of Washington department of agriculture in behalf of the commission, and filed with the commission, or, with respect to handlers who are packers or processors, on the basis of the quantity of potatoes so handled as recorded on potato shipping records pertaining to such packer or processor prepared by such packer or processor and filed with the commission.

[Title 16 WAC—p. 524]

(ii) In the event potatoes subject to assessment are handled by processors or other handlers under circumstances in which no potato shipping record is filed with the commission with respect to the potatoes so handled the handler shall, at the time of submitting the report required by subsection (a)(iii) immediately following, pay in full the assessment on the potatoes so reported.

(iii) Each handler shall, in any event, file a monthly report, under oath, on forms provided by the commission, showing the name and address of the handler making the report, the quantity of potatoes handled during the preceding calendar month, the name, address, handler's lot number, and quantity of potatoes handled, for each respective producer, and the representative district as defined in WAC 16-516-020, within which the potatoes were grown. The report shall be filed with the commission not later than the 20th day of the month following that in which the potatoes were handled.

(b) By means of payment in cash by the producer, or handler, as determined by the commission in each respective instance, prior to the time the potatoes are shipped in either interstate or intrastate commerce.

[Statutory Authority: Chapters 15.66 and 34.05 RCW, specifically RCW 15.66.140(2). 06-03-002, § 16-516-110, filed 1/4/06, effective 2/4/06. Rule XII, filed 6/25/62; Rule XII, § 1, filed 4/7/61; Rule XII, filed 3/3/60.]

WAC 16-516-125 Commission rules—Penalty assessments. Pursuant to authority granted by RCW 15.66-170 and by WAC 16-516-020(8), in the event that any assessment is not paid within 90 days after the date of the billing therefore by the commission, or within 90 days after the due date of the report required by WAC 16-516-110 (b)(iii) and (iv) a sum equal to 10% of such unpaid assessment of unpaid portion thereof shall be added thereto and be due and owing to the commission.

[Commission Rule XI, § 16-516-125, filed 6/26/72; Rule XI, filed 6/25/62; Rule XI, filed 3/3/60.]

WAC 16-516-130 Commission rules—Assessments on field run or ungraded potatoes. Assessments shall be levied upon potatoes sold on a field run or ungraded basis as follows:

(1) If payment to the grower for said potatoes is based upon the gross weight of potatoes sold and not upon the yield of any particular grade of potatoes as determined by any type of sorting or inspection, then upon 90% of the gross hundred weight of potatoes so sold.

(2) If payment to the grower for said potatoes is based upon the net weight of potatoes intended for human consumption derived from the potatoes so sold as determined by any type of sorting or inspection, then upon the total net weight of such potatoes intended for human consumption.

[Order XII, § 16-516-130, filed 7/2/73; Rule XIII, filed 3/3/60.]

WAC 16-516-150 Notice to director. The commission shall notify the director in writing of any handler who has not established a record of prompt payment, and such handler shall be subject to the provisions of WAC 16-516-040 (2)(e) which states as follows: No affected units of potatoes shall be transported, carried, shipped, sold, stored or otherwise handled or disposed of until every due and payable assess-

(2007 Ed.)

ment herein provided for has been paid and the receipt issued, but no liability hereunder shall attach to common carriers in the regular course of their business. When any potatoes for which exemption as provided in subsection (1) of this section is claimed are shipped either by railroad or truck, there shall be plainly noted on the bill of lading, shipping document, container or invoice, the reasons for such exemptions.

[Statutory Authority: Chapters 15.66 and 34.05 RCW, specifically RCW 15.66.140(2). 06-03-002, § 16-516-150, filed 1/4/06, effective 2/4/06. Order XII, § 16-516-150, filed 7/2/73.]

WAC 16-516-160 Exemption from prepayment. Any handler who has established a record of prompt payment during the entire previous potato shipping season and continues to maintain such record of prompt payment shall not be subject to the prepayment requirements set forth in WAC 16-516-140, such handler shall however at all times be subject to WAC 16-516-125.

[Order XII, § 16-516-160, filed 7/2/73.]

WAC 16-516-170 Rules for implementation of hosting by the Washington state potato commission. The laws of section 1, chapter 26, Laws of 1985 (RCW 15.04.200) provide that agricultural commodity commission shall adopt rules governing hosting expenditures by agricultural commodity commission employees, agents, or commissioners. The rules governing agricultural development or trade relations hosting expenditures for the Washington state potato commission shall be as follows:

(1) Budget approval: Commission expenditures for agricultural development or trade relations hosting shall be pursuant to specific budget items as approved by the commission at annual public hearings on the commission budget.

(2) Officials and agents authorized to make expenditures: Individual commissioners and commission staff shall make agricultural development or trade relations hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be as identified and supported by vouchers to which receipts are attached. Voucher forms will be supplied by the commission, and shall require the following information:

(a) Name and position of each person hosted, provided that in case of a group of twenty-five or more persons, then only the name of the group hosting shall be required;

(b) General purpose of the hosting;

(c) Date of hosting;

(d) To whom payment was or will be made;

(e) Signature of person seeking payment or reimbursement;

(4) The chairman of the commission and/or the executive director or assistant executive director are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations for the Washington state potato industry, provided that such hosting shall not violate federal or state conflict of interest laws:

(a) Individuals from private business and accompanying interpreter or interpreters;

(b) Foreign government officials and accompanying interpreter or interpreters;

(c) Federal, state, and local officials, provided lodging, meals, and transportation will not be provided when such officials may obtain reimbursement for these expenses from their government employer;

(d) The general public, at meetings and gatherings open to the general public;

(e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted will cultivate trade relations for the Washington state potato industry.

[Statutory Authority: Chapters 15.66 and 34.05 RCW, specifically RCW 15.66.140(2). 06-03-002, § 16-516-170, filed 1/4/06, effective 2/4/06. Statutory Authority: Chapter 15.66 RCW and RCW 15.04.200. 01-09-028, § 16-516-170, filed 4/10/01, effective 5/11/01.]

RULES OF THE WASHINGTON STATE SEED POTATO COMMISSION

16-520-110	Collection of assessments.
------------	----------------------------

WAC 16-520-002 Director's findings and final decision approving a marketing order. Whereas, it is provided in RCW 15.66.020, as follows:

(1) "The marketing of agricultural products within this state is affected with a public interest. It is declared to be the policy and purpose of this act to promote the general welfare of the state by enabling producers of agricultural commodities to help themselves in establishing orderly, fair, sound, efficient and unhampered marketing, grading and standardizing of the commodities they produce, and in promoting and increasing the sale of such commodities;" and

(2) Whereas, it is further provided in RCW 15.66.040, that marketing orders and orders modifying or terminating existing marketing orders shall be promulgated by the director; and

(3) Whereas, the director of agriculture having reason to believe that the issuance of a marketing order would tend to effectuate the declared policy of the act with respect to seed potatoes, did upon receipt of the industry petition signed by five percent of the seed potato producers of the state of Washington, and pursuant to the provisions of the act, issue on the 10th day of July, 1956 notice of public hearing to be held in Lynden, Washington on the 23rd of July, 1956, upon a pro-

posed marketing order for seed potatoes grown in the state of Washington providing for the creation of a Washington seed potato commission and did upon said date and at said place, personally, and through his duly authorized representative, Phyllis Dolvin Schoedel, marketing act administrator, state department of agriculture, conduct a public hearing thereon and did give due notice of such hearing and opportunity to be heard to all persons directly affected by any action of the director pursuant to the provisions of said act whose names appear on the official affected producer list for the seed potato producers in the state of Washington, whose names are on file in the office of the director of agriculture; and

(4) Whereas, the director of agriculture has reviewed the provisions of such marketing order which authorizes the purposes set forth in RCW 15.66.030 with provisions relating to the advertising and sales promotion; research; improving standards and grades; and investigating and preventing unfair trade practices, hereby finds that:

(a) The proposed issuance of said marketing order is reasonably calculated to attain the objective sought in such marketing order;

(b) The proposed issuance is in conformity with the provisions of chapter 15.66 RCW, known as the Washington Agricultural Enabling Act, and within the applicable limitations and restrictions set forth therein will tend to effectuate the declared purposes and policies of said act;

(c) Said marketing order will protect the interests of consumers of seed potatoes by exercising the powers of said chapter of the laws of the state of Washington only to such extent as is necessary to attain the objectives sought in the act; and

(5) Whereas, this marketing order embraces all producers who are engaged in the production of seed potatoes in the state of Washington; and

(6) Whereas, the director of agriculture did execute and issue his findings and recommended decision of issuance of the marketing order for Washington seed potatoes on the 2nd day of August, 1956 and did cause copies of said findings and recommended decision to be mailed to all parties of record appearing at the public hearing, or their attorneys of record, and did give proper and due consideration to such objections as were duly filed with the director, all as required by the act;

(7) Now therefore, I Sverre N. Omdahl, director of agriculture of the state of Washington, do hereby execute and issue this final decision approving a Washington seed potato marketing order providing for the creation of a Washington seed potato commission and herewith submit this order for the referendum assent of the affected seed potato producers on the official affected seed potato producer list of the state department of agriculture.

[Director's Findings and Decision, effective 8/17/56.]

WAC 16-520-003 Director's order creating seed potato commission and making marketing order effective. (1) Whereas, the director of agriculture of the state of Washington acting pursuant to and by virtue of the authority vested in him by the provisions of the Washington Agricultural Enabling Act, being chapter 15.66 RCW, issued on August 17, 1956, that certain marketing order entitled, "Marketing order for Washington seed potatoes providing for the

creation of a Washington seed potato commission," for the written referendum assent of the affected producers in accordance with RCW 15.66.090 and,

(2) Whereas, the director of agriculture has found that more than fifty-one percent of the affected producers have replied to the written referendum within the time specified by the director and that said marketing order for Washington seed potatoes has been assented to in writing by more than sixty-five percent of the producers who produced more than fifty-one percent by volume of the said seed potatoes reported produced in the state of Washington during the past five years; said determination being based upon the official affected producer list of seed potato producers established by the director pursuant to the provisions of RCW 15.66.060, which list is now on file in the department; said affected producers being qualified to assent to said marketing order;

(3) Now therefore, I, Sverre N. Omdahl, director of the department of agriculture of the state of Washington, acting pursuant to and by virtue of the authority vested in me by said act, do hereby make effective the said act, do hereby make effective the said marketing order for Washington seed potatoes providing for the creation of a Washington seed potato commission, said order to be effective at 12:01 a.m. October 1, 1956.

[Order and Findings, issued 9/18/56.]

WAC 16-520-005 Marketing order—Policy and purpose. The marketing of agricultural products within this state is affected with a public interest. It is declared to be the policy and purpose of the "act" and of this "Washington seed potato marketing order" to promote the general welfare of the state by enabling seed potato producers to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing and standardizing of the seed potatoes they produce, and in promoting and increasing the sale of such seed potatoes.

[Marketing Order for Washington Seed Potatoes, effective 10/1/56.]

WAC 16-520-010 Definitions. As used in this marketing order, the following terms shall have the following meanings:

(1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative;

(2) "Act" means the Washington Agricultural Enabling Act, being chapter 15.66 RCW;

(3) "Person" includes any individual, firm, corporation, trust, association, partnership, society or any other organization of individuals;

(4) "Producer" means any person who is engaged in the business of producing or causing to be produced for market in commercial quantities seed potatoes as herein defined grown in the state of Washington;

(5) "Commercial quantities" shall mean and include five hundred weight or more;

(6) "Hundredweight" or "affected unit" are synonymous and mean and include each one hundred pound unit or any combination of packages making a one hundred pound unit of seed potatoes;

(7) "Seed potatoes" means and include all kinds and varieties of Irish seed potatoes grown in the state of Washington and marketed, sold or intended for use for seed purposes;

(8) "Seed potato commission" or "commission" are synonymous and mean the commission established pursuant to the provisions of WAC 16-520-020;

(9) "Marketing season" or "fiscal year" are synonymous and mean the twelve month period beginning July 1 of any year and ending upon the last day of June, both dates inclusive;

(10) "Handler" means any person engaged in the business of handling, selling, processing, storing, shipping, or distributing seed potatoes which he has purchased or acquired from a producer, or which he is shipping for or on behalf of a producer, and shall include any lending agencies for commodity credit corporation loan to producers, but shall not include a producer engaged in transporting seed potatoes produced by him for grading, washing, sorting, sacking, or otherwise preparing for marketing or market;

(11) "Sale" means a transaction wherein the property in or to seed potatoes is transferred from the producer to a purchaser for consideration. "Sale" shall also include an agreement to acquire such property for a consideration;

(12) "Affected area" or "area of production" are synonymous and mean and include all of the state of Washington.

[Marketing Order, Article I, effective 10/1/56.]

WAC 16-520-020 Seed potato commission—Structure, powers, duties, and procedure. (1) **Establishment and membership.** A seed potato commission is hereby established to administer this marketing order which shall be composed of five members who shall be producers elected by the producers as provided in the act, and two members who shall be appointed by the elected producer members. In addition, the director shall be an ex officio member of the commission.

(2) **Membership qualifications.** Commission members shall be citizens and residents of this state, over the age of twenty-five years and producer members of the commission shall be producers of seed potatoes in the state of Washington. The qualifications of producer members of the commission as herein set forth must continue during their term of office. Members appointed by the elected producers shall be either seed potato producers, others active in matters relating to seed potatoes or persons not so related.

(3) **Term of office; initial commission.** The term of office of commission members shall be three years from the date of their election and until their successors are elected and qualified so that one-third of the terms will commence as nearly as practicable each year provided, however, that the initial members of the commission shall serve from the effective date of this marketing order in terms terminating as follows: Two producer members, being positions 1 and 2 shall be elected for one year terms terminating June 30, 1957; two producer members, being positions 3 and 4 shall be elected for 2 year terms terminating June 30, 1958; and one producer member, being position 5 shall be elected for a 3 year term terminating June 30, 1959.

The appointed members of the initial commission shall be elected by a majority of the elected commissioners at the

first meeting of said commission. One appointed member being position 6, shall be appointed for a two year term expiring June 30, 1958, and one appointed member, being position 7, shall be appointed for a three year term, expiring June 30, 1959.

(4) Nomination and election of commission members.

(a) Not earlier than March 19 and not later than April 3 of each year, the director shall give notice by mail to all producers that a vacancy or vacancies will occur in the commission and call for nominations. Nominating petitions shall be signed by five persons qualified to vote for such candidates. Such notice shall state the final date for filing said petitions which shall be not earlier than April 7 and not later than April 12 of such year.

(b) The director shall submit ballots by mail to all producers in the district wherein the vacancy will occur not earlier than April 17 and not later than May 2 of each year. Ballots shall be returned not later than June 1 of such year. Such mailed ballot shall be conducted in a manner so that it shall be a secret ballot in accordance with rules and regulations to be promulgated by the director.

(c) With respect to the initial seed potato commission, the director shall call for nominations in the notice of his decision following the hearing designated in the act. The ballot specified herein shall be forwarded to the producers at the time the director's proposed marketing order is mailed to the producers for their referendum assent.

(d) Except with respect to the initial seed potato commission, the members of the commission not elected by the producers shall be elected by a majority of the commission within ninety days prior to the expiration of the term.

(5) Vacancies.

(a) To fill any vacancy occasioned by the failure to qualify of any person elected by the producers as a member of the commission, or in the event of the death, removal, resignation or disqualification of any member, the director shall call for nominations and conduct such election in the manner provided in subsection (4) of this section.

(b) To fill nonelective vacancies caused by other reasons than the expiration of the term, the new members shall be elected by the commission at its first meeting after the occurrence of the vacancy.

(6) Powers and duties of commission. The commission shall have the following powers and duties:

(a) To administer, enforce, direct and control the provisions of this marketing order and of the act relating thereto;

(b) To elect a chairman and such other officers as the commission may deem advisable; and to select subcommittees of commission members;

(c) To adopt, rescind, and amend rules and regulations reasonably necessary for the administration and operation of the commission and the enforcement of its duties under this marketing order;

(d) To employ and discharge at its discretion such administrators and additional personnel, attorneys, advertising and research agencies and other persons and firms that it may deem appropriate and pay compensation to the same;

(e) To acquire personal property and lease office space and other necessary real property and transfer and convey the same;

(f) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction or civil recovery, or proceedings before administrative tribunals or other governmental authorities necessary to carry out the provisions of the act and of this marketing order;

(g) To keep accurate records of all its receipts and disbursements, which records shall be open to inspection and audit by the department and other legal agencies of the state and make annual reports therefrom to the state auditor;

(h) To borrow money and incur indebtedness;

(i) To make necessary disbursements for routine operating expenses;

(j) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with and to effectuate the purposes of the act and this marketing order.

(k) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year;

(l) To accept and receive gifts and grants and expend the same to effectuate the purposes of the act and this order;

(m) To exercise such other powers and perform such other duties as are necessary and proper to effectuate the purposes of the act and of this order.

(7) Procedure for commission.

(a) The commission may by resolution establish a headquarters which shall continue as such unless and until so changed by the commission, at which headquarters shall be kept the books, records and minutes of the commission meetings.

(b) The commission shall hold at least two regular meetings during each fiscal year with the time and date thereof to be fixed by the resolution of the commission.

(c) The commission may hold such special meetings as it may deem advisable and shall establish by resolution the time, place and manner of calling such special meetings with reasonable notice to the members, provided, however, that the notice of any special meeting may be waived by a waiver thereof signed by not less than a quorum of the membership.

(d) Any action taken by the commission shall require the majority vote of the members present provided a quorum is present.

(e) A quorum of the commission shall consist of at least four members.

(f) No members of the commission shall receive any salary or other compensation from the commission, except that each member shall be paid a specified sum to be determined by resolution of the commission, which rate shall not exceed \$20.00 per day for each day spent in actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, together with subsistence and travel expense of the rate allowed by law to state employees.

(8) Limitation of liability of commission members and employees. Obligations incurred by the commission and any other liabilities or claims against the commission shall be enforced only against the assets of the commission in the same manner as if it were a corporation and no liability for the debts or actions of the commission shall exist against either the state of Washington or any subdivision or instru-

mentality thereof or against any other commission established pursuant to the act or the assets thereof or against any member officer, employee or agent of the commission in his individual capacity. The members of the commission, including employees thereof, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other member of the commission. The liability of the members of the commission shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: Chapter 15.66 RCW. 83-22-019 (Order 1808), § 16-520-020, filed 10/25/83, effective 12/1/83; Marketing Order, Article II, effective 10/1/56.]

WAC 16-520-030 Marketing order purposes. (1) Research.

(a) The seed potato commission, subject to the provisions of the act, is hereby authorized to carry on or cause to be carried on any necessary and proper marketing, production, processing or handling research or survey studies relating to seed potatoes and to expend monies for such purposes.

(b) Such research and survey studies may include, but shall not necessarily be limited to the following:

(i) Production problems, such as soil, fertilizers, irrigation, insecticides and the like.

(ii) Investigating and developing more disease-resistant seed potatoes for marketing.

(iii) Improving techniques and methods of harvesting and storing seed potatoes.

(iv) Improving packing and handling techniques which promote more efficient operation in the marketing and distribution of seed potatoes.

(v) Investigating transportation rates and service costs, and if the commission after such investigation finds transportation rates and service costs are restricting the free flow of seed potatoes produced in this state the commission is authorized to institute proper action before the interstate commerce commission or such other agency or body deemed necessary to correct the situation.

(c) The commission may, in addition to the activities enumerated above, carry on any other proper and necessary research and/or survey programs and activities consistent with, and subject to the limitations of the act. Such research and/or survey studies may include the collection of data and information relating to seed potatoes; the analysis of such data and information; the dissemination of such data, information and analysis; and such other investigation that falls within the scope of the marketing, producing, or handling of seed potatoes.

(2) Advertising and sales promotion plans.

(a) The seed potato commission, subject to the provisions of the act, is hereby authorized to prepare plans, administer and conduct programs and expend monies for advertising and sales promotion for promoting the sale of seed potatoes for the purpose of maintaining existing markets or creating new and/or larger markets for seed potatoes grown

in the state of Washington, including but not necessarily limited to the following:

(i) Increasing the sale of Washington produced seed potatoes through the use of the press, radio, television and all other advertising media.

(ii) Trade promotion, publicity, market development and expansion activities.

(iii) Prevention, modification, or elimination of trade barriers which restrict the free flow of seed potatoes produced in this state.

(iv) Presentation of facts to and negotiations with state, federal, or foreign governmental agencies on matters which affect the marketing of seed potatoes produced in this state, and such other activities and programs which are consistent with the objectives of this marketing order and the act.

(b) In carrying out any advertising and sales promotion plans or programs, the commission may engage or hire such advertising medias as may be necessary to accomplish the purposes of the act and this order, arrange for advertising space, display material and other advertising material, or may use any other methods consistent with the act and this marketing order which the commission considers appropriate in promoting or creating new and larger domestic or foreign markets for seed potatoes, or in maintaining existing markets.

(c) Programs and plans adopted by the commission under this marketing order shall be directed towards promoting the sale of seed potatoes without reference to any particular private brand or trade name and sales promotion and advertising programs so conducted shall not disparage the value, quality, sale or use of any other agricultural commodity or make use of any unwarranted or false claims on behalf of seed potatoes.

(3) Labeling.

(a) The seed potato commission, subject to the provisions of the act, is hereby authorized to define, establish and provide labeling requirements for improving standards and grades for seed potatoes, as provided in the act, not inconsistent with the horticultural laws of this state with respect to the same, and to expend monies for such purposes.

(b) The commission shall give reasonable written notice to all producer, handlers, and persons directly affected by the labeling requirements issued pursuant to this section, not less than ten days prior to the effective time of such requirements.

(c) The commission shall be authorized to cooperate with state and federal agencies or departments responsible for revising and modernizing grades and standards and labeling of seed potatoes.

(d) Nothing in this section shall be construed as authorizing the commission to set minimum grades, sizes or maturity of seed potatoes which a producer may sell, offer for sale or ship.

(4) **Unfair trade practices.** The seed potato commission, subject to the provisions of the act, is hereby authorized to investigate and take necessary action to prevent unfair trade practices and to correct, where possible, trade practices which hinder marketing of Washington produced seed potatoes. Information acquired in such investigation shall be confidential and shall be released only to the extent necessary to effectuate the purposes of the act.

(5) **Standards, grades, labels, trade practices.** The provisions covering standards, grades, labels and trade practices

shall apply with respect to seed potatoes marketed or sold within this state regardless of where produced.

[Marketing Order, Article III, effective 10/1/56.]

WAC 16-520-040 Assessments and assessment funds.

(1) **Assessments levied.** Beginning December 1, 1983, there is hereby levied and there shall be collected by the commission, as provided in chapter 15.66 RCW, upon all seed potatoes grown in the state an annual assessment which shall be paid by the producer thereof upon each and every hundredweight of seed potatoes sold, processed, delivered for sale or processing by him or stored or delivered for storage when such storage or delivery for storage is outside the boundaries of this state. The assessment shall be three cents per hundredweight from December 1, 1983, until August 31, 1984. The assessment shall then be set by the seed potato commission at a regular meeting before July 15th of each year, to become effective from September 1st of the same year to August 31st of the following year. The assessment shall not be less than one cent or more than five cents per hundredweight. No assessment may be collected on the following:

(a) Seed potatoes of a producer's own production used by him on his own premises for seed, feed or personal consumption;

(b) Seed potatoes donated or shipped for relief or charitable purposes; or

(c) Sales on a producer's premises by a producer direct to a consumer of five hundred pounds or less of seed potatoes from a producer's own production.

No assessment levied or made collectable by the act under this order shall exceed three percent of the total market value of all such seed potatoes sold, processed or delivered for sale or processing by all producers of seed potatoes for the fiscal year to which the assessment applies.

(2) Collection of assessment.

(a) All assessments made and levied pursuant to the provisions of the act under this marketing order shall apply to the respective producer who shall be primarily liable therefore. To collect such assessments, the commission may require:

(i) Stamps to be known as "Washington seed potato commission stamps" to be purchased from the commission and fixed or attached to the containers, invoices, shipping documents, inspection certificates, releases or receiving receipts or tickets. Any such stamps shall be canceled immediately upon being attached or fixed and the date of such cancellation shall be placed thereon;

(ii) Handlers receiving seed potatoes from the producer, including warehousemen and processors, to collect producer assessments from producers whose production they handle and all monies so collected shall be paid to the commission on or before the twentieth day of the succeeding month for the previous month's collections. Each handler shall at such times as by rule and regulation required, file with the commission a return under oath on forms to be furnished by the commission, stating the quantity of seed potatoes handled, processed, delivered and/or shipped during the period prescribed by the commission.

(iii) Payment of producer assessments before the seed potatoes are shipped off the farm or payments of assessments at different or later times and in such event, any person sub-

ject to the assessment shall give such adequate assurance or security for its payment as the commission shall require.

(b) The commission is authorized to make reasonable rules and regulations in accordance and conformity with the act and with this section to effectuate the collection of assessment. On or before the beginning of each marketing season, the commission shall give reasonable notice to all producers, handlers and other affected persons of the method or methods of collection to be used for that marketing season.

(c) No affected units of seed potatoes shall be transported, carried, shipped, sold, stored or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued or stamp canceled, but no liability hereunder shall attach to common carriers in the regular course of their business. When any seed potatoes for which exemption as provided in subsection (1) of this section is claimed are shipped either by railroad or truck, there shall be plainly noted on the bill of lading, shipping document, container or invoice, the reasons for such exemptions.

(d) Any producer or handler who fails to comply with the provisions of this section as herein provided shall be guilty of a violation of this order.

(3) Funds.

(a) Monies collected by the seed potato commission pursuant to the act and this marketing order as assessments shall be used by the commission only for the purposes of paying for the costs or expenses arising in connection with carrying out the purposes and provisions of the act and this marketing order.

(b) At the end of each fiscal year the commission shall credit each producer with any amount paid by such producer in excess of three percent of the total market value of all seed potatoes sold, processed, delivered for sale or processing or delivered for storage or stored when such storage or delivery for storage was outside the boundaries of this state during that period. Refund may be made only upon satisfactory proof given by the producer in accordance with reasonable rules and regulations prescribed by the director.

[Statutory Authority: RCW 15.66.050, 92-22-007, § 16-520-040, filed 10/21/92, effective 12/1/92. Statutory Authority: Chapter 15.66 RCW, 83-22-019 (Order 1808), § 16-520-040, filed 10/25/83, effective 12/1/83; Marketing Order, Article IV, effective 10/1/56.]

WAC 16-520-050 Information reports. All persons subject to the provisions of this order shall make and render such reports and furnish such information to the director or the commission as may be necessary or required under the act or this order to effectuate the purposes thereof. Any information obtained by any persons pursuant to the provisions of this section shall be confidential and shall not be by him disclosed to any other person save to a person with like right to obtain the same or any attorney employed by the director or the commission to give legal advice thereon or by court order.

[Marketing Order, Article V, effective 10/1/56.]

WAC 16-520-060 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any

other person, circumstances, or thing shall not be affected thereby.

[Marketing Order, Article VI, effective 10/1/56.]

WAC 16-520-070 Effective time. The provisions hereof shall become effective at such time as the director may declare above his signature attached hereto and shall continue in force until terminated as specified in the act.

[Marketing Order, Article VII, effective 10/1/56.]

RULES OF THE WASHINGTON STATE SEED POTATO COMMISSION

WAC 16-520-110 Collection of assessments. Such assessments shall become due and payable within thirty days after levy of same and, if such fees are not paid within the prescribed time, the state department of agriculture, division of horticulture, may withdraw inspection or refuse to perform any inspection or certification service for the person in arrears: Provided, Such horticultural inspector in behalf of the commission may demand and collect the assessment prior to inspecting and certifying any seed potatoes for such person.

[Rule, filed 12/8/64; Emergency Rule, filed 9/16/64.]

WAC 16-524-002 Director's findings and decision approving a marketing order. Whereas, it is provided in RCW 15.66.020, as follows:

(1) "The marketing of agricultural products within this state is affected with a public interest. It is declared to be the policy and purpose of this act to promote the general welfare of the state by enabling producers of agricultural commodities to help themselves in establishing orderly, fair, sound, efficient and unhampered marketing, grading and standardizing of the commodities they produce, and in promoting and increasing the sale of such commodities"; and

(2) Whereas, it is further provided in RCW 15.66.040, that marketing orders and orders modifying or terminating existing marketing orders shall be promulgated by the director; and

(3) Whereas, the director of agriculture having reason to believe that the issuance of a marketing order would tend to effectuate the declared policy of the act with respect to bulbs, did upon receipt of the industry petition signed by five percent of the bulb industry, and pursuant to the provisions of the act, issue on the 31st day of August, 1955 notice of public hearing to be held in Seattle, Washington on the 14th day of

September, 1955, upon a proposed marketing order for tulip, iris and narcissus bulbs grown in the state of Washington, and did upon said date and at said place, personally, and through his duly authorized representative, Phyllis Dolvin Schoedel, marketing act administrator, state department of agriculture, conduct a public hearing thereon and did give due notice of such hearing and opportunity to be heard to all persons directly affected by any action of the director pursuant to the provisions of said act whose names appear upon the official affected producer list for the tulip, iris and narcissus bulb producers in the state of Washington, whose names are on file in the office of the director of agriculture; and

(4) Whereas, the director of agriculture has reviewed the provisions of such marketing order which authorizes the purposes set forth in RCW 15.66.030 with provisions relating to the advertising and sales promotion; research; improving standards and grades; and investigating and preventing unfair trade practices, hereby finds that:

(a) The proposed issuance of said marketing order is reasonably calculated to attain the objectives sought in such marketing order;

(b) The proposed issuance is in conformity with the provisions of chapter 15.66 RCW, known as the Washington Agricultural Enabling Act, and within the applicable limitations and restrictions set forth therein will tend to effectuate the declared purposes and policies of said act;

(c) Said marketing order will protect the interests of consumers of tulip, iris and narcissus bulbs by exercising the powers of said chapter of the laws of the state of Washington only to such extent as is necessary to attain the objectives sought in the act; and

(5) Whereas, this marketing order embraces all persons who are engaged in the specific and distinct agricultural industry within the state and to be regulated by said marketing order; and

(6) Whereas, the director of agriculture did execute and issue his findings and recommended decision of issuance of the marketing order for Washington tulip, iris and narcissus bulbs on the 29th day of November, 1955 and did cause copies of said findings and recommended decision to be mailed to all affected producers on the official affected producer list of tulip, iris and narcissus bulb producers and did give proper and due consideration to such objections as were duly filed with the director, all as required by the act;

(7) Now, therefore, I, Sverre N. Omdahl, director of agriculture of the state of Washington, do hereby execute and issue this final decision approving a marketing order for Washington tulip, iris and narcissus bulbs, and herewith submit the same for the referendum assent of the affected tulip, iris and narcissus bulb producers on the official affected producer list of the state department of agriculture.

[Director's Findings and Final Decision, effective 1/26/56.]

WAC 16-524-003 Director's order making marketing order effective. (1) Whereas, the director of agriculture of the state of Washington acting pursuant to and by virtue of the authority vested in him by the provisions of the Washington Agricultural Enabling Act, being chapter 15.66 RCW, issued on January 26, 1956, that certain marketing order entitled, "marketing order for Washington tulip, iris and narcis-

sus bulbs," for the written referendum assent of the affected producers in accordance with RCW 15.66.090 and,

(2) Whereas, the director of agriculture has found that more than fifty-one percent of the affected producers have replied to the written referendum within the time specified by the director and that said marketing order for Washington tulip, iris and narcissus bulbs has been assented to in writing by more than sixty-five percent of the producers who produced more than fifty-one percent by volume of the said tulip, iris and narcissus bulbs in the state of Washington during the past five years. Said determination is based upon the official affected producer list of tulip, iris and narcissus bulb producers established by the director pursuant to the provisions of RCW 15.66.060, which list is now on file with the department; said affected producers being qualified to assent to said marketing order;

(3) Now therefore, I, Sverre N. Omdahl, director of the department of agriculture of the state of Washington, acting pursuant to and by virtue of the authority vested in me by said act, do hereby make effective the said marketing order for Washington tulip, iris and narcissus bulbs; said order to be effective at 12:01 a.m., April 16, 1956.

[Order and Findings, effective 4/16/56.]

WAC 16-524-010 Definitions. As used in this marketing order, the following terms shall have the following meanings:

(1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative;

(2) "Act" means the Washington Agricultural Enabling Act, being chapter 15.66 RCW;

(3) "Person" includes any individual, firm, corporation, trust, association, partnership, society or any other organization of individuals;

(4) "Bulbs" for the purposes of this marketing order means and includes tulip, iris and narcissus bulbs of any kind and variety grown in the state of Washington;

(5) "Producer" means any person engaged in the business of producing or causing to be produced for market in commercial quantities, bulbs as defined herein;

(6) "Bulb commission" or "commission" are synonymous and mean the commission established pursuant to WAC 16-524-020;

(7) "Marketing season" or "fiscal year" are synonymous and mean the twelve month period beginning with January 1 of any year and ending upon the last day of December, both dates inclusive;

(8) "Sell" means a transaction wherein the property in or to bulbs is transferred from the producer to a purchaser for consideration. "Sell" shall also include an agreement to acquire such property for a consideration;

(9) "Affected area" shall mean and include all of the state of Washington.

[Marketing Order, Article I, effective 4/16/56.]

WAC 16-524-020 Bulb commission. (1) **Establishment and membership.** A bulb commission is hereby established to administer this marketing order which shall be composed of five members who shall be producers elected as provided in subsection (2) of this section and two members who

shall be appointed by the elected producer members. In addition, the director shall be an ex officio member of the commission.

(2) **Representative districts.** For the purpose of nomination and election of producer members of the commission, the state of Washington shall be divided into representative districts, as follows:

(a) District No. 1 shall be and include the counties of Snohomish, Skagit, Whatcom and Island.

(b) District No. 2 shall be and include all other counties in the state of Washington.

(c) District No. 3 shall be the entire state of Washington and shall include the areas defined in districts 1 and 2.

Two of the producer members, being positions 1 and 2, shall be elected from District No. 1; two of the producer members, being positions 3 and 4, shall be elected from District No. 2; and one producer member, being position 5 shall be elected from District No. 3. The producer member elected for position 5 shall be known as the commissioner-at-large and shall be elected by all of the producers.

(3) **Membership qualifications.** Commission members shall be citizens and residents of this state, over the age of twenty-five years. Producer members of the commission elected for positions 1 through 4 inclusive shall be producers of bulbs in the district in and for which they are nominated and elected. The qualifications of members of the commission as herein set forth shall continue during their term of office.

(4) **Term of office; initial commission.** The term of office of commission members shall be three years from the date of their election and until their successors are elected and qualified provided, however, that the initial members of the commission shall serve from the effective date of this marketing order as follows: Positions 1 and 3 shall terminate December 31, 1956, positions 2 and 4 shall terminate December 31, 1957 and position 5 shall terminate December 31, 1958; the term of one appointed member, being position 6, shall terminate December 31, 1957; the term of the second appointed member, being position 7, shall terminate December 31, 1958. The appointed members of the initial commission shall be elected by a majority of the commissioners at the first meeting of said commission.

(5) **Nomination and election of commission members.**

(a) Not earlier than September 18 nor later than October 2 of each year, the director shall give notice by mail to all producers in a district wherein a vacancy or vacancies will occur in the commission of such vacancy or vacancies and call for nominations. Nominating petitions shall be signed by five persons qualified to vote for such candidates. Such notice shall state the final date for filing said petitions which shall be not earlier than October 8 and not later than October 13 of each year.

(b) The director shall submit ballots by mail to all producers in the district wherein the vacancy or vacancies will occur not earlier than October 18 and not later than November 2 of each year. Ballots shall be returned not later than December 2 of such year. Such mailed ballot shall be conducted in a manner so that it shall be a secret ballot in accordance with rules and regulations to be promulgated by the director.

(c) With respect to the initial bulb commission, the director shall call for nominations in the notice of his decision following the hearing designated in the act. The ballot specified herein shall be forwarded to the producer at the time the director's proposed marketing order is mailed to the producers for their assent.

(d) The two appointed members of the commission, being positions 6 and 7, shall be elected by a majority of the commission within ninety days prior to the expiration of the term.

(6) **Vacancies.**

(a) To fill any vacancy occasioned by the failure to qualify of any person elected by the producers as a member of the commission, or in the event of the death, removal, resignation or disqualification of any member, the director shall call for nominations and conduct such election within the district wherein the vacancy occurred in the manner as provided in subsection (5) of this section.

(b) To fill nonelective vacancies caused by other reasons than the expiration of the term, the new members shall be elected by the commission at its first meeting after the occurrence of the vacancy.

(7) **Powers and duties of commission.** The commission shall have the following duties and powers:

(a) To administer, enforce, direct and control the provisions of this marketing order and of the act relating thereto;

(b) To elect a chairman from its membership, and to elect such other officers as the commission may deem advisable;

(c) To adopt, rescind, and amend rules and regulations reasonably necessary for the administration and operation of the commission and the enforcement of its duties under this marketing order;

(d) To employ and discharge at its discretion such administrators and additional personnel, attorneys, advertising and research agencies and other persons and firms that it may deem appropriate and pay compensation to the same;

(e) To acquire personal property and lease office space and other necessary real property and transfer and convey the same;

(f) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction or civil recovery, or proceedings before administrative tribunals or other governmental authorities necessary to carry out the provisions of the act and of this marketing order;

(g) To keep accurate records of all receipts and disbursements, which records shall be open to inspection and audit by the department and other legal agencies of the state and make annual reports therefrom to the state auditor;

(h) To borrow money and incur indebtedness;

(i) To make necessary disbursements for routine operating expenses;

(j) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with and to effectuate the purposes of the act and this marketing order;

(k) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year;

(l) To accept and receive gifts and grants and to expend the same to effectuate the provisions of the act and this order;

(m) To exercise such other powers and perform such other duties as are necessary and proper to effectuate the purposes of the act and of this order.

(8) Procedure for commission.

(a) The commission shall hold at least two regular meetings during each fiscal year and such other special meetings as may be called in accordance with rules and regulations to be prescribed by the commission.

(b) A quorum of the commission shall consist of at least five members. Any action taken by the commission shall require the concurring vote of the majority of the members present; provided, that in no event shall any action be taken unless a quorum is present.

(c) No member of the commission shall receive any salary or other compensation from the commission, except that each member shall be paid not to exceed \$20.00 per day for each day spent in actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, together with subsistence and traveling expense at the rate allowed by law to state employees.

(9) Limitation of liability of commission members and employees. Obligations incurred by the commission and any other liabilities or claims against the commission shall be enforced only against the assets of the commission in the same manner as if it were a corporation and no liability for the debts or actions of the commission shall exist against either the state of Washington or any subdivision or instrumentality thereof or against any other commission established pursuant to the act or the assets thereof or against any member officer, employee or agent of the commission in his individual capacity. The members of the commission, including employees thereof, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other member of the commission. The liability of the members of the commission shall be several and not joint and no member shall be liable for the default of any other member.

[Marketing Order, Article II, effective 4/16/56.]

WAC 16-524-030 Marketing order purposes. (1) Advertising and sales promotion plans. The bulb commission, subject to the provisions of the act, is hereby authorized to prepare plans and administer programs and expend moneys for promoting the sale of bulbs for the purpose of maintaining existing markets or creating new and larger markets for bulbs; provided, that any such plans so developed and conducted shall be directed toward promoting the sale of bulbs without reference to a particular private brand or trade name, and, provided, further, that such plans or programs make no false or unwarranted claims on behalf of bulbs.

In carrying out any advertising and sales promotion plans or programs, the commission may arrange for advertising space, display material and other advertising material, conduct dealer service work or may use any other methods consistent with the act and this marketing order which the commission considers appropriate in promoting or creating

new and larger domestic or foreign markets for bulbs, or in maintaining existing markets. Advertising and sales promotion activities of the commission may include the presentation of facts to and negotiations with state, federal or foreign governmental agencies on matters which affect the marketing of bulbs produced in Washington.

(2) Research. The bulb commission, subject to the provisions of the act, is hereby authorized to carry on or cause to be carried on any necessary and proper marketing, production, processing or handling research or survey studies relating to bulbs, and to expend moneys for such purposes. Such research and/or survey studies may include the collection of data and information relating to bulbs; the analysis of such data and information; the dissemination of such data information and analysis; and such other investigation that falls within the scope of the marketing, producing, processing or handling of bulbs.

(3) Standards and grades. The bulb commission, subject to the provisions of the act, is hereby authorized to provide for the improving of standards and grades for bulbs by defining, establishing and providing labeling requirements, not inconsistent with the agricultural and horticultural laws of the state, with respect to the same, and to expend moneys for such purposes.

(4) Unfair trade practices. The bulb commission, subject to the provisions of the act, is hereby authorized to investigate and take necessary action to prevent any unfair trade practices. Information acquired in any such investigation shall be confidential and shall be released only to the extent necessary to effectuate the purposes of the act.

[Marketing Order, Article III, effective 4/16/56.]

WAC 16-524-040 Assessments and assessment funds.

(1) Rate of assessment. There is hereby levied, and shall be collected by the commission, upon each and every one thousand bulbs or part thereof in excess of five hundred bulbs, an assessment as provided in the act which shall be paid by the producer thereof upon each and every one thousand bulbs or part thereof in excess of five hundred bulbs, sold, processed, stored or delivered for sale, processing or storage by him, as follows: Twenty-five cents per thousand narcissus bulbs; twenty cents per thousand iris and tulip bulbs if sold by count. For bulbs sold by weight, the assessment shall be set at one and one-quarter percent of the receipts to the grower at the first sale. No assessment levied or made collectible by the act under this order shall exceed three percent of the total market value of all such bulbs sold, processed, stored or delivered for sale, processing or storage, by all producers of bulbs for the fiscal year to which the assessment applies.

(2) Collection of assessment. All assessments made and levied pursuant to the provisions of the act under this marketing order shall be paid by the respective producers, who shall be primarily liable therefore. Such assessments shall be collected by stamps to be known as "bulb commission stamps" to be purchased from the commission and fixed or attached to the containers, invoices, shipping documents, inspection certificates, releases, receiving receipts or tickets. Any such stamps shall be canceled immediately upon being attached or fixed and the date of cancellation shall be placed on such stamps. The commission is authorized to make such reason-

able rules and regulations in accordance and conformity with the act and with this section to effectuate the collection of this assessment.

(3) Funds.

(a) Moneys collected by the bulb commission pursuant to the act and this marketing order as assessments shall be used by the commission only for the purpose of paying for the cost or expenses arising in connection with carrying out the purposes and provisions of the act and of this marketing order.

(b) At the end of each fiscal year the commission shall credit each producer with any amount paid by such producer in excess of three percent of the total market value of all bulbs sold, processed, stored or delivered for sale, processing or storage during that period. Refund shall be made only upon satisfactory proof given by the producer in accordance with reasonable rules and regulations prescribed by the director.

[Statutory Authority: Chapter 15.66 RCW. 86-13-057 (Order 1891), § 16-524-040, filed 6/16/86, effective 7/18/86; Marketing Order, Article IV, effective 4/16/56.]

WAC 16-524-050 Information reports. All persons subject to the provisions of this order shall make and render

such reports and furnish such information to the director or the commission as may be necessary or required under the act or this order to effectuate the purposes thereof. Any information obtained by any person pursuant to the provisions of this article shall be confidential and shall not be by him disclosed to any other person save to a person with like right to obtain the same or any attorney employed by the director or the commission to give legal advice thereon or by court order.

[Marketing Order, Article V, effective 4/16/56.]

WAC 16-524-060 Separability. If any provision hereof is declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Marketing Order, Article VI, effective 4/16/56.]

WAC 16-524-070 Effective time. The provisions hereof shall become effective at such time as the director may declare above his signature attached hereto and shall continue in force until terminated as specified in the act.

[Marketing Order, Article VII, effective 4/16/56.]

[Form, (codified as WAC 16-524-110), adopted 6/10/57.]

Reviser's note: Filed with the code reviser's office on February 23, 1960, was the following excerpt from the commission's minutes of June 10th, 1957: "Mr. Fryar presented a copy of a revised form for reporting bulb sales, which had the approval of the state department of agriculture (copy attached). The date of December 1st was established as the deadline for grower reporting. Mr. Staatz moved that the reporting form, as presented, be formally adopted, Mr. Hatch seconded and the motion carried."

16-528-030	Marketing order purposes. [Marketing Order, Article III, effective 4/30/58.] Repealed by 04-10-057, filed 4/30/04, effective 7/1/04. Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW.
16-528-220	Exemption from assessment. [Minute Order, 9/14/59.] Repealed by 04-10-058, filed 4/30/04, effective 7/1/04. Statutory Authority: RCW 15.66.140 and chapter 34.05 RCW.

WAC 16-528-002 Director's final decision approving a marketing order. (1) I, Joe Dwyer, director of agriculture of the state of Washington, after due consideration given to all objections filed to the recommended decision previously issued, do hereby execute and issue this final decision approving a marketing order for Washington wheat and the formation of a Washington wheat commission.

(2) I do hereby approve the marketing order contained in my recommended decision dated November 19, 1957, the text of which marketing order is hereto attached in full and made a part hereof.

(3) I direct that said marketing order be submitted to a referendum vote of all affected wheat producers, as listed on the affected producers' list heretofore established.

[Director's Final Decision, effective 12/4/57.]

WAC 16-528-004 Marketing order for Washington wheat—Policy statement. (1) The marketing of wheat within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its wheat be properly promoted by:

(a) Enabling producers of wheat to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the wheat they produce.

(b) Working towards stabilizing the agricultural industry by increasing consumption of wheat within the state, the nation, and internationally.

(2007 Ed.)

(2) That it is in the overriding public interest that support for the wheat industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that wheat be promoted individually, and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's wheat.

(b) Increase the sale and use of Washington state's wheat in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's wheat.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's wheat and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of wheat produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.66 RCW through this marketing order.

(4) The Washington state wheat commission exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the commission is authorized to speak on behalf of Washington state government with regard to wheat under the provisions of this marketing order.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-10-057, § 16-528-004, filed 4/30/04, effective 7/1/04.]

WAC 16-528-005 Marketing order purposes. (1) The marketing order for wheat is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or increasing production efficiency, ensuring a fair regulatory environment; or increasing per capita consumption of wheat in Washington state. The Washington state wheat commission is designated by the director to conduct the following programs in accordance with chapter 15.66 RCW:

(a) To establish plans and conduct programs for marketing and sales promotion. The commission may also engage in cooperative efforts in the domestic or foreign marketing of wheat food products.

(b) To provide for carrying on research studies to find more efficient methods of irrigation, production, processing, handling, transportation, and marketing of wheat.

(c) To adopt rules in accordance with chapter 34.05 RCW to provide for improving standards and grades of wheat by defining, establishing, and providing labeling requirements with respect to the same.

(d) To investigate and take necessary action to prevent unfair trade practices.

(e) Subject to the provisions of the act, to provide information and communicate on matters pertaining to the production, irrigation, processing, transportation, marketing, or uses of wheat produced in Washington state to any elected official or officer or employee of any agency.

(f) To conduct programs for the purpose of providing information and education including:

(i) Marketing information and services for producers of wheat.

(ii) Information and services enabling producers to meet their resource conservation objectives.

(iii) Wheat-related education and training.

(2) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for wheat marketing and promotion, wheat research, education, and information.

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of the wheat may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-10-057, § 16-528-005, filed 4/30/04, effective 7/1/04.]

WAC 16-528-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.66 RCW, Washington State Agricultural Commodity Commissions Act. For the purposes of the wheat marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or any qualified person or persons designated by the director of agriculture to act for him or her concerning some matter under this chapter;

(2) "Act" means the Washington State Agricultural Commodity Commissions Act, chapter 15.66 RCW;

(3) "Person" includes any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals or any unit or agency of local or state government;

(4) "Producer" means any person who is engaged in the business of producing or causing to be produced for market, in commercial quantities, wheat grown in the designated affected area of the state of Washington. "To produce" means to act as a producer. For the purposes of the wheat marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title to the seed and its resulting agricultural product or the agricultural product delivered for further production or increase;

(5) "Affected producer" means any producer who is subject to this marketing order;

(6) "Commercial quantities" shall mean and include five hundred or more bushels of wheat produced for market in any calendar year by any producer;

(7) "Wheat" means and includes all kinds and varieties of wheat grown in the state of Washington;

(8) "Wheat commission" or "commission" are synonymous and mean the commission established pursuant to the provisions of WAC 16-528-020;

(9) "Marketing year" refers to the twelve-month period beginning June 1 of any year and ending on May 31. "Fiscal year" refers to the twelve-month period beginning July 1 of any year and ending on June 30.

(10) "Handler" means any person who acts, either as principal, agent, or otherwise, in the processing, selling, marketing, or distributing of wheat that is not produced by the handler. "Handler" does not include a common carrier used to

transport an agricultural commodity. "To handle" means to act as a handler;

(11) "Commercial channels" means the sale of wheat for use as food, feed, seed or any industrial or chemurgic use, when sold to any commercial buyer, dealer, processor, cooperative, or to any person, public or private, who resells any wheat, or products produced from wheat;

(12) "Affected area" shall mean and include the following counties located in the state of Washington: Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman and Yakima.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-10-057, § 16-528-010, filed 4/30/04, effective 7/1/04; Marketing Order, Article I, effective 4/30/58.]

WAC 16-528-020 Wheat commission—Structure—Powers, duties—Procedure. (1) **Establishment and membership.** A wheat commission is hereby established to administer this marketing order and shall be composed of five members who shall be producers who are nominated by producers in each district and subsequently appointed by the director as provided in this section and two members who shall be appointed by the commission members. In addition, the director shall be a voting member of the commission.

(2) **Representative districts.**

(a) The affected area shall be divided into the five following districts:

District I—One commission member

Ferry County
Lincoln County
Pend Oreille County
Spokane County
Stevens County

District II—One commission member

Whitman County

District III—One commission member

Asotin County
Columbia County
Garfield County
Walla Walla County

District IV—One commission member

Adams County
Chelan County
Douglas County
Grant County
Okanogan County

District V—One commission member

Benton County
Franklin County
Kittitas County
Klickitat County
Yakima County

(b) Producer positions appointed by the director shall be numbered one through five. Positions appointed by the commission members shall be numbered six and seven. The director's position shall be position eight.

(c) Nomination and appointment of director-appointed commission members shall be as set forth in chapter 15.66 RCW and specified by the director.

(3) **Membership qualifications.** Commission members shall be citizens and residents of this state, over the age of eighteen years. Producer members of the commission shall be producers of wheat in the district in and for which they are nominated and appointed. The qualifications of producer members of the commission as herein set forth must continue during their term of office.

(4) **Term of office—Initial commission.**

(a) The term of office of commission members shall be three years from the date of their appointment and until their successors are appointed and qualified. The terms of office for the initial commission members shall be as follows:

Districts I and II shall terminate December 31, 1958.

Districts III and IV shall terminate December 31, 1959.

District V shall terminate December 31, 1960.

One appointed member's term shall terminate December 31, 1959.

The second appointed member's term shall terminate December 31, 1960.

The appointed members of the initial commission shall be elected by a majority of the elected commissioners at the first meeting.

(b) Within thirty days of the effective date of this amended marketing order, the names of the currently elected board members shall be forwarded to the director for appointment to the commission.

(5) **Nomination and appointment of commission members.**

(a) Nomination and subsequent appointment of director-appointed commission members shall be as set forth in chapter 15.66 RCW and specified by the director. Dates will be set as follows:

(i) Nominating petitions for director-appointed positions shall be sent not earlier than September 17th and not later than October 2nd of each year in the district wherein an open commission position(s) will occur. Nominating petitions shall be signed by not less than five affected producers of the district from which such a candidate will be appointed.

(ii) Filing of nominating petitions for director-appointed positions shall be mailed to the director not earlier than October 8th and not later than October 13th of each year.

(iii) Ballots for an advisory vote will be mailed to all producers in the district wherein an open commission position(s) will occur, not earlier than October 18th and not later than November 2nd of each year.

(iv) Ballots for an advisory vote shall be returned not later than December 2nd of such year. An affected producer is entitled to one vote.

(v) When only one nominee is nominated by the affected producers for a director-appointed position, RCW 15.66.120 shall apply.

(b) Except with respect to the initial wheat commission, the members of the commission not elected by the producers or appointed by the director shall be appointed by a majority of the commission within ninety days prior to the expiration of the term.

(6) **Vacancies.**

(a) In the event of a vacancy in a commission-appointed position, the remaining members shall select a qualified person to fill the term. The appointment shall be made at the commission's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in chapter 15.66 RCW.

(7) **Powers and duties of commission.** The commission shall have the powers and duties, as specified under RCW 15.66.140 including the following:

(a) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with, and to effectuate the purposes of the act, and this marketing order.

(b) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year. The commission, at least thirty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its marketing, research, commodity-related education and training plan, and its budget.

(c) To accept and receive gifts and grants from private persons or private and public agencies and expend same.

(d) To administer, enforce, direct, and control the provisions of this marketing order and of the act relating thereto.

(e) To elect a chairman and such other officers as the commission may deem advisable.

(f) To adopt, rescind, and amend rules reasonably necessary for the administration and operation of the commission and the enforcement of its duties under this marketing order.

(g) To employ and discharge at its discretion such administrators and additional personnel, attorneys, advertising and research agencies, and other persons and firms that it may deem appropriate and pay compensation to the same.

(h) To acquire personal property and lease office space and other necessary real property and transfer and convey the same.

(i) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction, or civil recovery, or proceedings, before administrative tribunals or other governmental authorities necessary to carry out the provisions of the act and of this marketing order.

(j) To keep accurate records of all its receipts and disbursements, which records shall be open to inspection and audit by the department and other legal agencies of the state and make annual reports therefrom to the state auditor.

(k) To borrow money and incur indebtedness.

(l) To make necessary disbursements for routine operating expenses.

(m) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes set forth in this marketing order.

(n) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local, to carry out the purposes set forth in this marketing order. Personal service contracts must comply with chapter 39.29 RCW.

(o) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of wheat.

(p) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(q) To engage in appropriate fund-raising activities for the purpose of supporting activities of the commission authorized by this marketing order.

(r) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of wheat including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(s) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's production for a minimum three-year period pursuant to RCW 15.66.140.

(t) To maintain a list of the names and addresses of persons who handle wheat within the affected area and data on the amount and value of the wheat handled for a minimum three-year period by each person pursuant to RCW 15.66.140.

(u) To maintain a list of names and addresses of all affected persons who produce wheat and the amount, by unit, of wheat produced during the past three years pursuant to RCW 15.66.143.

(v) To maintain a list of all persons who handle wheat and the amount of wheat handled by each person during the past three years pursuant to RCW 15.66.143.

(w) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(x) To request records and audit the records of producers or handlers of the affected commodity during normal business hours to determine whether the appropriate assessment has been paid.

(y) To assist and cooperate with the department or any other local, state, or federal government agency in the investigation and control of exotic pests and diseases that could damage or affect trade of the affected commodity.

(z) To acquire or own intellectual property rights, licenses, or patents and to collect royalties resulting from commission-funded research related to the affected commodity.

(aa) To exercise such other powers and perform such other duties as are necessary and proper to effectuate the purposes of the act and of this order.

(8) Procedure for commission.

(a) The commission shall, by resolution, establish a headquarters which shall continue as such unless and until so changed by the commission, at which headquarters shall be kept the books, records and minutes of the commission meetings.

(b) The commission shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by the resolution of the commission. Notice of the time and place of

regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(c) The commission shall hold an annual meeting at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the wheat commission at least ten days prior to the meeting, through the regular wire news services and radio-television press.

(d) The commission shall establish by resolution, the time, place and manner of calling special meetings with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

(e) Any action taken by the commission shall require the majority vote of the members present, provided a quorum is present.

(f) A quorum of the commission shall consist of at least five members.

(g) No members of the commission shall receive any salary or other compensation from the commission, except that each member shall receive an amount not to exceed the amount as allowed in RCW 43.03.230, as it exists now or as hereafter amended, for each day spent in actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, together with subsistence, lodging, and mileage expense allowed by RCW 43.03.050 and 43.03.060 as authorized by RCW 15.66.130. The commission may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members of the commission in carrying out the provisions of this marketing order pursuant to RCW 15.66.130.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-10-057, § 16-528-020, filed 4/30/04, effective 7/1/04. Statutory Authority: Chapters 15.66 and 43.03 RCW. 89-08-020 (Order 1999), § 16-528-020, filed 3/29/89; Marketing Order, Article II, effective 4/30/58.]

Reviser's note: Meetings: See also WAC 16-528-110, 16-528-120, 16-528-130.

WAC 16-528-040 Assessments and collection. (1) Assessments. The annual assessment on wheat shall be three-fourths of one percent of the net receipts at the first point of sale. The assessment shall be levied and paid by the producer, or deducted, as provided in this section, whether the wheat is sold in this or any other state.

(2) Collection of assessments. The collection of the assessment made and levied by the wheat commission, pursuant to the provisions of the act, shall be paid by the producer upon all commercial quantities of wheat sold, processed, stored or delivered for sale, processing or storage by him, under any or all of the methods of collections set forth in RCW 15.66.150, in accordance with rules to be adopted by the wheat commission: Provided, That no assessment shall be levied or collected on wheat grown and used by the producer for feed, seed, or personal consumption.

(3) Funds. All moneys collected by the wheat commission shall be used only for the purposes of paying for the costs or expenses arising in connection with carrying out the

purposes and provisions of the act and the wheat marketing order. At the end of each fiscal year, the commission shall credit each producer with any amount paid by such producer in excess of the assessment. Refund may be made only upon satisfactory proof given by the producer in accordance with reasonable rules and regulations prescribed by the director.

RULES OF THE WHEAT COMMISSION

WAC 16-528-105 Definition of terms. (1) "Promotional hosting" as used in these rules means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations and promoting sales of wheat and processed wheat products.

(2) "Hosting" may include providing meals, refreshments, lodging, transportation, gifts of a nominal value, reasonable and customary entertainment, and normal incidental expenses at meetings or gatherings.

[Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-05-065 (Order 2072), § 16-528-105, filed 2/19/91, effective 3/22/91.]

WAC 16-528-110 Monthly meetings of the commission. The commission will hold a minimum of four scheduled meetings per year. Dates of each meeting will be determined annually prior to the new calendar year.

[Statutory Authority: RCW 15.66.140 and chapter 34.05 RCW. 04-10-058, § 16-528-110, filed 4/30/04, effective 7/1/04. Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-05-065 (Order 2072), § 16-528-110, filed 2/19/91, effective 3/22/91; Minute Order, 4/30/58.]

Regular meetings: See also WAC 16-528-020 (8)(b).

WAC 16-528-120 Special meetings. It was moved that the chairman be hereby authorized to call special meetings of the commission by giving ten days notice in writing of time and place to each commissioner and at the same time forward notices in the nature of a news release to regular wire services, radio, press and television media emanating from Spokane, Washington. Motion carried.

[Minute Order, 6/9/58.]

Special meetings: See also WAC 16-528-020 (8)(d).

(2007 Ed.)

WAC 16-528-130 Annual meetings. It was moved that the commission designate May of each year as the month for the Washington wheat commission's annual meeting to be held. Motion carried.

[Minute Order, 11/19/58.]

Annual meetings: See also WAC 16-528-020 (8)(c).

WAC 16-528-140 Fiscal year of commission. It was moved that the Washington wheat commission establish the period July 1 through June 30 as the official fiscal and budget year of the commission. Motion carried.

[Minute Order, 11/19/58.]

WAC 16-528-150 Warrants drawn on commission account—Signatures. The chairman, vice-chairman, secretary-treasurer, administrator, and one additional staff member, other than the person responsible for drafting checks, be designated and authorized to draw warrants against the accounts of the Washington wheat commission. Signature of any one of the above to be required on each and every check.

[Statutory Authority: RCW 15.66.140 and chapter 34.05 RCW. 04-10-058, § 16-528-150, filed 4/30/04, effective 7/1/04. Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-05-065 (Order 2072), § 16-528-150, filed 2/19/91, effective 3/22/91; Minute Order, 11/19/58.]

WAC 16-528-160 Refund checks—Endorsement by payee. It was moved that the following affidavit be typed or stamped on the back of any refund checks: "The payee by his (her) endorsement hereon represents that he (she) is legally entitled to this refund and that he (she) accepts same in full payment thereof." Motion carried.

[Minute Order, 9/14/59.]

WAC 16-528-170 Rules for implementation of promotional hosting by the Washington wheat commission. The laws of section 1, chapter 26, Laws of 1985 (RCW 15.04.200) provide that agricultural commodity commissions shall adopt rules governing promotional hosting expenditures by agricultural commodity commission employees, agents, or commissioners. The rules governing promotional hosting expenditures for the Washington wheat commission shall be as follows:

(1) Budget approval. Commission expenditures for agricultural development or trade promotion and promotional hosting shall be pursuant to specific budget items as approved by the commission at annual public hearings on the commission budget.

(2) Officials and agents authorized to make expenditures. The following officials and agents are authorized to make expenditures for agricultural development or trade promotion and promotional hosting in accordance with the provisions of these rules.

(a) Commissioners;

(b) Administrator, director of marketing.

Individual commissioners shall make promotional hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be identified and supported by vouchers to

which receipts are attached. Voucher forms will be supplied by the commission, and shall require the following information:

- (a) Name and position (if appropriate) of each person hosted;
- (b) General purpose of the hosting;
- (c) Date of hosting;
- (d) Location of the hosting;
- (e) To whom payment was or will be made;
- (f) Signature of person seeking payment or reimbursement.

(4) The chairman of the commission, administrator, and/or treasurer are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations and promote sales of wheat and processed wheat products:

- (a) Individuals from private business, associations, commissions;
- (b) Foreign government officials;
- (c) Federal and state officials: Provided, That lodging, meals, and transportation will not be provided when such officials may obtain full reimbursement for these expenses from their government employer;
- (d) The general public, at meetings and gatherings open to the general public;
- (e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted, will cultivate trade relations and promote sales of wheat and processed wheat products;
- (f) Spouses of the persons listed in (a), (b), (c), and (e) of this subsection when attendance of such spouse is customary and expected.

[Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-05-065 (Order 2072), § 16-528-170, filed 2/19/91, effective 3/22/91.]

WAC 16-528-210 Assessments—Rate—Duty of handlers, warehousemen, and processors. The following resolution with respect to assessment collection methods was unanimously approved. "Resolved, that the Washington wheat commission adopts and promulgates the following assessment collection method as the sole and only means applicable and in effect and that the commission do and hereby does require handlers including warehousemen and processors receiving wheat in commercial quantities from the producer, to collect the assessment stated in WAC 16-528-040 from producers whose production they handle and remit the same to the Washington wheat commission. A commodity credit corporation designated lending agency, and CCC as such in direct loans to producers, shall be deemed a handler for purposes of this resolution. No affected units shall be transported, carried, shipped, sold, stored or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued, but no liability hereunder shall attach to common carriers in the regular course of their business."

[Statutory Authority: RCW 15.66.140(2). 88-12-019 (Order 88-01), § 16-528-210, filed 5/24/88; Minute Order, 9/8/58.]

Assessments: See also WAC 16-528-040.

[Title 16 WAC—p. 540]

WAC 16-528-230 Variations and discrepancies in assessment returns. The following motion was unanimously passed dealing with variations and discrepancies in assessment returns. "A one dollar discrepancy involving either over or under payments for each one hundred dollars wheat assessment remitted shall be permitted and acceptable. Discrepancies in excess of one dollar per each one hundred dollars remitted shall be returned to the sender for correction." Motion passed.

[Minute Order, 9/8/58.]

Assessments: See also WAC 16-528-040.

------------	--

WAC 16-529-005 Marketing order for Washington alfalfa seed—Policy statement. (1) The marketing of alfalfa seed within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its alfalfa seed be properly promoted by:

(a) Enabling producers of alfalfa seed to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the alfalfa seed they produce; and

(b) Working towards stabilizing the agricultural industry by increasing production of alfalfa seed within the state.

(2) That it is in the overriding public interest that support for the alfalfa seed industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that alfalfa seed be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's alfalfa seed.

(b) Increase the sale and use of Washington state's alfalfa seed in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's alfalfa seed.

(d) Increase the knowledge of the qualities and value of Washington state's alfalfa seed and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of alfalfa seed produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state alfalfa seed commodity board exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to alfalfa seed under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-005, filed 3/25/05, effective 4/25/05.]

WAC 16-529-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and the Washington state alfalfa seed commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; increasing production efficiency; ensuring a fair regulatory environment; or increasing per capita consumption of alfalfa seed grown in Washington state.

(1) To carry out the purposes of this chapter, the board shall provide for a program in one or more of the following areas:

(a) Establish plans and conduct programs for marketing, sales, promotion, and/or other programs for maintaining present markets and/or creating new or larger markets for alfalfa seed. Such programs shall be directed toward increasing the sale of alfalfa seed without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims on behalf of alfalfa seed nor disparage the quality, value, sale, or use of any other agricultural commodity. The board may also engage in cooperative efforts in the domestic or foreign marketing of alfalfa seed.

(b) Provide for research in the production, harvesting, processing, irrigation, transportation, handling, and/or distribution of alfalfa seed and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried out by experiment stations of Washington State University, but if in the judgment of the board said experiment stations do not have adequate facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(c) Provide for collection and dissemination of information pertaining to alfalfa seed.

(2007 Ed.)

(d) Conduct programs for the purpose of providing information and education including:

(i) Marketing information and services for producers of alfalfa seed for the verification of grades, standards, weights, tests, and sampling of quality and quantity of alfalfa seed purchased by handlers from affected producers.

(ii) Information and services enabling producers to meet their resource conservation objectives.

(iii) Alfalfa seed-related education and training.

(e) Subject to the provisions of the act, provide information and communicate on matters pertaining to the production, irrigation, processing, transportation, marketing, or uses of alfalfa seed produced in Washington state to any elected official or officer or employee of any agency.

(2) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for marketing and promotion of alfalfa seed.

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of alfalfa seed may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-006, filed 3/25/05, effective 4/25/05.]

WAC 16-529-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agricultural Commodity Boards Act. For the purpose of this marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or his or her duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agricultural Commodity Boards or chapter 15.65 RCW.

(4) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals, or any unit or agency of local or state government.

(5) "Affected producer" means any person who produces any variety of alfalfa seed in the state of Washington for market in commercial quantities: Provided, That for the purpose of election and membership on the commodity board, a producer-handler shall be considered as acting only as a producer.

(6) "Commercial quantity" means all alfalfa seed produced in any calendar year by any producer.

(7) "Affected handler" means any person who acts as principal or agent or otherwise in buying, selling, marketing, or distributing alfalfa seed not grown by him/her.

(8) "Producer-handler" means any person who acts both as a producer and as a handler with respect to the alfalfa seed which he/she produces, and a handler with respect to the alfalfa seed which he/she handles, including that produced by himself/herself. "To produce" means to act as a producer. For the purposes of the alfalfa seed marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title

to the seed and its resulting agricultural product or the agricultural product delivered for further production or increase.

(9) "Alfalfa seed" means the seed that is harvested from any variety of alfalfa plants.

(10) "Alfalfa seed commodity board" hereinafter referred to as "board" or "commission" means the commodity board formed under the provisions of WAC 16-529-020 through 16-529-120.

(11) "Marketing season" or "fiscal year" means the twelve month period beginning with July 1 of any year and ending with June 30 of the year following, both dates being inclusive.

(12) "Affected area" means that portion of the state of Washington located east of the summit of the Cascade Mountains.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade.

(14) "Affected unit" means one hundred weight (cwt) of cleaned alfalfa seed as sold by an affected producer to a handler or other producer.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-010, filed 3/25/05, effective 4/25/05; Order 1, Article I, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-020 The alfalfa seed commodity board—Administration. The provisions of this chapter and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

[Order 1, Article II, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-030 Board membership. (1) The board shall consist of eight members. Six members shall be affected producers appointed or elected as provided in WAC 16-529-020 through 16-529-120. One member shall be an affected handler appointed as provided in WAC 16-529-020 through 16-529-120. The director shall appoint one member of the board who is neither an affected producer nor an affected handler to represent the director. The position representing the director shall be a voting member.

(a) Director-appointed positions on the board shall be designated as position 2, position 4, position 6, and position 7. The affected handler member of the board shall be position 7.

(b) Elected affected producer positions on the board shall be designated as position 1, position 3, and position 5.

(c) The position representing the director who is neither an affected producer nor an affected handler shall be designated as position 8.

(2) For the purpose of nomination, appointment, and election of affected producer members of the board, the affected area of the state of Washington shall be divided into three representative districts as follows:

(a) District I shall have two board members, being Positions 1 and 2, and shall include the counties of Adams, Chelan, Douglas, Ferry, Franklin, Grant, Lincoln, Okanogan, Pend Oreille, Spokane, and Stevens.

(b) District II shall have one board member, being Position 3, and shall include the counties of Benton, Kittitas, Klickitat, and Yakima.

[Title 16 WAC—p. 542]

(c) District III shall have three board members, being Positions 4, 5, and 6, and shall include the counties of Asotin, Columbia, Garfield, Walla Walla, and Whitman.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-030, filed 3/25/05, effective 4/25/05. Statutory Authority: Chapter 15.65 RCW. 85-10-015 (Order 1850), § 16-529-030, filed 4/22/85, effective 6/1/85; Order 1, Article II, § B, filed 3/13/75, effective 7/1/75.]

WAC 16-529-040 Board membership qualifications.

(1) The affected producer members of the board must be practical producers of alfalfa seed and each shall be a citizen and resident of this state, over the age of eighteen years. Each affected producer board member must be and have been actually engaged in producing alfalfa seed within the state of Washington for a period of five years and has during that time derived a substantial portion of his/her income therefrom and is not engaged in business, directly or indirectly, as a handler or other dealer.

(2) The affected handler member of the board must be a practical handler of alfalfa seed and shall be a citizen and resident of this state, over the age of eighteen years. The affected handler board member must be and have been, either individually or as an officer or an employee of a corporation, firm, partnership, association, or cooperative, actually engaged in handling alfalfa seed within the state of Washington for a period of five years and has during that period derived a substantial portion of his/her income therefrom.

(3) The qualifications of members of the board must continue during their term of office.

(4) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members in positions 2, 4, 6, and 7 shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-040, filed 3/25/05, effective 4/25/05; Order 1, Article II, § C, filed 3/13/75, effective 7/1/75.]

WAC 16-529-050 Term of office. (1) The term of office for members of the board shall be three years, and one-third of the membership as nearly as possible shall be appointed or elected each year.

(2) Except for the director's representative, no appointed or elected member of the board may serve more than two full consecutive three-year terms.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-050, filed 3/25/05, effective 4/25/05; Order 1, Article II, § D, filed 3/13/75, effective 7/1/75.]

WAC 16-529-060 Nomination of elected or director-appointed board members. (1) For the purpose of nominating candidates for appointment or election to board membership, the director shall call a separate nomination meeting of affected producers and affected handlers.

(2) Each year the director shall call a nomination meeting for both elected and director-appointed affected producer and affected handler board members in those districts whose board members' terms are about to expire. The meeting(s) shall be held at least thirty days in advance of the date set by

(2007 Ed.)

the director for the election or advisory vote of board members.

(a) Notice of a nomination meeting shall be published in newspapers of general circulation within the affected district not less than ten days in advance of the date of such meeting and, in addition, written notice of every such meeting shall be given to all affected producers within such affected district, and to all handlers, according to the list maintained by the board pursuant to RCW 15.65.295.

(b) Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting.

(c) Any qualified affected producer or affected handler may be nominated orally for membership on the board at a nomination meeting. Nominations may also be made within five days after the nomination meeting by written petition filed with the director, signed by not less than five affected producers or affected handlers.

(d) When only one nominee is nominated by the affected producers for any position, RCW 15.65.250 shall apply.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-060, filed 3/25/05, effective 4/25/05; Order 1, Article II, § E, filed 3/13/75, effective 7/1/75.]

WAC 16-529-070 Election or advisory vote of board members. (1) An election or advisory vote shall be conducted by secret ballot under the supervision of the director within the month of June. Each affected producer and affected handler shall be entitled to one vote.

(2) Elected affected producer members of the board shall be elected by a majority of the votes cast by the affected producers within the affected district.

If a nominee does not receive a majority of the votes on the first ballot, a runoff election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(3) An advisory vote shall be conducted for affected producer or affected handler board members appointed by the director under the provisions of RCW 15.65.243. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position, an advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(4) Notice of every election or advisory vote for board membership shall be published in a newspaper of general circulation within the affected district not less than ten days in advance of the date of the election or advisory vote. Not less than ten days prior to every election or advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer and affected handler entitled to vote whose name appears upon the list of such affected producers and affected handlers as maintained by the board pursuant to RCW 15.65.295. Any other affected producer or affected handler entitled to vote may obtain a ballot by application to the director upon establishing his/her qualifications.

(5) Nonreceipt of a ballot by an affected producer or affected handler shall not invalidate the election or advisory vote of any board member.

(2007 Ed.)

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-070, filed 3/25/05, effective 4/25/05; Order 1, Article II, § F, filed 3/13/75, effective 7/1/75.]

WAC 16-529-080 Vacancies. (1) In the event of a vacancy on the board in an elected position, the remaining members shall select a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position becomes vacant.

(2) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-080, filed 3/25/05, effective 4/25/05; Order 1, Article II, § G, filed 3/13/75, effective 7/1/75.]

WAC 16-529-090 Quorum. A majority of the voting members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

[Order 1, Article II, § H, filed 3/13/75, effective 7/1/75.]

WAC 16-529-100 Board compensation. No member of the board shall receive any salary or other compensation, but each member shall receive an amount not to exceed the amount specified in RCW 43.03.230 for actual attendance on or traveling to and from meetings of the board or on special assignment for the board, together with subsistence and traveling expenses incurred in carrying out the duties of the board in accordance with RCW 43.03.050 and 43.03.060: Provided, That the board may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members and employees of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-100, filed 3/25/05, effective 4/25/05; Order 1, Article II, § I, filed 3/13/75, effective 7/1/75.]

WAC 16-529-110 Powers and duties of the board. The board shall have the following powers and duties:

(1) To administer, enforce, and control the provisions of this chapter as the designee of the director.

(2) To elect a chairman and such other officers as the board deems advisable.

(3) To employ and discharge at its discretion such personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to carry out the purpose of this chapter and effectuate the declared policies of the act.

(4) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of this chapter. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(5) To reimburse any applicant who has deposited money with the director in order to defray the costs of formulating this chapter.

(6) To establish an "alfalfa seed revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds,

in which all money received by the board, except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the days as advisable.

(7) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, collections, receipts, deposits, withdrawals, disbursements, paid outs, moneys and other financial transactions made and done pursuant to this chapter. Such records, books, and accounts shall be audited at least annually subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last days of each fiscal year of the commission. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(8) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(9) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this chapter during each fiscal year. The board, at least sixty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(10) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters.

(11) To adopt rules of a technical or administrative nature for the operation of the board, subject to the provisions of chapter 34.04 RCW (Administrative Procedure Act).

(12) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of this chapter and the act, along with the necessary authority and procedure for obtaining such information.

(13) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or this chapter.

(14) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(15) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order.

(16) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW.

(17) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies.

(18) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of alfalfa seed.

(19) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(20) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this order.

(21) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of alfalfa seed including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(22) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each affected producer's production for a minimum three-year period pursuant to RCW 15.65.280.

(23) To maintain a list of the names and addresses of persons who handle alfalfa seed within the affected area and data on the amount and value of the alfalfa seed handled for a minimum three-year period by each person pursuant to RCW 15.65.280.

(24) To maintain a list of names and addresses of all affected persons who produce alfalfa seed and the amount, by unit, of alfalfa seed produced during the past three years pursuant to RCW 15.65.295.

(25) To maintain a list of all persons who handle alfalfa seed and the amount of alfalfa seed handled by each person during the past three years pursuant to RCW 15.65.295.

(26) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(27) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-110, filed 3/25/05, effective 4/25/05; Order 1, Article II, § J, filed 3/13/75, effective 7/1/75.]

WAC 16-529-120 Procedures for board. (1) The board shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by resolution of the board. Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(2) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting through regular wire news services and radio, television, and press.

(3) The board shall establish by resolution, the time, place, and manner of calling special meetings with reasonable notice to the members: Provided, That the notice to a

member of any special meeting may be waived by a waiver from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-120, filed 3/25/05, effective 4/25/05; Order 1, Article II, § K, filed 3/13/75, effective 7/1/75.]

WAC 16-529-140 Assessments. (1) The fixed annual assessment on all varieties of alfalfa seed subject to this marketing order shall be fifty cents per hundredweight of cleaned seed, which shall be paid by the producer thereof upon each and every unit sold, marketed, or delivered for sale by him.

(2) First handlers or purchasers shall collect assessments at time of payment for seed from producers whose production they handle and remit the same to the board in accordance with procedures adopted by the board.

Producers and producer-handlers who ship their alfalfa seed direct to handlers outside of the state of Washington shall remit assessments to the board at time of shipment.

[Statutory Authority: Chapter 15.65 RCW. 79-07-061 (Order 1639), § 16-529-140, filed 6/27/79, effective 8/1/79; Order 1, Article IV, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-150 Collections. Any moneys collected or received by the board pursuant to the provisions of this order during or with respect to any season or year may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of the marketing order to all persons from whom moneys were collected or received, or may be carried over into and used with respect to the next succeeding season, year, or period whenever the board finds that the same will tend to effectuate such policies and purposes.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-150, filed 3/25/05, effective 4/25/05. Statutory Authority: RCW 15.65.050. 96-03-151 (Order 5090), § 16-529-150, filed 1/24/96, effective 2/24/96; Order 1, Article IV, § B, filed 3/13/75, effective 7/1/75.]

WAC 16-529-160 Penalties. Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and this chapter, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to add to such unpaid assessment or sum an amount not exceeding ten percent of the unpaid assessment to defray the cost of enforcing the collecting of the assessment. In the event of failure of such person or persons to pay any due and payable assessment or other sum, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-160, filed 3/25/05, effective 4/25/05; Order 1, Article IV, § C, filed 3/13/75, effective 7/1/75.]

(2007 Ed.)

WAC 16-529-170 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted by them by the act or this chapter, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this chapter shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Order 1, Article V, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-180 Board is commission. In order to conform with accepted usage and nomenclature of the Washington state agricultural community, the board shall be referred to as the Washington alfalfa seed commission.

[Order 1, Article VI, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-190 Termination of the order. Termination shall be accomplished pursuant to RCW 15.65.183 through 15.65.193.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-190, filed 3/25/05, effective 4/25/05; Order 1, Article VII, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-200 Effective time. This marketing order for alfalfa seed shall become effective after having been approved in a referendum of affected producers, by at least 51% of the affected producers of alfalfa seed having at least 65% of the volume of alfalfa seed produced, or by at least 65% of the affected producers of alfalfa seed having at least 51% of the volume of alfalfa seed produced, and after having been filed with the code reviser for not less than thirty days.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-200, filed 3/25/05, effective 4/25/05; Order 1, Article VIII, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-210 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Order 1, Article IX, § A, filed 3/13/75, effective 7/1/75.]

WAC 16-529-300 Time, place, method for collection and remittance of assessments. Effective with the 1975 crop, the following procedure is established for the collection, reporting, and remittance of assessments levied on alfalfa seed pursuant to RCW 15.65.410 and WAC 16-529-140:

(1) All first buyers of alfalfa seed grown in the state of Washington, or the person acting on behalf of a first buyer, shall withhold the amount of assessment from their remittances to growers of such seed and transmit same to the commission not later than the last day of the calendar month following date of settlement.

(2) All producers selling alfalfa seed other than to first buyers for resale, whether selling directly or through brokers, and including all sales at retail, shall pay the amount of the assessment directly to the commission not later than the last day of the calendar month following date of settlement.

(3) To all assessments due and payable to the commission and not remitted on or before the date due, there shall be added a penalty fee of ten percent as provided in RCW 15.65.440.

(4) All remittances to the commission shall be transmitted with an official reporting form to be furnished free of charge by the commission. Said reporting form shall call for the name and address of the affected producer, the number of pounds of seed sold, the amount of assessment collected from each producer, and the name and address of the person or firm filing the report and remittance.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-08-010, § 16-529-300, filed 3/25/05, effective 4/25/05; Order 2, § 16-529-110 (codified as WAC 16-529-300), filed 10/17/75.]

------------	--

WAC 16-530-005 Marketing order for Washington barley—Policy statement. (1) The marketing of barley within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its barley be properly promoted by:

(a) Enabling producers of barley to help themselves in establishing orderly, fair, sound, efficient, and unhampered

marketing, grading, and standardizing of the barley they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of barley within the state, the nation, and internationally.

(2) That it is in the overriding public interest that support for the barley industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that barley be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's barley.

(b) Increase the sale and use of Washington state's barley in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's barley.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's barley and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of barley produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.66 RCW through this marketing order.

(4) The Washington state barley commission exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the commission is authorized to speak on behalf of Washington state government with regard to barley under the provisions of this marketing order.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-16-026, § 16-530-005, filed 7/26/04, effective 8/26/04.]

WAC 16-530-006 Marketing order purposes. (1) Purposes. This marketing order for barley is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or increasing production efficiency, ensuring a fair regulatory environment; or increasing per capita consumption of barley in Washington state. The Washington state barley commission is designated by the director to conduct the following programs in accordance with chapter 15.66 RCW:

(a) To establish plans and conduct programs for marketing, education, and sales promotion. The commission may also engage in cooperative efforts in the domestic or foreign marketing of barley food products.

(b) To provide for carrying on research studies to find more efficient methods of production, irrigation, processing, handling, transportation, and marketing of barley.

(c) To adopt rules in accordance with chapter 34.05 RCW to provide for improving standards and grades of barley by defining, establishing, and providing labeling requirements with respect to the same.

(d) To investigate and take necessary action to prevent unfair trade practices.

(e) Subject to the provisions of the act, to provide information and communicate on matters pertaining to the production, irrigation, processing, transportation, marketing, or uses

of barley produced in Washington state to any elected official or officer or employee of any agency.

(f) To conduct programs for the purpose of providing information and education including:

(i) Marketing information and services for producers of barley.

(ii) Information and services enabling producers to meet their resource conservation objectives.

(iii) Barley-related education and training.

(2) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for advertising and promotion of barley.

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of the barley may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-16-026, § 16-530-006, filed 7/26/04, effective 8/26/04.]

WAC 16-530-010 Definition of terms. Definitions for terms used in this chapter are also found in chapter 15.66 RCW, Washington State Agricultural Commodity Commissions Act. For the purposes of the barley marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or any qualified person or persons designated by the director of agriculture to act for him or her concerning some matter under this chapter.

(2) "Act" means the Washington State Agricultural Commodity Commissions Act, chapter 15.66 RCW.

(3) "Person" includes any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals, or any unit or agency of local or state government.

(4) "Producer" means any person who is engaged in the business of producing or causing to be produced for market, in commercial quantities, barley grown in the designated affected area of the state of Washington. "To produce" means to act as a producer. For the purposes of the barley marketing order, "producer" shall include persons who contract to produce or grow any agricultural product on behalf of another person who retains title to the seed and its resulting agricultural product or the agricultural product delivered for further production or increase.

(5) "Affected producer" means any producer who is subject to this marketing order.

(6) "Commercial quantities" shall mean and include twenty tons produced for market in any calendar year by any producer.

(7) "Barley" means and includes all kinds and varieties of barley grown in the state of Washington.

(8) "Barley commission" or "commission" are synonymous and mean the commission established pursuant to the provisions of WAC 16-530-020 of this marketing order.

(9) "Marketing year" refers to the twelve-month period beginning June 1 of any year and ending on May 31. "Fiscal year" refers to the twelve-month period beginning July 1 of any year and ending on June 30.

(2007 Ed.)

(10) "Handler" means any person who acts, either as principal, agent, or otherwise, in the processing, selling, marketing, or distributing of barley that is not produced by the handler. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(11) "Commercial channels" means the sale of barley for use as food, feed, seed or any industrial or chemurgic use, when sold to any commercial buyer, dealer, processor, cooperative, or to any person, public or private, who resells any barley, or products produced from barley.

(12) "Affected area" shall mean and include the following counties located in the state of Washington: Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman, and Yakima.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-16-026, § 16-530-010, filed 7/26/04, effective 8/26/04. Statutory Authority: Chapter 15.66 RCW. 85-11-089 (Order 1857), § 16-530-010, filed 5/22/85, effective 7/1/85.]

WAC 16-530-020 Barley commission. (1) Establishment and membership. A barley commission is hereby established to administer this marketing order and shall be composed of five members who shall be affected producers appointed by the director as provided in this section and two members who shall be appointed by the commission members. In addition, the director shall be a voting member of the commission.

(2) Representative districts. The affected area shall be divided into the five following districts:

(a) District I shall have one commission member, and shall include the counties of Chelan, Douglas, Ferry, Grant, Okanogan, Spokane, Stevens, and Pend Oreille.

(b) District II shall have one commission member, and shall include Whitman county.

(c) District III shall have one commission member, and shall include the counties of Asotin, Benton, Columbia, Garfield, and Walla Walla.

(d) District IV shall have one commission member, and shall include the counties of Adams, Franklin, Kittitas, Klickitat, and Yakima.

(e) District V shall have one commission member, and shall include Lincoln county.

(f) Producer positions appointed by the director shall be numbered one through five. Positions appointed by the commission members shall be numbered six and seven. The director's position shall be position eight.

(g) Nomination and appointment of director-appointed commission members shall be as set forth in chapter 15.66 RCW and specified by the director.

(3) Membership qualifications. Commission members shall be citizens and residents of this state, over the age of eighteen years. Producer members of the commission shall be producers of barley in the district in and for which they are nominated and appointed. The qualifications of producer members of the commission as herein set forth must continue during their term of office.

(4) Term of office.

(a) The term of office of commission members shall be three years from the date of their appointment and until their successors are appointed. The terms of office for the initial commission members shall be as follows:

District I shall terminate December 31, 1986.

Districts II and III shall terminate December 31, 1987.

Districts IV and V shall terminate December 31, 1988.

One appointed member's term shall terminate December 31, 1986.

The second appointed member's term shall terminate December 31, 1988.

The appointed members of the initial commission shall be elected by a majority of the elected commissioners on or before the adjournment of its third meeting.

(b) Within thirty days of the effective date of this amended marketing order, the names of the currently elected board members shall be forwarded to the director for appointment to the commission.

(5) Nomination and appointment of commission members.

(a) Nomination and appointment of director-appointed commission members shall be as set forth in chapter 15.66 RCW and specified by the director. Dates will be set as follows:

(i) Nominating petitions for director-appointed positions shall be mailed not earlier than September 17 and not later than October 2 of each year in the district wherein an open commission position(s) will occur. Nominating petitions shall be signed by not less than five affected producers of the district from which such a candidate will be appointed.

(ii) Final date for filing of nominating petitions for director-appointed positions to the director shall not be earlier than October 8 and not later than October 13 of each year.

(iii) Ballots for an advisory vote will be mailed to all producers in the district wherein an open commission position(s) will occur, not earlier than October 18 and not later than November 2 of each year.

(iv) Ballots for an advisory vote shall be returned not later than December 2 of such year. An affected producer is entitled to one vote.

(v) When only one nominee is nominated by the affected producers for a director-appointed position, RCW 15.66.120 shall apply.

(b) Except with respect to the initial barley commission, the members of the commission not elected by the producers or appointed by the director shall be appointed by a majority of the commission within ninety days prior to the expiration of the term.

(6) Vacancies.

(a) In the event of a vacancy in a commission-appointed position, the remaining members shall select a qualified person to fill the term. The appointment shall be made at the commission's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in chapter 15.66 RCW.

(7) Powers and duties of commission. The commission shall have the following powers and duties:

(a) To elect a chairman and such other officers as determined advisable.

(b) To adopt, rescind and amend rules reasonably necessary for the administration and operation of the commission and the enforcement of its duties under the marketing order.

(c) To administer, enforce, direct, and control the provisions of the marketing order and of this chapter relating thereto.

(d) To employ and discharge at its discretion such administrators and additional personnel, attorneys, advertising and research agencies and other persons and firms that it may deem appropriate and pay compensation to the same.

(e) To acquire personal property and lease office space and other necessary real property and transfer and convey the same.

(f) To institute and maintain in its own name any and all legal actions, including actions by injunction, mandatory injunction or civil recovery, or proceedings before administrative tribunals or other governmental authorities necessary to carry out the provisions of this chapter and of the marketing order.

(g) To keep accurate records of all its receipts and disbursements, which records shall be open to inspection and audit by legal agencies of the state and make annual reports therefrom to the state auditor.

(h) Borrow money and incur indebtedness.

(i) Make necessary disbursements for routine operating expenses.

(j) Such other powers and duties that are necessary to carry out the purposes of this chapter.

(k) To collect the assessments of producers as provided in this marketing order and to expend the same in accordance with, and to effectuate the purposes of the act, and this marketing order.

(l) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of this marketing order during each fiscal year. The commission, at least thirty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(m) To accept and receive gifts and grants from private persons or private and public agencies and expend same.

(n) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes set forth in this marketing order.

(o) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local, to carry out the purposes set forth in this marketing order. Personal service contracts must comply with chapter 39.29 RCW.

(p) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of barley.

(q) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(r) To engage in appropriate fund-raising activities for the purpose of supporting activities of the commission authorized by this marketing order.

(s) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to

the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of barley including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(t) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's production for a minimum three-year period pursuant to RCW 15.66.140.

(u) To maintain a list of names and addresses of persons who handle barley within the affected area and data on the amount and value of the barley handled for a minimum three-year period by each person pursuant to RCW 15.66.140.

(v) To maintain a list of names and addresses of all affected persons who produce barley and the amount, by unit, of barley produced during the past three years pursuant to RCW 15.66.143.

(w) To maintain a list of all persons who handle barley and the amount of barley handled by each person during the past three years pursuant to RCW 15.66.143.

(x) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(y) To request records and audit the records of producers or handlers of the affected commodity during normal business hours to determine whether the appropriate assessment has been paid.

(z) To acquire or own intellectual property rights, licenses, or patents and to collect royalties resulting from commission-funded research related to the affected commodity.

(8) Procedure for commission.

(a) The commission shall, by resolution, establish a headquarters which shall continue as such unless and until so changed by the commission at which headquarters shall be kept the books, records and minutes of the commission meetings.

(b) The commission shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by the resolution of the commission. Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(c) The commission shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the barley commission at least ten days prior to the meeting, through the regular news media.

(d) The commission shall establish by resolution, the time, place and manner of calling special meetings with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

(e) Any action taken by the commission shall require the majority vote of the members present, provided a quorum is present.

(2007 Ed.)

(f) A quorum of the commission shall consist of at least five members.

(g) No members of the commission shall receive any salary or other compensation from the commission, except that each member shall receive an amount not to exceed the amount specified in RCW 43.03.230 as it exists now or as hereafter amended, for each day spent in actual attendance at or traveling to and from meetings of the commission or on special assignments for the commission, together with subsistence and travel expenses allowed by RCW 43.03.050 and 43.03.060. The commission may adopt by resolution provisions for reimbursement of actual expenses incurred by members of the commission in carrying out the provisions of this marketing order pursuant to RCW 15.66.130.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-16-026, § 16-530-020, filed 7/26/04, effective 8/26/04. Statutory Authority: Chapter 15.66 RCW. 85-11-089 (Order 1857), § 16-530-020, filed 5/22/85, effective 7/1/85.]

WAC 16-530-040 Assessments and collection. (1) Assessments. The assessment on barley shall be one percent of the net receipts at the first point of sale. The assessment shall be levied and paid by the producer, or deducted, as provided in this section, whether the barley is sold in this or any other state.

(2) Collection of assessments. The collection of the assessment made and levied by the barley commission, pursuant to the provisions of the act, shall be paid by the producer upon all commercial quantities of barley sold, under any or all of the methods of collection set forth in RCW 15.66.150, in accordance with rules to be adopted by the barley commission: Provided, That no assessment shall be levied or collected on barley grown and used by the producer for feed, seed, or personal consumption.

(3) Funds. All moneys collected by the barley commission shall be used only for the purposes of paying for the costs or expenses arising in connection with carrying out the purposes and provisions of the act and the barley marketing order.

At the end of each fiscal year, the commission shall credit each producer with any amount paid by the producer in excess of the assessment rate. Refund may be made only upon satisfactory proof given by the producer in accordance with reasonable rules and regulations prescribed by the director.

[Statutory Authority: RCW 15.66.030, 15.66.053, 15.66.055, and chapter 34.05 RCW. 04-16-026, § 16-530-040, filed 7/26/04, effective 8/26/04. WAC 16-530-060 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any

other person, circumstance or thing shall not be affected thereby.

[Statutory Authority: Chapter 15.66 RCW. 85-11-089 (Order 1857), § 16-530-060, filed 5/22/85, effective 7/1/85.]

RULES OF THE BARLEY COMMISSION

WAC 16-530-110 Definition of terms. (1) "Promotional hosting" as used in these rules means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations and promoting sales of barley and processed barley products.

(2) "Hosting" may include providing meals, refreshments, lodging, transportation, gifts of a nominal value, reasonable and customary entertainment, and normal incidental expenses at meetings or gatherings.

[Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-01-100 (Order 2067), § 16-530-110, filed 12/18/90, effective 1/18/91.]

WAC 16-530-120 Rules for implementation of promotional hosting by the Washington barley commission. The laws of section 1, chapter 26, Laws of 1985 (RCW 15.04.200) provide that agricultural commodity commissions shall adopt rules governing promotional hosting expenditures by agricultural commodity commission employees, agents, or commissioners. The rules governing promotional hosting expenditures for the Washington barley commission shall be as follows:

(1) Budget approval. Commission expenditures for agricultural development or trade promotion and promotional hosting shall be pursuant to specific budget items as approved by the commission at annual public hearings on the commission budget.

(2) Officials and agents authorized to make expenditures. The following officials and agents are authorized to make expenditures for agricultural development or trade promotion and promotional hosting in accordance with the provisions of these rules.

- (a) Commissioners;
- (b) Administrator, director of marketing;
- (c) Director of communications.

Individual commissioners shall make promotional hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be identified and supported by vouchers to which receipts are attached. Voucher forms will be supplied by the commission, and shall require the following information:

- (a) Name and position (if appropriate) of each person hosted;
- (b) General purpose of the hosting;
- (c) Date of hosting;
- (d) Location of the hosting;
- (e) To whom payment was or will be made;
- (f) Signature of person seeking payment or reimbursement.

(4) The chairman of the commission, administrator, and/or treasurer are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

[Title 16 WAC—p. 550]

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations and promote sales of barley and processed barley products:

(a) Individuals from private business, associations, commissions;

(b) Foreign government officials;

(c) Federal and state officials: Provided, That lodging, meals, and transportation will not be provided when such officials may obtain full reimbursement for these expenses from their government employer;

(d) The general public, at meetings and gatherings open to the general public;

(e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted, will cultivate trade relations and promote sales of barley and processed barley products;

(f) Spouses of the persons listed in (a), (b), (c), and (e) of this subsection when attendance of such spouse is customary and expected.

[Statutory Authority: Chapter 15.04 RCW and RCW 15.66.140(2). 91-01-100 (Order 2067), § 16-530-120, filed 12/18/90, effective 1/18/91.]

WAC 16-532-010 Definitions. For the purpose of this marketing order:

- (1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative.
- (2) "Department" means the department of agriculture of the state of Washington.
- (3) "Act" means the Washington State Agricultural Enabling Act of 1961 or chapter 15.65 RCW.
- (4) "Person" means any person, firm, association or corporation.
- (5) "Affected producer" or "producer" means any person who produces hops in commercial quantities in the state of Washington.
- (6) "Commercial quantity" means any hops produced for market by a producer in any calendar year.
- (7) "Handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing, or distributing hops not produced by him.
- (8) "Hop commodity board" hereinafter referred to as "board" means the commodity board formed under the provisions of WAC 16-532-020.
- (9) "Hops" means and includes all kinds and varieties of "humulus lupulus" grown, picked and dried in the state of Washington, whether loose, packaged or baled and all oils, extracts and/or lupulin derived therefrom.
- (10) "Processed" means and includes all hops which are converted into pellets, extracts, oils, lupulin, and/or other forms, including hops which are frozen in undried form, but excluding whole, dried hop cones, whether loose or baled.
- (11) "Marketing season" means the twelve month period beginning with January 1 of any year and ending December 31, both dates being inclusive.
- (12) "Producer-handler" means any person who acts both as a producer and as a handler with respect to hops. A producer-handler shall be deemed to be a producer with respect to the hops which he produces and a handler with respect to the hops which he handles, including those produced by himself.
- (13) "Affected area" means the state of Washington.
- (14) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter or trade.
- (15) "Affected unit" means two hundred pounds net of hops, or the amount of lupulin, extract or oil produced from two hundred pounds net of hops.

WAC 16-532-020 Hop board. (1) Administration.

The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eight members. Seven members shall be affected producers elected as provided in this section. The director shall appoint one member of the board who is neither an affected producer nor a handler to represent the department and the public.

(b) For the purpose of nomination and election of producer members of the board, the affected area shall be the entire state of Washington.

(3) Board membership qualifications.

The affected producer members of the board shall be practical producers of hops and shall be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in producing hops within the state of Washington for a period of five years and has during that time derived a substantial portion of his income therefrom and who is not engaged in business, directly or indirectly, as a handler or other dealer.

(4) Term of office.

(a) The term of office for members of the board shall be three years and one-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through seven and the member appointed by the director position eight.

(c) The term of office for the initial board members shall be as follows:

Positions one, two, three and ten - until June 30, 1967
Positions four, five and six - until June 30, 1966
Positions seven, eight and nine - until June 30, 1965

(d) Terms of office for the board members serving at the time of the 1992 amendment of this section shall be as follows:

Positions one, two, three and ten - until December 31, 1994
Positions four, five and six - until December 31, 1993
Positions seven, eight and nine - until December 31, 1992

(e) The term of office for the remaining producer board members serving at the time of the effective date of the 2005 amended marketing order shall be as follows:

Positions four, five, and six - until December 31, 2005
Positions one and two - until December 31, 2006
Positions three and seven - until December 31, 2007

(5) Nomination and election of board members. Each year the director shall call for a nomination meeting. Such meeting shall be held at least thirty days in advance of the

date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the major production area not less than ten days in advance of the date of such meeting and in addition, written notice of every such meeting shall be given to all affected producers according to the list maintained by the director pursuant to RCW 15.65.200 of the act. Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting. Any qualified affected producer may be nominated orally for membership on the board at such nomination meetings. Nominations may also be made within five days after any such meetings by written petition filed with the director signed by not less than five affected producers. At the inception of this order nominations may be made at the issuance hearing.

(6) Election of board members.

(a) Members of the board shall be elected by secret mail ballot within the month of November under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected producers. Each affected producer shall be entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the major production area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of such affected producers maintained by the director in accordance with RCW 15.65.-200. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board member.

(7) Vacancies prior to election. In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) Quorum. A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) Board compensation. No member of the board shall receive any salary or other compensation, but each member shall be reimbursed for actual subsistence and traveling expenses incurred through attendance at meetings or other board activities: Provided, That such expenses shall be authorized by resolution by unanimous approval of the board at a regular meeting.

(10) Powers and duties of the board. The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to

carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the order. Such expenses and costs may be paid by check, draft or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited money with the director in order to defray the costs of formulating the order.

(f) To establish a "hop board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys and other financial transactions made and done pursuant to this order. Such records, books and accounts shall be audited at least annually subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year of the state of Washington. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by resolution of the board.

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by regular wire news services and radio-television press.

(c) The board shall establish by resolution, the time, place and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice of any special meeting may be waived by a waiver thereof by each member of the board.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-15-098, § 16-532-020, filed 7/15/05, effective 8/15/05. Statutory Authority: RCW 15.65.050, 99-10-095, § 16-532-020, filed 5/5/99, effective 6/5/99. Statutory Authority: Chapter 15.65 RCW. 92-09-068, § 16-532-020, filed 4/14/92, effective 5/15/92; 88-24-028 (Order 1992), § 16-532-020, filed 12/2/88; Marketing Order Article II, §§ A through K, filed 7/1/64.]

WAC 16-532-030 Marketing order purposes. The order is to promote the general welfare of the state, to enable producers of hops to help themselves establish orderly, fair, sound, efficient, unhampered marketing and standardization of hops and regulate unfair trade practices within the industry.

(1) To carry out the purposes of the order the board may provide for a program in one or more of the following areas:

(a) Establish plans and conduct programs for advertising, sales, promotion and/or other programs for maintaining present markets and/or creating new or larger markets for hops. Such programs shall be directed toward increasing the sale of hops without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of hops nor disparage the quality, value, sale or use of any other agricultural commodity.

(b) Provide for research in the production, processing and/or distribution of hops and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried on by experiment stations of Washington State University, but if in the judgment of the board said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(c) Provide by rules and regulations for:

(i) Establishing uniform labels and labeling requirements for hops or any products thereof, requiring producers, handlers and other persons to conform to standards for the placing of labels, trademarks, insignia or brands on bales or packages, provided, that all licensed hop dealers or brokers are entitled to use on the face of their product any particular trademark, insignia, brand or label that they may now have or will have. That established brands, labels, trademarks or insignias may be properly used in selling or commercially disposing of hops and hop products or in offering the same

for sale, advertising and/or delivering said hops or hop products;

(ii) Providing for inspection and enforcement to ascertain and effectuate compliance;

(iii) Establishing rules and regulations respecting the foregoing.

(d) Prohibit and/or otherwise regulate any one or more or all of the practices listed to the extent that such practices affect, directly or indirectly, hops or any product thereof, but only with respect to persons who engage in such practices with the intent of or with the reasonably foreseeable effect of inducing any purchaser to become his customer or his supplier or of otherwise dealing or trading with him or of diverting trade from a competitor, to wit:

(i) Paying rebates, commissions or unearned discounts;

(ii) Unfairly extending privileges or benefits (pertaining to price, to credit, to the loan, lease or giving away of facilities, equipment or other property or to any other matter or thing) to any customer, supplier or other person;

(iii) Discriminating between customers, or suppliers of a like class;

(iv) Making or publishing false or misleading advertising. Such regulation may authorize uniform trade practices applicable to all similarly situated handlers and/or other persons.

(e) The board may authorize use of any money received and of any persons employed thereunder for legal proceedings, of any type and in the name of any person, directed to enforcement of this or any other law in force in the state of Washington relating to the prevention of unfair trade practices.

(f) Provide for marketing information and services to affected producers for the verification of grades, standards, weights, tests and sampling of quality and quantity of hops purchased by handlers from affected producers.

(g) Participate in federal or state hearings or other proceedings concerning regulation of the manufacture, distribution, sale, or use of any pesticide as defined by RCW 15.58.030(29) or any agricultural chemical which is of use or potential use in producing hops.

[Statutory Authority: Chapter 15.65 RCW. 92-09-068, § 16-532-030, filed 4/14/92, effective 5/15/92; Marketing Order Article III, § A, filed 7/1/64.]

WAC 16-532-035 Inspection required. (1) Before marketing or processing, all varieties of hops produced in the state of Washington must be inspected and certified by the Federal/State Hop Inspection Service for quality and condition of seed, leaf and stem according to the standards established by the Federal Grain Inspection Service of the United States Department of Agriculture.

(2) Any hops that are baled on a producer's farm must be officially sampled by a Washington state department of agriculture inspector.

[Statutory Authority: Chapters 15.65 and 34.05 RCW. 06-15-105, § 16-532-035, filed 7/17/06, effective 8/17/06. Statutory Authority: RCW 15.65.050, 95-17-118 (Order 5077), § 16-532-035, filed 8/23/95, effective 9/23/95. Statutory Authority: Chapter 15.65 RCW. 88-24-028 (Order 1992), § 16-532-035, filed 12/2/88.]

WAC 16-532-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of hops shall be one dollar and eighty cents per affected unit.

(b) For the purpose of collecting assessments the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment; or

(iii) Require the person subject to the assessment to remit assessments for any hops which are processed prior to the first sale; or

(iv) Require the person subject to the assessment to remit an inventory report for any hops which are not processed or sold prior to December 31 of the year in which they are produced.

(c) Subsequent to the first sale or processing, no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of the order during or with respect to any season or year may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of such marketing agreement or order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year or period whenever the board finds that the same will tend to effectuate such policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-15-098, § 16-532-040, filed 7/15/05, effective 8/15/05. Statutory Authority: RCW 15.65.050. 97-17-096, § 16-532-040, filed 8/20/97, effective 9/20/97; 95-17-118 (Order 5077), § 16-532-040, filed 8/23/95, effective 9/23/95. Statutory Authority: Chapter 15.65 RCW. 91-15-019 (Order 2090), § 16-532-040, filed 7/10/91, effective 8/10/91. Statutory Authority: RCW 15.65.170. 87-10-059 (Order 1927), § 16-532-040, filed 5/6/87, effective 6/8/87. Statutory Authority: Chapter 15.65 RCW. 83-16-041 (Order 1800), § 16-532-040, filed 7/29/83; 80-05-090 (Order 1686), § 16-532-040, filed 5/1/80; 79-01-

[Title 16 WAC—p. 554]

045 (Order 1593), § 16-532-040, filed 12/21/78; Order 1332, § 16-532-040, filed 1/17/74; Marketing Order Article IV, §§ A through C, filed 7/1/64.]

WAC 16-532-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Marketing Order Article V, § A, filed 7/1/64.]

WAC 16-532-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent such dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether such termination is so assented to or favored whenever twenty percent by numbers or twenty percent by volume of production of the affected producers file written application with him for such termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Marketing Order Article VI, § A, filed 7/1/64.]

WAC 16-532-070 Effective time. This marketing order for hops shall become effective on and after August 15, 1964.

[Marketing Order Article VII, § A, filed 7/1/64.]

WAC 16-532-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances or thing shall not be affected thereby.

[Marketing Order Article VIII, § A, filed 7/1/64.]

RULES OF WASHINGTON STATE HOP COMMODITY BOARD

WAC 16-532-103 Rules for implementation of promotional hosting by the Washington state hop commodity

(2007 Ed.)

board (commission)—Definitions. For the purposes of WAC 16-532-105, the following definitions shall apply:

(1) **"Promotional hosting"** as used in these rules means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations and promoting sales of Washington-grown hops.

(2) **"Hosting"** may include providing meals, refreshments, lodging, transportation, gifts of nominal value, reasonable and customary entertainment, and normal incidental expenses at meetings or gatherings.

[Statutory Authority: Chapter 15.65 RCW, specifically RCW 15.65.305, chapter 34.05 RCW. 05-12-052, § 16-532-103, filed 5/26/05, effective 6/26/05.]

WAC 16-532-105 Rules for implementation of promotional hosting by the Washington state hop board. RCW 15.65.305 and 15.04.200 provide that agricultural commodity boards or commissions shall adopt rules governing promotional hosting expenditures by agricultural commodity board or commission employees, agents, or commissioners. The rules governing promotional hosting expenditures for the Washington state hop board (commission) shall be as follows:

(1) Budget approval. Commission expenditures for agricultural development or trade promotion and promotional hosting shall be pursuant to specific budget items as approved by the commission at annual public hearings on the commission budget.

(2) Officials and agents authorized to make expenditures. The following officials and agents are authorized to make expenditures for agricultural development or trade promotion and promotional hosting in accordance with the provisions of these rules:

(a) Hop board members.

(b) Administrators. Individual commissioners shall make promotional hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be identified and supported by vouchers to which receipts are attached. Voucher forms will be supplied by the commission, and shall require the following information:

(a) Name and position of each person hosted, provided that in case of a group of twenty-five or more persons, then only the name of the group hosted shall be required.

(b) General purpose of the hosting.

(c) Date of hosting.

(d) Location of the hosting.

(e) To whom payment was or will be made.

(f) Signature of person seeking payment or reimbursement.

(4) The chair of the commission and administrator are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations and promote sales of Washington-grown hops, provided that such hosting shall not violate federal or state conflict of interest laws:

(a) Individuals from private business.

(b) Foreign government officials.

(c) Federal and state officials: Provided, lodging, meals, and transportation will not be provided when such officials may obtain reimbursement for these expenses from their government employer.

(d) The general public, at meetings and gatherings open to the general public.

(e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted will cultivate and promote sales of Washington-grown hops.

[Statutory Authority: Chapter 15.65 RCW, specifically RCW 15.65.305, chapter 34.05 RCW. 05-12-052, § 16-532-105, filed 5/26/05, effective 6/26/05.]

WAC 16-532-110 Requirements for collection of assessments. (1) Assessments on all hops marketed or processed shall be paid at the rate specified in WAC 16-532-040 to the hop commodity board (commission) by the first handler receiving or handling such hops for or from a producer. The assessments shall be deducted from the payment to be made by such handler to the producer. If processing occurs before the first sale, the assessment shall be paid by the producer.

(2) Payment of such assessment shall be due and payable on the tenth day of the second calendar month following the receiving or delivery to said first handler or the assumption of control of a producer's hops, or following the date of processing, if processed prior to the first sale, by said first handler or producer.

(3) A report on all hops which are produced during the preceding crop year, including a breakdown of pounds marketed, pounds not processed or marketed, and pounds processed but not marketed prior to December 31 of the year in which those hops are produced shall be submitted by the producer no later than January 31 of the following year.

(4) Any handler or producer failing to pay on or before the due date set forth for payment in this regulation, shall add ten percent to the total amount due as a cost for collection as prescribed in RCW 15.65.440.

[Statutory Authority: Chapter 15.65 RCW, specifically RCW 15.65.047 and 15.65.280, and chapter 34.05 RCW. 05-12-051, § 16-532-110, filed 5/26/05, effective 6/26/05. Statutory Authority: RCW 15.65.050, 97-17-096, § 16-532-110, filed 8/20/97, effective 9/20/97. Statutory Authority: Chapter 15.65 RCW. 92-09-068, § 16-532-110, filed 4/14/92, effective 5/15/92; Regulation 1, filed 10/16/64.]

WAC 16-532-115 Reporting. (1) A report on all hops which are produced during the preceding crop year, including a breakdown of pounds marketed, pounds not processed or marketed, and pounds processed but not marketed prior to December 31 of the year in which those hops are produced, shall be submitted by the producer no later than January 31 of the following year.

(2) A "custom processing" report on all hops processed but not sold will be submitted to the commission by the custom processor on the form prescribed by the commission.

[Statutory Authority: Chapter 15.65 RCW, specifically RCW 15.65.047 and 15.65.280, and chapter 34.05 RCW. 05-12-051, § 16-532-115, filed 5/26/05, effective 6/26/05.]

WAC 16-532-120 Labeling. Each lot of hops must be identified by the crop year produced, grower number and lot designation, and variety stenciled on each bale.

(1) A three-digit grower number will be assigned by the Washington hop commodity board (commission) prior to the annual harvest.

(2) The first marking will consist of the last digit of the crop year, the letter "G" and a hyphen, followed by the three-digit grower number and lot designation (example: 8G-000-01).

(3) The first marking shall be affixed on the head or top of the bale and shall be in characters approximately two inches high.

(4) The second marking will consist of the hop variety, utilizing a two-letter abbreviation. A list of approved two-letter abbreviations will be approved annually by the Washington state hop commodity board.

(5) The second marking shall be affixed immediately below the first marking on the head or top of the bale, and shall be in characters approximately two inches high.

[Statutory Authority: Chapters 15.65 and 34.05 RCW. 06-15-135, § 16-532-120, filed 7/19/06, effective 8/19/06. Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-10-059, § 16-532-120, filed 4/30/04, effective 5/31/04. Statutory Authority: RCW 15.65.050. 97-17-096, § 16-532-120, filed 8/20/97, effective 9/20/97; 95-17-118 (Order 5077), § 16-532-120, filed 8/23/95, effective 9/23/95. Statutory Authority: RCW 15.65.280 and WAC 16-532-020 10K [(10)(k)]. 93-09-014, § 16-532-120, filed 4/13/93, effective 5/14/93. Statutory Authority: RCW 15.65.380. 88-13-050 (Resolution No. 88-01), § 16-532-120, filed 6/10/88; Regulation 2, filed 10/16/64.]

------------	---

WAC 16-536-005 Marketing order for Washington dry peas and lentils—Policy statement. (1) The marketing of dry peas and lentils within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its dry peas and lentils be properly promoted by:

(a) Enabling producers of dry peas and lentils to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the dry peas and lentils they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of dry peas and lentils within the state, the nation, and internationally.

[Title 16 WAC—p. 556]

(2) That it is in the overriding public interest that support for the dry peas and lentils industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that dry peas and lentils be promoted individually, and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's dry peas and lentils.

(b) Increase the sale and use of Washington state's dry peas and lentils in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's dry peas and lentils.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's dry peas and lentils and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of dry peas and lentils produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state dry pea and lentil commodity board exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to dry peas and lentils under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-005, filed 8/9/04, effective 9/9/04.]

WAC 16-536-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or increasing production efficiency, ensuring a fair regulatory environment; or increasing per capita consumption of dry peas and lentils in Washington state. The Washington state dry pea and lentil commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW:

(1) To carry out the purposes of the order, the board shall provide for a program in one or more of the following areas:

(a) Establish plans and conduct programs for marketing, sales, promotion and/or other programs for maintaining present markets and/or creating new or larger markets for dry peas and/or lentils. Such programs shall be directed toward increasing the sale of dry peas and/or lentils without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims on behalf of dry peas and/or lentils nor disparage the quality, value, sale or use of any other agricultural commodity.

(b) Provide for research in the production, processing, irrigation, transportation, handling, and/or distribution of dry peas and/or lentils and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried out by experiment stations of Washington State University, but if in the judgment of the board said experiment stations do not have adequate facilities for a particular project or if some other research agency has better facilities therefor,

(2007 Ed.)

the project may be carried out by other research agencies selected by the board.

(c) Provide by rules for:

(i) Establishing uniform grades and standards of quality, condition, maturity, size, weight, pack, packages and/or label for dry peas and/or lentils or any products thereof.

(ii) Requiring producers, handlers and/or other persons to conform to such grades and/or standards in packing, packaging, processing, labeling, selling or otherwise commercially disposing of dry peas and/or lentils and/or in offering, advertising and/or delivering it therefor.

(iii) Providing for inspection and enforcement to ascertain and effectuate compliance.

(iv) Providing that the board shall carry out inspection and enforcement of, and may (within the general provisions of the order) establish detailed provisions relating to, such standards and grades and such rules and regulations: Provided, That any modification not of a substantial nature, such as the modification of standards within a certain grade may be made without a hearing, and shall not be considered an amendment for the purposes of the act and order.

(d) Conduct programs for the purpose of providing information and education including:

(i) Marketing information and services for producers of dry peas and/or lentils for the verification of grades, standards, weights, tests, and sampling of quality and quantity of dry peas and/or lentils purchased by handlers from affected producers.

(ii) Information and services enabling producers to meet their resource conservation objectives.

(iii) Dry peas and lentils-related education and training.

(e) Subject to the provisions of the act, provide information and communicate on matters pertaining to the production, irrigation, processing, transportation, marketing, or uses of dry peas and/or lentils produced in Washington state to any elected official or officer or employee of any agency.

(2) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for advertising and promotion of dry peas and/or lentils; and

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of dry peas and/or lentils may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-006, filed 8/9/04, effective 9/9/04.]

WAC 16-536-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agricultural Commodity Boards Act. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or his or her duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agriculture Commodity Boards Act or chapter 15.65 RCW.

(2007 Ed.)

(4) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society, or any other organization of individuals or any unit or agency of local or state government.

(5) "Affected producer" means any person who produces, or causes to be produced, in commercial quantities, dry peas and/or lentils in the state of Washington.

(6) "Commercial quantity" means all the dry peas and/or lentils produced for market in any calendar year by any producer.

(7) "Affected handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing or distributing dry peas and/or lentils not produced by him or her. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(8) "Dry pea and lentil commodity board" hereinafter referred to as "board" or "commission" means the dry pea and lentil commodity board formed under the provisions of WAC 16-536-020.

(9) "Dry peas" means and includes all kinds and varieties of dry peas grown in the state of Washington, including chick peas/garbanzo beans and commercially grown wrinkled peas raised for seed: Provided, That it shall not include dry peas used by the producer thereof on his or her premises for feed, seed and personal consumption: Provided further, That the inclusion of commercially grown wrinkled peas raised for seed will not become effective until approved by a referendum vote of the affected commercial wrinkled pea seed producers.

(10) "Lentils" means and includes all kinds and varieties of lentils grown in the state of Washington: Provided, That it shall not include lentils used by the producers thereof on his or her premises for feed, seed, and personal consumption.

(11) "Marketing season" or "fiscal year" means the twelve month period beginning with July 1 of any year and ending with the last day of June, both dates being inclusive.

(12) "Producer-handler" means any person who acts both as a producer and as a handler with respect to dry peas and/or lentils. A producer-handler shall be deemed to be a producer with respect to the dry peas and/or lentils which he or she produces, and a handler with respect to the dry peas and/or lentils which he or she handles, including those produced by himself or herself. "To produce" means to act as a producer. For purposes of the dry peas and lentils marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title to the seed and its resulting agricultural product or the agricultural product delivered for further production or increase.

(13) "Affected area" means the state of Washington.

(14) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter or trade.

(15) "Affected unit" means one hundred pounds of dry peas and/or lentils.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-010, filed 8/9/04, effective 9/9/04. Statutory Authority: Chapter 15.65 RCW. 82-15-020 (Order 1768), § 16-536-010, filed 7/13/82; Marketing Order Article I § A, filed 3/26/65.]

WAC 16-536-020 The dry pea and lentil board. (1) Administration. The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of ten members. Eight members shall be affected producers appointed as provided in this marketing order. One member shall be an affected handler appointed as provided in this marketing order. The director shall appoint one member of the board who is neither an affected producer nor an affected handler to represent the director. The position representing the director shall be a voting member.

(b) For the purpose of nomination and appointment of producer members of the board, the affected area of the state of Washington shall be divided into four representative districts as follows:

(i) District I shall have three board members, being positions 1, 2 and 3 and shall include the county of Whitman.

(ii) District II shall have two board members, being positions 4 and 5 and shall include the county of Spokane.

(iii) District III shall have one board member being position 6 and shall include the counties of Walla Walla, Garfield, Columbia and Asotin.

(iv) District IV shall have two board members, being positions 7 and 8 and shall include all other counties of the state of Washington: Provided, That the addition of another member, being position 8, shall not become effective until approved by a referendum vote of the affected commercial wrinkled pea seed producers.

(3) Board membership qualifications.

(a) The producer members of the board must be practical producers of dry peas and/or lentils in the district in and for which they are nominated and appointed and each shall be a citizen and resident of the state, over the age of eighteen years. Each producer board member must be and have been actually engaged in producing dry peas and/or lentils within the state of Washington for a period of five years and has during that time derived a substantial portion of his or her income therefrom and is not engaged in business, directly or indirectly, as a handler or other dealer.

(b) The handler member of the board must be a practical handler of dry peas and/or lentils and shall be a citizen and resident of the state, over the age of eighteen years and who is and has been, either individually or as an officer or an employee of a corporation, firm, partnership, association or cooperative actually engaged in handling dry peas and/or lentils within the state of Washington for a period of five years and has during that period derived a substantial portion of his or her income therefrom.

(c) The qualifications of members of the board must continue during their term of office.

(4) Term of office.

(a) The term of office for members of the board shall be three years, and one-third of the membership as nearly as possible shall be appointed each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through eight, the affected handler shall have position nine and the member representing the director position ten.

(c) The term of office for the initial board members shall be as follows:

Positions seven, eight, nine, and ten - one year

Positions four, five and six - two years

Positions one, two, and three - three years

(d) Except for the director's representative, no appointed member of the board may serve more than two full consecutive three-year terms.

(e) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) Nomination of director-appointed board members.

(a) For the purpose of nominating candidates for appointment to board membership the director shall call separate meetings of affected producers and affected handlers.

(b) Each year the director shall call a nomination meeting for director-appointed board members in those districts whose board members term is about to expire. The meeting(s) shall be held at least thirty days in advance of the date set by the director for the advisory vote of board members.

(c) Notice of a nomination meeting shall be published in newspapers of general circulation within the affected district not less than ten days in advance of the date of such meeting and in addition, written notice of every such meeting shall be given to all affected producers within such affected district and handlers according to the list maintained by the board pursuant to RCW 15.65.295.

(d) Nonreceipt of notice by any interested person shall not invalidate the proceedings at a nomination meeting.

(e) Any qualified affected producer or handler may be nominated orally for membership on the board at a nomination meeting. Nominations may also be made within five days after the meeting by written petition filed with the director signed by not less than five affected producers or affected handlers.

(f) If the board moves and the director approves that the nomination meeting procedure be deleted, the director shall give notice of the open board position(s) by mail to all affected producers and handlers. Nominating petitions for producers and handlers shall be signed by not less than five affected producers and handlers. Final date for filing nominations shall be not less than twenty days after the notice was mailed.

(g) When only one nominee is nominated for a director-appointed position, RCW 15.65.250 shall apply.

(6) Advisory vote of board members.

(a) An advisory vote shall be conducted by secret ballot under the supervision of the director within the month of May. Each affected producer and affected handler shall be entitled to one vote.

(b) An advisory vote shall be conducted for board members appointed by the director under the provisions of RCW 15.65.243. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position,

an advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(c) Notice of every advisory vote for board membership shall be published in a newspaper of general circulation within the affected district not less than ten days in advance of the date of the advisory vote. Not less than ten days prior to every advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer and affected handler entitled to vote whose name appears upon the list of such affected producers and affected handlers maintained by the board pursuant to RCW 15.65.295. Any other affected producer or affected handler entitled to vote may obtain a ballot by application to the director upon establishing his or her qualifications.

(d) Nonreceipt of a ballot by an affected producer or affected handler shall not invalidate the advisory vote of any board member.

(7) **Vacancies.** In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

(8) **Quorum.** A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) **Board compensation.** No member of the board shall receive any salary or other compensation, but each member may be compensated in accordance with RCW 43.03.230 and shall be reimbursed for subsistence, lodging, and mileage in accordance with RCW 43.03.050 and 43.03.060, as provided for in RCW 15.65.270. The board may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members and employees of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the order. Such expenses and costs may be paid by check, draft or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited money with the director in order to defray the costs of formulating the order: Provided, That the total reimbursement to all applicants shall not exceed two thousand dollars.

(f) To establish a "dry pea and lentil board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's

needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, collections, receipts, deposits, withdrawals, disbursements, paid outs, moneys and other financial transactions made and done pursuant to this order. Such records, books and accounts shall be audited at least annually subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year of the state of Washington. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year. The board, at least fifteen days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules of a technical or administrative nature for the operation of the board, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(p) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order.

(q) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW.

(r) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies.

(s) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of dry peas and lentils.

(t) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(u) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this order.

(v) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of dry peas and lentils including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(w) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's production for a minimum three-year period pursuant to RCW 15.65.280.

(x) To maintain a list of the names and addresses of persons who handle dry peas and lentils within the affected area and data on the amount and value of the dry peas and lentils handled for a minimum three-year period by each person pursuant to RCW 15.65.280.

(y) To maintain a list of the names and addresses of all affected persons who produce dry peas and lentils and the amount, by unit, of dry peas and lentils produced during the past three years pursuant to RCW 15.65.295.

(z) To maintain a list of all persons who handle dry peas and lentils and the amount of dry peas and lentils handled by each person during the past three years pursuant to RCW 15.65.295.

(aa) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(11) Procedures for board.

(a) The board shall hold regular meetings with the time and date thereof to be fixed by resolution of the board and the meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act). The notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting through regular wire news services and radio-television press.

(c) The board shall establish by resolution, the time, place and manner of calling special meetings with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-020, filed 8/9/04, effective 9/9/04. Statutory Authority: RCW 15.65.050. 95-17-117 (Order 5079), § 16-536-020, filed 8/23/95, effective 9/23/95. Statutory Authority: Chapter 15.65 RCW. 82-15-020 (Order 1768), § 16-536-020, filed 7/13/82; Marketing Order Article II, §§ A through K, filed 3/26/65.]

WAC 16-536-040 Assessments and collections. (1) Assessments.

(a) The assessment on all varieties of dry peas and dry lentils subject to this marketing order shall be one percent of the net receipts at the first point of sale and shall be deducted by the first purchaser from the price paid to the grower. Such assessment shall be remitted to the commission board in accordance with procedures adopted by the commission board: Provided, That an assessment on commercial wrinkled pea seed shall not become effective unless approved by a referendum vote of the affected wrinkled pea seed producers.

(b) Assessments shall not be payable on any such dry peas and/or lentils used by the producer thereof on his premises for feed, seed and personal consumption.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of this order during or with respect to any season or year may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of this marketing order, to all persons from whom moneys were collected or received, or may be carried over into and used with respect to the next succeeding season, year or period whenever the board finds that the same will tend to effectuate the policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and this order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to add to such unpaid assessment or sum an amount not exceeding ten percent of the unpaid assessment to defray the cost of enforcing the collecting of it. In the event of failure of such person or persons to pay any due and payable assessment or other such sum, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-040, filed 8/9/04, effective 9/9/04. Statutory Authority: Chapter 15.65 RCW. 86-15-002 (Order 1895), § 16-536-040, filed 7/3/86, effective 8/4/86; 82-15-020 (Order 1768), § 16-536-040, filed 7/13/82; Order 1533, § 16-536-040, filed 6/8/77; Marketing Order Article IV, §§ A through C, filed 3/26/65.]

WAC 16-536-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted them by the act or this order, and any other liabilities

or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Marketing Order Article V, § A, filed 3/26/65.]

WAC 16-536-060 Termination of the order. Termination shall be accomplished pursuant to RCW 15.65.183 through 15.65.193.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-17-021, § 16-536-060, filed 8/9/04, effective 9/9/04; Marketing Order Article VI, § A, filed 3/26/65.]

WAC 16-536-070 Effective time. (1) This marketing order for dry peas and lentils shall become effective on and after July 1, 1965.

(2) This order shall remain in full force and effect until July 1, 1972 unless terminated prior thereto under the provisions of chapter 15.65 RCW as set forth in WAC 16-536-060: Provided, That if it remains in effect until said July 1, 1972 the director shall conduct a referendum election as required for the approval of an order under chapter 15.65 RCW at such time prior to such date so that he may determine if the affected producers and handlers desire that the order be terminated on such date or continued in full force and effect beyond such date. All the costs of conducting such election shall be defrayed from the funds of the board.

[Marketing Order Articles VII and VIII, filed 3/26/65.]

WAC 16-536-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances or thing shall not be affected thereby.

WAC 16-540-005 Marketing order for Washington mint—Policy statement. (1) The marketing of mint within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its mint be properly promoted by:

(a) Enabling producers of mint to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the mint they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of mint within the state, the nation, and internationally.

(2) That it is in the overriding public interest that support for the mint industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that mint be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's mint.

(b) Increase the sale and use of Washington state's mint in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's mint.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's mint and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of mint produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state mint commodity board exists primarily for the benefit of the people of the state of Washington and its economy and, with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to mint under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-005, filed 4/8/05, effective 5/9/05.]

WAC 16-540-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purpose of maintaining existing markets or creat-

ing new or larger local, domestic, and foreign markets; or increasing production efficiency of mint in Washington state. The Washington state mint commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW:

(1) To enable producers of mint plants to help themselves develop improved production methods and/or programs for the control of disease, insects, and weeds associated with mint plant culture and to provide for the dissemination of information to affected producers.

(2) To carry out the purposes of the order the board shall provide for a program in one or more of the following areas:

(a) Provide for aid in research in the production of mint plants and the distilling of mint oil by producers and to expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried out by experiment stations of Washington State University, but if in the judgment of the board said experiment stations do not have adequate facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(b) Provide for collection and dissemination of information pertaining to mint.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-006, filed 4/8/05, effective 5/9/05.]

WAC 16-540-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agriculture Commodity Boards Act. For the purpose of this marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or his/her duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agricultural Commodity Boards Act or chapter 15.65 RCW.

(4) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals, or any unit or agency of local or state government.

(5) "Affected producer" or "producer" means any person who produces, or causes to be produced in commercial quantities, in the state of Washington, any variety of mint plant from which the essential oil is distilled or extracted. "To produce" means to act as a producer. For the purposes of the mint marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title to the essential oil and its resulting agricultural product or the agricultural product delivered for further production or increase.

(6) "Commercial quantity" means all of the mint plants produced in any calendar year by any producer, from which the essential oil is distilled or extracted.

(7) "Affected handler" means any person who acts as principal or agent or otherwise in buying, selling, marketing or distributing mint oils produced from mint plants not grown by him/her. "Affected handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(8) "Producer-handler" means any person who acts both as a producer and as a handler with respect to mint oil. A producer-handler shall be deemed to be a producer with respect to the mint plants and/or oil which he/she produces, and a handler with respect to the mint oil which he/she handles, including those produced by himself/herself.

(9) "Mint oil" means essential oil that is distilled from any variety of mint plant.

(10) "Mint commodity board" hereinafter referred to as "board" or "commission" means the commodity board formed under WAC 16-540-020.

(11) "Marketing season" or "fiscal year" means the twelve-month period beginning with July 1 of any year and ending with the last day of June, both dates being inclusive.

(12) "Affected area" means the state of Washington.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter or trade.

(14) "Affected unit" means one pound of mint oil as distilled from mint plants grown by an affected producer.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-010, filed 4/8/05, effective 5/9/05. Article I, § A, filed 12/20/66, effective 2/1/67.]

WAC 16-540-020 The mint commodity board. (1) Administration. The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eight members. Seven members shall be affected producers appointed or elected as provided in this marketing order. The director shall appoint one member of the board who is neither an affected producer nor an affected handler to represent the director. The position representing the director shall be a voting member.

(i) Director-appointed affected producer positions on the board shall be designated as position 1, position 2, position 6, and position 7.

(ii) Elected affected producer positions on the board shall be designated as position 3, position 4, and position 5.

(iii) The position representing the director who is neither an affected producer nor an affected handler shall be designated as position 8.

(b) For the purpose of nomination, appointment, and election of affected producer members of the board, the affected area of the state of Washington shall be divided into two representative districts as follows:

(i) District I shall have four board members, being positions 1, 2, 3 and 4 and shall include the counties of Kittitas, Yakima and Benton.

(ii) District II shall have three board members, being positions 5, 6 and 7 and shall include all other counties located in the state of Washington.

(3) Board membership qualifications.

(a) The affected producer members of the board must be practical producers of mint plants in the district in and for which they are nominated and appointed or elected and each shall be a citizen and resident of the state of Washington, over the age of eighteen years. Each affected producer board member must be and have been actually engaged in producing mint plants within the state of Washington for a period of five years and has during that time derived a substantial por-

tion of his/her income therefrom and is not engaged in business, directly or indirectly, as a handler or other dealer.

(b) The qualifications of members of the board must continue during their term of office.

(4) Term of office.

(a) The term of office for members of the board shall be three years, and one-third of the membership as nearly as possible shall be appointed or elected each year.

(b) The term of office for the initial board members shall be as follows:

Positions one and two - one year

Positions three, four and eight - two years

Positions five, six and seven - three years

(c) Except for the director's representative, no appointed or elected member of the board may serve more than two full consecutive three-year terms.

(d) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members in positions one, two, six and seven shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) Nomination of elected or director-appointed board members.

(a) For the purpose of nominating candidates for appointment or election to board membership the director shall call separate meetings of affected producers.

(b) Each year the director shall call a nomination meeting for both elected and director-appointed affected producer board members in those districts whose board members' term are about to expire. The meeting shall be held at least thirty days in advance of the date set by the director for the election or advisory vote of board members.

(c) Notice of a nomination meeting shall be published in a newspaper of general circulation within the affected district not less than ten days in advance of the date of the meeting and in addition, written notice of every such meeting shall be given to all affected producers within such affected district according to the list maintained by the board pursuant to RCW 15.65.295.

(d) Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting.

(e) Any qualified affected producer may be nominated orally for membership on the board at the nomination meeting. Nominations may also be made within five days after the nomination meeting by written petition filed with the director signed by not less than five affected producers.

(f) When only one nominee is nominated by the affected producers for any position, RCW 15.65.250 shall apply.

(6) Election or advisory vote of board members.

(a) An election or advisory vote shall be conducted by secret ballot under the supervision of the director within the month of June. Each affected producer shall be entitled to one vote.

(b) Elected affected producer members of the board shall be elected by a majority of the votes cast by the affected producers within the affected district. If a nominee does not receive a majority of the votes on the first ballot a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) An advisory vote shall be conducted for affected producer board members appointed by the director under the provisions of RCW 15.65.243. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position, an advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(d) Notice of every election or advisory vote for board membership shall be published in a newspaper of general circulation within the affected district not less than ten days in advance of the date of the election or advisory vote. Not less than ten days prior to every election or advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of such affected producers maintained by the board pursuant to RCW 15.65.295. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his/her qualifications.

(e) Nonreceipt of a ballot by an affected producer shall not invalidate the election or advisory vote of any board member.

(7) Vacancies.

(a) In the event of a vacancy on the board in an elected position, the remaining members shall select a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

(8) **Quorum.** A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) **Board compensation.** No member of the board shall receive any salary or other compensation, but each member may be compensated in accordance with RCW 43.03.230 and shall be reimbursed for subsistence, lodging, and mileage in accordance with RCW 43.03.050 and 43.03.060, as provided for in RCW 15.65.270. The board may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members and employees of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the order. Such expenses and costs may be paid by check, draft or

voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited money with the director in order to defray the costs of formulating the order.

(f) To establish a "mint board revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, collections, receipts, deposits, withdrawals, disbursements, paid outs, moneys and other financial transactions made and done pursuant to this order. Such records, books and accounts shall be audited at least annually subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year of the commission. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year. The board, at least sixty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules of a technical or administrative nature for the operation of the board, subject to the provisions of chapter 34.04 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order.

(p) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW.

(q) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies.

(r) To enter into contract or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of mint.

(s) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(t) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this order.

(u) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of mint including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(v) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each affected producer's production for a minimum three-year period pursuant to RCW 15.65.280.

(w) To maintain a list of the names and addresses of persons who handle mint within the affected area and data on the amount and value of the mint handled for a minimum three-year period by each person pursuant to RCW 15.65.280.

(x) To maintain a list of the names and addresses of all affected persons who produce mint and the amount, by unit, of mint produced during the past three years pursuant to RCW 15.65.295.

(y) To maintain a list of all persons who handle mint and the amount of mint handled by each person during the past three years pursuant to RCW 15.65.295.

(z) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(aa) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by resolution of the board and the meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act). Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days

prior to the meeting through regular wire news services and radio-television press.

(c) The board shall establish by resolution, the time, place and manner of calling special meetings with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-020, filed 4/8/05, effective 5/9/05. Article II, §§ A-K, filed 12/20/66, effective 2/1/67.]

WAC 16-540-040 Assessments and collections. (1) Assessments.

(a) The fixed annual assessment on all varieties of mint oil subject to this marketing order shall be five cents per pound of oil as weighed by first purchaser.

(b) First purchasers shall collect assessments at time of payment for oil, from producers whose production they handle and remit the same to the board in accordance with procedures adopted by the board. Producers and producer-handlers who ship their oil direct to handlers outside of the state of Washington shall remit assessments to the board at time of shipment.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of this order during or with respect to any season or year may be refunded on a pro rata basis at the close of the season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of the marketing order to all persons from whom moneys were collected or received, or may be carried over into and used with respect to the next succeeding season, year or period whenever the board finds that the same will tend to effectuate the policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and this order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of the assessment or such other sum on or before the date due, the board may, and is hereby authorized to add to such unpaid assessment or sum an amount not exceeding ten percent of the unpaid assessment to defray the cost of enforcing the collecting of it. In the event of failure of a person or persons to pay any due and payable assessment or other sum, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-040, filed 4/8/05, effective 5/9/05. Statutory Authority: RCW 15.65.050. 96-03-150 (Order 5091), § 16-540-040, filed 1/24/96, effective 2/24/96. Statutory Authority: Chapter 15.65 RCW. 84-10-046 (Order 1823), § 16-540-040, filed 5/2/84; Order 1406, § 16-540-040, filed 7/23/75; Article IV, §§ A-C, filed 12/20/66, effective 2/1/67.]

WAC 16-540-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof per-

(2007 Ed.)

taining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted by them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Article V, § A, filed 12/20/66, effective 2/1/67.]

WAC 16-540-060 Termination of the order. Termination shall be accomplished pursuant to RCW 15.65.183 through 15.65.193.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-09-013, § 16-540-060, filed 4/8/05, effective 5/9/05. Article VI, § A, filed 12/20/66, effective 2/1/67.]

WAC 16-540-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances or thing shall not be affected thereby.

[Article VIII, § A, filed 12/20/66, effective 2/1/67.]

WAC 16-540-110 Time and procedure for reporting and remitting assessments. Each first purchaser shall file a report on or before the 20th of each month covering mint oil purchased during the preceding month. Assessment reports shall contain the following information: Name and mailing address of first purchaser filing the report; name, mailing address, pounds of oil, and total assessment withheld for each producer from whom mint oil was purchased during the reporting period; total pounds of oil reported and total assessment remitted.

[Order 1, § 16-540-110, filed 3/9/70.]

------------	---

WAC 16-545-005 Marketing order for Washington turfgrass seed—Policy statement. (1) The production of turfgrass seed within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its turfgrass seed be properly promoted by:

(a) Enabling producers of turfgrass seed to help themselves in establishing orderly, fair, sound, efficient, and unhampered grading and standardizing of the turfgrass seed they produce; and

(b) Working towards stabilizing the agricultural industry by sustaining production of turfgrass seed within the state, the nation, and internationally.

(2) It is in the overriding public interest that support for the turfgrass seed industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that turfgrass seed be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's turfgrass seed.

(b) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's turfgrass seed.

(c) Support and engage in programs or activities that benefit the planting, production, and harvesting of turfgrass seed produced in Washington state.

(d) Support and engage in programs or activities that benefit the use of turfgrass seed by-products in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state turfgrass seed commodity board exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to turfgrass seed under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-22-073, § 16-545-005, filed 11/1/04, effective 12/2/04.]

WAC 16-545-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or increasing production efficiency of turfgrass seed in Washington state. The Washington state turfgrass seed commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW:

To execute the purposes of the order, the board shall provide for a program in one or more of the following areas:

(1) Provide for research in the production, processing, irrigation, transportation, handling, or distribution of turfgrass seed and expend the necessary funds for the purposes. Insofar as practicable, the research must be carried out by experiment stations of Washington State University, but if in the judgment of the board that the experiment stations do not have adequate facilities for a particular project or if some other research agency has better facilities therefore, the project may be carried out by other research agencies selected by the board.

(2) Provide for collection and dissemination of information pertaining to turfgrass seed and turfgrass seed by-products.

(3) Establish and conduct programs to develop markets for turfgrass seed by-products.

(4) Under no circumstances are any sections of this marketing order to be construed as authorizing or permitting any programs pertaining to marketing or promotion of turfgrass seed.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-22-073, § 16-545-006, filed 11/1/04, effective 12/2/04.]

WAC 16-545-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agriculture Commodity Boards Act. For the purpose of this marketing order, the following additional definitions apply:

(1) "Director" means the director of agriculture of the state of Washington or the director's duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agriculture Commodity Boards Act or chapter 15.65 RCW.

(4) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society, or any other organization of individuals or any unit or agency of local or state government.

(5) "Affected producer" means any person who produces, or causes to be produced, in commercial quantities, turfgrass seed in the state of Washington.

(6) "Commercial quantity" means all the turfgrass seed produced for sale in any calendar year by any producer.

(7) "Affected handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing or distributing turfgrass seed not produced by the handler and shall include any lending agencies for a commodity credit corporation loan to producers. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(8) "Turfgrass seed commodity board" referred to as "board" or "commission" means the turfgrass seed commodity board formed under WAC 16-545-020.

(9) "Turfgrass seed" means Kentucky bluegrass, perennial ryegrass, tall fescue, hard fescue, slender fescue, and creeping red fescue. Forage fescue and reclamation grass seed are excluded from this order.

(10) "Turfgrass seed by-products" means turfgrass seed straw and screenings.

(11) "Marketing season" or "fiscal year" means the twelve-month period beginning on June 1 of any year and ending with the last day of May, both dates being inclusive.

(12) "Producer-handler" is both a "producer" and a "handler" with respect to turfgrass seed and is covered by this order as a producer when engaged in the business of producing turfgrass seed or a handler when engaged in processing, selling, marketing or distributing turfgrass seed. "To produce" means to act as a producer. For the purposes of the turfgrass seed marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title to the turfgrass seed and its resulting agricultural product or the agricultural product delivered for further production or increase.

(13) "Affected area" or "production area" means that portion of the state of Washington located east of the summit of the Cascade Mountains.

(14) "Sell" includes offer for sale, expose for sale, and have in possession for sale, exchange, barter or trade.

(15) "Affected unit" means one pound net pay weight of turfgrass seed.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-22-073, § 16-545-010, filed 11/1/04, effective 12/2/04. Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-010, filed 1/6/99, effective 2/6/99.]

WAC 16-545-015 Turfgrass seed districts. (1) District 1 consists of Chelan, Douglas, Ferry, Okanogan, Pend Oreille, Spokane and Stevens counties.

(2) District 2 consists of Asotin, Columbia, Garfield, Walla Walla, and Whitman counties.

(3) District 3 consists of Adams, Franklin, Grant, and Lincoln counties.

(4) District 4 consists of Benton, Kittitas, Klickitat, and Yakima counties.

[Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-015, filed 1/6/99, effective 2/6/99.]

WAC 16-545-020 Turfgrass seed board. (1) **Administration.** The provisions of this order and the applicable provisions of the act is administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board consists of seven members. Five members are affected producers appointed or elected under provisions of this order. One member is an affected handler appointed by the appointed or elected producers. The director appoints one member of the board who is neither an affected producer nor an affected handler to represent the director. The position representing the director shall be a voting member.

(b) Each district has one board member.

(i) Positions one through four represent each of the numbered districts.

(ii) Position five represents the district with the highest reported value of production of turfgrass seed the previous three years.

(iii) Position six is a handler appointed by the appointed or elected producer members of the board.

(iv) Position seven is the member representing the director.

(2007 Ed.)

(3) Board membership qualifications.

(a) The producer members of the board must be practical producers of turfgrass seed in the district in and for which they are nominated, appointed, or elected and each shall be a citizen and resident of the state, over the age of eighteen years. Each producer board member must be and have been actually engaged in producing turfgrass seed within the state of Washington for a period of three years and has during that time derived a substantial portion of his or her income therefrom and who is not engaged in business as a handler or other dealer.

(b) The handler member of the board must be a practical handler of turfgrass seed and must be a citizen and resident of the state, over the age of eighteen years. Each handler board member must be and have been, either individually or as an officer or an employee of a corporation, firm, partnership, association or cooperative actually engaged in handling turfgrass seed within the state of Washington for a period of five years and has during that period derived a substantial portion of his or her income therefrom.

(c) The qualifications of members of the board must continue during their term of office.

(4) Term of office.

(a) The term of office for members of the board is three years. One-third of the membership as nearly as possible must be appointed or elected each year.

(b) Membership positions on the board are designated numerically; affected producers will have positions one through five, the affected handler will have position six and the member representing the director will have position seven.

(c) The term of office for the initial board members must be as follows:

Positions one and three - three years, ending on January 31, 2002.

Positions two and five - two years, ending on January 31, 2001.

Positions four and six - one year, ending on January 31, 2000.

(d) Except for the director's representative, no member of the board can serve more than two full consecutive three-year terms.

(e) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members in positions 1, 4, and 5 shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) Nomination of elected or director-appointed board members.

(a) Each year the director shall call a nomination meeting for elected and/or director-appointed producer board members in those districts whose board members term is about to expire. The meeting(s) must be held at least thirty days in advance of the date set by the director for the election or advisory vote of board members.

(b) Notice of a nomination meeting must be published in a newspaper of general circulation within the affected district at least ten days in advance of the date of the meeting and in addition, written notice of every meeting must be given to all

affected producers within the affected district according to the list maintained by the board pursuant to RCW 15.65.295.

(c) Nonreceipt of notice by any interested person will not invalidate the proceedings at the nomination meeting.

(d) Any qualified affected producer may be nominated orally for membership on the board at the nomination meetings. Nominations may also be made within five days after the meeting by written petition filed with the director, signed by at least five affected producers.

(e) When only one nominee is nominated by the affected producers for an elected and/or director-appointed position, RCW 15.65.250 shall apply.

(f) If the board moves and the director approves that the nomination meeting procedure be deleted, the director shall give notice of the open board position(s) by mail to all affected producers. Nominating petitions for producers must be signed by at least five affected producers of the district from which the candidate will be appointed or elected. The final date for filing nominations must be at least twenty days after the notice was mailed.

(6) Election or advisory vote of board members.

(a) An election or advisory vote shall be conducted by secret ballot under the supervision of the director within the month of January. Each affected producer shall be entitled to one vote.

(b) Elected members of the board must be elected by a majority of the votes cast by the affected producers within the affected district. If a nominee does not receive a majority of the votes on the first ballot a runoff election must be held by mail in a similar manner between the two candidates for the position receiving the largest number of votes.

(c) An advisory vote shall be conducted for producer board members appointed by the director under the provision of RCW 15.65.243. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position, and advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(d) Notice of every election or advisory vote for board membership must be published in a newspaper of general circulation within the affected district at least ten days in advance of the date of the election or advisory vote. At least ten days before every election or advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of the affected producers maintained by the board pursuant to RCW 15.65.295. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing their qualifications.

(e) Nonreceipt of a ballot by an affected producer will not invalidate the election or advisory vote of any board member.

(7) Vacancies.

(a) In the event of a vacancy on the board in an elected or commission-appointed position, the remaining members shall select a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

(8) **Quorum.** A majority of the members is a quorum for the transaction of all business and to execute the duties of the board.

(9) **Board compensation.** No member of the board will receive any salary or other compensation, but each member may be compensated for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, in accordance with RCW 43.03.230 together with travel expenses in accordance with RCW 43.03.050 and 43.03.060. The board may adopt by resolution provisions for reimbursement of actual travel expenses incurred by members and employees of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chairman and other officers as the board deems advisable.

(c) To employ and discharge at its discretion the personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to execute the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the order. The expenses and costs may be paid by check; draft or voucher in the form and the manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited money with the director to defray the costs of formulating the order.

(f) To establish a "turfgrass seed board marketing revolving fund" and to deposit the fund in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice accurate records of all assessments, collections, receipts, deposits, withdrawals, disbursements, paid outs, moneys and other financial transactions made and done under this order. The records, books and accounts must be audited at least once every five years subject to procedures and methods lawfully prescribed by the state auditor. The books and accounts must be closed as of the last day of each fiscal year of the commission. A copy of the audit shall be delivered within thirty days after completion to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board may deem necessary. The board must pay the premium for the bond or bonds from assessments collected. The bond may not be necessary if any blanket bond covering officials or

employees of the state of Washington covers any board member or employee.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year. The board, at least sixty days prior to the beginning of its fiscal year, shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(j) To establish by resolution a headquarters, which shall continue unless, changed by the board. All records, books and minutes of board meetings must be kept at the headquarters.

(k) To adopt rules of a technical or administrative nature for the operation of the board, under chapter 34.05 RCW (Administrative Procedure Act).

(l) To execute RCW 15.65.510 covering the obtaining of information necessary to effectuate the order and the act, along with the necessary authority and procedure for obtaining the information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States to obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To execute any other grant of authority or duty provided designees and not specifically set forth in this section.

(p) To sue or be sued.

(q) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order.

(r) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW.

(s) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies.

(t) To enter into contracts or agreements for research in the production, irrigation, and transportation of turfgrass seed.

(u) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of attorney general.

(v) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this order.

(w) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, and transportation of turfgrass seed including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(x) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each producer's produc-

tion for a minimum three-year period pursuant to RCW 15.65.280.

(y) To maintain a list of the names and addresses of persons who handle turfgrass seed within the affected area and data on the amount and value of the turfgrass seed handled for a minimum three-year period by each person pursuant to RCW 15.65.280.

(z) To maintain a list of names and addresses of all affected persons who produce turfgrass seed and the amount, by unit, of turfgrass seed produced during the past three years pursuant to RCW 15.65.295.

(aa) To maintain a list of all persons who handle turfgrass seed and the amount of turfgrass seed handled by each person during the past three years pursuant to RCW 15.65.295.

(bb) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, with the time and date fixed by resolution of the board and held in accordance with chapter 42.30 RCW (Open Public Meetings Act). Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget must be presented for discussion at the meeting. Notice of the annual meeting must be filed in accordance with chapter 42.30 RCW (Open Public Meetings Act). Notice of the annual meeting must be given at least ten days prior to the meeting by written notice to each producer and by notifying the regular news media.

(c) The board shall establish by resolution the time, place, and manner of calling special meetings of the board with twenty-four hours written notice to the members. A board member may waive in writing his or her notice of any special meeting. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 04-22-073, § 16-545-020, filed 11/1/04, effective 12/2/04. Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-020, filed 1/6/99, effective 2/6/99.]

WAC 16-545-040 Assessments and collections. (1) Assessments. (a) The assessment on all varieties of turfgrass seed subject to this marketing order shall be 0.3 percent (three tenths of one percent) of the net receipts at the first point of sale and shall be deducted by the first purchaser from the price paid to the grower. The assessment shall be remitted to the commission board in accordance with procedures adopted by the commission board.

(b) The assessments shall not be payable on any turfgrass seed used by the affected producer on their premises for feed, seed and personal consumption.

(2) Collections. Excess moneys collected by the board under the order during the fiscal year may be carried over and used during the next successive fiscal year. The board may also recommend that excess moneys at the close of a fiscal

year be refunded on a pro rata basis to the affected producers from whom the moneys were collected.

(3) **Penalties.** Any due and payable assessment levied in the specified amount as may be determined by the board under the act and the order, is a personal debt of the person assessed or who owes the debt, and it is due and payable to the board when payment is called for by the board. If a person fails to pay the board the full amount of the assessment by the date due, the board may add to the unpaid assessment or sum an amount not exceeding ten percent of the amount to defray the cost of enforcing the collecting the assessment. In the event of failure of the person or persons to pay the full amount due, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-040, filed 1/6/99, effective 2/6/99.]

WAC 16-545-041 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1999, the following procedure is established for the reporting and paying of assessments levied pursuant to RCW 15.65.410 and WAC 16-545-040:

(1) All first handlers of turfgrass seed grown in the state of Washington, or the person acting on behalf of a first buyer, shall withhold the amount of assessment from their remittance to growers of turfgrass seed and transmit it to the commission.

(2) All assessments will be due and payable to the commission within thirty days of collection. With the submission of the assessments, a report listing the name, address, volume handled or purchased and amount deducted or collected for each producer must be submitted to the commission on forms provided by or approved by the commission.

(3) Any assessments paid after the above deadlines shall be accompanied by an administrative fee of 10% in accordance with RCW 15.65.440 of the act.

[Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-041, filed 1/6/99, effective 2/6/99.]

WAC 16-545-050 Obligations of the board. Obligations incurred by the board or employee or agent pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent) established under this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person

or employee, except for their own individual acts of dishonesty or crime. No person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-050, filed 1/6/99, effective 2/6/99.]

WAC 16-545-080 Separability. If any provisions of the order are declared invalid, or the applicability to any person, circumstances or thing is held invalid, the validity of the remainder provisions or of the applicability to any other person, circumstances or thing shall not be affected.

[Statutory Authority: RCW 15.65.050. 99-02-064, § 16-545-080, filed 1/6/99, effective 2/6/99.]

------------	--

WAC 16-550-005 Marketing order for Washington blueberries—Policy statement. (1) The marketing of blueberries within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that its blueberries be properly promoted by:

(a) Enabling producers of blueberries to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the blueberries they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of blueberries within the state, the nation, and internationally.

(2) That it is in the overriding public interest that support for the blueberry industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that blueberries be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Washington state's blueberries.

(b) Increase the sale and use of Washington state's blueberries in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Washington state's blueberries.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Washington state's blueberries and products.

(e) Support and engage in programs or activities that benefit the planting, production, harvesting, handling, processing, marketing, and uses of blueberries produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state blueberry commodity board exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to blueberries under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-005, filed 8/14/06, effective 9/14/06.]

WAC 16-550-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purpose of maintaining existing markets or creating new or larger local, domestic, and foreign markets; or increasing production efficiency, ensuring a fair regulatory environment; or increasing per capita consumption of blueberries in Washington state. The Washington state blueberry commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW:

(1) To carry out the purposes of the order, the board may provide for a program in one or more of the following areas:

(a) Establish plans and conduct programs for marketing, sales, promotion and/or other programs for advertising, sales, promotion and/or other programs for maintaining present markets and/or creating new or larger markets for blueberries. Such programs shall be directed toward increasing the sale of blueberries without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of blueberries nor disparage the quality, value, sale or use of any other agricultural commodity. The board may also engage in cooperative efforts in the domestic or foreign marketing of blueberries.

(b) Provide for research in the production, processing, irrigation, transportation, handling, and/or marketing of blueberries and expend the necessary funds for such purposes. Insofar as practicable, research shall be carried on by experiment stations of Washington State University, but, if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(c) Provide by rules for:

(i) Establishing uniform labels and labeling requirements for blueberries or any products thereof, requiring producers, handlers and other persons to conform to standards for the placing of labels, trademarks, insignia or brands on containers or packages: Provided, That all licensed blueberry dealers and brokers are entitled to use on the face of their product any particular trademark, insignia, brand or label that they

(2007 Ed.)

may now have or will have. That established brands, labels, trademarks or insignias may be properly used in selling or commercially disposing of blueberries and blueberry products or in offering the same for sale, advertising and/or delivering said blueberries or blueberry products;

(ii) Providing for inspection and enforcement to ascertain and effectuate compliance.

(d) The board may authorize use of any money received and of any persons employed thereunder for legal proceedings, of any type and in the name of any person, directed to enforcement of this or any other law in force in the state of Washington relating to the prevention of unfair trade practices.

(e) Conduct programs for the purpose of providing information and education including:

(i) Marketing information and services for producers of blueberries for the verification of grades, standards, weights, tests, and sampling of quality and quantity of blueberries purchased by handlers from affected producers.

(ii) Information and services enabling producers to meet their resource conservation objectives.

(iii) Blueberry-related education and training.

(f) Subject to the provisions of the act, provide information and communicate on matters pertaining to the production, irrigation, processing, transportation, marketing, or uses of blueberries produced in Washington state to any elected official or officer or employee of any agency.

(2) The director shall approve any plans, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for advertising and promotion of blueberries.

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of the affected commodity may be encouraged, expanded, improved, or made more efficient.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-006, filed 8/14/06, effective 9/14/06.]

WAC 16-550-010 Definitions of terms. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agricultural Commodity Boards Act. For the purpose of this marketing order, the following additional definitions shall apply:

(1) "Director" means the director of agriculture of the state of Washington or his or her duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agricultural Commodity Boards Act or chapter 15.65 RCW.

(4) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals, or any unit or agency of local or state government.

(5) "Affected producer" or "producer" means any person who produces blueberries in commercial quantities in the state of Washington, or who sells or stores blueberries in the state of Washington for fresh market or for processing. "To produce" means to act as a producer. For the purposes of the

blueberry marketing order, "producer" shall include bailees who contract to produce or grow any agricultural product on behalf of a bailor who retains title to the seed and its resulting agricultural product or the agricultural product delivered for further production or increase.

(6) "Commercial quantity" means any blueberries produced, or stored, for a market by a producer in any calendar year.

(7) "Handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing, storing, or distributing blueberries not produced by him/her. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(8) "Blueberry commodity board" hereinafter referred to as "board" or "commission" means the commodity board formed under the provisions of WAC 16-550-020 of this blueberry order.

(9) "Blueberries" means and includes all kinds, varieties, and hybrids of "vaccinium corym bosum" and "vaccinium australe" grown and marketed in the state of Washington.

(10) "Marketing season" or "fiscal year" means the twelve-month period beginning January 1 and ending December 31, both dates being inclusive.

(11) "Producer-handler" means any person who acts both as a producer and as a handler with respect to blueberries. A producer-handler shall be deemed to be a producer with respect to the blueberries which he/she produces and a handler with respect to the blueberries which he/she handles, including those produced by himself/herself.

(12) "Affected area" means the state of Washington.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter or trade.

(14) "Affected unit" means one pound net of blueberries.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-010, filed 8/14/06, effective 9/14/06. Statutory Authority: RCW 15.65.020 and 15.65.140. 91-01-054 (Order 2068), § 16-550-010, filed 12/13/90, effective 1/13/91; Order 1116, § 16-550-010, filed 5/14/69, effective 6/15/69.]

WAC 16-550-020 Blueberry commodity board. (1) Administration. The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of seven members. Six members shall be affected producers appointed or elected as provided in this section. The director shall appoint one member of the board who is neither an affected producer nor a handler to represent the director. The position representing the director shall be a voting member.

(i) Director-appointed affected producer positions on the board shall be designated as positions two, four and six.

(ii) Elected affected producer positions on the board shall be designated as positions one, three and five.

(iii) The position representing the director who is neither an affected producer nor a handler shall be designated as position seven.

(b) For the purpose of nomination, appointment, and election of producer members of the board, the affected area shall be the entire state of Washington.

(3) **Board membership qualifications.** The producer members of the board must be practical producers of blueberries and each must be a citizen and resident of this state, over the age of eighteen years. Each producer board member must be and have been actually engaged in producing blueberries within the state of Washington for a period of five years and has, during that time, derived a substantial portion of his/her income therefrom and is not engaged in business, directly or indirectly, as a handler or other dealer.

(4) Term of office.

(a) The term of office for members of the board shall be three years and one-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through six and the member representing the director position seven.

(c) The term of office for the initial board members shall be as follows:

Positions one and two - until June 30, 1970

Positions three and four - until June 30, 1971

Positions five, six and seven - until June 30, 1972

(d) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members in positions two, four and six shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) Nomination of elected or director-appointed board members.

(a) Each year the director shall call a nomination meeting for elected and/or director-appointed producer board members. The meeting(s) shall be held at least thirty days in advance of the date set by the director for the election or advisory vote of board members.

(b) Notice of a nomination meeting shall be published in a newspaper of general circulation within the major production area not less than ten days in advance of the date of the meeting and, in addition, written notice of every meeting shall be given to all affected producers according to the list maintained by the board pursuant to RCW 15.65.295.

(c) Nonreceipt of notice by any interested person shall not invalidate the proceedings at the nomination meeting.

(d) Any qualified affected producer may be nominated orally for membership on the board at the nomination meeting(s). Nominations may also be made within five days after the nomination meeting by written petition filed with the director, signed by not less than five affected producers.

(e) When only one nominee is nominated by the affected producers for any position, RCW 15.65.250 shall apply.

(6) Election or advisory vote of board members.

(a) An election or advisory vote shall be conducted by secret ballot under the supervision of the director within the month of May. Each affected producer shall be entitled to one vote. Elected members of the board shall be elected by a majority of the votes cast by the affected producers.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) An advisory vote shall be conducted for producer board members appointed by the director under the provisions of RCW 15.65.243. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position, an advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(d) Notice of every election or advisory vote for board membership shall be published in a newspaper of general circulation within the major production area not less than ten days in advance of the date of the election or advisory vote. Not less than ten days prior to every election or advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of such affected producers maintained by the board pursuant to RCW 15.65.295. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his/her qualifications.

(e) Nonreceipt of a ballot by any affected producer shall not invalidate the election or advisory vote of any board member.

(7) Vacancies.

(a) In the event of a vacancy on the board in an elected position, the remaining members shall select a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position became vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

(8) Quorum. A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) Board compensation. No member of the board shall receive any salary except that each member may be compensated in accordance with RCW 43.03.230 and shall be reimbursed for subsistence, lodging, and mileage in accordance with RCW 43.03.050 and 43.03.060, as provided for in RCW 15.65.270. The board may adopt, by resolution, provisions for reimbursement of actual travel expenses incurred by members and employees of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270.

(10) Powers and duties of the board. The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from monies collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the order. Such expenses and costs may be paid by check, draft or

voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited with the director in order to defray the costs of formulating the order.

(f) To establish a "blueberry board marketing revolving fund" and the fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys and other financial transactions made and done pursuant to this order. Records, books and accounts shall be audited at least every five years subject to procedures and methods lawfully prescribed by the state auditor. Books and accounts shall be closed as of the last day of each fiscal year of the state of Washington. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for a bond or bonds shall be paid by the board from assessments collected. A bond shall not be necessary if any board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year. At least thirty days prior to the beginning of its fiscal year, the board shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules of a technical or administrative nature for the operation of the board, subject to the provisions of chapter 34.04 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order.

(p) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW.

(q) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies.

(r) To enter into contracts or agreements for research in the production, irrigation, processing, transportation, marketing, use, or distribution of blueberries.

(s) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general.

(t) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this order.

(u) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, irrigation, manufacture, regulation, transportation, distribution, sale, or use of blueberries including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission.

(v) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each affected producer's production for a minimum three-year period pursuant to RCW 15.65.280.

(w) To maintain a list of the names and addresses of persons who handle blueberries within the affected area and data on the amount and value of the blueberries handled for a minimum three-year period by each person pursuant to RCW 15.65.280.

(x) To maintain a list of names and addresses of all affected persons who produce blueberries and the amount, by unit, of blueberries produced during the past three years pursuant to RCW 15.65.295.

(y) To maintain a list of all persons who handle blueberries and the amount of blueberries handled by each person during the past three years pursuant to RCW 15.65.295.

(z) To establish a foundation using commission funds as grant money for the purposes established in this marketing order.

(aa) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, with the time and date thereof to be fixed by resolution of the board and the meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act). Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by regular wire news services and radio-television press.

(c) The board shall establish by resolution, the time, place and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice to a member of any special meeting may be waived by a waiver thereof from that member of the board. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-020, filed 8/14/06, effective 9/14/06. Statutory Authority: RCW 15.65.050. 00-10-022, § 16-550-020, filed 4/24/00, effective 5/25/00. Statutory Authority: RCW 15.65.380. 89-12-054 (Order 002), § 16-550-020, filed 6/6/89; Order 1116, § 16-550-020, filed 5/14/69, effective 6/15/69.]

WAC 16-550-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of blueberries shall be four-tenths of a cent per affected unit (pound).

(b) For the purpose of collecting assessments, the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment.

(c) Subsequent to the first sale no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of this order during or with respect to any season or year, may be refunded on a pro rata basis at the close of the season or year or at the close of a longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of this marketing order, to all persons from whom moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year or period whenever the board finds that the same will tend to effectuate the policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in a specified amount as may be determined by the board pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of the assessment or other sum on or before the date due, the board may, and is hereby authorized, to add to the unpaid assessment or sum an amount not exceeding ten percent of the unpaid assessment to defray the cost of enforcing the collecting of it. In the event of failure of a person or persons to pay any due and payable assessment or other sum, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-040, filed 8/14/06, effective 9/14/06. Statutory Authority: Chapter

15.65 RCW. 01-05-047, § 16-550-040, filed 2/15/01, effective 3/18/01. Statutory Authority: RCW 15.65.020 and 15.65.140. 91-01-054 (Order 2068), § 16-550-040, filed 12/13/90, effective 1/13/91. Statutory Authority: Chapter 15.65 RCW. 79-01-046 (Order 1594), § 16-550-040, filed 12/21/78; Order 1116, § 16-550-040, filed 5/14/69, effective 6/15/69.]

WAC 16-550-050 Obligations of the board. Obligations incurred by the board or employee or agent, thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Order 1116, § 16-550-050, filed 5/14/69, effective 6/15/69.]

WAC 16-550-060 Termination of the order. Termination shall be accomplished pursuant to RCW 15.65.183 through 15.65.193.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 06-17-078, § 16-550-060, filed 8/14/06, effective 9/14/06; Order 1116, § 16-550-060, filed 5/14/69, effective 6/15/69.]

WAC 16-550-070 Effective time. This marketing order for blueberries shall become effective on and after June 15, 1969.

[Order 1116, § 16-550-070, filed 5/14/69, effective 6/15/69.]

WAC 16-550-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances or thing shall not be affected thereby.

[Order 1116, § 16-550-080, filed 5/14/69, effective 6/15/69.]

WAC 16-550-500 Time, place, method for payment and collection of assessments. Effective with the growing season of 1969, the following procedure is established for the reporting and paying assessments levied pursuant to section RCW 15.65.410 and WAC 16-550-040:

(1) All first handlers of blueberries for resale or for processing shall withhold the amount of the assessment from

(2007 Ed.)

their remittances to growers and transmit same to the commission.

(2) All growers selling blueberries other than to first handlers for resale or processing, whether selling direct or through brokers, and including all sales at retail, shall pay the assessment directly to the commission.

(3) All growers having blueberries in cold storage that are not sold on October 31 of each year, shall compute the assessment due on such berries and pay same to the commission.

(4) All assessments for the crop year are due and payable to the commission on or before October 31 of each year.

(5) Any assessments paid on or after December 1 shall be accompanied with a penalty fee of 10% as provided in RCW 15.65.440 of the act.

[Order 1, § 16-550-500, filed 7/10/69.]

Chapter 16-555 WAC

WASHINGTON STRAWBERRY COMMISSION

WAC

16-555-010	Definition of terms.
16-555-020	Strawberry commodity board.
16-555-030	Marketing order purposes.
16-555-040	Assessments and collections.
16-555-041	Time—Place—Method for payment and collection of assessments.
16-555-050	Obligations of the board.
16-555-060	Termination of the marketing order.
16-555-070	Effective time.
16-555-080	Separability.

WAC 16-555-010 Definition of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or the director's duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington Agricultural Enabling Act of 1961 or chapter 15.65 RCW.

(4) "Person" means any person, firm, association, or corporation.

(5) "Affected producer" means any person who produces strawberries in commercial quantities in the state of Washington, for fresh market, for processing, or for sale to processors.

(6) "Commercial quantity" means any strawberries produced for a market, by a producer in any calendar year.

(7) "Handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing, storing, freezing, or distributing strawberries not produced by him.

(8) "Strawberry commodity board," hereinafter referred to as "board," means the commodity board formed under the provisions of WAC 16-555-020.

(9) "Strawberries" means and includes all kinds, varieties, and hybrids of "FRAGARIA-X-ANANASSA" grown and marketed in the state of Washington.

(10) "Marketing season" or "fiscal year" means the twelve-month period beginning with January 1 of any year and ending with the last day of December following, both dates being inclusive.

(11) "Producer-handler" means any person who acts both as a producer and as a handler with respect to strawberries. A producer-handler shall be deemed to be a producer with respect to the strawberries which he/she produces and a handler with respect to the strawberries which he/she handles, including those produced by himself/herself.

(12) "Affected area" means the state of Washington.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade.

(14) "Affected unit" means one pound net of strawberries.

[Statutory Authority: Chapter 15.65 RCW. 93-10-063, § 16-555-010, filed 5/3/93, effective 6/3/93. Statutory Authority: RCW 15.65.050. 90-11-001 (Order 2038), § 16-555-010, filed 5/3/90, effective 6/3/90. Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-010, filed 5/14/85.]

WAC 16-555-020 Strawberry commodity board. (1) Administration. The provisions of this marketing order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eight members. Seven members shall be affected producers elected as provided in this section. The director shall appoint one member who is neither an affected producer nor a handler to represent the department and the public.

(b) For the purpose of nomination and election of producer members of the board, the affected area shall be the state of Washington, and shall be divided into four representative districts as follows:

(i) District I shall have two board members, being Positions 1 and 2, and shall include the counties of Island, San Juan, Skagit, and Whatcom.

(ii) District II shall have two board members, being Positions 3 and 4, and shall include the counties of King, Clallam, Jefferson, Kitsap, Pierce, and Snohomish.

(iii) District III shall have two board members, being Position 5 and Position 7, and shall include the counties of Clark, Cowlitz, Lewis, Pacific, Skamania, Wahkiakum, Grays Harbor, Mason, and Thurston.

(iv) District IV shall have one board member, being Position 6, and shall include the remaining counties in the state of Washington.

(3) Board membership qualifications. The affected producer members of the board shall be practical producers of strawberries and shall be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in producing strawberries within the state of Washington for a period of five years and has, during that time, derived a substantial portion of his/her income therefrom. Producer-handlers shall be considered to be acting only as producers for purpose of election and membership on a commodity board. The qualifications of members of the board as herein set forth must continue during the terms of office.

(4) Term of office.

(a) The term of office, for members of the board shall be three years, and one-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through seven and the member appointed by the director, position eight.

(c) The term of office for the initial board members shall be as follows:

Position one - shall terminate on August 31, 1986;

Positions three and five - shall terminate on August 31, 1987;

Positions two and four - shall terminate on August 31, 1988.

(d) The term of office for the initial board member in Position 6, shall terminate on August 31, 1995.

(e) The term of office for the initial board member in Position 7 shall terminate on August 31, 2005.

(5) Nomination and election of board members. Each year the director shall call for a nomination meeting. Such meeting shall be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such meeting; and, in addition, written notice of every such meeting shall be given to all affected producers according to the list maintained by the director pursuant to RCW 15.65.200 of the act. Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting. Any qualified affected producer may be nominated orally for membership on the board at such nomination meeting. Nominations may also be made within five days after any such meeting by written petition filed with the director, signed by not less than five affected producers. At the inception of this marketing order, nominations may be made at the issuance hearing.

When only one nominee is nominated for any position on the board, the director shall deem that said nominee satisfies the requirements of the position and then it shall be deemed that said nominee has been duly elected.

(6) Election of board members.

(a) Members of the board shall be elected by secret mail ballot within the month of May under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected producers. Each affected producer shall be entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears on the list of such affected producers maintained by the director in accordance with RCW 15.65.200. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his/her qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board members.

(7) **Vacancies prior to election.** In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) **Quorum.** A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) **Board compensation.** No member of the board shall receive any salary or other compensation, but each member may be compensated for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, together with travel expenses at the rates allowed state employees.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel as the board determines necessary and proper to carry out the purpose of the marketing order and effectuate the declared policies of the act.

(d) To pay from moneys collected as assessments, contributions, or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the marketing order. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited with the director in marketing order to defray the costs of formulating the marketing order.

(f) To establish a "strawberry board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, shall be deposited each day or as often as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys, and other financial transactions made and done pursuant to this order. Such records, books, and accounts shall be audited at least every five years subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each calendar year. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each calendar year.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All

records, books, and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the marketing order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or the marketing order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(o) To authorize the members of the board, or their agents or designees, to participate in federal or state hearings or other proceedings concerning regulation of the manufacture, distribution, sale, or use of any pesticide as defined by RCW 15.58.030(1) or any agricultural chemical which is of use or potential use in producing strawberries, and may authorize the expenditure of commission funds for this purpose.

(p) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least semi-annually, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act).

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by regular news services.

(c) The board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice of any special meeting may be waived by a waiver thereof by each member of the board.

[Statutory Authority: RCW 15.65.050 and 15.65.200. 02-15-128, § 16-555-020, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 15.65.050. 00-10-024, § 16-555-020, filed 4/24/00, effective 5/25/00. Statutory Authority: Chapter 15.65 RCW. 93-10-063, § 16-555-020, filed 5/3/93, effective 6/3/93. Statutory Authority: RCW 15.65.050. 92-12-006, § 16-555-020, filed 5/21/92, effective 6/21/92. Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-020, filed 5/14/85.]

WAC 16-555-030 Marketing order purposes. The marketing order is to promote the general welfare of the state, to enable producers of strawberries to help themselves facilitate cultural and harvesting improvements, and regulate unfair trade practices within the industry. To carry out the purposes of the marketing order, the board may provide for a program in one or more of the following areas:

(1) Provide for research in the production, processing, and/or marketing of strawberries and expend the necessary

funds for such purposes. Insofar as practicable, such research shall be carried on by experiment stations of Washington State University, but if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research entity has better facilities therefor, the project may be carried out by other research entities selected by the board.

(2) Provide for marketing information and services to affected producers, for the verification of grades, standards, weights, tests, and sampling of quality and quantity of strawberries purchased by handlers from affected producers and for the purpose of facilitating the efficient marketing of strawberries.

(3) Prohibit and/or otherwise regulate any one or more or all of the practices listed to the extent that such practices affect, directly or indirectly, strawberries or any product thereof, but only with respect to persons who engage in such practices with the intent of or with the reasonably foreseeable effect of inducing any purchaser to become his/her customer or his/her supplier or of otherwise dealing or trading with him or of diverting trade from a competitor, to wit:

(a) Paying rebates, commissions or unearned discounts;

(b) Unfairly extending privileges or benefits (pertaining to price, to credit, to the loan, lease or giving away of facilities, equipment or other property or to any other matter or thing) to any customer, supplier or other person;

(c) Discriminating between customers, or suppliers of a like class;

(d) Making or publishing false or misleading advertising. Such regulation may authorize uniform trade practices applicable to all similarly situated handlers and/or other persons.

(4) The board may authorize use of any money received and of any persons employed thereunder for legal proceedings, of any type and in the name of any person, directed to the enforcement of this or any other law in force in the state of Washington relating to the prevention of unfair trade practices.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-030, filed 5/14/85.]

WAC 16-555-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of strawberries shall be one-half cent per affected unit (pound).

(b) For the purpose of collecting assessments, the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment.

(c) Subsequent to the first sale, no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of the marketing order during or with respect to any season or year, may be refunded on a pro rata basis at the close of such season or year or at the

close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of this marketing order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year, or period whenever the board finds that the same will tend to effectuate such policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and the marketing order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.050. 92-12-006, § 16-555-040, filed 5/21/92, effective 6/21/92. Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-040, filed 5/14/85.]

WAC 16-555-041 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1985, the following procedure is established for the reporting and paying of assessments levied pursuant to RCW 15.65.410 and WAC 16-555-040:

(1) All first handlers of strawberries for resale or for processing shall withhold the amount of the assessment from their remittance to growers and transmit same to the commission. Where the first handler does not remit proceeds to the producer, the first handler shall include in his/her bill for services the assessment due and upon payment by the producer shall remit same to the commission. All such assessments accumulated will be due and payable to the commission on or before September 30 of each year, a report listing the name, address, pounds handled or purchased, and amount deducted or collected for each producer on forms provided by the commission.

(2) All growers selling strawberries other than to first handlers for resale or processing, whether selling direct or through brokers, and including all sales at retail, including u-pick, shall pay the assessment directly to the commission, on or before September 30 of each year.

(3) All growers having strawberries in cold storage that are not sold on September 15 of each year, shall compute the assessment due on such berries and pay same to the commission by September 30 of each year.

(4) Any assessments paid after the above deadlines shall be accompanied by a penalty fee of ten percent as provided in RCW 15.65.440 of the act.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-041, filed 5/14/85.]

WAC 16-555-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this marketing order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this marketing order shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-050, filed 5/14/85.]

WAC 16-555-060 Termination of the marketing order. The marketing order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent such dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether such termination is so assented to or favored whenever twenty percent by numbers and twenty percent by volume of production of the affected producers file written application with the director for such termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-060, filed 5/14/85.]

WAC 16-555-070 Effective time. The marketing order for strawberries shall become effective on and after June 15, 1985.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-070, filed 5/14/85.]

WAC 16-555-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Statutory Authority: Chapter 15.65 RCW. 85-11-030 (Order 1856), § 16-555-080, filed 5/14/85.]

WAC 16-557-010 Definition of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington Agricultural Enabling Act of 1961 or chapter 15.65 RCW.

(4) "Person" means any person, firm, association, or corporation.

(5) "Affected producer" means any person who produces in the state of Washington asparagus in commercial quantities for fresh market, for processing, or for sale to processors.

(6) "Commercial quantity" means any asparagus produced for market in quantities of three tons (6,000 pounds) or more, in any calendar year.

(7) "Affected handler" means both affected handler fresh and affected handler processor.

(8) "Affected handler, fresh" means any person who acts as principal or agent or otherwise in selling, marketing, or distributing fresh asparagus not produced by him.

(9) "Affected handler, processor" means any person who acts as principal or agent or otherwise in processing, freezing asparagus, and selling, marketing, or distributing said processed or frozen asparagus, not produced by him.

(10) "Asparagus commodity board," hereinafter referred to as "board," means the commodity board formed under the provisions of WAC 16-557-020.

(11) "Asparagus" means and includes all kinds, varieties, and hybrids of "*officinalis*" Linn.

(12) "Marketing season" or "fiscal year" means the twelve-month period beginning with January 1 of any year and ending with the last day of December following, both dates being inclusive.

(13) "Producer-handler" means any person who acts both as a producer and as a handler with respect to asparagus. A producer-handler shall be deemed to be a producer with respect to the asparagus which he produces and a handler with respect to the asparagus which he handles, including those produced by himself.

(14) "Affected area" means the following counties in the state of Washington: Adams, Benton, Columbia, Franklin, Grant, Kittitas, Klickitat, Walla Walla, and Yakima.

(15) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade.

(16) "Affected unit" means one pound net pay weight of asparagus.

(17) "Promotional hosting" as used in these rules means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations and promoting sales of Washington grown asparagus.

(18) "Hosting" may include providing meals, refreshments, lodging, transportation, gifts of a nominal value, reasonable and customary entertainment, and normal incidental expenses at meetings or gatherings.

[Statutory Authority: RCW 15.04.200, 15.65.280 and WAC 16-557-020. 98-16-081, § 16-557-010, filed 8/5/98, effective 9/5/98. Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-010, filed 4/4/91, effective 5/5/91.]

WAC 16-557-020 Asparagus commodity board. (1) Administration. The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of nine members. Six members shall be affected producers elected as provided in this section, one member shall be an affected handler, fresh, elected as provided in this section, one member shall be an affected handler processor, as provided in this section. The director shall appoint one member who is neither an affected producer nor a handler to represent the department and the public.

(b) Effective January 1, 2002, for the purpose of nomination and election of producer members of the board, the affected area shall be that portion of the state of Washington located east of the summit of the Cascade Mountains and shall be divided into three representative districts as follows:

(i) District I shall have two board members, being positions one and two, and shall be Benton, Kittitas, Klickitat, and Yakima counties.

(ii) District II shall have three board members, being positions three, four and five, and shall include the counties of Adams, Franklin, and Grant.

(iii) District III shall have one board member, being position six, and shall include the counties of Columbia and Walla Walla.

(3) Board membership qualifications.

(a) The affected producer members of the board shall be practical producers of asparagus and shall be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actively engaged in producing asparagus within the state of Washington for a period of five years and has, during that time, derived a substantial portion of his income therefrom. Producer-handlers shall be considered to be acting only as handlers for purpose of election and membership on a commodity board.

(b) The affected handler member of the board shall be a practical handler of asparagus and shall be a citizen and resident of the state of Washington, over the age of twenty-five years and who is and has been, either individually or as an officer or an employee of a corporation, firm, partnership association or cooperative actually engaged in handling asparagus within the state of Washington for a period of five years and has during that period derived a substantial portion of his income therefrom.

(c) The qualifications of members of the board must continue during their term of office.

(4) Term of office.

(a) The term of office, for members of the board shall be three years, and one-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through six, affected handler member fresh product, position seven, affected handler member, processor, position eight, and the member appointed by the director, position nine.

(c) The term of office for the initial board members shall be as follows:

Positions one, three, and seven - one year, shall terminate on December 31, 1992;

Positions two, four, and five - two years, shall terminate on December 31, 1993;

Positions six and eight - three years, shall terminate on December 31, 1994.

(d) No elected produce member of the board may serve more than two full consecutive three-year terms.

(5) Nomination and election of board members. For the purpose of nominating candidates for election to board membership, the director shall call separate meetings of affected producers, affected handlers, fresh and affected handler processors. Each year the director shall call for nomination meetings in those districts whose board members' term is about to expire. Such meetings shall be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the affected area not less than ten days in advance of the date of such meeting; and, in addition, written notice of every such meeting shall be given to all affected producers within the affected area and all affected handlers according to the list maintained by the director pursuant to RCW 15.65.200 of the act. Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting. Any qualified affected producer or affected handler may be nominated orally for membership on the board at such nomination meeting. Nominations may also be made within five days after any such meeting by written petition filed with the director, signed by not less than five affected producers or affected handlers. At the inception of this order, nominations may be made at the issuance hearing.

If the board moves and the director approves that the nomination meeting procedure be deleted, the director shall give notice of the vacancy by mail to all affected producers or handlers. Nominating petitions for producers shall be signed by not less than five affected producers of the district from which such a candidate will be elected. Nomination petitions for handlers, fresh and processed shall be signed by not less than three affected handlers. The final date for filing nominations which shall not be less than twenty days after the notice was mailed.

(6) Election of board members.

(a) Members of the board shall be elected by secret mail ballot within the month of November under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected pro-

ducers within the affected district. Each affected producer within the affected district shall be entitled to one vote.

Affected handler, fresh, shall be elected by a majority of the votes cast by the affected handlers, fresh. Affected handler, processor, shall be elected by a majority of the votes cast by the affected handlers, processor.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the affected area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer or affected handler entitled to vote whose name appears on the list of such affected producers and affected handler within the affected area maintained by the director in accordance with RCW 15.65.200. Any other affected producer or affected handler entitled to vote may obtain a ballot by application to the director upon establishing his qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board members.

(7) **Vacancies prior to election.** In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) **Quorum.** A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) **Board compensation.** No member of the board shall receive any salary or other compensation, but each member may receive thirty-five dollars or an amount as provided for in RCW 43.03.230 for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, together with travel expenses at the rates allowed state employees.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel as the board determines necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the order. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited with the director in order to defray the costs of formulating the order.

(f) To establish an "asparagus board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board,

except for an amount of petty cash for each days' needs, not to exceed fifty dollars, shall be deposited daily.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys, and other financial transactions made and done pursuant to this order. Such records, books, and accounts shall be audited subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act.

(m) To bring actions or proceedings, upon joining the director as a party, for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or the order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(o) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(p) To authorize the members of a commodity board, or their agents or designees, to participate in federal or state hearings or other proceedings concerning regulation of the manufacture, distribution, sale, or use of any pesticide as defined by RCW 15.38.030(1) or any agricultural chemical which is of use or potential use in producing the affected commodity, and may authorize the expenditure of commission funds for this purpose.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act).

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The budget shall be presented for discussion at the meeting. In addition to such notice as may be required by chapter 42.30 RCW, notice of the annual meeting shall be given by the board at least ten

days prior to the meeting by written notice to each producer, and handler and by regular news service.

(c) In accordance with RCW 42.30.080, the board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice of any special meeting may be waived by a waiver thereof by each member of the board.

[Statutory Authority: Chapter 15.65 RCW. 01-10-087, § 16-557-020, filed 5/1/01, effective 6/1/01. Statutory Authority: RCW 15.65.050 and Washington State Agricultural Enabling Act of 1961. 95-17-116 (Order 5078), § 16-557-020, filed 8/23/95, effective 9/23/95. Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-020, filed 4/4/91, effective 5/5/91.]

WAC 16-557-025 Rules for implementation of promotional hosting by the Washington asparagus commission. The laws of section 1, chapter 26, Laws of 1985 (RCW 15.04.200) provide that agricultural commodity commissions shall adopt rules governing promotional hosting expenditures by agricultural commodity commission employees, agents, or commissioners. The rules governing promotional hosting expenditures for the Washington asparagus commission shall be as follows:

(1) Budget approval. Commission expenditures for agricultural development or trade promotion and promotional hosting shall be pursuant to specific budget items as approved by the commission at annual public hearings on the commission budget.

(2) Officials and agents authorized to make expenditures. The following officials and agents are authorized to make expenditures for agricultural development or trade promotion and promotional hosting in accordance with the provisions of these rules.

- (a) Commissioners;
- (b) Administrator;
- (c) Communications coordinator.

Individual commissioners shall make promotional hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be identified and supported by vouchers to which receipts are attached. Voucher forms will be supplied by the commission, and shall require the following information:

- (a) Name and position (if appropriate) of each person hosted;
- (b) General purpose of the hosting;
- (c) Date of hosting;
- (d) Location of the hosting;
- (e) To whom payment was or will be made;
- (f) Signature of person seeking payment or reimbursement.

(4) The chair of the commission, administrator, and/or treasurer are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations and promote sales of Washington grown asparagus:

(a) An individual from private business, associations, commissions;

(b) Foreign government officials;

(c) Federal and state officials: Provided, That lodging, meals, and transportation will not be provided when such officials may obtain full reimbursement for these expenses from their government employer;

(d) The general public, at meetings and gatherings open to the general public;

(e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted, will cultivate trade relations and promote sales of Washington grown asparagus;

(f) Spouses of the persons listed in (a), (b), (c), and (e) of this subsection when attendance of such spouse is customary and expected.

[Statutory Authority: RCW 15.04.200, 15.65.280 and WAC 16-557-020. 98-16-081, § 16-557-025, filed 8/5/98, effective 9/5/98.]

WAC 16-557-030 Marketing order purposes. The order is to promote the general welfare of the state, to enable producers of asparagus to help themselves establish orderly, fair, sound, efficient, unhampered marketing; facilitate cultural and harvesting improvements, and regulate unfair trade practices within the industry. To carry out the purposes of the order, the board may provide for a program in one or more of the following areas:

(1) Establish plans and conduct programs for advertising, sales, promotion, and/or other programs for maintaining present markets and/or creating new or larger markets for asparagus. Such programs shall be directed toward increasing the sale of asparagus without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of asparagus nor disparage the quality, value, sale, or use of any other agricultural commodity.

(2) Provide for research in the production, processing, and/or marketing of asparagus and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried on by Washington State University, but if in the judgment of the board, said university does not have the facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(3) Investigate and take necessary action to prevent unfair trade practices as set forth in RCW 15.65.340 and to correct where possible, trade practices which hinder marketing of Washington asparagus.

(4) Prohibit making or publishing false or misleading advertising. Such regulation may authorize uniform trade practices applicable to all similarly situated handlers and/or other persons.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-030, filed 4/4/91, effective 5/5/91.]

WAC 16-557-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of asparagus shall be one percent of the gross receipts at first point of sale.

(b) For the purpose of collecting assessments, the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment.

(c) Subsequent to the first sale, no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped, or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of the order during or with respect to any season or year, may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of such marketing agreement or order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year, or period whenever the board finds that the same will tend to effectuate such policies and purposes.

(3) **Remedies.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-040, filed 4/4/91, effective 5/5/91.]

WAC 16-557-041 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1991, the following procedure is established for the reporting and paying of assessments levied pursuant to RCW 15.65.410 and WAC 16-557-040:

(1) All first handlers of asparagus for resale or for processing shall withhold the amount of the assessment from their remittance to growers and transmit same to the commission. All such assessments accumulated will be due and payable to the commission within thirty days of collection. With the submission of the assessments, a report listing the name, address, pounds handled or purchased, and amount deducted or collected for each producer shall be submitted to the commission on forms provided by the commission.

(2) All growers selling asparagus other than to first handlers for resale or processing, whether selling direct or

through brokers, and including all sales at retail, shall pay the assessment directly to the commission, within thirty days of sale of such product.

(3) Any assessments paid after the above deadlines shall be accompanied by an administrative fee of 10% as provided in RCW 15.65.440 of the act.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-041, filed 4/4/91, effective 5/5/91.]

WAC 16-557-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this order shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-050, filed 4/4/91, effective 5/5/91.]

WAC 16-557-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent to such dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether such termination is so assented to or favored whenever twenty percent by numbers and twenty percent by volume of production of the affected producers file written application with him for such termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-060, filed 4/4/91, effective 5/5/91.]

WAC 16-557-070 Effective time. The marketing order for asparagus shall become effective on April 1, 1991.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-070, filed 4/4/91, effective 5/5/91.]

WAC 16-557-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any

other person, circumstances, or thing shall not be affected thereby.

[Statutory Authority: RCW 15.65.050 and chapter 15.65 RCW. 91-09-003, § 16-557-080, filed 4/4/91, effective 5/5/91.]

Chapter 16-560 WAC WASHINGTON TREE FRUIT RESEARCH COMMISSION

WAC

16-560-005	Authority and purpose.
16-560-010	Withholding assessments by first handler.
16-560-020	Payment of assessment by first handler.
16-560-030	Collection and remittance of assessments on processing apples.
16-560-040	Collection of assessments by state department of agriculture.
16-560-050	Payments to tree fruit research commission.
16-560-060	Reports of dealer, handler, and processor.
16-560-06001	Assessment rates.

WAC 16-560-005 Authority and purpose. These rules are promulgated by the Washington tree fruit research commission pursuant to the authority granted by chapter 15.26 RCW and in accordance with procedures required under chapter 1-12 WAC. The purpose of administrative rules and regulations adopted under this chapter is to administer and carry out the provisions of chapter 15.26 RCW.

[Order 4, § 16-560-005, filed 4/30/70; Emergency Order 3, filed 3/11/70. Formerly WAC 16-560-010 (part).]

WAC 16-560-010 Withholding assessments by first handler. All dealers, handlers, or processors who purchase commercial tree fruit from a producer for sale, processing, or shipment anywhere, shall withhold the assessment due and payable the Washington tree fruit research commission by producers of such commercial tree fruit unless adequate evidence is supplied by such producer that payment of the assessment has been or will have been made directly by himself. The first handler is responsible for payment of the research assessment, but he shall charge the same against the producer, who is finally responsible for such assessment. A producer who transports his own fruit or fruit on consignment to fresh market is deemed to be a first handler.

[Order 4, § 16-560-010, filed 4/30/70; Emergency Order 3, filed 3/11/70; Order 2, § 16-560-010, Regulations 1, 2, 3, filed 9/26/69.]

WAC 16-560-020 Payment of assessment by first handler. All first handlers shall remit such assessment to the Washington state apple advertising commission, when such assessment has been withheld for apples, and such remittance shall be made in the same manner and time as assessments due the said Washington state apple advertising commission for apple advertising assessments; and to the Washington state fruit commission, when such assessment has been withheld for any other tree fruit, including winter pears, and such remittance shall be made in the same manner and time as assessments due the said Washington state fruit commission.

[Order 4, § 16-560-020, filed 4/30/70; Emergency Order 3, filed 3/11/70. Formerly WAC 16-560-010 (part).]

WAC 16-560-030 Collection and remittance of assessments on processing apples. The Washington state

[Title 16 WAC—p. 584]

apple advertising commission is hereby designated to collect assessments due and payable to the Washington tree fruit research commission on processing apples as defined in RCW 15.24.010(6). The Washington tree fruit research commission will prescribe the official form to be used by the Washington apple advertising commission and all dealers, handlers and processors handling processing apples in the collection and payment of such assessments. The Washington state apple advertising commission shall determine the manner and time of payment of such assessments in conformance with its system of assessment collections. The remittance of such assessments collected on processing apples shall be made by the Washington apple advertising commission to the Washington tree fruit research commission, in conformance with WAC 16-560-050.

[Order 4, § 16-560-030, filed 4/30/70; Emergency Order 3, filed 3/11/70. Formerly WAC 16-560-010 (part).]

WAC 16-560-040 Collection of assessments by state department of agriculture. The Washington state department of agriculture may upon request of the Washington tree fruit research commission collect any or all assessments due and payable to the Washington tree fruit research commission.

[Order 4, § 16-560-040, filed 4/30/70; Emergency Order 3, filed 3/11/70. Formerly WAC 16-560-010 (part).]

WAC 16-560-050 Payments to tree fruit research commission. All assessments collected by the Washington state apple advertising commission, the Washington state fruit commission, and the Washington state department of agriculture shall be paid to the Washington tree fruit research commission within thirty days of such collection.

[Order 4, § 16-560-050, filed 4/30/70; Emergency Order 3, filed 3/11/70. Formerly WAC 16-560-010 (part).]

WAC 16-560-060 Reports of dealer, handler, and processor. Every dealer, handler and processor shall annually, within thirty days following each August 31, file with the Washington tree fruit research commission a report, under oath, on forms prescribed and furnished by said commission, stating the quantity of apples covered by the provisions of the Tree Fruit Research Act handled, shipped or processed by him during the twelve-month period immediately preceding said August 31. Said return shall in addition identify each person from whom said apples were received and the amount of apples furnished by each said person. All said returns shall be submitted directly to the Washington state apple advertising commission as the designated agent for audit and collection of assessments levied on apples pursuant to the provisions of the Tree Fruit Research Act. The above is to conform with RCW 15.26.190.

[Order 4, § 16-560-060, filed 7/17/72.]

WAC 16-560-06001 Assessment rates. There is hereby levied on all commercial tree fruit produced in this state or held out as being produced in this state for fresh or processing use, an assessment of one dollar per ton on all such tree fruit: Provided, That such assessment for cherries shall be four dollars per ton: Provided, That such assessment for apples for

(2007 Ed.)

fresh shipment shall be at the rate of two and one-half cents per hundred pounds gross billing weight for the 1992 crop year, three and three-quarters cents per hundred pounds gross billing weight for the 1993 crop year, and five cents per hundred pounds gross billing weight for the 1994 crop year and each year thereafter: Provided Further, That such assessment for processed apples shall be at the rate of fifty cents per ton for the 1992 crop year, seventy-five cents per ton for the 1993 crop year, and one dollar per ton for the 1994 crop year, and each year thereafter.

There is hereby established pursuant to RCW 15.26.155 an additional assessment for an industry services fund for programs related to sanitation, planting, production, harvesting, handling, processing and shipping. The assessment shall be set annually by the commission, upon approval of two-thirds of the voting members of the commission, to create and maintain this fund at or near one hundred thousand dollars. If this fund should inadvertently exceed one hundred thousand dollars due to larger crops than estimated or the addition of interest earned, the excess shall be credited to the following year's fund.

In consideration of maintaining this industry services fund, the commission shall annually consult with the affected industry and grower organizations.

[Statutory Authority: RCW 15.26.110(2), 96-07-054, § 16-560-06001, filed 3/19/96, effective 4/19/96. Statutory Authority: RCW 15.26.140 and 15.26.150, 92-01-009, § 16-560-06001, filed 12/5/91, effective 1/5/92. Statutory Authority: RCW 15.26.155, 86-14-066 (Order 8, Resolution No. 8), § 16-560-06001, filed 6/30/86, effective 8/1/86; 85-10-005 (Order 7, Resolution No. 7), § 16-560-06001, filed 4/19/85. Statutory Authority: RCW 15.26.140, 80-05-091 (Order 6, Resolution No. 6), § 16-560-06001, filed 5/1/80; Order 5, § 16-560-060 (codified as WAC 16-560-06001), filed 3/8/74.]

Chapter 16-561 WAC

WASHINGTON RED RASPBERRY COMMISSION

WAC

16-561-010	Definition of terms.
16-561-020	Red raspberry commodity board.
16-561-030	Marketing order purposes.
16-561-040	Assessments and collections.
16-561-041	Time—Place—Method for payment and collection of assessments.
16-561-050	Obligations of the board.
16-561-060	Termination of the order.
16-561-070	Effective time.
16-561-080	Separability.
16-561-100	Purpose.
16-561-110	Definitions.
16-561-120	Implementation.

WAC 16-561-010 Definition of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington Agricultural Enabling Act of 1961 or chapter 15.65 RCW.

(4) "Person" means any person, firm, association, or corporation.

(5) "Affected producer" means any person who produces or stores in the state of Washington raspberries in commer-

(2007 Ed.)

cial quantities for fresh market, for processing, or for sale to processors.

(6) "Commercial quantity" means any raspberries produced or stored in quantities of three tons (6,000 pounds) or more, in any calendar year.

(7) "Handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing, storing, freezing, or distributing raspberries not produced by him.

(8) "Red raspberry commodity board," hereinafter referred to as "board," means the commodity board formed under the provisions of WAC 16-561-020.

(9) "Raspberries" means and includes all kinds, varieties, and hybrids of "*rubus idaeus*" of red color.

(10) "Marketing season" or "fiscal year" means the twelve-month period beginning with January 1 of any year and ending with the last day of December following, both dates being inclusive.

(11) "Producer-handler" means any person who acts both as a producer and as a handler with respect to raspberries. A producer-handler shall be deemed to be a producer with respect to the raspberries which he produces and a handler with respect to the raspberries which he handles, including those produced by himself.

(12) "Affected area" means that portion of the state of Washington located west of the summit of the Cascade Mountains.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade.

(14) "Affected unit" means one pound net of raspberries.

[Statutory Authority: Chapter 15.65 RCW, 86-13-012 (Order 1888), § 16-561-010, filed 6/6/86. Statutory Authority: RCW 15.65.180, 83-24-028 (Order 1809), § 16-561-010, filed 12/1/83; Order 1478, § 16-561-010, filed 7/29/76.]

WAC 16-561-020 Red raspberry commodity board.

(1) **Administration.** The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eleven members. Ten members shall be affected producers elected as provided in this section. The director shall appoint one member who is neither an affected producer nor a handler to represent the department and the public.

There shall be a minimum of two producer board members per district, with additional producer board members added based on acreage; using two thousand acres as the baseline, every one thousand acres, or increment thereof, would entitle a district to another board member, so long as no single district had an over-all majority of representatives.

(b) For the purpose of nomination and election of producer members of the board, the affected area shall be that portion of the state of Washington located west of the summit of the Cascade Mountains and shall be divided into four representative districts as follows:

(i) District I shall have four board members, being positions 2, 3, 4, and 8, and shall be Whatcom County.

(ii) District II shall have two board members, being positions 1, and 7, and shall include the counties of Clallam, Grays Harbor, Island, Jefferson, King, Kitsap, Mason, Pierce, and Thurston.

(iii) District III shall have two board members, being positions 5 and 9, and shall include the counties of Clark, Cowlitz, Lewis, Pacific, Skamania, and Wahkiakum.

(iv) District IV shall have two members, being positions 6 and 10, and shall include the counties of San Juan, Skagit, and Snohomish.

(3) **Board membership qualifications.** The affected producer members of the board shall be practical producers of raspberries and shall be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in producing raspberries within the state of Washington for a period of five years and has, during that time, derived a substantial portion of his income therefrom. Producer-handlers shall be considered to be acting only as producers for purpose of election and membership on a commodity board. The qualifications of members of the board as herein set forth must continue during the terms of office.

(4) **Term of office.**

(a) The term of office, for members of the board shall be three years, and one-third of the membership as nearly as possible shall be elected each year. These terms shall expire on November 30.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through ten and the member appointed by the director, position eleven.

(c) The term of office for the initial board members shall be as follows:

Positions one and two - one year;

Positions three, four, five, and nine - two years;

Positions six, seven, eight, ten, and eleven - three years.

(d) No elected member of the board may serve more than two full consecutive three-year terms.

(5) **Nomination and election of board members.** Each year the director shall call for a nomination meeting. Such meeting shall be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the affected area not less than ten days in advance of the date of such meeting; and, in addition, written notice of every such meeting shall be given to all affected producers within the affected area according to the list maintained by the director pursuant to RCW 15.65.200 of the act. Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting. Any qualified affected producer may be nominated orally for membership on the board at such nomination meeting. Nominations may also be made within five days after any such meeting by written petition filed with the director, signed by not less than five affected producers. At the inception of this order, nominations may be made at the issuance hearing.

(6) **Election of board members.**

(a) Members of the board shall be elected by secret mail ballot within the month of October under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected producers within the affected area. Each affected producer within the affected area shall be entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the affected area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears on the list of such affected producers within the affected area maintained by the director in accordance with RCW 15.65.200. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board members.

(7) **Vacancies prior to election.** In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) **Quorum.** A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) **Board compensation.** No member of the board shall receive any salary or other compensation, but each member shall receive \$35.00 for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, together with travel expenses at the rates allowed state employees.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel as the board determines necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from monies collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the order. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited with the director in order to defray the costs of formulating the order.

(f) To establish a "raspberry board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, shall be deposited as often as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys, and other financial transactions made and done pursuant to this order. Such records, books, and accounts shall be audited subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year. A copy of such audit shall be delivered

ered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him by the act or the order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(o) To authorize the members of a commodity board, or their agents or designees, to participate in federal or state hearings or other proceedings concerning regulation of the manufacture, distribution, sale, or use of any pesticide as defined by RCW 15.38.030(1) or any agricultural chemical which is of use or potential use in producing the affected commodity, and may authorize the expenditure of commission funds for this purpose.

(p) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least four times annually, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act).

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by regular news service.

(c) The board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice of any special meeting may be waived by a waiver thereof by each member of the board.

[Statutory Authority: Chapter 15.65 RCW. 92-12-003, § 16-561-020, filed 5/21/92, effective 6/21/92; 86-13-012 (Order 1888), § 16-561-020, filed

(2007 Ed.)

6/6/86. Statutory Authority: RCW 15.65.180. 83-24-028 (Order 1809), § 16-561-020, filed 12/1/83; Order 1478, § 16-561-020, filed 7/29/76.]

WAC 16-561-030 Marketing order purposes. The order is to promote the general welfare of the state, to enable producers of raspberries to help themselves establish orderly, fair, sound, efficient, unhampered marketing; facilitate cultural and harvesting improvements, and regulate unfair trade practices within the industry. To carry out the purposes of the order, the board may provide for a program in one or more of the following areas:

(1) Establish plans and conduct programs for advertising, sales, promotion, and/or other programs for maintaining present markets and/or creating new or larger markets for raspberries. Such programs shall be directed toward increasing the sale of raspberries without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of raspberries nor disparage the quality, value, sale, or use of any other agricultural commodity.

(2) Provide for research in the production, processing, and/or marketing of raspberries and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried on by experiment stations of Washington State University, but if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(3) Provide by rules and regulations for:

(a) Establishing uniform grades and standards of quality, condition, maturity, size, weight, pack, packages and/or label for red raspberries or any products thereof;

(b) Requiring producers, handlers and/or other persons to conform to such grades and/or standards in packing, packaging, processing, labeling, selling or otherwise commercially disposing of red raspberries and/or in offering, advertising and/or delivering it therefor;

(c) Providing for inspection and enforcement to ascertain and effectuate compliance;

(d) Establishing rules and regulations respecting the foregoing;

(e) Providing that the board shall carry out inspection and enforcement of, and may (within the general provisions of the order) establish detailed provisions relating to, such standards and grades and such rules and regulations: Provided, That any modification not of a substantial nature, such as the modification of standards within a certain grade may be made without a hearing, and shall not be considered an amendment for the purposes of the act and order.

(4) Provide for marketing information and services to affected producers, for the verification of grades, standards, weights, tests, and sampling of quality and quantity of raspberries purchased by handlers from affected producers and for the purpose of facilitating the efficient marketing of raspberries.

[Statutory Authority: RCW 15.65.050. 98-22-091, § 16-561-030, filed 11/4/98, effective 12/5/98. Statutory Authority: RCW 15.65.180. 83-24-028 (Order 1809), § 16-561-030, filed 12/1/83; Order 1478, § 16-561-030, filed 7/29/76.]

WAC 16-561-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of raspberries shall be one-half cent per affected unit (pound).

(b) For the purpose of collecting assessments, the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment; or

(iii) Require in the case of assessments against affected units stored in frozen condition:

(A) Cold storage facilities storing such commodity to file information and reports with the commission regarding the amount of commodity in storage, the date of receipt, and the name and address of each such owner; and

(B) That such commodity not be shipped from a cold storage facility until the facility has been notified by the commission that the commodity owner has paid the commission for any assessments imposed by the marketing order.

(c) Subsequent to the first sale, no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped, stored, or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of the order during or with respect to any season or year, may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of such marketing agreement or order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year, or period whenever the board finds that the same will tend to effectuate such policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: Chapter 15.65 RCW. 86-13-012 (Order 1888), § 16-561-040, filed 6/6/86; 81-09-003 (Order 1728), § 16-561-040, filed 4/6/81; Order 1478, § 16-561-040, filed 7/29/76.]

[Title 16 WAC—p. 588]

WAC 16-561-041 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1977, the following procedure is established for the reporting and paying of assessments levied pursuant to RCW 15.65.410 and WAC 16-561-040:

(1) All first handlers of raspberries for resale or for processing shall withhold the amount of the assessment from their remittance to growers and transmit same to the commission. Where the first handler does not remit proceeds to the producer, the first handler shall include in his bill for services the assessment due and upon payment by the producer shall remit same to the commission. All such assessments accumulated will be due and payable to the commission on or before October 15 of each year. First handlers shall submit to the commission on or before October 15 of each year, a report listing the name, address, pounds handled or purchased, and amount deducted or collected for each producer on forms provided by the commission.

(2) All growers selling raspberries other than to first handlers for resale or processing, whether selling direct or through brokers, and including all sales at retail, shall pay the assessment directly to the commission, on or before September 30 of each year.

(3) All growers having raspberries in cold storage that are not sold on September 15 of each year, shall compute the assessment due on such berries and pay same to the commission by September 30 of each year.

(4) Any assessments paid after the above deadlines shall be accompanied by a penalty fee of 10% as provided in RCW 15.65.440 of the act.

[Statutory Authority: Chapter 15.65 RCW. 86-13-012 (Order 1888), § 16-561-041, filed 6/6/86. Statutory Authority: RCW 15.65.180. 83-24-028 (Order 1809), § 16-561-041, filed 12/1/83; Order 1, § 16-561-041, filed 6/3/77.]

WAC 16-561-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this order shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Order 1478, § 16-561-050, filed 7/29/76.]

(2007 Ed.)

WAC 16-561-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent such dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether such termination is so assented to or favored whenever twenty percent by numbers and twenty percent by volume of production of the affected producers file written application with him for such termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Order 1478, § 16-561-060, filed 7/29/76.]

WAC 16-561-070 Effective time. The marketing order for raspberries shall become effective on and after September 1, 1976.

[Order 1478, § 16-561-070, filed 7/29/76.]

WAC 16-561-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Order 1478, § 16-561-080, filed 7/29/76.]

WAC 16-561-100 Purpose. The laws set forth in section 1, chapter 26, Laws of 1985, of the state of Washington (RCW 15.04.200) enacted under the authority of Article VIII section 11 of the Washington state Constitution as amended, authorized the expenditure of agricultural commodity commission assessments for agricultural development or trade promotion and promotional hosting and provides that agricultural commodity commissions shall adopt rules governing promotional hosting expenditures by agricultural commodity commission employees, agents, or commissioners.

The purpose of these rules is to set forth the parameters governing promotional hosting expenditures for the Washington red raspberry commission.

[Statutory Authority: RCW 15.04.200 and 15.65.380. 93-20-088 (Order 5016), § 16-561-100, filed 10/5/93, effective 11/5/93.]

WAC 16-561-110 Definitions. "Promotional hosting" as used in these rules means the hosting of individuals and groups of individuals at meetings, meals, and gatherings for the purpose of cultivating trade relations, promoting sales of red raspberries, developing industry unity, and furthering the objectives of the commission.

"Hosting" may include providing meals, refreshments, lodging, transportation, gifts of a nominal value, reasonable and customary entertainment and normal incidental expenses at meetings or gatherings.

[Statutory Authority: RCW 15.04.200 and 15.65.380. 93-20-088 (Order 5016), § 16-561-110, filed 10/5/93, effective 11/5/93.]

WAC 16-561-120 Implementation. The implementation of the rules governing promotional hosting expenditures for the Washington red raspberry commission shall be as follows:

(2007 Ed.)

(1) Budget approval. Commission expenditures for agricultural development or trade promotion and promotional hosting shall be pursuant to specific budget items as approved by the commission at regular meetings held to review such matters.

(2) Officials and agents authorized to make expenditures. The following officials and agents are authorized to make expenditures for agricultural development or trade promotion and promotional hosting in accordance with the provisions of these rules:

- (a) Commissioners;
- (b) Administrator;
- (c) Marketing director;
- (d) Contractors, as specifically authorized by the commission.

Individual commissioners shall make promotional hosting expenditures, or seek reimbursements for those expenditures, only in those instances where the expenditures have been approved by the commission.

(3) Payment and reimbursement. All payments and reimbursements shall be identified and supported by vouchers to which receipts are attached. Voucher forms may be supplied by the commission, and shall require the following information:

- (a) Name and position of each person hosted, provided that in case of a group of twenty-five or more persons, then only the name of the group hosted shall be required;
- (b) General purpose of the hosting;
- (c) Date of hosting;
- (d) Location of the hosting;
- (e) To whom payment was or will be made;
- (f) Signature of person seeking payment or reimbursement.

(4) The chairman and vice-chairman-treasurer of the commission and the administrator are authorized to approve direct payment or reimbursements submitted in accordance with these rules.

(5) The following persons may be hosted when it is reasonably believed such hosting will cultivate trade relations, promote sales of red raspberries, or develop industry unity, provided that such hosting shall not violate federal or state conflict of interest laws:

- (a) Individuals from private business;
- (b) Foreign government officials;
- (c) Federal and state officials, provided lodging, meals and transportation will not be provided when such officials may obtain reimbursement for these expenses from their government employer;
- (d) The general public, at meetings and gatherings open to the general public;
- (e) Commissioners and employees of the commission when their attendance at meetings, meals, and gatherings at which the persons described in (a) through (d) of this subsection are being hosted will cultivate trade relations, promote sales of red raspberries, or further the objectives of the commission;

(f) Spouses of the persons listed in (a), (b), (c), and (e) of this subsection when attendance of such spouse will serve to cultivate trade relations, promote the sale of red raspberries or develop industry unity.

[Statutory Authority: RCW 15.04.200 and 15.65.380. 93-20-088 (Order 5016), § 16-561-120, filed 10/5/93, effective 11/5/93.]

Chapter 16-565 WAC

WASHINGTON CRANBERRY COMMISSION

WAC

16-565-010	Definition of terms.
16-565-020	Cranberry commodity board.
16-565-030	Marketing order purpose.
16-565-040	Assessments and collections.
16-565-041	Time, place, and method for payment and collection of assessments.
16-565-050	Obligations of the board.
16-565-060	Termination of the order.
16-565-070	Separability.

WAC 16-565-010 Definition of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or his duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington Agricultural Enabling Act of 1961 or chapter 15.65 RCW.

(4) "Person" means any person, firm, association, or corporation.

(5) "Affected producer" means any person who produces cranberries in the state of Washington, in commercial quantities for fresh market, for processing, or for sale to processors.

(6) "Commercial quantity" means any cranberries produced for a market, by a producer in any calendar year.

(7) "Handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing, or distributing cranberries not produced by him.

(8) "Cranberry commodity board," hereinafter referred to as "board," means the commodity board formed under the provisions of WAC 16-565-020.

(9) "Cranberries" means and includes all kinds, varieties, and hybrids of "*vaccinium macrocarpon*" grown and marketed in the state of Washington.

(10) "Fiscal year" means the twelve-month period beginning with September 1 of any year and ending with the last day of August following, both dates being inclusive.

(11) "Producer-handler" means any person who acts both as a producer and as a handler with respect to cranberries. A producer-handler shall be deemed to be a producer with respect to the cranberries which he produces and a handler with respect to the cranberries which he handles, including those produced by himself.

(12) "Affected area" means the state of Washington.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade, other than those sold retail by the producer.

(14) "Affected unit" means one hundred pounds (barrel) net of cranberries.

(15) "Substantial portion" means five percent or more.

(16) "Order" means marketing order.

[Statutory Authority: RCW 15.65.380. 85-15-018 (Order 1864), § 16-565-010, filed 7/8/85. Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-010, filed 9/12/80, effective 10/13/80.]

WAC 16-565-020 Cranberry commodity board. (1) Administration. The provisions of this order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eight members. Seven members shall be affected producers elected as provided in this section. The director shall appoint one member who is neither an affected producer nor a handler to represent the department and the public.

(b) For the purpose of nomination and election of producer members of the board, the affected area shall be the state of Washington and shall be divided into three representative districts as follows:

District I shall have two board members, being Positions 1 and 2, and shall comprise that portion of Pacific County lying south of the Willapa River.

District II shall have four board members, being Positions 3, 4, 5, and 6, and shall comprise that portion of Pacific County and that portion of Grays Harbor County lying between the Willapa River and the Chehalis River.

District III shall have one board member, being Position 7, and shall comprise the rest of the state.

(3) **Board membership qualifications.** The affected producer members of the board shall be practical producers of cranberries and shall be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in producing cranberries within the state of Washington for a period of five years and has, during that time, derived a substantial portion of his income therefrom. Producer-handlers shall be considered to be acting only as producers for purpose of election and membership on a commodity board. The qualifications of members of the board as herein set forth must continue during the terms of office.

(4) Term of office.

(a) The term of office for members of the board shall be three years, and one-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through seven and the member appointed by the director, position eight.

(c) The term of office for the initial board members shall be as follows:

Positions one and three - one year;

Positions four and five - two years;

Positions two, six, seven, and eight - three years.

(d) No elected member of the board may serve more than two full consecutive three-year terms.

(5) **Nomination and election of board members.** Each year the director shall call for a nomination meeting. Such meeting shall be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such meeting; and, in addition, written notice of every such meeting shall be given to all affected producers according to the list maintained by the director pursuant to RCW 15.65.200 of the act. Nonreceipt of notice by any interested person shall not invalidate

the proceedings at such nomination meeting. Any qualified affected producer may be nominated orally for membership on the board at such nomination meeting. Nominations may also be made within five days after any such meeting by written petition filed with the director, signed by not less than five affected producers. At the inception of this marketing order, nominations may be made at the issuance hearing.

(6) Election of board members.

(a) Members of the board shall be elected by secret mail ballot within the month of June under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected producers. Each affected producer shall be entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears on the list of such affected producers maintained by the director in accordance with RCW 15.65.200. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board members.

(7) Vacancies prior to election. In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) Quorum. A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) Board compensation. No member of the board shall receive any salary or other compensation, but each member may receive per diem in accordance with RCW 15.65.270 for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, together with travel expenses at the rates allowed state employees.

(10) Powers and duties of the board. The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel as the board determines necessary and proper to carry out the purpose of the order and effectuate the declared policies of the act.

(d) To pay from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the order. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To accept grants and gifts and expend the same consistent with the policies and purpose of this order.

(f) To reimburse any applicant who has deposited with the director in order to defray the costs of formulating the order.

(g) To establish a "cranberry board marketing revolving fund" and such fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, not-to-exceed one hundred dollars, shall be deposited each day or as advisable.

(h) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, paid outs, moneys, and other financial transactions made and done pursuant to this order. Such records, books, and accounts shall be audited at least every five years subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(i) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(j) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(k) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters.

(l) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(m) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(n) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon him/her by the act or the order.

(o) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(p) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least semi-annually, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act).

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the

annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by notifying the regular news media.

(c) The board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the members: Provided, That the notice of any special meeting may be waived by a waiver thereof by each member of the board.

[Statutory Authority: RCW 15.65.050. 00-10-023, § 16-565-020, filed 4/24/00, effective 5/25/00. Statutory Authority: RCW 15.65.380. 85-15-018 (Order 1864), § 16-565-020, filed 7/8/85. Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-020, filed 9/12/80, effective 10/13/80.]

WAC 16-565-030 Marketing order purpose. The order is to promote the general welfare of the state to enable producers of cranberries to help themselves develop production methods and/or programs for the control of diseases, insects, weeds, and other problems associated with cranberry production and to provide for the dissemination of information to the affected producers.

Insofar as practicable, such research shall be carried on by experiment stations of Washington State University, but if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

[Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-030, filed 9/12/80, effective 10/13/80.]

WAC 16-565-040 Assessments and collections. (1) Assessments.

(a) The annual assessment on all varieties of cranberries shall be ten cents per affected unit (100 lbs.).

(b) For the purpose of collecting assessments, the board may:

(i) Require handlers to collect producer assessments from producers whose production they handle, and remit the same to the board; or

(ii) Require the person subject to the assessment to give adequate assurance or security for its payment.

(c) Subsequent to the first sale, no affected units shall be transported, carried, shipped, sold, marketed, or otherwise handled or disposed of until every due and payable assessment herein provided for has been paid and the receipt issued. The foregoing shall include all affected units shipped or sold, both inside and outside the state.

(2) **Collections.** Any moneys collected or received by the board pursuant to the provisions of the order during or with respect to any season or year, may be refunded on a pro rata basis at the close of such season or year or at the close of such longer period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of such marketing agreement or order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding season, year, or period whenever the board finds that the same will tend to effectuate such policies and purposes.

(3) **Penalties.** Any due and payable assessment herein levied in such specified amount as may be determined by the

board pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: Chapter 15.65 RCW. 84-12-041 (Order 1828), § 16-565-040, filed 5/31/84, effective 7/1/84; 80-13-037 (Order 1713), § 16-565-040, filed 9/12/80, effective 10/13/80.]

WAC 16-565-041 Time, place, and method for payment and collection of assessments. Effective with the 1981 crop, the following procedure is established for the reporting and payment of assessments levied pursuant to RCW 15.65.410 and WAC 16-565-040:

(1) All first handlers of cranberries for resale or for processing shall withhold the amount of the assessment from their remittance to growers and transmit same to the commission. All such assessments are due and payable on or before February 28 following the harvest period.

(2) All growers selling cranberries other than to first handlers for resale, including selling direct or through brokers, and including all sales at retail, shall pay the assessment directly to the commission on or before February 28 following the harvest period.

(3) Any assessment paid after the above deadline shall be accompanied by a penalty fee of ten percent as provided for in RCW 15.65.440.

[Statutory Authority: RCW 15.65.410. 81-19-109 (Order 1, Resolution 1), § 16-565-041, filed 9/22/81.]

WAC 16-565-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this order shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person

or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-050, filed 9/12/80, effective 10/13/80.]

WAC 16-565-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent such dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether such termination is so assented to or favored whenever twenty percent by numbers and twenty percent by volume of production of the affected producers file written application with him for such termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-060, filed 9/12/80, effective 10/13/80.]

WAC 16-565-070 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Statutory Authority: Chapter 15.65 RCW. 80-13-037 (Order 1713), § 16-565-070, filed 9/12/80, effective 10/13/80.]

Chapter 16-573 WAC

CANOLA AND RAPESEED COMMISSION

WAC

16-573-010	Definitions of terms.
16-573-020	The canola and rapeseed board.
16-573-030	Marketing order purposes.
16-573-040	Assessments and collections.
16-573-041	Time—Place—Method for payment and collection of assessments.
16-573-050	Obligations of the board.
16-573-060	Termination of the order.
16-573-070	Effective time.
16-573-080	Separability.

WAC 16-573-010 Definitions of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or the director's duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington State Agriculture Enabling Act of 1961 or chapter 15.65 RCW.

(4) "Person" means any person, firm, association or corporation.

(5) "Affected producer" means any person who produces, or causes to be produced, in commercial quantities, canola or rapeseed, or both in the state of Washington.

(6) "Commercial quantity" means all the canola or rapeseed produced for market in any calendar year by any producer.

(2007 Ed.)

(7) "Affected handler" means any person who acts as principal or agent or otherwise in processing, selling, marketing or distributing canola or rapeseed not produced by the handler and includes any lending agencies for a commodity credit corporation loan to producers.

(8) "Canola and rapeseed commodity board" referred to as "board" means the canola and rapeseed commodity board formed under WAC 16-573-020.

(9) "Canola or rapeseed" or "canola and rapeseed" means *Brassica Sp.* oilseeds, produced for use as oil, meal, planting seed, condiment, or other industrial or chemurgic uses, and includes mustard.

(10) "Marketing season" or "fiscal year" means the twelve-month period beginning on June 1 of any year and ending with the last day of May, both dates being inclusive.

(11) "Producer-handler" is both a "producer" and a "handler" with respect to canola and rapeseed and is covered by this order as a producer when engaged in the business of producing canola or rapeseed or a handler when engaged in processing, selling, marketing or distributing canola or rapeseed.

(12) "Affected area" means the following counties located in the state of Washington: Adams, Asotin, Benton, Columbia, Douglas, Ferry, Franklin, Garfield, Grant, Klickitat, Lincoln, Pend Oreille, Spokane, Stevens, Walla Walla, Whitman and Yakima.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter or trade.

(14) "Affected unit" means one hundred pounds (hundredweight) of canola or rapeseed, or both.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-010, filed 2/4/98, effective 6/1/98.]

WAC 16-573-020 The canola and rapeseed board. (1) Administration. The provisions of this order and the applicable provisions of the act is administered and enforced by the board as the designee of the director.

(2) Board membership.

(a) The board shall consist of eight members. Six members must be affected producers elected under provisions of this order. One member must be an affected handler appointed by the elected producers. The director shall appoint one member of the board who is neither an affected producer nor an affected handler to represent the department and the public.

(b) For the purpose of nomination and election of producer members of the board, the affected area of the state of Washington is divided into three representative districts as follows:

(i) District I must have two board members, being positions one and two and include the counties of Adams, Benton, Douglas, Franklin, Grant, Klickitat, Lincoln, and Yakima.

(ii) District II must have two board members, being positions three and four and include the counties of Ferry, Pend Oreille, Spokane, and Stevens.

(iii) District III must have two board members being positions five and six and include the counties of Asotin, Columbia, Garfield, Walla Walla, and Whitman.

(iv) The handler appointed by the elected producers will be position seven.

(3) Board membership qualifications.

(a) The affected producer members of the board must be practical producers of canola or rapeseed in the district in and for which they are nominated and elected and must be citizens and residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in producing canola or rapeseed within the state of Washington for a period of five years and has during that time derived a substantial portion of their income therefrom and who is not engaged in business as a handler or other dealer.

(b) The affected handler member of the board must be a practical handler of canola or rapeseed and must be a citizen and resident of the state of Washington, over the age of twenty-five years and who is and has been, either individually or as an officer or an employee of a corporation, firm, partnership association or cooperative actually engaged in handling canola or rapeseed within the state of Washington for a period of five years and has during that period derived a substantial portion of their income therefrom.

(c) The qualifications of members of the board must continue during their term of office.

(4) Term of office.

(a) The term of office for members of the board is three years, and one-third of the membership as nearly as possible must be elected each year.

(b) Membership positions on the board are designated numerically; affected producers will have positions one through six, the affected handler will have position seven and the member appointed by the director will have position eight.

(c) The term of office for the initial board members must be as follows:

Positions one and three - one year, ending on May 31, 1999;

Positions two and five - two years, ending on May 31, 2000;

Positions four, six and seven - three years, ending on May 31, 2001.

(d) No elected producer member of the board can serve more than two full consecutive three-year terms.

(5) Nomination and election of board members.

(a) Each year the director shall call for nomination meetings in those districts whose board members term is about to expire. The meetings must be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every meeting must be published in newspapers of general circulation within the affected district at least ten days in advance of the date of the meeting and in addition, written notice of every meeting must be given to all affected producers within the affected district according to the list maintained by the director under RCW 15.65.200 of the act. Nonreceipt of notice by any interested person will not invalidate the proceedings at the nomination meeting. Any qualified affected producer may be nominated orally for membership on the board at the nomination meetings. Nominations may also be made within five days after the meeting by written petition filed with the director, signed by at least five affected producers. At the inception of this order, nominations may be made at the issuance hearing.

(b) If the board moves and the director approves that the nomination meeting procedure be deleted, the director shall give notice of the vacancy by mail to all affected producers. Nominating petitions for producers must be signed by at least five affected producers of the district from which the candidate will be elected. The final date for filing nominations must be at least twenty days after the notice was mailed.

(6) Election of board members.

(a) Members of the board must be elected by secret mail ballot within the month of April under the supervision of the director. Affected producer members of the board must be elected by a majority of the votes cast by the affected producers within the affected district. Each affected producer is entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot a runoff election must be held by mail in a similar manner between the two candidates for the position receiving the largest number of votes.

(c) Notice of every election for board membership must be published in a newspaper of general circulation within the affected district at least ten days in advance of the date of the election. At least ten days before every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of the affected producers maintained by the director in accordance with RCW 15.65.200 of the act. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing their qualifications. Nonreceipt of a ballot by an affected producer will not invalidate the election of any board member.

(d) The appointed handler member of the initial board shall be elected by a majority of the elected members at the first meeting.

(7) **Vacancies prior to election.** In the event of a vacancy on the board, the remaining members shall select a qualified person to fill the unexpired term.

(8) **Quorum.** A majority of the members is a quorum for the transaction of all business and to execute the duties of the board.

(9) **Board compensation.** No member of the board will receive any salary or other compensation, but each member may be compensated for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board, in accordance with RCW 43.03.230 together with travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(10) **Powers and duties of the board.** The board shall have the following powers and duties:

(a) To administer, enforce and control the provisions of this order as the designee of the director.

(b) To elect a chair and other officers as the board deems advisable.

(c) To employ and discharge at its discretion the personnel, including attorneys engaged in the private practice of law subject to the approval and supervision of the attorney general, as the board determines are necessary and proper to execute the purpose of the order and effectuate the declared policies of the act.

(d) To pay only from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration and enforcement of the

order. The expenses and costs may be paid by check, draft or voucher in the form and the manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited money with the director to defray the costs of formulating the order.

(f) To establish a "canola and rapeseed board marketing revolving fund" and to deposit the fund in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day or as often during the day as advisable.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice accurate records of all assessments, collections, receipts, deposits, withdrawals, disbursements, paid outs, moneys and other financial transactions made and done under this order. The records, books and accounts must be audited at least annually subject to procedures and methods lawfully prescribed by the state auditor. The books and accounts must be closed as of the last day of each fiscal year of the state of Washington. A copy of the audit shall be delivered within thirty days after completion to the governor, the director, the state auditor and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board may deem necessary. The premium for the bond or bonds must be paid by the board from assessments collected. The bond may not be necessary if any board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(j) To establish by resolution a headquarters which shall continue unless changed by the board. All records, books and minutes of board meetings must be kept at the headquarters.

(k) To adopt rules of a technical or administrative nature, under chapter 34.05 RCW (Administrative Procedure Act).

(l) To execute RCW 15.65.510 covering the obtaining of information necessary to effectuate the order and the act, along with the necessary authority and procedure for obtaining the information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed by the act or order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States to obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements or orders.

(o) To execute any other grant of authority or duty provided designees and not specifically set forth in this section.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least quarterly, with the time and date fixed by resolution of the board and held in accordance with chapter 42.30 RCW (Open Public Meetings Act).

(b) The board shall hold an annual meeting, at which time an annual report will be presented. The proposed budget

must be presented for discussion at the meeting. Notice of the annual meeting must be given by the board at least ten days prior to the meeting by written notice to each producer and by notifying the regular news media.

(c) The board shall establish by resolution the time, place, and manner of calling special meetings of the board with reasonable notice to the members. The notice of any special meeting may be waived by a written waiver from each member of the board.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-020, filed 2/4/98, effective 6/1/98.]

WAC 16-573-030 Marketing order purposes. The order is to promote the general welfare of the state, to enable producers of canola and rapeseed to help themselves establish orderly, fair, sound, efficient, unhampered marketing, grading and standardization of canola or rapeseed, or both. To execute the purposes of the order, the board shall provide for a program in one or more of the following areas:

(1) Establish plans and conduct programs for advertising, sales, promotion or other programs for maintaining present markets or creating new or larger markets for canola or rapeseed, or both. The programs shall be directed toward increasing the sale of canola and rapeseed without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of canola or rapeseed nor disparage the quality, value, sale or use of any other agricultural commodity.

(2) Provide for research in the production, processing or distribution of canola and rapeseed and expend the necessary funds for the purposes. Insofar as practicable, the research must be carried out by experiment stations of Washington State University, but if in the judgment of the board that the experiment stations do not have adequate facilities for a particular project or if some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the board.

(3) Provide by rules for:

(a) Establishing uniform grades and standards of quality, condition, maturity, size, weight, pack, packages and, or label for canola and rapeseed or any products thereof;

(b) Requiring producers, handlers or other persons to conform to the grades and, or standards in packing, packaging, processing, labeling, selling or otherwise commercially disposing of canola or rapeseed in offering, advertising and delivering it therefor;

(c) Providing for inspection and enforcement to ascertain and effectuate compliance;

(d) Establishing rules respecting the foregoing;

(e) Providing that the board shall execute inspection and enforcement of, and may (within the general provisions of the order) establish detailed provisions relating to, the standards and grades and the rules. Any modification not of a substantial nature, such as the modification of standards within a certain grade may be made without a hearing and shall not be considered an amendment for the purposes of the act and order.

(4) Provide for the prevention, modification or removal of trade barriers which obstruct the free flow of the affected commodity to market.

(5) Provide for marketing information and services to affected producers and for the verification of grades, standards, weights, tests and sampling of quality and quantity of canola and rapeseed purchased by handlers from affected producers.

(6) Prohibit making or publishing false or misleading advertising. The regulation may authorize uniform trade practices applicable to all similarly situated handlers and, or other persons.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-030, filed 2/4/98, effective 6/1/98.]

WAC 16-573-040 Assessments and collections. (1) Assessments.

(a) The assessment on all varieties of canola or rapeseed subject to this marketing order shall be ten cents per hundred-weight and shall be deducted by the first purchaser from the price paid to the grower. The assessment shall be remitted to the board in accordance with procedures adopted by the board.

(b) The assessments shall not be payable on any canola or rapeseed used by the affected producer on their premises for feed, seed and personal consumption.

(2) **Collections.** Excess moneys collected by the board under the order during the fiscal year may be carried over and used during the next successive fiscal year. The board may also recommend that excess moneys at the close of a fiscal year be refunded on a pro rata basis to the affected producers from whom the moneys were collected.

(3) **Penalties.** Any due and payable assessment levied in the specified amount as may be determined by the board under the act and the order is a personal debt of the person assessed or who owes the debt, and it is due and payable to the board when payment is called for by the board. If a person fails to pay the board the full amount of the assessment by the date due, the board may add to the unpaid assessment or sum an amount not exceeding ten percent of the amount owed. In the event of failure of the person or persons to pay the full amount due, the board may bring a civil action against the person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-040, filed 2/4/98, effective 6/1/98.]

WAC 16-573-041 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1998, the following procedure is established for the reporting and paying of assessments levied pursuant to RCW 15.65.410 and WAC 16-573-040:

(1) All first handlers of canola and rapeseed grown in the state of Washington, or the person acting on behalf of a first buyer, shall withhold the amount of assessment from their remittance to growers of canola or rapeseed and transmit it to the board.

(2) All assessments will be due and payable to the board within thirty days of collection. With the submission of the assessments, a report listing the name, address, volume handled or purchased and amount deducted or collected for each

producer must be submitted to the board on forms provided by or approved by the board.

(3) Any assessments paid after the above deadlines shall be accompanied by a penalty fee of ten percent in accordance with RCW 15.65.440 of the act.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-041, filed 2/4/98, effective 6/1/98.]

WAC 16-573-050 Obligations of the board. Obligations incurred by the board or employee or agent pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee or agent incurred in their official capacity under this order shall exist either against the board, officers, employees or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator or board (or employee or agent) established under this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person or employee, except for their own individual acts of dishonesty or crime. No person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-050, filed 2/4/98, effective 6/1/98.]

WAC 16-573-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by numbers and fifty-one percent by volume of production of the affected producers favor or assent to the dissolution. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether the termination is so assented to or favored whenever twenty percent by numbers or twenty percent by volume of production of the affected producers file written application with the director for the termination. The termination shall not, however, become effective until the expiration of the marketing season.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-060, filed 2/4/98, effective 6/1/98.]

WAC 16-573-070 Effective time. (1) This marketing order for canola and rapeseed shall become effective after May 31, 1998.

(2) This order shall remain in full force and effect until May 31, 2003, unless terminated before under chapter 15.65 RCW as set forth in WAC 16-536-060. If the order remains in effect until May 31, 2003, the director shall conduct a referendum election as required for the approval of an order under chapter 15.65 RCW at a time before that date to determine if the affected producers desire that the order be termi-

nated on that date or continued in full force and effect beyond the date. All the costs of conducting the election shall be defrayed from the funds of the board.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-070, filed 2/4/98, effective 6/1/98.]

WAC 16-573-080 Separability. If any provisions of the order are declared invalid, or the applicability to any person, circumstances or thing is held invalid, the validity of the remainder provisions or of the applicability to any other person, circumstances or thing shall not be affected.

[Statutory Authority: Chapter 15.65 RCW. 98-04-093, § 16-573-080, filed 2/4/98, effective 6/1/98.]

Chapter 16-575 WAC WINE COMMISSION

WAC

16-575-010	Time—Place—Method for payment and collection of assessments.
16-575-015	Rate of assessment—Method of adjustment—Notice.
16-575-020	Penalties.
16-575-030	Washington wine commission—Travel reimbursement policy.

WAC 16-575-010 Time—Place—Method for payment and collection of assessments. Effective with the growing season of 1990, the following procedure is established for the reporting and paying of the assessment of three dollars per ton of vinifera grapes harvested, levied pursuant to RCW 15.88.130:

(1) All first handlers of vinifera grapes for resale or for processing shall withhold the amount of the assessment from their remittance to growers and transmit same to the commission. All such assessments accumulated will be due and payable to the commission on or before December 31 of each year. First handlers shall submit to the commission on or before December 31 of each year, a report listing the name, address, tons of vinifera grapes handled or purchased, and amount deducted or collected for each grower on forms provided by the commission.

(2) All growers selling vinifera grapes for export, shall pay the assessment directly to the commission, on or before December 31 of each year. Such growers shall submit to the commission on or before December 31 of each year, a report listing the name and address of the exporter, tons sold, and assessment due, on forms provided by the commission.

[Statutory Authority: RCW 15.88.130. 90-23-042, § 16-575-010, filed 11/15/90, effective 12/16/90.]

WAC 16-575-015 Rate of assessment—Method of adjustment—Notice. (1) Beginning on July 1, 1999 the assessment rate for vinifera grapes grown in this state shall not be less than three dollars per ton nor more than six dollars per ton. The assessment rate for wine producers shall not be less than \$0.02 per gallon nor more than \$0.04 per gallon. The Washington wine commission may adjust the assessment amount levied on wine producers and grape growers as needed to fund necessary commission activities. Provided, that any adjustment in the assessment rate by the commission be levied in an equal and proportional manner upon both the wine producers and grape growers. In determining whether

(2007 Ed.)

to adjust the assessment amount the commission shall consider the following factors:

(a) The commission's budgetary needs, including but not limited to a qualitative and quantitative review of programs carried out in the preceding year by the commission. This review should consider whether the program met its goals, benchmarks and objectives and whether the program constitutes the best use of the wine commission's finite resources;

(b) Projected grape production;

(c) Changes in administrative costs;

(d) Changes in the industry outside the control of the wine commission.

(2) The commission shall provide grape growers and wine producers notice of changes in assessment rates in a timely and reasonable manner and in no instance shall the notice be less than thirty days from the date the assessment is due.

[Statutory Authority: Chapter 15.88 RCW and 1997 c 303. 99-12-104, § 16-575-015, filed 6/2/99, effective 7/3/99.]

WAC 16-575-020 Penalties. Any due and payable assessment herein levied in such specified amount as may be determined by the commission pursuant to the provisions of the act and the order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the commission on December 31 of each year.

In the event any person fails to pay the commission the full amount of such assessment or such other sum on or before the date due, the commission may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collection of the same.

In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the commission may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

[Statutory Authority: RCW 15.88.130. 90-23-042, § 16-575-020, filed 11/15/90, effective 12/16/90.]

WAC 16-575-030 Washington wine commission—Travel reimbursement policy. 1. Except as provided in section 9 below, all travel by commissioners and by commission staff must be approved in advance of departure.

2. Except as provided in section 9 below, each commissioner or commission employee expecting to travel on official wine commission business shall prepare a detailed, written description of the purpose of the proposed trip together with an estimate of expenses to be incurred for transportation, lodging, meals, promotional hosting, and all other costs which he/she expects to incur in connection with such travel.

3. Reimbursement for transportation expenses shall be at actual cost subject to the following limitations. Air travel must be on US carriers if available. No business or first class air travel will be approved or reimbursed. If a commissioner or commission employee uses his/her automobile for transportation, mileage shall be reimbursed at the current rate

[Title 16 WAC—p. 597]

established by the Internal Revenue Service for business travel.

4. Reimbursement for lodging expenses shall be at actual cost up to a maximum of two hundred percent of the per diem lodging rates for US federal agency employees established by the US General Services Administration.

5. Reimbursement for meals shall be at actual cost, provided that such costs are reasonable for the particular market in which the expense is incurred.

6. Travel by commissioners and by the executive director of the Washington wine commission must be approved in advance by the chairperson of the commission. Travel by other commission staff must be approved in advance by the executive director of the commission.

7. Each person traveling on official commission business shall submit a written request for reimbursement within forty-five days after returning to the office from such trip. Written receipts for each expense in excess of twenty-five dollars for which reimbursement is requested must accompany the reimbursement request. Expenses will not be reimbursed unless such a request, accompanied by receipts where required, is timely submitted.

8. Expenses which have not been approved in advance will not be reimbursed unless the employee establishes, to the satisfaction of the person who reviewed and approved the estimated expenses, that the expense was both unanticipated and reasonably incurred.

9. No advance approval of estimated travel expenses is required for attendance at a regular or special meetings of the commission or a committee thereof within the state of Washington. If attendance at such a meeting requires the commissioner/employee to travel at least one hundred miles from his/her usual place of business, he/she is entitled to be reimbursed for the actual cost of one night's lodging, subject to the limits set forth in section 4 above. He/she is also entitled to reimbursement for costs of transportation and meals as provided in sections 3 and 5.

[Statutory Authority: Chapter 15.88 RCW. 03-01-048, § 16-575-030, filed 12/10/02, effective 1/10/03.]

Chapter 16-580 WAC

WASHINGTON FARMED SALMON COMMISSION

WAC

16-580-010	Definition of terms.
16-580-020	Farmed salmon commodity board.
16-580-030	Marketing order purposes.
16-580-040	Assessments and collections.
16-580-041	Time—Place—Method for payment and collection of assessments—Production reports.
16-580-050	Obligations of the board.
16-580-060	Termination of the order.
16-580-070	Effective time.
16-580-080	Separability.

WAC 16-580-010 Definition of terms. For the purpose of this marketing order:

(1) "Director" means the director of agriculture of the state of Washington or the duly appointed representative.

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Act" means the Washington Agricultural Enabling Act of 1961 or chapter 15.65 RCW.

[Title 16 WAC—p. 598]

(4) "Person" means any person, firm, association, or corporation.

(5) "Affected producer" means any person who is an aquatic farmer as defined in chapter 15.85 RCW, registered to produce in Washington state farmed salmon (salmonids) in commercial quantities for marketing; or who contracts for the production in Washington state of farmed salmon (salmonids) in commercial quantities. This does not include marketing companies that buy, sell, or distribute salmonids produced by others.

(6) "Permitted" means all required state, local, and federal permits for operating a commercial salmon farm.

(7) "Commercial quantity" means any farmed salmon produced by an affected producer with an annual production of greater than fifty thousand pounds of dressed head-on equivalent.

(8) "Farmed salmon commodity board," hereinafter referred to as "board," means the commodity board formed under the provisions of this marketing order.

(9) "Farmed salmon" means native, nonnative, or hybrids of Pacific and Atlantic salmon, and steelhead, that are propagated, farmed, or cultivated for human food on aquatic farms under the supervision and management of a private sector aquatic farmer. Live fish, green eggs and eyed eggs are excluded.

(10) "Fiscal year" means the twelve-month period beginning with January 1 of any year and ending with December 31st, both dates being inclusive.

(11) "Affected area" means the production area.

(12) "Production area" means the state of Washington.

(13) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade.

(14) "Affected unit" means pounds of salmon farmed for retail and wholesale markets, excluding live fish, green eggs and eyed eggs.

(15) "Order" means this marketing order.

(16) "Dressed head-on equivalent" means weight based on whole, head-on gutted weight.

(17) "Processors" means companies engaged in the commercial processing of farmed salmon.

(18) "Processing" means to prepare farmed salmon or manufacture farmed salmon products by canning, cooking, smoking, filleting, heading, gutting, fermenting, dehydrating, drying, or consumer packaging.

[Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-010, filed 10/29/92, effective 12/1/92.]

WAC 16-580-020 Farmed salmon commodity board.

(1) Administration. The provisions of this marketing order and the applicable provisions of chapter 15.65 RCW shall be administered and enforced by the board as the designee of the director.

(2) Board membership. The board shall consist of five members. Four shall be affected producer representatives elected as provided in this section. The director shall appoint one additional member who is not an affected producer to represent the department and the general public.

(3) Board membership qualifications. The affected producer members of the board shall be residents of the state of Washington, over the age of twenty-five years, each of whom is and has been actually engaged in the activities of an

(2007 Ed.)

affected producer within the state of Washington for a period of one year and has, during that time, derived a substantial portion of his/her income therefrom. The qualifications of members of the board as herein set forth must continue during the terms of office.

(4) Term of office.

(a) The term of office, for members of the board shall be three years, unless the marketing order is terminated earlier. One-third of the membership as nearly as possible shall be elected each year.

(b) Membership positions on the board shall be designated numerically; affected producers shall have positions one through four and the member appointed by the director, position five.

(c) Commencing on January 1, 1996, the term of office for the board members shall be as follows:

Position one - one year - shall terminate on December 31, 1996.

Positions two and three - two years - shall terminate on December 31, 1997.

Position four - three years - shall terminate on December 31, 1998.

(5) Nomination and election of board members. Each year the director shall call for a nomination meeting. Such meeting shall be held at least thirty days in advance of the date set by the director for the election of board members. Notice of every such meeting shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such meeting; and, in addition, written notice of every such meeting shall be given to all affected producers according to the list maintained by the director pursuant to RCW 15.65.200. Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting. Any qualified affected producer may nominate a representative for membership on the board at such nomination meeting.

Nominations may also be made within five days after any such meeting by written petition filed with the director, signed by not less than five affected producers. At the inception of this marketing order, nominations may be made at the issuance hearing.

When only one nominee is nominated for any position on the board, and the director deems that said nominee satisfies the requirements of the position, then it shall be deemed that said nominee has been duly elected.

(6) Election of board members.

(a) Members of the board shall be elected by secret mail ballot within the month of October under the supervision of the director. Affected producer members of the board shall be elected by a majority of the votes cast by the affected producers. Each affected producer shall be entitled to one vote.

(b) If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) Notice of every election for board membership shall be published in a newspaper of general circulation within the production area not less than ten days in advance of the date of such election. Not less than ten days prior to every election for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose

name appears on the list of such affected producers maintained by the director in accordance with RCW 15.65.200. Any other affected producer entitled to vote may obtain a ballot by application to the director upon establishing his qualifications. Nonreceipt of a ballot by any affected producer shall not invalidate the election of any board members.

(7) Removal of board members. A board member may be removed by a vote of the board if that member fails to attend any three consecutive meetings of the board, duly noticed.

(8) Vacancies prior to election. In the event of a vacancy on the board, the board shall appoint a qualified person to fill the unexpired term.

(9) Quorum. A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(10) Board compensation. No member of the board shall receive any salary or other compensation, but each member may be compensated for each day in actual attendance at or traveling to and from meeting of the board or on special assignment for the board in accordance with RCW 43.03.230 together with travel expenses in accordance with RCW 43.03.050 and 43.03.060.

(11) Powers and duties of the board. The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director.

(b) To elect a chairman and such other officers as the board deems advisable.

(c) To employ and discharge at its discretion such personnel as the board determines necessary and proper to carry out the purpose of the order and effectuate the policies of the act.

(d) To pay from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the order. Such expenses and costs may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe.

(e) To reimburse any applicant who has deposited funds with the director in order to defray the costs of formulating the order.

(f) To establish a fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except as the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day.

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, disbursements, moneys, and other financial transactions made and done pursuant to this order. Such records, books, and accounts shall be audited subject to procedures and methods lawfully prescribed by the state auditor. Such books and accounts shall be closed as of the last day of each fiscal year. A copy of such audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and the board.

(h) To require a bond of all board members and employees of the board in a position of trust in the amount the board shall deem necessary. The premium for such bond or bonds shall be paid by the board from assessments collected. Such

bond shall not be necessary if any such board member or employee is covered by any blanket bond covering officials or employees of the state of Washington.

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year.

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters.

(k) To adopt rules and regulations of a technical or administrative nature, subject to the provisions of chapter 34.05 RCW (Administrative Procedure Act).

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary of effectuate the provisions of the order and the act, along with the necessary authority and procedure for obtaining such information.

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon the person by the act or the order.

(n) To confer with and cooperate with the legally constituted authorities of other states and of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders.

(o) To authorize the members of a commodity board, or their agents or designees, to participate in federal or state hearings or other proceedings concerning regulation of the manufacture, distribution, sale, or use of any pesticide as defined by RCW 15.38.030(1) or any agricultural chemical which is of use or potential use in producing the affected commodity, and may authorize the expenditure of commission funds for this purpose.

(p) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section.

(q) To sue or be sued.

(12) Procedures for board.

(a) The board shall hold regular meetings, at least semi-annually, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meeting Act).

(b) The board shall hold an annual membership meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by notifying the regular news media.

(c) The board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the members.

[Statutory Authority: RCW 15.65.050, 97-21-110, § 16-580-020, filed 10/21/97, effective 11/21/97. Statutory Authority: RCW 15.65.050 and 15.65.280, 95-22-035 (Order 5085), § 16-580-020, filed 10/25/95, effective 11/25/95. Statutory Authority: Chapter 15.65 RCW, 92-22-062, § 16-580-020, filed 10/29/92, effective 12/1/92.]

WAC 16-580-030 Marketing order purposes. The marketing order is to promote the general welfare of the state, to enable producers of farmed salmon products to help themselves establish orderly, fair, sound, efficient, unhampered

marketing. To carry out the purposes of the marketing order, the board may provide for programs in the following areas:

(1) Establish plans and conduct programs for advertising, labeling, sales, promotion, and consumer education, and/or other programs for maintaining present markets and/or creating new or larger markets for farmed salmon products. Such programs shall be directed toward increasing the sale of farmed salmon products without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims in behalf of farmed salmon products nor disparage the quality, value, sale, or use of any other agricultural commodity.

(2) Provide for research in the production, processing, and/or marketing of farmed salmon products and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried on by experiment stations of Washington State University or the University of Washington, but if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefore, the project may be carried out by other research agencies selected by the board.

(3) Provide for marketing information and services to affected producers.

(4) Investigate and take necessary action to prevent unfair trade practices and to correct where possible, trade practices which hinder marketing of Washington produced farmed salmon products.

(5) Allocation of assessments collected from affected producers shall be made by the board using the following formula:

(a) All operating costs will be borne by all affected producers.

(b) All programs, plans, research, and marketing deemed by the board to be in the collective best interest of all affected producers, regardless of crop, will be borne by all affected producers.

[Statutory Authority: Chapter 15.65 RCW, 92-22-062, § 16-580-030, filed 10/29/92, effective 12/1/92.]

WAC 16-580-040 Assessments and collections. (1)

The assessment on all farmed salmon products shall be one tenth of one cent (\$.001) per pound (dressed head-on equivalent) produced collectively by affected producers.

(2) The board shall determine the assessment rate each month on the basis of the total production reported, year to date, and bill the producer for his/her production for that month at that rate.

(3) For the purpose of collecting assessments, the board may require the person subject to the assessment to give adequate assurance or security for its payment.

(4) For the purpose of assuring compliance with the recordkeeping requirements and verifying reports filed by producers, the director and the board through its duly authorized employees, shall have access to and the authority to audit such records.

(5) All reports and records furnished or submitted by producers or to, or obtained by the employees of, the board which contain data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular producer or processor from

whom received, shall be treated as confidential, and the reports and all information obtained from records shall not be disclosed to board members and shall at all times be kept in the custody and under the control of one or more employees of the board who shall not disclose such information to any person other than the director, or his authorized agents. Compilations of general reports from data and information submitted by producers is authorized subject to the prohibition of disclosure of individual producers' identity or operation.

(6) Any moneys collected or received by the board pursuant to the provisions of the marketing order during or with respect to any year, may be refunded on a pro rata basis at the close of such year or at the close of such period as the board determines to be reasonably adapted to effectuate the declared policies of this act and the purposes of such marketing order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding year.

(7) Any due and payable assessment herein levied in such specified amount as may be determined by the board pursuant to the provisions of the act and the marketing order, shall constitute a personal debt of every person so assessed or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of such assessment or such other sum on or before the date due, the board may, and is hereby authorized to, add to such unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the same. In the event of failure of such person or persons to pay any such due and payable assessment or other such sum, the board may bring a civil action against such person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent thereon, and such action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

(8) Assessments may, with the concurrence of the affected producer, be collected prospectively.

[Statutory Authority: RCW 15.65.050. 97-21-110, § 16-580-040, filed 10/21/97, effective 11/21/97. Statutory Authority: RCW 15.65.280. 94-08-090 (Order 5035), § 16-580-040, filed 4/5/94, effective 5/6/94. Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-040, filed 10/29/92, effective 12/1/92.]

WAC 16-580-041 Time—Place—Method for payment and collection of assessments—Production reports. The following procedure is established for the reporting and paying of assessments:

(1) The board shall collect from affected producers a per pound assessment, in accordance with WAC 16-580-040, of dressed head-on weight equivalent on all farmed salmon produced.

(2) In the case where more than one "affected producer" is involved, the person responsible for the cost of processing shall be assessed.

(3) A production report for Washington farmed salmon shall be submitted by processors to the board within seven days of the last day of each production month.

(4) The board shall submit an assessment invoice to the affected producers within fourteen days of the last day of each production month.

(2007 Ed.)

(5) Assessments shall be submitted to the board by the affected producer within thirty days of the last day of each production month.

(6) Production reports shall be reviewed by the board each quarter for consistency with Washington state department of fisheries production reports.

[Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-041, filed 10/29/92, effective 12/1/92.]

WAC 16-580-050 Obligations of the board. Obligations incurred by the board or employee or agent thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under the order were a corporation. No liability for the debts or actions of the board, employee, or agent incurred in their official capacity under this order shall exist either against the board, officers, employees, and/or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-050, filed 10/29/92, effective 12/1/92.]

WAC 16-580-060 Termination of the order. The order shall be terminated if the director finds that fifty-one percent by number and fifty-one percent by volume of production of the affected producers assent to such action. The director may ascertain without compliance with RCW 15.65.050 through 15.65.130 of the act whether termination is assented to whenever twenty percent by number or twenty percent by volume of production of the affected producers file written applications with the director for termination. The termination shall become effective at the end of the fiscal year.

[Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-060, filed 10/29/92, effective 12/1/92.]

WAC 16-580-070 Effective time. This marketing order for farmed salmon products shall become effective on or after October 1, 1992.

[Statutory Authority: RCW 15.65.050 and 15.65.280. 95-22-035 (Order 5085), § 16-580-070, filed 10/25/95, effective 11/25/95. Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-070, filed 10/29/92, effective 12/1/92.]

WAC 16-580-080 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any

person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to any other person, circumstances, or thing shall not be affected thereby.

[Statutory Authority: Chapter 15.65 RCW. 92-22-062, § 16-580-080, filed 10/29/92, effective 12/1/92.]

------------	---

WAC 16-585-005 Marketing order for Puget Sound gillnet salmon—Policy statement. (1) The marketing of Puget Sound gillnet salmon within this state is in the public interest. It is vital to the continued economic well-being of the citizens of this state and their general welfare that Puget Sound gillnet salmon be properly promoted by:

(a) Enabling producers of Puget Sound gillnet salmon to help themselves in establishing orderly, fair, sound, efficient, and unhampered marketing, grading, and standardizing of the Puget Sound gillnet salmon they produce; and

(b) Working towards stabilizing the agricultural industry by increasing consumption of Puget Sound gillnet salmon within the state, the nation, and internationally.

(2) That it is in the overriding public interest that support for the Puget Sound gillnet salmon industry be clearly expressed, that adequate protection be given to the industry and its activities and operations, and that Puget Sound gillnet salmon be promoted individually and as part of a comprehensive agricultural industry to:

(a) Enhance the reputation and image of Puget Sound gillnet salmon.

(b) Increase the sale and use of Puget Sound gillnet salmon in local, domestic, and foreign markets.

(c) Protect the public by educating the public in reference to the quality, care, and methods used in the production of Puget Sound gillnet salmon.

(d) Increase the knowledge of the health-giving qualities and dietetic value of Puget Sound gillnet salmon and products.

(e) Support and engage in programs or activities that benefit the production, harvesting, handling, processing,

marketing, and uses of Puget Sound gillnet salmon produced in Washington state.

(3) The director is authorized to implement, administer, and enforce chapter 15.65 RCW through the adoption of this marketing order.

(4) The Washington state Puget Sound salmon commodity board exists primarily for the benefit of the people of the state of Washington and its economy, and with oversight by the director, the board is authorized to speak on behalf of Washington state government with regard to Puget Sound gillnet salmon under the provisions of this marketing order.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-005, filed 6/3/05, effective 7/4/05.]

WAC 16-585-006 Marketing order purposes. This marketing order is to promote the general welfare of the state and for the purposes of maintaining existing markets or creating new or larger local, domestic, and foreign markets; increasing production efficiency; ensuring a fair regulatory environment; or increasing per capita consumption of Puget Sound gillnet salmon produced in Washington state. The Washington state Puget Sound salmon commodity board is designated by the director to conduct the following programs in accordance with chapter 15.65 RCW:

(1) Establish plans and conduct programs for marketing, labeling, sales, promotion, public relations, and consumer education, or other programs for maintaining present markets or creating new or larger markets for commercially harvested Puget Sound gillnet salmon and salmon products. Such programs shall be directed toward increasing the sale, improving the markets, or promoting Puget Sound gillnet salmon and salmon products without reference to any particular brand or trade name and shall neither make use of false or unwarranted claims on behalf of commercial Puget Sound gillnet salmon products nor disparage the quality, value, sale, or use of any other agricultural commodity. The board may also engage in cooperative efforts in the domestic or foreign marketing of Puget Sound gillnet salmon.

(2) Provide for research in the production, transportation, handling, management, harvest, harvest management, harvest selectivity, harvest regulation or proposed regulation, protection against harvest impact on habitat or other species, processing or marketing of commercial Puget Sound gillnet salmon products and expend the necessary funds for such purposes. Insofar as practicable, such research shall be carried on by experiment stations of Washington State University or the University of Washington, but if in the judgment of the board, said experiment stations do not have the facilities for a particular project or if some other research agency has better facilities therefore, the project may be carried out by other research agencies selected by the board.

(3) Conduct programs for the purpose of providing information and education including:

(a) Marketing information and services for affected producers of Puget Sound gillnet salmon for the verification of grades, standards, weights, tests, and sampling of quality and quantity of Puget Sound gillnet salmon purchased by handlers from affected producers.

(b) Information and services enabling affected producers to meet their resource conservation objectives.

(c) Puget Sound gillnet salmon-related education and training.

(4) Investigate and take necessary action to prevent unfair trade practices and to correct where possible, trade practices which hinder marketing of Puget Sound gillnet salmon products.

(5) Allocation of assessments collected from affected producers shall be made by the board using the following formula:

(a) All operating costs will be borne by all affected producers.

(b) All programs, plans, research, and marketing deemed by the board to be in the collective best interest of all affected producers, regardless of Puget Sound gillnet salmon or salmon product produced, will be borne by all affected producers.

(6) Subject to the provisions of the act, provide information and communicate on matters pertaining to the production, processing, transportation, marketing, or uses of Puget Sound gillnet salmon produced in Washington state to any elected official or officer or employee of any agency.

(7) The director shall approve any plan, programs, and projects concerning:

(a) The establishment, issuance, effectuation, and administration of programs authorized under this section for marketing and promotion of Puget Sound gillnet salmon.

(b) The establishment and effectuation of market research projects, market development projects, or both to the end that marketing and utilization of the affected commodity may be encouraged, expanded, or made more efficient.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-006, filed 6/3/05, effective 7/4/05.]

WAC 16-585-010 Definitions. Definitions for terms used in this chapter are also found in chapter 15.65 RCW, Washington State Agricultural Commodity Boards Act. For the purpose of this marketing order, the following additional definitions shall apply:

(1) "Act" means the Washington Agricultural Commodity Boards Act or chapter 15.65 RCW.

(2) "Affected area" means Western Washington.

(3) "Affected commodity" means commercial quantities of Puget Sound gillnet salmon.

(4) "Affected producer" means any person who is a commercial harvester of commercial quantities of Puget Sound gillnet salmon.

(5) "Commercial quantity" means any Puget Sound gillnet salmon produced for market.

(6) "Department" means the department of agriculture of the state of Washington.

(7) "Director" means the director of agriculture of the state of Washington or his/her duly appointed representative.

(8) "Fiscal year" means the twelve-month period beginning with July 1 of any year and ending with June 30th, both dates being inclusive.

(9) "Order" means this marketing order.

(10) "Person" means any individual, firm, corporation, limited liability company, trust, association, partnership, society or any other organization of individuals, or any unit or agency of local or state government.

(2007 Ed.)

(11) "Production area" means the waters of the state of Washington in and adjacent to the areas of Puget Sound, the San Juan Islands, Georgia Strait, and the Strait of Juan de Fuca east of Cape Flattery, or other lawful areas in which fishing is permitted pursuant to a Puget Sound commercial salmon gillnet license.

(12) "Puget Sound gillnet salmon" means salmon and salmon products which have been harvested by affected producers in the production area pursuant to Puget Sound commercial salmon gillnet license or taken with gear lawfully permitted for use pursuant to Puget Sound commercial salmon gillnet license. "Puget Sound gillnet salmon" does not include privately farmed or cultivated salmon or salmon products nor salmon harvested pursuant to license issued by the various treaty Indian tribes. Nothing herein shall prevent the board from engaging in cooperative marketing of tribal and nontribal salmon.

(13) "Puget Sound salmon commodity board" hereinafter referred to as "board" or "commission" means the commodity board formed under the provisions of this marketing order.

(14) "Purchase" means obtain through sale, exchange, barter, or trade.

(15) "Sell" includes offer for sale, expose for sale, have in possession for sale, exchange, barter, or trade, whether directly or through agents.

(16) "Handler" or "processor" shall mean those who purchase, process for market, or otherwise obtain from affected producers the affected commodity for further handling or sale in the course of commerce. "Handler" and "processor" includes those who commercially harvest and then obtain from themselves, process, or further handle for subsequent direct sale to the public the affected commodity after having themselves produced that commodity as affected producers. "Handler" does not include a common carrier used to transport an agricultural commodity. "To handle" means to act as a handler.

(17) "Process" means to prepare the affected commodity or product therefrom by filleting, heading, gutting, canning, cooking, smoking, fermenting, dehydrating, drying or packaging.

(18) "Affected unit" means one pound landed weight of salmon.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-010, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.060 and 15.65.180. 02-14-091, § 16-585-010, filed 7/1/02, effective 8/1/02. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-010, filed 7/19/95, effective 8/19/95.]

WAC 16-585-020 Puget Sound salmon commodity board. (1) Administration. The provisions of this marketing order and the applicable provisions of the act shall be administered and enforced by the board as the designee of the director.

(2) Board membership. The board shall consist of seven members, six of whom shall be affected producers appointed or elected as provided in this section. The director shall appoint one additional member to the board who is not an affected producer to represent the director. The position representing the director shall be a voting member.

[Title 16 WAC—p. 603]

(a) Director-appointed affected producer positions on the board shall be designated as position one, position two, and position three.

(b) Elected affected producer positions on the board shall be designated as position four, position five, and position six.

(c) The position representing the director who is not an affected producer shall be designated as position seven.

(3) Qualifications for board membership. The producer members of the board must be practical producers of the affected commodity and must be a citizen and resident of this state, over the age of eighteen years. Each affected producer board member must be and have been actually engaged in producing such commodity within the state of Washington for a period of five years and has during that period derived a substantial portion of his/her income therefrom and who is not primarily engaged in business, directly or indirectly, as a handler or other dealer. The qualification of members of the board as herein set forth must continue during their terms of office.

(4) Term of office.

(a) The term of office for members of the board shall be three years. One-third of the membership as nearly as possible shall be appointed or elected each year.

(b) The term of office for the initial board members shall be as follows:

Positions one and four shall be for one year from the date of first election or until the first subsequent annual election is held.

Positions two and five shall be for two years from the date of first election or until the second subsequent annual election is held.

Positions three and six shall be for three years from the date of first election or until the third subsequent annual election is held.

(c) To accomplish the transition to a commodity board structure where the director appoints a majority of the board members, the names of the currently elected board members in positions one, two, and three shall be forwarded to the director for appointment within thirty days of the effective date of this amended marketing order.

(5) Nominations of elected or director-appointed board members. Each year the director shall call a nomination meeting for elected or director-appointed affected producer board members. The meeting(s) shall be held at least thirty days in advance of the date set by the director for the election or advisory vote of board members.

(a) Notice of every nomination meeting shall be published in a newspaper of general circulation within the affected area defined in this marketing order not less than ten days in advance of the date of the meeting; and, in addition, written notice of every meeting shall be given to all affected producers according to the list maintained by the board pursuant to RCW 15.65.295.

(b) Nonreceipt of notice by any interested person shall not invalidate the proceedings at such nomination meeting.

(c) Any qualified affected producer may be nominated orally for membership on the board at a nomination meeting. Nominations may also be made within five days after the meeting by written petition filed with the director signed by not less than five affected producers.

(d) If the board moves and the director approves that the nomination meeting procedure be deleted, the director shall give notice of the open commission position(s) by mail to all affected producers. The notice shall call for nominations in accordance with this marketing order and shall give the final date for filing nominations which shall not be less than twenty days after the notice was mailed.

(e) When only one nominee is nominated by the affected producers for any position, RCW 15.65.250 shall apply.

(6) Election or advisory vote of board members.

(a) An election or advisory vote shall be conducted by secret ballot under the supervision of the director. Each affected producer shall be entitled to one vote.

(b) Elected affected producer members of the board shall be elected during the month of February of each year by a majority of the votes cast by the affected producers. If a nominee does not receive a majority of the votes on the first ballot, a run-off election shall be held by mail in a similar manner between the two candidates for such position receiving the largest number of votes.

(c) An advisory vote shall be conducted for affected producer board members appointed by the director under the provisions of RCW 15.65.243 during the month of January of each year. The names of the two candidates receiving the most votes in the advisory vote shall be forwarded to the director for potential appointment to the board. In the event there are only two candidates nominated for a board position, an advisory vote may not be held and the candidates' names shall be forwarded to the director for potential appointment.

(d) Notice of every election or advisory vote for board membership shall be published in a newspaper of general circulation within the affected area defined in this marketing order not less than ten days in advance of the date of the election or advisory vote. Not less than ten days prior to every election or advisory vote for board membership, the director shall mail a ballot of the candidates to each affected producer entitled to vote whose name appears upon the list of such affected producers maintained by the board pursuant to RCW 15.65.295. Any other producer entitled to vote may obtain a ballot by application to the director upon establishing his/her qualifications.

(e) Nonreceipt of a ballot by any person entitled to vote shall not invalidate the election or advisory vote of a board member.

(7) Vacancies.

(a) In the event of a vacancy on the board in an elected position, the board shall appoint a qualified person to fill the unexpired term. The appointment shall be made at the board's first or second meeting after the position becomes vacant.

(b) In the event of a vacancy in a director-appointed position, the position shall be filled as specified in RCW 15.65.270.

(8) Quorum. A majority of the members shall constitute a quorum for the transaction of all business and the carrying out of all duties of the board.

(9) Board compensation. No member of the board shall receive any salary or other compensation, but each member may be compensated for each day in actual attendance at or traveling to and from meetings of the board or on special assignment for the board in accordance with RCW 43.03.230 together with travel expenses in accordance with RCW

43.03.050 and 43.03.060. The board may adopt, by resolution, provisions for reimbursement of actual travel expenses incurred by members of the board in carrying out the provisions of this marketing order pursuant to RCW 15.65.270. A board member may, in the discretion of the board, serve and be compensated as an employee of the commission.

(10) Powers and duties of the board. The board shall have the following powers and duties:

(a) To administer, enforce, and control the provisions of this order as the designee of the director;

(b) To elect a chairperson and other officers as it deems advisable;

(c) To employ and discharge at its discretion such assistance and personnel as the board determines necessary and proper to carry out the purpose of the order and to effectuate the policies of the act;

(d) To pay from moneys collected as assessments or advances thereon the costs arising in connection with the formulation, issuance, administration, and enforcement of the order and rules adopted under the order. Expenses may be paid by check, draft, or voucher in such form and in such manner and upon the signature of the person as the board may prescribe;

(e) To reimburse any applicant who has deposited funds with the director in order to defray the costs of formulating the order;

(f) To establish a fund to be deposited in a bank or banks or financial institution or institutions, approved for the deposit of state funds, in which all money received by the board, except the amount of petty cash for each day's needs, not to exceed one hundred dollars, shall be deposited each day;

(g) To keep or cause to be kept in accordance with accepted standards of good accounting practice, accurate records of all assessments, disbursements, moneys, and other financial transactions made and done pursuant to this order. Records, books, and accounts shall be audited as provided in the act subject to procedures and methods lawfully prescribed by the state auditor. Books and accounts shall be closed as of the last day of each fiscal year. A copy of the audit shall be delivered within thirty days after the completion thereof to the governor, the director, the state auditor, and each member of the board;

(h) To require bond of board members and employees of the board in positions of trust in an amount the board deems necessary. Premiums for a bond or bonds shall be paid by the board from assessments collected. A bond shall not be necessary if any board member or employee is covered by any blanket bond covering officials or employees of the state of Washington;

(i) To prepare a budget or budgets covering anticipated income and expenses to be incurred in carrying out the provisions of the order during each fiscal year. At least sixty days prior to the beginning of its fiscal year, the board shall prepare and submit to the director for approval its research plan, its commodity-related education and training plan, and its budget;

(j) To establish by resolution, a headquarters which shall continue as such unless and until so changed by the board. All records, books, and minutes of board meetings shall be kept at such headquarters;

(k) To recommend to the director, administrative rules, orders and amendments thereto for the exercise of the director's power in connection with this marketing order;

(l) To carry out the provisions of RCW 15.65.510 covering the obtaining of information necessary to effectuate the provisions of this marketing order and the act, along with the necessary authority and procedure for obtaining such information;

(m) To bring actions or proceedings upon joining the director as a party for specific performance, restraint, injunction, or mandatory injunction against any person who violates or refuses to perform the obligations or duties imposed upon the person by the act or this order;

(n) To confer with and cooperate with the legally constituted authorities of other states of the United States for the purpose of obtaining uniformity in the administration of federal and state marketing regulations, licenses, agreements, or orders;

(o) To carry out any other grant of authority or duty provided designees and not specifically set forth in this section;

(p) To sue or be sued;

(q) To borrow money and incur indebtedness;

(r) To work cooperatively with other local, state, and federal agencies; universities; and national organizations for the purposes provided in this order;

(s) To enter into contracts or interagency agreements with any private or public agency, whether federal, state, or local. Personal service contracts must comply with chapter 39.29 RCW;

(t) To accept and expend or retain any gifts, bequests, contributions, or grants from private persons or private and public agencies;

(u) To enter into contracts or agreements for research in the production, processing, transportation, marketing, use, or distribution of Puget Sound gillnet salmon;

(v) To retain in emergent situations the services of private legal counsel to conduct legal actions on behalf of the commission. The retention of a private attorney is subject to review by the office of the attorney general;

(w) To engage in appropriate fund-raising activities for the purpose of supporting activities authorized by this marketing order;

(x) To participate in international, federal, state, and local hearings, meetings, and other proceedings relating to the production, manufacture, regulation, transportation, distribution, sale, or use of Puget Sound gillnet salmon including activities authorized under RCW 42.17.190, including the reporting of those activities to the public disclosure commission;

(y) To maintain a list of the names and addresses of affected producers that may be compiled from information used to collect assessments under the provisions of this marketing order and data on the value of each affected producer's production for a minimum three-year period pursuant to RCW 15.65.280;

(z) To maintain a list of the names and addresses of persons who handle Puget Sound gillnet salmon within the affected area and data on the amount and value of the Puget Sound gillnet salmon handled for a minimum three-year period by each person pursuant to RCW 15.65.280;

(aa) To maintain a list of names and addresses of all affected persons who produce Puget Sound gillnet salmon and the amount, by unit, of Puget Sound gillnet salmon produced during the past three years pursuant to RCW 15.65-.295;

(bb) To maintain a list of all persons who handle Puget Sound gillnet salmon and the amount of Puget Sound gillnet salmon handled by each person during the past three years pursuant to RCW 15.65.295;

(cc) To establish a foundation using commission funds as grant money for the purposes established in this marketing order pursuant to RCW 15.65.043.

(11) Procedures for board.

(a) The board shall hold regular meetings, at least semi-annually, and such meetings shall be held in accordance with chapter 42.30 RCW (Open Public Meetings Act). Notice of the time and place of regular meetings shall be published on or before January of each year in the *Washington State Register*. Notice of any change to the meeting schedule shall be published in the state register at least twenty days prior to the rescheduled meeting date.

(b) The board shall hold an annual membership meeting, at which time an annual report will be presented. The proposed budget shall be presented for discussion at the meeting. Notice of the annual meeting shall be given by the board at least ten days prior to the meeting by written notice to each producer and by notifying the regular news media.

(c) The board shall establish by resolution, the time, place, and manner of calling special meetings of the board with reasonable notice to the board members and affected producers. Notice for special meetings shall be in compliance with chapter 42.30 RCW.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-020, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.060 and 15.65.180. 02-14-091, § 16-585-020, filed 7/1/02, effective 8/1/02. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-020, filed 7/19/95, effective 8/19/95.]

WAC 16-585-040 Assessments and collections. (1)

The assessment on the affected commodity harvested in the production area shall be as follows: Two percent of the landed value of Puget Sound gillnet salmon shall be assessed to the producer.

(2) For the purpose of collecting assessments, the board may require the person subject to the assessment or the person responsible for collection of producer assessments to give adequate assurance or security for its collection or payment.

(3) All persons subject to the provisions of this marketing order shall make and render reports and furnish information to the director or the board as required under the act or this marketing order. Any financial and commercial information and records obtained by the director or commission are exempt from public disclosure under the provisions of RCW 15.65.203 and 42.17.31907, but shall not be disclosed to any other person save to a person with like right to obtain the same or any attorney employed by the director or the commission to give legal advice thereon or by court order.

(4) For the purpose of assuring and verifying compliance with the recordkeeping and reporting requirements of this order and the act, the director and the board through its duly

authorized employees, shall have access to and the authority to audit and examine such reports or information.

(5) Any moneys collected or received by the board pursuant to the provisions of this marketing order during or with respect to any year, may be refunded on a pro rata basis at the close of each year or at the close of a period as the board determines to be reasonably adapted to effectuate the declared policies of the act and the purposes of this marketing order, to all persons from whom such moneys were collected or received or may be carried over into and used with respect to the next succeeding year.

(6) Any due and payable assessment herein levied in a specified amount as provided under the act and this marketing order and any assessment which is required hereunder to be collected, shall constitute a personal debt of every person so assessed, responsible for collection, or who otherwise owes the same, and the same shall be due and payable to the board when payment is called for by it. In the event any person fails to pay the board the full amount of assessment or other sum on or before the date due, the board may, and is hereby authorized to, add to the unpaid assessment or sum an amount not exceeding ten percent of the same to defray the cost of enforcing the collecting of the unpaid assessment. In the event of failure of a person or persons to pay any due and payable assessment or other sum, the board may bring a civil action against a person or persons in a state court of competent jurisdiction for the collection thereof, together with the above specified ten percent plus the costs and expenses of suit and a reasonable attorney's fee therein, and the action shall be tried and judgment rendered as in any other cause of action for debt due and payable.

(7) Assessments may, with the consent of the affected producer, be collected prospectively.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-040, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-040, filed 7/19/95, effective 8/19/95.]

WAC 16-585-050 Time—Place—Method for payment and collection of assessments—Landing reports.

The following procedure is established for the reporting and paying of assessments:

(1) At the time of Puget Sound gillnet salmon landing, first sale or completion of a Washington department of fish and wildlife landing receipt (fish ticket), the producer shall pay and the handler shall collect and deduct from the price paid to the producer the producer's two percent assessment on the landed value of the Puget Sound gillnet salmon. This collection and deduction shall be accurately reported on the fish ticket.

(2) No later than thirty days from the last day of any month in which any Puget Sound gillnet salmon has been obtained by a handler, each such handler shall:

(a) Remit to the board all sums required to be collected and deducted from affected producers upon their landings during that month for a total of two percent of the landed value of Puget Sound gillnet salmon obtained by that handler during that month.

(b) Provide to the board with such remittance a report indicating the full name, address, and commercial salmon fishing license number of each affected producer from whom

the said handler has purchased or obtained affected commodity during the said month and for each such affected producer, indicate the landed value of the Puget Sound gillnet salmon purchased or obtained, and the amount of the producer's two percent assessment which has been collected from that producer.

(3) The board may require cold storage facilities storing Puget Sound gillnet salmon to file with the board information and reports regarding the amount of the affected commodity in storage, the date of receipt, and the name, address, and commercial salmon fishing license number of each such owner, and may require that such Puget Sound gillnet salmon not be shipped from a cold storage facility until the facility has been notified by the commission that the commodity owner has paid the commission for any assessments imposed by this marketing order.

(4) All assessments due from affected producers under this order shall be payable at the time of completion of a Washington department of fish and wildlife landing receipt (fish ticket) and shall be paid by the producer and collected by the handler at that time and shall be remitted to the board as provided in this order.

(5) Producer-handlers shall pay the producer assessments and shall fulfill all the responsibilities of handlers and producers under this order including the collection, record-keeping, reporting, and remittance of assessments.

(6) When, in the judgment of the board, a particular handler or producer-handler has demonstrated its unreliability to make the collection or remittance of the producer assessments called for in this order, the board may require that said handler or producer-handler not transport, carry, ship, sell, market or otherwise handle or dispose of any of the affected commodity until every due and payable assessment provided for under this order has been paid to the board and the receipt issued.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-050, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-050, filed 7/19/95, effective 8/19/95.]

WAC 16-585-060 Obligations of the board. Obligations incurred by the board or employees or agents thereof pertaining to their performance or nonperformance or misperformance of any matters or things authorized, required, or permitted them by the act or this order, and any other liabilities or claims against them or any of them shall be enforced in the same manner as if the whole organization under this order were a corporation. No liability for the debts or actions of the board, employees, or agents incurred in their official capacity under this order shall exist either against the board, officers, employees, or agents in their individual capacity, nor against the state of Washington or any subdivision or instrumentality thereof nor against any other organization, administrator, or board (or employee or agent thereof) established pursuant to this act or the assets thereof. The board, and its agents and employees, shall not be held responsible individually in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as principal, agent, person, or employee, except for their own individual acts of dishonesty or crime. No such person or employee shall be held responsible individually for

any act or omission of any other board, member of the board, or other person. The liability of the members of the board shall be several and not joint and no member shall be liable for the default of any other member.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-060, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-060, filed 7/19/95, effective 8/19/95.]

WAC 16-585-070 Termination of this order. Termination shall be accomplished pursuant to RCW 15.65.183 through 15.65.193.

[Statutory Authority: RCW 15.65.047 and chapter 34.05 RCW. 05-13-008, § 16-585-070, filed 6/3/05, effective 7/4/05. Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-070, filed 7/19/95, effective 8/19/95.]

WAC 16-585-080 Effective time. This marketing order for Puget Sound salmon shall become effective on or after April 1, 1995, and shall remain in full force and effect until terminated under the provisions of the act.

[Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-080, filed 7/19/95, effective 8/19/95.]

WAC 16-585-090 Separability. If any provisions hereof are declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder hereof or of the applicability thereof to other person, circumstances, or thing shall not be affected thereby.

[Statutory Authority: RCW 15.65.050 and chapter 16.65 WAC [15.65 RCW]. 95-15-102, § 16-585-090, filed 7/19/95, effective 8/19/95.]

WAC 16-602-025 Apiarist registration fees, schedule. (1) Beekeepers in the following two categories shall pay a fee for owning or operating colonies of bees in Washington:

(a) Resident beekeepers of Washington;
 (b) Nonresident beekeepers operating colonies in Washington for the purpose of producing honey or other products, or their use or rental for pollination of agricultural crops.

(2) Both categories of beekeepers shall pay a fee based upon the number of colonies they own or will operate during the calendar year in Washington. The fee schedule shall be as follows:

1	-	5 colonies	\$	5.00
6	-	25 colonies	\$	10.00
26	-	100 colonies	\$	25.00
101	-	300 colonies	\$	50.00
301	-	500 colonies	\$	100.00
501	-	1,000 colonies	\$	200.00
1,001	-	or more colonies	\$	300.00

(3) The registration fee shall be paid, on or before April first, on the number of colonies of bees:

(a) Owned by resident beekeepers;
 (b) Operated and or rented for pollination by nonresident beekeepers during the calendar year in Washington.

[Statutory Authority: Chapter 15.60 RCW. 01-11-146, § 16-602-025, filed 5/23/01, effective 6/30/01; 94-05-049 (Order 5030), § 16-602-025, filed 2/10/94, effective 3/13/94.]

[Title 16 WAC—p. 608]

WAC 16-602-026 Broker registration fees. In accordance with RCW 15.60.021, there is assessed an annual broker registration fee of \$100 due and payable to the department on April 1 of each year. If a person registers as both a broker and an apiarist, only one of the registration fees shall be owed. The lesser of the two registration fees shall be waived.

[Statutory Authority: Chapter 15.60 RCW. 01-11-146, § 16-602-026, filed 5/23/01, effective 6/30/01. Statutory Authority: RCW 15.60.025 and 15.60.170(2). 97-24-066, § 16-602-026, filed 12/2/97, effective 1/2/98.]

WAC 16-602-050 Types of offenses and level of civil penalty assessment. (1) Violations of the Apiaries Act include, but are not limited to:

(a) Failure to register as a resident or nonresident apiarist;
 (b) Failure to register as a broker;
 (c) Failure to remit apiary registration fees;
 (d) Failure to remit broker registration fees.
 (2) The level of civil penalty assessed for each individual violation shall be as follows:

First violation \$100
 Second violation \$500
 Third and each subsequent violation \$1,000

[Statutory Authority: Chapter 15.60 RCW. 01-11-146, § 16-602-050, filed 5/23/01, effective 6/30/01. Statutory Authority: RCW 15.60.025 and 15.60.170(2). 97-24-066, § 16-602-050, filed 12/2/97, effective 1/2/98.]

Chapter 16-603 WAC AQUACULTURE IDENTIFICATION REQUIREMENTS

WAC

16-603-010 Aquaculture identification requirements.

WAC 16-603-010 Aquaculture identification requirements. (1) Any sale or movement of private sector cultured aquatic products made by an aquatic farmer, other than retail sale for personal use by the purchaser or rendering or unmarketable solid waste disposal, shall:

(a) Be accompanied by a shipping document showing:
 (i) The aquatic farmer's name;
 (ii) The aquatic farm mailing address;
 (iii) The aquatic farm registration number required by RCW 75.58.040;
 (iv) The date of transfer by the aquatic farmer;
 (v) The quantity of each species; and
 (b) Be labeled, showing the name of the aquatic farmer and the farmer's aquatic farm registration number on each container of cultured aquatic products.

(c) The shipping documents and labeling required under this section shall be retained and maintained by the purchaser while the private sector cultured aquatic products are under the purchaser's possession or control.

(2) The provisions of this section do not apply to shellfish if the shellfish comply with rules enacted under the labeling requirements for the Sanitary Control of Shellfish Act (WAC 246-282-080), or to live finfish or their reproductive tissues, if the finfish comply with rules enacted under the Washington department of fisheries transfer procedure set forth in chapter 220-77 WAC.

(2007 Ed.)

WAC 16-604-009 Definitions. For the purposes of this order:

(1) "Market" means public livestock market as defined in RCW 16.65.010(1).

(2) "Department" means the department of agriculture of the state of Washington.

(3) "Director" means the director of the department or his duly authorized representative.

(4) "Licensee" means any person licensed to operate a market.

(5) "Livestock" except as used in the brand inspection regulations of this order means all cattle, horses, mules, swine, sheep, goats, poultry and rabbits.

(6) "Livestock" as used in the brand inspection regulations of this order means all cattle of whatever species, breed or age.

(7) "Lot" means livestock of one ownership.

(8) "Market veterinarian" means a graduate veterinarian licensed in the state of Washington accredited by USDA and employed by a public livestock market.

[Statutory Authority: RCW 16.36.040 and 16.36.096. 92-21-022, § 16-604-009, filed 10/13/92, effective 11/13/92; Order 1102, § 16.604.009 (codified as WAC 16-604-009), filed 11/18/68; Order 1059, Regulation 1, filed 7/24/67, effective 8/23/67; Order 1025, Regulation 1, filed 7/22/66, effective 8/22/66.]

WAC 16-604-020 Facilities and sanitation. Licensees shall provide facilities and sanitation for the prevention of livestock diseases at their public livestock markets, as follows:

(1) The licensee shall be responsible for the moving and yarding of livestock necessary for brand inspection. Personnel employed by the salesmarket will be required to sort and designate any apparent unhealthy animals before they are admitted into trade channels.

(2) The floors of all pens and alleys that are part of a public livestock market shall be constructed of concrete or similar impervious material and kept in good repair, with a slope of not less than one-fourth inch per foot to adequate drains leading to an approved system: Provided, That the director may designate certain pens within such public livestock markets as feeding and holding pens and the floors and alleys of such pens shall not be subject to the aforementioned surfacing requirements.

(3) Feeding and holding pens maintained in an area adjacent to a public livestock market shall be constructed and separated from such public livestock market, in a manner prescribed by the director, in order to prevent the spread of communicable diseases to the livestock sold or held for sale in such public livestock market.

(4) All yards, chutes and pens used in handling livestock shall be constructed of such material which will render them easily cleaned and disinfected, and such yards, pens and chutes shall be kept clean, sanitary and in good repair at all times, as required by the director.

(5) Sufficient calf pens of adequate size to prevent overcrowding shall be provided, and such pens when used shall be cleaned and disinfected no later than the day subsequent to each sale.

[Title 16 WAC—p. 609]

(6) All swine pen facilities shall be covered and when used shall be cleaned and disinfected no later than the day subsequent to each sale.

(7) A water system carrying a pressure of forty pounds and supplying sufficient water to thoroughly wash all pens, floors, alleys and equipment shall be provided.

(8) Sufficient quarantine pens of adequate capacity shall be provided. Such pens shall be used to hold only cattle reacting to brucellosis and tuberculosis or to quarantine livestock with other contagious or communicable diseases and shall be:

(a) Hard surfaced with concrete or similar impervious material and shall be kept in good repair.

(b) Provided with separate watering facilities.

(c) Painted white with the word "quarantine" painted in red letters not less than four inches high on such quarantine pen's gate.

(d) Provided with a tight board fence not less than five and one-half feet high.

(e) Cleaned and disinfected not later than one day subsequent to the date of sale.

To prevent the spread of communicable diseases among livestock, the director shall have the authority to cause the cleaning and disinfecting of any area or all areas of a public livestock market and equipment or vehicles with a complete coverage of disinfectants approved by the director.

[Statutory Authority: RCW 16.36.040 and 16.36.096. 92-21-022, § 16-604-020, filed 10/13/92, effective 11/13/92; Order 1174, § 16-604-020, filed 12/15/70; Order 1059, Regulation 3, filed 7/24/67, effective 8/23/67; Order 1025, Regulation 3, filed 7/22/66, effective 8/22/66; Order 954, filed 8/20/64; Order 913, filed 4/1/63; Order 853, filed 6/19/61; Order 788, effective 6/17/59.]

WAC 16-604-025 Health regulations. (1) The director shall require such testing, treating, identifying, examining and recordkeeping of livestock by a market veterinarian and/or livestock market as in the director's judgment may be necessary to prevent the spread of brucellosis, tuberculosis, or any other infectious, contagious or communicable disease among the livestock of this state.

(2) For livestock health purposes, the director shall establish procedures for inspection of livestock markets for compliance with sanitary requirements and to observe livestock being handled. Such inspections shall be conducted by animal health inspection personnel working under the jurisdiction of the director. Such inspectors will not issue health certificates, perform "private treaty work" or engage in functions other than those in connection with surveillance for communicable, infectious animal diseases and sanitary measures. Operators of markets shall arrange with a market veterinarian to perform animal health inspections, issue health certificates or certificates of veterinary inspection, perform private treaty work, and perform any testing, quarantine, or movement restrictions of animals as directed by the director of agriculture or required by federal law. Departmental inspectors will work in cooperation with any market veterinarians in performing yard inspections.

(3) Markets handling swine shall be required to identify all boars and sows with official identification. Markets must comply with chapters 16-54 and 16-80 WAC and Title 9, Code of Federal Regulations, Parts 71 and 76, when handling swine for market.

(4) No livestock may leave the market for points outside the state of Washington without first meeting the requirements of the state of destination and Title 9, Subchapter C, Code of Federal Regulations.

(5) Any animal or animals which have been found by the inspector to be diseased or unhealthy shall be handled in accordance with instructions of a veterinarian as to disposition. He may require they be marked "slaughter only" and be sold only to immediate slaughter; require they be sold "as is" with an announcement; require they be returned to consignor with or without quarantine; or require they be held under quarantine in the yard.

(6) Brucellosis.

(a) Animal health requirements as prescribed in chapters 16-54 and 16-86 WAC shall be met for animals entering or released from the public livestock markets. Those public livestock markets that are not specifically approved as per Title 9, Part 78, Subchapter C, Code of Federal Regulations that wish to provide brucellosis blood testing as approved by the director shall comply with the facilities requirements for specifically approved saleyards. Specifically approved yards (Title 9, Part 78, Code of Federal Regulations) can accept cattle and bison from out-of-state without meeting the import requirements provided that all Washington state animal health requirements are met at the yard upon arrival. Those yards not specifically approved can receive from out-of-state only those cattle and bison that have met all animal health requirements prior to entering the state.

(b) Animals released from Washington markets to points outside the state shall be in compliance with Federal Interstate Regulations and must meet the import requirements of the state of destination.

(c) Salesyard brucellosis reactors will be:

(i) Tagged with reactor identification tags in the left ear and branded "B" on the left jaw.

(ii) Placed in a "quarantine pen."

(iii) Sold at the close of the regular sale to licensed slaughterer or their designated agent operating under federal or state inspection or return to the farm of origin under a written quarantine.

(iv) The market veterinarian shall issue VS Form 1-27 on all suspects or reactors immediately after their sale or detection and the original copy must accompany the animals to slaughter or back to the farm of origin. The pink and yellow copies are to be mailed immediately to the state veterinarian, Olympia, and the green copy mailed immediately to the destination of shipment or shall accompany shipment.

(v) All brucellosis reactors consigned and transported directly to a licensed slaughtering establishment for immediate slaughter cannot be transported with any animals not so consigned. All trucks and railway cars or other conveyances used for the transportation of such reactors shall be cleaned and disinfected at destination under state and federal supervision.

(7) For the purpose of tracing dealer consigned livestock to herds of origin for health purposes, the certificates of permit (S.F. No. 4847) will be the accepted document for transferring tracing information to the director at the market.

Exceptions - this section does not apply to dairy cattle under twenty months nor beef cattle under twenty-four months of age.

(8) All livestock markets shall officially identify all sexually intact cattle and bison over eighteen months of age with an official backtag prior to being presented for sale. Records of the backtags applied to the animal indicating seller, buyer, and brucellosis vaccination status if animal is a female shall be maintained by the market for a period of one year.

(9) Immediate slaughter livestock.

(a) Livestock purchased through a market for slaughter in the state of Washington may be consigned only to a licensed slaughtering establishment, restricted feed lot, or another market for sale for immediate slaughter. Such animals will be cleared from the market on Washington state cattle brand certificate and must reach the declared point of destination at slaughter establishment or restricted feed lot within ten days of first being declared immediate slaughter livestock. Identification tags may not be removed and clearance papers must be presented with the animals at declared point of destination and livestock shall not be diverted to any other point.

(b) Cattle that have been declared immediate slaughter cattle shall not be commingled with cattle not so declared.

(c) No Washington state cattle brand certificate will be issued at any market unless the purchaser first certifies the exact name and address of the destination of such domestic animals or animal and such animals are identified to herd of origin in a manner prescribed by the director.

(10) Health of swine.

(a) Intrastate consignments. Washington swine that are healthy, unexposed to any contagious or infectious disease and not under quarantine may enter and leave any market in the state after veterinary inspection.

(b) Interstate consignments.

(i) Slaughter swine. Swine not known to be affected with or exposed to infectious or communicable swine diseases may be moved into the state without health certificate to a recognized slaughtering center, public stockyards under federal supervision or livestock market specifically approved under Part 76, Title 9, Code of Federal Regulations for immediate slaughter, and may not be diverted enroute. The waybills or certificates for shipment must state for "slaughter only."

(ii) Feeder and breeder swine - must have originated from states in Stage IV or Stage V pseudorabies free status and/or comply with the entry requirements as stated in chapter 16-54 WAC. Animals must be accompanied by official health certificate stating that they are clinically free of symptoms of infectious and contagious disease or exposure thereto, unless consigned to a market approved under Part 76, Title 9, CFR. The consignor and consignee will be properly listed with exact mailing addresses clearly shown. Such hogs must not come in contact with hogs from states of unlike status prior to or during shipment, and must have been transported in one continuous movement.

(c) Swine brucellosis. All interstate swine over six months of age entering public livestock markets to be sold for breeding purposes must have been tested and found negative to brucellosis within thirty days prior to entry or originate in a validated brucellosis free herd. Swine not in compliance will not be sold as breeder swine. Swine originating from a herd where brucellosis is known to exist will not be sold as breeder swine.

Chapter 16-610 WAC

LIVESTOCK INSPECTION AND IDENTIFICATION (Formerly chapter 16-607 WAC)

WAC

16-610-005	What definitions are important to this chapter?
16-610-010	What is the livestock identification advisory board?
16-610-011	Who can serve on the livestock identification advisory board?
16-610-012	How long of term does a board member serve?
16-610-013	How are board vacancies filled?
16-610-015	What specific livestock identification forms are required by the director?
16-610-016	How do I obtain a "certificate of permit" or a "self-inspection" certificate?
16-610-018	What documents can I use to establish proof of ownership of my livestock?
16-610-020	When are cattle required to be inspected for brands or other proof of ownership?
16-610-025	When are horses required to be inspected for brands or other proof of ownership?
16-610-035	What procedures apply to inspections of cattle and horses that are moving out-of-state?
16-610-045	What procedures apply to inspection of cattle at certified feedlots and slaughter plants?
16-610-050	What cattle inspection procedures apply to private transactions?
16-610-055	Does the director review ownership disputes?
16-610-060	Does the director allow veterinarians to issue inspection certificates?
16-610-062	Can the director withdraw or deny a veterinarian's certification to issue inspection certificates?
16-610-065	What livestock identification fees are charged by the director?
16-610-070	What is the schedule for renewing recorded brands?
16-610-080	Does the director allow livestock identification by freeze branding?
16-610-085	Can production brands be used to identify dairy cattle?
16-610-090	Can production brands be used to identify beef cattle?
16-610-092	What style of numbers must be used for production brands?
16-610-094	Are production brands recorded with the director?
16-610-100	What are custom slaughter beef tags?
16-610-105	Are certificates of permit required for custom slaughtered cattle?
16-610-110	Can a custom meat facility accept carcasses of cattle slaughtered by the cattle owner?
16-610-115	What requirements must be met before a license to operate a certified feedlot is granted?
16-610-120	Who is responsible for identifying cattle and horses consigned to a public livestock market?
16-610-122	What requirements must be satisfied before cattle and horses consigned or purchased at a public livestock market can be removed from that facility?
16-610-124	What if cattle and horses consigned to a public livestock market are not sold?
16-610-125	What requirements apply to public livestock market livestock inspection facilities?
16-610-130	What regulations apply to the installation of scales in a public livestock market?
16-610-135	What if a public livestock market fails to conduct a sale on an allocated sale day?

16-610-140
16-610-145

Does the director approve special sales?
What is the relationship between membership in an association and a special sale?

WAC 16-610-005 What definitions are important to this chapter? "Association of livestock breeders" means any properly incorporated association whose membership is made up of livestock breeders.

"Brand" means a permanent firebrand, or any artificial mark, other than an individual identification symbol, that is approved by the director and is used with a brand or by itself.

"Livestock inspection" means examining livestock or livestock hides for brands or any other means of identifying livestock or livestock hides including the examination of any documents providing evidence of ownership.

"Certificate of permit" or "transportation permit" means a department form which, when completed by the livestock owner, or a person authorized to act as his/her agent, serves as a declaration of ownership. The form must not be used as a bill of sale for cattle. This form must accompany livestock:

- (1) In transit;
- (2) Consigned to a public livestock market, special sale, or livestock processing facility; or
- (3) Upon entry into a certified feedlot.

"Collection point" means a livestock inspection point, designated by the Washington state beef commission, for the purpose of collecting beef commission assessment payments directly from cattle producers and remitting those assessments to the Washington state beef commission.

"Department" means the Washington state department of agriculture.

"Director" means the director of the department or the director's designated representative.

"Farmers cooperative association" means any cooperative association of livestock producers. "Farmers cooperative association" does not include livestock youth organizations such as 4-H, FFA, or other junior livestock groups.

"Individual identification symbol" means a department-approved permanent mark placed on the neck of a horse for the purpose of individually identifying and registering the horse.

"Inspection certificate" means a certificate issued by the director or a veterinarian certified by the director that documents animal ownership based on a visual inspection of the animal. An inspection certificate includes an individual identification certificate.

"Licensee" means any person licensed to operate a market under chapter 16.65 RCW.

"Livestock" means all cattle, horses, burros, mules, sheep, swine, and goats of any species, breed or age.

"Lot" means a group of livestock owned by one owner.

"Market" means public livestock market as defined in RCW 16.65.010(1).

"Person" means any natural person, individual, firm, partnership, corporation, company, society, or association, and every officer, agent or employee thereof. Depending upon the context in which it is used, "person" may have a singular or plural meaning.

"Production brand" means a number brand that is used only for production identification purposes.

"Purchase invoice" means the invoice issued by a public livestock market to the purchaser of livestock consigned to the market.

"Self-inspection" means an ownership verification inspection conducted solely by the buyer and seller of cattle, without the benefit of the director. Self-inspection is limited to fifteen head or less of cattle.

"Self-inspection certificate" means a department form that is used when cattle are inspected by their purchaser and seller. The purchaser and seller must sign the self-inspection certificate. The purpose of the self-inspection certificate is to document that self-inspection has occurred.

"Special sale" means a public sale conducted by a producer, youth organization, livestock breeders association, farmers cooperative association, etc., on a seasonal or occasional basis. A livestock market may also conduct a special sale on sale days not specifically assigned to it when its original application was filed with the director. "Special sale" does not mean a public sale by a group of individuals conducting private treaty sales of horses brought to a central location, provided that the:

- (1) Funds are not handled by a third party; and
- (2) Buyer meets the inspection requirements contained in RCW 16.57.260.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-005, filed 12/23/03, effective 1/23/04.]

WAC 16-610-010 What is the livestock identification advisory board? (1) The livestock identification advisory board is established in RCW 16.57.015 for the purpose of advising the director regarding:

- (a) Livestock identification programs administered under chapter 16.57 RCW and these rules;
- (b) Inspection fees; and
- (c) Related licensing fees.

(2) The board is composed of six members appointed by the director representing beef producers, public livestock market operators, horse owners, dairy farmers, cattle feeders and meat processors.

(3) The board must elect a member to serve as board chair. The board chair, or the chair's designee, is responsible for organizing and conducting board meetings.

(4) The board must meet with the director at least once a year to offer its advice. Additional meetings may be held at the request of the director or a majority of the board's membership.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-010, filed 12/23/03, effective 1/23/04.]

WAC 16-610-011 Who can serve on the livestock identification advisory board? (1) Advisory board members must be:

- (a) Residents of the state of Washington; and
 - (b) Actively engaged in the industry they represent.
- (2) The director is an ex officio member of the advisory board.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-011, filed 12/23/03, effective 1/23/04.]

WAC 16-610-012 How long of term does a board member serve? (1) Advisory board members serve three-year terms. Terms begin on July 1 and end on June 30.

(2) Positions are numbered one through six as follows:

- (a) Position one - beef producers;
- (b) Position two - public livestock market operators;
- (c) Position three - horse owners;
- (d) Position four - dairy farmers;
- (e) Position five - cattle feeders; and
- (f) Position six - meat processors.

Note: When the board first began operating, positions one and four served a one-year term; positions two and five served a two-year term; and positions three and six served a three-year term. The purpose of this "staggered start" was to provide the board with a continuity of membership by staggering vacancies on the board.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-012, filed 12/23/03, effective 1/23/04.]

WAC 16-610-013 How are board vacancies filled? (1) To fill a vacancy resulting from an expired term, the director must solicit nominations from affected statewide industry groups. Nominations from industry groups must be submitted to the director before May 1 of the year in which the term expires.

(2) The director may fill, for the unexpired portion of a term, vacancies that occur before a term expires. When such vacancies occur, advisory board members and the presidents of affected statewide industry groups may submit names to the director for consideration.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-013, filed 12/23/03, effective 1/23/04.]

WAC 16-610-015 What specific livestock identification forms are required by the director? (1) Official livestock identification forms required by the director include the following:

- (a) Certificate of permit (WSDA form #7020);
- (b) Livestock inspection certificate; and
- (c) Self-inspection certificate (WSDA form #7059 or #7065).

(2) The official forms must include:

- (a) Owner's name and address;
- (b) Breed;
- (c) Sex;
- (d) Brand or other methods of livestock identification; and

(e) Any other information, which the director considers necessary.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-015, filed 12/23/03, effective 1/23/04.]

WAC 16-610-016 How do I obtain a "certificate of permit" or a "self-inspection" certificate? (1) You may purchase these forms by contacting the department at: 360-902-1855.

(2)(a) The purchase price of a certificate of permit is one dollar for a book of twenty-five.

(b) The purchase price of a self-inspection certificate is equal to the sum of the number of head involved in the transaction multiplied by the current inspection fee and the num-

(2007 Ed.)

ber of head involved in the transaction multiplied by the beef promotion fee.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-016, filed 12/23/03, effective 1/23/04.]

WAC 16-610-018 What documents can I use to establish proof of ownership of my livestock? (1) Your proof of ownership for cattle and horses may be established by presenting one of the following documents:

(a) An official livestock inspection certificate issued by the director.

(b) A duplicate certificate or certified copy of an original inspection document issued by the director.

(c) A self-inspection certificate (cattle only) signed by both the seller and the buyer. Additional proof of ownership must be provided to the buyer for all livestock bearing brands not recorded to the seller.

(d) An official inspection certificate issued by another inspection state or province.

(e) Registration papers on purebred horses.

(f) Registration papers on purebred cattle provided the brand is not recorded in this state.

(g) Bill of sale (horses only).

(h) Health papers issued by a nonbrand state. Vaccination/test tags must be verifiable and match the document.

(i) A statement declaring that the animal was raised and not purchased.

(2) The director will only accept original, official duplicate certificates, or certified copies. The director will not accept carbon copies, faxed copies or photocopies. The name of the livestock owner must appear on the document that is submitted.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-018, filed 12/23/03, effective 1/23/04.]

WAC 16-610-020 When are cattle required to be inspected for brands or other proof of ownership? (1) All cattle must be inspected for brands or other proof of ownership:

(a) Before being moved out-of-state unless the provisions of WAC 16-610-035(2) apply.

(b) When offered for sale at any public livestock market or special sale approved by the director.

(c) Upon delivery to any cattle processing plant where the United States Department of Agriculture maintains a meat inspection program, unless the cattle:

(i) Originate from a certified feedlot; or

(ii) Are accompanied by an inspection certificate issued by the director or a veterinarian certified by the director or any other agency authorized in any other state or any Canadian province by law to issue such a certificate.

(2) All cattle, entering or reentering (but before commingling with other cattle) any certified feed lot licensed under chapter 16.58 RCW, must be inspected for brands or other proof of ownership unless the cattle are accompanied by an inspection certificate issued by the director or a veterinarian certified by the director or any other agency authorized in any other state or any Canadian province by law to issue such a certificate.

(3) At any point of private sale, trade, gifting, barter or any other action that constitutes a change of ownership, sub-

ject to title passing, when an intended purchaser or private agent takes possession, except for individual:

(a) Private sales of unbranded female dairy breed cattle involving fifteen head or less; or

(b) Sales of unbranded dairy breed calves under thirty days of age provided the seller holds a Grade A dairy permit issued by the director.

(4) Exemptions from mandatory inspections do not exempt cattle sellers from paying assessments they owe the Washington state beef commission under chapter 16.67 RCW.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-020, filed 12/23/03, effective 1/23/04.]

WAC 16-610-025 When are horses required to be inspected for brands or other proof of ownership? All horses must be inspected for brands or other proof of ownership:

(1) Before being moved out-of-state unless the provisions of WAC 16-610-035 apply.

(2) When offered for sale at any public livestock market or special sale approved by the director.

(3) When offered for sale at any special open consignment horse sale as defined in RCW 16.65.010.

(4) When offered for sale at any special sale where horses of more than one owner are offered for sale on an occasional and seasonal basis by public auction.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-025, filed 12/23/03, effective 1/23/04.]

WAC 16-610-035 What procedures apply to inspections of cattle and horses that are moving out-of-state? (1) Except as provided in subsection (2) of this section, all cattle and horses must be inspected by the director or a certified veterinarian for brands or other proof of ownership before being moved out-of-state.

(2)(a) Cattle and horses may be moved out-of-state without inspection when they are destined for a public livestock market or a livestock processing plant in another state where brand inspection is performed by the director or an agent according to an agreement with the other state.

(b) Cattle and horses moving out-of-state to public livestock markets or livestock processing plants described in subsection (2)(a) of this section must be accompanied by a certificate of permit showing that the livestock are destined for and are being transported directly to the designated out-of-state inspection point. The certificate of permit is not valid for transportation to any point other than the designated inspection point.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-035, filed 12/23/03, effective 1/23/04.]

WAC 16-610-045 What procedures apply to inspection of cattle at certified feedlots and slaughter plants? Inspections of cattle required under WAC 16-610-020 (1)(c) or 16-610-020(2) and at any other beef commission assessment collection point must be conducted by the director.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-045, filed 12/23/03, effective 1/23/04.]

[Title 16 WAC—p. 614]

WAC 16-610-050 What cattle inspection procedures apply to private transactions? (1) Inspections of cattle required under WAC 16-610-020(3) may be conducted by:

(a) The director; or

(b) Veterinarians certified by the director; or

(c) The buyer and seller.

(2) Inspections of cattle required under WAC 16-610-020(3) that are conducted by the buyer and seller must be documented using a self-inspection certificate. Self-inspection is limited to transactions involving fifteen head or less of cattle.

(a) Self-inspection certificates must be completed and signed by the buyer and seller. The original completed copy of the certificate must be given to the buyer and must accompany the cattle. The seller must also retain a copy of the completed certificate.

(b) The buyer must be given proof of ownership for all cattle bearing brands not recorded to the seller.

(c) The cost of self-inspection certificates includes the current inspection fee and the current assessment for the National Beef Promotion and Research Act.

(d) The director will remit all assessments collected from self-inspections to the Washington state beef commission.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-050, filed 12/23/03, effective 1/23/04.]

WAC 16-610-055 Does the director review ownership disputes? The director may review or investigate any verified complaint involving disputed ownership that is filed with the director.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-055, filed 12/23/03, effective 1/23/04.]

WAC 16-610-060 Does the director allow veterinarians to issue inspection certificates? (1) The director may certify veterinarians, who are licensed and accredited in Washington state and who comply with the requirements of this section, to issue inspection certificates for livestock.

(2) Veterinarians licensed and accredited in Washington state that wish to issue inspection certificates for livestock must apply for certification on the department's application form (WSDA form #7028). The application must include the following:

(a) The full name and principal business address of the individual applying for certification;

(b) The applicant's Washington state veterinary license number;

(c) The geographic area in which the applicant will issue inspection certificates for livestock;

(d) A statement describing the applicant's experience with large animals, especially cattle and horses;

(e) A brief statement indicating if the applicant is requesting certification to issue inspection certificates for cattle, horses or both;

(f) The signature of the applicant; and

(g) Any other reasonable information the director needs to achieve the purpose of this chapter.

(3) All applications must be accompanied by a check or money order for the amount of the certification fee.

(4) The certification fee is thirty-five dollars per applicant.

(5) Certifications expire on the third December 31st following the date of issuance. For example, if your certificate was issued on October 14, 2003, it would expire on December 31, 2005.

(6) All veterinarians applying for certification must complete department-provided training. The department will provide, to each person certified, a copy of the most current brand book and any supplements issued to date. Training will include, but not be limited to, the:

- (a) Reading of printed brands;
- (b) Reading of brands or other marks on live animals;
- (c) Completion of official documents; and
- (d) Review of satisfactory ownership documents.

(7) The director will maintain a list of veterinarians certified to perform livestock inspection. Interested parties may request a copy of the list from the director by calling 360-902-1855 or by accessing the department's web site.

(8) Inspections by certified veterinarians are conducted upon request and provided at the discretion of the veterinarian.

(9) Certified veterinarians must submit all required inspection fees to the director with copies of each certificate issued.

Note: Certified veterinarians may charge an additional fee that is separate from the fees collected under RCW 16.57.220 and WAC 16-610-065.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-060, filed 12/23/03, effective 1/23/04.]

WAC 16-610-062 Can the director withdraw or deny a veterinarian's certification to issue inspection certificates? The director may withdraw or deny a veterinarian's certification to issue inspection certificates if the veterinarian knowingly:

(1) Makes false or inaccurate statements on an application regarding their qualifications.

(2) Makes or acquiesces in false or inaccurate statements on livestock inspection certificates regarding:

- (a) The date or location of the inspection;
- (b) The marks or brands on the livestock inspected;
- (c) The owner's name; or
- (d) Any other statement material to the livestock inspected.

(3) Fails to properly verify the ownership status of the animal before issuing an inspection certificate.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-062, filed 12/23/03, effective 1/23/04.]

WAC 16-610-065 What livestock identification fees are charged by the director? All livestock identification inspection fees charged by the director are specified in statute but are reproduced in this section for your convenience:

(2007 Ed.)

RCW Chapter:	Fees:
(1) Chapter 16.57 RCW Identification of livestock	
Base livestock inspection fee for cattle	(a) A livestock inspection fee for cattle of \$0.85 per head or \$15.00 per hour and the current mileage rate set by the office of financial management (OFM), whichever is greater.
Base livestock inspection fee for horses	(b) A livestock inspection fee of horses is \$3.50 per head or \$15.00 per hour and the current OFM mileage rate, whichever is greater.
Group livestock inspection fee for horses	(c) A livestock inspection fee for groups of thirty or more horses is \$2.00 per head or \$15.00 per hour and the current OFM mileage rate, whichever is greater, provided:
	(i) The horses are owned by one individual; and
	(ii) The inspection is performed on one date and at one location; and
	(iii) Only one certificate is issued.
Minimum certificate fee	(d) A minimum certificate fee of \$5.00 for each certificate issued.
Annual livestock inspection fee	(e) A livestock inspection fee for cattle and horses of \$20.00 per head for an individual identification certificate (annual) or \$15.00 per hour and the current OFM mileage rate, whichever is greater.
Annual group livestock inspection fee	(f) A livestock inspection fee for an individual identification certificate (annual) for groups of thirty or more horses or cattle of \$5.00 per head or \$15.00 per hour and the current OFM mileage rate, whichever is greater, provided:
	(i) The horses or cattle are owned by one individual;
	(ii) The inspection is performed on one date and at one location; and
	(iii) Only one certificate is issued.

RCW Chapter:	Fees:
Lifetime livestock inspection fee	(g) A livestock inspection fee for horses and cattle of \$60.00 per head for an individual identification certificate (lifetime) or \$15.00 per hour and the current OFM mileage rate, whichever is greater.
(2) Chapter 16.58 RCW Identification of cattle through licensing of certified feedlots	A livestock inspection fee for cattle of \$0.85 per head or \$15.00 per hour and the current OFM mileage rate, whichever is greater.
(3) Chapter 16.65 RCW Public livestock markets	(a) A livestock inspection fee for cattle of \$0.85 per head.
	(b) A livestock inspection fee for horses of \$3.50 per head.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-065, filed 12/23/03, effective 1/23/04.]

WAC 16-610-070 What is the schedule for renewing recorded brands? Except as noted below, brand recordings are renewed for a period of four years. Owners of recorded brands, upon notification by the director, must file for renewal by December 31st of the year in which a recording expires.

Note: To establish a staggered renewal schedule the director may renew, for a two-year period, approximately half of the brand recordings that expire on December 31st. When these recordings expire at the end of the two-year period, they will then be renewed for a four-year period.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-070, filed 12/23/03, effective 1/23/04.]

WAC 16-610-080 Does the director allow livestock identification by freeze branding? Freeze branding techniques to identify livestock may be used to comply with the requirements of chapters 16.57 RCW and 16-610 WAC, provided the brand is recorded with the director.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-080, filed 12/23/03, effective 1/23/04.]

WAC 16-610-085 Can production brands be used to identify dairy cattle? Owners may use any digit or combination of digits as a production brand to identify their dairy cattle as long as the brand is located either on the neck or between the hock and the stifle of a hind leg.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-085, filed 12/23/03, effective 1/23/04.]

WAC 16-610-090 Can production brands be used to identify beef cattle? (1) Owners may use a production brand to identify beef cattle but only when the cattle also bear a brand, which is currently recorded, to the owner of the animal.

(2) On beef cattle, production brands must be located high on either the left or right shoulder, or both.

[Title 16 WAC—p. 616]

(3) Any digit or combination of digits may be used for a beef cattle production brand provided they do not conflict with currently recorded ownership brands.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-090, filed 12/23/03, effective 1/23/04.]

WAC 16-610-092 What style of numbers must be used for production brands? Only Arabic numbers can be used for production brands.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-092, filed 12/23/03, effective 1/23/04.]

WAC 16-610-094 Are production brands recorded with the director? (1) Before a production brand can be legally used in Washington state, it must be recorded with the director:

(a) According to the provisions of chapter 16.57 RCW; and

(b) In the same manner as an ownership brand.

(2) Forms to record a brand may be obtained from the director.

(3) The director will not charge a fee to record a production brand if the person recording the brand has already paid to record an ownership brand.

(4) Production brands are not:

(a) Recognized for ownership purposes;

(b) Recorded for ownership purposes; or

(c) Accepted for livestock inspection purposes.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-094, filed 12/23/03, effective 1/23/04.]

WAC 16-610-100 What are custom slaughter beef tags? (1) Any person licensed as a custom slaughterer must complete and attach a custom slaughter beef tag to each of the four quarters of all slaughtered cattle they handle. These tags must remain attached to the quarters until the quarters are cut and wrapped.

(2) The purpose of attaching the beef tag to the carcass is to identify the owner of the carcass while the carcass is being processed.

(3) Only the department may provide custom slaughter beef tags to custom slaughterers. The fee for each set of four custom slaughter beef tags is one dollar and fifty cents.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-100, filed 12/23/03, effective 1/23/04.]

WAC 16-610-105 Are certificates of permit required for custom slaughtered cattle? Any person presenting cattle for slaughter to a licensed custom slaughterer must give the custom slaughterer a completed certificate of permit. This form (WSDA form #7020) documents the ownership of the animal at the time of slaughter.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-105, filed 12/23/03, effective 1/23/04.]

WAC 16-610-110 Can a custom meat facility accept carcasses of cattle slaughtered by the cattle owner? (1) Custom meat facilities may accept carcasses of cattle slaughtered by the cattle owner only if a certificate of permit, signed by the owner, accompanies the carcass.

(2) Without a certificate of permit signed by the owner, custom meat facilities can only accept carcasses from mobile or fixed location custom farm slaughterers or officially inspected slaughter plants.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-110, filed 12/23/03, effective 1/23/04.]

WAC 16-610-115 What requirements must be met before a license to operate a certified feedlot is granted?

(1)(a) Before issuing an initial certified feedlot license, the director will conduct an inspection of all cattle in the feedlot inventory and their corresponding ownership documents.

(b) The fee for this inspection is set in RCW 16.57.220.

(2) If a certified feedlot license is not renewed, all cattle in the feedlot inventory are subject to the inspection requirements for noncertified feedlots.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-115, filed 12/23/03, effective 1/23/04.]

WAC 16-610-120 Who is responsible for identifying cattle and horses consigned to a public livestock market?

(1) The licensee is responsible for identifying each head of cattle and horses consigned to a public livestock market.

(2) Identification may occur either before or at the time the animals are inspected.

(3) Acceptable methods of identification are:

(a) Placing a numbered tag on each animal; or

(b) Using some other director-approved method of identification to identify each animal.

(4) The licensee is responsible for moving, confining, and/or restraining livestock as needed to insure that a complete inspection can be performed.

(5) The director may exempt certain lots of one-brand or no-brand cattle from the individual identification requirements of this section provided the integrity of the inspection process can be maintained.

(6) It is the responsibility of the licensee or consignor to present livestock to the director so an inspection can be performed.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-120, filed 12/23/03, effective 1/23/04.]

WAC 16-610-122 What requirements must be satisfied before cattle and horses consigned or purchased at a public livestock market can be removed from that facility? (1) Before allowing the removal of any cattle or horses from any public livestock market, a licensee or their agent or employee must:

(a) Obtain a livestock inspection clearance for the cattle or horses being removed; and

(b) Issue a release to the person wishing to remove the cattle or horses.

(2) If stamped by the director, the purchase invoice, with specific livestock identification information drawn and written on it can serve as an inspection clearance document provided the animals listed are unbranded and will not be shipped to an out-of-state destination. It is the director's responsibility to:

(a) Add the livestock identification information to the purchase invoices; and

(2007 Ed.)

(b) Ensure its accuracy.

(3) At the request of the purchaser, a livestock inspection certificate will be issued in lieu of a stamped purchase invoice at no additional cost.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-122, filed 12/23/03, effective 1/23/04.]

WAC 16-610-124 What if cattle and horses consigned to a public livestock market are not sold? Cattle and horses that have been offered for sale, but did not sell, will not be assessed an additional inspection fee upon reconsignment provided:

(1) The reconsignment occurs within eight days of the original sale;

(2) The animals are reconsigned to the original sale facility;

(3) The animals have not been removed from the original sale facility before reconsignment;

(4) The animals have not been commingled with other animals; and

(5) No animals have been added or removed from the group.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-124, filed 12/23/03, effective 1/23/04.]

WAC 16-610-125 What requirements apply to public livestock market livestock inspection facilities? The director must approve all livestock inspection facilities at public livestock markets. For the director's approval, inspection facilities must:

(1) Include a chute that is constructed according to the following specifications:

(a) Constructed with a solid base on each side of sufficient strength to contain cattle and horses. The base must be at least twenty-four inches in height, but no more than thirty-six inches in height.

(b) Above the base on each side, the chute must have wire cables extended along its entire length. The cables must be separated by six-inch intervals and must extend vertically to a height of at least six feet.

(c) For support and to ensure that the cables are maintained in a tight condition, the cables must be attached to a vertical post every sixteen feet that is alternated with a pipe or stay every eight feet.

(d) The chute must be well lit by shop, spot, or floodlights. These lights must be located on both sides of the chute at a height of five feet above the highest cable. Beginning at the head of the chute, this lighting must extend along three-fourths of the length of the chute.

(2) Electrical outlets must be available at all chutes so clippers can be conveniently used.

(3) Inspection areas must be well covered by adequate roofing and kept free of any water leaks or water build-up of any kind.

(4) Inspection areas must incorporate a work area for livestock inspectors on each side of the chute. The work area must:

(a) Provide an inspector with at least thirty inches of workspace along the entire length of the chute; and

(b) Be enclosed by fencing or some other permanent-type structure that protects inspectors while cattle and horses are unloaded and moved along the chute.

(5) Inspection areas must include an office. The office must:

(a) Be constructed according to dimensions of at least eight feet by ten feet;

(b) Contain adequate heating; and

(c) Be equipped with a counter built at a standing work level height and with a width of approximately eighteen inches.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-125, filed 12/23/03, effective 1/23/04.]

WAC 16-610-130 What regulations apply to the installation of scales in a public livestock market? (1) To ensure that scales can be tested with relative ease and convenience:

(a) All scales that are inaccessible to a test truck must be accessible by a convenient, unobstructed, hard-surfaced approach ramp or walkway that connects with the scale deck at the scale deck level; and

(b) All doors and passageways leading to the scale must have a minimum width of six feet.

(2) Preferably, scale decks should be constructed using reinforced concrete with "Z" bar coping. If cleats are used that are more than three-fourths inch in thickness, they must be:

(a) Hinged; or

(b) Readily removable; or

(c) Accompanied by a satisfactory covering to allow for proper testing.

(3) All stock racks must be securely fastened to the scale deck. There must be a minimum clearance of three inches between the rack and the surrounding dead construction.

(4) Adequate space and visibility must be provided around scales so that interested parties may observe the weighing operation.

(5) All dial scales used by the licensee must be:

(a) Readily visible to all interested parties; and

(b) Equipped with a mechanical weight recorder.

(6) All beam scales used by the licensee must be equipped with a balance indicator, a weigh beam and a mechanical weight recorder. The balance indicator, weigh beam and mechanical weight recorder must be readily visible to all interested parties.

(7)(a) The pit and foundation beneath the scale deck must be constructed in a singular, uniform and massively solid way.

(b) Coping iron is required on all corners adjacent to the deck.

(c) The pit must be six feet in depth, dry and readily accessible for inspection. When conditions are sufficiently adverse, the director may allow exceptions to this six-foot depth requirement. However, a minimum of two feet clearance between the lowest scale lever and the pit floor must always be provided.

(d) To insure safe and accurate inspections, sufficient electrical lighting must be provided in the inspection facility, especially around the chute and scales and in the pit beneath the scale deck.

[Title 16 WAC—p. 618]

(8) The recording element must be adequately housed for protection against wind and weather.

(9) Scales are not required at markets only licensed to handle horses and mules unless these animals are sold by weight. When these animals are sold by weight, the scale requirements of this section apply.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-130, filed 12/23/03, effective 1/23/04.]

WAC 16-610-135 What if a public livestock market fails to conduct a sale on an allocated sale day? (1) If a licensed operator of a public livestock market fails, more than six times in a twelve-month period, to conduct a sale on a sale day that has been allocated to the licensee by the director, the allocation of that sale day is subject to change or revocation by the director.

(2) Any change or revocation of an allocated sale day must be considered in an administrative hearing conducted according to the provisions of chapter 34.05 RCW.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-135, filed 12/23/03, effective 1/23/04.]

WAC 16-610-140 Does the director approve special sales? (1) The director must approve all special sales and approval is at the discretion of the director.

(2) Application for approval of a special sale must be made at least fifteen days in advance of the proposed sale. The application must contain the following:

(a) Name, address, and contact number of the applicant;

(b) Type of applicant: Producer, livestock market or association;

(c) Name of sale and/or event;

(d) Type and number of livestock expected to be sold;

(e) Date, time, and location of the sale;

(f) Name and the contact number of the veterinarian who will be providing animal health services; and

(g) Signature of the applicant.

Note: Use WSDA form #7046 (Application: Special livestock sale permit) to apply for the director's approval of a special sale.

(3) The director charges a special sale application fee, which is specified in RCW 16.65.420. Special sale applications will not be processed until the application fee is paid.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-140, filed 12/23/03, effective 1/23/04.]

WAC 16-610-145 What is the relationship between membership in an association and a special sale? To assure that any special sale proposed by a farmers cooperative association or association of livestock breeders is limited to the sale of their own livestock, the association may be required to provide verification to the director that any person offering livestock for sale at the special sale was a member of the association at the time of the filing of any consignment application, contract or commitment.

[Statutory Authority: Chapters 16.57, 16.58, 16.65, and 34.05 RCW. 04-01-171, § 16-610-145, filed 12/23/03, effective 1/23/04.]

(2007 Ed.)

Chapter 16-622 WAC
AGRICULTURE MARKETING AND FAIR
PRACTICES

WAC

16-622-001	Purpose.
16-622-005	Definitions.
16-622-010	Application for accreditation of an association of producers.
16-622-015	Accreditation file.
16-622-020	Accreditation file requirements—Association of producers.
16-622-025	Accreditation file—Processor.
16-622-030	Accreditation procedure.
16-622-035	Amended application for accreditation.
16-622-040	Renewal of application for accreditation.
16-622-045	Hearings.
16-622-050	Negotiating period.
16-622-055	Deadline for application for or review of negotiating unit accreditation.
16-622-060	Report of negotiating session.
16-622-900	Severability.

WAC 16-622-001 Purpose. The department of agriculture promulgates this chapter to implement the provisions of the Agricultural Marketing and Fair Practices Act, chapter 15.83 RCW (chapter 355, Laws of 1989). The purpose of this act is to establish standards of fair practices required of handlers, producers, and association of producers dealing in sweet corn and potatoes and to establish the mutual obligation of handlers and accredited associations of producers to negotiate relative to the production or marketing of these agricultural commodities.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-001, filed 4/2/90, effective 5/3/90.]

WAC 16-622-005 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Accredited association of producers" means an association of producers which is accredited by the director to be the exclusive negotiating agent for all producer members of the association within a negotiating unit.

(2) "Advance contract" means a contract for purchase and sale of a crop entered into before the crop becomes a growing crop and providing for delivery at or after the harvest of that crop.

(3) "Agricultural products" as used in this chapter means sweet corn and potatoes produced for sale from farms in this state.

(4) "Association of producers" means any association of producers of agricultural products engaged in marketing, negotiating for its members, shipping, or processing as defined in section 15(a) of the Federal Agriculture Marketing Act of 1929 or in section 1 of 42 Stat. 388.

(5) "Department" means the department of agriculture of the state of Washington.

(6) "Director" means the director of the department of agriculture or duly authorized representative.

(7) "Handler" means a processor or a person engaged in the business or practice of:

(a) Acquiring agricultural products from producers or associations of producers for use by a processor;

(b) Processing agricultural products received from producers or associations of producers, provided that a cooperative association owned by producers shall not be a handler

(2007 Ed.)

except when contracting for crops from producers who are not members of the cooperative association;

(c) Contracting or negotiating contracts or other arrangements, written or oral, with or on behalf of producers or associations of producers with respect to the production or marketing of any agricultural product for use by a processor; or

(d) Acting as an agent or broker for a handler in the performance of any function or act specified in (a), (b), or (c) of this subsection.

(8) "Negotiate" means meeting at reasonable times and for reasonable periods of time commencing at least sixty days before the normal planting date and concluding thirty days prior to the normal planting date to make a serious, fair, and reasonable attempt to reach agreement by acknowledging or refuting with reason points brought up by either party with respect to the price, terms of sale, compensation for products produced under contract, or other terms relating to the production or sale of these products: Provided, That neither party shall be required to disclose proprietary business or financial records or information.

(9) "Negotiating unit" means a negotiating unit approved by the director under the provisions of this chapter and shall include all members of an accredited association of producers supplying qualified commodities to a single processing facility.

(10) "Person" means an individual, partnership, corporation, association, or any other entity.

(11) "Processor" means any person that purchases agricultural crops from a producer and cans, freezes, dries, dehydrates, cooks, presses, powders, or otherwise processes those crops in any manner for eventual resale. A person who solely cleans, sorts, grades, and packages a farm product for sale without altering the natural condition of the product is not a processor. A person processing any portion of a crop is a processor.

(12) "Producer" means a person engaged in the production of agricultural products as a farmer or planter, including a grower or farmer furnishing inputs, production management, or facilities for growing or raising agricultural products. A producer who is also a handler shall be considered a handler under this chapter.

(13) "Qualified commodity" means agricultural products as defined in subsection (3) of this section.

(14) "Processing facility" means a facility operated by a processor at a single location where qualified commodities purchased from producers are canned, frozen, dried, dehydrated, cooked, pressed, powdered, or otherwise processed in a manner for eventual resale.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-005, filed 4/2/90, effective 5/3/90.]

WAC 16-622-010 Application for accreditation of an association of producers. An association of producers requesting accreditation to serve as the exclusive negotiating agent on behalf of its members who are within a proposed negotiating unit with respect to any qualified commodity shall file with the director an application to accredit a negotiating unit containing the following information:

(1) The name and address of the processing facility for which accreditation of a negotiating unit is being requested.

(2) A description of the geographical boundaries of the proposed negotiating unit, stated in terms of the number of miles, from the processing facility in each direction of the most distant producer in the proposed unit.

(3) A list of the names of producers who are members of the proposed negotiating unit and the total number of acres of qualified commodities contracted for delivery by those producers to the processing facility for each of the previous two years.

(4) The total number of members of the association of producers proposing the negotiating unit, a list of the counties in which those members reside, and the total number of acres of qualified commodities the association of producers had contracts to represent on behalf of its producer members for the previous growing season.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-010, filed 4/2/90, effective 5/3/90.]

WAC 16-622-015 Accreditation file. Both the association of producers requesting accreditation of a negotiating unit and the person operating the processing facility for which the negotiating unit is being proposed shall create and maintain in their possession an accreditation file for the purpose of allowing the director to determine if the association of producers has met the requirements for the accreditation of the negotiating unit. The file shall be available to the department during normal working hours with reasonable advance notice. Documents contained in the file shall become a permanent part of the file and shall be serially numbered and indexed to assure the integrity of the file. Copies of original documents may be placed in the file or new documents may be created to satisfy the requirements of this chapter. The director may examine other records as necessary to confirm the validity of the information contained in the accreditation file. The accreditation files shall be maintained at the principal business address of the association of producers and the person operating the processing facility. In the case where the principal business address of the person operating a processing facility is located outside of the state of Washington, the accreditation file shall be maintained at the processing facility or at some other location within the state of Washington as approved by the director.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-015, filed 4/2/90, effective 5/3/90.]

WAC 16-622-020 Accreditation file requirements—Association of producers. The association of producers shall create and maintain an accreditation file for each negotiating unit it is requesting accreditation for, which shall include the following:

(1) A copy of the articles of incorporation and by-laws of the association;

(2) A copy of the contract between the association of producers and the producer empowering the association to sell or negotiate the terms of sale of its members qualified commodities and a list of the producers who have executed said contract; and

(3) A list of the names of producers who are members of the proposed negotiating unit together with the number of acres of qualified commodities that each producer had con-

tracted to deliver to the processing facility for each of the previous two growing seasons.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-020, filed 4/2/90, effective 5/3/90.]

WAC 16-622-025 Accreditation file—Processor. The processor shall create and maintain an accreditation file for each processing facility where a negotiating unit is being proposed by an association of producers, which shall include the following:

(1) A list of the names of producers for each facility with whom the processor had an advance contract for qualified commodities for each of the previous two growing seasons;

(2) The total number of acres of qualified commodities the processing facility had contracted to receive the production from under the provisions of advance contracts for each of the previous two growing seasons.

(3) A copy of the contract between the processor and producer supplying the affected commodities.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-025, filed 4/2/90, effective 5/3/90.]

WAC 16-622-030 Accreditation procedure. The director shall, upon receipt of an application for accreditation of a negotiating unit, promptly notify in writing the processor who operates the processing facility. The director shall schedule a time to examine the accreditation files of both the association of producers and the processor operating the processing facility. This examination shall not occur prior to five working days following the receipt of the notice to the processor of the application for accreditation of the negotiating unit. The director shall issue a report of findings resulting from the examination of the accreditation files of both parties which shall include:

(1) Whether the association of producers is owned and controlled by producers and that one of its functions is to act as principal or agent for its members in negotiations with processors;

(2) Whether the association of producers has valid and binding contracts with its members who are part of the proposed negotiating unit;

(3) Whether the members of the proposed negotiating unit represent more than fifty percent of the total average number of producers of record at the processing facility with advance contracts for the previous two growing seasons, or whether the number of acres of qualified commodities produced by members of the proposed negotiating unit, who were producers of records at the processing facility, represents more than fifty percent of the total average number of acres of qualified commodity obtained through advance contracts for the previous two growing seasons.

If the director's findings regarding subsection (1), (2), and (3) above are that the association meets the criteria for accreditation, a notice of accreditation of the negotiating unit will be issued to both parties. If the finding regarding any of the subsections above is that the association fails to meet any of the criteria, a notice citing the specific deficiency will be issued to both parties pending the filing of an amended application in a timely manner.

The director shall not accredit more than one bargaining unit for each processing facility. Should more than one pro-

posed bargaining unit meet the criteria for accreditation the director shall accredit the proposed negotiating unit that would function as the most effective agent for producers in negotiating with the processor. The director, when considering the accreditation of proposed negotiating units, shall consider the ratio of the number of producers to acres previously contracted by those producers, with substantial weight given to the number of acres contracted.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-030, filed 4/2/90, effective 5/3/90.]

WAC 16-622-035 Amended application for accreditation. An association of producers upon receiving notice of deficiencies in the application for accreditation of a proposed negotiating unit may file an amended application with the director. The amended application will be examined in the same manner as the initial application. Amended applications must be filed with the director within thirty days of receipt of the notice of deficiencies in the application.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-035, filed 4/2/90, effective 5/3/90.]

WAC 16-622-040 Renewal of application for accreditation. An affected processor or an affected association of producers may petition the director to require an accredited association of producers to renew the application for accreditation of a negotiating unit. If the director concurs with the request of the petitioners or determines that a renewed application would best carry-out the purposes of the chapter, then the parties will be notified of the requirement that a new application be filed. The renewed application shall be examined in the same manner as an initial application.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-040, filed 4/2/90, effective 5/3/90.]

WAC 16-622-045 Hearings. A hearing, conducted under the provisions of chapter 34.05 RCW, to determine whether alleged violations of RCW 15.83.030 or 15.83.040 have occurred may be held concurrently with the hearing for civil penalty under section (9) of the act.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-045, filed 4/2/90, effective 5/3/90.]

WAC 16-622-050 Negotiating period. The negotiating period provided in RCW 15.83.010 shall commence each year on January 15th for potatoes and sweet corn. Negotiations may begin at any time prior to this date and may continue past the date which is forty-five days following this date by mutual consent of the affected parties. Contracts which are agreed to during this mutual consent period will be considered advance contracts.

[Statutory Authority: RCW 15.83.100. 92-07-030, § 16-622-050, filed 3/10/92, effective 4/10/92. Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-050, filed 4/2/90, effective 5/3/90.]

WAC 16-622-055 Deadline for application for or review of negotiating unit accreditation. Applications for accreditation of a negotiating unit or petitions by affected parties for renewal of an existing negotiating unit shall be received by the director by September 1st of each year to allow sufficient time to determine if the criteria for accredita-

tion has been met. Applications or petitions received after that date will be considered for the next succeeding negotiating period. Applications for accreditation of negotiating units for the 1990 growing season will be accepted until January 10, 1990.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-055, filed 4/2/90, effective 5/3/90.]

WAC 16-622-060 Report of negotiating session. (1) Each accredited association of producers and handler shall, within a reasonable time following a negotiating session, place a copy of a summary of the discussions into their respective accreditation file maintained for that negotiating unit. For the purposes of this section, a negotiating session is a meeting of the parties at which pertinent information is exchanged. Each summary shall accurately reflect the substance of discussions and the points raised by either side. Each summary shall be signed by an authorized representative of the association of producers or handler which prepared it. Each summary shall contain the last offer of contract terms placed on the table during that negotiating session. Either party may place supplementary materials regarding the negotiation into their file.

(2) At the conclusion of the forty-five day negotiating period which is thirty days prior to the normal planting date, each of the parties to a negotiation shall place, in their respective accreditation file for that negotiating unit, a report summarizing the negotiations and indicating whether an agreement was reached.

[Statutory Authority: RCW 15.83.100. 92-07-030, § 16-622-060, filed 3/10/92, effective 4/10/92.]

WAC 16-622-900 Severability. If any section or provision of this rule shall be adjudged to be invalid or unconstitutional, such adjudication shall not affect the validity of the rule as a whole, or any section, provision or part thereof, not adjudged invalid or unconstitutional.

[Statutory Authority: RCW 15.83.020. 90-08-069, § 16-622-900, filed 4/2/90, effective 5/3/90.]

Chapter 16-623 WAC

COMMISSION MERCHANT ACT—LICENSING FEES, PROOF OF PAYMENT, CARGO MANIFESTS AND REGISTRATION OF ACREAGE COMMITMENTS

WAC

16-623-001	What is the purpose of this chapter?
16-623-005	What definitions are important to this chapter?
16-623-010	What requirements apply to licenses for commission merchants, dealers, brokers, cash buyers and agents?
16-623-015	What securities are acceptable in lieu of a surety bond?
16-623-020	What are the recordkeeping requirements for commission merchants, dealers and cash buyers?
16-623-030	Is a cargo manifest required for transporting hay and straw?
16-623-040	How must a processor's plant capacity be reported?
16-623-050	What notification requirements apply to grower-processor commitments?
16-623-060	How are contract volumes established?

WAC 16-623-001 What is the purpose of this chapter? The purpose of this chapter is to implement and clarify

selected portions of chapter 20.01 RCW. This chapter addresses four topics.

(1) Licensing fees and requirements for commission merchants, dealers, brokers, cash buyers or agents.

(2) Recordkeeping and proof of payment requirements for licensees.

(3) Cargo manifests and shipping documents that accompany hay and straw during transportation.

(4) Rules governing the registration of processor acreage commitments made to producers of annual crops.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-001, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-001, filed 10/30/00, effective 11/30/00.]

License Class	License Fee	Annual Expiration Date	Annual Renewal Date	Penalty Amount for Not Renewing Before January 1
Commission merchant	\$450.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Dealer	\$450.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Limited dealer	\$250.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Broker	\$300.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Cash buyer	\$100.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Agent	\$50.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees
Additional license per class	\$25.00	December 31	Before January 1	A late renewal penalty of twenty-five percent of the total fees

(2) A licensee can be licensed in more than one class for an additional fee of twenty-five dollars per class. The principal license must be in the class requiring the greatest fee and all requirements must be met for each class in which a license is being requested.

(3) All fees and penalties must be paid before the department issues a license.

(4) Applications for licenses are considered incomplete unless an effective bond or other acceptable form of security is also filed with the director.

(5) Licenses may be obtained by contacting the department's commission merchants program at 360-902-1854 or e-mail at: commerch@agr.wa.gov. Application forms, bond forms, and forms for securities in lieu of a surety bond are available on the department's web site at: <http://www.agr.wa.gov/Inspection/CommissionMerchants/default.htm>.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-010, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-010, filed 10/30/00, effective 11/30/00.]

WAC 16-623-015 What securities are acceptable in lieu of a surety bond? An applicant or licensee may file an assignment of savings or irrevocable letter of credit with the director in lieu of a surety bond. These instruments are subject to the same requirements and provisions as bonds stated in RCW 20.01.210, 20.01.211, and 20.01.212.

[Title 16 WAC—p. 622]

WAC 16-623-005 What definitions are important to this chapter? In addition to the definitions listed in RCW 20.01.010, the following definitions are important to understanding this chapter:

"Department" means the Washington state department of agriculture.

"Director" means the director of the Washington state department of agriculture or their designee.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-005, filed 4/20/05, effective 5/21/05.]

WAC 16-623-010 What requirements apply to licenses for commission merchants, dealers, brokers, cash buyers and agents? (1) The following table summarizes the license fee requirements for commission merchants, dealers, brokers, cash buyers, or agents:

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-015, filed 4/20/05, effective 5/21/05.]

WAC 16-623-020 What are the recordkeeping requirements for commission merchants, dealers and cash buyers? Every commission merchant, dealer, and cash buyer who takes possession of or purchases agricultural products must keep accurate records. The recordkeeping requirements for:

(1) Commission merchants are specified in RCW 20.01.-370;

(2) Dealers and cash buyers are specified in RCW 20.01.380; and

(3) Brokers are specified in RCW 20.01.400.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-020, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-020, filed 10/30/00, effective 11/30/00.]

WAC 16-623-030 Is a cargo manifest required for transporting hay and straw? (1) All commission merchants, dealers, their employees or licensed agents must have a copy of the cargo manifest with each load when transporting hay or straw on equipment owned or under their control.

(2) Any common carrier transporting hay or straw for a commission merchant or dealer may use shipping documents required by either the Washington public utilities and transportation commission or interstate commerce commission

(2007 Ed.)

instead of the department form described in subsection (5) of this section.

(3) Any common carriers, commission merchants, dealers, their employees or licensed agents transporting hay or straw may use shipping documents other than the department form described in subsection (5) of this section if they have been reviewed and authorized by the department before their use.

(4) Unless the exceptions in subsections (2) and (3) of this section apply, the manifest must be on a form prescribed by the director which is available from the department.

(5) At a minimum, the form requires the following information:

- (a) Purchaser's name and address;
- (b) Hauler's name and address;
- (c) Business or person the products were received from and their address;
- (d) The commodity, unit count, unit price, total price, total weight, tare weight and weight of the commodity;
- (e) Terms of the settlement;
- (f) Date;
- (g) Signature of the licensee or their agent; and
- (h) Signature of the consignor or their authorized representative.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-030, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-030, filed 10/30/00, effective 11/30/00.]

WAC 16-623-040 How must a processor's plant capacity be reported? (1) According to RCW 20.01.510, a processor must report the daily total capacity in tons, cases or other legal and customary measure for:

- (a) Each crop; and
- (b) All plants that process any Washington agricultural product.

(2) For each processing plant reported, the report must include the:

- (a) Name;
- (b) Site address;
- (c) Business address; and
- (d) Name of the person(s) who may receive legal service.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-040, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-040, filed 10/30/00, effective 11/30/00.]

WAC 16-623-050 What notification requirements apply to grower-processor commitments? (1)(a) Within ten days after a commitment with a processor is made, a grower must notify the director that they have an oral commitment for a specified amount of product.

(b) The grower's notification to the director must be in writing and sent by certified mail to the Washington State Department of Agriculture, c/o the Commission Merchants Program, P.O. Box 42591, Olympia, Washington 98504-2591.

(2) Once the grower's notification is received, the director has five days to notify the processor by certified mail.

(3) Regardless of whether or not the processor confirms the director's notice, the processor must simultaneously

(2007 Ed.)

notify the director and grower, by certified mail, within ten days of receipt of the director's notice.

(4) The processor may accept all, none, or any portion of the acreage and/or tonnage stated in the notice.

(5) Once the oral commitment is confirmed for all or for a portion of the acreage and/or tonnage, the processor is committed to receive the acreage or tonnage specified.

(6) If the contract is the processor's standard contract and the terms of the contract, price or other conditions later offered to the grower are unacceptable to the grower, then the agreement is not binding upon the processor.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-050, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-050, filed 10/30/00, effective 11/30/00.]

WAC 16-623-060 How are contract volumes established? For contracts purchasing the production of a specific number of acres, the:

(1) Amount contracted for will be based on the crop yield for the comparable area for the most recent five-year average; and

(2) Crop yield will be determined by using data from the USDA's National Agricultural Statistics Service.

[Statutory Authority: Chapters 20.01 and 34.05 RCW, 2003 1st sp.s. c 25. 05-09-094, § 16-623-060, filed 4/20/05, effective 5/21/05. Statutory Authority: RCW 20.01.040, [20.01.]125, [20.01.]370, [20.01.]380, [20.01.]410, [20.01.]510. 00-22-071, § 16-623-060, filed 10/30/00, effective 11/30/00.]

Chapter 16-645 WAC

HOPS BALES—WEIGHTS AND TARES

WAC

16-645-005	Hops—Bale.
16-645-010	Hops—Tare.

WAC 16-645-005 Hops—Bale. The standard weight for a bale of hops is fixed at from one hundred seventy-five to two hundred thirty pounds.

[Statutory Authority: RCW 19.94.190 [(1)](a). 99-06-072, § 16-645-005, filed 3/2/99, effective 4/2/99.]

WAC 16-645-010 Hops—Tare. (1) The amount of tare to be deducted from the gross weight of each bale of hops grown and sold is fixed at five pounds per bale for bales wrapped in burlap cloth. The tare for bales wrapped in plastic baling cloth is fixed at zero.

(2) Any vendor of hops using heavier sacking than specified above or using any extraneous material in the baling thereof shall have the additional sacking or extraneous material deducted as additional tare.

[Statutory Authority: RCW 19.94.190 [(1)](a). 99-06-072, § 16-645-010, filed 3/2/99, effective 4/2/99.]

Chapter 16-657 WAC

RETAIL PRICING OF MOTOR AND HEATING FUEL

WAC

16-657-001	Retail sales of motor fuels and home heating products.
16-657-010	Compliance schedule for retail motor fuel and home heating products dispensers.
16-657-025	Posting of motor fuel prices—Cash and credit sales.

16-657-030 Interim retail sales of home heating products.
 16-657-040 Posting of alcohol blend gasolines.

**DISPOSITION OF SECTIONS FORMERLY
 CODIFIED IN THIS CHAPTER**

16-657-020 Interim retail sales of motor fuels. [Statutory Authority: Chapter 19.94 RCW. 79-12-030 (Order 1661), § 16-657-020, filed 11/19/79.] Repealed by 83-09-012 (Order 1794), filed 4/11/83. Statutory Authority: Chapter 19.94 RCW.

WAC 16-657-001 Retail sales of motor fuels and home heating products. All retail fuel metering and computing devices shall:

(1) Display the price per gallon or price per litre: Provided, That if motor fuel is offered for sale by the litre, the price per litre must be clearly displayed on the dispenser directly adjacent to the corresponding price per gallon, with the information appearing in contrasting letters of at least two inches in height;

(2) Indicate the amount of fuel delivered during a single retail transaction;

(3) Register the selling price per unit;

(4) Register the total selling price for a single retail transaction;

(5) Compute the price per gallon or litre as set forth in National Bureau of Standards Handbook 44.

[Statutory Authority: Chapter 19.94 RCW. 83-09-012 (Order 1794), § 16-657-001, filed 4/11/83; 79-12-030 (Order 1661), § 16-657-001, filed 11/19/79.]

WAC 16-657-010 Compliance schedule for retail motor fuel and home heating products dispensers. Devices which do not meet the requirements of WAC 16-657-001 (3) and (4) shall be brought into compliance on or before July 1, 1981.

[Statutory Authority: Chapter 19.94 RCW. 79-12-030 (Order 1661), § 16-657-010, filed 11/19/79.]

WAC 16-657-025 Posting of motor fuel prices—Cash and credit sales. The following rules apply to the posting of prices of retail sales of motor fuels. As used herein, motor fuel means any fuel used in motor vehicles, including but not limited to gasoline, diesel, propane and alcohol-gasoline blends. As used herein, motor vehicles shall include all wheeled motorized vehicles, and all boats and airplanes.

(1) The posted or advertised price of motor fuel at retail outlets must be available to all consumers. Any condition or qualification required to obtain the posted price must be clearly displayed in letters of contrasting color at least one-half the size of the posted price and immediately adjacent thereto.

(2) A cash price may be posted or advertised if the posting of the price clearly shows it to be limited to cash purchases. The information shall be in letters at least one-half the size of the posted price and immediately adjacent thereto.

(3) Cash and credit sales.

(a) If a retailer elects to establish separate islands for cash and credit sales, the islands shall be clearly marked as such in letters at least six inches in height and of proportional width.

(b) If a retailer elects to permit cash and credit card sales from the same dispenser, the credit price will be displayed on the meter face. Immediately adjacent to or on the pump a chart shall be posted showing the cash discount price in one cent increments. The lettering on the chart shall be of such size and contrast lettering as to be easily read by the consumer.

(4) Posted prices of motor fuels at retail outlets shall include all federal, state and local taxes.

(5) The director of agriculture may require retailers to post additional signs or information as necessary to assure that the consumer is aware of information as necessary to make an informed purchase.

(6) Nothing herein shall be construed to prevent the use of a dispenser which is designed, manufactured, or adapted to permit cash and credit card sales from a single dispenser by manual or automatic means and which computes prices per gallon or litre pursuant to standards established in National Bureau of Standards Handbook 44.

[Statutory Authority: Chapter 19.94 RCW. 83-09-012 (Order 1794), § 16-657-025, filed 4/11/83.]

WAC 16-657-030 Interim retail sales of home heating products. Computing dispensing devices used in the delivery of home heating products which do not meet the requirements of WAC 16-657-001 (3) and (4) shall be altered to provide for an interim half price sale program and the following requirements shall be followed:

(1) Such procedures shall be required when the price of one grade of fuel goes above the capabilities of one device at or operated from a given location. Once it is necessary for one device to be set at half price or modified to the litre, all devices at or operated from that location must be set at the same method of sale.

(2) The consumer's copy of the invoice covering deliveries of home heating products made on a basis of either half pricing or by the litre shall bear a clear and legible legend stating the computations have been made on the respective method of sale.

[Statutory Authority: Chapter 19.94 RCW. 79-12-030 (Order 1661), § 16-657-030, filed 11/19/79.]

WAC 16-657-040 Posting of alcohol blend gasolines.

(1) All retail motor fuel devices dispensing alcohol blend gasolines shall state on the face of the device that alcohol ingredients are contained therein. The statement shall disclose what alcohol products are included, i.e., methyl alcohol, ethyl alcohol, and the percentage of alcohol that is contained therein. The statement shall be conspicuously posted in letters at least one-half inch in height, at least one-sixteenth inch in stroke, in contrasting letters, in a location as to be easily seen by consumers and in the following format:

CONTAINS ____% ethyl/methyl ALCOHOL

(2) The percentage of alcohol disclosed on the dispensing device shall be the ratio between the amount of ethyl alcohol, or methyl alcohol including co-solvents or proprietary inhibitors, or any other alcohol, to the total product volume.

[Statutory Authority: RCW 19.94.505, 98-13-074, § 16-657-040, filed 6/15/98, effective 7/16/98. Statutory Authority: Chapter 19.94 RCW, 84-12-040 (Order 1829), § 16-657-040, filed 5/30/84.]

Chapter 16-659 WAC WEIGHTS AND MEASURES—LIQUEFIED PETROLEUM GAS

WAC

16-659-002 Purpose.
16-659-010 Liquefied petroleum gas.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-659-001 Promulgation. [Order 1142, § 16-659-001, filed 2/27/70, effective 4/1/70; Order 1103, § 16-659-001, filed 12/23/68, effective 2/1/69; Order 1036, filed 11/14/66, effective 12/15/66.] Repealed by 98-13-073, filed 6/15/98, effective 7/16/98. Statutory Authority: RCW 19.94.340 and [19.94].390.

WAC 16-659-002 Purpose. The department of agriculture promulgates this chapter to implement the provisions of RCW 19.94.340. The provisions allow the director to issue reasonable rules as necessary to assure that the amounts of commodities sold are determined in accordance with good commercial practice and are determined and represented to be accurate and informative to all interested parties.

[Statutory Authority: RCW 19.94.340 and [19.94].390, 98-13-073, § 16-659-002, filed 6/15/98, effective 7/16/98.]

WAC 16-659-010 Liquefied petroleum gas. (1) Liquefied petroleum gas shall be sold or exposed for sale at retail only by avoirdupois weight, specified in pounds; liquid measure, specified in gallons; or vapor, specified in cubic feet.

(2) When sold by weight or by liquid measure or in units of cubic feet, it shall be dispensed and sold only by the use of such devices that conform to the requirements set forth in *National Institute of Standards and Technology Handbook 44*, edition specified in chapter 16-662 WAC.

(3) Liquefied petroleum gas sold or delivered to a consumer by liquid measure shall be corrected to a temperature of 60 F with an automatic correction device, or the quantity delivered shall be corrected to a temperature of 60 F in accordance with the volume correction factor table for liquefied petroleum gases set forth in subsection (6) of this chapter. When the delivery is made through a meter automatically corrected for temperature, the retail sales ticket shall show the meter adjusted gallons delivered and state that the temperature correction was made automatically. When the delivery is made through a meter not corrected automatically, the retail sales ticket shall show the metered gallons delivered and the temperature of the liquid at the time of delivery, the volume correction factor and the corrected gallonage: Provided, That this section shall be applicable to new equipment, equipment that has changed ownership or equipment used in the state of Washington for the first time after the effective date of this section. This subsection shall be applicable to all other equipment and with respect to the manual issuances of sales tickets as of January 1, 1969. This subsection shall not apply to unit sales or deliveries made direct to fuel tanks on trucks and automobiles operated on highways, or to containers of less than 200 pound water capacity.

(2007 Ed.)

(4) If a device is equipped with an automatic temperature compensator, this shall be connected, operable, and used at all times. Such automatic temperature compensator may not be removed, nor may a compensated device be replaced with an uncompensated device, without the written approval of the weights and measures authority having jurisdiction over the device. Nothing in this subsection shall prohibit the removal of a meter or temperature compensator for repair providing notice of such removal for repair shall be given the weights and measures office in Olympia within three working days.

(5)(a) Containers, including I.C.C. cylinders, with water capacity less than 200 pounds, shall be charged and sold by weight or by metered measure, except containers excluded by law or regulation. The tare weight of the container and the net weight of the contents shall be plainly and conspicuously marked on the outside of the container or on a label firmly attached thereto. This subsection shall not be construed to require the net weight to be labeled on a container that is being filled at the time of sale. Tare weight shall not be construed to include the valve protecting cap which shall be removed when weighing. When liquefied petroleum gas is sold by refilling of a container the vendor shall give the purchaser full credit for the unused liquid remaining in the container being refilled. When liquefied petroleum gas is sold by an exchange of containers the vendor shall specify conspicuously on a label firmly attached to the container the following: Tare weight of the container, the net weight of the contents and the name and address of the facility where the tank was filled. The address shall include the street address, city, state and zip code. Tare weight shall not be construed to include the valve protecting cap. The cap shall be removed when weighing.

(b) A delivery ticket shall be issued at the time of filling and shall set forth the exact amount of liquefied petroleum gas dispensed in terms of weight or if converted to gallons the weight factor used in such conversion. Any service charge shall be shown separately on the delivery ticket but may be included in the total price.

(c) When sold by weight, the tare weight, any unused portion and/or the net weight shall be determined only on devices that are adequately protected from wind and weather conditions that will assure normal accuracy.

(6) Volume correction factor table.

Specific Gravity at 60 F/60 F

[CODIFICATION NOTE: THE GRAPHIC PRESENTATION OF THESE TABLES HAS BEEN VARIED SLIGHTLY IN ORDER THAT THEY WOULD FALL WITHIN THE PRINTING SPECIFICATIONS FOR THE WASHINGTON ADMINISTRATIVE CODE. THE FOLLOWING TABLE WAS TOO WIDE TO BE ACCOMMODATED IN THE WIDTH OF THE WAC COLUMN. THE TABLE AS CODIFIED HAS BEEN DIVIDED INTO TWO TABLES COVERING THE "SPECIFIC GRAVITY AT 60 F/60 F." PART ONE IS FOR 0.500, 0.5079, 0.510, 0.520, 0.530, AND 0.540. PART TWO IS FOR 0.550, 0.560, 0.5631, 0.570, 0.580, AND 0.5844.]

To convert from measured volume at another temperature to net volume at 60°F: Measure the volume and temperature. Determine the gravity at 60°F. Refer to the column corresponding to this gravity and read the volume conversion factor opposite the observed temperature. Multiply the observed volume by this factor to obtain the volume at 60°F.

Chapter 16-662 WAC

WEIGHTS AND MEASURES—NATIONAL HANDBOOKS

WAC

16-662-100	What is the purpose of this chapter?
16-662-105	What national weights and measures standards are adopted by the Washington state department of agriculture (WSDA)?
16-662-110	Does the WSDA modify <i>NIST Handbook 44</i> ?
16-662-115	Does the WSDA modify <i>NIST Handbook 130</i> ?
16-662-120	How does the WSDA conduct inspections of the net contents of packaged goods under <i>NIST Handbook 133</i> ?
16-662-125	When does WSDA take enforcement action when conducting price verification inspections under <i>NIST Handbook 130</i> ?

Reviser's note: NBS Handbook 44, Fourth Edition, filed June 18, 1973, Order 1318 entitled "Specifications, Tolerances and Other Technical Requirements for Commercial Weighing and Measuring Devices" and 1975 replacement sheets for NBS Handbook 44 - fourth edition, filed August 18, 1976. By authority of RCW 34.05.210(4), this edition has been omitted from publication in the Washington Administrative Code. Copies may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-662-001,	16-662-002, 16-662-003, 16-662-010, 16-662-020, and 16-662-030; provisions of National Bureau of Standards Handbook 44, 2nd edition, as set forth in RCW 19.93.060 have been superseded in total by the 3rd edition, as amended in 1966. [Order 1035, filed 11/14/66, effective 12/15/66 and Order 1072, filed 11/27/67, effective 1/1/68.] Handbook 44 may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C.
16-662-040	Promulgation—Weights and measures regulation adopting National Bureau of Standards Handbook 44, 3rd edition. [Order 1134, § 16-662-040, filed 12/29/69, effective 2/1/70; Order 1035, Regulation 1, filed 11/14/66, effective 12/15/66.] Repealed by Order 1318, filed 6/18/73, effective 8/1/73. Later promulgation, see WAC 16-662-070.
16-662-050	Promulgation—Weights and measures regulation adopting amendments to National Bureau of Standards

(2007 Ed.)

Handbook 44, 3rd edition. [Order 1072, Regulation 1, filed 11/27/67, effective 1/1/68.] Repealed by Order 1134, filed 12/29/69, effective 2/1/70. See later enactment WAC 16-662-040.

16-662-060 Promulgation—Weights and measures regulations adopting National Bureau of Standards Handbook 44, 4th edition as amended in 1972. [Order 1318, § 16-662-060, filed 6/18/73, effective 8/1/73.] Repealed by Order 1480, filed 8/18/76. Later promulgation, see WAC 16-662-071.

16-662-070 Promulgation. [Order 1480, § 16-662-070, filed 8/18/76. Formerly WAC 16-662-040.] Repealed by 97-12-075, filed 6/4/97, effective 7/5/97. Statutory Authority: Chapter 19.94 RCW.

16-662-071 Replacement of amendments. [Order 1480, § 16-662-071, filed 8/18/76. Formerly WAC 16-662-060.] Repealed by 97-12-075, filed 6/4/97, effective 7/5/97. Statutory Authority: Chapter 19.94 RCW.

WAC 16-662-100 What is the purpose of this chapter? (1) This chapter establishes requirements for the state of Washington that are reasonably consistent with the uniform rules adopted by the National Conference on Weights and Measures and that are in effect in other states.

(2) This chapter applies specifically to the:

(a) Uniform specifications, tolerances and other technical requirements for weighing and measuring devices addressed in the *National Institute of Standards and Technology (NIST) NIST Handbook 44*;

(b) Uniform procedures for checking the net contents of packaged goods addressed in *NIST Handbook 133*;

(c) Uniform packaging and labeling regulation addressed in *NIST Handbook 130*;

(d) Uniform regulation for the method of sale of commodities addressed in *NIST Handbook 130*; and

(e) Uniform examination procedure for price verification addressed in *NIST Handbook 130*.

(3)(a) *NIST Handbook 44*, *NIST Handbook 130* and *NIST Handbook 133*, may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. They are also available on the National Institute of Standards and Technology web site at <http://ts.nist.gov/ts/htdocs/230/235/owmhome.htm>.

(b) For information regarding the contents and application of these publications, contact the weights and measures program at the Washington State Department of Agriculture, P.O. Box 42560, Olympia, Washington 98504-2560, telephone number 360-902-1857, or e-mail wts&measures@agr.wa.gov.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 05-10-088, § 16-662-100, filed 5/4/05, effective 6/4/05; 03-08-017, § 16-662-100, filed 3/25/03, effective 4/25/03. Statutory Authority: Chapter 19.94 RCW. 97-12-075, § 16-662-100, filed 6/4/97, effective 7/5/97.]

WAC 16-662-105 What national weights and measures standards are adopted by the Washington state department of agriculture (WSDA)? The WSDA adopts the following national standards:

[Title 16 WAC—p. 627]

National standard for:	Contained in the:
(1) The specifications, tolerances, and other technical requirements for the design, manufacture, installation, performance test, and use of weighing and measuring equipment	2007 Edition of <i>NIST Handbook 44 - Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices</i>
(2) The procedures for checking the accuracy of the net contents of packaged goods	Fourth Edition (January 2005) of <i>NIST Handbook 133 - Checking the Net Contents of Packaged Goods</i>
(3) The requirements for packaging and labeling, method of sale of commodities, and the examination procedures for price verification	2006 Edition of <i>NIST Handbook 130 - Uniform Laws and Regulations in the areas of legal metrology and engine fuel quality</i> , specifically:
(a) Weights and measures requirements for all food and nonfood commodities in package form	<i>Uniform Packaging and Labeling Regulations</i> adopted by the National Conference on Weights and Measures and published in <i>NIST Handbook 130</i> , 2006 Edition
(b) Weights and measures requirements for the method of sale of food and nonfood commodities	<i>Uniform Regulation for the Method of Sale of Commodities</i> as adopted by the National Conference on Weights and Measures and published in <i>NIST Handbook 130</i> , 2006 Edition
(c) Weights and measures requirements for price verification	<i>Examination Procedure for Price Verification</i> as adopted by the National Conference on Weights and Measures and published in <i>NIST Handbook 130</i> , 2006 Edition

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 07-01-115A, § 16-662-105, filed 12/20/06, effective 1/20/07; 06-08-102, § 16-662-105, filed 4/5/06, effective 5/6/06; 05-10-088, § 16-662-105, filed 5/4/05, effective 6/4/05; 04-12-025, § 16-662-105, filed 5/26/04, effective 6/26/04; 03-08-017, § 16-662-105, filed 3/25/03, effective 4/25/03. Statutory Authority: Chapter 19.94 RCW. 02-12-029, § 16-662-105, filed 5/29/02, effective 6/29/02. Statutory Authority: RCW 19.94.195. 01-16-005, § 16-662-105, filed 7/19/01, effective 8/19/01; 00-14-005, § 16-662-105, filed 6/23/00, effective 7/24/00; 99-07-056, § 16-662-105, filed 3/16/99, effective 4/16/99; 98-13-072, § 16-662-105, filed 6/15/98, effective 7/16/98. Statutory Authority: Chapter 19.94 RCW. 97-12-075, § 16-662-105, filed 6/4/97, effective 7/5/97.]

WAC 16-662-110 Does the WSDA modify NIST Handbook 44? The WSDA adopts the following modification to *NIST Handbook 44*, which is identified in WAC 16-662-105(1):

Modified Section:	Modification:
General Code: Section G-UR.4.1. Maintenance of Equipment	In the last sentence of G-UR.4.1., Maintenance of Equipment, change the words "device user" to "device owner or operator." As a result of this modification, the last sentence of G-UR.4.1. will read: "Equipment in service at a single place of business found to be in error predominantly in a direction favorable to the device owner or operator shall not be considered "maintained in a proper operating condition.""

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 07-01-115A, § 16-662-110, filed 12/20/06, effective 1/20/07; 05-10-088, § 16-662-110, filed 5/4/05, effective 6/4/05; 03-08-017, § 16-662-110, filed 3/25/03, effective 4/25/03. Statutory Authority: RCW 19.94.195. 01-16-005, § 16-662-110, filed 7/19/01, effective 8/19/01; 99-07-056, § 16-662-110, filed 3/16/99, effective 4/16/99. Statutory Authority: Chapter 19.94 RCW. 97-12-075, § 16-662-110, filed 6/4/97, effective 7/5/97.]

WAC 16-662-115 Does the WSDA modify NIST Handbook 130? The WSDA adopts the following modifications to the *Uniform Regulation for the Method of Sale of Commodities* requirements published in *NIST Handbook 130*, identified in WAC 16-662-105 (3)(b):

Modified Section:	Modification:
(1) Section 2.20 Gasoline-Oxygenate Blends	Delete Section 2.20 because the requirements for this subject are addressed in RCW 19.94.505 and chapter 16-657 WAC
(2) Section 2.23 Animal Bedding	Add a new subsection, which reads as follows: 2.23.1 Sawdust, Barkdust, Decorative Wood Particles, and Similar Products. — As used in this subsection, "unit" means a standard volume equal to 200 cubic feet. When advertised, offered for sale, or sold within Washington state, quantity representations for sawdust, barkdust, decorative wood particles, and similar loose bulk materials must be in cubic measures or units and fractions thereof.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 05-10-088, § 16-662-115, filed 5/4/05, effective 6/4/05; 03-08-017, § 16-662-115, filed 3/25/03, effective 4/25/03. Statutory Authority: RCW 19.94.195. 98-13-072, § 16-662-115, filed 6/15/98, effective 7/16/98. Statutory Authority: Chapter 19.94 RCW. 97-12-075, § 16-662-115, filed 6/4/97, effective 7/5/97.]

WAC 16-662-120 How does the WSDA conduct inspections of the net contents of packaged goods under *NIST Handbook 133*? WSDA inspects packages using the Used Dry Tare procedures outlined in *NIST Handbook 133*.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 05-10-088, § 16-662-120, filed 5/4/05, effective 6/4/05.]

WAC 16-662-125 When does WSDA take enforcement action when conducting price verification inspections under *NIST Handbook 130*? WSDA uses *NIST Handbook 130*, Examination Procedure For Price Verification, Paragraph 11.2., Model Enforcement Levels. Overcharges will be used to determine price accuracy for enforcement actions under chapter 19.94 RCW. WSDA may issue a civil penalty after failure of the third price accuracy inspection.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 05-10-088, § 16-662-125, filed 5/4/05, effective 6/4/05.]

Chapter 16-663 WAC

SERVICE AGENTS—REPORTING, TEST PROCEDURES, STANDARDS AND CALIBRATION OF WEIGHING AND MEASURING DEVICES

WAC

16-663-100	Purpose.
16-663-110	Definitions.
16-663-120	Registration, certification and standards.
16-663-130	Adequacy of standards and submission of standards for certification.
16-663-140	Identification of work—Labels and seals.
16-663-150	Reports and responsibilities of service agents and servicepersons.
16-663-160	Registration certificate—Revocation, suspension, refusal to renew—Appeal.
16-663-170	Unlawful practices—Penalties.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-663-001	Promulgation. [Order 1319, § 16-663-001, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-010	A regulation of weights and measures servicemen—Relating to reporting and test procedures—Reporting forms and submission of testing standards by persons servicing and calibrating commercial weighing and measuring devices—Definitions. [Order 1319, § 16-663-010, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-020	Submission of standards. [Order 1319, § 16-663-020, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-030	Availability of adequate standards. [Order 1319, § 16-663-030, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-040	Reports to be filed by serviceman or service agency. [Order 1319, § 16-663-040, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-050	Unlawful practices—Penalty. [Order 1319, § 16-663-050, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.
16-663-060	Effective date. [Order 1319, § 16-663-060, filed 6/18/73.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.

(2007 Ed.)

WAC 16-663-100 Purpose. The following regulation addresses the mandatory registration, rights and responsibilities of service agents involved in installing, servicing and calibrating weighing and measuring devices. The rule addresses reporting devices placed in service, test procedures, reporting forms and submission of test standards by persons servicing and calibrating weighing and measuring devices.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-100, filed 10/30/00, effective 11/30/00.]

WAC 16-663-110 Definitions. (1) Installation - setting up for use, connecting or adjusting any new, used or remanufactured commercial weighing or measuring device being placed into service.

(2) Placed in service - to cause or permit the commercial usage of any commercial weighing or measuring device.

(3) Returned to service - the instance where servicepersons or service agencies are called upon to service, repair, or recondition a commercial weighing or measuring device that has been "rejected," ordered "out of service," or "condemned" by weights and measures officials with the intent of placing such a device back into service.

(4) Registered serviceperson - any individual who for hire, award, commission, or any other payment of any kind, installs, services, repairs, or reconditions a commercial weighing or measuring device, and who registers himself as such with the director.

(5) Registered service agent - any agent, firm, partnership, company, or corporation, which, for hire, award, commission, or any other payment of any kind, installs, services, repairs, or reconditions a commercial weighing or measuring device, and which registers with the director.

(6) Commercial weighing and measuring device - any weight or measure or weighing or measuring device commercially used or employed in establishing the size, quantity, extent, area, or measurement of quantities, things, produce, or articles for distribution or consumption, purchased, offered or submitted for sale, hire, or award, or in computing any basic charge or payment for services rendered on the basis of weight, measure or count. It shall include any accessory attached to or used in connection with a commercial weighing or measuring device when the accessory is designed or installed so that its operation affects, or may affect, the accuracy, correctness, or indication of the device.

(7) Reciprocity - the mutual cooperative interchange of rights and agreements between any other state or states that have similar rules and laws concerning registered service agents and recognition of standards.

(8) Laboratory - the metrology laboratory of any state, agency, or any recognized private industry metrology laboratory as determined by the director. All such laboratories must possess current appropriate National Institute of Standards and Technology (NIST) certifications.

(9) Accuracy - commercial weighing or measuring devices are considered accurate when the performance or value - that is, its indications, its deliveries, its recorded representations, or its capacity or actual value, etc., as determined by tests made with suitable standards - conforms to the standards, tolerances and other performance requirements set forth in the edition of National Institute of Standards and Technology Handbook 44 currently adopted by the director.

[Title 16 WAC—p. 629]

(10) Correct - a weighing or measuring device is considered correct when in addition to being accurate, it meets all applicable specifications and requirements as set forth in the edition of National Institute of Standards and Technology Handbook 44 currently adopted by the director.

(11) Certification - a document provided by the director to service agents registered with the department.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-110, filed 10/30/00, effective 11/30/00.]

WAC 16-663-120 Registration, certification and standards. (1) Service agents and servicepersons who intend to provide service that permits a weighing or measuring device to be placed back into commercial service must register with the department annually. Service agents and servicepersons must register on a form provided by the department annually. The fee for registration is eighty dollars per service person. This registration requirement does not apply to city sealers.

(2) Service agents and servicepersons registering with the department will specifically state the types of devices they will be placing in service. Such a statement is the agent's or person's certification that they are knowledgeable of the requirements of the state and possess proper and certified equipment and standards to perform the services.

(3) The registered service agent or serviceperson shall submit a copy of their tag or label, seal or seal press identification mark to the department at time of registration.

(4) The department will issue an official registration certification for each service agent and serviceperson whose application is approved. Official registration certificates are valid for a period of one year from date of registration.

(5) For requests that are denied the department will provide reasons, in writing, for the denial and refund payment.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-120, filed 10/30/00, effective 11/30/00.]

WAC 16-663-130 Adequacy of standards and submission of standards for certification. (1) All service agents and servicepersons shall use standards of adequate quantity and design to place commercial weighing and measuring devices in service.

(2) Submission of standards for inspection. All standards used for servicing, repairing and/or calibrating commercial weighing and measuring devices must be submitted at least every two years for examination and certification. The standards will be submitted to the state's metrology laboratory or a laboratory of any state in which a reciprocity agreement has been entered. The state metrology laboratory examines and certifies standards using the current version of National Institute of Standards and Technology Handbook 105.

(3) Recognition of out-of-state certification any standard that has been inspected and examined by any state or agency in which the director has entered a reciprocity agreement will be considered correct if said examination is within the previous two-year period. Proof of inspection must be submitted to the department with the registration application.

(4) Proof of certification shall be maintained by the owner of the standards and be kept with the standards during normal usage for the purpose of inspection by the director or authorized representative.

[Title 16 WAC—p. 630]

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-130, filed 10/30/00, effective 11/30/00.]

WAC 16-663-140 Identification of work—Labels and seals. (1) Each registered service agent and serviceperson shall identify his/her work on commercially used weighing and measuring devices by:

(a) Applying an adhesive tag or label in a conspicuous location on the device; or

(b) Using a distinctive security seal or seal press impression.

(2) The adhesive tag or label shall legibly show at least the serviceperson registration number, business telephone number and date of service.

(3) Any security seal or seal press used to comply with subsection (1) of this section shall identify the individual registered serviceperson applying the seal.

(4) The registered service agent or serviceperson shall submit a copy of the tag or label, seal or seal press identification mark to the department at time of registration.

(5) The above requirements will be effective May 1, 2001.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-140, filed 10/30/00, effective 11/30/00.]

WAC 16-663-150 Reports and responsibilities of service agents and servicepersons. (1) Any person installing a new or used weighing or measuring device that is being put in use for the first time at that location must provide a notice of installation to the department. The notice shall state the date placed in service, type of device, capacity, business' name and site address, and name and address of the service company installing the device. The report shall also indicate whether the device is new or used.

(2) After correcting a rejected device, registered service agents or servicepersons must return the reject report issued by the weights and measures official to the address indicated on the form within seven days from completion of work. All discrepancies noted on the department's rejection report must be corrected before returning the device to service. The form must be signed and dated by the registered serviceperson returning the device to service. The form must also legibly indicate his/her registration number and show the number or identifying mark of security seals that were removed and applied to affect the correction.

(3) A registered service agent or serviceperson will submit a copy of his/her test report showing the as-found and as-corrected readings with the reject report when putting a rejected device back into service.

(4) Commercially used weighing or measuring devices put into service or returned to service must be correct and meet all applicable specifications and requirements set forth in the edition of National Institute of Standards and Technology Handbook 44 currently adopted by the director. The device must also meet current (NTEP) requirements in effect for the device.

(5) Devices must be installed in accordance with manufacturer's instructions.

(6) A device installed in a fixed location must be installed so that its operation or performance will not be

(2007 Ed.)

adversely affected by any characteristic of the foundation, supports, or any other detail of the installation.

(7) Equipment must be installed in such a manner that all required markings are readily observable.

(8) A device must be installed so that it will be correct and it meets all performance requirements when associated or nonassociated equipment is operated in its usual and customary manner.

(9) Faulty installation conditions must be corrected, and any defective parts must be renewed or suitably repaired, before adjustments are made.

(10) When equipment is adjusted, the adjustment must be made so that performance errors are as close as practicable to zero value.

(11) Equipment put into service, repaired, adjusted, calibrated or refurbished must be sealed with an appropriate security seal and the seal number recorded on the inspection test report. Any security seal removed prior to servicing the device will be noted on the test report and will include the number or identifying mark of the security seal.

(12) Equipment must be assembled and installed so that it does not facilitate the perpetration of fraud.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-150, filed 10/30/00, effective 11/30/00.]

WAC 16-663-160 Registration certificate—Revocation, suspension, refusal to renew—Appeal. (1) The department has the authority to revoke, suspend, or refuse to renew the official registration certificate of any service agent or serviceperson for any of the following reasons:

(a) Fraud or deceit in obtaining an official registration certificate;

(b) A finding by the department of a pattern of intentional fraudulent or negligent activities in the installation, inspection, testing, checking, adjusting, or systematically standardizing and approving the graduations of any weighing or measuring instrument or device;

(c) Knowingly placing back into commercial service any weighing or measuring instrument or device that is incorrect or inaccurate;

(d) A violation of any provision of this chapter; or

(e) Conviction of a crime or an act constituting a crime under the laws of this state, the laws of another state, or federal law.

(2) If the department revokes, suspends, or refuses to renew an official registration certificate, an individual will have the right to appeal the decision in accordance with the Administrative Procedure Act, chapter 34.05 RCW, and RCW 19.94.2584.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-160, filed 10/30/00, effective 11/30/00.]

WAC 16-663-170 Unlawful practices—Penalties. Any person who, by himself or herself, by his or her agent or employee, or as the agent or employee of another person, violates the provisions of this rule is subject to a civil penalty of up to five thousand dollars as specified in RCW 19.94.510.

[Statutory Authority: RCW 19.94.010, 19.94.190. 00-22-072, § 16-663-170, filed 10/30/00, effective 11/30/00.]

(2007 Ed.)

NATIONAL TYPE EVALUATION PROGRAM

WAC

16-664-010	Purpose.
16-664-020	Definitions.
16-664-030	Certificate of Conformance—When required.
16-664-040	Commercial and law enforcement equipment—Certificate of Conformance—Requirements—Exemptions—One-of-a-kind device—Repaired device—Remanufactured device—Device copy—Components.
16-664-050	Unlawful acts.
16-664-060	Penalty.

WAC 16-664-010 Purpose. The purpose of this rule is to assure users, sellers, manufacturers and weights and measures officials that a particular model or type of device and/or equipment is capable of meeting applicable standards.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 97-12-076, § 16-664-010, filed 6/4/97, effective 7/5/97.]

WAC 16-664-020 Definitions. For purposes of this rule:

(1) "Certificate of Conformance" means a document issued by the National Institute of Standards and Technology based on testing by a participating laboratory. The certificate evidences conformance of a type with the requirements of the National Institute of Standards and Technology Handbooks 44, 105-1, 105-2, or 105-3.

(2) "Device" means any weighing and measuring device as defined in subsection (4) of this section, Commercial and law enforcement equipment.

(3) "Director" means the director of the Washington state department of agriculture.

(4) "Commercial and law enforcement equipment" means:

(a) Any weighing or measuring equipment commercially used or employed in establishing the size, quantity, extent, area, or measurement of quantities, things, produce, or articles for distribution or consumption, purchased, offered, or submitted for sale, hire, or award, or in computing any basic charge or payment for services rendered on the basis of weight or measure.

(b) Any accessory attached to or used in connection with a commercial weighing or measuring device when such accessory is so designed that its operation affects the accuracy of the device.

(c) Weighing and measuring equipment in official use for the enforcement of law or for the collection of statistical information by government agencies.

(5) "National type evaluation program" means a program of cooperation between the National Institute of Standards and Technology, other federal agencies, the National Conference on Weights and Measures, the states, and the private sector for determining, on a uniform basis, conformance of a type with the relevant provisions of National Institute of Standards and Technology Handbook 44, *"Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices"* and National Conference on Weights and Measures, Publication 14, *"National Type Evaluation Program, Administrative Procedures, Technical Policy, Checklists, and Test Procedures."*

(6) "One-of-a-kind device" means a device manufactured for sale that has been categorized and tested as a "one-of-a-kind" device. If the manufacturer constructs an additional device or devices, the device is no longer considered to be "one-of-a-kind." This definition also applies to any device that has been determined to be a "one-of-a-kind" device by a weights and measures jurisdiction in one state and the manufacturer decides to manufacture and install the device in another state. In this case, the device must be traceable to a Certificate of Conformance, unless NTEP decides that a Certificate of Conformance will not be required.

(7) "Participating laboratory" means any state measurement laboratory that has been accredited by the National Institute of Standards and Technology in accordance with its program for the Certification of Capability of State Measurement Laboratories, or any state weights and measures agency or other laboratory that has been authorized to conduct a type evaluation under the National Type Evaluation Program.

(8) "Person" means both plural and singular, as the case demands, and includes individuals, partnerships, corporations, companies, societies, and associations.

(9) "Remanufactured device" means a device to which an overhaul or replacement of parts has been performed so the device can be installed in a new location.

(10) "Repaired device" means the maintenance or replacement of parts for a device to remain or return to service in the same location.

(11) "Type" means a model or models of a particular device, measurement system, instrument, or element that positively identifies the design. A specific type may vary in its measurement ranges, size, performance, and operating characteristics as specified in the Certificate of Conformance.

(12) "Type evaluation" means the testing, examination, and/or evaluation of a type by a participating laboratory under the National Type Evaluation Program.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 97-12-076, § 16-664-020, filed 6/4/97, effective 7/5/97.]

WAC 16-664-030 Certificate of Conformance—

When required. The director shall require a device to be traceable to a Certificate of Conformance prior to its installation or use for commercial or law enforcement purposes.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 97-12-076, § 16-664-030, filed 6/4/97, effective 7/5/97.]

WAC 16-664-040 Commercial and law enforcement equipment—Certificate of Conformance—Requirements—Exemptions—One-of-a-kind device—Repaired device—Remanufactured device—Device copy—Components.

(1) Except for a device exempted under subsection (6) of this section, no person shall sell a device, within the state of Washington, unless it is traceable to a Certificate of Conformance. Certificate of Conformance documentation must be provided as part of the sales transaction.

(2) No person shall use a device within the state of Washington, unless it is traceable to a Certificate of Conformance, except when the device is exempted by subsection (3), (4), or (5) of this section. Certificate of Conformance documentation must be maintained at the device location.

(3) A device in service in Washington prior to July 5, 1997, that meets the specifications, tolerances, and other

technical requirements of National Institute of Standards and Technology Handbook 44, is not required to be traceable to a Certificate of Conformance.

(4) A device in service in Washington prior to July 5, 1997, removed from service by the owner or on which the department has issued a removal order after July 5, 1997, and returned to service at a later date shall be modified to meet all specifications, tolerances, and other technical requirements of National Institute of Standards and Technology Handbook 44 effective on the date of the return to service. Such a device is not required to be traceable to a Certificate of Conformance.

(5) A device in service in Washington prior to July 5, 1997, which is repaired after such date shall meet the specifications, tolerances, and other technical requirements of National Institute of Standards and Technology Handbook 44 is not required to be traceable to a Certificate of Conformance.

(6) A device in service in Washington prior to July 5, 1997, and sold after such date shall be modified by the seller to meet the specifications, tolerances, and other technical requirements of National Institute of Standards and Technology Handbook 44 on or before the date sold, unless the buyer and seller agree by written contract to exchange the modification responsibility in which case modification must be completed before further commercial application. Such commercial weighing or measuring device is not required to be traceable to a Certificate of Conformance.

(7) A device in service in another state prior to July 5, 1997, may be installed in Washington; however, the device shall meet the specifications, tolerances, and technical requirement for weighing and measuring devices in National Institute of Standards and Technology Handbook 44 and be traceable to a Certificate of Conformance.

(8) One-of-a-kind device — A "one-of-a-kind" device is not required to be traceable to a Certificate of Conformance. However, if the manufacturer decides to make an additional device or devices, the device will no longer be considered to be "one-of-a-kind" and it shall be traceable to a Certificate of Conformance. For scales, the load cells and electronic indicators must be traceable to a Certificate of Conformance.

(9) Repaired device — If a person makes changes to a device to the extent that the metrological characteristics are changed, that specific device is no longer traceable to the Certificate of Conformance.

(10) Remanufactured device — If a person repairs or remanufactures a device, they are obligated to repair or remanufacture it consistent with the manufacturer's original design; otherwise, that specific device is no longer traceable to a Certificate of Conformance.

(11) Copy of a device — The manufacturer who copies the design of a device that is traceable to a Certificate of Conformance, but which is made by another company, must obtain a separate Certificate of Conformance for the device. The Certificate of Conformance for the original device shall not apply to the copy.

(12) Device components — If a person buys a load cell(s) and an indicating element that are traceable to Certificates of Conformance and then manufactures a device from the parts, that person shall obtain a Certificate of Conformance for the device.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 98-01-014, § 16-664-040, filed 12/5/97, effective 1/5/97; 97-12-076, § 16-664-040, filed 6/4/97, effective 7/5/97.]

WAC 16-664-050 Unlawful acts. It shall be unlawful for a person to:

(1) Use a device in commercial application if a Certificate of Conformance has not been issued for such device, unless exempt under WAC 16-664-040;

(2) Sell a device for use in commercial application if a Certificate of Conformance has not been issued for such device, unless exempt under WAC 16-664-040.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 97-12-076, § 16-664-050, filed 6/4/97, effective 7/5/97.]

WAC 16-664-060 Penalty. Any person who violates the provisions of this chapter is subject to penalties as provided under chapter 19.94 RCW.

[Statutory Authority: RCW 19.94.190 and 19.94.195. 97-12-076, § 16-664-060, filed 6/4/97, effective 7/5/97.]

Chapter 16-674 WAC

WEIGHTS AND MEASURES—EXEMPTIONS, WEIGHMASTERS AND DEVICE REGISTRATION

WAC

16-674-010	Exemptions and definitions.
16-674-030	Weighmaster license issuance, expiration and fees.
16-674-040	Weighmaster license—Late renewal penalty.
16-674-050	Weigher license.
16-674-055	Weighing and measuring devices.
16-674-095	Device registration.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-674-001	Promulgation. [Order 792, Promulgation, filed 3/1/60.] Decodified by Order 1145, filed 2/27/70. Later promulgation, see WAC 16-674-002.
16-674-002	Promulgation. [Order 1145, § 16-674-002, filed 2/27/70, effective 4/1/70. Formerly WAC 16-650-001.] Repealed by 93-03-079, filed 1/19/93, effective 2/19/93. Statutory Authority: 1992 c 237.
16-674-020	Disposition of condemned and confiscated weights and measures. [Order 1145, § 16-674-020, filed 2/27/70, effective 4/1/70; Order 897, Regulation 3, filed 1/14/63.] Repealed by 93-03-079, filed 1/19/93, effective 2/19/93. Statutory Authority: 1992 c 237.
16-674-060	Inspection and testing fees. [Statutory Authority: 1992 c 237. 93-03-079, § 16-674-060, filed 1/19/93, effective 2/19/93.] Repealed by 96-01-040, filed 12/13/95, effective 1/13/96. Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16.
16-674-065	Special inspection and testing fees. [Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-065, filed 12/13/95, effective 1/13/96.] Repealed by 02-15-141, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. Later promulgation, see WAC 16-675-050.
16-674-070	Late fees. [Statutory Authority: 1992 c 237. 93-03-079, § 16-674-070, filed 1/19/93, effective 2/19/93.] Repealed by 96-01-040, filed 12/13/95, effective 1/13/96. Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16.
16-674-080	Fees for federal grain elevator scales. [Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-080, filed 12/13/95, effective 1/13/96. Statutory Authority: 1992 c 237. 93-03-079, § 16-674-080, filed 1/19/93, effective 2/19/93.] Repealed by 02-15-141, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410.
16-674-090	Fees for railroad track scales. [Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-090, filed 12/13/95, effective 1/13/96. Statutory

Authority: 1992 c 237. 93-03-079, § 16-674-090, filed 1/19/93, effective 2/19/93.] Repealed by 02-15-141, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. Later promulgation, see WAC 16-675-060.

16-674-092 Service agent registration. [Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-092, filed 12/13/95, effective 1/13/96.] Repealed by 00-22-072, filed 10/30/00, effective 11/30/00. Statutory Authority: RCW 19.94.010, 19.94.190.

16-674-100 City sealers report forms prescribed. [Statutory Authority: 1992 c 237. 93-03-079, § 16-674-100, filed 1/19/93, effective 2/19/93.] Repealed by 96-01-040, filed 12/13/95, effective 1/13/96. Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16.

WAC 16-674-010 Exemptions and definitions. (1)

The weighing or measuring instruments or devices listed below are exempted from the sealing or marking inspection and testing requirements of RCW 19.94.163, because they are of such character or size that such sealing or marking would be inappropriate, impractical, or damaging to the apparatus in question:

- (a) Measure containers
- (b) Milk bottles
- (c) Lubricating oil bottles
- (d) Berry baskets and boxes.

(2) Unless the context clearly requires otherwise, the definitions provided for in chapter 19.94 RCW and in this section shall apply to this chapter.

(a) "Commercial weighing or measuring device" shall be construed to include any weighing or measuring device commercially used or employed in establishing the size, quantity, extent, area, or measurement of quantities, things, produce, or articles for distribution or consumption, purchased, offered, or submitted for sale, hire, or award, or in computing any basic charge or payment for services rendered on the basis of weight or measure. It shall also include any accessory attached to or used in connection with a commercial weighing or measuring device when such accessory is so designed or installed that its operation affects the accuracy of the device.

(b) "Owner" shall be construed to mean the individual or business actually using a weighing or measuring device for commercial purposes, regardless of who is the legal owner or lien holder of such device.

[Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. 02-15-141, § 16-674-010, filed 7/22/02, effective 8/22/02. Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-010, filed 12/13/95, effective 1/13/96. Statutory Authority: 1992 c 237. 93-03-079, § 16-674-010, filed 1/19/93, effective 2/19/93; Order 1145, § 16-674-010, filed 2/27/70, effective 4/1/70; Order 792, Regulation 3, effective 3/1/60.]

WAC 16-674-030 Weighmaster license issuance, expiration and fees. (1) Weighmaster licenses issued under RCW 15.80.460 shall expire on June 30th following the date of issuance.

(2) Upon expiration, suspension or revocation of the license, the weighmaster must surrender their impression seal to the director or his representative within ten days if they do not renew their license, if their license is suspended or if their license is revoked. The seal may be surrendered by sending the seal to the department or by surrendering the seal to the director or his duly appointed representative.

(3) Businesses or individuals applying to renew their license or applying for their initial license with the department must have a current bond in the amount of one thousand dollars and that bond must remain in force and effect for not less than the entire licensing period.

(4) Weighing and measuring devices used by weighmasters are considered to be in commercial use and must be registered. Registrations are accomplished through the department of licensing as part of the master license service under chapter 19.02 RCW.

(5) Proof of a scale test within the last twelve months must be submitted with the application.

(6) Applications must be submitted with proper fees.

(7) Fees for weighmasters are as follows:

Item	Fee
Annual application	\$ 20.00
Each weigher	\$ 5.00
Each seal rental	\$ 5.00
Replacement seal	\$ 25.00
Late renewal penalty	50% of total renewal fee

(8) Applications received without subsections (3), (4), (5) and (6) of this section will be considered incomplete applications and will be returned to the applicant.

[Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. 02-15-141, § 16-674-030, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 15.32.100, 15.32.110, 15.32.584, 69.07.040, 16.49.440, 16.49.630, 15.80.460, 15.80.470, 15.80.500, 16.58.060, 20.01.050, 22.09.050, 22.09.055, 22.09.070, 22.09.075, 17.21.070, 17.21.110, 17.21.126, 17.21.129, 17.21.220, 17.21.122, 15.58.200, 15.58.210, 15.58.220, 17.21.140 and 16.57.080. 91-16-005 (Order 2091), § 16-674-030, filed 7/25/91, effective 8/25/91.]

WAC 16-674-040 Weighmaster license—Late renewal penalty. (1) Renewal applications for weighmaster licenses issued under chapter 15.80 RCW not filed by July 1st of any one year are subject to a penalty of fifty percent of the renewal fee as provided by RCW 15.80.470.

(2) Nothing herein shall be construed to limit the department's ability, as otherwise provided by law, to deny a license, to condition license renewal, or to enforce violations of applicable laws, subsequent to the expiration of a license.

[Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. 02-15-141, § 16-674-040, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 15.32.100, 15.32.110, 15.32.584, 69.07.040, 16.49.440, 16.49.630, 15.80.460, 15.80.470, 15.80.500, 16.58.060, 20.01.050, 22.09.050, 22.09.055, 22.09.070, 22.09.075, 17.21.070, 17.21.110, 17.21.126, 17.21.129, 17.21.220, 17.21.122, 15.58.200, 15.58.210, 15.58.220, 17.21.140 and 16.57.080. 91-16-005 (Order 2091), § 16-674-040, filed 7/25/91, effective 8/25/91.]

WAC 16-674-050 Weigher license. Weigher licenses issued under RCW 15.80.500 shall expire on June 30th following the date of issuance.

[Statutory Authority: RCW 15.32.100, 15.32.110, 15.32.584, 69.07.040, 16.49.440, 16.49.630, 15.80.460, 15.80.470, 15.80.500, 16.58.060, 20.01.050, 22.09.050, 22.09.055, 22.09.070, 22.09.075, 17.21.070, 17.21.110, 17.21.126, 17.21.129, 17.21.220, 17.21.122, 15.58.200, 15.58.210, 15.58.220, 17.21.140 and 16.57.080. 91-16-005 (Order 2091), § 16-674-050, filed 7/25/91, effective 8/25/91.]

WAC 16-674-055 Weighing and measuring devices. (1) Weighing and measuring devices used by weighmasters

[Title 16 WAC—p. 634]

must meet all legal requirements for commercial weighing and measuring devices.

(2) Effective September 1, 2002, weighmaster scales must be tested not less than every twelve months and must conform to the tolerances and specifications in the edition of NIST Handbook 44, "*Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices*," adopted by the department in chapter 16-662 WAC. Inspections must be performed by either service agents registered with the department or by the department. The department is under no obligation to provide this inspection service.

(3) A legible copy of the current scale inspection and current master business license must be maintained at the same site as the scale and must be immediately made available to the director or his representative upon request.

[Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. 02-15-141, § 16-674-055, filed 7/22/02, effective 8/22/02.]

WAC 16-674-095 Device registration. (1) All weighing or measuring devices used for commercial purposes in the state shall be registered annually. Devices in commercial use within a city having a city sealer and a weights and measures program that has adopted registration fees shall be registered with the city. Devices used commercially outside of such city shall register with the department. If the commercial use of the device is within such city that has not adopted fees, the device shall be registered with the department.

(2) The device registration fees established in RCW 19.94.175 shall apply unless a city jurisdiction has adopted separate registration fees for devices used within its jurisdiction. Cities may establish separate annual registration fees for devices within city jurisdictions; however, they may not exceed the fees in RCW 19.94.175 for registering the use of a similar instrument or device. Payment of the device registration fee constitutes registration. Cities shall notify the department of agriculture regarding the adoption of fee levels and any changes in fees.

(3) All device registrations with the department shall be accomplished as part of the department of licensing, master license system under chapter 19.02 RCW. Devices shall be initially registered at the time the owner applies for a master license for a new business or when the device is first placed into commercial use. Device registrations with a city may be accomplished through the master licensing system with a letter of request for implementation assistance from the city to the department of agriculture.

(4) The department of licensing shall remit to the department of agriculture all registration fees collected less reasonable collection expenses. The department of agriculture shall forward to the city that portion of fees attributable to city registrations.

[Statutory Authority: RCW 19.94.010, 19.94.190, and 15.18.410. 02-15-141, § 16-674-095, filed 7/22/02, effective 8/22/02. Statutory Authority: 1995 c 355 §§ 1, 2, 3, 4, 9, 10, 15 and 16. 96-01-040, § 16-674-095, filed 12/13/95, effective 1/13/96.]

(2007 Ed.)

Chapter 16-675 WAC**CALIBRATION SERVICES, SPECIAL INSPECTION AND TESTING FEES****WAC**

- 16-675-015 What is the purpose of this chapter?
 16-675-025 What definitions apply to this chapter?
 16-675-035 What condition must your weights and measures standards be in when they are submitted to the laboratory for testing or calibration?
 16-675-037 Does the laboratory repair weights and measures standards brought in for testing and calibration?
 16-675-045 What fees does the laboratory charge for the services it performs?
 16-675-055 What fees are charged when the inspecting and testing of a weighing or measuring device is specifically requested by the device's owner?
 16-675-065 What requirements apply to testing railroad track scales in Washington state?

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

- 16-675-010 Purpose. [Statutory Authority: RCW 19.94.216, 19.94.315, 02-15-140, § 16-675-010, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.216 and 19.94.325, 97-12-024, § 16-675-010, filed 5/29/97, effective 6/29/97; 95-21-097 (Order 5084), § 16-675-010, filed 10/18/95, effective 11/18/95. Statutory Authority: Chapter 19.94 RCW, 94-12-035, § 16-675-010, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 19.94.190 and chapter 19.94 RCW, 90-24-004 (Order 2063), § 16-675-010, filed 11/26/90, effective 12/27/90.] Repealed by 04-23-043, filed 11/10/04, effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.
- 16-675-020 Definitions. [Statutory Authority: RCW 19.94.216 and 19.94.325, 97-12-024, § 16-675-020, filed 5/29/97, effective 6/29/97. Statutory Authority: RCW 19.94.190 and chapter 19.94 RCW, 90-24-004 (Order 2063), § 16-675-020, filed 11/26/90, effective 12/27/90.] Repealed by 04-23-043, filed 11/10/04, effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.
- 16-675-029 Condition of submitted weights and measures. [Statutory Authority: Chapter 19.94 RCW, 94-12-035, § 16-675-029, filed 5/25/94, effective 6/25/94.] Repealed by 95-21-097 (Order 5084), filed 10/18/95, effective 11/18/95. Statutory Authority: RCW 19.94.216 and 19.94.325.
- 16-675-030 Condition of submitted weights and measures. [Statutory Authority: RCW 19.94.216, 19.94.315, 02-15-140, § 16-675-030, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.216, 98-12-030, § 16-675-030, filed 5/28/98, effective 6/28/98. Statutory Authority: RCW 19.94.216 and 19.94.325, 97-12-024, § 16-675-030, filed 5/29/97, effective 6/29/97; 95-21-097 (Order 5084), § 16-675-030, filed 10/18/95, effective 11/18/95. Statutory Authority: Chapter 19.94 RCW, 94-12-035, § 16-675-030, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 19.94.190 and chapter 19.94 RCW, 90-24-004 (Order 2063), § 16-675-030, filed 11/26/90, effective 12/27/90.] Repealed by 04-23-043, filed 11/10/04, effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.
- 16-675-039 Schedule of laboratory fees. [Statutory Authority: Chapter 19.94 RCW, 94-12-035, § 16-675-039, filed 5/25/94, effective 6/25/94.] Repealed by 95-21-097 (Order 5084), filed 10/18/95, effective 11/18/95. Statutory Authority: RCW 19.94.216 and 19.94.325.
- 16-675-040 Schedule of laboratory fees. [Statutory Authority: RCW 19.94.216, 19.94.315, 02-15-140, § 16-675-040, filed 7/22/02, effective 8/22/02. Statutory Authority: RCW 19.94.216, 98-12-030, § 16-675-040, filed 5/28/98, effective 6/28/98. Statutory Authority: RCW 19.94.216 and 19.94.325, 97-12-024, § 16-675-040, filed 5/29/97, effective 6/29/97; 95-21-097 (Order 5084), § 16-675-040, filed 10/18/95, effective 11/18/95. Statutory Authority: Chapter 19.94 RCW, 94-12-035, § 16-675-040, filed 5/25/94, effective 6/25/94. Statutory Authority: RCW 19.94.190 and chapter 19.94 RCW, 90-24-004 (Order 2063), § 16-675-040, filed 11/26/90, effective 12/27/90.] Repealed by 04-23-043, filed 11/10/04,

effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.

16-675-050 Special inspection and testing fees. [Statutory Authority: RCW 19.94.216, 19.94.315, 02-15-140, § 16-675-050, filed 7/22/02, effective 8/22/02.] Repealed by 04-23-043, filed 11/10/04, effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.

16-675-060 Fees for railroad track scales. [Statutory Authority: RCW 19.94.216, 19.94.315, 02-15-140, § 16-675-060, filed 7/22/02, effective 8/22/02.] Repealed by 04-23-043, filed 11/10/04, effective 12/11/04. Statutory Authority: Chapters 19.94 and 34.05 RCW.

WAC 16-675-015 What is the purpose of this chapter? The purpose of this chapter is to implement:

(1) RCW 19.94.216(1) and 19.94.325(2), which allows the director of the Washington state department of agriculture to establish reasonable fees for inspection, tolerance testing and calibration services performed on weights and measures standards by the metrology laboratory; and

(2) RCW 19.94.175(3), which allows the director to establish fees for inspecting and testing weighing and measuring devices when the inspections and tests are specifically requested by the device's owner.

[Statutory Authority: Chapters 19.94 and 34.05 RCW, 04-23-043, § 16-675-015, filed 11/10/04, effective 12/11/04.]

WAC 16-675-025 What definitions apply to this chapter? The following definitions apply to this chapter.

"Calibration" means the comparison of a measurement standard or instrument with another standard or instrument to detect, correlate, report, or eliminate, by adjustment, any inaccuracy of the compared standard or instrument.

"Department" means the Washington state department of agriculture (WSDA).

"Director" means the director of the department or the director's designated representative.

"Laboratory" means the metrology laboratory operated by the department.

"Tolerance testing" means a measurement operation performed to determine whether the actual value of a standard, artifact, or instrument is within a permitted tolerance of its nominal value.

[Statutory Authority: Chapters 19.94 and 34.05 RCW, 04-23-043, § 16-675-025, filed 11/10/04, effective 12/11/04.]

WAC 16-675-035 What condition must your weights and measures standards be in when they are submitted to the laboratory for testing or calibration? Weights and measures standards submitted to the laboratory for tolerance testing or calibration must be in a physical condition that allows the laboratory to perform the requested service.

[Statutory Authority: Chapters 19.94 and 34.05 RCW, 04-23-043, § 16-675-035, filed 11/10/04, effective 12/11/04.]

WAC 16-675-037 Does the laboratory repair weights and measures standards brought in for testing and calibration? (1) Weights and measures standards, whose physical condition, prevents the laboratory from performing the requested service may be:

- (a) Returned to the sender at the sender's expense; or
- (b) Repaired, if possible, by the laboratory.
- (2) When possible, the laboratory will make repairs:
 - (a) At the rate of one hundred dollars per hour; and

(b) Only after a signed written repair agreement between the department and the owner of the weights or measures standard is concluded.

(3) All repair fees charged by the laboratory are in addition to any testing or calibration fees charged by the laboratory.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 04-23-043, § 16-675-037, filed 11/10/04, effective 12/11/04.]

WAC 16-675-045 What fees does the laboratory charge for the services it performs? The metrology laboratory charges the following fees for services performed:

Service Performed	Fee
Inspection, tolerance testing and calibration services performed at the metrology laboratory	\$100.00 per hour
Inspection, tolerance testing and calibration services performed at other than the metrology laboratory	\$100.00 per hour plus mileage and per diem at the rates established by the office of financial management (OFM) when the service is performed
Any service provided by the laboratory	Minimum one-half hour charge

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 04-23-043, § 16-675-045, filed 11/10/04, effective 12/11/04.]

WAC 16-675-055 What fees are charged when the inspecting and testing of a weighing or measuring device is specifically requested by the device's owner? The fees in the following table apply to inspecting and testing weighing or measuring devices when the inspection or test is:

(1) Specifically requested by the device's owner or his/her representative; or

(2) Performed on devices used by an agency or institution that receives money from the legislature or the federal government.

Weighing and Measuring Device	Inspection and/or Testing Fee
Small scales "zero to four hundred pounds capacity"	\$15.95 per scale
Intermediate scales "four hundred pounds to five thousand pounds capacity"	\$53.20 per scale
Large scales "over five thousand pounds capacity"	\$133.02 per scale
Large scales with supplemental devices	\$159.62 per scale
Railroad track scales	\$1,064.19 per scale
Liquid fuel meters with flows of less than twenty gallons per minute	\$15.95 per meter
Liquid fuel meters with flows of at least twenty but not more than one hundred fifty gallons per minute	\$53.20 per meter

[Title 16 WAC—p. 636]

Weighing and Measuring Device	Inspection and/or Testing Fee
Fuel meters with flows over one hundred fifty gallons per minute	\$159.62 per meter
Liquid petroleum gas meters with one-inch diameter or smaller dispensers	\$53.20 per meter
Liquid petroleum gas meters with greater than one-inch diameter dispensers	\$159.62 per meter
Inspection services not covered by the above special inspection fees	\$35.91 per hour for labor and travel time (minimum one hour charge)

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 04-23-043, § 16-675-055, filed 11/10/04, effective 12/11/04.]

WAC 16-675-065 What requirements apply to testing railroad track scales in Washington state? (1) All railroad track scale owners in Washington state must provide a suitable:

(a) Facility or facilities for testing track scales;

(b) Car or other device for testing track scales.

(2) The department must use the car, device, or facility provided to test the accuracy of all track scales.

(3) Track scale owners (railroad companies) must move the car, device, or facility to locations designated by the department without charge.

(4) The cost of providing and maintaining the car, device, or facility must be equitably and reasonably apportioned by the department among all railroad track scale owners.

[Statutory Authority: Chapters 19.94 and 34.05 RCW. 04-23-043, § 16-675-065, filed 11/10/04, effective 12/11/04.]

Chapter 16-695 WAC

RULES RELATING TO GINSENG MANAGEMENT

WAC

16-695-005	Purpose.
16-695-010	Definitions.
16-695-015	Collection of wild ginseng.
16-695-020	Dealers and growers—Annual registration with the department—Requirements.
16-695-025	Grower records.
16-695-030	Dealer records.
16-695-035	Out-of-state ginseng.
16-695-040	Selling and/or shipping of ginseng—Certificates.
16-695-045	Maintaining separate lots of ginseng.
16-695-050	Dealer and/or grower holding ginseng after March 31 of the year.
16-695-055	Inspection or submission of records.
16-695-060	Export procedures.
16-695-065	Fees—Hourly, overtime.
16-695-070	Schedule of fees and charges.
16-695-075	Unlawful activities.
16-695-080	Enforcement actions.

WAC 16-695-005 Purpose. These rules are promulgated under chapter 34.05 RCW to establish standards and administer a ginseng management program. This program will promote the production and export of cultivated ginseng and prohibit acts detrimental to the survival of the indigenous wild ginseng population of the United States. These rules shall regulate the sale and export of ginseng, establish a reg-

(2007 Ed.)

istration program for dealers and growers, and provide for the certification of cultivated American ginseng.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-005, filed 11/18/97, effective 12/19/97.]

WAC 16-695-010 Definitions. The following definitions shall apply:

(1) "Cultivated ginseng" means any part of a ginseng plant that is growing or grown in managed beds under artificial or natural shade and cultivated according to recognized ginseng horticultural practices. Cultivated ginseng includes woodsgrown ginseng.

(2) "Dealer" means anyone who buys ginseng for resale, or grows and sells it for export. This definition does not apply to persons who buy ginseng solely for the purpose of final retail sale to consumers in the United States.

(3) "Dealer registration" means an annual registration issued by the department authorizing a dealer to buy, collect, or otherwise acquire ginseng for resale or export.

(4) "Department" means the Washington state department of agriculture.

(5) "Director" means the director of the department or his duly appointed representative.

(6) "Dry weight" means the weight in pounds and ounces of harvested or collected ginseng root that is dried and is no longer viable.

(7) "Export" means export outside the boundaries of the United States.

(8) "Out-of-state ginseng" means ginseng that is grown or originated outside the state of Washington.

(9) "Ginseng" means any and all parts of the plant known as American ginseng (*Panax quinquefolius* L.) including but not limited to: Plants, whole roots, essentially intact roots, root chunks, slices, seeds, and tissue.

(10) "Green ginseng" means a ginseng root from which the moisture has not been removed by drying.

(11) "Green weight" means the weight in pounds and ounces of freshly harvested or collected ginseng root that is not dried and is still viable.

(12) "Grower" means a person who grows "cultivated," "wild simulated" and or "woodsgrown" ginseng, and sells it to a dealer.

(13) "Grower registration" means an annual registration issued by the department which enables a grower to sell cultivated ginseng that the grower has produced.

(14) "Person" means any individual, firm, partnership, corporation, company, society, association or other business entity, and every officer, agent or employee thereof, agency or organized group of persons whether or not incorporated.

(15) "Wild ginseng" means ginseng growing naturally within its native range.

(16) "Wild simulated ginseng" means cultivated ginseng grown in a wooded site where wild ginseng is not established.

(17) "Woodsgrown ginseng" means ginseng grown in managed beds under natural shade.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-010, filed 11/18/97, effective 12/19/97.]

WAC 16-695-015 Collection of wild ginseng. No grower's or dealer's registration will be issued for the collection,

sale or distribution of wild ginseng for the purpose of sale or distribution.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-015, filed 11/18/97, effective 12/19/97.]

WAC 16-695-020 Dealers and growers—Annual registration with the department—Requirements. Dealers and growers must register with the Washington state department of agriculture, and the following requirements apply.

(1) No person may act as a dealer without first registering with the department. Registration shall be made annually on a form provided by the department and will expire on March 31 of each year. The department will assign a registration number to each person registered under this subsection.

(2) No person shall act as a grower without first registering with the department. Registration shall be made annually on a form provided by the department and will expire on March 31 of each year. The department will assign a registration number to each person registered under this subsection.

(3) Any person who acts as a dealer and a grower must register as both.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-020, filed 11/18/97, effective 12/19/97.]

WAC 16-695-025 Grower records. A grower selling cultivated ginseng shall do all of the following when selling to a dealer:

(a) Provide a record of sale containing all of the following information to the dealer:

- (i) Grower's name and address;
- (ii) Grower's registration number;
- (iii) Ginseng certificate number;
- (iv) Ginseng dry weight;
- (v) Year harvested;
- (vi) County of harvest;
- (vii) Date of transaction;

(b) Certify that the ginseng was grown in Washington state. The certificate of origin shall be in the form prescribed by the director;

(c) Maintain records of all ginseng production and sales. Records must be maintained for a period of three years.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-025, filed 11/18/97, effective 12/19/97.]

WAC 16-695-030 Dealer records. Dealers shall keep true and accurate records of transactions, including both sales and purchase records, in a format prescribed by the director. Records must be maintained for a period of three years.

(1) Purchase records shall include:

- (a) Dealer's name;
- (b) Dealer's registration number;
- (c) Dealer's address;
- (d) Grower/seller name;
- (e) Grower/seller registration number;
- (f) Ginseng weight in pounds and ounces;
- (g) Designation of green or dry ginseng;
- (h) Designation of wild or cultivated ginseng;
- (i) Harvest year of ginseng;
- (j) County in which the ginseng was harvested;
- (k) Date of transaction;

(2) Sales records shall include the following information:

- (a) Dealer's name;
- (b) Dealer's registration number;
- (c) Dealer's address;
- (d) Buyer's name;
- (e) Buyer's registration number;
- (f) Ginseng weight in pounds and ounces;
- (g) Designation of green or dry ginseng;
- (h) Designation of wild or cultivated ginseng;
- (i) Harvest year;
- (j) County in which the ginseng was harvested;
- (k) Date of transaction.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-030, filed 11/18/97, effective 12/19/97.]

WAC 16-695-035 Out-of-state ginseng. (1) No dealer may purchase, receive or import out-of-state ginseng unless it is accompanied by a valid certificate of origin issued by the state or country of origin. The certificate must include the state or country of origin, the source (wild or cultivated), year of harvest, and dry weight of the out-of-state ginseng.

(2) The dealer shall retain for a period of three years a copy of each written certificate of origin received.

(3) If a dealer receives ginseng not accompanied by a valid certificate of origin, the uncertified ginseng must be returned within 30 days to the state or country of origin. Failure to do so shall render the ginseng illegal for commerce.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-035, filed 11/18/97, effective 12/19/97.]

WAC 16-695-040 Selling and/or shipping of ginseng—Certificates. (1) Except as described in subsection (7) of this section, no person shall sell or ship ginseng out-of-state or export Washington grown ginseng unless it is accompanied by a valid, prenumbered certificate of origin on a form issued by the department. The department shall, upon request and payment of the required fee(s), provide each registered grower or dealer with forms for certificates of origin. The department shall identify each certificate of origin form with a serial number, the registration number of the grower or dealer, and the expiration date of the certificate. The expiration date shall be the following March 31. Registered growers or dealers may certify their own cultivated ginseng by filling out and signing a certificate of origin form. The certificate of origin shall contain the following information:

- (a) State of origin;
- (b) Serial number of certificate;
- (c) Dealer's and/or grower's state registration number;
- (d) Year of harvest of ginseng being certified;
- (e) Designation as cultivated roots or plants;
- (f) Designation as dried or fresh (green) roots, or live plants;
- (g) Weight of roots or plants (or number of plants) separately expressed both numerically and in writing;
- (h) Date of certification;
- (i) Signature of grower or dealer making certification.

(2) All of the following conditions must be met in order for a Washington certificate of origin to be valid:

- (a) The certificate of origin form must be used on or prior to its expiration date,

[Title 16 WAC—p. 638]

(b) The certificate must be signed by the grower or dealer whose registration number was entered on it by the department, and

(c) The ginseng must be cultivated ginseng grown in Washington state.

(3) Forms for certificates of origin are issued by the department in triplicate. The original is designated for the dealer's use in commerce; the first copy is for the dealer's records; and the second copy shall be sent within two weeks of issuance by the grower or dealer to the Washington State Department of Agriculture, Laboratory Services Division, 1111 Washington Street, P.O. Box 42560, Olympia, WA 98504-2560.

(4) Unused forms for certificates of origin shall become void on the March 31 following issuance by WSDA. All voided certificates of origin and forms for certificates of origin shall be sent within two weeks to the Washington State Department of Agriculture, Laboratory Services Division, 1111 Washington Street, P.O. Box 42560, Olympia, WA 98504-2560.

(5) No person shall export ginseng grown in Washington using an out-of-state issued certificate.

(6) Certificates of origin shall not be issued for wild ginseng.

(7) Subsection (1) of this section shall not apply to a person who sells or ships cultivated ginseng out-of-state to a person who is buying or receiving it solely for the purpose of final retail sale to consumers in the United States, if the person selling or shipping keeps a record for a period of three years which includes:

- (a) Name and address of the buyer or receiver;
- (b) Weight of the ginseng in pounds and ounces;
- (c) Date of the sale or shipment;
- (d) County of harvest of the ginseng;
- (e) Year of harvest of the ginseng.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-040, filed 11/18/97, effective 12/19/97.]

WAC 16-695-045 Maintaining separate lots of ginseng. Dealers shall maintain separation between lots of out-of-state ginseng and that harvested in Washington until a certificate of origin has been issued for the ginseng harvested in the state.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-045, filed 11/18/97, effective 12/19/97.]

WAC 16-695-050 Dealer and/or grower holding ginseng after March 31 of the year. Any grower or dealer holding ginseng on or after March 31 must report all carryover stocks on a form provided by the department, which shall list name and address of the grower or dealer, location of the lot, lot identification, county of harvest, dry or green weight in pounds and ounces, and year of harvest.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-095-050, filed 11/18/97, effective 12/19/97.]

WAC 16-695-055 Inspection or submission of records. (1) All records required to be kept under this chapter must be made available to the Washington state department

(2007 Ed.)

of agriculture upon request for audit, inspection, and/or copying.

(2) Pursuant to the authority provided in chapter 15.17 RCW, the department shall not disclose information obtained regarding purchases, sales, or production of an individual American ginseng dealer, except for providing reports to the United States Fish and Wildlife Service. This information is exempt from public disclosure required by chapter 42.17 RCW.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-055, filed 11/18/97, effective 12/19/97.]

WAC 16-695-060 Export procedures. Valid federal CITES documents are necessary to export ginseng.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-060, filed 11/18/97, effective 12/19/97.]

WAC 16-695-065 Fees—Hourly, overtime. Fees shall be charged sufficient to cover the department's cost of implementing this chapter.

(1) Ginseng certification activities shall be provided at an hourly and overtime rate. The overtime rate shall apply for service provided subsequent to a regularly scheduled eight-hour week day shift or on Saturdays, Sundays, and state legal holidays. No service will be performed on Thanksgiving Day, Christmas Day or New Years Day, beginning at 5:00 p.m., on the previous day.

(2) Charges shall be for a minimum of one hour. Additional time shall be charged in one-half hour increments.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-065, filed 11/18/97, effective 12/19/97.]

WAC 16-695-070 Schedule of fees and charges. The following schedule for ginseng certification activities shall apply:

- (1) Certificate of origin form, each \$25.65
- (2) Hourly rate as established in chapter 16-401 WAC.
- (3) Overtime rate as established in chapter 16-401 WAC.
- (4) Travel time at the appropriate hourly or overtime rate shall be assessed.

(5) Mileage and per diem shall be charged at the rate established by the state office of financial management.

(6) Postage and other miscellaneous costs shall be charged back at actual cost.

(7) Certification activities shall include auditing records of the production, sales and storage of ginseng, and issuing certificates.

[Statutory Authority: Chapter 15.19 RCW. 02-12-031, § 16-695-070, filed 5/29/02, effective 6/29/02. Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-070, filed 11/18/97, effective 12/19/97.]

WAC 16-695-075 Unlawful activities. A person shall not do any of the following:

- (1) Fail to maintain all required records.
- (2) Fail to submit information to the department as required in WAC 16-695-050.
- (3) Fail to submit voided certificates of origin or forms for certificates of origin to the department.
- (4) Buy, otherwise acquire, or possess uncertified ginseng, which is required by this chapter to be certified.
- (5) Export uncertified ginseng from this state.

(2007 Ed.)

(6) Possess ginseng originating from another state without authorization from the state of origin.

(7) Violate chapter 15.17 RCW or any rule promulgated thereunder, or any lawful order of the director.

(8) Knowingly provide incorrect or false information on a registration application, report, certificate of origin, or other document required under this act.

(9) Provide a purchaser with a record of sale for more ginseng than is actually sold or otherwise exchanged.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-075, filed 11/18/97, effective 12/19/97.]

WAC 16-695-080 Enforcement actions. (1) The director may take any enforcement action authorized by chapter 15.17 RCW.

(2) Upon determination that an applicant or registered ginseng dealer or grower has violated this chapter, and after following the notice and hearing requirements and provisions of chapter 34.05 RCW concerning adjudicative proceedings, the director of the department may deny, suspend, or revoke any registration or application for registration.

[Statutory Authority: Chapter 15.17 RCW. 97-23-059, § 16-695-080, filed 11/18/97, effective 12/19/97.]

Chapter 16-700 WAC

STATE FAIR FUND—PRORATION

WAC

16-700-002	Definition.
16-700-010	Activity reports required.
16-700-011	Fair reorganization.
16-700-021	Qualifications.
16-700-022	Requirements.
16-700-024	Director's review.
16-700-027	Board of directors.
16-700-030	Effect of donated labor, materials, and equipment.
16-700-040	Consideration given to community support.
16-700-050	Merit criteria.
16-700-060	Criteria for youth shows and fairs.
16-700-070	Reserve for disaster grants.
16-700-075	Special assistance grant limits.
16-700-080	Qualifying premiums and prizes.
16-700-090	Effective date.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-700-001	Promulgation. [Order 1279, § 16-700-001, filed 11/28/72, effective 1/1/73; Order 847, Promulgation, effective 6/8/61.] Repealed by 80-01-019 (Order 1662), filed 12/14/79, effective 1/1/81.
16-700-020	Allocations. [Order 1279, § 16-700-020, filed 11/28/72, effective 1/1/73; Order 847, Regulation 2, effective 6/8/61.] Repealed by 80-01-019 (Order 1662), filed 12/14/79, effective 1/1/81.

WAC 16-700-002 Definition. Agricultural fair: A fair or exhibition which is intended to promote agriculture by including a balanced variety of exhibits of livestock and agricultural products, as well as related arts and manufactures; including products of the farm home, and educational contests, displays, and demonstrations designed to train youth and to promote the welfare of farm people and rural living.

[Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-002, filed 12/14/79, effective 1/1/81.]

WAC 16-700-010 Activity reports required. Any area county fair desiring to apply for an allocation from the state fair fund under the provisions of chapter 61, Laws of 1961, must submit to the director annually, on or before February 15 of the following year, reports covering all of its activities on forms to be supplied by the director, and include a certified auditor's report of receipts and expenditures attributed to the fair. Any community fair or youth show must submit to the director annually, on or before December 1, the reports of its activities on forms to be supplied by the director.

[Statutory Authority: RCW 15.76.180. 97-04-078, § 16-700-010, filed 2/5/97, effective 3/8/97; Order 1279, § 16-700-010, filed 11/28/72, effective 1/1/73; Order 847, Regulation 1, effective 6/8/61.]

WAC 16-700-011 Fair reorganization. Beginning January 1, 1994, and until June 30, 1997, the director may waive applications requirements, as defined in WAC 16-700-010 and adjust the basic annual allocation as defined in WAC 16-700-021, when a county fair reorganizes and makes application for allocation from the fair fund as an area fair.

[Statutory Authority: RCW 15.76.180. 95-15-101, § 16-700-011, filed 7/19/95, effective 8/19/95.]

WAC 16-700-021 Qualifications. (1) Any community fair applying for an allocation from the state fair fund shall have on display or exhibit at one place, open to the public, for at least a seven-hour period:

(a) Three or more of the following animal categories: Beef, sheep, swine, horses, dairy, goats, llamas, dogs, and poultry and rabbits (poultry and rabbits being in one category) with at least five exhibits in each category, except poultry and rabbits and dogs which shall have ten; and

(b) At least three of the following categories: Foods, clothing, horticulture, crops, floriculture, arts and crafts, with at least five exhibits in each category.

(c) Each category, to qualify as per above, shall have at least three exhibitors.

(d) Each fair shall have at least twenty-five exhibitors in total.

(2) Such community fair, whose application is accepted by the director, shall be entitled to an annual allocation of up to fifty percent of the premiums and prizes paid to the participants. An allocation of up to one hundred percent reimbursement of premiums and prizes paid may be made on a merit basis to such fairs as reporting one thousand dollars or more of the value of such premiums and prizes: Provided, That any community fair that has for its purpose the education and training of youth in the matters of rural living and production agriculture and serving the 4-H and FFA members and all interested youth in its community, may qualify for an allocation with:

(a) Three or more of the following categories: Beef, sheep, swine, dairy, horses, llamas or goats; or

(b) At least two of the following categories: Beef, sheep, swine, dairy, llamas and/or goats, and at least two of the following categories: Foods, clothing, horticulture, crops, floriculture, arts and crafts, dogs, poultry and/or rabbits (poultry and/or rabbits being one category).

(c) Each category, to qualify as per above, shall have at least three exhibitors.

[Title 16 WAC—p. 640]

(d) Each fair shall have at least twenty-five exhibitors in total.

(e) All such exhibits are to be exhibited by youth exhibitors, at one place, open to the public, for at least a seven-hour period. Such fair shall be entitled to a maximum annual allocation of up to fifty percent reimbursement of premiums and prizes.

(3) Any area fair may not receive an allocation in excess of the total reimbursement of premiums and prizes.

[Statutory Authority: RCW 15.76.180. 97-12-028, § 16-700-021, filed 5/30/97, effective 6/30/97; 97-04-078, § 16-700-021, filed 2/5/97, effective 3/8/97. Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-021, filed 12/14/79, effective 1/1/81.]

WAC 16-700-022 Requirements. All agricultural fairs shall:

(1) Have a written statement of aims and purposes made public.

(2) Provide special activities for youth development, such as judging contests, educational demonstrations, and displays designed to train youth.

(3) Hold all activities to be considered as part of the fair on consecutive days: Provided, That a portion of these activities may be held up to seven days before the first day of the fair.

[Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-022, filed 12/14/79, effective 1/1/81.]

WAC 16-700-024 Director's review. Any fair not qualifying under WAC 16-700-021 or 16-700-022(3) may apply to the director for a review of its circumstances and the director is authorized to determine eligibility on the basis of those circumstances on a case-by-case basis.

[Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-024, filed 12/14/79, effective 1/1/81.]

WAC 16-700-027 Board of directors. Area and community fairs and youth shows shall have an organized governing board of directors, be nonprofit, and show evidence of community support.

[Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-027, filed 12/14/79, effective 1/1/81.]

WAC 16-700-030 Effect of donated labor, materials, and equipment. For the purpose of matching state fair fund allocations those fairs whose local resources are not sufficient to match dollar for dollar may in preparing their annual reports place a reasonable itemized monetary value upon donated labor, materials and equipment used in the construction, repairing and maintenance of fair grounds, buildings and facilities.

[Order 847, Regulation 3, effective 6/8/61.]

WAC 16-700-040 Consideration given to community support. Special consideration may be given to each of the several criteria by which fairs are to receive a merit rating. Special consideration may be given, however, to small and comparatively isolated fairs with limited local resources when such fairs have shown that a maximum community effort has been made in support of these fairs.

(2007 Ed.)

[Statutory Authority: RCW 15.76.180. 97-04-078, § 16-700-040, filed 2/5/97, effective 3/8/97; Order 847, Regulation 4, effective 6/8/61.]

WAC 16-700-050 Merit criteria. The merit of area, district, county and community fairs shall be determined on the basis of the following criteria:

(1) **Aims and purposes:** For what reason or purposes is the show held and what is the evidence of successful achievement of these aims and purposes?

(2) **Organization and management:** To what extent is the organization, its officers and management, and the physical facilities and financial resources geared to accomplish the objectives stated above?

(3) **Area served:** What is the extent of the area from which exhibits and exhibitors are drawn and the extent of the area served?

(4) **General attractiveness:** Are the agricultural, educational, commercial and recreational features wellbalanced, making the fair attractive to the fairgoing public?

(5) **Exhibits:** What is the number, quality and diversity of exhibits and their general rating judged by recognized standards of excellence, as well as their neatness and orderliness in all departments, in open and junior classes?

(6) **Community, county or area interest:** How is full participation and support of the area served indicated by (a) attendance, both paid and total, and (b) by active support of service clubs, farm organizations and other groups?

(7) **Success of the fair:** How successful does the fair appear, measured by its accomplishment in relation to resources available?

[Statutory Authority: RCW 15.76.180. 97-04-078, § 16-700-050, filed 2/5/97, effective 3/8/97; Order 847, Regulation 5, effective 6/8/61.]

WAC 16-700-060 Criteria for youth shows and fairs. Youth shows and fairs shall be judged on a merit basis according to the following criteria:

(1) **Aims and purposes:** To what extent does the show supplement 4-H, FFA and other related youth programs and to what extent does it provide opportunity for showing results of supervised training in these programs?

(2) **Organization and management:** To what extent is the organization, its officers and management and the physical setup geared to accomplish the objectives stated above?

(3) **Scope:** What does the show include in the nature of youth participation, such as number of participants, kind and number of exhibits or displays, and the clubs or chapters represented?

(4) **Quality:** What is the general attractiveness of the show in all departments, the general rating of exhibits judged by recognized standards of excellence, and the neatness and orderliness in all departments?

(5) **Financial statement:** What are the receipts of all kinds, the expenditures, including salaries and wages, premiums paid, financial reserves and general obligations?

(6) **Area and/or community support:** In what ways does the area served support this show?

(7) **Special activities:** To what extent does the show provide special activities for youth development, such as judging contests, educational demonstrations, banquets, barbecues, programs, or other supervised recreation?

(2007 Ed.)

[Statutory Authority: RCW 15.76.180. 97-04-078, § 16-700-060, filed 2/5/97, effective 3/8/97; Order 847, Regulation 6, effective 6/8/61.]

WAC 16-700-070 Reserve for disaster grants. Allocations to fairs from the special assistance portion of the state fair fund shall be made on a matching basis except that this requirement may be waived in the case of assistance due to disasters resulting from fire, flood, wind, snow, earthquake or other acts of God. A reserve of not less than \$5,000 shall be held for the purpose of making disaster grants.

[Order 847, Regulation 7, effective 6/8/61.]

WAC 16-700-075 Special assistance grant limits. The director may limit the grants from the special assistance portion of the state fair fund to disaster grants to county and area fairs, as defined in WAC 16-700-070.

[Statutory Authority: RCW 15.76.180. 93-02-028, § 16-700-075, filed 12/31/92, effective 2/1/93.]

WAC 16-700-080 Qualifying premiums and prizes. Premiums and prizes that qualify for listing for allocation purposes shall be those paid for exhibits and educational contests, displays, and demonstrations of an educational nature. This is not to include judges fees and expenses, livestock sale revenues, prizes or premiums for promotion or entertainment activities such as queen contests, parades, dances, rodeos, and races.

[Statutory Authority: RCW 15.76.180. 97-04-078, § 16-700-080, filed 2/5/97, effective 3/8/97; Order 1279, § 16-700-080, filed 11/28/72, effective 1/1/73.]

WAC 16-700-090 Effective date. The effective date of these amended rules shall be January 1, 1981 (WAC 16-700-001, 16-700-020, 16-700-021, 16-700-022, 16-700-024, 16-700-027, and 16-700-090).

[Statutory Authority: Chapter 15.76 RCW. 80-01-019 (Order 1662), § 16-700-090, filed 12/14/79, effective 1/1/81.]

Chapter 16-720 WAC

DIETARY SUPPLEMENTS—ELEMENTAL IRON

WAC

16-720-001	Promulgation.
16-720-010	Definition.
16-720-020	Requirement.
16-720-030	Penalty.

Reviser's note: By the promulgation of Order 1483, filed in the office of the code reviser on September 2, 1976, the effective date of chapter 16-720 WAC, was extended from January 1, 1977, to June 2, 1977.

WAC 16-720-001 Promulgation. I, Stewart Bledsoe, director of agriculture of the state of Washington, by virtue of the authority vested in me under chapter 70.106 RCW, after due notice as provided under chapters 42.32 [42.30] and 34.04 RCW, and a public hearing held in Olympia, Washington on January 28, 1976 and on August 30, 1976 do hereby promulgate the following regulations requiring dietary iron supplements and dietary multiple-vitamin-with iron supplements to be packaged in child-resistant containers.

[Order 1483, § 16-720-001, filed 9/2/76, effective 6/2/77; Order 1433, § 16-720-001, filed 3/1/76, effective 1/1/77.]

WAC 16-720-010 Definition. Dietary supplement means any vitamin and/or mineral preparation offered in tablet, capsule, wafer or other similar uniform unit form; in powder, granular, flake, or liquid form; or in the physical form of a conventional food but which is not a conventional food; and which purports to be or is represented for special dietary use by humans to supplement their diets by increasing the total dietary intake of one or more of the essential vitamins and/or minerals.

[Order 1483, § 16-720-010, filed 9/2/76, effective 6/2/77; Order 1433, § 16-720-010, filed 3/1/76, effective 1/1/77.]

WAC 16-720-020 Requirement. Iron preparations. Animal and human drugs (except for injectable drugs), and dietary supplements, as defined in WAC 16-720-010, that provide an equivalent of 250 milligrams or more of elemental iron per total package, shall be packaged in accordance with the provisions of chapter 70.106 RCW, the Washington Poison Prevention Act of 1974.

[Order 1483, § 16-720-020, filed 9/2/76, effective 6/2/77; Order 1433, § 16-720-020, filed 3/1/76, effective 1/1/77.]

WAC 16-720-030 Penalty. Any person found to be in violation of WAC 16-720-020 shall be subject to the penalties provided in RCW 70.106.140.

[Order 1483, § 16-720-030, filed 9/2/76, effective 6/2/77; Order 1433, § 16-720-030, filed 3/1/76, effective 1/1/77.]

Chapter 16-730 WAC

ASPARAGUS EQUIPMENT LEASE PROGRAM

WAC

16-730-005	What is the purpose of the asparagus equipment lease program?
16-730-007	How does the department ensure that program participants comply with the program's purpose?
16-730-010	What definitions are important to this chapter?
16-730-015	How will the asparagus equipment leasing program be administered?
16-730-020	Who is eligible to participate in the asparagus equipment leasing program?
16-730-025	How does an eligible asparagus handler/packer apply to the equipment leasing program?
16-730-030	When will an applicant know if they have been approved to participate in the equipment leasing program?
16-730-035	If an application is denied, can the applicant request a review of the director's decision?
16-730-040	If an applicant's initial application is disapproved, can the applicant reapply to the equipment leasing program?
16-730-045	What is the process the program will follow to distribute equipment leasing money to approved applicants?
16-730-050	How will the program's equipment leasing money be allocated in 2004?
16-730-055	For the initial leasing program, what are the base distribution amounts for each category of handler/packers?
16-730-060	What requirements apply to equipment leasing program lease agreements?
16-730-062	What happens if an approved handler/packer defaults on a lease?
16-730-065	How long will the initial asparagus equipment leasing program be in operation?
16-730-070	Who develops the depreciation schedules for the program's leased equipment?
16-730-075	Will the equipment used in the asparagus equipment leasing program be offered for sale to the handler/packer who leased it?

WAC 16-730-005 What is the purpose of the asparagus equipment lease program? (1) The Washington state department of agriculture is establishing the asparagus equipment lease program to implement section 308(10), chapter 276, Laws of 2004 (ESHB 2459), which directs the Washington state department of agriculture (WSDA) to purchase agricultural products packing equipment and to negotiate an appropriate agreement with the agricultural industry for the use of that equipment.

(2) The asparagus equipment lease program allows Washington state packers and handlers of Washington asparagus to lease with an opportunity to purchase automated labor saving equipment that will strengthen their post-harvest efforts to efficiently handle or pack fresh, frozen or pickled asparagus.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-005, filed 6/28/05, effective 7/29/05.]

WAC 16-730-007 How does the department ensure that program participants comply with the program's purpose? To ensure that program participants are in compliance with the terms of the program and to ensure that the leased equipment is being used only to pack and process fresh, frozen or pickled asparagus, the participating handlers must, during each year of their participation, give the department or its agent a letter:

(1) Certifying that the leased equipment is being used for the program's intended purpose; and

(2) Summarizing the cost and labor savings for that year.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-007, filed 6/28/05, effective 7/29/05.]

WAC 16-730-010 What definitions are important to this chapter? "Applicant" means any person who applies to participate in the equipment leasing program and commercially handles 250,000 pounds or more of asparagus in the calendar year that they apply.

"Approved handler/packer" means any asparagus handler and/or packer who has submitted an equipment leasing program application to the department and has been approved by the department to participate in the program.

"Automation" means the technique and equipment used to bring about automatic operation and control of a process.

"Department" means the Washington state department of agriculture.

"Director" means the director of the Washington state department of agriculture or the director's designee.

"Handler/packer" means a person who sells, arranges for sale, represents, processes, distributes or packages fresh, frozen or pickled asparagus.

"Facility" means any place where fresh asparagus is prepared, handled and packaged as fresh, frozen, or pickled for sale.

"Labor saving" means actions, activities or processes designed to decrease the amount of human labor needed to prepare, handle or package fresh, frozen or pickled asparagus.

"Leasing" means to obtain the use of asparagus handling or packing equipment through the asparagus equipment leasing program.

"Packing equipment" means equipment associated with the activities of the post-harvest handler/packer of fresh, frozen or pickled asparagus.

"Person" means an individual, firm, partnership, corporation, or association engaged in handling and/or packing fresh, frozen or pickled Washington state asparagus.

"Program administrator" means the director of the Washington state department of agriculture or the director's designee.

"Review committee" means a group of five to seven people representing the department and the Washington asparagus commission staff and members and one at large agricultural representative who is neither directly affiliated with the asparagus industry nor any of the equipment leasing program applicants. The purpose of the committee is to review equipment leasing program applications.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-010, filed 6/28/05, effective 7/29/05.]

WAC 16-730-015 How will the asparagus equipment leasing program be administered? The director or the director's designee will administer the asparagus equipment leasing program according to the rules of this chapter. If necessary, the program administrator, following the rule-making procedures in chapter 34.05 RCW (Administrative Procedure Act), may develop and implement additional rules or guidelines to ensure that this program is successful in achieving its purpose.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-015, filed 6/28/05, effective 7/29/05.]

WAC 16-730-020 Who is eligible to participate in the asparagus equipment leasing program? To be eligible to participate in the asparagus equipment leasing program, a post-harvest asparagus handler must:

(1)(a) Pack a minimum of 250,000 pounds of fresh, frozen or pickled asparagus in Washington in the calendar year in which they apply; and

(b) Provide documentation verifying the 250,000 pounds. Verification can include asparagus commission assessments or other industry accepted documentation.

(2) Comply with all applicable federal, state, and local laws and rules related to doing business in Washington and handling food products.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-020, filed 6/28/05, effective 7/29/05.]

WAC 16-730-025 How does an eligible asparagus handler/packer apply to the equipment leasing program?

(1) Eligible handler/packers can obtain an equipment leasing program application by contacting:

Asparagus Leasing Program
Washington State Department of Agriculture
1111 Washington St. S.E., 2nd Floor
P.O. Box 42560
Olympia, WA 98504-2560

(2) Eligible applicants must complete the program application and provide the department with the following information:

(2007 Ed.)

(a) Verification consistent with normal and usual leasing agreements that their business is a going concern;

(b) Verification that they have the ability to adequately insure any equipment they may lease;

(c) A statement declaring their eligibility and intent to participate in the program;

(d) Documentation of their ability to provide the necessary upkeep and maintenance of any equipment they may lease;

(e) A description of the equipment to be leased and its cost;

(f) A description of how the leased equipment will automate their post-harvest operation and how it will reduce post-harvest labor costs; and

(g) The pounds of asparagus processed for the period of years identified on the application and documentation verifying the pounds processed.

(3) The completed application and the related information (subsection (2) of this section) must be submitted to:

Asparagus Leasing Program
Washington State Department of Agriculture
1111 Washington St. S.E., 2nd Floor
P.O. Box 42560
Olympia, WA 98504-2560

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-025, filed 6/28/05, effective 7/29/05.]

WAC 16-730-030 When will an applicant know if they have been approved to participate in the equipment leasing program? (1) The department, in consultation with the Washington asparagus commission, the Washington asparagus council and the industry at large, will establish application deadlines, application review dates and dates for notifying applicants if they have been accepted to participate in the equipment lease program.

(2) The process for reviewing and approving application is as follows:

(a) The review committee will review all applications and recommend approved applicants to the director.

(b) The director will review the review committee's recommendations.

(c) Once the director approves the recommended applicants, applicants will be notified of the results within five working days of the director's decision.

(3) The department may implement additional application cycles as needed in order to insure that handler/packers may fully participate in the program.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-030, filed 6/28/05, effective 7/29/05.]

WAC 16-730-035 If an application is denied, can the applicant request a review of the director's decision? (1) An applicant whose application has been denied by the director may request a review of the director's decision. The request for review must:

(a) Specify the date of the decision or action being appealed;

(b) Explain as precisely as possible the issue to be resolved by the administrative review;

(c) Include the address of the applicant; and

(d) Be signed by the applicant.

(2) Administrative reviews of denied applications will follow an informal process conducted by the director's designee.

(a) The review will be completed within thirty days after receipt of the review request.

(b) Once the review is completed, the department has ten days to inform the handler of the review decision.

(3) The rights of the department provided in this section are exclusive and are in addition to any other rights and remedies provided by law.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-035, filed 6/28/05, effective 7/29/05.]

WAC 16-730-040 If an applicant's initial application is disapproved, can the applicant reapply to the equipment leasing program? (1) Program applicants whose initial application was denied have ten days from the date they received the director's decision denying their application to reapply.

(2) Applicants must reapply by following the procedures outlined in WAC 16-730-025.

(3) When reapplying, the applicant must request different equipment and/or a different mix of equipment from that listed on their original application.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-040, filed 6/28/05, effective 7/29/05.]

WAC 16-730-045 What is the process the program will follow to distribute equipment leasing money to approved applicants? The program's equipment leasing money will be distributed indirectly to approved applicants as follows:

(1) The department, in consultation with the Washington asparagus commission, the Washington asparagus council and the asparagus industry at large, will determine the amount of equipment leasing money allocated to each approved applicant and then distribute this money to a department approved equipment leasing company.

(2) The approved leasing company will then purchase the equipment and subsequently lease it to an approved applicant.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-045, filed 6/28/05, effective 7/29/05.]

WAC 16-730-050 How will the program's equipment leasing money be allocated in 2004? (1) The initial allocation of equipment leasing money for 2004 will be distributed based upon documented annual average pounds of asparagus an approved handler/packer reported from 2001 through 2004.

Note: If additional application cycles are needed to administer current and future equipment lease allocations and distributions, the department may adjust the initial four-year annual average production period (2001-2004).

(2)(a) Unless the department, in consultation with the Washington asparagus commission, the Washington asparagus council and the asparagus industry at large, determines that the allocation formula be changed, all approved applicants will receive either a base amount of at least \$75,000 for

their initial 2004-program allocation or an amount adjusted to reflect an appropriate base for future program offerings.

(b) If the department does change the allocation formula, it will notify the Washington state asparagus industry and, specifically, Washington state asparagus handler/packers.

(3) The department has developed the following categories to help allocate the equipment lease program's initial 2004 offering:

Handler/Packer Categories*	Pounds of Asparagus Handled Annually
Small	Less than 1,000,000 pounds
Medium	1,000,000 to 2,000,000 pounds
Large	2,000,001 to 5,000,000 pounds
*Note: These categories could change. If they do, the department will notify asparagus handler/packers and the industry.	

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-050, filed 6/28/05, effective 7/29/05.]

WAC 16-730-055 For the initial leasing program, what are the base distribution amounts for each category of handler/packers?

Note: The department will always work with the review committee to assure that the distributions to approved applicants are fair and equitable and based on the pounds processed formula.

(1) The final handler/packer allocation for 2004 is illustrated in the following table:

Handler/Packer Size	Dollar Allocation per Handler/Packer
Small	\$87,000.00
Medium	\$110,500.00
Large	\$154,500.00

(2) Future distributions will be determined by the:

(a) Amount of program funds available after all administrative and contract-leasing costs are subtracted from the total program allocation received from the legislature; and

(b) Number of participants in the program; and

(c) Department consultations with the Washington asparagus commission, the Washington asparagus council and the asparagus industry at large.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-055, filed 6/28/05, effective 7/29/05.]

WAC 16-730-060 What requirements apply to equipment leasing program lease agreements? (1) The department will follow office of financial management (OFM) procurement guidelines when selecting a leasing company to act as its agent to purchase and manage all equipment leasing arrangements for all approved handler/packers.

(2) All approved handler/packers will complete a lease agreement with the department approved leasing firm.

(3) All equipment lease agreements:

(a) Must be exclusive to the approved handler/packers for the term of the contract with the leasing company; and

(b) Are not transferable without the written approval of the department.

(4) Lease agreements cannot be paid off before the leasing company's contract termination date.

(5) In addition to the leasing requirements contained in this chapter, the department, in its contract with the leasing company, will include other lease requirements that approved handler/packers must follow.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-060, filed 6/28/05, effective 7/29/05.]

WAC 16-730-062 What happens if an approved handler/packer defaults on a lease? (1) If an approved handler/packer defaults on a lease agreement, the department retains ownership of the equipment and will make the equipment available to other asparagus handlers through a selection process determined by the department in consultation with the Washington asparagus commission, the Washington asparagus council and asparagus industry representatives.

(2) The selection process used by the department to redistribute defaulted lease equipment to approved handler/packers must comply with any applicable state and federal laws and regulations.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-062, filed 6/28/05, effective 7/29/05.]

WAC 16-730-065 How long will the initial asparagus equipment leasing program be in operation? (1) How long the initial equipment leasing program will be in operation will be determined by:

(a) An office of financial management (OFM) approved depreciation schedule for each type of equipment that will be available for leasing; and

(b) The period of time needed to:

(i) Surplus and transfer equipment; and

(ii) Complete program closeout activities.

(2) For any distributions following the initial one, the department may modify the program length, depreciation schedules, contract requirements or leasing agreements.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-065, filed 6/28/05, effective 7/29/05.]

WAC 16-730-070 Who develops the depreciation schedules for the program's leased equipment? The department, with final approval from OFM, will develop depreciation schedules for the program's leased equipment. These schedules will be based upon the characteristic economic useful lives of asparagus processing and handling equipment used by the industry.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-070, filed 6/28/05, effective 7/29/05.]

WAC 16-730-075 Will the equipment used in the asparagus equipment leasing program be offered for sale to the handler/packer who leased it? (1) At the end of its depreciation period, the equipment leased to a handler/packer will be declared "surplus" and offered for sale to the handler/packer or their designee.

(2) If a handler/packer wants to sell their leased equipment to a designee, they must complete a designee form and have the form approved by the department.

[Statutory Authority: Chapters 15.04 and 34.05 RCW, 2004 c 276. 05-14-049, § 16-730-075, filed 6/28/05, effective 7/29/05.]

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

16-750-010	Proposed noxious weed list. [Statutory Authority: RCW 17.10.080, 87-05-016 (Order 18, Resolution No. 18), § 16-750-010, filed 2/11/87; 86-07-024 (Order 17, Resolution No. 17), § 16-750-010, filed 3/13/86; 85-07-003 (Order 16, Resolution No. 16), § 16-750-010, filed 3/7/85; 84-06-047 (Order 15, Resolution No. 15), § 16-750-010, filed 3/6/84; 83-07-042 (Order 14, Resolution No. 14), § 16-750-010, filed 3/17/83; 82-06-045 (Order 13, Resolution No. 13), § 16-750-010, filed 3/3/82. Statutory Authority: Chapter 17.10 RCW. 81-07-039 (Order 12, Resolution No. 12), § 16-750-010, filed 3/13/81; 80-03-075 (Order 11, Resolution No. 11), § 16-750-010, filed 2/29/80; 78-06-014 (Order 10, Resolution No. 10), § 16-750-010, filed 5/10/78; Order 8, § 16-750-010, filed 3/1/77; Order 7, § 16-750-010, filed 4/15/76; Order 5, § 16-750-010, filed 3/7/75; Order 4, § 16-750-010, filed 3/27/74; Order 3, § 16-750-010, filed 4/3/73; Order 2, § 16-750-010, filed 3/16/72; Order 1, § 16-750-010, filed 4/9/71.] Repealed by 88-07-016 (Order 22, Resolution No. 22), filed 3/7/88. Statutory Authority: RCW 17.10.080.
16-750-175	State noxious weed control board—Reports. [Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-175, filed 12/2/92, effective 1/2/93.] Repealed by 99-24-029, filed 11/23/99, effective 1/3/00. Statutory Authority: Chapter 17.10 RCW.
16-750-190	State noxious weed control board—Rule amendments. [Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-190, filed 12/2/92, effective 1/2/93.] Repealed by 99-24-029, filed 11/23/99, effective 1/3/00. Statutory Authority: Chapter 17.10 RCW.
16-750-900	Noxious weeds—Civil infractions—Schedule of monetary penalties. [Statutory Authority: RCW 17.10.350, 88-07-016 (Order 22, Resolution No. 22), § 16-750-900, filed 3/7/88.] Repealed by 93-01-004, filed 12/2/92, effective 1/2/93. Statutory Authority: Chapter 17.10 RCW.
16-750-950	State noxious weed control board position numbers—Eligibility for voting. [Statutory Authority: RCW

17.10.030. 89-16-007 (Order 28, Resolution No. 28), § 16-750-950, filed 7/21/89, effective 8/21/89.] Repealed by 93-01-004, filed 12/2/92, effective 1/2/93. Statutory Authority: Chapter 17.10 RCW.

WAC 16-750-001 State noxious weed list—Purpose.

In accordance with RCW 17.10.080 a state noxious weed list of the names of those plants which the state noxious weed control board finds to be highly destructive, competitive, or difficult to control by cultural or chemical practices is adopted.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-001, filed 11/23/99, effective 1/3/00; 91-24-072, § 16-750-001, filed 12/2/91, effective 1/2/92. Statutory Authority: RCW 17.10.080. 88-07-016 (Order 22, Resolution No. 22), § 16-750-001, filed 3/7/88.]

WAC 16-750-003 Definitions. (1) The definitions in this section shall apply throughout this chapter, unless the context plainly requires otherwise:

(a) "Action" means the transaction of the official business of the Washington state noxious weed control board including but not limited to receipt of public testimony, deliberations, discussions, considerations, reviews, and final actions.

(b) "Board" means the Washington state noxious weed control board, or a duly authorized representative.

(c) "Director" means the director of the department of agriculture, or the director's appointed representative.

(d) "Executive secretary" means the executive secretary of the Washington state noxious weed control board.

(e) "Department" means the department of agriculture of this state.

(f) "Final action" means a collective positive or negative decision, or an actual vote by a majority of board members when sitting as a body or entity, upon a motion, proposal, resolution, or order.

(g) "Meeting" means meetings at which action is taken.

(h) "Regular meetings" means recurring meetings held in accordance with a periodic schedule in compliance with applicable statute or rule.

(2) The definitions in this subsection apply throughout this chapter, chapter 17.10 RCW, and any rules adopted thereunder unless the context plainly requires otherwise:

(a) "Control" means to prevent all seed production and to prevent the dispersal of the following propagules of aquatic noxious weeds - turions, fragments, tubers, and nutlets.

(b) "Contain" means to confine a noxious weed and its propagules to an identified area of infestation.

(c) "Eradicate" means to eliminate a noxious weed within an area of infestation.

(d) "Prevent the spread of noxious weeds" means to contain noxious weeds.

(e) Class A noxious weeds are those noxious weeds not native to the state that are of limited distribution or are unrecorded in the state and that pose a serious threat to the state.

(f) Class B noxious weeds are those noxious weeds not native to the state that are of limited distribution or are unrecorded in a region of the state and that pose a serious threat to that region.

(g) "Class B designate" means those Class B noxious weeds whose populations in a region or area are such that all seed production can be prevented within a calendar year.

(h) Class C are any other noxious weeds.

(3) Any county noxious weed control board may enhance the clarity of any definition contained in subsection (2) of this section, making that definition more specific, but shall not change its general meaning.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-003, filed 11/23/99, effective 1/3/00; 97-06-108, § 16-750-003, filed 3/5/97, effective 4/5/97; 93-01-004, § 16-750-003, filed 12/2/92, effective 1/2/93; 91-24-072, § 16-750-003, filed 12/2/91, effective 1/2/92; 91-01-016, § 16-750-003, filed 12/7/90, effective 1/7/91; 90-01-004, § 16-750-003, filed 12/7/89, effective 1/7/90; 88-18-001 (Order 24, Resolution No. 24), § 16-750-003, filed 8/25/88.]

WAC 16-750-004 Noxious weed region descriptions.

The state of Washington is divided into ten regions for the purpose of designating Class B noxious weeds.

(1) Region 1 description. A region consisting of all lands lying within the boundaries of Clallam and Jefferson counties.

(2) Region 2 description. A region consisting of all lands lying within the boundaries of Whatcom, Skagit, Snohomish, San Juan, and Island counties.

(3) Region 3 description. A region consisting of:

(a) All lands lying within the boundaries of Okanogan County.

(b) All lands lying within the boundaries of Chelan and Douglas counties and north of Highway 2.

(4) Region 4 description. A region consisting of:

(a) All lands lying within the boundaries of Ferry, Stevens, and Pend Oreille counties.

(b) All lands lying within the boundaries of Spokane County and north of the Spokane River.

(5) Region 5 description. A region consisting of all lands lying within the boundaries of Grays Harbor, Mason, Kitsap, Thurston, Pierce, and King counties.

(6) Region 6 description. A region consisting of:

(a) All lands lying within the boundaries of Kittitas and Grant counties.

(b) All lands lying within the boundaries of Chelan and Douglas counties and south of Highway 2.

(c) All lands lying within the boundaries of Yakima County and north of Highway 12 from the Yakima — Lewis County line to Yakima and north of Highway 82 from Yakima to the Yakima — Kittitas County line.

(d) All lands lying within the boundaries of Ranges 28E, 29E, and 30E of Adams County.

(7) Region 7 description. A region consisting of:

(a) All lands lying within the boundaries of Lincoln and Whitman counties.

(b) All lands lying within the boundaries of Spokane County and south of the Spokane River.

(c) All lands lying within the boundaries of Ranges 31E, 32E, 33E, 34E, 35E, 36E, 37E, and 38E of Adams County.

(8) Region 8 description. A region consisting of all lands lying within the boundaries of Pacific, Lewis, Wahkiakum, Cowlitz, Skamania, and Clark counties.

(9) Region 9 description. A region consisting of:

(a) All lands lying within the boundaries of Benton and Klickitat counties.

(b) All lands lying within the boundaries of Yakima County and south of Highway 12 from the Yakima — Lewis

County line to Yakima and south of Highway 82 from Yakima to the Yakima — Kittitas County line.

(c) All lands lying within the boundaries of Franklin County and west of Highway 395.

(10) Region 10 description. A region consisting of:

(a) All lands lying within the boundaries of Asotin, Garfield, Columbia, and Walla Walla counties.

(b) All lands lying within the boundaries of Franklin County and east of Highway 395.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-004, filed 11/23/99, effective 1/3/00; 91-24-072, § 16-750-004, filed 12/2/91, effective 1/2/92; 88-18-001 (Order 24, Resolution No. 24), § 16-750-004, filed 8/25/88.]

WAC 16-750-005 State noxious weed list—Class A noxious weeds.

Common Name	Scientific Name
bean-caper, Syrian	<i>Zygophyllum fabago</i>
blueweed, Texas	<i>Helianthus ciliaris</i>
broom, Spanish	<i>Spartium junceum</i>
buffalobur	<i>Solanum rostratum</i>
clary, meadow	<i>Salvia pratensis</i>
cordgrass, dense flower	<i>Spartina densiflora</i>
cordgrass, salt meadow	<i>Spartina patens</i>
crupina, common	<i>Crupina vulgaris</i>
flax, spurge	<i>Thymelaea passerina</i>
four o'clock, wild	<i>Mirabilis nyctaginea</i>
goatsrue	<i>Galega officinalis</i>
hawkweed, yellow devil	<i>Hieracium floribundum</i>
hogweed, giant	<i>Heracleum mantegazzianum</i>

Common Name
 hydrilla
 johnsongrass
 knapweed, bighead
 knapweed, Vochin
 kudzu
 lawnweed
 mustard, garlic
 nightshade, silverleaf
 primrose-willow, floating
 sage, clary
 sage, Mediterranean
 spurge, eggleaf
 starthistle, purple
 sweetgrass, reed
 thistle, Italian
 thistle, milk
 thistle, slenderflower
 velvetleaf
 woad, dyers

Scientific Name
Hydrilla verticillata
Sorghum halepense
Centaurea macrocephala
Centaurea nigrescens
Pueraria montana var. lobata
Soliva sessilis
Alliaria petiolata
Solanum elaeagnifolium
Ludwigia peploides
Salvia sclarea
Salvia aethiopis
Euphorbia oblongata
Centaurea calcitrapa
Glyceria maxima
Carduus pycnocephalus
Silybum marianum
Carduus tenuiflorus
Abutilon theophrasti
Isatis tinctoria

[Statutory Authority: Chapters 17.10 and 34.05 RCW. 05-24-026, § 16-750-005, filed 11/30/05, effective 12/31/05; 03-04-001, § 16-750-005, filed 1/22/03, effective 2/22/03. Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-005, filed 11/23/99, effective 1/3/00; 98-24-026, § 16-750-005, filed 11/23/98, effective 1/2/99; 97-24-051, § 16-750-005, filed 11/26/97, effective 1/2/98. Statutory Authority: RCW 17.10.080.96-06-030, § 16-750-005, filed 2/29/96, effective 3/31/96. Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-005, filed 12/2/92, effective 1/2/93; 91-24-072, § 16-750-005, filed 12/2/91, effective 1/2/92; 91-01-016, § 16-750-005, filed 12/7/90, effective 1/7/91; 90-01-004, § 16-750-005, filed 12/7/89, effective 1/7/90; 88-24-002 (Order 26, Resolution No. 26), § 16-750-005, filed 11/29/88. Statutory Authority: RCW 17.10.080.88-07-016 (Order 22, Resolution No. 22), § 16-750-005, filed 3/7/88.]

WAC 16-750-011 State noxious weed list—Class B noxious weeds.

Name		Will be a "Class B designate" in all lands lying within:	
(1)	alyssum, hoary <i>Berteroa incana</i>	(a)	regions 1, 2, 5, 6, 8, 9, 10
		(b)	region 3, except Okanogan County
		(c)	Okanogan County, of region 3, except Ranges 29 through 31 East of Townships 37 through 40 North
		(d)	Adams and Whitman counties of region 7.
(2)	arrowhead, grass-leaved <i>Sagittaria graminea</i>	(a)	regions 1, 3, 4, 6, 7, 8, 9, 10
		(b)	region 2 except Lake Roesiger, Lake Serene, Lake Loma and Echo Lake in Snohomish County
		(c)	region 5 except Mason Lake in Mason County.
(3)	blackgrass <i>Alopecurus myosuroides</i>	(a)	regions 1, 2, 3, 5, 6, 8, 9, 10
		(b)	Ferry, Stevens, Pend Oreille counties of region 4
		(c)	Adams County of region 7.
(4)	blueweed <i>Echium vulgare</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9, 10
		(b)	region 7 except for an area starting at the Stevens County line on SR 291 south to the SR 291 bridge over the Little Spokane River, thence upstream along the Little Spokane River to the first Rutter Parkway Bridge; thence south along the Rutter Parkway to the intersection of Rutter Parkway and Indian Trail Road; thence southerly along Indian Trail Road to a point three miles south (on section line between sections 22 and 27, T-26N, R-42E); thence due west to a point intersecting the line between Ranges 41 and 42; thence north along this line to a point 1/4 mile south of Charles Road; thence northwesterly parallel to Charles Road to a point 1/4 miles south of the intersection of Charles Road and West Shore

Name		Will be a "Class B designate" in all lands lying within:	
			Road; thence northerly along West Shore Road to the Spokane River (Long Lake); thence southeasterly along the Spokane River to the point of beginning.
(5)	broom, Scotch <i>Cytisus scoparius</i>	(a)	regions 3, 4, 6, 7, 9, 10.
(6)	bryony, white <i>Bryonia alba</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9
		(b)	region 7 except Whitman County
		(c)	Franklin County of region 10.
(7)	bugloss, common <i>Anchusa officinalis</i>	(a)	regions 1, 2, 3, 5, 6, 8, 9, 10
		(b)	region 4 except Stevens and Spokane counties
		(c)	Lincoln, Adams, and Whitman counties of region 7.
(8)	bugloss, annual <i>Anchusa arvensis</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9
		(b)	Lincoln and Adams counties
		(c)	Whitman County except ranges 43 through 46 East of Townships 16 through 20 North.
(9)	camelthorn <i>Alhagi maurorum</i>	(a)	regions 1, 2, 3, 4, 5, 7, 8, 9
		(b)	region 6 except those portions of Sections 23, 24, 25, and 29 through 36, T16N, R27E, W.M. lying outside Intercounty Weed District No. 52 and except Sections 1 through 12, T15N, R27E, W.M. in Grant County and except the area west of Highway 17 and north of Highway 26 in Adams County
		(c)	Franklin, Columbia, Garfield, and Asotin counties of region 10
		(d)	an area beginning at the Washington—Oregon border at the southwest portion of section 5, R32E, T6N, then north to the northwest corner of section 3, R32E, T7N, then east to the northeast corner of section 3, R36E, T7N, then south to southeast portion of section 15, R36E, T6N, at the Washington—Oregon border, then west along the Washington—Oregon border to the point of beginning.
(10)	carrot, wild <i>Daucus carota</i>	(a)	regions 3, 7 (except where intentionally cultivated)
		(b)	Spokane and Ferry counties of region 4 (except where intentionally cultivated)
		(c)	region 6, except Yakima County (except where intentionally cultivated)
		(d)	region 9, except Yakima County (except where intentionally cultivated)
		(e)	region 10, except Walla Walla County (except where intentionally cultivated).
(11)	catsear, common <i>Hypochaeris radicata</i>	(a)	regions 3, 4, 6, 7, 10
		(b)	region 9 except Klickitat County.
(12)	chervil, wild <i>Anthriscus sylvestris</i>	(a)	regions 1, 3, 4, 6, 7, 9, 10
		(b)	region 5 except those portions of Thurston County within T15, 16, 17N, R2, 3, 4W
		(c)	region 2 except Guemes Island in Skagit County
		(d)	region 8 except Clark County.
(13)	cinquefoil, sulfur <i>Potentilla recta</i>	(a)	regions 1, 3, 8, 10
		(b)	region 2 except Skagit County
		(c)	region 4 except Stevens, Ferry, and Pend Oreille counties
		(d)	region 5 except Thurston and Pierce counties
		(e)	region 6 except Yakima County
		(f)	region 7 except Spokane County
		(g)	region 8 except Lewis County
		(h)	region 9 except Klickitat County.
(14)	cordgrass, smooth <i>Spartina alterniflora</i>	(a)	regions 1, 3, 4, 5, 6, 7, 9, 10
		(b)	region 2 except Padilla Bay of Skagit County
		(c)	region 8 except bays and estuaries of Pacific County.

Name		Will be a "Class B designate" in all lands lying within:	
(15)	cordgrass, common <i>Spartina anglica</i>	(a)	regions 1, 3, 4, 5, 6, 7, 8, 9, 10
		(b)	region 2 except bays and estuaries of Skagit and Island counties and except bays and estuaries north of Everett in Snohomish County.
(16)	daisy, oxeye <i>Leucanthemum vulgare</i>	(a)	regions 7, 10
		(b)	region 9 except those areas lying within Klickitat and Yakima counties west of Range 13 East
		(c)	region 6 except those areas lying within Yakima and Kittitas counties west of Range 13 E.
(17)	elodea, Brazilian <i>Egeria densa</i>	(a)	regions 3, 4, 6, 7, 9, 10
		(b)	Lewis County of region 8
		(c)	Clallam County of region 1
		(d)	King County of region 5, except lakes Washington, Sammamish, Union and Fenwick.
(18)	fanwort <i>Cabomba caroliniana</i>	(a)	regions 1, 2, 3, 4, 5, 6, 7, 9, 10
		(b)	region 8 except T8N, R3W of Cowlitz County.
(19)	fennel, common <i>Foeniculum vulgare</i> (except var. <i>azoricum</i>)	(a)	regions 3, 4, 6, 7, 8, 9, 10
		(b)	region 1 except the incorporated areas of Port Townsend
		(c)	region 2 except the incorporated areas of Anacortes and Mount Vernon
		(d)	region 5 except King and Kitsap counties.
(20)	fieldcress, Austrian <i>Rorippa austriaca</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9
		(b)	regions 7 and 10 except within the Palouse River Canyon from Big Palouse Falls to the Snake River.
(21)	floating heart, yellow <i>Nymphoides peltata</i>	(a)	regions 1, 2, 3, 5, 6, 7, 8, 9, 10
		(b)	region 4 except the Spokane River between Long Lake Dam and Nine Mile Dam.
(22)	gorse <i>Ulex europaeus</i>	(a)	regions 1, 3, 4, 6, 7, 9, 10
		(b)	Skagit, Island, and Whatcom counties of region 2
		(c)	Thurston, Kitsap, Pierce, and King counties of region 5
		(d)	Wahkiakum, Clark, Skamania, Cowlitz, and Lewis counties of region 8.
(23)	hawkweed, mouseear <i>Hieracium pilosella</i>	(a)	regions 1, 2, 3, 4, 6, 7, 8, 9, 10
		(b)	region 5 except Thurston County
		(c)	Thurston County lying within T17N, R1W, S31; T16N, R2W, S30 W1/2; T16N, R3W, S25, SE1/4; T16N, R3W, S36, N1/2; T16N, R2W, S31, NW1/4.
(24)	hawkweed, orange <i>Hieracium aurantiacum</i>	(a)	regions 1, 3, 6, 9, 10
		(b)	Skagit County of region 2
		(c)	Ferry County of region 4
		(d)	Thurston and King counties of region 5
		(e)	Lincoln and Adams counties of region 7
		(f)	Lewis County of region 8.
(25)	hawkweed, polar <i>Hieracium atratum</i>	(a)	regions 1, 2, 3, 4, 6, 7, 8, 9, 10
		(b)	region 5 outside the boundaries of Mt. Rainier National Park.
(26)	hawkweed, queen-devil <i>Hieracium glomeratum</i>	(a)	regions 1, 2, 3, 5, 6, 7, 8, 9, 10
		(b)	Ferry County of region 4.
(27)	hawkweed, smooth <i>Hieracium laevigatum</i>	(a)	regions 1, 3, 4, 5, 6, 7, 8, 9, 10
		(b)	San Juan, Island, and Skagit counties of region 2.
(28)	hawkweed, yellow <i>Hieracium caespitosum</i>	(a)	regions 1, 2, 3, 5, 6, 7, 8, 10
		(b)	region 4 except Stevens and Pend Oreille counties
		(c)	region 9 except sections 32, 33 and 34 of T6N, R12E, and sections 4, 5, 6, and 7 of T5N, R12E, and section 12 of T5N, R11E, of Klickitat County.
(29)	hedgearsley <i>Torilis arvensis</i>	(a)	regions 1, 2, 3, 4, 5, 6, 7, 8, 10
		(b)	Yakima, Benton, Franklin counties
		(c)	Klickitat County except those lands lying within T4N, R10E, R11E, R12E, R13E, R14E; T3N, R10E, R11E, R12E, R13E; T2N, R12E, R13E.

		Will be a "Class B designate" in all lands lying within:	
	Name		
(30)	helmet, policeman's <i>Impatiens glandulifera</i>	(a)	regions 1, 3, 4, 6, 7, 8, 9, 10
		(b)	region 2 except Whatcom County
		(c)	region 5 except Pierce and Thurston counties.
(31)	herb-Robert <i>Geranium robertianum</i>	(a)	regions 3, 4, 6, 7, 9, 10
(32)	houndstongue <i>Cynoglossum officinale</i>	(a)	Kittitas County of region 6
		(b)	Douglas and Chelan counties of regions 3 and 6.
(33)	indigobush <i>Amorpha fruticosa</i>	(a)	regions 1, 2, 3, 4, 5, 6
		(b)	regions 7 and 10 except within 200 feet of the Snake River from Central Ferry downstream
		(c)	regions 8, 9, and 10 except within 200 feet of the Columbia River.
(34)	knapweed, black <i>Centaurea nigra</i>	(a)	regions 1, 2, 3, 4, 7, 9, 10
		(b)	region 5 except that area below the ordinary highwater mark of the Nisqually River, beginning at Alder Dam and downstream to the mouth of the Nisqually River in Pierce and Thurston counties
		(c)	region 6 except Kittitas County
		(d)	region 8 except Clark County.
(35)	knapweed, brown <i>Centaurea jacea</i>	(a)	regions 1, 2, 3, 4, 7, 9, 10
		(b)	region 5 except that area below the ordinary highwater mark of the Nisqually River, beginning at Alder Dam and downstream to the mouth of the Nisqually River in Pierce and Thurston counties
		(c)	region 6 except Kittitas County
		(d)	region 8 except Clark County.
(36)	knapweed, diffuse <i>Centaurea diffusa</i>	(a)	regions 1, 2, 5, 8
		(b)	Grant County lying in Townships 13 through 16 North, Ranges 25 through 27 East; Townships 17 and 18 N., Ranges 25 through 30 East; Townships 19 and 20 North, Ranges 29 and 30 East; T21N, R23E, Sections 1 through 30; T21N, R26E., Sections 5, 6, 7, 8, 17, and 18; East 1/2 Township 21N, Range 27E.; T21N, Ranges 28 through 30 E; those portions of Townships 22 through 28N, Ranges 28 through 30 E.; those portions of Township 22 through 28N., Ranges 23 through 30E. lying in Grant County; all W.M.
		(c)	Adams County except those areas within T15N, R36E, Section 36; T15N, R37E, Sections 22, 26, 27, 28, 31, 32, 33 and 34; T15N, R37E, western half of Sections 23, 24 and 25; T15N, R38E, Sections 2, 10, 11, 14, 15, 19 and 20; T16N, R38E, Sections 34 and 35; T17N, R37E, Sections 5 and 6
		(d)	Franklin County of regions 9 and 10.
(37)	knapweed, meadow <i>Centaurea jacea x nigra</i>	(a)	regions 1, 2, 3, 4, 7, 9, 10
		(b)	region 5 except that area below the ordinary highwater mark of the Nisqually River, beginning at Alder Dam and downstream to the mouth of the Nisqually River in Pierce and Thurston counties
		(c)	region 6 except Kittitas County
		(d)	region 8 except Clark County.
(38)	knapweed, Russian <i>Acroptilon repens</i>	(a)	regions 1, 2, 5, 7, 8
		(b)	region 4 except that area lying within the boundaries of the Colville Indian Reservation within Ferry County
		(c)	Adams County of region 6 except for the area west of Highway 17 and North of Highway 26
		(d)	Intercounty Weed District No. 52
		(e)	region 10 except Franklin County.

		Will be a "Class B designate" in all lands lying within:	
Name			
(39)	knapweed, spotted <i>Centaurea stoebe</i>	(a)	regions 1, 2, 3, 5, 6, 9
		(b)	Ferry County of region 4
		(c)	Adams and Whitman counties of region 7
		(d)	region 8, except that portion of Lewis County below the ordinary high watermark of the Tilton River from Hwy. 508 to Lake Mayfield
		(e)	region 10 except Garfield County.
(40)	knotweed, Bohemian <i>Polygonum bohemicum</i>	(a)	Kittitas County of region 6
		(b)	Chelan and Douglas counties of regions 3 and 6
		(c)	Pend Oreille County of region 4.
(41)	knotweed, giant <i>Polygonum sachalinense</i>	(a)	Kittitas County of region 6
		(b)	Pend Oreille County of region 4.
(42)	knotweed, Himalayan <i>Polygonum polystachyum</i>	(a)	Kittitas County of region 6
		(b)	Pend Oreille County of region 4
		(c)	Lewis County of region 8.
(43)	knotweed, Japanese <i>Polygonum cuspidatum</i>	(a)	Kittitas County of region 6
		(b)	Chelan and Douglas counties of regions 3 and 6
		(c)	Pend Oreille County of region 4.
(44)	kochia <i>Kochia scoparia</i>	(a)	Regions 1, 2, 5, 8
		(b)	Pend Oreille County of region 4
		(c)	Kittitas County of region 6.
(45)	laurel, spurge <i>Daphne laureola</i>	(a)	regions 3, 4, 6, 7, 8, 9, 10
		(b)	San Juan, Snohomish and Skagit counties of region 2
		(c)	Grays Harbor and Mason counties of region 5.
(46)	lepyrodiclis <i>Lepyrodictis holosteoides</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9, 10
		(b)	region 7 except an area within Whitman County east of the Pullman—Wawawai Road from Wawawai to Pullman and south of State Highway 270 from Pullman to Moscow, Idaho.
(47)	loosestrife, garden <i>Lysimachia vulgaris</i>	(a)	regions 1, 2, 3, 4, 6, 7, 8, 9, 10
		(b)	region 5 except King County
		(c)	Those portions of King County lying north of I-90 and east of the line extending from SR522 to SR202 to E. Lake Sammamish Parkway; west of I-5 including Vashon Island; south of I-90 and east and south of I-405 to the county line.
(48)	loosestrife, purple <i>Lythrum salicaria</i>	(a)	regions 1, 4, 7, 8
		(b)	region 2 except Snohomish County
		(c)	region 3 except within 100 feet of the ordinary highwater mark of the Okanogan River from the Canadian border south to Riverside
		(d)	Grays Harbor, Mason, Kitsap, and Thurston counties of region 5
		(e)	Those portions of King County lying north of I-90 and east of the line extending from SR522 to SR202 to E. Lake Sammamish Parkway; west of I-5 including Vashon Island; south of I-90 and east and south of I-405 to the county line
		(f)	Pierce County, except those areas lying within T2D, 21, 22N, R1W and R1E, all sections
		(g)	region 6 except that portion of Grant County lying northerly of the Frenchmen Hills-O'Sullivan Dam Road, southerly of Highway Interstate 90, easterly of the section line of the location of County Road J SW/NW if constructed and westerly of the section line of the location of County Road H SE/NE if constructed
		(h)	region 9 except Benton County
		(i)	region 10 except Walla Walla County
		(j)	Intercounty Weed Districts No. 51 and No. 52.
(49)	loosestrife, wand <i>Lythrum virgatum</i>	(a)	regions 1, 4, 7, 8
		(b)	region 2 except Snohomish County

Name		Will be a "Class B designate" in all lands lying within:
		<p>(c) region 3 except within 100 feet of the ordinary highwater mark of the Okanogan River from the Canadian border south to Riverside</p> <p>(d) region 5 except King County</p> <p>(e) Those portions of King County lying north of I-90 and east of the line extending from SR522 to SR202 to E. Lake Sammamish Parkway; west of I-5 including Vashon Island; south of I-90 and east and south of I-405 to the county line</p> <p>(f) region 6 except that portion of Grant County lying northerly of the Frenchmen Hills-O'Sullivan Dam Road, southerly of Highway Interstate 90, easterly of the section line of the location of County Road J SW/NW if constructed and westerly of the section line of the location of County Road H SE/NE if constructed</p> <p>(g) region 9 except Benton County</p> <p>(h) region 10 except Walla Walla County</p> <p>(i) Intercounty Weed Districts No. 51 and No. 52.</p>

Name		Will be a "Class B designate" in all lands lying within:	
(56)	ragwort, tansy <i>Senecio jacobaea</i>	(d)	Clallam County of region 1.
		(a)	regions 3, 4, 6, 7, 9, 10
		(b)	region 5, that portion of Pierce County lying south or east of a boundary beginning at the White River and State Highway 410, then west along State Highway 410 to intersection with State Highway 162 (Orting) to intersection with Orville Road, then south along Orville Road to intersection with Kapowsin Highway (304th Street East), then west following Kapowsin Highway to intersection with State Route 7, then south along State Route 7 to intersection with State Route 702, then west along State Route 702 to intersection with State Route 507, then southwest along State Route 507 to intersection with the Nisqually River.
(57)	Saltcedar <i>Tamarix ramosissima</i>	(a)	regions 1, 2, 3, 4, 5, 7, 8, unless intentionally established prior to 2004
		(b)	region 6 except Grant County, unless intentionally established prior to 2004
		(c)	region 9 except Benton and Franklin counties, unless intentionally established prior to 2004
		(d)	region 10 except Franklin County, unless intentionally established prior to 2004.
(58)	sandbur, longspine <i>Cenchrus longispinus</i>	(a)	regions 1, 2, 3, 4, 5, 7, 8
		(b)	Adams County of region 6 except for that area lying within Intercounty Weed District No. 52
		(c)	Intercounty Weed District No. 51
		(d)	Kittitas County of region 6.
(59)	skeletonweed, rush <i>Chondrilla juncea</i>	(a)	regions 1, 2, 3, 5, 8, 9
		(b)	Franklin County except T13N, R36E; and T14N, R36E
		(c)	Adams County except those areas lying east of a line running north from Franklin County along the western boundary of Range 36 East to State Highway 26 then north on Sage Road until it intersects Lee Road, then due north until intersection with Providence Road, then east to State Highway 261, then north along State Highway 261 to its intersection with Interstate 90, henceforth on a due north line to intersection with Bauman Road, then north along Bauman Road to its terminus, then due north to the Lincoln County line.
		(d)	region 6 except that portion lying within Grant County that is southerly of State Highway 28, northerly of Interstate Highway 90 and easterly of Grant County Road I Northwest
		(e)	Stevens County north of Township 33 North of region 4
		(f)	Ferry and Pend Oreille counties of region 4
		(g)	Asotin County of region 10
		(h)	Garfield County south of Highway 12
		(i)	Columbia County from the Walla Walla County line on Highway 12, all areas south of Turner Road; at Turner Road to the Garfield county line, all areas south and east of Turner Road
		(j)	Whitman County lying in Ranges 43 through 46 East of Townships 15 through 20 North; T14N, Ranges 44 through 46 East; and T13N, Ranges 45 and 46 East.
(60)	sowthistle, perennial <i>Sonchus arvensis</i> ssp. <i>arvensis</i>	(a)	regions 1, 2, 3, 4, 7, 8, 9, 10
		(b)	Adams County of region 6
		(c)	region 5 except for sections 28, 29, 30, 31, 32, and 33 in T19N, R1E of Thurston and Pierce counties.
(61)	spurge, leafy <i>Euphorbia esula</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9, 10
		(b)	region 7 except as follows:

Name		Will be a "Class B designate" in all lands lying within:	
		(i)	T27N, R37E, Sections 34, 35, 36; T27N, R38E, Sections 31, 32, 33; T26N, R37E, Sections 1, 2, 3, 10, 11, 12, 13, 14, 15, 16, 26; T26N, R38E, Sections 5, 6, 7, 8 of Lincoln County
		(ii)	T24N, R43E, Section 12, Qtr. Section 3, Parcel No. 9068 of Spokane County.
(62)	spurge, myrtle <i>Euphorbia myrsinites</i> L	(a)	Pend Oreille County of region 4.
(63)	starthistle, yellow <i>Centaurea solstitialis</i>	(a)	regions 1, 2, 3, 5, 6, 8
		(b)	region 4 except those areas within Stevens County bounded by a line beginning at the intersection of State Highway 20 and State Highway 25, then north to intersection with Pinkston Creek Road, then east along Pinkston Creek Road to intersection with Highland Loop Road, then south along Highland Loop Road to intersection with State Highway 20, then west along State Highway 20 to intersection with State Highway 25
		(c)	region 7 except those areas within Whitman County lying south of State Highway 26 from the Adams County line to Colfax and south of State Highway 195 from Colfax to Pullman and south of State Highway 270 from Pullman to the Idaho border
		(d)	Franklin County
		(e)	region 9 except Klickitat County
		(f)	in all lands lying within Asotin County, Region 10, except as follows: T11N, R44E, Sections 25, 26, 27, 28, 29, 31, 32, 33, 34, and 35; T11N, R45E, Sections 21, 22, 23, and 25; T11N, R36E, Sections 19, 20, 21, 28, 29, 30, 31, 32, and 33; T10N, R44E, Sections 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 15, and 16; T10N, R45E, Sections 23 and 24; T10N, R46E, Sections 7, 8, 17, 18, 19, 20, 21, 22, 27, 34, and 35; T9N, R46E, Sections 1, 2, 12, 13, 14, 23, 24, 25, 26, 35, and 36; T9N, R47E, Sections 18, 19, 30, and 31; T8N, R46E, Sections 1, 2, 3, 9, 10, 11, 12, 13, 14, 15, 16, 23, and 24; T8N, R47E, Sections 8, 17, 18, 19, 20, 29, 30, 31, and 32.
(64)	Swainsonpea <i>Sphaerophysa salicula</i>	(a)	regions 1, 2, 3, 4, 5, 7, 8
		(b)	Columbia, Garfield, Asotin, and Franklin counties
		(c)	an area beginning at the Washington—Oregon border at the southwest portion of Section 15, R32E, T6N, then north to the northwest corner of Section 3, R32E, T7N, then east to the northeast corner of Section 3, R36E, T7N, then south to the southeast portion of Section 15, R36E, T6N, at the Washington—Oregon border, then west along the Washington—Oregon border to the point of beginning
		(d)	Weed District No. 3 of Grant County
		(e)	Adams County of region 6.
(65)	thistle, musk <i>Carduus nutans</i>	(a)	regions 1, 2, 3, 5, 6, 7, 8, 9, 10
		(b)	Spokane and Pend Oreille counties.
(66)	thistle, plumeless <i>Carduus acanthoides</i>	(a)	regions 1, 2, 3, 5, 6, 7, 8, 9, 10
		(b)	region 4 except those areas within Stevens County lying north of State Highway 20.
(67)	thistle, Scotch <i>Onopordum acanthium</i>	(a)	regions 1, 2, 3, 4, 5, 6, 8, 9
		(b)	region 7 except for those areas within Whitman County lying south of State Highway 26 from the Adams County line to Colfax and south of State Highway 195 from Colfax to Pullman and south of State Highway 270 from Pullman to the Idaho border
		(c)	Franklin County.

		Will be a "Class B designate" in all lands lying within:	
Name			
(68)	toadflax, Dalmatian <i>Linaria dal-</i> <i>matica ssp. dalmatica</i>	(a)	regions 1, 2, 5, 8, 10
		(b)	Douglas County of region 3 lying south of T25N and west of R25E
		(c)	Okanogan County lying within T 33, 34, 35N, R19, 20, 21, 22E, except the southwest, southeast, and northeast quarters of the northeast quarter of section 27, T35N, R21E; and the northeast quarter of the southeast quarter of section 27, T35N, R21E
		(d)	Kittitas, Chelan, Douglas, and Adams counties of region 6
		(e)	Intercounty Weed District No. 51
		(f)	Weed District No. 3 of Grant County
		(g)	Lincoln and Adams counties
		(h)	The western two miles of Spokane County of region 7
		(i)	region 9 except as follows:
		(i)	those areas lying within Yakima County
		(ii)	those areas lying west of the Klickitat River and within Klickitat County.
(69)	watermilfoil, Eurasian <i>Myrio-</i> <i>phyllum spicatum</i>	(a)	regions 1, 9, 10
		(b)	region 7 except Spokane County
		(c)	region 8 except within 200 feet of the Columbia River
		(d)	Adams County of region 6
		(e)	in all water bodies of public access, except the Pend Oreille River, in Pend Oreille County of region 4.

WAC 16-750-015 State noxious weed list—Class C noxious weeds.

Common Name	Scientific Name
archangel, yellow	<i>Lamium galeobdolon</i>
babysbreath	<i>Gypsophila paniculata</i>
beard, old man's	<i>Clematis vitalba</i>
bindweed, field	<i>Convolvulus arvensis</i>
butterfly bush	<i>Buddleja davidii</i>
canarygrass, reed	<i>Phalaris arundinacea</i>
cockle, white	<i>Silene latifolia ssp. alba</i>
cocklebur, spiny	<i>Xanthium spinosum</i>
cress, hoary	<i>Cardaria draba</i>
dodder, smoothseed alfalfa	<i>Cuscuta approximata</i>
goatgrass, jointed	<i>Aegilops cylindrica</i>
groundsel, common	<i>Senecio vulgaris</i>
hawkweed, nonnative species	<i>Hieracium sp.</i> , except species designated in the note in the left-hand column

Note:

This listing includes all species of *Hieracium*, except the following:

- Species designated as Class A noxious weeds in WAC 16-750-005;
- Species designated as Class B noxious weeds in WAC 16-750-011;
- Native species designated below:
 - Canada hawkweed (*H. canadense*)
 - houndstongue hawkweed (*H. cynoglossoides*)
 - long-beaked hawkweed (*H. longiberbe*)

Common Name	Scientific Name
– narrow-leaved hawkweed (<i>H. umbellatum</i>)	
– slender hawkweed (<i>H. gracile</i>)	
– western hawkweed (<i>H. albertinum</i>)	
– white-flowered hawkweed (<i>H. albidiflorum</i>)	
– woolley-weed (<i>H. scouleri</i>)	
henbane, black	<i>Hyoscyamus niger</i>
iris, yellow flag	<i>Iris pseudacorus</i>
ivy, English, 4 cultivars only:	<i>Hedera hibernica</i> 'Hibernica'
	<i>Hedera helix</i> 'Baltica'
	<i>Hedera helix</i> 'Pittsburgh'
	<i>Hedera helix</i> 'Star'
mayweed, scentless	<i>Matricaria perforata</i>
poison-hemlock	<i>Conium maculatum</i>
pondweed, curly-leaf	<i>Potamogeton crispus</i>
reed, common, nonnative geno types	<i>Phragmites australis</i>
rye, cereal	<i>Secale cereale</i>
spikeweed	<i>Hemizonia pungens</i>
St. Johnswort, common	<i>Hypericum perforatum</i>
tansy, common	<i>Tanacetum vulgare</i>
thistle, bull	<i>Cirsium vulgare</i>
thistle, Canada	<i>Cirsium arvense</i>
toadflax, yellow	<i>Linaria vulgaris</i>
water lily, fragrant	<i>Nymphaea odorata</i>
whitetop, hairy	<i>Cardaria pubescens</i>
willow-herb, hairy	<i>Epilobium hirsutum</i>
wormwood, absinth	<i>Artemisia absinthium</i>

WAC 16-750-020 Noxious weeds—Civil infractions—Schedule of monetary penalties. Civil infractions under chapter 17.10 RCW shall be assessed a monetary penalty according to the following schedule:

(1) Any owner knowing of the existence of any noxious weeds on the owner's land who fails to control the noxious weeds will be assessed the following monetary penalties. The penalties are assessed per parcel, per noxious weed species, per day after expiration of the notice to control filed pursuant to RCW 17.10.170:

(a) Any Class A noxious weed:

1st offense within five years	\$ 750
2nd and any subsequent offense	1,000

(b) Any Class B designate noxious weed in the noxious weed control region in which the land lies:

1st offense within five years	\$ 500
2nd offense	750
3rd and any subsequent offense	1,000

(c) Any Class B nondesignate noxious weed in the noxious weed control region in which the land lies; or any Class C noxious weed:

1st offense within five years	\$ 250
2nd offense	500
3rd offense	750
4th and any subsequent offense	1,000

(2) Any person who enters upon any land in violation of an order in force pursuant to RCW 17.10.210 will be assessed as follows:

1st offense within five years	\$ 500
2nd offense	750
3rd and any subsequent offense	1,000

(3) Any person who interferes with the carrying out of the provisions of chapter 17.10 RCW shall be assessed as follows:

1st offense within five years	\$ 500
2nd offense	750
3rd and any subsequent offense	1,000

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-020, filed 11/23/99, effective 1/3/00; 97-06-108, § 16-750-020, filed 3/5/97, effective 4/5/97; 93-01-004, § 16-750-020, filed 12/2/92, effective 1/2/93.]

[Title 16 WAC—p. 656]

WAC 16-750-025 Plant monitor list—Purpose. The purpose of the monitor list is to gather more information on suspect weeds as well as monitor for occurrence or spread. Information collected may be used to justify future inclusion on the state noxious weed list. There is no regulatory aspect to this list. Reasons for plant inclusion on the monitor list include:

(1) There is reason to believe the species is invasive or poses a potential threat to Washington.

(2) Additional information is needed on distribution, abundance, or biology.

(3) The species was once present in Washington and on the state noxious weed list. It is now being monitored for reoccurrence.

(4) There is need to verify existence (site investigation), verify identification, and/or obtain voucher specimen.

(5) It exists in an adjacent state or province or occurs on an adjacent state or province's noxious weed list and is not known to occur in Washington.

Native species of Washington will not be included on the monitor list. Each weed included on the monitor list will be included by vote of the noxious weed committee. A sponsor is required in order to place a weed on the monitor list. The current monitor list is kept in the state noxious weed board office.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-025, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-025, filed 12/2/92, effective 1/2/93.]

WAC 16-750-100 State noxious weed control board—Description—Purpose. The board was created pursuant to chapter 17.10 RCW, Noxious weeds—Control boards. The board is an advisory board to the department regarding the state noxious weed program and has rule-making and administrative responsibilities under chapter 17.10 RCW.

[Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-100, filed 12/2/92, effective 1/2/93.]

WAC 16-750-105 State noxious weed control board—Powers—Duties—Responsibilities. The powers and duties of the board include:

(1) Adopting rules defining the words "control," "contain," "eradicate," and the term "prevent the spread of noxious weeds";

(2) Conducting elections to the board, and adopting rules as set forth in this chapter establishing a position number for each elected position to the board and designating in which county noxious weed control board members are eligible to vote for each elected position;

(3) Electing officers, conducting meetings, holding hearings, appointing committees, entering upon any property to administer chapter 17.10 RCW, and adopting the necessary rules to carry out its powers and duties identified herein;

(4) When petitioned, holding a hearing in a county to determine the need for activation of the county noxious weed control board and, if such a need is found to exist, ordering the county legislative authority to activate and appoint members to such board;

(2007 Ed.)

(5) Each year or more often, adopting a state noxious weed list, classifying the weeds on the list, and entering written findings for the inclusion of each weed on the list;

(6) Sending a copy of the state noxious weed list to each activated county noxious weed control board, regional noxious weed control board, weed district, and each county legislative authority of each county with an inactivated noxious weed control board;

(7) When petitioned and following a hearing, ordering any county noxious weed board to include a noxious weed from the state list on the county board or district's weed list;

(8) Adopting a schedule of monetary penalties for each violation of chapter 17.10 RCW classified as a civil infraction and submitting the schedule to the appropriate courts;

(9) Employing an executive secretary whose qualifications, duties, and responsibilities are set forth in this chapter and RCW 17.10.070;

(10) Preparing and distributing a biennial written report showing the expenditure of state funds on noxious weed control; specifying how the funds were spent; the status of state, county, and district programs; recommending the continued best use of state funds; and recommending the long-term needs regarding weed control;

(11) Advising the director as provided for in chapter 17.10 RCW.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-105, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-105, filed 12/2/92, effective 1/2/93.]

WAC 16-750-110 State noxious weed control board—Mission. The mission of the board is to serve as responsible stewards of Washington by protecting and preserving the land and resources from the degrading impact of noxious weeds.

The board believes that prevention is the best approach and may be achieved through full implementation of the intent of the state noxious weed law. To further that, the board strives for enhanced public awareness through improved educational efforts.

The board does not deal directly in control activities but rather works to achieve this end through others. For that reason, the board seeks to improve communication, gain cooperation, and improve coordination of the efforts for noxious weed control.

The board believes noxious weed control is best carried out by strong, adequately funded programs at the local level. To achieve this, the board strives to build public support for local programs and to empower those programs to be more successful.

[Statutory Authority: Chapter 17.10 RCW. 98-24-026, § 16-750-110, filed 11/23/98, effective 1/2/99; 93-01-004, § 16-750-110, filed 12/2/92, effective 1/2/93.]

WAC 16-750-115 State noxious weed control board—Membership. The board is comprised of nine voting members and three nonvoting members selected as follows:

(1) Four of the members are elected by the members of activated county noxious weed control boards eligible to vote for the elected position established by the state noxious weed board. Two members are elected from the west side of the

state, the crest of the Cascades being the dividing line, and two from the east side of the state.

(2) The director is a voting member.

(3) One member is elected by the directors of activated weed districts formed under chapter 17.04 or 17.06 RCW.

(4) The Washington state association of counties appoints one voting member who must be a member of a county legislative authority.

(5) The director appoints two voting members to represent the public interest, one from the west side and one from the east side of the state.

(6) The director appoints three nonvoting members representing scientific disciplines relating to weed control.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-115, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-115, filed 12/2/92, effective 1/2/93.]

WAC 16-750-120 State noxious weed control board—Nominations—Elections—Terms of office—Vacancies. (1) Nominations and elections to board positions are conducted by regular mail.

(2) The board calls for nominations to elected positions at least sixty days prior to expiration of position terms.

(3) The board sends ballots to eligible activated county noxious weed control boards or weed district directors by regular mail at least forty-five days prior to expiration of each position term.

(4) Ballots must be returned no later than thirty days before expiration of each term. Only official ballots will be accepted. Photocopied ballots will be considered invalid.

(5) The board chairperson appoints a committee to count ballots and certify elections at least thirty days prior to expiration of each term.

(6) Results of elections are announced prior to the next scheduled board meeting.

(7) For the purpose of conducting nominations or elections, the board uses the current list of county noxious weed control board voting members and weed district directors.

(8) Any person who is a resident in and member of an activated county noxious weed control board in the counties represented by positions 1, 2, 3, and 4 may enter his or her name, or that of any qualified person in nomination for election to the board position by voting members of the above activated county noxious weed control boards.

(9) Any director of an active weed district formed under chapter 17.04 or 17.06 RCW may enter a name in nomination for election to position 5 on the board.

(10) Each candidate or each person nominating such candidate must complete a certificate of nomination, and must return it to the board postmarked by the date specified.

(11) The board creates a ballot listing the names in alphabetical order beginning with the last name first, of the candidates nominated to the position of the board: Provided, That the board shall remove the name of any person nominated who notifies the board in writing that he or she is unwilling to serve on the board.

(12) The ballot, along with the statement, if any, of each candidate in the election will be mailed by regular mail to each voting member of an activated county noxious weed control board or director of an active weed district. Only county board members or weed district directors within the

established position area are eligible to vote for the board member to represent that area.

(13) Each voting member of an activated county noxious weed control board or director of an activated weed district may cast one vote for the candidates appearing on the appropriate ballot and return it to the board as provided above and as per the dates specified.

(14) The candidate receiving the highest number of votes is elected: Provided, That if the candidate fails to receive more than fifty percent of the votes cast in an election, a second election will be held between such candidate and the candidate receiving the next highest votes and: Provided further, That if there is only one candidate, that candidate will be deemed elected unanimously.

(15) The term of office for all members of the board is three years from the date of election or appointment.

(16) Vacancies among board members appointed by the director will be filled by the director. Vacancies among elected members will be filled by special election by those entities eligible to elect that position for the expired term. Special elections follow the same procedure as regular elections. Board members appointed to fill vacancies will serve out the existing term.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-120, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-120, filed 12/2/92, effective 1/2/93.]

WAC 16-750-125 State noxious weed control board position numbers—Eligibility for voting. Position numbers for elected members of the board and those eligible to vote for each position are as follows:

POSITION	VOTING ELIGIBILITY
(1) Westside, southern tier	(a) Voting members of activated county noxious weed control boards in Grays Harbor, Mason, Thurston, Pierce, Lewis, Pacific, Wahkiakum, Cowlitz, Skamania, and Clark counties.
(2) Eastside, southern tier	(a) Voting members of activated county noxious weed control boards in Adams, Whitman, Asotin, Garfield, Columbia, Walla Walla, Franklin, Benton, Klickitat, and Yakima counties.
(3) Westside, northern tier	(a) Voting members of activated county noxious weed control boards in Whatcom, Skagit, San Juan, Island, Snohomish, King, Kitsap, Clallam, and Jefferson counties.
(4) Eastside, northern tier	(a) Voting members of activated county noxious weed control boards in Okanogan, Ferry, Stevens, Pend Oreille, Spokane, Lincoln, Grant, Kittitas, Chelan, and Douglas counties.
(5) Weed districts	(a) Directors of activated weed districts in Washington.

[Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-125, filed 12/2/92, effective 1/2/93.]

WAC 16-750-130 State noxious weed control board—Organization. The organization of the board is as follows:

(1) The officers of the board are the chairperson, vice-chairperson, and secretary. The title of the chief administrative officer is the executive secretary.

(2) Duties of officers.

(a) The chairperson presides at all meetings of the board, has the power to appoint committees, acts as ex officio member of all committees except the executive committee, serves as chairperson of the executive committee, serves as official signer of agreements between the board and public or private agencies, and performs such other duties as pertain to the office.

(b) The vice-chairperson performs the duties of the chairperson in his or her absence, acts as an ex officio member of all committees, and any other duties delegated by the chairperson. The vice-chairperson will assume the duties of and serve out the term of the chairperson upon permanent departure of the chairperson.

(c) The secretary is the official keeper of the minutes and, approves them, and presents them to the board for adoption. In the absence of the chairperson and vice-chairperson, the secretary performs the duties of the chairperson.

(d) The duties of the executive secretary, in addition to administrative duties assigned elsewhere in this chapter, are to keep a record of the proceedings of the board, notify all board members, county noxious weed control boards, and weed districts of meetings, act as an ex officio nonvoting member of all committees, negotiate agreements with public and private agencies on behalf of the board, and perform other responsibilities as delegated by the chairperson.

(3) Term of office. Term of office for officers of the board is twelve months effective July 27 of the year elected and ending July 26 of the following year.

(4) Election of officers. Elections will be held at the first meeting of the fiscal year in July. Officers are elected by a majority vote of the voting members present.

(5) Vacancies of officers other than chairperson, shall be filled by election of the voting board members present.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-130, filed 11/23/99, effective 1/3/00; 97-06-108, § 16-750-130, filed 3/5/97, effective 4/5/97; 93-01-004, § 16-750-130, filed 12/2/92, effective 1/2/93.]

WAC 16-750-135 State noxious weed control board—Meetings. (1) All meetings of the board are open and public and all persons are permitted to attend any meeting of the board, except as otherwise provided in the Open Public Meetings Act, chapter 42.30 RCW.

(2) Members of the public are not required, as a condition to attendance at a board meeting, to register names, other information, or otherwise to fulfill any condition prior to attending.

(3) Interruptions. In the event that any meeting is interrupted by any person as to render the orderly conduct of the meeting unfeasible, and order cannot be restored by the removal of individuals who are interrupting the meeting, the chairperson may order the meeting room cleared and con-

continue in session or may adjourn the meeting and reconvene at another location selected by a majority vote of the board members present. In such a session, the board will follow the procedures set forth in the Open Public Meetings Act (RCW 42.30.050).

(4) Adoption of rules, regulations, resolution, etc. The board shall not adopt any rules, regulations, resolution, etc. except in a meeting open to the public and then only at a meeting, the date of which is fixed by rule, or at a meeting of which notice has been given according to the provisions of the Open Public Meetings Act. Any action taken at meetings failing to comply with this section is null and void.

(5) Regular meetings—Schedule—Publication in State Register—Notice of change. The board will meet once every two months and at other times determined by the chairperson or by a majority of the voting members. If any regular meeting falls on a holiday, the meeting will be held on the next business day. The executive secretary files with the code reviser a schedule of the time and place of regular meetings on or before January of each year for publication in the Washington State Register. Notice of any change from this meeting schedule will be published in the State Register for distribution at least twenty days prior to the rescheduled meeting date.

(6) Notice. Ten days notice of all meetings will be given by mailing a copy of the notice and agenda to each board member, county noxious weed control board, and weed district.

(7) Special meetings. The ten-day notice may be waived for special meetings which may be called at any time by the chairperson, director, or a majority of the voting board members. Special meeting notification shall follow the procedures for special meetings set forth in the Open Public Meetings Act (RCW 42.30.080).

(8) Adjournments. If a meeting is adjourned before the advertised time, a written notice will be posted at the meeting place that specifies when the meeting was adjourned.

(9) Executive sessions.

(a) The board may hold an executive session during a regular meeting which may be called by the chairperson or a majority of voting board members present. No official actions will be taken at executive sessions. Executive sessions may deal only with matters authorized by RCW 42.30.110.

(b) Before convening in executive session, the chairperson shall publicly announce the purpose of excluding the public from the meeting place and the time when the executive session will be concluded. The executive session may be extended to a later time by announcement of the chairperson.

(10) Agenda. The agenda will be prepared by the executive secretary in consultation with the chairperson. Items may be submitted by all board members to the executive secretary at least fifteen days prior to the board meeting.

(11) Attendance. Each board member is expected to attend all board and assigned committee meetings. In the event a board member is unable to attend, he or she is requested to provide the chairperson or executive secretary with the reasons for the absence prior to the meeting. Any voting member who misses two consecutive board meetings without providing the chairperson or the executive secretary with the reasons for the absences prior to the meeting may be

removed from the board, following due notice and a hearing. Removal procedures may be initiated by a quorum vote of the board.

(12) Voting procedures. Board voting procedures on all matters are as follows:

(a) Five voting members constitute a quorum to conduct the affairs of the board.

(b) The chairperson may vote on all matters coming before the board.

(c) A roll call of all voting board members present may be requested on all motions by any member.

(d) All members have the right to move or second motions.

(e) Proxy voting is not permitted.

(13) Minutes. The minutes of all regular and special meetings, except executive sessions, will be promptly recorded and such records are open to public inspection.

(14) Press releases. All press releases and official information concerning board activities will be released from the board office.

(15) Public participation.

(a) Any person wishing to make a formal presentation at a regularly scheduled meeting of the board must notify the executive secretary of the subject matter at least fifteen days before the meeting.

(b) Permission to appear before the board will be granted by the executive secretary in consultation with the chairperson before the meeting. Permission includes the date and time of the meeting and the time set for formal presentation.

(c) The chairperson may, at his or her discretion, recognize anyone in the audience who indicates at the time of the meeting a desire to speak.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-135, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-135, filed 12/2/92, effective 1/2/93.]

WAC 16-750-140 State noxious weed control board—Committees. Standing committees shall fairly reflect the composition of the board and unless advertised and open to the public, not more than four voting members may attend a committee meeting.

(1) Executive committee. An executive committee is authorized to deal with housekeeping and personnel matters, subject to board approval at the next scheduled board meeting. The chairperson appoints the executive committee with approval of the board.

(2) Standing committees. The standing committees of the board are: Budget, executive, noxious weed, and education. The board chairperson appoints the chairperson and other members of each committee.

(3) Ad-hoc committees may be appointed from time to time.

(4) Committee voting procedures.

(a) All members of a particular committee have the right to vote. Other members in attendance may enter into discussion, but shall have no vote.

(b) Proxy voting is not permitted.

(c) All questions decided by the committee will be by majority of the committee members present.

(5) Advisory committees. Advisory committees are established by the board as deemed necessary to the function-

ing of the board. Advisory committees are limited in their scope to the purposes determined by the board.

(6) Notice. Notice of committee meetings shall be given to the executive secretary.

(7) Committee reports.

(a) Committee reports and recommendations are submitted to the board in writing except when committees meet in conjunction with the board.

(b) Minority reports may be submitted by members of a committee, if signed by those members.

(8) Committee compensation. Board members attending meetings of committees will, upon request, be reimbursed on the same basis as for attendance at regularly called board meetings.

(9) All committee appointments will be reviewed in July of even-numbered years.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-140, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-140, filed 12/2/92, effective 1/2/93.]

WAC 16-750-145 State noxious weed control board—Executive secretary—Definition. The executive secretary acts as the chief administrative officer for the board and:

(1) Implements and administers the statutes, administrative rules, and policies of the noxious weed control program assigned to the board;

(2) Plans, develops, and prepares administrative rules and policies for the state noxious weed control program in conjunction with the board and the department; arranges public hearings in compliance with the Administrative Procedure Act and acts as chief hearing officer for the board; conducts elections for positions on the board;

(3) Coordinates the educational and weed control efforts of county and regional noxious weed control boards and weed districts;

(4) Coordinates board activities with the department, maintains a liaison and performs coordinating activities with other public and private agencies;

(5) Negotiates agreements, on behalf of the board, with federal agencies, tribes, and other public and private agencies;

(6) Represents the board before the state legislature; coordinates the development, edits, and oversees the production of the biennial report to the county noxious weed boards and weed districts on how state funds were spent and recommendations for the continued best use of state funds for noxious weed control;

(7) Plans, prepares, and presents programs on noxious weed control, specific weed species, and the role of the board; acts as the principal spokesperson of the board to the media, technical audiences, and the public;

(8) Maintains a collection of scientific and technical information relating to noxious weeds and integrated vegetation management; prepares written findings for the inclusion of species on the state noxious weed list;

(9) Develops, maintains, and ensures dissemination of information relating to noxious weeds to county noxious weed control boards and weed districts and keeps the general public and program participants informed of board activities and accomplishments;

(10) Provides technical advice to county noxious weed boards and weed districts on the state noxious weed law and related rules;

(11) Plans and coordinates statewide approaches to selected noxious weeds, assists in the development of statewide noxious weed survey standards, coordinates efforts with department weed specialists;

(12) Coordinates the activities of the board by scheduling all regular and committee meetings; in consultation with the chair, prepares meeting agendas; prepares all board correspondence; updates board on local, state, and federal noxious weed activities; acts as an ex officio, nonvoting member of all committees;

(13) Records the official minutes of the board and ensures their distribution; maintains all board records, acts as public record officer;

(14) Oversees fiscal management of the board's administrative budget and cooperates with the department in budget development;

(15) Supervises all board employees, approves hiring, rehiring, promotion, and termination of all board employees and ensures these processes and any disciplinary actions comply with state and department personnel policies; notifies board and department prior to initiating an adverse personnel action against any employee;

(16) Performs other assignments as determined by the board.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-145, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-145, filed 12/2/92, effective 1/2/93.]

WAC 16-750-150 State noxious weed control board—Executive secretary—Hiring and dismissal. The board has the responsibility for hiring and removing from office the executive secretary. The executive secretary may be dismissed by a majority vote of the full board upon the recommendation of the chairperson and the executive committee. Prior to initiating a dismissal the executive committee will notify the department. Neglect of duty, gross inefficiency, gross incompetence, gross misconduct, malfeasance or willful violation of obligations may give cause for a recommendation for dismissal or dismissal. Before any action is taken by the board to dismiss the executive secretary, the chairperson and one member of the executive committee will confer with the executive secretary and provide in writing and fully explain the charges and contemplated recommendation for dismissal. The privilege of a hearing before the executive committee or full board will be granted to the executive secretary prior to any formal action taken by the board. The executive secretary is granted thirty days preparation time for the hearing and is entitled to present evidence, to be assisted by favorable witnesses, and to confront unfavorable witnesses at the hearing.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-150, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-150, filed 12/2/92, effective 1/2/93.]

WAC 16-750-155 State noxious weed control board—Exchange time. The board shall provide exchange time in lieu of overtime pay to its employees for hours worked in excess of forty hours per week. The time shall

accrue on an hour-for-hour basis. Exchange time has no cash value.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-155, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-155, filed 12/2/92, effective 1/2/93.]

WAC 16-750-160 State noxious weed control board—Antidiscrimination clause. No person shall be denied participation in any phase of the board's program activities because of race, color, religion, sex, marital status, national origin, age, physical, sensory, or mental handicap, or sexual orientation. This nondiscrimination shall extend to employment by the board including retirement, selection, hiring, promotion, benefits, and dismissal.

[Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-160, filed 12/2/92, effective 1/2/93.]

WAC 16-750-165 State noxious weed control board—Budget and finances. (1) All board funds must be expended in a manner consistent with board wishes. The executive secretary is authorized to make these expenditures as appropriate. All matters related to payment of compensation and other expenses of the board are subject to the State Budget and Accounting Act (chapter 43.88 RCW).

(2) Budget approval. The executive secretary prepares the biennial budget after consulting the budget committee. The budget will provide for costs associated with salary, personal benefits, travel, equipment, and goods and services for the operation of the board. The budget is reviewed by the board for recommendation to and approval by the department and office of financial management.

(3) The board reserves the right to pursue additional funds for its administrative budget independent of the department.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-165, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-165, filed 12/2/92, effective 1/2/93.]

WAC 16-750-170 State noxious weed control board—Legal counsel. On an as needed basis, a member of the attorney general's staff will serve as legal counsel for the board.

[Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-170, filed 12/2/92, effective 1/2/93.]

WAC 16-750-180 State noxious weed control board—Rules of order. *Robert's Rules of Order* newly revised shall serve as parliamentary authority for procedures not covered in these rules.

[Statutory Authority: Chapter 17.10 RCW. 93-01-004, § 16-750-180, filed 12/2/92, effective 1/2/93.]

WAC 16-750-185 State noxious weed control board—Access to public records and documents. (1) In accordance with the Public Records Disclosure Act of Washington, the board shall make available for public inspection and copying all public records, unless the record falls within the specific exemptions of RCW 42.17.260(6), 42.17.310, 42.17.315, or other statute which exempts or prohibits disclosure of specific information or records.

(2007 Ed.)

(2) The provisions of chapter 42.17 RCW shall be liberally construed to promote full access to public records so as to assure continuing public confidence and to assure the public interest will be fully protected.

(3) Place and times for inspection and copying. The executive secretary will make public records available for inspection upon request.

(4) Charges for copying. No fee shall be charged for the inspection of public records. The executive secretary may impose a reasonable charge for providing copies of public records and for the use by any person of agency equipment to copy public records, which charges shall not exceed the amount necessary to reimburse the board for its actual costs incident to such copying.

(5) Responses to requests. Responses to requests for public records shall be made promptly. Within five business days of receiving a public record request the board will respond as follows:

(a) With the record requested;

(b) Acknowledgment of the request and a reasonable estimate of the time it will take to provide the requested records or documents;

(c) Denying the public record request.

Denials of requests will be accompanied by a written statement of the specific reasons the request is being denied and shall have received a prompt review and final determination by the board's executive committee. Additional time may be required to respond to a request due to time needed to clarify the intent of the request, to locate and assemble the information requested, to notify third persons or agencies affected by the request, or to determine whether any of the information requested is exempt. In acknowledging receipt of a public record request that is unclear, the executive secretary may ask the requestor to clarify what information the requestor is seeking. If the requestor fails to clarify the request, the board will not respond to it.

[Statutory Authority: Chapter 17.10 RCW. 99-24-029, § 16-750-185, filed 11/23/99, effective 1/3/00; 93-01-004, § 16-750-185, filed 12/2/92, effective 1/2/93.]

Chapter 16-752 WAC NOXIOUS WEED CONTROL

WAC

16-752-001	Definitions.
16-752-005	Noxious weed—Tansy ragwort in hay.
16-752-010	Tansy ragwort in hay—Penalties.
16-752-300	Establishing quarantine.
16-752-305	Quarantine area.
16-752-310	Articles whose movement is restricted.
16-752-315	Regulations.
16-752-320	Costs of quarantine.
16-752-330	Violation and penalty.

LYTHRUM QUARANTINE

16-752-400	Establishing quarantine.
16-752-405	Lythrum quarantine—Regulated articles.
16-752-410	Lythrum quarantine—Prohibited acts.
16-752-415	Disposition of regulated articles.
16-752-420	Penalties.

WETLAND AND AQUATIC WEED QUARANTINE

16-752-500	Establishing wetland and aquatic weed quarantine.
16-752-505	Wetland and aquatic weed quarantine—Regulated articles.
16-752-507	Wetland and aquatic weed quarantine—Quarantine area.

- 16-752-510 Wetland and aquatic weed quarantine—Prohibited acts.
 16-752-515 Wetland and aquatic weed quarantine—Exemptions.
 16-752-520 Wetland and aquatic weed quarantine—Disposition of regulated articles.
 16-752-525 Wetland and aquatic weed quarantine—Penalties.

NOXIOUS WEED SEED AND PLANT QUARANTINE

- 16-752-600 Establishing the noxious weed seed and plant quarantine.
 16-752-605 Noxious weed seed and plant quarantine—Quarantine area.
 16-752-610 Noxious weed seed and plant quarantine—Regulated articles.
 16-752-620 Noxious weed seed and plant quarantine—Prohibited acts.
 16-752-630 Noxious weed seed and plant quarantine—Exceptions.
 16-752-640 Noxious weed seed and plant quarantine—Permits.
 16-752-650 Noxious weed seed and plant quarantine—Disposal of regulated articles.
 16-752-660 Noxious weed seed and plant quarantine—Penalties.

PURPLE NUTSEDGE QUARANTINE

- 16-752-700 Establishing quarantine for purple nutsedge.
 16-752-705 What articles are regulated under the quarantine of purple nutsedge and what do you need to ship regulated articles into Washington?
 16-752-710 Acts prohibited by this purple nutsedge quarantine.
 16-752-715 Disposal of articles regulated under this purple nutsedge quarantine.

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

- 16-752-115 Noxious weeds grant program—Purpose. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-115, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-115, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-120 Noxious weeds grant program—Forms. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-120, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-125 Noxious weeds grant program—Who may apply. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-125, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-125, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-130 Noxious weeds grant program—Application procedure. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-130, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-130, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-135 Noxious weeds grant program—Content of grant application. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-135, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-135, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-140 Noxious weeds grant program—Application evaluation—Ranking and notice of acceptance or rejection of application. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-140, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-140, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-145 Noxious weeds grant program—Evaluation criteria. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-145, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-145, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-146 Minimum standards for all grant project performance. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-146, filed 9/20/90, effective 10/21/90.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-147 Minimum standards for A and B designate control work—Grant funding. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-147, filed 9/20/90, effective 10/21/90.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-150 Noxious weeds grant program—Legal requirements. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-150, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-155 Noxious weeds grant program—Project monitoring, evaluation and reporting. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-155, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-155, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-160 Noxious weeds grant program—Billing of expenses. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-160, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-165 Noxious weeds grant program—Records retention, final report, unused allocated moneys. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-165, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-165, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-170 Noxious weeds grant program—Emergency and interim funding. [Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-170, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-170, filed 1/29/88.] Repealed by 99-11-087, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 17.10.250.
- 16-752-200 Emergency noxious weeds grant program—Purpose. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-200, filed 1/29/88.] Repealed by 90-20-002 (Order 2054), filed 9/20/90, effective 10/21/90. Statutory Authority: Chapter 17.10 RCW.
- 16-752-201 Emergency noxious weeds grant program—Allotment. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-201, filed 1/29/88.] Repealed by 90-20-002 (Order 2054), filed 9/20/90, effective 10/21/90. Statutory Authority: Chapter 17.10 RCW.
- 16-752-202 Emergency noxious weeds grant program—Application. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-202, filed 1/29/88.] Repealed by 90-20-002 (Order 2054), filed 9/20/90, effective 10/21/90. Statutory Authority: Chapter 17.10 RCW.
- 16-752-203 Emergency noxious weeds grant program—Requirements. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-203, filed 1/29/88.] Repealed by 90-20-002 (Order 2054), filed 9/20/90, effective 10/21/90. Statutory Authority: Chapter 17.10 RCW.
- 16-752-204 Emergency noxious weeds grant program—Payment. [Statutory Authority: Chapter 17.10 RCW. 88-04-044 (Order 1963), § 16-752-204, filed 1/29/88.] Repealed by 90-20-002 (Order 2054), filed 9/20/90, effective 10/21/90. Statutory Authority: Chapter 17.10 RCW.
- 16-752-325 Duration. [Statutory Authority: Chapter 17.10 RCW. 89-24-090, § 16-752-325, filed 12/6/89, effective 1/6/90.] Repealed by 91-03-045 (Order 2069), filed 1/11/91, effective 2/11/91. Statutory Authority: Chapter 17.10 RCW.

WAC 16-752-001 Definitions. The definitions set forth in this section shall apply throughout this chapter, unless the context otherwise requires:

- (1) "Director" means the director of agriculture of this state, or a duly authorized representative.
- (2) "Department" means the Washington state department of agriculture.
- (3) "Person" means any individual, partnership, corporation, association, agency, or organized group of persons whether or not incorporated.

(4) "Hay" means the harvested herbage of forage plants, including but not limited to grasses, legumes, sedges and rushes.

(5) "State board" means the Washington state noxious weed control board.

(6) "Applicant" means a project sponsor.

(7) "BARS" means the budgeting, accounting, and reporting system of municipal fiscal management.

(8) "Environmental checklist" means the form in WAC 197-11-960.

(9) "Executive secretary" means the state noxious weed control board executive secretary.

(10) "Integrated pest management" means a decision-making process which combines all feasible control techniques into a program for managing targeted noxious weeds including but not limited to prevention, monitoring, consideration of alternative methods, and evaluation.

(11) "Local noxious weed control agency" means any activated county or regional noxious weed control board created under chapter 17.10 RCW, any weed district created under chapter 17.04 RCW, or any intercounty weed district created under chapter 17.06 RCW.

(12) "Monitoring" means inspecting to gather and record site specific information on which decisions about treatment choices are to be based.

(13) "Objectives" means statements of precise outcomes which can be measured to determine actual accomplishments.

(14) "Principal investigator" means the person under whose direction the noxious weed control project will be carried out such as the county weed control coordinator or county weed control board chairperson.

(15) "Project sponsor" means the county legislative authority of a county with an activated noxious weed control board, a local weed control agency, or a combination of two or more agencies acting through a lead agency, responsible for implementing an approved project.

(16) "Public benefits" means those services, goods, or other benefits, whether tangible or intangible, which accrue to persons other than those on whose property weed control measures pursuant to this chapter are undertaken.

(17) "Public costs" means those costs, whether tangible or intangible, which accrue to persons other than those on whose property weed control measures pursuant to this chapter are undertaken.

(18) "Significant environmental harm" means a reasonable likelihood of more than a moderate adverse impact on environmental quality as set forth in WAC 197-11-794.

[Statutory Authority: Chapter 17.10 RCW. 90-20-002 (Order 2054), § 16-752-001, filed 9/20/90, effective 10/21/90; 88-04-044 (Order 1963), § 16-752-001, filed 1/29/88. Statutory Authority: RCW 17.10.235(2). 86-19-060 (Order 1907), § 16-752-001, filed 9/16/86.]

WAC 16-752-005 Noxious weed—Tansy ragwort in hay. The director finds that tansy ragwort, a noxious weed which is poisonous to livestock, is known to infest hay fields in Washington state. Under the authority of RCW 17.10.235, the following applies to the selling of hay in the state of Washington containing tansy ragwort (*Senecio jacobaea*) plants and parts thereof:

No person shall knowingly sell hay containing:

(1) Any viable tansy ragwort seed; or

(2) Greater than one-half of one percent of tansy ragwort by weight: Provided, That this section shall not be construed as establishing a safe level of tansy ragwort in hay for live-stock consumption.

[Statutory Authority: RCW 17.10.235(2). 86-19-060 (Order 1907), § 16-752-005, filed 9/16/86.]

WAC 16-752-010 Tansy ragwort in hay—Penalties.

All violations of WAC 16-752-005 are punishable under RCW 17.10.230.

[Statutory Authority: RCW 17.10.235(2). 86-19-060 (Order 1907), § 16-752-010, filed 9/16/86.]

WAC 16-752-300 Establishing quarantine. Yellow nutsedge (*Cyperus esculentus* L.) is a herbaceous perennial that is one of the most serious noxious weeds of agronomic crops. It propagates by seed, rhizomes, bulbs, and nutlets. Soil containing nutlets is the primary mode of spread in cultivated land. It is highly invasive and its unchecked spread would entail great economic loss to the agricultural industries of the state. It is a class B noxious weed designated for control in Thurston County (WAC 16-750-011 (33)(a)). Yellow nutsedge infests a plant nursery site at the Port of Olympia in Tumwater, Washington. Movement of material from this site initiates additional infestations. RCW 17.10.210 provides that either the director or the county noxious weed control board or a weed district may issue an order for quarantine and restriction or denial of access to land determined to be so seriously infested that control measures cannot be undertaken without quarantine of the land. The director has determined:

(1) That the identified site is so seriously infested as to require quarantine; and

(2) That the movement of contaminated materials from this site presents an immediate threat of infestation to the rest of the county agricultural and nonagricultural areas; and

(3) That the restriction of such spread is critical to control efforts.

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 03-16-038, § 16-752-300, filed 7/30/03, effective 8/30/03. Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-300, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-300, filed 1/11/91, effective 2/11/91; 89-24-090, § 16-752-300, filed 12/6/89, effective 1/6/90.]

WAC 16-752-305 Quarantine area. The quarantine area shall encompass the Port of Olympia, located at the Olympia Airport, Tumwater, Washington, and more particularly described as follows:

County of Thurston, state of Washington:

Parcel number 12711230000 - a portion of this parcel containing twenty-two acres of nursery production, more or less and three access roads one of which begins at 85th Avenue SW, the other two begin at Old Highway 99 SW.

A tract of land in Section 11, Township 17 north, Range 2 west of the Willamette Meridian, more particularly described as follows:

A portion of the Southeast Quarter of the Southwest Quarter and the Southwest Quarter of the Southeast Quarter, Section 11, Township 17 North, Range 2 West, W.N., Thurston County, Washington.

Beginning at the South Quarter corner of Section 11; thence north 01°53'09"E, along the center of the section line 77.6 feet to the southerly edge of the infestation, said point being 75 feet northerly of the center of taxiway 5 and the point of beginning; thence south 88°14'46"E parallel to and 75 feet northerly of taxiway 5, 1254.2 feet to coordinate pair N 604966 E 1043268 North American Datum 83/91, Washington State Lambert projection South Zone; thence north 01°32'43"E parallel to and 75 feet westerly of taxiway 5, 256.1 feet (N 605222 E 1043275); thence north 74°44'42"W, parallel to and 200 feet southerly of runway 8-26, 2031.7 feet (N 605757 E 1041315); thence south 12°53'58"W, parallel to and 75 feet easterly of taxiway 4, 744.6 feet (N 605031 E 1041148); thence south 88°14'46"E parallel to and 75 feet northerly of taxiway 5, 866.5 feet to the point of beginning. TOGETHER WITH: Two (2) 50 foot easements for ingress and egress described as follows: Beginning at the centerline of Old Highway 99 at coordinate pair N 605688 E 1044159; thence south 62°13'04"W, 337 feet (N 605531 E 1043861); thence south 37°34'07"W, 66 feet (N 605479 E 1043821); thence south 15°34'51"W, 432 feet (N 605063 E 1043705); thence south 56°50'31"W, 90 feet (N 605014 E 1043630); thence north 73°42'21"W, 135 feet (N 605052 E 1043500); thence south 73°31'23"W, 47 feet (N 605031 E 1043429).

Beginning at the coordinate pair N 605479 E 1043821; thence north 10°18'17"W, 78 feet (N 605556 E 103807); thence north 52°23'38"W, 93 feet (N 605613 E 1043733); thence north 74°34'40"W, 331 feet (N 605701 E 1043414); thence north 24°31'11"W, 63 feet (N 605758 E 1043388); thence north 0°58'36"W, 352 feet (N 606110 E 1043382).

Beginning at the end of 85th Avenue SE; thence north 14°36'57"W, 44 feet; thence north 1°44'13"E, 103 feet; thence north 1°44'13"E, 122 feet; thence north 4°2'36"E, 103 feet; thence north 1°44'13"E, 140 feet; thence north 3°31'10"E, 134 feet; thence north 1°44'13"E, 146 feet; thence north 6°43'41"W, 141 feet; thence north 6°3'35"W, 92 feet; thence north 1°44'13"E, 128 feet; thence north 15°58'50"W, 96 feet; thence south 85°33'49"W, 113 feet; thence north 88°15'39"W, 100 feet; thence north 85°38'49"W, 133 feet; thence north 88°15'36"W, 137 feet; thence north 85°28'20"W, 125 feet; thence south 89°35'45"W, 162 feet; thence north 88°15'32"W, 129 feet; thence north 88°15'30"W, 200 feet; thence north 88°15'28"W, 150 feet; thence north 85°43'23"W, 137 feet; thence north 88°38'45"E, 113 feet; thence north 83°56'12"W, 242 feet; thence north 40°38'52"W, 25 feet; thence north 40°6'3"W, 25 feet.

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 03-16-038, § 16-752-305, filed 7/30/03, effective 8/30/03. Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-305, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-305, filed 1/11/91, effective 2/11/91; 89-24-090, § 16-752-305, filed 12/6/89, effective 1/6/90.]

WAC 16-752-310 Articles whose movement is restricted. The movement of all plants and parts of plants of yellow nutsedge and soil contaminated with propagules of the plant, including soil in nursery pots, is covered by this quarantine. The movement of all balled and burlap nursery stock is covered by this quarantine.

[Title 16 WAC—p. 664]

[Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-310, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-310, filed 1/11/91, effective 2/11/91; 89-24-090, § 16-752-310, filed 12/6/89, effective 1/6/90.]

WAC 16-752-315 Regulations. Use of the property identified in WAC 16-752-305 is restricted as follows:

(1) All removal of sand or soil, potted nursery plants and other plants from the quarantine site, except as provided in subsection (6) of this section, is prohibited without a permit from the Thurston County noxious weed control board that details the end use and exact geographic destination.

(2) All land disturbing operations including excavation, utilities work, and similar activities require a one time, no fee permit from the weed board that obligates the operator to thoroughly hose down all equipment before leaving the quarantine area and record the next two areas where the equipment is used after leaving the quarantine area.

(3) All off-road vehicles are banned in the quarantine area without the written permission of the Thurston County noxious weed control board, except in designated parking areas.

(4) All weed control measures and irrigation practices in the quarantine area are to be conducted at the direction of the Thurston County noxious weed control board.

(5) Yellow nutsedge control shall take precedence over all other land uses in the quarantine area.

(6) The Thurston County noxious weed control board may designate and clearly mark portions of the site as free from infestation and allow removal of sand or soil from these areas without specific permit to nonagricultural sites: Provided, That adequate precautions are taken to prevent commingling of infested and noninfested soils and equipment used in the infested area is thoroughly cleaned before use in the area designated as uninfested.

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 03-16-038, § 16-752-315, filed 7/30/03, effective 8/30/03. Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-315, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-315, filed 1/11/91, effective 2/11/91; 89-24-090, § 16-752-315, filed 12/6/89, effective 1/6/90.]

WAC 16-752-320 Costs of quarantine. The costs of serving the notice required by RCW 17.10.210(2) shall be borne by the department. The costs of control work shall be borne by the landowner unless otherwise determined by the Thurston County noxious weed control board or the director in consultation with the Washington state noxious weed control board.

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 03-16-038, § 16-752-320, filed 7/30/03, effective 8/30/03. Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-320, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-320, filed 1/11/91, effective 2/11/91; 89-24-090, § 16-752-320, filed 12/6/89, effective 1/6/90.]

WAC 16-752-330 Violation and penalty. Any person who violates this quarantine shall have committed a civil infraction and shall be subject to the provisions of RCW 17.10.310 and 17.10.350 and WAC 16-750-020 which provides monetary penalties of up to one thousand dollars per infraction.

[Statutory Authority: Chapter 17.10 RCW. 98-01-056, § 16-752-330, filed 12/11/97, effective 1/11/98; 91-03-045 (Order 2069), § 16-752-330, filed

(2007 Ed.)

1/11/91, effective 2/11/91; 89-24-090, § 16-752-330, filed 12/6/89, effective 1/6/90.]

LYTHRUM QUARANTINE

WAC 16-752-400 Establishing quarantine. The *Lythrum* species (Purple loosestrife) is an aggressive, semi-aquatic, herbaceous perennial weed that has infested wetlands in the state of Washington causing serious harm to native plants and destroying habitat for birds and small mammals. Some varieties of loosestrife are cultivated and sold as nursery stock in the horticultural industry. The director of agriculture, pursuant to the powers provided in chapter 17.24 RCW and RCW 17.10.074 (1)(c), and chapter 15.13 RCW, has determined that the regulation and exclusion of this plant, plant parts, and seeds is necessary to preserve Washington wetlands from further infestation.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 90-15-062 (Order 2050), § 16-752-400, filed 7/18/90, effective 8/18/90.]

WAC 16-752-405 *Lythrum* quarantine—Regulated articles. The following are regulated articles:

(1) All plants and plant parts of the *Lythrum* species, *Lythrum salicaria* and *Lythrum virgatum*, and any hybrid cross thereof. This includes, but is not limited to, purple loosestrife and plants with horticultural names: The beacon, fire candle, brightness, lady sackville, Mr. Robert, Robert's, happy, roseum superbum, purple spire, rose queen, the rocket, morden pink, morden gleam, morden rose, dropmore purple, and tomentosum.

(2) All seeds of plants of the *Lythrum* species *Lythrum salicaria* and *Lythrum virgatum*.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 90-15-062 (Order 2050), § 16-752-405, filed 7/18/90, effective 8/18/90.]

WAC 16-752-410 *Lythrum* quarantine—Prohibited acts. It is prohibited to transport, buy, sell, offer for sale, or to distribute plants or seeds of the species *Lythrum salicaria* or *Lythrum virgatum* into or within the state of Washington. It is further prohibited to transplant wild plants and/or plant parts of these species in the state of Washington.

This prohibition shall not apply to plants or seeds collected for herbariums, research in control methods, creation of pressed specimens for educational or identification purposes and other scientific activities: Provided, That all activities requiring live plants and/or viable seed, except pressed specimens, are conducted under a permit from the director and are conducted so as to ensure that no infestation is created.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 90-15-062 (Order 2050), § 16-752-410, filed 7/18/90, effective 8/18/90.]

WAC 16-752-415 Disposition of regulated articles. Any plants, plant parts or seeds transported, bought, sold, offered for sale, or planted in violation of this order shall be subject to destruction or shipment back out-of-state if the director determines that such shipment does not present a danger of infestation.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 90-15-062 (Order 2050), § 16-752-415, filed 7/18/90, effective 8/18/90.]

(2007 Ed.)

WAC 16-752-420 Penalties. Any person who violates the terms of this quarantine shall be guilty of a misdemeanor and for each subsequent violation, shall be guilty of a gross misdemeanor. The director may also impose a civil penalty in an amount not more than one thousand dollars for each violation. Every person who, through an act of commission or omission, procures, aids, or abets in the violation shall be considered to have violated this chapter and may be subject to the civil penalty.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 90-15-062 (Order 2050), § 16-752-420, filed 7/18/90, effective 8/18/90.]

WETLAND AND AQUATIC WEED QUARANTINE

WAC 16-752-500 Establishing wetland and aquatic weed quarantine. Washington waters and wetlands are threatened by nonnative, aggressive weeds that destroy the commercial, aesthetic, fish and/or wildlife habitat, and recreational value of these areas. These rooted or freely floating plant species, when established, form dense stands or mats that clog irrigation systems and waterways, displace native species, alter fish and wildlife habitat, and/or seriously impact recreational use of the waterways.

Several species of *Spartina*, generally known as cordgrasses, are nonnative, highly aggressive weeds that have invaded salt water estuarine areas on the Washington coast, displacing native species and threatening bird and mammal habitats and the shellfish industry.

The director of agriculture, pursuant to the powers provided in chapters 17.10, 15.13 and 17.24 RCW, finds that the regulation and exclusion of these plants and plant parts are necessary to preserve Washington waters and wetlands, both fresh water and estuarine, from new or additional infestation. These requirements and restrictions, contained in WAC 16-752-500 through 16-752-525, are in addition to the requirements contained in WAC 232-12-271, "Criteria for planting aquatic plants and releasing wildlife," administered by the Washington state department of fish and wildlife.

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 04-19-004, § 16-752-500, filed 9/2/04, effective 10/3/04. Statutory Authority: Chapters 17.24, 17.10, and 15.13 RCW. 01-01-014, § 16-752-500, filed 12/6/00, effective 1/6/01. Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-500, filed 3/10/92, effective 4/10/92.]

WAC 16-752-505 Wetland and aquatic weed quarantine—Regulated articles. All plants and plant parts of the following are regulated articles under this chapter:

Scientific Name	Common Name
<i>Butomus umbellatus</i>	flowering rush
<i>Cabomba caroliniana</i>	fanwort
<i>Crassula helmsii</i>	Australian swamp stonecrop
<i>Egeria densa</i>	Brazilian elodea
<i>Epilobium hirsutum</i>	hairy willow herb
<i>Glossostigma diandrum</i>	mud mat
<i>Glyceria maxima</i>	reed sweetgrass, tall manna grass
<i>Hydrilla verticillata</i>	hydrilla
<i>Hydrocharis morsus-ranae</i>	European frog-bit
<i>Lagarosiphon major</i>	African elodea
<i>Ludwigia hexapetala</i>	water primrose
<i>Lysimachia vulgaris</i>	garden loosestrife

Scientific Name	Common Name
<i>Murdannia keisak</i>	marsh dew flower, Asian spiderwort
<i>Myriophyllum aquaticum</i>	parrotfeather
<i>Myriophyllum spicatum</i>	Eurasian watermilfoil
<i>Najas minor</i>	slender-leaved naiad, brittle naiad
<i>Nymphoides peltata</i>	yellow floating heart
<i>Sagittaria graminea</i>	grass-leaved arrowhead
<i>Sagittaria platyphylla</i>	delta arrowhead
<i>Spartina alterniflora</i>	smooth cordgrass
<i>Spartina anglica</i>	common cordgrass
<i>Spartina densiflora</i>	dense-flowered cordgrass
<i>Spartina patens</i>	salt meadow cordgrass
<i>Trapa natans</i>	water chestnut, bull nut
<i>Trapa bicornus</i>	water caltrap, devil's pod, bat nut
<i>Utricularia inflata</i>	swollen bladderwort

[Statutory Authority: Chapters 17.24 and 34.05 RCW. 05-21-028, § 16-752-505, filed 10/11/05, effective 11/11/05. Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 04-19-004, § 16-752-505, filed 9/2/04, effective 10/3/04. Statutory Authority: Chapters 17.24, 17.10, and 15.13 RCW. 01-01-014, § 16-752-505, filed 12/6/00, effective 1/6/01. Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-505, filed 3/10/92, effective 4/10/92.]

WAC 16-752-507 Wetland and Aquatic weed quarantine—Quarantine area. The area under the wetland and aquatic weed quarantine includes all counties within the state of Washington and all states, territories, and districts of the United States.

[Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-507, filed 3/10/92, effective 4/10/92.]

WAC 16-752-510 Wetland and aquatic weed quarantine—Prohibited acts. It is prohibited to transport, buy, sell, offer for sale, or to distribute plants or plant parts of the regulated plants, listed in WAC 16-752-505, into or within the state of Washington. It is further prohibited to intentionally transplant wild plants and/or plant parts of these species within the state of Washington.

[Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-510, filed 3/10/92, effective 4/10/92.]

WAC 16-752-515 Wetland and aquatic weed quarantine—Exemptions. The prohibition on transporting plants or plant parts in WAC 16-752-510 shall not apply to plants or plant parts collected for herbariums, research in control methods, creation of pressed specimens for educational or identification purposes and other scientific activities, except that all activities requiring live plants, except pressed specimens, are conducted under permit from the director and are conducted in such a way that no infestation is created. No permit is required to transport plants or plant parts, as a part of a noxious weed control activity, to a sanitary landfill, to be burned, or otherwise for disposition, if such activities are conducted under the supervision of an official weed control agency or other public agency with management responsibilities for the control efforts and are conducted in such a manner that seed dispersal or dispersal of propagative materials to uninfested areas is prevented. No permit is required for live plants for

educational or training purposes, if the specimens are disposed of in such a manner as to prevent infestation.

[Statutory Authority: Chapters 17.24, 17.10, and 15.13 RCW. 01-01-014, § 16-752-515, filed 12/6/00, effective 1/6/01. Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-515, filed 3/10/92, effective 4/10/92.]

WAC 16-752-520 Wetland and aquatic weed quarantine—Disposition of regulated articles. Any plants or plant parts transported, bought, sold, offered for sale, or planted in violation of this order shall be subject to destruction or shipment out-of-state if the department determines that such shipment may be done without danger of infestation. Any action will be at the expense of the owner or the owner's agent and without compensation.

[Statutory Authority: Chapters 17.24, 17.10, and 15.13 RCW. 01-01-014, § 16-752-520, filed 12/6/00, effective 1/6/01. Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-520, filed 3/10/92, effective 4/10/92.]

WAC 16-752-525 Wetland and aquatic weed quarantine—Penalties. Any person who violates the terms of this quarantine, as provided in WAC 16-752-500 through 16-752-520, or who aids and abets in such violation, shall be subject to criminal and/or civil penalties provided by law.

[Statutory Authority: RCW 17.10.235 and chapter 17.24 RCW. 92-07-024, § 16-752-525, filed 3/10/92, effective 4/10/92.]

NOXIOUS WEED SEED AND PLANT QUARANTINE

WAC 16-752-600 Establishing the noxious weed seed and plant quarantine. Washington agriculture, environmental quality and natural resources are threatened by nonnative, aggressive species of noxious weeds. A number of these noxious weeds are transported and sold within the state of Washington both as nursery plants and as seeds in packets of flower seeds or "wildflower mixes." Subsequent "escape" of these ornamentals has been a documented source of a number of infestations and has resulted in large public and private expenditures by landowners and land managers, weed boards, and weed districts and the department of agriculture to achieve the control mandated in chapter 17.10 RCW. The director of agriculture, pursuant to the powers provided in chapters 17.10 and 17.24 RCW, finds that regulation of the sale of these seed packets and plants is necessary to protect Washington agriculture and natural resources and prevent public and private costs of control.

Note: For rules prescribing the limits of prohibited and restricted noxious weed seeds as contaminants in certified seed, see WAC 16-300-010 through 16-300-025.

[Statutory Authority: Chapters 17.24, 17.10 RCW. 00-24-021, § 16-752-600, filed 11/28/00, effective 12/29/00; 92-07-025, § 16-752-600, filed 3/10/92, effective 4/10/92.]

WAC 16-752-605 Noxious weed seed and plant quarantine—Quarantine area. The area under the noxious weed seed and plant quarantine includes all counties within the state of Washington and all states, territories, and districts of the United States.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 92-07-025, § 16-752-605, filed 3/10/92, effective 4/10/92.]

WAC 16-752-610 Noxious weed seed and plant quarantine—Regulated articles. All plants, plant parts, and seeds in packets, blends, and "wildflower mixes" of the following listed species are regulated under the terms of this noxious weed seed and plant quarantine:

Scientific Name	Common Names
<i>Abutilon theophrasti</i>	velvetleaf
<i>Alliaria petiolata</i>	garlic mustard
<i>Amorpha fruticosa</i>	indigobush, lead plant
<i>Anchusa officinalis</i>	common bugloss, alkanet, anchusa
<i>Anthriscus sylvestris</i>	wild chervil
<i>Carduus acanthoides</i>	plumeless thistle
<i>Carduus nutans</i>	musk thistle, nodding thistle
<i>Carduus pycnocephalus</i>	Italian thistle
<i>Carduus tenuiflorus</i>	slenderflower thistle
<i>Centaurea calcitrapa</i>	purple starthistle
<i>Centaurea diffusa</i>	diffuse knapweed
<i>Centaurea jacea</i>	brown knapweed, rayed knapweed, brown centaury horse-knobs, hardheads
<i>Centaurea jacea x nigra</i>	meadow knapweed
<i>Centaurea biebersteinii</i>	spotted knapweed
<i>Centaurea macrocephala</i>	bighead knapweed
<i>Centaurea nigra</i>	black knapweed
<i>Centaurea nigrescens</i>	Vochin knapweed
<i>Chaenorrhinum minus</i>	dwarf snapdragon
<i>Crupina vulgaris</i>	common crupina
<i>Cytisus scoparius</i>	Scotch broom
<i>Daucus carota</i>	wild carrot, Queen Anne's lace
<i>Echium vulgare</i>	blueweed, blue thistle, blue devil, viper's bugloss, snake flower
<i>Euphorbia esula</i>	leafy spurge
<i>Euphorbia oblongata</i>	eggleaf spurge
<i>Galega officinalis</i>	goatsrue
<i>Helianthus ciliaris</i>	Texas blueweed
<i>Heracleum mantegazzianum</i>	giant hogweed, giant cow parsnip
<i>Hibiscus trionum</i>	Venice mallow, flower-of-an-hour, bladder ketmia, modesty, shoo-fly
<i>Hieracium aurantiacum</i>	orange hawkweed, orange paintbrush, red daisy flameweed, devil's weed, grim-the-collier
<i>Hieracium caespitosum</i>	yellow hawkweed, yellow paintbrush, devil's paintbrush, yellow devil, field hawkweed, king devil
<i>Hieracium floribundum</i>	yellow devil hawkweed
<i>Hieracium pilosella</i>	mouseear hawkweed
<i>Impatiens glandulifera</i>	policeman's helmet
<i>Isatis tinctoria</i>	dyers' woad
<i>Kochia scoparia</i>	kochia, summer-cyprus, burning-bush, fireball, Mexican fireweed
<i>Lepidium latifolium</i>	perennial pepperweed
<i>Leucanthemum vulgare</i>	oxeye daisy, white daisy, whiteweed, field daisy, marguerite, poorland flower
<i>Linaria dalmatica</i> spp. dalmatica	Dalmatian toadflax
<i>Mirabilis nyctaginea</i>	wild four o'clock, umbrella-wort
<i>Onopordum acanthium</i>	Scotch thistle
<i>Polygonum cuspidatum</i>	Japanese knotweed
<i>Polygonum polystachyum</i>	Himalayan knotweed
<i>Polygonum sachalinense</i>	giant knotweed
<i>Polygonum x bohemicum</i>	Bohemian knotweed, Japanese and giant knotweed hybrid
<i>Proboscidea louisianica</i>	unicorn-plant
<i>Pueraria montana</i> var. <i>lobata</i>	kudzu
<i>Salvia aethiopis</i>	Mediterranean sage
<i>Salvia pratensis</i>	meadow clary
<i>Salvia sclarea</i>	clary sage
<i>Senecio jacobaea</i>	tansy ragwort
<i>Silybum marianum</i>	milk thistle
<i>Solanum elaeagnifolium</i>	silverleaf nightshade
<i>Solanum rostratum</i>	buffaloburr
<i>Soliva sessilis</i>	lawnweed
<i>Sorghum halepense</i>	johnsongrass
<i>Spartium junceum</i>	Spanish broom
<i>Tamarix ramosissima</i>	saltcedar

Scientific Name	Common Names
<i>Thymelaea passerina</i>	spurge flax
<i>Torilis arvensis</i>	hedgearsley
<i>Ulex europaeus</i>	gorse, furze
<i>Zygophyllum fabago</i>	Syrian bean-caper

[Statutory Authority: Chapters 17.10, 17.24, and 34.05 RCW. 04-19-004, § 16-752-610, filed 9/2/04, effective 10/3/04. Statutory Authority: Chapters 17.24, 17.10, 15.13 RCW. 02-12-030, § 16-752-610, filed 5/29/02, effective 6/29/02. Statutory Authority: Chapters 17.24, 17.10 RCW. 00-24-021, § 16-752-610, filed 11/28/00, effective 12/29/00; 98-13-008, § 16-752-610, filed 6/4/98, effective 7/5/98. Statutory Authority: Chapters 17.10 and 17.24 RCW. 92-07-025, § 16-752-610, filed 3/10/92, effective 4/10/92.]

WAC 16-752-620 Noxious weed seed and plant quarantine—Prohibited acts. It is prohibited to transport, buy, sell, offer for sale, or to distribute plants or plant parts of the regulated species listed in WAC 16-752-610 into or within the state of Washington or to sell, offer for sale, or distribute seed packets of the seed, flower seed blends, or wildflower mixes of these regulated species into or within the state of Washington.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 92-07-025, § 16-752-620, filed 3/10/92, effective 4/10/92.]

WAC 16-752-630 Noxious weed seed and plant quarantine—Exceptions. The prohibition on transporting of plants and plant parts established in WAC 16-752-620 does not apply to plants or plant parts collected for herbariums, research in control methods, creation of pressed specimens, or for educational or identification purposes and other scientific activities, as long as all such activities are conducted in such a manner as to prevent infestation. In addition, plants or plant parts may be transported, as a part of a noxious weed control activity, to a sanitary landfill, to be burned, or otherwise for disposal under the supervision of a noxious weed control agency.

[Statutory Authority: Chapters 17.24, 17.10 RCW. 00-24-021, § 16-752-630, filed 11/28/00, effective 12/29/00; 92-07-025, § 16-752-630, filed 3/10/92, effective 4/10/92.]

WAC 16-752-640 Noxious weed seed and plant quarantine—Permits. The director may allow the movement of materials, otherwise prohibited, by special permit. Such permit shall specify the terms and conditions under which movement is allowed.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 92-07-025, § 16-752-640, filed 3/10/92, effective 4/10/92.]

WAC 16-752-650 Noxious weed seed and plant quarantine—Disposal of regulated articles. Any plants, plant parts, or seed packets transported, bought, sold, or offered for sale in violation of WAC 16-752-600 through 16-752-650 are subject to destruction or shipment out-of-state or other disposition in a manner prescribed by the director to prevent infestation. Any such action will be at the expense of the owner or the owner's agent and without compensation.

[Statutory Authority: Chapters 17.24, 17.10 RCW. 00-24-021, § 16-752-650, filed 11/28/00, effective 12/29/00; 92-07-025, § 16-752-650, filed 3/10/92, effective 4/10/92.]

WAC 16-752-660 Noxious weed seed and plant quarantine—Penalties. Any person who violates the terms of the noxious weed quarantine, as provided in WAC 16-752-600

through 16-752-650, or who aids or abets in such violation, shall be subject to the civil and/or criminal penalties provided in chapter 17.24 RCW.

[Statutory Authority: Chapters 17.10 and 17.24 RCW. 92-07-025, § 16-752-660, filed 3/10/92, effective 4/10/92.]

PURPLE NUTSEDGE QUARANTINE

WAC 16-752-700 Establishing quarantine for purple nutsedge. Purple nutsedge (*Cyperus rotundus*) is a highly invasive, herbaceous perennial and is commonly considered one of the most serious noxious weeds in agronomic crops in the world. Purple nutsedge propagates by seed, rhizomes, bulbs and nutlets. Soil containing nutlets is the primary mode by which purple nutsedge spreads. The establishment of purple nutsedge in Washington would cause reduction in native vegetation and great economic loss to the agricultural industries of the state. The director of agriculture, pursuant to authorities in chapter 17.24 RCW, RCW 17.10.074 (1)(c) and chapter 15.13 RCW, has determined that the regulation and exclusion of purple nutsedge and its parts, seeds, rhizomes, bulbs and nutlets is necessary to protect the environmental quality and agricultural crops of the state of Washington.

[Statutory Authority: Chapters 15.13 and 17.24 RCW and RCW 17.10.074 (1)(c). 00-02-033, § 16-752-700, filed 12/29/99, effective 1/29/00.]

WAC 16-752-705 What articles are regulated under the quarantine of purple nutsedge and what do you need to ship regulated articles into Washington? (1) All plants or plant parts, including seeds and propagules, of purple nutsedge (*Cyperus rotundus*).

(2) Any of the following articles entering the state of Washington from the states of Alabama, Arizona, Arkansas, California, Florida, Georgia, Hawaii, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, New York, North Carolina, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas and Virginia, the territories of Puerto Rico and the Virgin Islands, and any other state, territory or district of the United States where purple nutsedge is found are regulated under this quarantine as hosts or possible carriers of purple nutsedge:

- (a) All plants with roots, including planting medium and containers, except house plants;
- (b) Soil, humus, compost or manure, except for commercially packaged products;
- (c) Sod;
- (d) Plant crowns, tubers or roots for propagation; and
- (e) Any other article or means of conveyance, when it is determined by the department to present a hazard of spreading live purple nutsedge due to infestation or exposure to infestation.

(3) Shipment of the regulated articles described in subsection (2) of this section into or within the state of Washington must be accompanied by a certificate of inspection issued by an authorized state or federal regulatory authority from the state or entity of origin. The certificate of inspection must certify that the regulated article(s) has been inspected and found free of purple nutsedge and its plant parts, seeds, rhizomes, bulbs and nutlets.

[Statutory Authority: Chapters 15.13 and 17.24 RCW and RCW 17.10.074 (1)(c). 00-02-033, § 16-752-705, filed 12/29/99, effective 1/29/00.]

[Title 16 WAC—p. 668]

WAC 16-752-710 Acts prohibited by this purple nutsedge quarantine. (1) Except under the terms of a compliance agreement with the department, the movement into or within the state of Washington of the following is prohibited:

(a) All purple nutsedge plants and purple nutsedge plant parts, including seeds and propagules; and

(b) Soil, humus, compost, bark, sawdust, ground wood products or manure contaminated with purple nutsedge seed, rhizomes, bulbs or nutlets.

(2) Planting or propagation of purple nutsedge is prohibited.

(3) Shipment of any of the regulated articles described in WAC 16-752-705(2) into or within the state of Washington without a certificate of inspection issued in accordance with WAC 16-752-705(3) is prohibited.

(4) The department may issue permits allowing actions otherwise prohibited under this section subject to the department's conditions and provisions necessary to prevent the introduction, escape or spread of purple nutsedge as prescribed in the permits.

[Statutory Authority: Chapters 15.13 and 17.24 RCW and RCW 17.10.074 (1)(c). 00-02-033, § 16-752-710, filed 12/29/99, effective 1/29/00.]

WAC 16-752-715 Disposal of articles regulated under this purple nutsedge quarantine. Any regulated articles that are in violation of this purple nutsedge quarantine are subject to destruction, shipment out-of-state or other disposition in a manner prescribed by the department. Any such action will be at the expense of the owner or owner's agent and without compensation.

[Statutory Authority: Chapters 15.13 and 17.24 RCW and RCW 17.10.074 (1)(c). 00-02-033, § 16-752-715, filed 12/29/99, effective 1/29/00.]
